Interested followers of track are much pleased with the showing which U. V. M.'s small squad made in this meet, which seems to point to a renewed interest in a sport which had seemed to be dying out.

CAPTAIN HILL

Whose Hammer Throw of 131 feet 9 inches took another first for Green and Gold in E. I. C. C.

INTERFRATERNITY SERIES FAST APPROACHES FINALS

Interfraternity Baseball Series is approaching the finals.

In the past week several of the scheduled interfraternity baseball games have been played, and as a result, there are only two more games to be played, before the finals.

The league standings are:

LEAGUE A

		Won	Lost	Pct
1	Sigma Nu	2	0	1,000
2	Lambda Iota	2	0	1,000
3	Delta Psi	1	2	333
4	Sigma Alpha Chi	0	3	000

LEAGUE B

1	Kappa Sigma ...	3	0	1,000
2	Independents ...	2	1	666
3	Phi Delta Theta	1	2	333
4	Sigma Delta	0	3	000

LEAGUE C

1	Phi Mu Delta	2	0	1,000
2	Sigma Phi	2	1	666
3	Zeta Chi	2	1	666
4	Alpha Tau Omega	1	2	333
5	Tau Epsilon Phi	0	3	000

NATIONAL LIFERS BEATEN AGAIN BY RESERVES

Tuesday afternoon at Montpelier the Seconds administered another defeat to the National Life Insurance Co. by a score of 4-3. Talcott hurled for the Vermont boys and Ledden for the capital city aggregation. Both pitchers were rather wild but allowed only scattered hits throughout the game.

Errors at first and third by Gray and Foster gave the insurance men a two-run lead, which they held until the first of the ninth.

Then Guild got on base, with the score 2-0, and two men out. Gray came to bat, smacked a clean homer over Mobb's head into deep left field, and tied the score. Before the side was retired another run was scored and the Nationals were unable to catch up in their turn with the stick.

Seconds vs. B. H. S. Friday

Next Friday at Centennial Field the Seconds will meet Burlington High School. The scrubs have lost but one game out of five in matches with Goddard Seminary, St. Michael's 2nds, Cathedral High School and the National Life Insurance Co. of Montpelier so B. H. S. will have to put up their best brand of baseball to stand any chance in the game.

CLASS TRACK MEET AT CENTENNIAL TODAY

The interclass track meet, under the supervision of Assistant Manager Herron will be run off this afternoon at Centennial Field. There have been quite a large number of entries to this meet, which will serve the purpose of sifting out the new material, and finding men to strengthen the Varsity team in its encounters with Norwich and Middlebury.

The winning class in the meet this afternoon will be awarded the Cloughen Cup, and the members of the winning team will be awarded their class numerals.

TENNIS TEAM LOSES TO DARTMOUTH RAQUETEERS

The Vermont tennis team was defeated by a large margin in the match against Dartmouth at Hanover on Tuesday. The Big Green cleaned up in all six combinations, Hoag being the only man to play a deuce set. This was in the singles, and his opponent, Tourthellot, finally took the honors, however, a defeat by so worthy an opponent should not be taken too seriously for they undoubtedly have one of the strongest squads in the country, and have high hopes of cleaning up the Intercollegiates. Guild lost to Osgood by a 6-2 score in both sets of their singles match, but many of the points were long and hotly contested, and several ran into deuce games. Osgood's powerful stroke should carry him far in intercollegiate singles tournament, and with his partner, Boyd, will make a hard pair to defeat in the doubles.

The scheduled match with Middlebury had to be called off, and will probably be played at the last of this month or in early June, after an extended trip against other colleges. Freddie" Guild and probably Earl Roberts will enter in the Eastern Intercollegiate Tournament at Longwood held on May 26.

Results of the Dartmouth match:

SINGLES

Osgood—Guild 6-2, 6-2
Boyd—Roberts 6-0, 6-3
Partridge—Barrows 6-0, 6-0
Tourthellot—Hoag 6-1, 7-5

DOUBLES

Osgood, Boyd—Guild, Roberts 6-1, 6-1.
Partridge, Tourthellot—Barrows, Sykes 6-1, 6-0.

ALL TIME TRACK RECORDS OF GREEN AND GOLD STARS

The following records have been quite carefully compiled and corrected, but in case of errors, it is requested that corrections be sent to the Sporting Editor with data for verification.

100-yard dash, 10⅖	Brown,	'11
220-yard dash, 22⅞	Gutterson,	'12

Hammer throw, 124 ft. 2 in.	Hill,	'26

The leopard has been decided upon by the student council of Lafayette as the official mascot of the college athletic teams. A leopard skin has been ordered and will be worn by a student at the games.

GREEN AND GOLD SHUTS OUT MIDD TEAM ON HOME FIELD

Game Put Away in Second Inning—Burns Allows but Two Hits

Vermont shut out Middlebury on Saturday, May 9, by a 7-0 score on the home field. This is the second decisive victory which Coach charges have hung up over the M

"JIMMIE" BURNS

and White, with the usually invincible Frank Towne in the box on both occasions. "Jimmie" Burns toed the rubber for U. V. M. and was hurling them over in top form, allowing but two hits and retiring nine by the strike route, besides crossing the plate once and contributing one to the total of eleven safe bingles which his mates collected. Conway swung the big stick of the contest, getting three nice ones out of four trips, and bringing home three tallies. "Jimmie" Bradley and Carney each slammed out a neat double. Only one of the Moreymen reached second base, and none went beyond.

The Green and Gold put the game away in the second inning with a three-run lead. Patrick reached first on a fielder's choice, stole second, and scored on the first of Conway's rare "Jack" himself reaching the second sack. He advanced on Laubach's sacrifice, and this pair worked the double steal to perfection, bringing Conway across. Laubach then scored on a passed ball. The fifth and seventh frames each added one to the tally, as Burns helped to win his own game when he came through with a single which scored Conway and Laubach in the eighth. Bradley's double was the longest hit of the game, and was an easy triple but for a mistake in coaching signals.

Whitney starred for the Middlebury

Williams Bows to Vermont in Big 10-Inning Battle

(Continued from page 1)

...ost Williams the contest. Two Vermont batters had been retired on a strike-out and a rap to the pitcher, when Morse reached first on an infield hit. He went around to the hot corner when Cayward came through with a hit one, and the game was all over a moment later when the elusive pellet bounded away to the stands.

The entire Vermont infield looked like the proverbial million dollars throughout the game, and Burns starred in the outfield with four put-outs and an assist without a flaw.

Smith and Laubach were both in top form behind the bat, and Cavanaugh and Walker also starred for the visitors.

INTERSCHOLASTIC MEET TO BE HELD HERE MAY 23

Although all applications have not been received, it is thought that there will be ten or twelve different high schools entered in the Interscholastic Track Meet to be held here on May 23. It is rumored that Rutland and Burlington both have strong teams while several of the other high schools about the state have been turning in good records.

There will be trials at 9 o'clock on Saturday morning and the finals will be held in the afternoon. The contestants will be entertained by the Athletic Council while in the city, and will stop at the Sherwood Hotel. At 6:15 P. M. a banquet will be served them at the Sherwood dining hall. The winning team will be awarded a cup, given by the Athletic Council.

KLAN AND FUNDAMENTALISTS PUSH GAG LAW

Governor A. V. Donahey of Ohio has vetoed the bill passed by the State Legislature requiring the compulsory reading of the Bible in public schools. A survey of restrictions on teaching in public schools and colleges has been made by the *Civil Liberties Union*. On the basis of this survey the Union finds that "more restrictive laws have been passed during the last six months than at any other time in American history."

The survey shows that Congress passed one such law as a rider to the 1925 appropriation bill for the District of Columbia, providing "that no part of this sum shall be available for the payment of the salary" of any educational director "who permits the teaching of partisan politics, disrespect of the Holy Bible, or that ours is an inferior form of government." This law is now in force in the District of Columbia. If a similar attempt is made to attach a rider to the appropriation bill in the next Congress, it will be fought, according to the *Civil Liberties Union*, which did not learn

of the rider on the last bill until it had been passed.

Pennsylvania, Ohio, Delaware, West Virginia and Kentucky have laws requiring the reading of the Bible in public schools "without comment," and providing for the discharge and revocation of the certificate of a teacher who does not conform to the act. Similar bills have been introduced in the legislatures of Virginia, Texas, New Jersey and Washington. A test of this type of statute was made in South Dakota in March, where Judge McNenny ruled that a school board has the authority to expel high school students who leave the classroom during Bible reading. Thirteen students were expelled in this controversy. The test was brought by a local Catholic group.

The first state law prohibiting the teaching of the doctrine of evolution in public schools and colleges was passed in Tennessee in March. Resolutions of state boards forbidding the teaching of evolution were previously adopted in North Carolina and Florida.

Missouri State College and schools are forbidden by a rider to the appropriation bill recently passed to employ any person "who teaches, or advocates in public or private that the citizens of this state should not protect the government of the United States from aggression by other nations." In the recent Ohio Legislature a resolution was introduced authorizing an investigation of members of the faculties of three state universities, with the object of ousting "radicals and atheists." This resolution was killed by the Senate Committee to which it was referred.

The U. S. Supreme Court already has before it one restrictive school law passed in Oregon and aimed at abolishing all parochial schools. The chief sources of inspiration for this new and unprecedented crop of gag laws on teaching are the Ku Klux Klan, the Fundamentalists, and the professional patriotic societies. The Klan is back of the compulsory Bible reading and anti-parochial school laws, the Fundamentalists back of the anti-evolution bills and the professional patriots back of the anti-radical and anti-pacifists measures.

College Humor

"What did you get in Ec?" queried Morris. "I got an f."

Alfred—"I got a—."

Morris—"Impossible, no one ever got A in Ec from him."

Alfred—"No, I got a D. He never gave an A, I know. I suspect he never got one to give."

"The Profs. are partial," murmured the Frosh returning home after midyears.

"The courts are corrupt," declared the lawyer when he lost his case.

—*Free Press.*

English Instructor—"Now, Dodds, give us a picture of what Carlye was like."

Dodds—"I can't do that; someone changed the one in my book."

Instructor—"Just what I thought, didn't read the book. Here is your theme back again—I got one just like it last year!"

Dodds—"Good, I didn't know it was that new."

"Who's that odd guy drawing pictures?" sighed Homes.

Balch—"He's another illuminated engineer who thinks a square root makes a good log."

Sergeant B.—"Hands down when you're standing at attention, Morse."

Morse—"I know it, but I'm not standing at attention, can't you see."

Neighbor—"I see your wife hangs the wash on your aerial."

Radio Bug—"Yes, very convenient. When it has been out long enough, the loud speaker starts saying, 'How dry I am,' and she takes it in."

Dumb—"How will the team ever get all the mud off their football clothes?"

Dumber—"That's why they have a scrub team."

Do College Students Insure Their Lives?
The Answer Seems to be "Yes"

Do You Know

That in a test recently made with upper-class students of both sexes in fourteen representative colleges, 140 out of 351 said they carried life insurance policies?

It is significant that 40% of undergraduates have insurance on their lives—a notable advance over what prevailed twenty, or even ten, years ago.

This shows that college students and their parents think life insurance is of considerable use in connection with the educational program.

Parents believe in it because they have something invested for the benefit of their children. Students realize that their lives have an economic value. Taking life insurance is an expression of faith in the value of a college education.

The John Hancock is particularly interested in insuring college men and women and in obtaining college graduates for the personnel of the field staff.

Five centuries were attended from [illegible] and one other explained. Now the student body is striving demanding the resignation of the institution's president.

The men's debate teams of Ottawa University recently with the pertaining what [illegible]. The schools entered in the Men's Pentangular League are Baker, Emporia, Park, Missouri Wesleyan and Ottawa.

Professor P. Debye of the University of Zurich, Switzerland, who recently completed a series of lectures at the physics department of M. I. T. is now lecturing in Cornell University. His three lectures on X rays, the constitution of matter and theories of electrons were well attended and found very interesting by the student body.

A professor at the University of Wisconsin has departed from the Orthodox methods of an instructor by encouraging the members of his class to send him anonymous letters criticising him and his methods of teaching.

Ohio State University is to have a new Rock Garden as an addition to the department of horticulture. The geological history of the state will be portrayed by the various sorts of rocks and boulders. Plants common to rocky territories will be cultivated and studied by students in this line.

Engineering students of the University of California recently [illegible] laboratory work to participate in the annual celebration of Engineers' Day. A bombardment of [illegible] hurled from the top of [illegible] started the festivities which [illegible] with a parade featuring [illegible] floats, and an exhibition of the work of the students taking [illegible] courses. To conclude [illegible] the 300 participating undergraduates congregated for a barbecue and dance during which high voltage phenomena were exhibited from the roof of the chemistry building.

Sailing West to India

SINCE the days of Christopher Columbus men have felt the call to "sail due west to find India." In an organization like Westinghouse, such pioneering spirits find happy haven as research engineers. Their every thought is a question—every energy bent to discover new and more effective answers to baffling problems.

Immediately Westinghouse began to build alternating current machines of high voltages, for example, the problem of insulation became acute. For thirty-five years high voltages and insulation have formed an endless chain of problems. As voltages have been increased, improved insulation has been demanded. As insulation has been bettered, voltages have been still further increased.

One striking contribution of Westinghouse research engineers has been the perfection of an entirely new insulation material—Micarta. Possessing many of the qualities of metal, paper, fiber, mica, gum, rubber, Micarta differs in radical respect from all of these.

It serves industry indirectly as improved insulation material, and also directly because of superiorities when used for gears, propeller blades, and the like.

Only the imagination can set a limit on the field for the research engineer—or for an organization that centers around him.

This advertisement is one of a vocational series, outlining the fields for engineering achievement in the Westinghouse organization. A copy of the entire series will be sent to anyone requesting it.

(Continued on page 10)

To the Marco Polos of 1925

DID the world hold more to be conquered in the days of courtly adventurers than it does for daring knights of '25? Does no far-off Cathay, no passage to India, beckon today?

Perhaps not; but that's no reason for disappointment. Graduates of 1925 can look about them without sighing for worlds to conquer.

There's high adventure in the lanes of business. Hidden riches underfoot. The very hugeness of modern business demands bigger vision than ever before. Thinking must be on a scale so large and unfettered by precedent as to try any man's mental equipment.

Here's where college graduates have proven their mettle. Here's where they have justified their training. And here they may indulge their fancy for exploring new fields.

MEDITATIONS

As may be seen from captions in various places, this is the second attempt in recent years to give vent to the interest in writing, of a more permanent nature, which we believe exists to a degree on the campus.

It may be well at the outset to say that we do not regard most of this material as in the class for which national magazines will vie with one another and offer the authors' prices for publication rights.

We do believe that in a few of the contributions here offered there is promise of talent worth bringing into play. If this issue does no more than encourage undergraduates to attempt more writing of a permanent or semi-permanent sort, it will have justified well its publication.

WE have tried to make this issue sufficiently varied in its content to please as nearly as possible everybody. Realizing that he who tries to please all will probably please none, we have taken what seemed to us best of the contributions offered, trying at the same time to preserve as much balance as possible.

So we have short stories, narratives, essays, and humorous skits. Some of them are peculiarly collegiate: some have the world as their field.

IT will be observed that in this issue we have departed from the make-up of the first Literary Number, setting most of our matter in wider columns and, of course, cutting down the number of columns to the page. This is intended not only for variety, but for easier reading as well.

The Catty Co-ed
Says

Walking along
The campus
The other day,
This little kitten
Heard a frosh
Expostulating
About some
Co-ed.
Such flattering
Remarks!
Really girls
What can be done
For the poor boys?
We wear
Their ties,
Their shirts,
Their pants,
And even
Cut our hair,
And they—
Poor fools! !
Think it's because
They're so handsome
And chic!

• • • • •

But it is somewhat
Difficult
To distinguish
Which is the
Best man,
Ed or the co-ed.
Really the only
Difference
Is the co-oing.

• • • • •

The dear boys,
In their childhood
Were fed upon
Fairy stories
The heroine
Always had
Ropes
(Well 'nough for ladders)
Of tresses;
And yards
And yards
For dresses;
Was as helpless
As a kitten
And as gentle
('Cept when she
Scratched!)
But now--with
Ed:ucation
We have shed
Our fine feathers
For a suit
Of reg'lar clothes.
That's no
Sin
Nor Sign
That you can
Swear at us
Like men.
We haven't

"Look—
the Parker Stamp
—they gave you
the REAL
Duofold!"

"Naturally, REAL people gave it!"

ONE of the things that make real people real is giving the right thing at the right time in the princely way: at Graduation, on a Birthday, on a Leave-taking, at a Wedding, at a Party.

And classic beauties like the Duofold Pen and Pencil aren't likely to escape their appreciative eyes.

As for this super-smooth 25-year guaranteed pen point, 8 men out of 10 recently picked the Duofold blindfolded from 11 new pens of various makes.

Man-size hands fairly glory in Duofold's full-handed grip—with its Over-size ink capacity, its symmetry and balanced swing!

Yes, a sure way to make someone happy is to give this new Duette—Duofold Pen and Pencil to match.

Now ready at all leading Pen counters

THE VERMONT CYNIC

Second Literary Issue

Dead Men's Crimes

By Bertrand W. Chapman, '26

IT was nothing unusually sensational. Just a prosaic account of a murder, occupying a scant third of a column on an inner page. Such a story as can be found in any large city daily, the type that possesses no mysterious tangles to pique curiosity; the sort at which the average reader takes but a casual glance and, uninterested, sighs in a bored manner and turns to the sporting section.

Yet when Grant Whittaker noticed it in his leisurely perusal of the morning sheet, still damp and fresh from the press room, he quickly cut a yawn in half, let his chair down on all fours, and registered interest. Spreading the paper on the desk beside his typewriter, he bent over it, becoming more and more absorbed as he read. For an interim after reading and re-reading the impersonal account of the crime he stared across the "city" room of the *Star* unseeingly, his brows wrinkled in concern. Then picking up the page he stepped to the desk of the City Editor.

"Sandy, I want a leave of absence beginning tomorrow morning," he stated, his voice quickened with suppressed excitement.

Sandy Baxter raised his pencil from the copy he was correcting and gave him a quizzical appraisal over the rim of his glasses. It was not in the ordinary course of events for Whittaker to become excited over anything, no matter how out of the ordinary. Interested, he glanced down at the paper Whittaker flattened before him and read the head which he indicated.

"Foul Play Suspected in Death of Wealthy Cedarville Banker," it said.

He dropped his eyes to the lead under the date line:

> Murder is suspected in the case of the death of Amos Sneeden, wealthy banker and one of Cedarville's most prominent citizens, whose body was found lifeless in his study this morning at his home at 144 Commonwealth Avenue.
>
> The discovery was made by the housekeeper, Mrs. Sarah Munn, upon her return from the home of her sister with whom she had spent the night. Immediately Mrs. Munn notified the authorities.
>
> Coroner Ezra Wilcox, who was called to make an inquest, declared that death had been caused by paralysis of the heart as a result of cyanotic poisoning.
>
> Traces of the deadly poison, potassium cyanide, were found upon the analysis of a half-filled glass of whiskey that stood on a table near the body. Sneeden made a practice of drinking a glass of toddy just before retiring, which was always prepared by his secretary.
>
> Miss Ellen Hale, Sneeden's private secretary, was arrested this afternoon by order of the prosecuting attorney James Black, on circumstantial evidence. An investigation had revealed that Miss Hale had purchased a quantity of the poison at a local drug store several days previously, stating, at the time, that she was getting it for Mr. Sneeden, who was known as something of an amateur chemist.
>
> The bottle of cyanide was discovered, partly empty, on a shelf in the victim's laboratory. Mrs. Munn, the housekeeper, stated when questioned that two evenings before Mr. Sneeden's death she had heard Sneeden and Miss Hale quarreling angrily, and that the latter had been weeping when she had come out of the study to return to her home on the next street.
>
> Miss Hale, when questioned by the attorney, said

Grant tapped his finger on the paragraph implicating the private secretary.

"She never did it," he exclaimed vehemently. "She's not the kind who would resort to any kind of crime—let alone murder."

Realizing that his positive statement must have sounded absurd to Sandy, he went on hastily.

"Probably you're wondering why I'm so wrought up over this—well—Cedarville happens to be the little town in which I grew up as a boy. S' about two hundred miles west of here—near Pittsfield. That's where I came from nine—no, ten years ago, when I first started on the *Star* as a 'cub.' My father"

Grant hesitated a moment as though he disliked to make further revelations, his face setting in serious lines, but continued.

"He was accused of having embezzled ten thousand dollars of the funds of the Cedarville bank in which he was employed as teller. Sneeden was the cashier. In some manner the shortage was discovered and the employes of the bank were checked up. A thousand dollars was found in an envelope in a side pocket of my father's overcoat which hung on a rack.

At that time my father was in poor health—the disgrace of the accusation caused his death a few weeks later, before he was brought to trial. The other nine thousand was never located. That left me alone. Dad and I had always been pals. My mother died when I was a baby."

Grant stopped abruptly and looked out of the window, visibly moved, then laughed a little huskily to cover his agitation.

"I was just finishing my Senior year in the academy at that time—of course I left without graduating. I've always had the desire to return and clear my father's name. Ever since, I have kept closely in touch with Sneeden's activities, and I am convinced that he took the money and slipped the thousand in my father's coat to make him appear guilty. For he has been growing steadily wealthy."

Whittaker made a helpless gesture. "Now that he is dead I guess that all chance of revealing his guilt is gone. This girl, Ellen Hale, lived in the house next door. She was two or three years my junior—had beautiful golden hair—used to wear it in long braids. She was about the only person who was decent to me at the time of my father's misfortune. I haven't forgotten."

"I see. That's certainly too bad," said Sandy, sympathetically. "Sure, go ahead, take a couple weeks, or more, if you want. I'll assign Marty to the follow-up story on the Rankin-Jewel trial. And you may be able to prove your dad's innocence after all. Dead men's crimes are sometimes unearthed in mighty peculiar ways."

As Grant stepped off the train onto the station platform his pulses quickened and he gazed about expectantly. The brick station with its pergola-like roof, which had always impressed him in his boyhood as a marvellous structure, a mysterious connecting link with the far corners of the earth, now appeared drab and dingy, holding much in common with divers other depots he had passed through while on out-of-town assignments for the *Star*. Faces had changed; while there was the usual assortment of loafers and onlookers sprinkled about the platform. Grant recognized no one among them.

He felt a twinge of disappointment, of lonesomeness, as he walked to the rear of the station, but this quickly disappeared in his surprise. The street which curved back of the station, which he remembered as having been either a sea of soot-blackened, oozy mud, or lacerated with ruts was now covered with a smooth pavement of cement.

Across the street, facing the station, where the Harri-

...departed, celebrated nearby.

son House had stood, a ramshackle wooden structure, a melancholy, soot-grimmed yellow in the center of a grassy square, was a new hotel of ornamental brick with a wide, white-posted veranda stretching its front. Fresh gold letters above the entrance proclaimed it the Cedarville Inn. This change was to Grant oddly disturbing, for the old familiar landmark had seemed to be symbolical of the town.

He was on the point of going over and securing quarters when it occurred to him that an old friend of his father's had been proprietor of the Mansion Tavern on Upper Main street. At once he decided to stop there. Walking past "Tom" Mason's hardware store, he noticed with a thrill that it was unchanged, but a new block with large plate-glass windows displaying a shining assortment of cars of well-known makes had superseded the old Cedarville livery stable. Main street, to, had altered somewhat; there was an intermingling of old familiar establishments and imposing new shops of most modern vintage.

But the Mansion Tavern, further along the street, was as it had been when he had attended the academy, save for a certain appearance of prosperity. The lawn in front was neatly trimmed and edged with round white boulders, while the three-story block itself was resplendent in green and white.

A closed car nosed up to the curb by the Old Corner Drug Store as Grant was approaching, and a rather stout individual laboriously squeezed from behind the wheel and stepped to the sidewalk.

Fatty Stevens! Fatter than he had ever been in school days, when they had collaborated on youthful ventures. Grant's first impulse was to hail him raucously and joyfully, but he checked himself. A wave of the old feeling of hurt and aloofness surged upon him.

He was the son of "Curt" Whittaker, again in the town that had unjustly condemned his father. He walked briskly by but without being recognized.

His face lighted as he stepped into the lobby of the tavern, for there behind the desk stood "Jed" Martin. Hair a little whiter and thinner, bald spot on the top of his head a little larger and shinier, his eyes still shrewd, yet holding in their depths a kindly twinkle, Jed was the same.

As Grant came up to the desk he nodded affably. "Howdy, what can I do for you?" He turned the register for Grant to sign, when asked if there were any rooms.

"Guess we can fix you up, all right," he smiled.

With a movement that had become almost involuntary from years of repetition, as Grant laid aside the pen Jed spun the entry book, and glanced at the signature. Then he looked up quickly, a mixture of incredulity and surprise on his face.

"Say, you ain't Curt Whittaker's son, be you?" he questioned unbelievingly.

Grant nodded, a smile flickering across his countenance. Jed beamed, and extending a hand over the desk, shook Grant's heartily.

"You're dad'n I were always real good friends. Glad to see you."

He turned away to sell a cigar to a drummer and Grant sat down in a Windsor chair in front of a bay window that overlooked the lawn. A moment later Jed hitched a chair up in front of him, and pulling out a yellowed meerschaum pipe, "lighted up."

"I suppose you read in the city papers all about what happened to Amos Sneeden—murdered right in his study-room the other night. You did?"—as Grant answered affirmatively—"Thought probably. Sort of a mystery as to who done it. He had a sight of enemies.

"Fool folks around here kinda think that Ellen Hale done it—'member her don't you? S'all foolishness. She's too nice an' good."

He bit the stem of his pipe savagely and scowled.

"Well," he continued, as Grant inclined his head in agreement, "you see, she's his sec'tary—or rather was. Been workin' for the critter over a year.

"People hereabouts thought 'twas funny when she started in. Her dad—Nat Hale—was treated rank by old Sneeden—got him mixed up in some kind of a business deal—done him out of house and home. He had a shock an' didn't live more'n a year after. Ellen had just finished business college—an' she stayed at home an' cared for him until he died. Pitiful

"But—spite of all this—don't think that she had anythin' to do with it—had a skinful of enemies, Sneeden did—as I said before.

"They locked Ellen up in jail the other night—prosecuting attorney swore out a warrant. Got her arrested on what they call circumstantial evidence—humph! Charged with second degree murder. Sheriff Tupper had to serve the warrant—he didn't have no heart to do it—done everything he could to make her comfortable at the jail. His wife stayed with her in the cell all night to keep her company an' not let her get to feelin' too badly. A few of us boys got together the next morning an' went her bail."

"How do they know that Sneeden didn't poison himself?" Grant asked, as Jed finished.

Jed snorted contemptuously. "Humph—too cussed mean to dispose of himself. Didn't never hear of a skunk suicidin', did you?"

For a while Jed smoked thoughtfully, apparently reflecting upon the situation, and Grant also was silent. Out of doors, in the sky, which had been gray and overcast all day, the clouds were rapidly breaking up with patches of blue showing through their rifts. Grant watched them go scudding away, then turned to Jed and exclaimed: "Haven't seen many familiar faces yet, Jed."

"That so?—Well, everybody's around, 'cept them that's died or moved out of town since you've been away. Now there's Hank Loomis, you know him, always was complainin' about his rheumatism, an' still is. In to see me this mornin' an' cheerfully discuss his ailments."

"Where's Frank Higgins, 'Del' Strong and 'Joe' White?" asked Grant. "I attended the academy with them—we were classmates."

"Let's see, now," said Jed. "Frank is workin' in Boston for a lumber concern, Joe's out west somewheres, an' Del Strong is teachin' at the academy. Went all the way through Dartmouth College. He's—there's someone you know, this minute, 'Limpy' Lane."

Jed pointed out of the window at a wizened, warped figure with dangling, ape-like arms, far too long for the sleeves of his ragged coat, who dragged a withered leg as he half-limped, half-shuffled around the corner of the tavern.

"He ain't able to do much. Darned tough to be born like that—little bit touched in the head, too. I let him do odd jobs about the place an' give him enough to eat an' a room has been fixed up in the barn so's he can sleep there—Gosh, supper time already," Jed broke off, turning his head in the general direction of the dining room, from which came the tinkle of a bell.

Following the meal, Jed came out on the porch where Grant was smoking in the warmth of the fast lowering sun, and took a chair beside him. Then, as they were smoking together, Grant revealed to him his purpose in coming to Cedarville. As they talked Grant incidentally mentioned his desire of years' duration: that of freeing his father from the stigma that overshadowed his name.

"We may get away with a lot of evil doings in this world, but sooner or later we're bound to be found out, maybe not until we are dead, but sometime," said Jed, philosophically. He knocked the ashes from his pipe by rapping it against his heel.

"Say—let's go over an' call on Ellen, right now. Funny, I never thought of it before. Oh, come on," as Grant was about to demur. "It'll do her good—take her mind off this mess, an' she'll be glad to see you. She's stayin' with her aunt on Maple street."

Ellen's face lighted into a smile as she came to the door to receive the visitors, and recognized Grant. He stammered a little incoherently as they shook hands, and was glad when they were seated in the parlor, for he wanted time enough to collect himself. Grant had of course taken it for granted that she had grown up, but she had changed so utterly that she swept him off his feet.

Ellen had become the most attractive young lady that he had ever seen. Her hair, soft, wavy and golden, was arranged neatly save for a stubborn curl that caressed her forehead. She was lithe and slender, and moved with the grace of perfect health. But her eyes, large and expressive with long lashes, were somber and troubled even when she smiled.

They spent the evening in reminiscences of their high school days, and interesting bits that time had woven into their lives. It was after eleven when Jed and Grant bade her goodnight and left for the tavern. As they walked along together, Grant was filled with gladness that he had been swayed by his impulse to return to Cedarville. He expressed his thoughts aloud.

"Jed," he exclaimed, "I'm mighty glad I came down here. We've just got to get Ellen out of this tangle, at any cost."

Jed smiled shrewdly in the darkness. "Yes, son, I guess we have," he agreed.

Following breakfast the next morning, Grant went to the home of Dr. Wilcox, the coroner, who lived on Main street across from the public library. Here he introduced himself as a reporter and met two detectives representing the state.

They went at once to Sneeden's home, a gloomy, weather-stained mansion, built in a style of the 80's, the grounds of which were surrounded with a high, untrimmed hedge. Grass had grown tall on the lawn, while pines and maples stood on either side of the house, their branches half-shielding the upper windows.

First investigating the laboratory, the party went upstairs to the study where a thorough examination revealed no clue. The grounds were inspected last, but nothing that would have any bearing on the case was discovered.

IEVEMENT & OPPORTUNITY

Inspection Morning

By PHILIP B. DANIELS, '27

ANY fraternity house on this fair campus of ours might doubtless have been taken as the scene of a tragedy enacted recently.

The time is 7:30, and the place the average ram-pasture. All is quiet on the Potomac, and the mound on each bed rises and falls with peaceful regularity, though the noises issuing forth might well be considered indicative of internal dissension.

Suddenly a hideous din is set up as the single much abused alarm clock possessed in common by the gang goes off. It is immediately throttled with an effective clutch born of long practice, but the harm has been done.

Inquiring heads are thrust up, a couple of upperclassmen, released from the bonds of Colonel Holden's army, grunt sleepily and turn over for another hour in the arms of Morpheus, but the militarists are unceremoniously yanked from beds of ease by the strong-armed energetic brother who hit the hay earlier than the rest, who silences any objections with the magic words: "Federal Inspection, only half an hour, get going!"

In most cases this gets results, though a few don't know what it's all about 'til they have been pushed halfway down the stairs.

Then there is silence for a few seconds, but it must be an ominous one, for there follows an outburst from every room in the place, and every inmate seems in tougher shape than the rest of the bunch.

All one can hear is "S'pose I can get by without a shave?"

"Anybody got a razor blade?"

"Where the devil is my R. O. T. C. shirt?"

"Who in blank's been playing football with my hat?"

"That's the way everything goes in this house, anyway."

"Hey, lay off that, will you? It happens to be mine."

There is a particularly violent upheaval when one of the boys decides that he can't get by without taking some of the wrinkles out of the Colonel's trousers, but on looking for the flatiron he is told that one of the Frosh took it up to Converse Hall last night.

The would-be presser howls a howl of anguish that is truly heart-rending, and vows that if he doesn't break a paddle on that scrime at next meeting he'll know the reason why. Others who hadn't thought of pressing anything, until now that they have found it a physical impossibility, join in the blood-thirsty demand for vengeance until tension is in a measure relieved by the finding of two old-fashioned flatirons in the kitchen, which are kept on the jump until the last minute before formation on the hill.

But the crowning masterpiece of all is disclosed when one of the Juniors who is a bear for punishment in military, rates big with the Old Man and all that, starts telling of his forehandedness in taking the Munsons down and getting a first-class shine the night before.

His exultation is rudely slaughtered when he finds one of the Freshmen (the lowly Frosh getting their stuff in at the crucial moment, this morning) putting on said shoes.

Of course, the usual kick rends the air, but for once it is sadly without grounds, for it was the Freshman's shoes which had made the trip to the shine parlor, and he is all set for inspection in that respect, if in no other.

And so it goes, just one darned thing after another, 'til we are off up the hill to dance when the officers pull the strings.

These inspections are great instructors in the gentle art of profanity with all the flourishes, for most of the quotations have been expurgated.

A Story With a Point

By IMA NUTTI AMM, '25

"HELLO Abe. How's the slide-rule this morning?" Elinor Thompson and two friends at the University of Wichigen, greeted "Slide-Rule Abe," as he was known on the campus, eyeing him with an amused smile as they watched him make a hurried computation on the instrument mentioned before making any reply.

"Are you employing a new hairdresser?" he asked.

"No. Why?" queried the girl.

"Your hair is waved in the shape of parabolas. Yesterday they were hyperbolas," was the reply.

"Well, how shall I curl my hair?" she demanded.

"A catenary would be the logical shape," came the studied response.

"Will you curl it for me?" Eleanor was true to form.

"I might give you a sinusoidal wave."

"Poor boob," thought Elinor.

Just then Abe turned to pick up a book he had dropped. A misgiving shot through his mind, but he had already started to bend over.

A hasty calculation on the slipstick in his left hand seemed to reassure him that the stresses in his trousers nowhere exceeded the ultimate tensile strength allowable.

But alas! Shades of Newton!!

Just as he touched the book he heard—or felt—a sickening ripping sound, and heard a more or less suppressed feminine titter.

His face resembled that of a well made-up actress.

His ordinary sublime self-confidence somewhat shaken, he checked his result, this time using two hands, to see if his ears had lied.

They had not! Shades of Pascal, nevermore would he trust one hand in so important a calculation.

Moral: Draw your own.

Dead

By EVELYN R. METCALF, '25

ELMER Judd sat by the window of his elaborately furnished library and stared with intensity at the moth-miller struggling weakly against the pane of glass. For at least three hours today he had sat there with fascinated gaze bent on the torn-winged moth. Yesterday and the day before he had been there too.

The servants of the house were apprehensive. Mr. Judd had acted so strangely of late, refusing food and neglecting his customary diversions. Today, he had not been to the office at all—had persisted in sitting in his easy chair and staring at the window-pane. Surely he must have had grave trouble. Perhaps the market was wrong.

Now as the little winged creature drooped on the window-sill a cold sweat broke out on Elmer Judd's brow.

"Are you done for?" he inquired in a strained voice. "Have you really found out that we're caught and that there's no hope for us?"

One of the frayed wings quivered. Judd's eyes brightened with nervous eagerness.

"Come on!" he beseeched in a whisper, "come on!"

With a last mighty effort, the moth-miller whirled dizzily in the air and thumped against the window-pane. Then, losing its poise, it fell to the sill, landing on its back.

Judd stared at it, then drew his hand across his eyes.

"Dead," he mumbled—"dead."

He sighed, and, taking a revolver from his pocket, placed it against his temple.

departed, celebrated nearby.

Honorable mention in this division went to Delta Psi for its contrast of the wife of 1880, busied with her housework while her husband loafed around, with the 1925 edition, who rolled her own and flirted with two young chaps while her "worser half" did the dishes.

In the women's division, the winner included a number of pulchritudinous damsels from Redstone, with an inscription announcing them as "More Husbands' Wives." Honorable mention went to the Rand House dramatization of a "Mem Book," with many memories of Junior Week.

Cahoon, borne by—or bearing—an airplane and looking through an empty bottle, was "Scouting for Her Husband's Wife." Honorable mention in the individual class was awarded Herbert C. Crandall, '28, of Lambda Iota, who was attempting to communicate by radio [illegible] the lady in question.

[illegible] are the feminine Gaston and Alphonse.

But to leave the dotted line for a moment, and to consider the sterner sex, we find the honors almost as closely confined in all but name.

Claire Cayward, our one and only four-letter athlete, was awarded the unusual distinction of being designated not only most popular, but also most respected. Also, he was voted the most versatile—which may be why he is known as "Squirrel."

Don Gannon, the class sunshine artist, is also the wittiest of the class by popular acclaim. Don is also, strange to say, the class Mack Sennet.

Ed Brush is considered to have done the most for Vermont, while it was conceded that Lefty Holway is most likely to succeed among the men. Perhaps Brush has done most because he has been the busiest. Or perhaps it was because, as the class [illegible] then Brad Soule and Marjorie Pierce have gotten for after four years' observation, they are declared the most conscientious man and woman in their class.

Florence Kelly is the wittiest senior girl and Ruth Hobill the most sarcastic, while Mrs. Lefty Holway (nee Kay Cox) is "Sweet Sixteen." Lefty himself is considered most sarcastic of senior men, but "wee Dickie" Cogswell is Sweet Sixteen and—

Completing Group I, we chronicle with a feeling of sadness that Ed Sargent is decisively chosen as the dizziest man and Ruth Twohey the dizziest woman, while Steve Stevens and Irene Allen share the same honor as class gloom artists. And Bill Van Patten and Marian Odell are "Most High Hat."

Somebodies must have been sweeping, for they say Phil Holway will be

(Continued on page [illegible])

Antrum Mortis

By Evo A. Lucchina, '28

Caves—dark, dank, hissing labyrinths—lay under the densely wooded pre-Alpine Mont Formecario. Wolves, bears, and snakes infest all but the most mammoth, the Antro della Mort. From far distant ages, men and beasts alike have made long detours over jagged rocks and through treacherous hillside swamps to avoid that dreaded cave.

A gaping entrance of purplish stone, covered with dark mosses and knotted woodbine, makes the scene most forbidding. When sun, moon, or light peeps into the gloomy cavern, a lurid flame shines from its unfathomed recesses. The cave has not only a mystical appearance; it has a murky record, a terrifying reputation. Of the many men who have tried to delve into its secrets, all have paid the supreme penalty. Once entered, the cave allows no departures.

Only once, perhaps for a warning, the unyielding cave emitted a wanderer from its otherwise unexplored jaws and passages. Through a day of torture he lived to tell his weird tale; then came a death of agony. Tradition of ages passes down the grim warning to posterity:

Three soldiers, Maro, Mario, and Marco, fleeing from the unspeakable horrors of an Austrian army camp, were escaping to their homes in southern Lombardy. Twilight, with its red reflection from the crimson Alps, found the wan fugitives struggling over the darkening Mont Formecario. They were exhausted, and sought shelter in the nearest cave. Weariness overcame them; they fell to the sandy floor and munched their hard-tack and sour herbs. Suddenly a vine moved; a body appeared; a beautiful silvery fox stood outlined against the twilight.

Per Bacco! We complain of food," whispered Maro. "Here is some. To your clubs. Let's get it."

Up they sprang; the fox wheeled and ran past them into the dark depths of the cavern with the three hungry deserters in full pursuit. The passage was dark, but the sandy floor level. Only a faint outline of the game they could distinguish. Ahead, afar off, a faint purplish light burst out in flashes, accompanied by a deep rumble. A thunder storm must be raging, thought the pursuers.

All spurred their efforts, the men and the animal. They were approaching the exit. Marco stumbled. For a second he was dazed. Recovering, he trudged slowly down the passage.

From a large, perfect circle protected by a thin oily membrane, red light flashed intermittently into the cave. Marco stooped to rub a sore spot. A crash came as the huge membrane broke under the force of his companions. Marco saw a scene—Oh, for words that will picture it! Maro and Mario stood dumbfounded at the circular entrance.

A spectre—a centaur—no, a beast—rather, call it a monster—a yellow form shaped like a gigantic ant stood before them. It was a fearsome thing, with huge quivering antennae, large glowing eyes, fiery ocelli, and gore-foamed mouth. The thorax, with its black appendages large as a gorilla's arm, preceded a long, slender, hairy abdomen with spiracles as large as a wound of daggers.

How those eyes glared! Nearby stood an anvil, a hammer and forge, not of the blackness of iron but white. The Monstrosity muttered mysteriously and opened its mouth. Two purple pythons emerged from it and wound themselves lightly, without their characteristic garroting compression, about the bodies of the two men.

The fugitives shouted; they begged for mercy; they called on God; but they were helpless in the power of the serpents.

The monster uttered a syllable. The python released Maro, who desperately sought to flee from the terrifying spectacle. Quickly and determinedly the python grasped and coiled about him. Mario was released. Intimidated by the fate of his comrade, he stood shivering before his unknown master.

"Now, divest," ordered the monster in broken Middle German.

Fearful, the deserter quickly ripped off his ragged uniform and stood shaking.

"Did I not tell you to divest?" asked the gaunt ant, angrily.

The soldier shook the more, and opened his mouth the wider.

"You insolent fool!" shouted the spectre, "You cannot divest? All right! I will do it for you."

The ant seized a white scalpel, and springing at the poor soldier inflicted a series of ghastly cuts. Mario struggled, uttering cries of agony. The python sprang up and pinned him to the floor. The dripping scalpel flashed again. Blood blurred the sickening scene. Marco fainted.

When he revived the anvil was ringing with steady beats of a hammer. The monster had just forged a link of a long chain of purest white.

"Thus do I repay the wrongs done my ancestors by the haughty vertebrates. You take my formecary, the formecary of the giant ants? I live forever! I revenge the wrongs done the great prehistoric nation of ants," muttered the ant with his hammer pointed at Maro.

Picking up a pair of large white forceps, the ogre turned to his glowing forge to take some new metal. On the fire lay parts of a skeleton, the ribs and skull of a man—Mario. The monster plucked up a piece with his forceps, and began to hammer it. The sight was unbearable. Marco turned away. He must leave this horrid monster's den.

The cruel blacksmith was beating loudly on the anvil. Marco started to run. No sooner had he begun his retreat than the clanging ceased.

"Stop there!" cried a guttural voice. "What do you mean by leaving? You shall have your turn."

Marco ran on without glancing backward. Something was following him. It was coming nearer. It was on him. A loud crash came. Marco fell and lost all senses.

When he revived, he found his arm pinned beneath a small boulder, together with a dying python. Pushing the rock from his mangled arm, he ran from the cave. Insane, he fled down the mountain, into the village. The Austrian guards took him.

He told his story in great suffering, and died of brain fever. The cave had revealed its secret, but since then it has not been so lenient.

Physics For Fountain Pens

By Harley Armstrong, '26

AMONG the inventions made for the use of man and then greatly cursed by him, is that familiar device called the fountain pen. I do not refer to the old-fashioned type into which ink is poured from a dropper, spoon, or paper funnel, but to the more recent models which the owners can feed gracefully in public.

My concern is for the so-called "self-filler." This title is misleading, because it would indicate to the individual who has never manipulated this variety of convenience that common-sense on the part of the operator is non-essential—a misconception which brings me to the suggestion that a course in Physics for Fountain Pens might be appended to the list of Freshman requirements.

The most tragic phases of the careers of fountain pens are not evidenced by the numerous notices of those which have been lost (and, occasionally, found).

The life of misery which a fountain pen must endure is demonstrated by the unscientific methods which are often applied in an attempt to fill them, and by the harsh complaints which follow because they "go dry so soon." The course which I propose would consist of a short lecture illustrated by a laboratory demonstration.

Material sufficient to supply an instructor who has had any elementary physics will be found in the directions accompanying any new pen. Explanation should be made that atmospheric pressure is the force which makes a self-filler possible, and that once the point of the pen has been withdrawn from the ink, it defeats the operator's purpose to move the lever again.

The instructor should show that raising the lever expels both ink and air from the barrel, while replacing it creates a vacuum which will be filled by air or ink, the choice to be determined by the location of the penpoint with respect to air, or fluid.

A test of the application of these principles could be given in the form of the practical problem of filing one pen from another. Completion of this problem would qualify one to pass the course.

In view of the approaching final examinations, observance of the above methods will make a minimum of ink borrowing and its accompanying distractions, and will thus be an immediate relief to offender, observer, and proctor.

Conflicting Elements

or

The Story Plot Per Se

By ELEANOR S. BARRELL, '27

THE Villain glared out at the Hero and the Heroine, who were sitting on the garden bench.

"Aha," he grimaced, "they won't be so happy in a minute! I'll make my appearance!"

"Oh, here comes the Villain!" cried the Heroine. "Quick! We must escape!"

"No, you are safe," answered the Hero. "Just let him come. I'll deal with him, and the author can't stop me either, because I will have to live until the end of the book."

The Villain, coming up, just heard his last words. "Take care, you young upstart," he roared, "or we'll end the book right here and now."

"Oh, please don't," implored the Heroine. "Don't take him from me! We can't disappoint the author this way."

"Did you hear what I said?" cried the Villain. "I'll prove my word," and he flung a smashing blow at the Hero's head.

"Oh, help!" begged the Heroine feebly, and turned the other way.

The Hero dodged the blow and leapt for a low branch of the tree above him. He caught it and swung his feet backward with an awful stroke, just as the Villian was about to attack again. The stroke, however, hit squarely and toppled him completely over. The Hero dropped to the ground, grasped the Heroine by the hand and they fled simultaneously over the hill.

The Villain nursed a bruised temple.

"The scoundrel! Wait till I get him! He's too fresh a bird to leave straying around in this book. And I'm the one to dispose of him. There, I have renewed strength! Determination sets in my face! I will down him this time! My name will be no defrauding prefix—no, it shall ring vibrantly throughout these pages. My author shall be proud of me. I shall prove myself equal in position with that stuckup Hero. Onward! I advance!"

The Villain strode forth. His chin was on a firm line. His shoulders set straight. He disappeared over the hill altogether.

A small boy crept from beneath the garden bench. "I'll help him," he volunteered. "Big sister didn't give me that last quarter she promised me for keeping still." He disappeared over the hill also, with several adverbs.

The scene changed, finding the Hero walking arm and arm with the Heroine along the seashore.

"We are having a nice time," he volunteered.

"Yes, aren't we?" she replied, "but still, I thought this was the way we were supposed to be at the end of the book. Something exciting ought to happen now. You should save me from some terrible mishap."

"Ah, here it approaches in the shape of that fearful Villain! Can't he keep out of the way? He seems to come into every chapter. The reader will be monotonized by his consistency of appearance."

The Villain had changed his tactics. He decided to greet the Hero cordially, and then trip him up by a twist of his leg. But easier thought of than accomplished. The Hero would not be greeted cordially.

"Well, you unworthy individual! Where might be your destiny?" And aside he added: "In the sea, I hope. That's the best place for him."

"It's none of your nonsensical business," retorted the Villain. "I'll do as I please. I'm a character in this book, and just as darn much privileged as you are"—and under his breath he added—"and more so—in a minute he will be conversing with the jellyfishes."

"Is that the way to conduct yourself in a conversation before a lady, and my Heroine at that? You insulting creature! Here, let me show you some manners!"

"Manners!" scoffed the Villain, "little you know of such as that. Better read the latest fiction on boxing, and I'll be your willing opponent."

"I do not indulge in such rough sport," replied the Hero. "I am made for more noble deeds. I will soon save my Heroine from dangers lurking in the hidden background."

"Dangers!—Right this way," laughed the Villain. "Am I not dangerous enough for you? We'll see."

He flung aside all manner of courtesy, which he had never possessed in the first place, and grabbed the Heroine from the Hero's protectingless arm.

Just then the small boy came dashing up and tripped the Hero neatly on the sand.

"Well done," called out the Villain. "Just what I planned to do. You'll make a good villain some day." He ran off with the Heroine, whose nut-brown hair flew behind in the breeze they set up by their flight.

The Hero picked himself up in disgust. "What an unbearable little scoundrel you are! Now I've lost my Heroine and my patience too."

Ha ha; perhaps she'll remember to give me a quarter after this." The small boy was beside himself in his display of glee.

However, the two diplomatized and started off in hot pursuit—the temperature being a degree below 90° Fahrenheit.

* * * * *

"I believe it's slightly warm. Would you like a cooling ride in this breeze?" asked the Villian.

"Not with you!" exclaimed the Heroine disdainfully. "Where's my Hero? Where are we anyway?"

"You are certainly not adverse to coming directly to the point," replied the Villain. "To be exact, the Hero should be 40 leagues beneath those waters, but perhaps instead he is using his all too proportionate legs to lessen the centimeters between yours truly and his little dove-bird."

"Oh hush! You insolent creature!" cried the Heroine. "If you didn't talk so inconsiderately, perhaps I would like you better."

"Oh really!" exclaimed the Villain. "Will you change your affections so soon? How pleasant, indeed, that you should choose to bestow them upon me! Charmed, I'm sure! Now, may I escort my lady to her car-in-waiting?"

"Oh you unbearable person! I hate you, and then I pity you, too! A Villain has to lead such an awful life. How can you bear up under the strain? I should think your faculties would be completely wrecked into defician cy!"

"Not yet—but soon," remarked the Villain. "We are wasting valuable time. Even now—"

He cast a glance behind him. He saw the Hero and the small boy breathlessly speeding over the sand. Hastily he helped the Heroine into the car. Simultaneously, they were sent forward with quick acceleration around the next corner.

The Hero almost collapsed with distress at the foiling deed of the Villain. "All is lost," he murmured weakly.

"Don't give up hope," cried the small boy. "Providence is still good to us. Look!"

A rope hung from the cliff.

"Manna from Heaven!" shouted the Hero, and swarmed up the rope with the small boy after him. At the top they hurriedly got their wind, drew up the rope, and ran to the other side of the cliff. Yes! the car was coming up the narrow road on that side! The Hero let down the rope, and whistled to the Heroine. She understood, saw the rope, and caught it as it swung near. The Hero pulled her up the cliff to safety.

"Baffled again," snarled the Villain, and drove off the end of the chapter.

Copy—1925: A Review

"Copy—1925" is a collection of short stories, essays and poems written by students for class exercises in one of the Columbia courses in writing. But it cannot be judged from the standpoint of the undergraduate, because most of the authors are mature people and each of the "themes" included in "Copy" has been previously published in some periodical, having passed the test of commercial acceptability.

The first story, "The Mouse" received a prize for the best short story of the year written in Columbia writing courses. This is an estimate in which we could not agree. The story is very well handled in most respects but we found that it dragged, and we did not find anything in it sufficient to make up for the sordidness of it.

It is the momentary struggle of a woman to regain her independence, to get away from the tyranny of her stingy husband. She is stopped, not by anything he does or by any other ties, but merely by her long accepted habit of discontented shiftlessness. The story may be significant, but we did not find it enjoyable.

(Continued on page 16)

summer's choice for him by the men departed, celebrated nearby.

Honorable mention in this division went to Delta Psi for its contrast of the wife of 1880, busied with her housework while her husband loafed around, with the 1925 edition, who rolled her own and flirted with two young chaps while her "worser half" did the dishes.

In the women's division, the winner included a number of pulchritudinous damsels from Redstone, with an inscription announcing them as "More Husbands' Wives." Honorable mention went to the Rand House dramatization of a "Mem Book," with many memories of Junior Week.

Cahoon, borne by—or bearing—an airplane and looking through an empty bottle, was "Scouting for Her Husband's Wife." Honorable mention in the individual class was awarded Herbert C. Crandall, '28, of Lambda Iota, who was attempting to communicate by radio with the lady in question.

[illegible] are the feminine Gaston and Alphonse.

But to leave the dotted line for a moment, and to consider the sterner sex, we find the honors almost as closely confined in all but name.

Claire Cayward, our one and only four-letter athlete, was awarded the unusual distinction of being designated not only most popular, but also most respected. Also, he was voted the most versatile—which may be why he is known as "Squirrel."

Don Gannon, the class sunshine artist, is also the wittiest of the class by popular acclaim. Don is also, strange to say, the class Mack Sennet.

Ed Brush is considered to have done the most for Vermont, while it was conceded that Lefty Holway is most likely to succeed among the men. Perhaps Brush has done most because he has been the busiest. Or perhaps it was because, as the class [illegible] then Brad Soule and Marjorie Pierce have genius for after four years' observation they are declared the most conscientious man and woman in their class.

Florence Kelly is the wittiest senior girl and Ruth Hobill the most sarcastic, while Mrs. Lefty Holway (nee Kay Cox) is "Sweet Sixteen." Lefty himself is considered most sarcastic of senior men, but "wee Dickie" Cogswell is Sweet Sixteen and—

Completing Group I, we chronicle with a feeling of sadness that Ko Sargent is decisively chosen as the dizziest man and Ruth Twohey the dizziest woman, while Steve Stevens and Irene Allen share the same honor as class gloom artists. And Bill Pan Patten and Marian Odell are "Most High Hat."

Somebodies must have been [illegible]ing, for they say Phil Holway [illegible] ing.

A Page of Verse

Sea Rovers

By Florence B. Smith, '28

Come sail the seas with me, lad.
  Come sail the bounding main,
In a bark that's all our own, lad,
  Ne'er to return again.

We'll love the ocean's calm, lad,
  When slowly ebbs the tide;
Together we'll face the storms, lad
  As comrades, side by side.

Perhaps you're a pirate bold, lad,
  And I, your captive, bound—
Bound fast by the cords of love, lad.
  Oh pirate, so renowned.

You may be my southern love, lad,
  My dark-eyed gondolier,
While we sail 'neath a languid moon, lad—
  Sail far away from here.

In a graceful birch canoe, lad,
  You are my Indian brave.
We paddle near wooded shores, lad,
  Where softly laps each wave.

My Viking warrior now, lad,
  Sails where the ice lies cold.
Your eyes are a deep sea-blue, lad;
  Your hair a tawny gold.

Come sail the seas with me, lad,
  From out this mystic bay;
Hand in hand together, lad,
  Forever and a day.

Dream Pictures

By Dorothea F. Baker, '27

In the silvery misty borderland
Between wideawake and sleep
There's a shiny, pearly fairyland
Where little dreamlets creep.

This is the time when the elvelets come
And the tiny greeny sprites
Who sing their sweet wee fairy songs
On moonlit forest nights.

They rock the dreamy buds to rest;
And polish up the stars;
They shake the nightingale out of her nest;
For katydids tune guitars.

They darn the holes in the butterflies' wings;
They shine the humming bird's throat;
They take the poison from bumble bee's stings
To kill the loathly stoat.

They send dream pictures to weary folks
When they're drowsing by the fire
And the merry crack of the spruce tree bark
To the chirp of the crickets' choir.

The Searcher

By Madeline V. Kelley, '27

I've been in the deepest valley,
I've climbed the highest hill,
And yet I can not find it—
The place where the wind is still.

I've stood on the rocks by the ocean,
I've followed the tinkling rill,
And yet my search is unfinished—
For a place where the birds are still.

Perhaps in the earth I shall find it:
And oh, how my heart will thrill
If I find my rest unbroken—
In a place where all is still.

Founder's Day Poem

By Rev. Joseph Reynolds

The poem below, although it was not written by a Vermont man, was submitted by a friend of long standing of the University, and an enthusiastic and loyal Vermonter, the Rev. Joseph Reynolds of this city. Both the merits of this poem and its appropriateness make it a desirable addition to this issue. It has been suggested that if it meets with the approval of the student body, it be set to music and made one of the regular Vermont songs.

I

Vermont's State University in her Queen City stands,
She has nourished many students of her own and foreign lands,
She has taught them to be honest, she has taught them to be true,
As her founder, Ira Allen, had intended her to do.

Refrain

All Hail! to Ira Allen, then, Our Founder wise and great,
Who helped to found our Nation as he helped to found our State,
And who shewed his further wisdom, as all men may plainly see,
By founding and endowing, too, Our University.

II

Our Founder, as a diplomat, of wisdom shewed no lack,
For by his cleverness and skill he held the English back,
When they had planned to make Vermont, of Canada, a part,
But failed of their accomplishment, through Ira Allen's art.

Refrain.

III

As pioneer surveyor, and as treasurer of the State,
As its secretary also, and as soldier, he was great.
As a scholar he was able, and his will was strongly bent,
To make our University his noblest monument.

Refrain.

IV

His statue on our campus stands, with face towards the West,
O'erlooking lovely Lake Champlain, where Nature's at her best,
And through his lips he gives to us this message for these days:
"Be true to Alma Mater, and maintain her honest ways."

A Little Song

By Florence B. Smith, '28

There's a sweet little song
  That I often hear
Down deep in the heart of me.
  Not the song of joy that the bluebirds bring,
  Nor the robins' gladsome song of spring,
  Nor the song of the skylark on the wing,
Can echo the music that thrills me through,
The music that sings of you, just you,
  Down deep in the heart of me.

'Tis a wondrous refrain
  With murmur clear
Down deep in the heart of me.
  May it sing itself whenever you're near,
  Repeating its message until you hear,
  And the message grows each day more dear.
May it sing its song of love that's true
Till it sings itself in the heart of you,
  As it sings in the heart of me.

demanded. As insulation has around him.

IEVEMENT & OPPORTUNITY

An Old Man Dreams

By FLORENCE B. SMITH '28

ABENT, worn figure sat on the edge of the rude prison cot. His was a dreary world—four gray walls by day, four black walls by night.

Yet there was something majestic about the man. An air of command hung like a mantel over his broad shoulders, and had set its seal upon his face. He stared somberly into space, for he was tired and old, an old man with his dreams that never came true. But hark!

Suddenly he lifted his head and listened. A strange song in a strange voice fell upon his ears. The gray prison walls had vanished, and before him lay a broad lake, flecked with sunshine and reflecting on its shimmering surface the forms of stately mountains.

Happily he closed his eyes and listened to the music which was growing louder, a haunting, jingly tune, yet somehow melodious. The voice was young and fresh, and sang as though for the pure joy of living.

He looked again for the vision of his beloved lake, but it was gone, and coming toward him was a young girl, singing. Now the words of the song became distinct, and in amazement he straightened and listened. Clearly and sweetly she sang:

"'In 1791 old Ira Allen founded the college on the hill.'"

Old? Yes, he was old, he mused, and the work which he had loved had started well, but now, in this cold Pennsylvania prison, far from his Vermont hills, he knew nothing of its progress or success.

Then the Vermont hills themselves arose before his eyes, dark, wood-clad, filled with lurking, shadowy forms. The same voice rang through the wood, singing more of the strange song:

"'When the woods around were filled with hostile Redskins
He started out to build the original Mill.'"

Wearily he sank back and there appeared to him a vision of a low hill surmounted by a long, brick building. The building stood out alone, its tower pointing like a finger into the sky.

As he watched, buildings seemed to grow up about it, scenes some distance from it appeared with more buildings, sturdy buildings of brick and of brown, and red, and gray stone. And they were filled with youthful voices laughing and talking. Yet one voice rose above them all singing

"'And he built it too in spite of opposition
He fashioned it with cleverness and skill
And so we sing to General Ira Allen
The man who built the original old Mill.'"

Then the singer came toward him, from the doorway of a red stone building. She entered the prison cell, and stood smiling beside him. She seemed to be waiting for something.

Soon, there again appeared to him the beautiful lake, while music—the music of young voices—filled the air, singing softly:

"'Sing a song a rich refrain,
And let echoes swell the strain
To our lake, our loved Champlain,
Lovely Lake Champlain.'"

As the music died away, the girl laid her hand as in a benediction on his head and disappeared. When sleep came to the old man, a smile of peace was on his lips. What matter if he died, neglected in a Pennsylvania prison?

The vision which had prompted him to labor to raise that building on the hill had not failed him. His work was not in vain. Ira Allen slept in peace.

What's In a Kiss?

By FLORENCE B. SMITH, '28

"I'LL see you outside, Davis."

Langdon's voice cut keenly through the air, which was charged with an electrical tension from the emotions of the three people who occupied the room. He went out, closing the door behind him with a loud precision which was too dignified to be called a bang.

A few moments later Davis followed into the corridor, a half smile on his lips, an amused twinkle in his eyes. Langdon scarcely looked at him.

"We'll use my car," he said.

They rode along in silence until the city was left behind. Davis still retained his amused air. Langdon was plainly angry.

"I don't see what you think is so damned funny," Langdon finally growled. "I call it damned impudence for a man to come into his friend's office and kiss the stenographer in as matter-of-fact a way as if he were in the habit of kissing every stenographer he met."

"You object to the way in which I kissed Miss Davison?" Davis laughed. "She didn't seem to mind."

"We won't discuss Miss Davison if you please," Langdon retorted angrily. She is a very beautiful and a—a wonderful girl. What right had you to do it anyway?"

"As a matter of fact, she kissed me, too, you know."

Davis still maintained that irritating air of amusement. "And might I ask what right you have to concern yourself with Miss Davison's affairs?"

A more gentle expression softened the angry, set profile beside Davis. Langdon's voice was stern, however, as he replied:

"The right of a man who loves her and who hopes some day to have the privilege of doing what you have just done so calmly in my father's office."

The amusement died suddenly out of Davis' face. "Lord, Doug, I'm sorry," he said. "I'd no idea you cared a hang about Carol. I thought it was your office discipline you were so sore about. I honestly don't know a man whom I'd rather see her marry than you.

"Say, I don't wonder I made you sore. But it struck me so funny to have you challenge me on a 'right,' as you put it, which I've had for so long.

"Carol Davison is my sister."

A Yank's as Good as an Englishman

By W. ALLEN NEWTON, '26

THERE was a blinding flash of light and a crash that rose above the thunder of the battle. When the cloud of smoke and dust lifted, a young American soldier lay stretched out on the ground, his body horribly mangled and lying in a great pool of blood. A few yards away was the body of a blond, blue-eyed German soldier of about his own age.

Just before, they had been facing each other with bayonets, thirsting for blood. Now both were laid low by the burst of the same shell, and were groaning and calling for water.

Two American ambulance men approached, one bearing a canteen, and the Yankee greedily reached for it with the arm that could still be moved. The face of the German was turned toward him, as he wistfully eyed the canteen. The eyes of the two met, and the American boy saw a vision, the vision of a similar scene in a story book of English history which had been given to him by his mother when he was a little boy.

He saw Sir Philip Sidney dying on the battlefield, his wounded enemy near him, saw him refuse the proffered water and heard him say to his erstwhile enemy: "Thy need is greater than mine."

In spite of his suffering he smiled, and, motioning towards the wounded German, said haltingly, "I'm done for, Buddy—he needs it more—than I." And a moment later, "A Yank's—as good—as an Englishman." He collapsed, a gush of blood following from his mouth and with it his brave spirit departed.

Crippled—But

By [illegible] W. Chapman, '26

"CRIPPLED, useless, Rosita. Your padre is in the way. Better that the dogs of Maduros had torn out my heart and left me in the heat of the sun for the buzzards. Nombre de Dio, anything but this, condemned to roll around in a chair with wheels, never to walk again—a dead thing from the waist down."

Don Juan groaned with agony.

Rosita, dark-eyed, dark-haired, with cheeks the color of rose petals, rose from the window where she was seated and came to her father's side.

"No, father Juan"—she commanded, bending over him and straightening his pillow—"hush your words. Have you not me to do your every bidding—to bring you every comfort." She brushed his cheek with her lips in a passing caress. But always she stole anxious, fearful glances toward the open gate in the high white wall. Suddenly she started back, her cheeks paling as she heard the thud of hoofs in the plaza. A moment later a man strode into the doorway, a man swarthy, with cruel mouth and wide-brimmed somberero pulled down over savage black eyes.

"Come, Rosita mio. You go with me to my home today. Already you have told your father? No?"—as Rosita shook her head, watching him fearfully. "Well, no matter," he went on, grinning evilly, "we go now."

Rosita shrank behind her father's chair.

"Canaille—get from my sight," thundered Don Juan, his eyes blazing with wrath, "while you have yet life."

The fierceness of Don Juan's anger caused Carlos to shrink away momentarily, a look of fear in his rat-like eyes. Then, seeing that Don Juan had no weapon, he sneered:

"Those are idle words. You are a cripple and powerless."

He approached Rosita, who facing him, backed slowly into a corner.

"One kiss before we depart, senorita," he smiled at her tauntingly.

Don Juan slowly rolled his chair back to the wall, and, extending a hand, pulled a shining knife from a sheath at the level of his waist.

Carlos turned to follow Rosita, who at that moment wrenched herself from his grasp and fled through the open doorway into the garden. Don Juan raised his arm high over his head; there was a twirling flash of steel and Carlos, with a scream of agony, fell to the floor withering, the blade between his shoulders. He twitched convulsively for an interval then lay still.

"Crippled, but not entirely useless, Rosita," Don Juan murmured softly as he regarded the inert form of Carlos Maduro.

The Lost Pajamas

By R. G. Dunning, '25

THE excitement continued. The noise of over-turning boxes, the slamming of a shoe, the muffled fall of some article of clothing went on with increasing violence. Rising above these sounds of disorder and confusion could be heard the muffled voice of The Room-mate.

"I don't see where in creation those blamed things are. They are not—Say, where did you put 'em anyway? Give me my pajamas. I'm tired and I want to get to bed."

The Room-mate withdrew himself from the depths of a very disorderly closet. His hair was toussled, his face flushed. Tired, too. A bit disgruntled, perhaps.

"What are you looking for anyway?" I asked with intentionally exasperating calmness.

"I'm looking for my pajamas of course. What do you suppose I'd be looking for anyway when I'm getting ready for bed? A corsage boquet? They're not here. I've clawed through everything in that closet and I can't find them."

I looked at The Room-mate and I could feel a look of amazement sweeping over my face and, to hide my emotion, I looked out of the window at the midnight sky. The banging of a bureau drawer told me it was safe to watch the performance again, from the corner of my eye at least.

"O, hang! Where the deuce are the dumb things? They're not in my drawer. Are they in yours?"

"Look and see," I replied as calmly as circumstances would permit. "You're conducting this search, I'm not."

"Well, I don't see where the cussed things are. I didn't send 'em to the laundry. Did you?

No. I hadn't sent them to the laundry. My voice and manner perhaps indicated a lack of that sympathy and cooperation which one college friend should show towards another chum in dire distress and trouble.

With a quick move of desperation, The Room-mate grabbed the electric light and extension cord and dove once more into the depths of the closet.

Shoes, rubbers, books, clothing moved from place with increasing violence, indicating a rising temperature of The Room-mate's temper.

After two or three minutes of confusion worse confounded, The Room-mate emerged from the chaos behind him, hair disheveled, face flushed, eyes snapping.

"If you'll kindly tell me where those pajamas are so I can—"

The voice trailed off into nothing. Silence. Deep calm after a storm.

I looked up casually. The Room-mate stood in the center of the room. The light from the electric lamp in his hand showed an expression of blank amazement, surprise, chagrin, struggling for supremacy of his emotions, which apparently were somewhat conflicting.

The Room-mate was looking down at his feet, his arms, his shoulders, then at me. Neither spoke. There are times when words are useless between understanding friends. This was one of those times.

The pajamas? O, yes.

The Room-mate had them on.

Dead Men's Crimes

(Continued from page 6)

The detectives drew but one conclusion: the secretary had committed the crime!

Grant called on Ellen that evening, and as he sat with her on the screened porch in the twilight, he told her frankly why he had come to Cedarville. Then he related the fruitless search of Sneeden's property, but wisely omitted the deduction of the detectives.

"Ill do everything I'm able to help you. You were the only person who did not ill-treat me at the time of—" His voice trailed into silence. He couldn't mention it to Ellen.

"But what I did was only right. Why should I have shunned you then? It wasn't you, and I liked you," she answered in a soft tone, a little catch in her voice. "I think you're very—kind—to try to help me."

Grant turned giddy mental somersaults of joy.

Every day from then on he spent searching for some clue that would lead to the apprehension of the real murderer. He called at Brown's drug store, where Ellen had purchased the poison for Sneeden, and examining the register of poisons sold, required by law, saw Ellen's signature and noticed that there had been no sale of potassium cyanide for two years previously.

He explored every inch of the grounds about Sneeden's estate, but found nothing. In the evening he called on Ellen and reported his day's activities, sliding over his lack of success as easily as possible, and talking in an optimistic strain, constantly assuring her that something would surely come to light that would exonerate her. He also asked her any questions that had occured to him during the day that might help him in his task.

Two weeks fled on frightful wings. On the evening of the fifth day before the trial was to be held, Grant noticed that there were dark circles beneath Ellen's eyes, which were red as though she had been weeping. And she seemed dispirited, as though she had lost all hope of escaping conviction. The entangling skein of the law seemed to be snaring her deeper in its horrible meshes.

"I haven't asked you before, Ellen," said Grant, just before leaving, "but would you mind telling me why you left Sneeden's study crying, two nights before his death?"

Ellen did not reply for an interval, then said slowly: "He came to me following my father's death and said that dad had borrowed a hundred dollars that he had never repaid and suggested that I enter his employ. He said he'd allow part of my salary to offset the debt, in a year's time—so I understood. I only received ten dollars a week. The year was a month over. I asked to be let go and he informed me that I had to work another year. That's why I wept—I was so angry."

The night became sultry. After returning to his room in the tavern Grant sat by the window smoking, wracking his brain for some way to prove Ellen's innocence. He shuddered as he thought of the verdict. The girl hadn't a chance in the world before a jury. That was clear.

He became so restless and taut-nerved in considering

demanded.—As insulation has around him.

his helplessness that as the village clock was striking midnight he put on his coat and went out on the street. His steps, almost without his volition, took him to Sneeden's place. As he walked slowly in front of the entrance he stopped a moment in the drive and looked toward the formless blotch that was the house.

Suddenly his muscles tensed and he strained his eyes in an effort to pierce the darkness. Someone was prowling about. He saw a dark form moving near the foot of one of the trees, a shape scarcely discernible in the darkness.

"Hey—what are you doing in there?" he shouted, and started to run after the person, but he tripped over a shrub and went sprawling. In the mean time the prowler had made his escape. Grant cursed himself for not having a flashlight. Although he searched the premises carefully he found no one.

Scarcely had the sun risen the next morning than Grant reached the estate. There were no footprints in the soft grass or on the driveway. His spirits began to sink, when his eye lighted on something white in the grass near one of the windows. He picked it up.

It proved to be half of a torn envelope, and was soiled as though it had been carried for several weeks in a dirty pocket. The envelope bore part of the name and address of Brown's drug store. In an upper corner was the heading of a well-known drug concern. But the printing on the back was what both puzzled and interested Grant. In large uneven printing were scrawled the letters KCN.

He studied them thoughtfully for a few minutes, then hurried down the street to the drug store and called the druggist to one side.

"Could anyone have stolen a quantity of poison without your knowing it?" he asked, eagerly.

"No, not a chance—state law requires that we keep all poisonous substances in a locked cabinet. Want to take a look at it?"

Fastened on the wall back of the prescription desk was a small cabinet. The druggist opened it for Grant to inspect the contents. Inside were three shelves on which were arranged bottles of different sizes, containing various forms of poison.

As Grant noticed the bottle marked Potassium Cyanide he uttered an excited exclamation, then quickly veiled his emotion. Above the name on the label was the chemical formula—KCN.

As the druggist was relocking the cabinet the back door opened and "Limpy" Lane shuffled in, followed by another unkempt individual. Propping the door open, they opened a waste-paper press and pulled out a bale of papers, which they rolled through the doorway and deposited in a dump-cart outside.

"That's Sneth Smalley, the junk-man," the druggist informed Grant in a low voice as the latter glanced at him askance. "Comes for my papers once a week. 'Limpy' Lane's helping him."

Grant watched the men thoughtfully, then asked the question: "Do you always carry the key of the cabinet with you?"

"No," the druggist laughed, a little sheepishly. "I'm all the time mislaying it. I usually leave it in the top drawer, there, of the prescription desk."

Grant thanked the druggist, left the store, and hurried to the home of Black, the prosecuting attorney. That afternoon Sheriff Tupper arrested "Limpy" Lane and conducted him to the office of Dr. Wilcox.

Lane's face was pale and his pupils were slightly dilated. He kept twisting his battered hat nervously and muttering: "I ain't done nothin'—I ain't," half to himself.

When they were all assembled, the coroner, prosecuting attorney, Sheriff Tupper, and Grant, the attorney demanded sharply of Lane: "Where were you last night between twelve and one?"

"Nowhere in particular," sullenly answered Lane.

"What were you doing on the grounds of the Sneeden estate at that time of night?"

Lane avoided the questioner's eye and looked furtively about—then a sly look came into his face. "Wasn't there," he replied.

"Then how did you come to lose this on the grounds?" questioned the attorney quickly, at the same time holding the torn envelope with the letters so that "Limpy" could see them.

Lane started perceptibly and his eyes bulged, he half extended his hand as though to seize the accusing paper, hastily withdrew it, and moistened his lips with his tongue as if they were parched.

"You recognize this, I see," persisted the attorney mercilessly. "Why did you kill Sneeden?" he thundered.

An animal-like snarl distorted Lane's features. "You know it—you've found it out—yes, I done it," he shouted excitedly, incoherently.

"He struck me—an' called me a gutter-rat. I was a crossin' his yard to go fishin' in the creek beyond an' he stopped me an' did it."

"Where did you get the poison?" barked Black.

"From Brown's. One day when Sneth 'n me was cleanin' out an' bailin' paper for him, I seen him sell a customer some of the stuff an' heard him tell the clerk to put it back in the cabinet.

"'Be sure an' lock it,' he says, 'a teaspoonful of that would kill a dozen men in half a minute.' I seen what was written on the bottle an' copied them letters on the envelope so I'd recollect. Then one day, the day I did for Sneeden, we were movin' out some ole bottles an' such. I looked an' Mr. Brown was a waitin' on someone. I got the keys an' one of the little boxes for pills from out of the drawers. I opened the cabinet an' poured it half full, an' locked it again afore he seen me."

Lane stopped, breathing heavily and looking at the group in a frightened manner.

Then he continued: "That night I went to Sneeden's an' climbed into a tree right close to the house, an' could see into the study. Miss Ellen, pretty soon she come in an' placed a glass of stuff that looked like whiskey on a table beside the window, which was open. I climb along a limb an' got on the roof of the piazza an' stood near the window an' watched him. He was writin.' When I saw he wasn't lookin', I reached in an' poured the pizen into the glass. I seen him pick it up an' go back to the table 'n drink it; then he fell on the floor an' flopped around; then he didn't no more."

"Did you have any reason for murdering Sneeden other than because he struck you?" asked the attorney, after an interval of silence caused by the unexpectedness of the confession.

"Yes—I been afeared of him for years. One day about ten years ago I came into the bank one afternoon, after it'd closed, to do some sweepin'—I was janitor. He was there in the big safe, which was open. I watched him, an' he stuffed a big roll of bills in his pocket. He saw me an' pointed a gun at me, an' threatened to kill me. He made me take a hundred dollars of the money an' told me he'd make away with me if ever I opened my mouth, an' that I wouldn't because I'd taken some of the money an' would be brought up an' t'would go hard with me," Lane ended, his voice sinking into whine.

Grant was stunned a moment at this last revelation, scarcely able to believe his ears. Here was disclosed the truth about the crime of which his father had been unjustly accused. Tomorrow the world would know the true facts of the case, today he had an important mission. He hastily excused himself and hurried to Ellen's home.

"Limpy Lane's confessed," he exclaimed breathlessly, as Ellen came to the door. "He killed Sneeden."

* * * * *

From the top of the pine-clad hill that overlooked Cedarville, Ellen and Grant sat happily together watching the fading crimson afterglow of sunset.

"Sandy Baxter, the city editor of the *Star*, said at the time I was leaving that dead men's crimes come to light in strange ways. The way this has unfolded has brought me the greatest happiness of my life."

There was a peculiar caressing quality in Grant's voice that made Ellen avert her eyes, as if afraid the dazzling light of happiness in them would betray her thoughts.

The News in Brief

Athletics

The Varsity nine has been keeping up the fast pace set since the Southern trip, and has added to its collection the scalps of Manhattan and St. Francis. The Seconds who have been putting up a consistently superior brand of baseball defeated Jeffersonville last Friday and are taking on the fast Burlington H. S. nine today.

The Tennis squad fought it out to a draw with Worcester Tech last Friday, and is now on a trip on which the netsters met Holy Cross Thursday, Springfield Friday, and will cross racquets with Worcester Tech today in a return match there.

The big intramural event of the week was the Inter-class track meet Saturday, from which the Frosh emerged victorious with 92 points to 25 for their nearest opponents, the Juniors, while the Sophs trailed with eight and the Seniors just avoided whitewash by virtue of a third.

The Interfraternity baseball series is approaching a climax. The Owls, Kappa Sigs and Phi Mu Delts are leading their respective leagues. In the first game of the finals, Wednesday, the Owls defeated the Kappa Sigs 14-4. If the comparative calibre of the teams is at all represented by this score, the race is now between the Owls and last year's winners, the Phi Mu Delts.

Today about 150 high school track men from all over the State meet here to compete for the interscholastic championship of Vermont. A number of strong combinations, as well as a number of individual stars, are entered, and the meet should be the best ever held under University auspices for scholastic honors.

"A BIG MAN ON THE HILL" By Cahoon, '27

As Someone Says He Is *As He Wants To Appear* *As We See Him*

The News in Brief

General

About 150 students have signed up to signify their willingness to take part in the big Lafayette pageant with which the University will celebrate the 100th anniversary of the laying of the cornerstone of the Old Mill in 1825 by the celebrated Frenchman. More are needed. Those willing to help should give their names to either Prof. Metcalf or Prof. Wallace.

Delta Psi fraternity observed the 75th anniversary of its founding Monday evening at its home on Summit street, with appropriate exercises, at which a number of alumni were present.

The 1928 Gold Key Society was initiated Tuesday evening at the Phi Delta Theta house.

Engineering seniors are taking their spring trips. The Civils are in Canada, inspecting hydraulic work on bridges, while the Mechanicals are in Schenectady looking over the plant of the General Electric Company there.

The finals of the high school debating series, to the winners of which scholarships to the University will be awarded, were held in the chapel last evening, Bradford H. S. meeting Brattleboro H. S. on the question of the recognition of the Soviet government of Russia.

Lilac Day, an annual event in remembrance of the late Dean Wasson, will be observed at Redstone at 3 o'clock this afternoon.

The Senior Women's banquet was held Tuesday evening at Robinson hall.

Pi Beta Phi, Alpha Xi Delta and Alpha Chi Omega held formals Tuesday evening.

The last Key and Serpent dance of the year was held in the gymnasium last Saturday evening, with about 60 couples attending. The Green and Gold Players furnished music.

The Varsity nine is on a trip on which it played two of the hardest games of the season. Colgate was the opponent Thursday and Syracuse Friday.

Copy—1925: A Review

(Continued from page 9)

One we did like very much because of the characters, was "An Engagement on the Rhine." Another story with a dough boy for a central character was "The American," a vivid handling of the old, but always appealing, theme of the struggle of a coward to retrieve himself. The story combines an Oriental setting, violent action and a psychological interest with strong irony about the effects of actions of well-meaning people. A soldier is given the Medal of Honor because it is believed that his effort to save his company, cut off in a dangerous place, failed *only* after a terrific struggle by him to get through; while the soldier knows that had he not taken shelter in a dugout until driven out by gas, he would have saved his friends.

"Bottle Stoppers" is a very gruesome account, relieved only by the influence of the child character. It is doubtful if a story with such exceptional characters (two more than half-crazy women) can have great significance. Strong sympathy, however, is aroused for the efforts of old Aggie to save the little girl from their murderous mistress. It is not a good story to read just before going to bed.

"The Tree in the Forest" is a strong confirmation of the moral of the essay "Imperator Africanus," both dealing with the enlightenment of the American negro. The story is one of the best of the collection.

With the exception of "Imperator Africanus" the essays did not impress or interest us greatly. The plays, however, of which there are two included, are excellent in atmosphere, meaning, and economy of treatment. "Bush Green" excels in atmosphere, "Our John" in meaning, in the sympathy it creates for the blind old man, and for the victim of heredity who is the center of the theme, but who never appears on the stage.

We hesitate to say much about the poetry, because any attitude toward it is determined so much by personal taste. "Wind-bells" seemed to be a delicately handled treatment of a pleasing thought; the other five struck us as not being subtle or delicate enough for really good poetry.

The selections as a whole were good, well written and interesting. Some of them were very good, some merely adequate. Such a book should be an inspiration to classes in writing in every college and is well worth reading, because of the variety of subjects handled, and the food for thought supplied by most of them. A realistic tone characterizes most of the stories, an attempt to make them important for more than the mere interest or amusement they afford. Glamour is indulged in the plays, but it is the glamour of loneliness and unusual sorrow, not that of romance.

The Vermont Cynic

VOLUME 43 BURLINGTON, VT., JUNE 6, 1925 NUMBER 29

FINLEY, NOTED EDUCATOR, COMMENCEMENT SPEAKER

Former Commissioner of Education for New York and Now Editorial Writer on New York Times

The Commencement address will be delivered by Dr John H. Finley, a distinguished American educator, now a member of the editorial staff of the New York *Times*. It is fitting that on this occasion of the one hundredth anniversary of the laying of the cornerstone of the oldest college building by General Lafayette, the address should be delivered by an American scholar thoroughly familiar with the history and life of France, who by voice and pen has interpreted to Americans the traditions and the spirit of the French people.

John H. Finley was born at Grand Ridge, Ill., Oct. 19, 1863. He was graduated from Knox College in 1887, the institution in which Dean Perkins began his college career, and won his master's degree, at Knox in 1890. From 1889 to 1892 he was secretary of the New York State Charities Aid Association. At the age of twenty-nine his Alma Mater called him to the presidency, and he was president of Knox College from 1892 to 1899. He served successively as professor of politics at Princeton University, 1900-1903, president of the College of the City of New York, 1903-1913; president of the University of the State of New York, and commissioner of education for the State of New York from 1913 to 1921. Since 1921 he has been associate editor of the New York *Times*.

When a distinguished delegation came from France bringing a replica of Rodin's bust "La France" which was placed on the Champlain monument at Crown Point, N. Y., Doctor Finley presided at a banquet given at the Waldorf Astoria Hotel in New York in their honor and a stone from Champlain's birthplace in Brouage, Brittany, was brought for the occasion and used by the toastmaster. He was secured by the University as the principal speaker at the meeting of the Vermont Press Association held in this city, Feb. 23, 1923 and many well

(Continued on page 9)

SIGMA NU AND REDSTONE WIN WIG AND BUSKIN CUPS

Sigma Nu and Redstone are the proud possessors of Wig and Buskin cups, won in the Junior Week Peerade Wednesday afternoon for having the best floats advertising "Her Husband's Wife." The smaller cup for the best individual costume went to Leland J Cahoon, '27, a member of Sigma Alpha Chi.

The winning float in the men's division showed a casket containing Wife Number 1, while Hubby and Wife Number 2, chosen for him by the late departed, celebrated nearby.

Honorable mention in this division went to Delta Psi for its contrast of the wife of 1880, busied with her housework while her husband loafed around, with the 1925 edition, who rolled her own and flirted with two young chaps while her "worser half" did the dishes.

In the women's division, the winner included a number of pulchritudinous damsels from Redstone, with an inscription announcing them as "More Husbands' Wives." Honorable mention went to the Rand House dramatization of a "Mem Book," with many memories of Junior Week.

Cahoon, borne by—or bearing—an airplane and looking through an empty bottle, was "Scouting for Her Husband's Wife." Honorable mention in the individual class was awarded Herbert C Crandall, '28, of Lambda Iota, who was "tempting to communicate by radio the lady in question.

IN EXPLANATION

The Editors wish to apologize for the tardy appearance of this issue of the Cynic, and at the same time to explain

With the funds on hand, it was not thought feasible to put out an issue last Saturday and another this week, and so an attempt has been made to put into this issue all the news up to the close of classes Wednesday.

Owing to the demands of space, some things have been shortened and some of less immediate importance omitted, but it is hoped that everything of real importance has its place.

The last issue of the year will appear at Commencement time with a full account of the events of Senior Week.

LOVING CUPS TO CAPTS. FAY AND KENNON

Silver loving cups from the men's student body were presented to Captains E. N. Fay and B. C. Kennon immediately following Memorial Day exercises in the gymnasium last Saturday.

The presentation was made by President R. E. Holway of the late men's Student Union. The cups were similarly ingraved except the names of the recipients, as follows:

"To Capt (Name), from the men of the University in appreciation of his friendship and services to the University and to us, 1921-1925."

Captain Kennon leaves immediately following Commencement to take up active duty with the 5th Infantry at Portland Harbor, Me., while Captain Fay goes to the Infantry school at Fort Benning, Ga.

1926 Junior Week Proves Big Success In Every Way

Junior Week went off without a hitch the last four days of the past week, and was in many ways the most successful in the recent history of the University.

Of course, the boat ride which used to be a feature of the week was missing, but the Junior banquet held for the first time, made a very acceptable addition to last year's program.

Everything went according to the regular swift until Saturday, when Dartmouth and Springfield, after hard tussles, defeated respectively the nine and the tennis men. But even in these defeats there was consolation in the quality of the playing and the fight put up by Green and Gold teams.

One of the big features of the week although it was on another campus, was the defeat Vermont's track squad administered to the Blue in the triangular state meet, the first defeat Middd has suffered at the hands of Vermont trackmen in nine years, in this event.

The Class of 1926 started off Junior Week Wednesday evening with a class banquet, the first in recent years at least, on the Hotel Vermont roof garden.

The affair was even more of a success than its backers had expected or hoped.

Of course, the play was the big feature of the second day, but the medics disported themselves that evening in an all-medic dance at the Yacht Club with music by the Merry Men from Montreal and specialties which included three Denishawn dancers, a bone dance, and fighting features. A buffet luncheon was served.

Thursday afternoon, in spite of the threatening weather, there was a good attendance at the Springfield game at Centennial Field, and a smaller gathering about the tennis courts to watch the netmen drub Midd's proteges.

Friday evening came the big event of the week, the Junior prom. But the day was not without its attractions, for a considerable number went to Middlebury to witness the triangular state meet there.

(Continued on page 10)

LATTY WILL COACH TRACK AT VERMONT COMING YEAR

Has Been Secured by Athletic Council to Continue Work Started This Spring

E. R. "Jack" Latty, who coached the Green and Gold track men to the state championship this spring, has been engaged as track coach for the next year. In addition to his duties with the track men he will continue to serve as instructor in the Romance Language Department.

The new coach is a graduate of Bowdoin College, where he threw the javelin and showed cleverness in many track events. He has now been at Vermont for two years as instructor in French, Spanish and Italian. It is understood that eventually he intends studying law.

At the beginning of this year Coach Cloughen left, and track seemed destined to wither from lack of interest. However Latty took the reins and coached a few enthusiasts without pay, so successfully that eight men who went to Springfield took 17 points and fourth place there.

As a result of this success sufficient interest was aroused to put a full complement of men into the work and the efficacy of Latty's work was demonstrated at Middlebury last week.

Cayward Most Popular Man in 1925; Dorothy Barrows Most Popular Co-ed

Senior Questionnaire Classifies Members of Class of 1925 All the Way from "Most Popular" and "Most Respected" to "Class Wet One" and "Laziest"; Some Interesting Opinions Expressed

To get to the top in the class of 1925, if one is a co-ed, it is at least desirable to have the name Dorothy. It isn't quite certain whether this is because a handy nickname is essential to popularity, and 'Dot' is handy, but at any rate, three "Dots" were chosen by the members of the senior class for high honors in the questionnaire conducted last week.

The most popular girl in the class is Dot Barrows, the most respected is Dot Ellis, and Dot Gilbert is considered to have done the most for Vermont. Dot Ellis so say her classmates is most likely to succeed, Dot Barrows is most versatile, besides being the "class sunshine artist." Dot Ellis and Louise Morgan are the feminine Gaston and Alphonse.

But to leave the dotted line for a moment, and to consider the sterner sex, we find the honors almost as closely confined in all but name.

Claire Cayward, our one and only four-letter athlete, was awarded the unusual distinction of being designated not only most popular, but also most respected. Also, he was voted the most versatile which may be why he is known as "Squirrel."

Don Gannon, the class sunshine artist, is also the wittiest of the class, by popular acclaim. Don is also, strange to say, the class Mack Sennet.

Ed Brush is considered to have done the most for Vermont while it was conceded that Lefty Holway is most likely to succeed among the men. Perhaps Brush has done most because he has been the busiest. Or perhaps it was because, as the class generously concedes, he knows the most—among the men.

Perhaps you have noticed that pink complexioned good looking chap who lives and studies at the Phi Delt house and follows the pigskin in fall? Yes, that is Don Hawley, the handsomest man in the class, and likewise the best dressed.

Clothes do not make the man, or the woman, perhaps, but it is significant that after Don had garnered these two related prizes, Helen Keating should duplicate for the co-eds, being regarded as both handsomest and best dressed.

If "genius is an infinite capacity for taking pains," and if "keeping everlastingly at it brings success," then Brad Soule and Marjorie Pierce have genius, for after four years' observation, they are declared the most conscientious man and woman in their class.

Florence Kelly is the wittiest senior girl and Ruth Hobill the most sarcastic, while Mrs Lefty Holway (nee Kay Cox) is "Sweet Sixteen." Lefty himself is considered most sarcastic of senior men but "wee Dickie" Cogs well is Sweet Sixteen and

Completing Group 1 we chronicle with a feeling of sadness that Eb Sargent is decisively chosen as the dizziest man and Ruth Twohey the dizziest woman while Steve Stevens and Irene Allen share the same boat as class gloom artists. And Bill Van Patten and Marian Odell are "Most High Hat."

Somebodies must have been snooping, for they say Phil Holway will be

(Continued on page 10)

LILAC DAY FINALLY HELD AT REDSTONE WEDNESDAY

Lilac Day, the biggest event for women at the University of Vermont was celebrated at Redstone Wednesday afternoon. Established in 1923 in memory of Dean Pearl Randall Wasson the day has come to be a tradition and symbol in the life of Vermont college women. Starting with a pageant "The Dreamers," the beauty of the scene alone was enough to attract attention. With a background of mountain splendor, green trees and spacious green lawns, the dancers in their love ly costumes showed off brilliantly. Immediately following the pageant, Miss Dorothy Gilbert '25, of Dorset gave the Lilac Day address and the Lilac bush was planted. At the end of the exercises the young women took part in step singing as they faced distant Lake Champlain resplendent in sunset.

Miss Helen French '26, of Richmond was presented the loving cup established last year by an alumnae in honor of Dean Wasson. The cup is given by Student Union to the Junior girl who has been self-supporting and who has the highest scholastic standing.

The theme of the pageant, "The Dreamers," is woven about a lilac tree. This tree grew and was strong only as long as the maidens of the country dreamed fair dreams and cherished them. The time came when the damsels laughed at dreams and from their shoulders dropped the silver veils which had made the world a beauty

LARGE AUDIENCE ENJOYS 'HER HUSBAND'S WIFE'

Annual Junior Week Play at Strong Gives Amusement Through Clever Interpretation of Excellent Plot

The comedy-farce "Her Husband's Wife" was presented Thursday evening at the Strong Theater by the combined dramatic societies of the University. The play was a decided success in all ways, and drew an unusually large Junior Week crowd.

The story hinges about the desire of Mrs. Irene Randolph to find a suitable wife for her husband after her death, and many amusing developments arise.

A large share of the success was due to the thorough and efficient coaching of Mrs. C. Ives Taggart who has had charge of many of the college plays in recent years.

The cast:

Stuart Randolph ..... Charles Blackhall, '27
Richard Belden ..... Lester D. Butterfield, '26
John Belden ..... Henry Conlin, '26
Irene Randolph ..... Jane Howe, '26
Emily Laden ..... Anna Perkins, '28
Nora ..... Dorothea Baker, '27

FIRST JUNIOR BANQUET A SUCCESS

Junior Week was formerly opened Wednesday evening at the Vermont roof garden with the Junior class banquet.

After an excellent repast, the after-dinner program began, with Frank E. Bartlett acting as toastmaster.

Among the speakers were President Bailey, who brought the greetings of the administration and gave some remarks concerning the new chapel and E. R. Latty, Varsity track coach, who gave an optimistic speech on the track situation. E. N. Brush, president of the Senior class, spoke for his class.

The remainder of the program consisted of impromptu speeches by Carl Ottley, chairman of the Junior Week committee; E. I. Drury, chairman of the Prom committee; Miss Jane Howe, F. F. Atwood, Olney W. Hill, Miss Beatrice Herberg, Arthur K. Tudhope, and S. Burton Heath.

The banquet closed with the singing of "Champlain."

160 COUPLES ATTEND JUNIOR PROM

The annual Junior Prom held in the gymnasium Friday evening was quite as successful as those of past years, and added a laurel to the present Junior Week program. It was attended by one hundred and sixty couples.

The decorations easily surpassed those of any other dance held this season. They were of crepe paper of many light colors, which blended together into a most pleasing effect. The long crepe streamers began from the center of the gym over the orchestra platform, which was in the center of the floor, and extended to the balcony on all sides of the gymnasium.

A bower was built around the orchestra platform covered with fine, narrow crepe streamers. High over this was suspended a droplight which was also surrounded by narrow streamers through which the light penetrated, throwing off many colors.

Refreshments of punch and wafers were served throughout the evening, and ice cream and wafers at intermission.

Wittstein's orchestra of Hartford, Conn., composed of eight pieces with Wittstein himself leading, played for an order of eighteen dances and two extras. The music received the greatest approval of any appearing here for some time.

The favors were bracelets with various colored stones, and were very attractive.

President and Mrs. Guy W. Bailey and Prof. and Mrs. M. B. Ogle acted as chaperones.

Spring vacation is no more at Indiana University. An eight-day vacation will be granted between semesters but no other recess will be given during the second semester next year.

No, 'Twant Likker

Did you happen to be on the campus last Thursday afternoon and notice a little group of absorbed students who had come on the Hill to attend 2 o'clock class and then forgot all about it—or became so hedged about by later arrivals that they couldn't get out when the bell rang?

If so, did you think one of the engineers, back from Montreal, had disgorged? Or that somebody was throwing a fit? Or—

Whatever you thought, you were probably wrong. Perhaps you know now. The deep, dark secret is a secret no longer.

It was the first 1926 *Ariel* making its way across the campus as best it could—being thrown for a loss of several yards every now and then, but occasionally making headway against the strongest opposition.

Friday new recruits joined the ranks and by the time this appears in print it is probable that nearly the whole junior class will be supplied.

A description of the latest *Ariel* will be found on page 5.

PROGRAM FOR LAYING OF CORNERSTONE

The program for the laying of the cornerstone of the new Ira Allen Chapel is now complete except for the acceptance of the speaker requested to represent the Board of Trustees at the exercises.

Each speaker will take up not more than five minutes, and it is hoped that the exercises, which start at 10:30 Saturday morning, of Senior Week will be over by 11:30.

It is the expectation now that the building will be completed in time for dedicatory exercises at the 1926 Commencement, at which time there will be complete and suitable dedicatory exercises.

The program as it is outlined at present follows.

Prayer, Rev. John L. Fort, '00.

Hymn: "Glorious Things of Thee Are Spoken."

Laying of Cornerstone by Hon. James B. Wilbur.

Remarks by Mr. Wilbur.

Responses

On the part of the University, President Guy W. Bailey.

By a member of the Board of Trustees, to be announced.

On the part of the Faculty, Prof. Samuel E. Bassett.

On the part of the Undergraduate Men, E. Carleton Abbott, '26.

On the part of the Undergraduate Women, Anne Dauchy, '25.

Hymn: "O Lord of Hosts, Whose Glory Fills ..."

Benediction, Chaplain of Day.

BRADFORD DEFEATED BY BRATTLEBORO IN DEBATE

In the finals of the Vermont interscholastic debating league the Brattleboro negative team, composed of Miss Cecile Huestis, Preston Gibson and Franklin Sears, with Max Gibson as alternate, defeated the Bradford high school representatives, Miss Clarissa Peters, Carlos Renfrew and Miss Edith Thomas, with Ernest Muzzy as alternate.

The subject under discussion was: "Resolved, That the United States Should Recognize the Existing Russian Government." Professor Tupper of the department of English presided.

The Bradford team contended that recognition should be granted as a point of international law. The negative pointed out that the Soviet government does not respect property rights, that Russia will not pay her legal debts, and that trade with Russia offers no economic gain to the United States.

In the debate each speaker was allotted seven minutes for argument and four minutes for rebuttal. The judges, E. B. Cornwall, Judge C. H. Darling, and J. L. Southwick, voted two to one in favor of the Brattleboro debaters.

The winners are to be given scholarships of the University valued at $200 apiece. The losing team receives $100 scholarships.

COMMENCEMENT PROGRAM INCLUDES NOVEL FEATURES

The Commencement Week program this year, will commence Thursday, June 18 and continue through Monday, June 22, will be the biggest and best in the history of the institution. In addition to the usual events of the occasion, there will be a few new features, including the laying of the cornerstone of the new Ira Allen Chapel, the Lafayette centenary pageant, a baseball game in which the Varsity will meet the Osaka Mainichi team, champions of Japan, and a reunion breakfast for all Boulder alumni who are in Burlington for Commencement.

The program given below is considered final at the time of writing although a few last minute changes may be rendered necessary by circumstances.

Thursday, June 18

4:30 p. m. Senior Class Pilgrimage; gowning the statues of Ira Allen and Lafayette.
8:00 p. m.—General Lafayette Pageant, Centennial Field. (In case of rain the pageant will be held Saturday night.)

CLASS DAY
Friday, June 19

9:00 a. m.—Senior Class Walk.
10:00 a. m.—Trustees' Meeting, library, College of Medicine Building.
11:30 a. m.—Phi Beta Kappa Meeting, 23 South College.
12:00 noon—Akaia Chapter of Mortar Board, Reunion, Hotel Vermont roof garden.
12:30 p. m. University Trustees' Luncheon.
*1:45 p. m.—Class Day Exercises, College Green.
3:00 p. m.—Baseball, Osaka Mainichi of Japan vs. Varsity, Centennial Field.
4:30 p. m.—Fraternity Receptions.
8:30 p. m. President's Reception, Billings Library.
9:00 p. m. Senior Prom, Billings Library.

ALUMNI DAY
Saturday, June 20

8:00 a. m.—Boulder Society Reunion Breakfast, Ethan Allen Club.
8:30 a. m.—Associate Alumni Meeting, Lecture Hall A, College of Medicine Building.
9:00 a. m.—Alumni Council Meeting, President's Office, College of Medicine Building.
9:00 a. m.—Phi Beta Kappa Meeting, 23 South College.
9:30 a. m.—Trustees Meeting, Library, College of Medicine Building.
10:30 a. m.—Laying Cornerstone, Ira Allen Chapel.
12:00 noon—Alumni Luncheon, Gymnasium Annex.
2:30 p. m. Alumni Costume Parade.
3:00 p. m.—Baseball, Vermont vs. Alumni, Centennial Field.
6:00 p. m.—Dinner, College of Medicine Alumni, Hotel Sherwood.
Dinner, College of Agriculture Alumni, Ethan Allen Club.
Dinner, College of Engineering Alumni, Hotel Vermont.
6:00 p. m.—Meeting of all "V" Men.
8:00 p. m.—Reunions of Sororities.
9:00 p. m.—Reunions of Fraternities.

BACCALAUREATE DAY
Sunday, June 21

10:00 a. m.—Alumni Boatride, Steamer Ticonderoga.
3:30 p. m.—Academic Procession, University Place.
4:00 p. m.—Baccalaureate Service, Gymnasium Annex, Rev. Richard Roberts, preacher.
5:00 p. m.—Open Houses at Faculty Homes.
*8:00 p. m.—Band Concert, College Green.

COMMENCEMENT DAY
Monday, June 22

8:30 a. m.—Trustees Meeting, Marsh Room, Billings Library.
9:15 a. m. Academic Procession, University Place.
10:00 a. m.—Commencement Exercises, Gymnasium Annex. Orator, Dr. John H. Finley, editorial staff of New York *Times*.
1:30 p. m.—Luncheon for Trustees and invited guests.
6:00 p. m.—Senior Boatride.

*In case of rain, events in Gymnasium Annex. All events Eastern Standard Time.

COLLEGE WEEK FOR WOMEN WILL BE HELD JUNE 22-25

Program of Unusual Merit Is Promised at Annual Gathering at Bishop Hopkins Hall

College week will be observed at Bishop Hopkins Hall June 22-25, under the auspices of the Alumnae Association of University Women at Vermont. It is an opportunity to bring college women together for conference and for interchange of ideas.

Monday evening, June 22 there will be an informal reception and an address of welcome. June 23 will be Reunion Day, and will be given over to reunion meetings of different alumnae associations. Business meetings will follow the reunions. Five o'clock tea will be served every afternoon. Other mornings will be devoted to conferences, and the evenings to addresses by well-known men and women of the college world.

The Vermont associations of the following colleges will be represented: Mount Holyoke, Smith College, Wellesley, Middlebury College, and the University of Vermont.

Campus Comment

What Price Winning?

Of all the shows of lack of spirit I think last Saturday surely takes the proverbial cake. At the parade given for the purpose of showing how proud we are of our baseball team, there were not more than 70 present. Seventy out of a student body of 1,200 and not one co-ed! How come? At the bonfire there were less than 25 eds and 7 or 8 co-eds! *Darned poor spirit.*

The motley crowd that assembled in front of the Sherwood tried its best to make enough noise to make the team feel welcome—but believe me, it lacked a lot. I think it's a rotten shame that we can't send enough students to give them a welcome which could be heard as far as Main Street, anyway.

Men and women of Vermont, listen! A team that has fought for victory as these boys have, as is proven by the twelve-inning battle they gave Syracuse, certainly are deserving of more support than that. If we can't give it to them, then we don't deserve having such a team. The finger of public opinion points us out as "slackers" and as a whole, we are just that. The townspeople are giving us the horse laugh! Wake up and let's show them.

Everyone who did go, ought to be heartily thanked by those who didn't, for they certainly did their best to cover up the absence of the "rah-rah eaters" and "lounge lizards" who were afraid of catching cold. And yet you call yourselves two-fisted, red-blooded fighting sons of Vermont! Razz Berry! Ira Allen would turn over in his grave if he could have seen that "welcome" party.

The Co-ed's Corner

ELIZABETH E WARNER '27 Women's Editor

Suggestions Wanted!

The college year is almost over. Most of us will return in the fall, but there are some, the seniors, who will not be with us. "The Co-eds' Corner" of the CYNIC would be very grateful for any suggestions from the seniors for making this part of our college paper more interesting and valuable to Vermont women. Not seniors only, but all those co-eds who are interested in our representation in the CYNIC are invited to offer criticism, advice and suggestions. We hope next year to include new features and ideas and are anxious for opinions from all the classes. Put your suggestions in the CYNIC box—they will be most welcome.

Communications

Fairness of Play Tryouts

To the Women's Editor of the CYNIC:

There has been a good deal of talk about campus—especially among the girls—regarding the tryouts for the Masque and Sandal plays. Everyone has noticed that for the past two or three years, there have been very few changes in the casts. What is the difficulty?

Certainly, out of a student body of 1,000 and more there are more than seven or eight who have ability along dramatic lines. That's one elimination; it isn't because of lack of talent.

Another elimination: Lack of those trying out. How is this business worked, anyway? There is a notice on the bulletin board or in the University Notes that "Try-outs for the Masque and Sandal play will be held in Room So and So at 4 o'clock this afternoon." Very well. Each of the seventy-five or one hundred students, who has ambitions, walks into "Room So and So" with hopeless desire in his or her heart, and the idea that "There really isn't any use trying out, anyway. I'm going in from force of habit. The cast was picked before the try-outs began."

Perhaps there are no politics concerned—it isn't known, so we'll leave that out of it. Of course, it's much easier for the coach to sit back and watch than it is for him to have to explain stage directions and such, twice a year to every new cast chosen.

We know that every single one of our thousand students would not be in his element if picked—for the sake of giving every one a fair chance—and set on the stage. Everyone isn't a budding Barrymore or an Arliss, but certainly there *is* talent somewhere in this University—other than our regular casts—which is simply awaiting an opportunity.

The "root of this evil" is not at present apparent, but at any rate, the fact remains that everyone hasn't a fair chance—and I hope, whatever the trouble is, it can be remedied.

DISSATISFIED.

The Men They Left Behind

To the Women's Editor of the CYNIC:

Vermont Spirit! How proud we are of it! Our baseball team returns after a successful trip. Glorious! We'll show 'em—we men behind the men behind the bat. We'll turn out and march to meet them. Yes. But the "we" who turned out were woefully few. Admitted, the weather was abominable. But is Vermont afraid of a little cold rain? Let them take their pretty slickers to the balmy South Sea Islands, New England's no place for them.

On the back campus stands a huge pile of material contributed for the bonfire. Again, glorious! We'll show that team! That poor fire must have blushed with shame as it cast its light over the small group that gathered about it. Admitted again, that the weather was horrid. But we're used to it. Admitted, too, that social functions were engrossing. But we aren't all honor men, nor did we all attend fraternity house-parties. Admitted further, and this we are not

(Continued on page 8)

The Redstone Float, First Prize Cup Winner in the Women's Division of the Junior Week Pevade

W. A. A. HOLDS OUTDOOR RALLY

Wednesday, May 20, the baseball finals were played off at Grassmount, the sophomores scoring heavily over the freshmen. At the outdoor supper which followed, the athletic cup was awarded to 1927. Presentation of numerals, sweaters and insignia followed, and songs and cheers were given around a bonfire.

Student Union Hears Debate

The Women's Student Union held its last meeting of the year in the chapel Saturday, May 23. Dean Patterson gave a brief farewell speech to the seniors. She also spoke on summer employment, and on interesting and worthwhile books for summer reading.

There was an interesting debate between the sophomores and freshmen on the "Equal Rights Amendment," the sophomores taking the affirmative and the freshmen the negative.

Professors Dean and Wells were the judges and the decision was in favor of the freshmen.

Y. W. C. A. NOTES

From now until college closes, old clothes will be collected for the Children's Aid Society. Those who have any may bring them to the Y room or deposit them in one of the barrels which will be found in each dorm.

There will be a Y. W. C. A. rummage sale sometime during exams. The time and place will be announced later. All girls are asked to contribute to this sale. There will be girls appointed in each dormitory to collect the goods. Town girls are asked to bring their contributions to the Inner Y-Room.

CAMPUS

Softly filtered sunlight
O'er a winding way;
Twilight hour of mem'ries,
Brings the close of day.

Distant lake and mountains
Sadder now my heart.
Lovely Springtime campus,
Soon we are to part.

Slowly o'er the pathways
Length'ning shadows fall—
Shade an aged fountain—
Mask a statue tall.

Twilight. From the tower
Sounds a sweet-toned bell.
Vict'ry, Alma Mater!
Twilight,—and farewell.

F. B. S.

The Junior Week play, "Her Husband's Wife," was presented at Richmond on Monday evening, May 25. The people there gave the performance their hearty approval, and the players gained much valuable experience in preparation for their final appearance at the Strong Theater last Thursday.

With the Fraternities

Kappa Alpha Theta

The annual formal dance of Lambda of Kappa Alpha Theta was held at the Vermont roof garden, Friday evening, May 22. Mr. and Mrs. B. F. Lane and Dr. and Mrs. Paul French acted as chaperones. Music was furnished by the Green and Gold Players. The roof garden was attractively decorated with colored balloons.

Mrs. Josephine Howe Wood, '25, is visiting her father, Judge Howe.

Miss Myrtle Sargent of Wheaton College and Miss Mildred Oaks of Syracuse University were entertained at the Theta House during Junior Week.

Delta Delta Delta

Eta Chapter of Delta Delta Delta held its annual formal dance Friday evening, May 22, at the Hotel Van Ness roof garden. The Vermonters Orchestra furnished music and the chaperones were Capt. and Mrs. B. C. Kennon and Mr. and Mrs. Arthur Stevens. Favors were presented the guests in the form of small gold watch charms bearing the fraternity seal.

A Senior picnic was held Saturday afternoon, May 30, at North Beach. During the afternoon the Seniors were presented with recognition pins and Mrs. Ogle, a patroness, with a purse.

Pi Beta Phi

Beta of Pi Beta Phi was entertained at a week-end house party, May 16 and 17, at Judge Howe's camp at Cedar Beach.

The engagement of Miriam Daily, '26, and Ralph Taylor, '25, Delta Psi, was recently announced.

Alpha Xi Delta

Upsilon Chapter of Alpha Xi Delta held a house party at the Merritt camp at Cedar Beach over the week-end.

Upsilon chapter announces the initiation of Catherine Smith, '27, and Lillian Pitt, '28, on May 21.

A week-end house party was held May 15 and 16 at Cedar Beach. Marion Way was chaperon.

Alpha Chi Omega

A houseparty was held at Long Point the week-end of May 15 and 16.

Phi Delta Zita

A formal dance was held at the Athena Club rooms Friday evening, May 22. Mr. and Mrs. Dunn and Mr. and Mrs. Gates acted as chaperons.

Mortar Board Elections

Mortar Board held its annual elections on Monday, the 25th. The following officers were installed: Allene Bertholf, president; Margaret Hazen, vice-president; Alice Crowe, treasurer; Constance Weaver, secretary; Beatrice Herberg, historian.

On Tuesday evening, May 26th, Miss Patterson entertained the members at dinner at Robinson Hall.

The Vermont Cynic

Vol. 42 June 6, 1925 No. 29

It may be remarked here that a scant half-dozen of the R O T C "jokes" in the *Brunjet* appeared to us particularly humorous, and we are certain that Dean Ford did not take exception to any of these. And again, parenthetically, the reproduction in the *Lampoon* of Manet's painting, which caused the suspension of an issue of the Harvard publication, appeared to us purely salacious, without the excuse of a particle of humor.

The trite saying that "Poor beginnings make good endings" is being made a pleasant fact by the Green and Gold diamond artists this spring. After a Southern trip which was not too satisfactory in its story of games won and lost, the team has come to life and played a brand of ball against all comers which is a credit to Vermont and to the men as individuals.

Considering the individual games one thing stands out above the others. The boys have developed a fighting spirit that seems to be only the stronger for opposition. It is easy to play the game when things are breaking right but when the ninth inning and the tenth and the eleventh come and go and no break is in sight it takes a world of fight to stick to one's guns and fight it through to a victory.

We had wanted to have for this spring an unbroken record of issuing the CYNIC on Saturday when it is normally due. This issue, however, was intentionally put out late. It is the last until that at Commencement. It seemed to us best that we sacrifice our ambitions to the requirements of the occasion and hold the issue until we could give a complete account of the Junior Week activities including the baseball games, track meet, etc. This we have done.

IT'S OUR NIGHT TO HOWL

One of the most efficient creatures on this globe is the gloating winner. Nevertheless, there are times for all things, and this is the proper time, we think, to call attention to the fact that last Friday the Vermont track team completed the avenging of last year's defeat at the hands of the Blue and White.

Last fall a Green and Gold eleven went to Middlebury and suffered a hard defeat at the hands of a better team. The sky became clouded, we had a hard winter, and summer did not arrive until after last Friday. But the victories of our basketball and baseball teams over Middlebury, followed closely by the victory of the tennis team and that in turn by the triumph of what has been called our "extemporaneous track team," completed the burying of Middlebury.

Pleasant as these victories have been, they are only incidental—not of a foundation. The thing we have in mind right now is not the fact that we have won, for that is told in the news columns, and is history.

It will be remembered that there was no expectation last fall of putting a Vermont track team into the field. Coach Cloughen left, and track enthusiasts felt that prospects were pretty black. But a few who supplemented enthusiasm with the will to work against obstacles would not concede that track was out of the question, and due largely to their work a small appropriation was secured, and E. R. Latty, instructor in the romance languages and a track man at Bates, gave his services for love of the institution which is his temporarily, and of the game.

The results are set down where all may read. The splendid showing of our eight men at Springfield, and the conquest of Midd and Norwich, are among the brightest chapters of Vermont's athletic history. In the face of apparently insurmountable obstacles, they went in and played the game, and what they won was won on sheer grit and nerve.

It is the proper time to ask: What are we going to do about track next year? Are we going to give this sport, which offers opportunity to more men than any others, a fair chance? Are we going to give it the place in the sun it has earned this year?

We cannot hold the state meet here, we are told, because we have no track good enough to invite Middlebury and Norwich to run on it. As state champions, and as Vermont's largest college, we should have such a track.

Manager Beebe and his assistants have put in a tremendous amount of hard work, and deserve all credit. But it was their job, and decorations come only for service outside the call of duty. Such was the service rendered by Latty—service for which he was not paid, which was in no way incumbent upon him, which was not even for his alma mater. To Coach Latty, above all others, the admiration and thanks of Vermont are due, and Vermont pays her debts.

If his sacrifice, and that of the other men who worked this year to put Vermont on the track map, are not to go for naught, Vermont must get behind track next year.

JUNIOR WEEK COMMITTEES

Carl A. Ottley of Seneca Castle, N. Y., is chairman of Junior Week. Edwin I. Drury of Essex Junction is chairman of the Prom. Those on his committee are Frank Bartlett of Richmond; Arthur G. Beach of Bristol, Conn., Frances S. Burditt of Pittsford; Daniel R. Casey of Richmond; Harriet E. Elliott of Barnet; Burton L. Emerson, Jr., of Gansevoort, N. Y.; F. Marjorie Fifield, of South Hero; William B. Gunnon of Springfield, Mass.; Maurice F. Goodrich of Richmond; Russell A. Gray of Derby Line; Margaret B. Hazen of Richmond; S. Burton Heath of Burlington; Olney W. Hill of Burlington; B. Jane Howe of Burlington; Grace E. Killam of Burlington; Marshall E. Mower of Burlington; Frederika B. Northrop of Burlington; Grace H. Norton of Bristol; L. J. O'Connell, Jr., of Saranac Lake; Marden G. Platt of Riverside, R. I.; Herbert M. Remick of Riverside, R. I., and Marion E. Symonds, Waban, Mass.

Chester B. Russell of Springfield, Mass., is chairman of the Junior Week "Peerade" committee. Those who serve on his committee are Beatrice L. Herberg of Burlington; Florence E. Lewis of Poultney; A. K. Tudhope of Grand Isle and W. Murray Wilbur of Richmond.

James A. Mason of Arcade, N. Y., is chairman of the general committee. Others on the committee are E. Carlton Abbott of Woodstock; E. Dwight Trowbridge, Jr., of Detroit, Mich., and Philip B. Hodgdon of Cabot.

Frank F. Atwood of Hardwick is chairman of the Junior Week program committee. The committee is also composed of Dexter D. Butterfield of Burlington; Doris A. Dodds of Burlington; and Ruth E. Frost of Middletown Springs.

SENIOR SINGS POPULAR

Every Sunday evening at 7 o'clock the seniors are holding a "Senior Sing," in an effort to revive an old Vermont custom. Vermont songs and old favorites are sung. Many unique effects are gained through the skilful and untiring work of the leader, Don Gannon.

A week ago Sunday the weather stood sadly in the way, but at the meetings many cars have stopped and fairly large audiences have gathered. The meeting last Sunday was an unusually successful and better attended than any previous sing.

The Sigma Nu Float, Which Took the Wig and Buskin Cup as Best Men's Entry

PAGEANT JUNE 18

Rehearsals are now well under way for the big pageant in commemoration of the centenary of the laying of the Old Mill cornerstone by Lafayette in 1825, which will be put on by the students at 8 o'clock on the evening of June 18, on Centennial Field. There is still need for more men to complete the big cast and make the pageant a success, of which the University may be proud.

Prices have been set at 25 cents for general admission and 50 cents for reserved seats, in an effort to have a big gathering for the occasion. Box seats will be $1. Tickets will be placed on sale at the University store and at central points in the city.

CAYWARD PERMANENT PRESIDENT

Claire G. "Squirrel" Cayward of Stanley, N. Y., four-letter athlete and captain of basketball last winter, recently voted the most popular Senior man, was chosen permanent president of the Class of 1925 at its meeting recently. Cayward is a member of Key and Serpent, Boulder, and Sigma Phi. Dorothy Barrows of Stowe was elected permanent vice-president, Dorothy Ellis of Huntington Center secretary, and Philip I. Holway of Barnard treasurer. Edward N. Brush of Hardwick was chosen to represent the class on the Alumni Council.

OTTLEY PRESIDENT OF 1926

Carl A. Ottley of Seneca Castle, N. Y., was chosen by the Class of 1926 last week to lead the class in its Senior year. Ottley has been prominent in various activities, and was chairman of Junior Week. He is a member of Key and Serpent, Boulder, and Sigma Phi. Other officers elected are Marjorie Fifield of South Hero, secretary and Carleton Abbott of West Woodstock, treasurer. The ballot for vice-president resulted in a tie between Constance Weaver of Bradford and Marion Symonds of Waban, Mass., which will be decided next fall.

MOODIE HEADS 1927

The sophomore class elected the following officers at a meeting held Monday afternoon, June first: President, Ellis J. Moodie of Craftsbury; vice-president, Ruth Eayres of Pittsford, secretary, Belle Randall of Waterbury, treasurer, Bingham Humphrey, of Proctor.

Moodie has been active in track athletics, played class basketball, is an assistant manager of football, and has served on various committees. He is a member of the Gold Key Society and of Phi Mu Delta Fraternity.

FROSH CHOOSE CONWAY

"Jack" Conway of New Bedford, Mass., was elected president of the Class of 1928 at a meeting last Tuesday; Eileen F. Goodwin of Burlington was chosen vice-president; Dorothy M. Hall of Burlington secretary and Raymond G. Homer of Plymouth, Mass., treasurer. Conway is a member of Sigma Phi, was recently elected by his class to the Student Senate, and is playing a good game at shortstop this spring.

CLIPPINGS

The University of Vermont Press Club is one which the other state institutions of this character might well pattern after. A steady, continuous stream of well-prepared press notices flows from this department to the editor's desk of every newspaper in the state, and beyond. Not all of course, of these notices get into print but the percentage is evidently judged worth while for there has been no break that we have noticed for a long time.—*Waterbury Record.*

1926 ARIEL HAS MADE ITS APPEARANCE ON CAMPUS

Latest Issue of Year-Book Combines New Features with Completeness and Artistic Arrangement

The 1926 *Ariel*, which made its bow to a few select—and fortunate—juniors on Thursday, and which is now being delivered in ever-increasing numbers, is a worthy successor to the 1925 *Ariel* and its predecessors, and in many ways is probably the most complete, artistic year-book ever issued at Vermont.

There are no startling innovations, but some changes of arrangement, together with excellent features and a subdued but carefully executed artistry, make the book one of unusual attractiveness.

To Lake Champlain is dedicated this latest year-book as a whole, while the Medic section is dedicated to Dr. C. F. Whitney and the Education section to Prof. B. C. Douglas.

The opening section commences with an introduction of double-page spreads, embellished with lake views in a pleasing green. These are followed by eight pages of excellent campus and lake views, and these in turn by pages devoted to photographs of President Bailey and the various deans.

The feature section, presenting comely and popular junior women in the rôle of the wives of some of the better-known presidents, is built up about an autographed copy of the Christy painting of Mrs. Grace (Goodhue) Coolidge, '02.

A new feature this year is the separation of men's and women's organizations and activities, so far as practical, giving to the co-eds a section of their own.

"Day by Day," the snapshot section, is artistically arranged and representative, with captions which will betray their author to many of his friends.

Each of the women's dormitories is given a page by itself. Autograph pages are provided for in the back, as before.

The book closes with "Vermont Days." This humor section does not achieve its announced purpose, that of bringing about for all time a cessation of demands for a humorous publication.

"Baird's Manual" of fraternity houses is witty, pertinent, and occasionally impertinent. "LaFayette and the Cornerstone," a Shakespearian parody, out-Bacons Bacon himself.

The cover is far from the least attractive feature. Done in a slate grey, with a lake scene in bronze relief, the whole in classical design, it provides a fitting enclosure for a book of real merit.

RUTLAND H. S. WINS THIRD STATE TRACK CHAMPIONSHIP

On a wet field drenched with intermittent rain, Rutland High outclassed her seven rival schools, all of whom were guests of the University, at the annual interscholastic track meet held at Centennial Field, Saturday, May 23.

This makes the third successive year that Rutland has emerged victorious, leading her nearest rival, Lyndon Institute, by 18 points this year

The meet started Saturday morning at which time the preliminary events were completed. Rutland and Brattleboro qualified the most men from preliminaries, Lyndon being not far behind.

Bellerose of Rutland was easily the star of the meet, taking firsts in the 100-yard dash, the 120 high hurdles and the 220 low hurdles, equalling the record in the first and breaking the record in the last event.

Martin of Brattleboro starred, winning the 220-yard dash and the 440. Powell of Burlington took two firsts, winning the shot put and the running broad jump. Farr of St. Johnsbury won the high jump and captured second in the pole vault.

Keniston of Lyndon broke the state record in the mile run by a full second ahead of the former time.

FRATERNITIES DANCE

The final event of Junior Week was the fraternity dances, most of which were held in the chapter houses on Saturday evening

The Owls entertained at the fraternity house, which was decorated in yellow and white with banks of ferns arranged about the fireplaces and windows. Kimball's orchestra of Enosburg Falls furnished the music. The chaperones were Prof. and Mrs. H. A. Larrabee

Sigma Phi held its dance at the chapter house, Col. and Mrs. Holden acting the chaperones; and the Green and Gold Players furnished the music. The favors were silver pendant bracelets

The Delta Psi dance was held in the fraternity house, with the Border Night Hawks of Newport furnishing music. Mr. and Mrs. M. L. Powell, and Dr. and Mrs. P. K. French were the chaperones. The ball room was decorated with pink and green crepe paper. Favors of leather mats in dregs of wine and gold were given to the ladies

Phi Delta Theta held an informal dance in the chapter house, with music by the Phi Delt orchestra. Dr. and Mrs. E. W. Pike and Dr. and Mrs. H. A. Durfee were patrons and patronesses.

The Kappa Sigma dance was given in the chapter house. Decorations were Japanese lanterns, with the musicians, Blank's orchestra, seated in a miniature garden. Mr. and Mrs. Warren R. Austin and Mr. and Mrs. Arthur Stevens were the chaperones. Jewelry boxes were the favors

The Sigma Nus danced in the Lodge with music by the Norwich orchestra. The house was trimmed with white lilacs. Prof. and Mrs. W. E. Aiken, Mr. and Mrs. J. R. Jennings, and Mrs. Freeman were the chaperones

Tau Epsilon Phi held its Junior Week dance in the newly-acquired chapter house. Prof. and Mrs. F. D. Carpenter and Mr. and Mrs. A. P. Feen were the chaperones, and the Melody Boys furnished music. The house was decorated in lavendar and white and green and gold. Silver vanity cases were the favors.

Phi Mu Delta held its first Junior Week dance in the new fraternity house. Mr. and Mrs. Guy Hawkins, Mr. and Mrs. Maurice Bond of this city, and Mr. and Mrs. Hardy Merrill of Montpelier were the chaperones. The Twin City Ramblers furnished music. Card cases were given as favors.

The Zeta Chi dance was held at the Van Ness roof garden with Prof. and Mrs. H. W. Peck acting as chaperones

Sigma Alpha Chi held its dance at the Ethan Allen Club House with the Middlebury Melodians providing music. Capt. and Mrs. B. C. Kennon were the chaperones. Favors of silver perfumettes were given

Sigma Delta entertained at the Hotel Vermont roof garden with Paul Rider's Collegiate orchestra playing. The chaperones were Prof. and Mrs. L. B. Puffer and Mr. and Mrs. M. M. Wilson of Randolph. The favors were silver perfume flasks.

MEMORIAL DAY EXERCISES HELD IN THE GYMNASIUM

As usual, the University played a prominent part in the Memorial Day exercises of the city last Saturday, and the principal address of the day, by Hon. John W. Gordon, of Barre, was delivered in the gymnasium following the parade.

The University Battalion, led by the R. O. T. C. Band, took part in the parade through the central streets of the city, folowing which exercises were held in the gymnasium, at ten o'clock

General J. A. Logan's Grand Order No. 11, 1868, was read by a member of the Stannard Post after which Mr George Sherman of this city rendered a Salute to the Dead. Prayer was offered by the Chaplain of the Day, Reverend Chauncy C. Adams, D. D., and "The Battle Hymn of the Republic" was sung. Lincoln's Gettysburg Address was delivered by Emery C. Mower, '27. After the song "Marching Through Georgia" came the address of the day by Mr. Gordon. The singing of "America" and the Benediction closed the exercises

In his address Mr. Gordon pointed out the territorial extent and the power of the United States and showed how all had been accomplished by the sword, even to preventing secession of our southern states; but the glory of America, he stated, has been that her plough has followed her sword — that she has ever been ready to build up peace as well as make war. "The soldiery cannot be shelved, it is a spiritual force." Mr. Gordon pointed out that "Our forefathers had tried a system of simple confederation of states, but that when the pressure of war was removed that system became obsolete." He traced the rise of our government, stressing the Supreme Court: "The thunderous roars of Napolean's battles have had for a hundred years, and will have for a century to come, less potency than the quiet voice of a venerable judge declaring the supreme law of the land that gave us the innumerable blessings of unrestricted intercourse. I believe that no college curriculum or high school course should omit a study of the great decisions that have moulded and shaped the destinies of America." Speaking of the right of the Supreme Court, Mr. Gordon said that if the right were given to each of our governmental departments to interpret the constitution according to its own views "we would have no tribunal maintaining the right to decide between the departments when their interpretations conflicted. The struggle to change and lessen the powers of the court has continued to our day and will, no doubt, be prolonged into the future. If it should meet the success for which its supporters hope we may some day cease to enjoy the

'Ancient right, unnoticed as the breath we breathe
Leave to live by no man's leave, underneath the law.'

A short review was taken of the amendments to our constitution showing their effect. Of the nineteenth amendment and its accompanying possibilities Mr. Gordon says: "If a woman can sit on a throne, why not in a presidential chair? An Elizabeth, a Maria Theresa or a Victoria would compare favorably with some of our presidents." The address was ended by a plea for preparedness: "Our possessions are too precious to be frittered away, or put to the hazard of unpreparedness. We have fortunately escaped disasters in the past, but escape has sometimes been narrow. The failure of a screwbolt to hold on the Monitor might have opened our southern ports to foreign aid with fatal consequences

State Track Championship Brought Home For First Time in Nine Years

Green and Gold Stars Break Three State Records And Defeat Midd and Norwich by Substantial Margin—Crouter Big Point Winner for Vermont

After eight consecutive years of track defeats at the hands of the Black Panther cinder men, Larry's well balanced team returned from Middlebury last Friday with the triangular track and field meet won by a comfortable margin. Vermont scored 66 points to 54½ for the Blue and White and 14½ for Norwich, and captured first place in nine of the fifteen events.

Vermont men also split the points for first and second places in two other events, the high jump and the 100 yard dash. It was a big day for smashing records, despite the inclement weather, and wearers of the Green and Gold hung up marks for others to try for in three field events the hammer and javelin throws and the pole vault.

Captain Olney Hill set a Vermont record in the hammer with his heave of 139 feet 11½ inches. Whitten bettered his mark at the Eastern intercollegiates by two inches, clearing the bar at 11 feet 6 inches and Sonnie Simpson got off a throw of 147 feet 8⅝ inches with the javelin. He already held the University record with a heave of almost ten feet farther at Springfield some time ago, but this was a record for the Vermont meet.

Archie Post's thrilling victory in the mile run was one of the features of the day, also the finish of the 220 yard dash, when the judges declared Sandy" Crouter and Happ of Middlebury to have run a dead heat

Crouter was high point man with 12, having won the hundred, taken second in the quarter and split in the 220. He was also tied with Cass of Middlebury for highest individual score of the meet, Cass taking first in the discus, second in the shot and javelin and third in the hammer for a total of 12 points. Simpson amassed a total of 11 points for second high score with his first in the shot and javelin and third in the discus. Donald was another star for Middlebury winning both the quarter and half with a great sprinting finish

The summary

110-yd dash, Crouter, V 1st Happ, M. 2nd. Brown, N. 3rd Time 10 4 sec

220-yd dash Crouter V and Happ M. tied for 1st Fixman, M. 3rd Time 23.6 sec

440-yd. dash, Donald, M. Crouter, V Robinson, M. Time 53.8 sec

Professor Cowgill of Yale University gave an illustrated lecture before the Vermont section of the American Chemical Society in Williams Science Hall on Friday evening, May 22. He discussed nutrition, vitamine B, new facts concerning rickets, sunlight and vitamines necessary for reproduction. Professor Cowgill has published about 20 papers in the field of physiological and biochemistry

SNAKE DANCE AND FIRE GREET BASEBALL VICTORS

Loyal Vermonters tried a week ago Saturday night to show a little of their appreciation for the nine men who are representing the college in one of the greatest baseball seasons of its history, the team which downed Colgate and Syracuse by 9-1 and 7-6 scores on consecutive days.

A parade, led by the band, left the gym at quarter of six Saturday evening, and with songs and cheers made its way down College Street to the business section, gathering recruits en route.

Regardless of traffic, the traditional snake dance of victory was staged hilariously up Winooski Avenue to Cherry Street and out to Church Street on the Sherwood corner. Here "Mose" Moore and the boys did their stuff with the "old Vermont" and the rest of the cheers, ending with a roar for every man on the Big Nine, which had just returned from the trip and were attending the banquet at the hotel

In response to a vociferous appeal, Captain "Chevvy" at length stepped out and expressed his own gratitude and that of his mates for the welcome extended to them, concluding with the very good advice to "watch us go from now on"

The bunch broke up and proceeded to satisfy certain desires of the inner man, but gathered again on the back campus at seven o'clock, to continue the celebration about a big bonfire of boxes and tar barrels furnished by interested townspeople

JAPANESE CHAMPIONS TO PLAY COLLINSMEN

Osaka Mainichi Nine to Play at Centennial Field Against Crack Green and Gold Outfit

GAME COMES JUNE 19

One of the big attractions of the baseball season here is scheduled for June 19, when the Osaka Mainichi, champions of Japan's island empire will clash with the Collinsmen on Centennial Field.

This game is one of an extended schedule which the Japs will play in this country against such teams as Notre Dame, University of Michigan, New York Giants, New York University and New York A. C., in addition to others hardly less known.

During the past four years the Mainichi team has won 212, tied five and lost but 44 games out of a total of 261 games played, an average of .828.

The victims of the island champions have included all the leading college teams in Japan and nines in Manchuria, Tientsin, Peking and Shanghai. There are no professional teams in Japan, so this aggregation of ex-college stars reigns supreme.

The players are graduates of seven collegiate institutions in Japan, and are all employed upon the *Osaka Mainichi*, a daily newspaper, and their baseball is incidental to their journalistic work.

The splendid record of the Green and Gold nine this season, together with the record of the Japanese team, promises that the clash between the two will offer to fans a game out of the ordinary in more ways than one.

The Osaka Mainichi Baseball Team, Champions of Japan, Which Will Meet Coach Collins' Charges on Centennial Field, June 19

ST. FRANCIS TAKES COUNT 9-1

In a game free from errors, Vermont trimmed St. Francis College of Brooklyn, May 19, at Centennial Field, by a score of 9-1. The Varsity completely outclassed her rivals, and by virtue of airtight support of the masterful work of Burns, coupled with the slugging of his team-mates easily gained the verdict.

The game was featured by the 11 hits made by the Vermont team, their seven stolen bases and seven strike-outs by Burns. Morse also contributed largely to the victory with three hits, including a home run and a three-bagger.

BATTING AVE. OF TEAM IMPROVING

Eight members of the Vermont team, including four regulars, are batting for over .300, and the team as a whole has improved its average since the New York State trip by two points batting now for .306 despite the smaller number of 300 individuals.

While Buttles nominally leads the field, Burns with .417 is the real leader, followed by Carney, who has participated in all but the last Norwich game and has hit for an average of .333.

The averages to date, including the Norwich game:

	Games	ab	h	Ave.
Buttles, s. s.	1	1	1	1.000
Burns, p., r. f.	14	36	15	.417
Carney, 1b.	21	90	30	.333

Team totals	22	782	239	.306

RESERVES CONTINUE WINNING STRIDE

The Reserves closed their season with a second win over Jeffersonville this time to the tune of 1 to 0, in a 10-inning pitching duel in which Moriarty had a decided edge over his opponents, Willard and Pollinger. The one run was made by Buttles in the tenth inning, after he had gone to first on a single, to second on Guild's third hit of the game, and come home on Esty's long outfield hit.

A five-run rally in the eight, after Goddard's hitters had driven Smith from the box the previous inning with a four-run collection, enabled the Seconds to defeat the Barre team 9-5. Talcott, who succeeded Smith, held Goddard scoreless for the two innings he occupied the box. Art Guild garnered four hits in five trips to the plate, while Esty got three hits in as many attempts, of which one was a triple.

Saturday, May 16, at Jeffersonville, the second team defeated the Jeff aggregation 4-3. Williams started in the box but the U. V. M. boys soon drove him out and Pollinger of Winooski came in to hurl, allowing no runs.

"Jack" Smith pitched a good game for the reserves, and the entire team played fine defensive ball. Duba, U. V. M. '23, was at second base for Jeffersonville.

The next Saturday, May 23, at Centennial Field, Burlington High took an 18-2 trouncing at the hands of the seconds. Keady pitched most of the game for B. H. S. and received poor support. Gero relieved him after the sixth, and allowed only four scattered hits.

The high school boys started off with a bang the first inning, scoring their two tallies at that time. Thereafter Talcott held them scoreless.

NETMEN DEFEAT MIDD BUT FALL BEFORE SPRINGFIELD

As its contribution to Junior Week, the tennis team defeated Middlebury's netmen 5-1 on the home courts last Thursday, but on Saturday lost to Springfield for the second time this year, 4-2.

In both matches Guild was invincible in the singles, defeating Rich of Middlebury and Captain Tung of Springfield, the latter an exceptionally clever, brainy player.

In the Middlebury match Guild and Roberts won their game, but against Springfield this combination fell before Capt. Tung and Rivers, for its second defeat of the season.

The summaries:

MIDDLEBURY MATCH

SINGLES

Guild (V) beat Rich (M), 6-3, 6-2; Roberts (V) won from Adams (M), 6-0, 6-2; Hoag (V) beat Hickox (M), 12-10, 3-6, 6-3; Nye (V) beat Wolfskehl (M), 2-6, 6-4, 6-3.

DOUBLES

Guild and Roberts (V) won from Adams and Twitchell (M), 6-1, 6-3; Rich and Hickox (M) beat Hoag and Barrows (V), 9-7, 6-2.

SPRINGFIELD MATCH

Singles: Guild (V) beat Capt. Tung (S), 7-5, 7-5; Rivers (S) beat Capt. Roberts (V), 6-3, 6-4; Thomas (S) beat Hoag (V), 7-5, 6-4; Nye (V) beat Sowers (S), 6-4, 4-6, 6-3.

Doubles: Capt. Tung and Rivers (S) won from Guild and Capt. Roberts (V), 6-0, 6-2. Sowers and Bass (S) won from Barrows and Hoag (V), 8-6, 5-7, 6-3.

PHI MU DELTA FRATERNITY CHAMPIONS

Again the Key and Serpent cup for the Interfraternity baseball series goes to Phi Mu Delta, last year's winner, as the result of the last game of the finals held on Centennial Field Wednesday afternoon, when the Phi Mu's defeated the Owls 5-4 in a hard-fought contest. Schoppe opposed Carter on the mound.

In the other finals, the Kappa Sigs, winners in their league, were eliminated by the Phi Mu Delts and the Owls.

Work on 1927 Ariel Begun

Work on the 1927 *Ariel*, under P. B. Daniels and C. G. Simpson, has gotten well under way, and the board is fast being chosen. A White photographer was in town recently getting views of buildings and of spring activities. The Bureau of Engraving of Minneapolis has been awarded the engraving contract, while it is expected that the Free Press will do the printing. The membership of the Board should be ready for announcement in the next issue.

BIG GREEN WINS 7-4 IN 12-INNING BATTLE

Record-Breaking Junior Week Crowd Thrills To Clash of Nines on Centennial Field

TAYLOR PITCHES WELL

Before a record-breaking Memorial Day crowd of over 6,000 people, which packed the stands to their utmost capacity, the slugging Vermont team succumbed for the second time in four days to the Big Green of Dartmouth.

The gruelling battle lasted for twelve hard-fought innings before a batting rally brought in three runs for the opponents and won the game for them 7-4.

Vermont set off big fireworks in the opening frame, and the three tallies which crossed the plate looked large until the fourth, when Dartmouth evened matters on a hit and a couple of bad breaks.

The contest then settled down to a pitchers' battle, with neither team within scoring distance until the ninth came around. Then the visitors put up a lone marker on a walk, coupled with errors at crucial moments. But the game was not won then, for they had to reckon with "Jimmie" Burns, who laced out a pretty one at the right time, scoring Carney and again tying the score a 4-4 in the last of the same inning.

With everybody right on their toes, two more uneventful rounds passed, but the twelfth brought disaster in the shape of two hits and three scores which sewed up the game then and there.

"Red" Taylor looked good on the mound, allowing but eight hits, though three of them came at the wrong time. Comerford was knocked from the box in the first inning, but was not removed till three runs had been scored. Edwards then took over the job, and was very able in holding the Vermont batsmen.

SPRINGFIELD FALLS 9-3 BEFORE FOGG'S PITCHING

The Green and Gold Varsity showed its real calibre last Thursday when it left Springfield College behind 9-3. The game was a battle from start to finish. Gates, on the mound for the Y. M. C. A. school, was pounded out of the box in the fourth inning with only one away. Crawley came in from right field to hurl but a quartet of Vermont runners crossed the plate before the side was retired.

"Noisy" Fogg pitched his first home game of this season, and allowed only four hits, holding his opponents scoreless except in the third inning, when the Red and White garnered two singles which, coupled with an error by Fogg, a walk and an error by Laubach, netted the Springfield aggregation their three runs.

Vermont's second rally came in the eighth and added three runs to the home team's lead. Morse, Conway and Laubach were swinging heavy sticks, getting a triple apiece. Jenkins starred for the Mass. team with two hits and a long running catch of Bradley's sock to deep left center.

MANY GOOD CONTESTS FOR NINE IN NEXT THREE WEEKS

Collinsmen to Meet St. Michael's, Boston College, Brown, Williams, Japs and Alumni

On Saturday, Vermont faces St. Michael's at Centennial, a team which ... to St. Francis, but pinned a ... ive defeat on Coach Laird's protégées. Comparitive scores would ... oint to victories for Vermont in both ... games, though both will be interesting.

Then we take on the big ones again, in the week of the Commencement and immediately preceding, when Boston College comes here on the 13th, and the team goes against Brown and Williams on a two-day trip, returning for the Commencement games against the Jap team and the Alumni.

Williams will be looking for our scalp after the 4-3 defeat which they suffered up here, and Brown has a strong aggregation.

Boston College administered a 10-5 drubbing at the Heights a while ago, but the U. V. M. nine has improved greatly since that time, and will be a sufficiently well coordinated machine to make the Eagles play some baseball.

TAYLOR AND CAYWARD STAR AS NINE INVADES NEW YORK

The baseball season reached a climax when the team invaded the Empire State and returned with the scalps of Colgate and Syracuse, the latter taken only after a 12 inning tussle in which Burns and Taylor pitched a masterly game until their team-mates could break down the defense of the New Yorkers for the necessary tallies.

"Red" Taylor was the hero of the trip, holding Colgate to one run Thursday, while Vermont was collecting nine, and relieving Burns in the box Friday, after the latter's shoulder had given out.

The Green and Gold administered the worst whipping to Colgate that the Maroon has suffered at home in three seasons. Chevalier contributed three hits, one a triple; Conway and Taylor each connected twice; and three more safeties were garnered by the remainder of the team. Cayward, besides connecting for a single, had a quintet of putouts and as many assists.

Hopkins, for Colgate, pitched a strong, heady game, but received poor support.

Jimmy" Bradley's big stick was a big factor in the victory over Syracuse, for in six trips to the plate he connected for five hits.

The game was Vermont's until the ninth, when Burns, who had held the hits well scattered, played out and was relieved with nine out, and a runner on second waiting to tie the score at three all. The score was tied after Taylor took the mound, then "Red" shut down and held the Syracusians scoreless for the remainder of the game.

In the twelfth, Vermont put over four runs for a 7 to 3 score.

"Squirrel" Cayward again starred in the field, accepting ten chances for three putouts and seven assists.

Sacrifice hits, Erickson, Wright, Bradley, Conway.

Stolen bases, Erickson, Shanks.

First base on balls, off Gates, 2; off Crawley, 3, off Fogg, 5.

First base on errors, Vermont, 2; Springfield, 1.

Left on bases, Springfield, 6; Vermont, 7.

Struck out, by Fogg, 4; by Crawley, 2 in 5 innings.

Double plays, Shanks to Berry.

Wild pitch, Crawley.

Hit by pitched ball, Hanson by Fogg; Carney by Gates; Morse twice by Crawley.

Time, Two hours, ten minutes.

Umpires, Payette at the plate; Carney on bases.

NETMEN WIN, LOSE AND TIE ON MASSACHUSETTS TRIP

The trip of the Vermont netmen was ... resulted in a win, a tie, and one defeat with all closely contested. The first match of the three-day trip was an even break with the Holy Cross Purple, 3-3, in which Roberts and Hoag triumphed in the singles, and the doubles combination of Guild and Roberts defeated Cullen and Reardon of the opponents.

On Friday they suffered their one defeat at the hands of Springfield College, 4-2. Hoag again came through with a win, also the number one doubles combination, as before Rivers finally defeated Roberts after playing three deuce sets.

Saturday's match resulted in a win over Worcester Tech, the score being 4-4 with the second doubles interrupted by rain. The Tech team had battled our racqueteers to a tie on the home court a week prior to this tilt. Three sets were required to decide all the singles matches, and Guild, bowing before the onslaught of Krans, was the only loser. Their last set ran to deuce. Nye beat the opposing captain with the final set at 11-9.

Vermont's performance against these three strong teams was very satisfactory, and indicates a good finish for the season.

TWO HOMERS AND FOGG'S PITCHING DEFEAT CADETS

Cayward with a homer and two triples, Burns with a homer and two singles, and Fogg with 10 strikeouts to his credit while he was allowing only three hits, were the stars of Vermont's win Thursday over the Norwich Cadets at Northfield. The 13 to 2 score tells the story.

After Williams had been touched for 12 hits in five innings, he was withdrawn and Choate finished the game for the soldiers, allowing only five hits of which two were homers.

DATES FOR SOCIAL EVENTS FOR NEXT YEAR ASSIGNED

Student Senate Also Purchases Loving Cups for Captains Fay and Kennon, Who Leave Vermont This Month

A committee from Student Senate met last week with representatives of those campus organizations giving dances and other social affairs, and drew up a schedule for the next year which not only avoids embarrassing conflicts in date, but separates similar functions sufficiently so that one does not detract from the other.

At its meeting at Lambda Iota house May 24, the Senate voted to purchase loving cups for Captains E. N. Fay and B. C. Kennon, who after four years of service with the R. O. T. C. battalion here, are being transferred to active duty immediately following Commencement. The cups, suitably engraved, were presented at the Memorial Day convocation Saturday.

Sept. 25, Senate-Boulder Mixer; Oct. 2, Key and Serpent dance; Oct. 16, Mortar Board dance; Oct. 23, Cap and Skull dance; Oct. 30, Aggie dance; Nov. 10, Military Ball; Nov. 13, Medic Smoker; Nov. 20, Masque and Sandal; Nov. 25 or 26, Boulder dance; Dec. 4, Football Hop; Dec. 18, Key and Serpent dance.

Jan. 8, Gold Key dance; Jan. 15, Women's Glee Club; Feb. 5, Sophomore Hop; Feb. 19, Kake Walk; Mar 5, Key and Serpent dance; Mar. 12, Interscholastic Basketball tournament; Mar. 19, Basketball Hop; Mar. 26, Mortar Board dance

April 16, Boulder dance; Apr. 23, Band Concert; Apr. 30, Key and Serpent dance; May 7, Men's Glee Club; May 28, Junior Prom (tentative).

From Dec. 1 to April 1 the gymnasium is reserved by the athletic department to give the manager of basketball full opportunity to arrange his schedule of games and practice.

Fifty dollars was appropriated by Student Senate, at a meeting at Sigma Nu Lodge, to apply toward a gift for E. R. Latty who has given his services as track coach this spring, and A. T. Post was appointed to represent the Senate on a committee to attend to further details.

The social calendar for next year was formally adopted at this meeting.

Communications

(Continued from page 3)

ashamed of, that Vermont spirit was there. It was there in quality but not in quantity.

The firelight revealed it in the peppy cheer leader, who single-handed, fought to keep it alive. It was revealed in the ranks about the fire who shivered with damp feet and hoarsely cheered and sang Vermont songs. But the fire cast light on great spaces that should have been filled

Vermont, we're proud of you. Baseball men, we're proud of you. But aren't you just a little ashamed of us?

'28.

The Senior Sings

To the Women's Editor of the Cynic:

Vermont is one of our oldest universities, yet we find that there are but few surviving traditions. About the campus many times you may hear this fact being discussed, yet when an attempt is made to establish, or make it possible and establish a new custom, there is no support. Why? Don't we care to have features expressive of our campus? If so, let us support the new activities, for they certainly will not survive otherwise.

At present the senior class is trying to make a success of the "Senior Sings." But how many attended the last one? Most colleges have this custom of Senior Sings, and greatly cherish it. Why can't we here at Vermont? It is one of the nicest spring customs a college can have. Let us all come out to the next Senior Sing, support the seniors and establish the custom on our campus.

'27.

To the Women's Editor of the Cynic:

The Senior Sings are on the Library steps seem to me one of the loveliest things we have had at Vermont this year. There is something about sing-

INTERESTING FACTS OF HISTORY

George Washington and His Commission

On July 3, 1775, Gen. George Washington took command of the colonial forces at Cambridge, Mass., within the shadow of Harvard College. This event will be appropriately celebrated on July 3, 1925.

The commission, which made George Washington "General and Commander-in-Chief of the Army of the United Colonies" by vote of the Continental Congress at Philadelphia, is dated June 19, 1775, and is signed by John Hancock, who was then President of Congress.

This commission was the first historic document signed by John Hancock and next to the Declaration of Independence, signed by him the next year, is the most important.

The original engrossed copy of the Washington commission can be seen in the Library of Congress. A photographic copy of this commission, as well as a facsimile of the Declaration of Independence, has been reproduced by the John Hancock Mutual Life Insurance Company of Boston.

The John Hancock is particularly interested in insuring college men and women and in obtaining college graduates for the personnel of the field staff.

ing that makes a spirit of comradeship. If a people all sing the same songs they all pull together. It seems to me a shame that we don't have more sings, not just in the Spring nor just for Seniors, but for everyone. Many people think the spirit at Vermont is poor. Outside of new dormitories I think "sings" are the best cure in the world for poor spirit. Vermont songs are beautiful. I know of no college that has any more melodious or inspiring. The new dormitories that we want are not yet in prospect, but we can have the sings any time. The Library steps are always waiting.

'28.

Prof. Harold A. Larrabee, of the department of psychology, leaves next year to become head of the department of philosophy at Union College, Schenectady. Prior to coming to Vermont, Prof. Larrabee spent a year at the Universities of Paris, London and Heidelberg as a Rogers Traveling Fellow of Harvard University, at which institution he is candidate for the doctorate this June. He has taught also at Columbia, Syracuse, Harvard and Radcliffe.

The Home Economics Club announces the following officers for the coming year: President, Kathryn Lang, '26; vice-president, Doris Griffin, '27; secretary, Frances Larned, '27; treasurer, Priscilla Bromley; chairman of program committee, Miriam Dailey, '26.

Lilac Day Finally Held at Redstone Wednesday

(Continued from page 1)

and a mystery. As each dreamer cast away her veil, the lilac dropped a leaf. Then there were no dreamers and in their place were persons bound down by chains of fact.

In a neighboring land there dwelt a lady who had kept her silver veil untarnished. She remembered when her land lay in darkness that a slip planted from the lilac had changed all, bringing happiness and light.

So the lady took back a slip of her lilac to the dark land of her neighbors. She brought the maidens' silver veils once more. Their chains fell away as she set new lilac in the earth. The spirit of the old lilac returned and brooded again over the land she had loved.

The spirit of the lilac was Miss Ruth French, '27; new spirit of the lilac, Miss Harriet Metcalf, '27; beautiful lady, Miss Belle Randall '27 niece of the late Dean Wasson, spirit of the mountain Miss Cora Chamberlain '25, spirit of the lake Miss Margaret Barrows, '27; spirit of science, Miss Ann Dauchy, '25. Solo dances were given by Miss Ruth French '25 and Miss Harriet Metcalf '27.

Music was furnished by the girls' orchestra with Miss Eleanor Chapman '27, leader. The pageant was directed by Mrs. Dallas F. Pollard. Miss Margaret Hazen '26 was the manager.

Miss Dorothy Gilbert, '25, retiring president of Student Union, in her address briefly told of the history of Lilac Day. She gave a glowing tribute to Dean Wasson speaking of her beauty of person, personality and character. Miss Gilbert was assisted in the planting of the lilac by the class vice-presidents, Miss Dorothy Gilbert, '25; Miss Beatrice Herberg, '26; Miss Belle Randall, '27 and Miss Frances Knight, '28. The bush was planted in the hedge which is being continued between Robinson Hall and Redstone.

Following the lilac planting step singing was held on the front steps of Redstone. The Seniors in caps and gowns sang first, giving their place to the Juniors as they walked away. The glory of the setting sun was reflected from the lake as the student body faced it to sing "Champlain."

Finley, Noted Educator, Commencement Speaker

(Continued from page 1)

remember his felicitous speech on that occasion. He has taken walking trips through Vermont and is familiar with this region. Previous attempts have been made to secure Doctor Finley as Commencement orator and previous engagements hitherto have prevented his acceptance. He is an earnest and eloquent speaker, a man of fine presence and altogether an ideal orator for this centennial anniversary.

1926 Junior Week Proves Big Success

(Continued from page 1)

[illegible] Friday the first copies of the 1926 Ariel were distributed to their owners.

Saturday was full. In the morning was held a track meet which [illegible] In the afternoon the [illegible] racqueteers invaded the [illegible] White Mice on Centennial field. Dartmouth's diamond aggregation had the honor to be the second game of the season so far.

The day was rounded out, and the week brought to a successful conclusion with the Fraternity dances in the evening.

A mass meeting of men and women was held at the gymnasium, during the Student Union hour Saturday, May 16. The purpose of the meeting was to secure the cooperation of the students in putting on the Lafayette Pageant during Commencement week. Professor Wallace and Professor Metcalf addressed the meeting.

Cayward Most Popular Man in 1925

(Continued from page 1)

the first to desert bachelordom. There must be a better reason for such an assertion than that he is chosen class Romeo. Juliet (so says the class) is Corrinne Somerville. Ruth Hobill, it is claimed, will be last to marry.

In these days of much plumbing, the class plumber, Ed Beebe, should not suffer from penury. Perhaps the class wet one, Dick Cogswell, will help him.

Just as the girls have their inseparable pair, so have the men their Gaston and Alphonse couple, Duke Duque and Carl Martin. And just as Ed rules the men intellectually, so does Anne Dauchy set on an academic pedestal as the most knowing of 1925 co-eds. We hesitate to record the decision of the class, but—Natt Burbank knows least!

The class Hot Dope Boy, Dick Cogswell, must have peddled the dope that Bob Platka is the leading Spanish athlete, while Allan Newton shines at parlor athletics. 'Tis said, too, that while Tommy Cook is the class farmer, Carl Day is the real "Big Town Boy."

Dick Odell is considered the laziest man in 1925, and Vin Carney the hardest nut to crack.

Although all but 12 of the class admit to having been kissed, and some get quite facetious over such a foolish question, there are 33 who deny that they ever [illegible]. Some say it depends upon the girl, and probably others feel that it depends upon the man. Of the 12 who have never kissed—or been kissed?—several are not unwilling, according to their own confessions.

Two-thirds of those who filled out questionnaires allege that they are faithful followers of Mr. Volstead. An equal proportion are devotees of "Our Lady Nicotine," and among these Lucky Strikes are the most popular [illegible] some are satisfied with Chesterfields, while others walk a mile for Camels because they can't be sold in the bookstore.

The old reliable S. E. P. is the most popular magazine, but *College Humor* captured a good second, followed by *Cosmopolitan*. Some even admitted to reading and liking—or perhaps only looking at—*Smith's Companion, St. Nicholas* and *Good Life*.

Of course, even so academic a class as '25 does not read always, and it appears that bridge ranks first among indoor amusements, with dancing a close second and fussing and alcoving putting up pretty races.

In more serious moments the Seniors prefer to devote themselves to Government, their favorite subject. English and astronomy come next. Psychology was distanced, perhaps because next to Economics and Math, it was voted the hardest subject.

In spite of the ranking of Ec 2 and Ec 14 as the hardest courses, Prof Groat of the Ec department was, together with Prof Tupper of the English department, the most popular professor. Judge Mower, of the popular Government department, ran a good third.

Dartmouth and Wellesley were voted the favorite colleges after Vermont. It was the consensus of opinion that the Senior year was most enjoyable, although the Junior year had its champions, and the deepest regret of most of the class is the necessity for leaving U. V. M.

Of course, the best of things is imperfect, and the members of W. B., with their friends, decided that while their organization is the best thing at Vermont, the rival Inner Circle is the worst. Others believe that muddy sidewalks, lack of facilities, and general indifference, together with certain courses, are the worst things here.

A few provincials thought the class of 1925 the best thing at Vermont, but others voted for the campus, Lake Champlain and the democratic "old Vermont spirit," together with athletics.

The greatest need of the college is for more buildings and for more money. Some have decided now that they should have studied more, did not participate enough in activities, or did not cultivate friendship as they might have.

Not to be outdone by the esteemed *Free Press*, we also refuse to print the expression which was voted the most collegiate, but other leaders were "Get in College," "Class Excused," and "She Knows Her Oats."

Now that the year is nearly over, the lads and lassies are considering the future, and after intense concentration 17 have decided that they are willing to marry an ed or a co-ed, as the case may be. In many of these cases there are reasons. While some are undecided, preferring to wait for circumstances to tell their own story, more are positive that they do not want a college-trained mate for life.

Most of the men hope to become big business executives, while the ambition of most of the women is to instruct the young mind. Engineering, of course, has a few devotees, while active campaigning and some excellent politics, placed engineering in third place, although most of the engineers will probably work in course of time into the hardware or furniture businesses.

A few individuals have more definite ambitions, such as medicine, nursing, newspaper work, farming or social work.

The Vermont Cynic

VOLUME 43 BURLINGTON, VT., JUNE 27, 1925 NUMBER 30

122nd Commencement Sets Record in Degrees Granted, Alumni Attendance, Variety and Excellence of Program

CASEY BASEBALL MANAGER; BRADLEY CAPTAINS TEAM

The vote for captain and manager of the baseball team for the season of 1926 was made at the close of the struggle with the elements to play the Alumni game, which concluded the present year.

As a result of the election James A. Bradley of Freeland, Pennsylvania, will captain next year's nine, and Daniel R. Casey of Richmond is the manager.

"Jimmie," or "Gus," as he is known among his fellow coal-miners, has been a strong addition to the Vermont club ever since coming here, and rates the captaincy without the slightest shadow of doubt.

"Dan" is a member of Boulder, Scabbard and Blade, Kappa Mu Epsilon, and Key and Serpent. He is a brother of "Jack" Casey, manager of last year's team, and belongs to the Phi Mu Delta fraternity.

"Joe" O'Connell of Saranac Lake, N. Y., will manage frosh football for the next season. He is a member of Gold Key, Key and Serpent, and the Alpha Tau Omega fraternity.

The men who received the "V" for their efforts on the diamond are as follows: Captain Earl Chevalier '25, 3rd base; "Vin" Carney '25, 1st base; "Jack" Cayward '25, 2nd base; "Bob" Patrick '25, right field; "Jimmie" Bradley '26, center field; "Jimmie" Burns '26, pitcher and right field; "Red" Taylor '26, pitcher; "Don" Moriarty '26, pitcher; "Bob" Thompson '26, catcher; "Noisy" Fogg '27, pitcher; "Bill" Morse '27, left field; "Jack" Conway '28, shortstop; "Nujol" Laubach '28, catcher; and "Phil" Holway '25, manager of the team.

Those elected to the assistant managerships are "Whit" Doane and "Doc" Marvin, of the sophomore class. The vote was tied for the third assistant, which will be decided later. Doane and Marvin were consistently hard workers, of the Sigma Nu and Delta Psi fraternities.

TENNIS

C. B. Russell, '26, of Springfield, Mass., is manager of the varsity tennis team for next year, and F. W. Guild, '26, of Lebanon, N. H., is captain. The assistant managers are T. M. Egan, '27, of Underhill Center, J. B. McLeod, '27, of Barre, and E. J. Moodie, '27, of Craftsbury. "V's" were awarded to Manager R. H. Barrows, Captain E. B. Roberts, F. W. Guild, O. B. Nye, and H. D. Hoag.

TRACK

W. J. Herron, Jr., '26, of Saranac Lake, N. Y., has been elected manager of next spring's varsity track team; and C. G. Simpson, '27, of Lyndon Center, has been chosen captain of the team. Assistant managerships have been awarded to F. M. James, '27, of Hardwick, C. H. Jones, '27, of Montpelier, and J. L. Kimball, '27, of Bethel.

The men winning the varsity "V" in track this spring were Manager E. M. Beebe, Captain O. W. Hill, A. L. E. Crouter, Jr., J. H. Davies, W. M. Hall, A. T. Post, H. A. Prentice, A. W. Shaw, C. G. Simpson, W. L. Whitten, G. S. Wilcox, and O. T. Wood.

HOCKEY

C. B. Russell, '26, of Springfield, Mass., has been elected manager of hockey for next winter.

Pageant Programs

There are available a considerable number of the beautifully illustrated pageant programs, which may be secured through the registrar's office at ten cents each.

BATALLION AGAIN IN DISTINGUISHED CLASS

For Ninth Year Vermont R. O. T. C. Unit Is Rated By War Department In This Class

SECOND SUCCESSIVE YEAR

The University R. O. T. C. battalion has once more been awarded a place in the distinguished class. This makes the ninth year it has been so designated, and the second year in succession.

It is growing to be more of an honor each year, as the competition becomes more strenuous. The Federal inspection becomes more rigid annually, and this year was harder than ever before.

Col. G. J. Holden has headed the military department for five years. C. W. Tandy, '25, of Athol, Mass., was highest ranking cadet officer and major of the battalion.

HONORARY DEGREES

Professor Frederick Tupper, head of the department of English, presented candidates for honorary degrees from the University as follows:

Master of Science:—James Nathaniel Jenne of Burlington, graduate and, for a generation, professor of the Medical College of this University;

(Continued on page 4)

ENDOWMENT FUND NOW OVER MILLION DOLLARS

The "Old Vermont" resounded again in the baseball cage Saturday noon when President Guy W. Bailey announced that $1,030,163.17 had been raised toward the $1,150,000 to be raised as an endowment, and that the remainder of the fund would probably be raised by January 1, 1926.

The announcement was made at the alumni luncheon before about 700 enthusiastic alumni, seniors and guests.

A notable feature of the luncheon was the unveiling of a painting of Dean J. L. Hills of the College of Agriculture, the work of Scott C. Carbee, presented by the agricultural alumni.

The speakers included many noted alumni from all over the country, who praised their classes, the University and its officers.

In explaining the situation as regards the Endowment Fund, President Bailey said that the objective when the campaign for the fund was started three and a half years ago was $1,000,000, of which the General Education Board agreed to give $250,000. This had been raised, he said, by various methods, including subscriptions from alumni and annuity contracts. It had been found that, owing to the methods of payment under the annuity contracts, the pledges from this source, amounting to $256,967.17, could not be counted in full. For this reason, it was necessary to add $150,000 to the million dollar objective, making the total to be secured $1,150,000.

212 DEGREES IN COURSE AND 8 HONORARY DEGREES

Laying Cornerstone of Ira Allen Chapel, Lafayette Pageant, and Other New Features Make This Biggest Commencement in History; 580 Alumni Return

The biggest Commencement Week in the history of the University of Vermont has gone into history with the granting of 212 degrees in course, eight honorary degrees, 54 commissions in the reserve corps of the U. S. army, and 44 diplomas to two-year teacher training students.

In addition to the usual events of Commencement, this year the new Ira Allen Chapel, the gift of James B. Wilbur of Manchester, was formally started with the laying of the cornerstone by the donor; the centenary of the laying of the cornerstone of the Old Mill by Lafayette in 1826 was observed with a huge pageant on Centennial Field; other minor events were added to the program; and in recognition of the size and excellence of the program, a record attendance of alumni was attained.

Among the recipients of honorary degrees were Governor Billings, James B. Wilbur, John H. Finley, commencement orator, and T. R. Powell and Dr. J. N. Jenne, the latter two Vermont graduates who have attained to unusual success in the world.

Before an audience of 2,200 persons, in the gymnasium annex, degrees were awarded to 160 academic and 43 medical seniors and to nine post-graduate students by President Bailey. Twenty-one were Commissioned first lieutenants in the medical reserve and 33 second lieutenants in the infantry reserve.

At the close of the week's activities the Seniors took their annual boatride, then scattered throughout the country to their several homes and to positions in which they hope to rise in time to high rank.

Five hundred eighty alumni, the largest number ever recorded, registered during the week.

COMMENCEMENT EXERCISES

Early Monday morning, capped and gowned figures began to appear on the front campus, the number steadily increasing until just before ten o'clock there was formed a procession which reached from the site of the chapel back as far as the Old Mill. The graduates, headed by the president and members of the faculty, made a circuit of the campus and entered the gym annex.

Prayer was offered by the Rev. Richard Roberts, after which the president introduced the speaker of the morning, John Huston Finley, LL. D., L. H. D., associate editor of the New York *Times*, who proved himself to be a man of rare personality and of fine oratorical ability, and held his audience captivated throughout a very interesting discourse.

Mr. Finley's address was followed by the singing of America by the audience, and the awarding of the commissions and diplomas to the graduates. President Bailey then announced the award of honors and prizes, among which was the new Kidder Medal, presented for outstanding character and leadership in the senior class, to Edward Newcomb Brush, who has been editor of the *Ariel* and the Cynic, and prominent in other campus activities. The exercises were brought to a close with

(Continued on page 7)

Cornerstone of New Ira Allen Chapel Laid by James B. Wilbur

In defiance of a threatening sky, the ceremonies incidental to the laying of the cornerstone for the new Ira Allen Chapel were held Saturday morning.

On a platform raised over the west end of the foundation gathered the members of the graduating class, in caps and gowns, friends and faculty of the University, and the speakers for the occasion, presided over by President Bailey. Grouped about the platform, and extending far back towards the Library, were assembled many more people who had come to witness the impressive event.

After a prayer by Rev. John Lowe Fort, '00, and the singing of a hymn, Hon. James B. Wilbur, donor of the Chapel, descended from the platform in company with President Bailey, threw off the covering of the stone, and with a trowel and mortar prepared for the purpose, dedicated symbolically the edifice which his philanthropy had made possible. This finished, he returned to the platform, and spoke a few words about the Chapel and his interest in it, which appear elsewhere.

The response for the University was made by President Bailey, after which Warren Robinson Austin, '99, represented the Board of Trustees in an expression of their appreciation for Mr. Wilbur's gift. Prof. Samuel Eliot Bassett, in an eloquent response on behalf of the faculty, compared the life of a University to that of man; its mind, the faculty; its heart, the students; its body, the campus, the visual signals of it, of which the Chapel would become a part. The senior class was represented by Miss Anne Dauchy, '25, of Townshend, and the undergraduate body by Edward Carlton Abbott, '26, of Woodstock.

MR. WILBUR'S ADDRESS

"No more enjoyable service is possible," said Mr. Wilbur, "than that of laying the cornerstone of a beautiful temple which is to be dedicated to the service of God.

"He who is all powerful must depend on human hands to accomplish this act. Few of us ever consider how necessary our hands are to Him, and seldom do we ask Him to use them in His service.

"It is indeed a privilege to take part in this tribute to your founder, Ira Allen.

"This memorial was prompted by the character of your founder, not by any special service, and there were many he rendered worthy of any tribute we could pay.

"It has been from our human standpoint a long time due to him, but let us hope that the delay will make it more precious.

"When the chapel is completed in every beautiful detail, it will then devolve upon you and upon those who shall succeed you, to make it a living force in the University life.

"This institution is only what the woof of the human lives which enter into it make it, and they can best show their appreciation and be worthy of God's interest and loving care, by their presence whenever services are held here. All should come into this temple to give something and not merely to get something. Give encouragement to God's servants who preach here, by attendance.

"Give attention to their interpretion of Christ's teachings and give thanks here to Him whose help and guidance are needed in every step in life. How selfish is the act when one attends services only to hear the

UNIVERSITY HAS 7,500 LIVING ALUMNI

There are living now approximately 7,500 alumni of the University of Vermont, according to a report submitted by Secretary John O. Baxendale at the meeting of the alumni council Saturday. Of these, there are 6,262 on the mailing lists of the alumni office, living in every state in the Union except Nevada. Around 1,200 are on the lost address list.

The oldest living alumnus of the University is George White Chamberlain of Berkeley, Calif., of the class of 1854. The oldest who returned for Commencement was J. J. Allen of Brooklyn, N. Y., of the class of 1862.

At the business meeting of the alumni, Thomas C. Cheney of Morrisville was chosen chairman of the council and J. O. Baxendale was re-elected secretary.

New Sigma Alpha Chi Home Will Be Formally Opened in September

Sig Alphs Have Purchased Emerson Property on Summit Street and Will Renovate and Furnish It During Summer

Sigma Alpha Chi fraternity has taken possession of its new home at 56 Summit Street, formerly the residence of Prof. Samuel A. Emerson, and will open the house formally next fall after alterations and outfitting have been completed.

New Home of Sigma Alpha Chi

Already many students and townspeople have visited the new home of the Sig Alphs, and while there was no formal reception the past week, the house is open to such students, alumni and friends of the University and the fraternity as care to look it over.

This latest addition to the fraternity houses at Vermont is not only splendidly suited to the use to which it will be put, but adds a building of beauty and character to those already associated with the University.

The building, located on the northeast corner of Summit and Maple streets, is of brick, with a number of ornamental gables which add to its architectural attractiveness. It sets in large grounds, liberally dotted with trees, shrubs, flowering bushes and plants and ornamental grasses, which with care will be very attractive.

There are five large fireplaces, of which three are on the first floor and two on the second. The second floor will be used entirely for study rooms, while the third floor in addition to the chapter hall on the southwest corner, has three large rooms which will be used for sleeping quarters.

EIGHT MORE ELECTED TO PHI BETA KAPPA

Eight more members of the Class of 1925 were elected to Phi Beta Kappa Friday morning and initiated Saturday morning, making the number from that class total 15, which includes all but four of the *cum laude* graduates this year. Because of an automatic restriction to 15 persons from each class, it was impossible to take in all who had attained honor rank in scholarship.

These chosen Friday were Bernice M. Davis of Barre, Eleanor H. Joyce of Proctor, Marjorie A. Pierce of Cuttingsville, Lucy A. Rich of Burlington, Earl C. Sawyer of Hardwick, Lucy I. Wells of Barre, Ina N. Westover of Waterville and Madeline E. Whitcomb of East Barre.

Cornerstone of New Ira Allen Chapel Laid by James B. Wilbur

(Continued from page 1)

words of some gifted preacher or some enjoyable music.

"Good habits are as hard to change as bad ones and those students who form the habit of regular attendance in this chapel, will find that habit one of their best recommendations when they enter a professional or a business life.

"The only affirmation necessary to enable students to enter into the spirit of this important addition to the many facilities now offered by the University, should be the expression of their desire to love God with all their hearts and love their neighbors as themselves.

"May you and the many thousands who shall succeed you ever be grateful to Ira Allen for this gift. His first gift to the University, £4,000, made one hundred and thirty-four years ago and paid in full at a very great sacrifice, was only the beginning of what he intended to accomplish here.

"May this chapel herald many services lovingly and prayerfully wrought for this University under the inspiration of Ira Allen."

PRES. BAILEY'S RESPONSE

President Bailey, responding for the University, said that the inscription upon the cornerstone indicates that the donor has a two-fold purpose, a desire to provide an edifice to be devoted to the service of the Divine Being and to stand as a monument to the founder of our institution.

"Either purpose by itself constitutes a most praiseworthy object; to combine the two creates a cause for general felicitations on the parts of friends of our institution.

"With the completion of this building, we will have effected a co-ordination of educational processes that will guarantee the perpetuation of our institution for all time, an institution whose aim and purpose will ever be character, leadership and scholarship.

"And so, by the addition of a beautiful chapel, we at once realize that our founder's dream of a University to interpret correctly the spirit of Vermont is to become a reality.

"But we have been reminded that this edifice is to serve another purpose, a memorial to the founder of this institution who gave his life to the service of Vermont.

"And what greater tribute could be paid to any person than to have erected to his memory a building dedicated to the highest type of service that has for its ultimate aid the formulating and perpetuating of character.

"Today we celebrate the inception of a plan to make the vision of the founder come true and at the same time pay the highest tribute to our founder.

"And so, we felicitate ourselves upon the importance of this event, an event that marks the beginning of a new and powerful influence in our undergraduate life.

"In behalf of the University at large, we express our heartfelt thanks to our donor for his wise and discriminating judgment as to our needs and for his further desire to honor the memory of our founder."

The granite block which composes the cornerstone is placed at the northwest corner of the building to be, and inscribed on it are the following words:

"Dedicated to the service of God, erected in memory of the founder of this University, Ira Allen, 1925."

MANY MEMBERS OF 1927 ARIEL BOARD ANNOUNCED

Loretta Jennings Will Be Women's Editor; Some Vacancies to Be Filled Later

The selection of Miss Loretta Jennings of St. Albans as women's editor of the 1927 *Ariel* has been announced by P. B. Daniels, editor-in-chief.

Miss Jennings has had quite a little experience in literary work and is at present a member of the Cynic Board. She is a member of the Delta Delta Delta sorority.

While the board for next year is not yet complete, the following appointments are announced:

Grind editor, H. T. Aplin, assisted by E. J. Moodie and W. R. Doane. Feature editor, J. B. Phelps, athletic editor, H. V. Greene, assisted by H. C. Sherwin; Art editor, L. J. Cahoon, assisted by D. M. Rockwell and J. R. Morton; Photographic editor, R. H. Lyon, assisted by G. A. Gould and F. M. James.

On the women's side, Misses Charlotte Brown, Vina Rugg, Belle Rendall, Lois Burbank, Elizabeth Warner, Arlene Cushing, Dorothy Bosse and Alma Tyler have been appointed and others will be added in the near future.

The medic editor has not yet been appointed.

Communications

A Comic Needed

To the Women's Editor of the Cynic:

"Why has not Vermont a college comic magazine?" All incoming students have asked this same question—that is, the greater number who are at all interested in college publications have. Outgoing students, ready to undertake their worldly burdens, have hoped there would be one to keep them in touch with Vermont, and yet—we have no comic publication, except the one and only edition of the "Bohemian Meow," to our credit.

Of one thing we're certain: We've got sufficient good material right on our campus to start a magazine and make a success of it. Talented students! Well—one glance at some of the seats and desks in our class rooms will justify that statement. Why don't these energetic people, who do draw such collegiate figures, put their wasted energy on paper? The sketches are cute—we grant that, and we want them!

As for "wise crevices"—we're always putting forth some clever remark that we might as well "let others in on." So it's not a case of not having material to start with for—we have!!

I think of how proud we might be of a college comic! Everytime it came out—roll it up and send it home to the folks! Graduates, student body, faculty, friends—they'll all interested to hear of those college days. Those cartoons will bring back some happy thought to the reader. When he reads of the Old Mill, he can think of the time when he first arrived at U. V. M. and heard upper classmen speak of the revered Old Mill, and thought it was the University Experiment Factory.

A comic will bring joy and greetings to many; there's no doubt about that.

Our school's big enough now. We need a comic magazine, we want it—let's have it!!!!

'27

Two class presidents are ineligible to hold office this semester at McGill University due to failing academic work.

"Behavior among college students is no worse than among other young men and women," is the opinion expressed by Professor Ruch of the University of California, upon returning from a convention of the American Association of Colleges. "Stealing and bootlegging are about as evident, but no worse, in colleges than elsewhere. The part of a college education which students neglect is their association with other people."

MISS PATTERSON MADE DEAN OF WOMEN

The election of Miss Marian Patterson as dean of women at the University was announced following a meeting of the Board of Trustees Monday morning. Miss Patterson has been acting dean since the death of Mrs. Pearl Randall Wasson, who served for a year when the class of 1925 first entered college.

At the same meeting Judge G. M. Powers of Morrisville, who has been a trustee on the part of the State, was chosen life trustee on the part of the University vice the late Fred T. Kidder of Woodstock. Judge Powers has resigned his state trusteeship to accept that of the university.

AKRAIA HOLDS REUNION

A reunion banquet of Akraia Chapter of Mortar Board was held on the Hotel Vermont roof garden at noon, June 19. The gathering included about 30 active members and alumnae. The programs were small booklets with "U. V. M." on the covers, and the speeches given represented those of Commencement exercises.

Miss Dorothy Parker, '24, of Bethel was toastmistress. Miss Dorothy Gilbert, '25, of Dorset gave the history, and Miss Florence Lewis, '26, of Poultney read the prophecy. The poem was delivered by Miss Marion Killam, '22, of Burlington, and the will was read by Miss Madeline Whitcomb, '25, of Barre. Miss Selma Strong, '25, of Hyde Park, retiring president of Mortar Board, was "Valedictorian."

PROF. CARROLL WEDS MILWAUKEE GIRL

The marriage of Daniel Bernard Carroll and Miss Viola Louise Thnering of Milwaukee, Wis., took place in that city June 8. Mr. Carroll has been a member of the faculty since last fall, having held an assistant professorship in Government and Law. He has been exceptionally popular with his classes and has the good wishes and congratulations of all in his latest venture. Prof. and Mrs. Carroll are residing at present at 15 North Williams street.

PRESIDENT'S RECEPTION AND SENIOR PROM

The annual President's reception and Senior prom were held in the Billings library Friday evening, with a large attendance of alumni, seniors and friends.

In the receiving line were President and Mrs. Guy W. Bailey, Dean and Mrs. J. L. Hills, Miss Marian Patterson, acting dean of women, Prof. and Mrs. M. B. Ogle, Prof. and Mrs. E. Swift, Prof. and Mrs. F. Tupper, Edward N. Brush, president of the senior class, and Miss Dorothy Heffion, Donald A. Gannon and Miss Dorothy J. Ellis.

Lafayette Pageant Staged on Centennial Field Huge Success

Burlington witnessed the most magnificent artistic presentation which the University has ever attempted when, last Thursday night, before a large audience at Centennial Field, there was presented the Lafayette Pageant—a series of highly realistic historic scenes, presenting with vividness and beauty the visit of General Lafayette to Burlington exactly one hundred years ago, and the events incident to his laying the cornerstone of the present Old Mill.

The pageant, which was presented on the football field, using the south stand for a background, and the north stand for the audience, employed in all about five hundred people, all of whom were carefully costumed in the dress of the time, representing cavalry, infantry, townspeople, students, professors and many other types.

The lighting for the scenes was effected by large flood-lights placed at the top of the stands in such a way that they could be directed to any part of the field as necessary. The beams from these, together with the green lights which were used to string the stand used by the audience, presented a very bizarre and pleasing effect.

The pageant was enacted in four episodes: the first dealing with the arrival of Lafayette in Burlington, the second showing the reception of the Revolutionary Veterans, the third the laying of the cornerstone, and the fourth the levee at the Van Ness mansion, now Grassmount.

Between the first and second episodes a group of young girls danced on the green, interpreting friendship between France and America, and between the third and fourth episodes was a dance of the Green and Gold, directed by Miss Cynthia Lash, introducing the Spirit of Learning, the Spirit of Youth, and the University colors.

The important and difficult role of Lafayette was taken by Ovide F. Parody '27 who interpreted with great success the dignity of speech and bearing which was a characteristic of the great Frenchman.

Others of the principal players were Natt B. Burbank, '25, in the rôle of George Washington Lafayette; N. Dean Rowe '27, "M Levasseur," the secretary; Henry C. Conlin '26, "Governor Van Ness"; Dorothy L. Gilbert '25, "Mrs. Van Ness"; Charles H. Blackall '27, "President Willard Preston"; Emory C. Mower '27, "David Russell, Esq"; Earl E Fall '25, "Sergeant Doe."

In addition to the University students who participated in the pageant, there were soldiers from Fort Ethan Allen, Company K, High School students, and members of other local organizations.

The handling of this large and varied group of people for rehearsal, and the procuring of costumes, suitable lighting effects, programs, publicity, etc., represented a very great deal of work on the part of the pageant committee and directors, and the success of the production was a fine tribute to their ability and energy.

Professor Metcalf occupied the position of General Director of the pageant, with Donald A. Gannon, '25, DeVaux de Lancy, William F. Spafford and Mrs. C. Ives Taggart as directors of individual episodes.

Professor Wallace was chairman of the Pageant Committee, with Leon W. Dean, secretary, in charge of publicity, and fifteen other individuals from faculty and undergraduate body in charge of various phases of the work.

BRUSH RECEIVES FIRST KIDDER MEDAL

Edward Newcomb Brush of Hardwick was the first recipient of a Fred Thomas Kidder medal, awarded at the Commencement Day exercises to that member of the senior class who had shown, throughout his college course, the greatest qualities of character and leadership.

The medal will be awarded each year in memory of the late Mr Kidder, a trustee of the University at the time of his death, and provided for through a fund set aside by a friend.

Brush has been an outstanding member of the class in a variety of ways. Not only has his scholarship been of the highest quality, but he was editor of the 1925 *Ariel*, editor of the CYNIC and class president during his senior year, a member of Boulder and active in many ways. He also won entrance examination honors his freshman year.

At Union College, Nebraska, recently the girls were given four days to get rid of lip stick and rouge.

1923 WINS COSTUME PARADE

The Alumni costume paraders, undaunted by clouds and showers, tripped joyously down to Centennial Field Saturday to the music of the Burlington Band and the cheers of the spectators.

The class of '23 headed the line with its conspicuous class banner; the men attired as devils, with scarlet tunics and horns and firebrands; the women as angels with white wings and haloes, and flowing white robes.

1920 followed, in black and white clown costumes, with faces painted in bizarre designs, presumably the class numerals. These which followed, although with not such numerous representations, were none the less bizarre, gypsies, bolsheviks, individuals of unknown quality with large buttons and orange hats, and others in great variety.

The cup for the best costume was won by the class of 1923.

1925

After an extremely busy week, the members of the Class of 1925 have severed their active connection with the University of Vermont and have gone out into the world. In their hands are sheepskins the symbol that they have spent four years at the University, have taken certain courses of study and have passed them in accordance with the standards set up and that they are now entitled to write after their names "A. B." or "B. S." or "Ph. B."

In their minds, probably, are at least vague memories of many words of advice on every possible phase of almost every possible subject. They have been told that their education is not finished—that it has only begun. Perhaps they believe this, perhaps not. If not yet, they will soon.

Their eyes are set upon the big world of business and pleasure. They see as in a mirage, fame and fortune awaiting them at the end of a not so long road following pleasant lines through green fields and beside shady pools.

For most of them these mirages will prove to be the reflections of things more distant than they appear but not by any means unattainable. For a few they are just mirages.

But these things have been said over and over. It is not for undergraduates to repeat them to any length. Rather there remains to us the privilege of saying something that the able speakers brought here for the occasion could not say as we can.

The Class of 1925 has made for itself at the University of Vermont a niche which must be vacant for a time, however hard we who remain may try to disguise that fact. Through the outstanding ability of many individuals, and the constant "plugging" of the rank and file, we others have gotten accustomed to looking to 1925 for guidance and assistance. We can do so no longer.

As new problems arise, and as old problems assume new forms, we must meet them ourselves in our own ways, making many mistakes at first and learning from them until, if we succeed, in time others will look to us as we have looked to 1925.

All this is just another turn of the wheel that is never still—the wheel of higher education that every year sends out into the world a new class and leaves to its successors the solution of the problems that arise. 1925 took up the burden laid aside by 1924, and the Class of 1926 will assume its responsibility ably assisted by 1927 and 1928, and soon by 1929. We shall do our best to carry on in every way and make our University proud of us. But—

We shall miss 1925. We shall miss it both in work and in play. And so we send out, at this last opportunity, our message of friendship, gratitude and good-will to the men and women of 1925.

Honorary Degrees

(Continued from page 1)

skilled conductor of clinics and learned therapeutist; winning in the war with Spain distinguished rank in the surgical corps of his country and in later years the highest office in the medical councils of his State; gaining as physician and friend the grateful regard of many.

Doctor of Divinity:—Richard Roberts, minister of the United Church of Canada and member of the corporation of McGill University; gracious gift of Wales to England and of England to the States and the Provinces; potent preacher, persuasive essayist, cogent moralist; kindling the hearts and souls of men with the flame of his spoken or written word.

Doctor of Agriculture:—George Hiram Walker, native of Springfield, Vt., resident of Massachusetts, head of the Walker-Gordon Laboratory; originator of a scientific process for the making of milk bacteriologically clean, organizer and developer of a world wide enterprise which has saved thousands of young lives; genial wholesouled lover of his race.

Doctor of Letters: Lucy Wheelock of Boston, born at Cambridge, Vt., daughter of a graduate of this University, founder and head of the Wheelock Kindergarten Training School; cherishing the precepts of Froebel and the traditions of Elizabeth Peabody; revered at home and honored abroad as a teacher of little children and their teachers, zealous champion of woman's work for woman.

Doctor of Letters—John Huston Finley of New York, editor, educator, author and many titles more, seemingly all mankind's epitome; wearing gracefully in his garland a dozen honors such as this, building strong works with large hand, healing sore wounds with light touch; piercing to the very core of things, yet ever looking above and beyond the thing of the moment, moving in the crowded ways of men and nations, and still loving the open road and the lonely hills.

Doctor of Laws—Thomas Reed Powell, welcome by an academic mother proud of her son in his strength, of his mastery of the sovereign law of the land of his eminence as its interpreter to students in famous schools; of his dexterity with tongue and pen in many public places; of his championship of truth, whether old or new, of his wisdom worn so lightly.

Doctor of Laws:—James Benjamin Wilbur of Manchester, esteemed member of State historical societies and Congressional Library committees, true lover of Vermont land and life and lore, rich in projects for the bettering of our present and in contributions to the knowledge of our past; blending in his study of the founder of our state and university the patience of scholarship and the ardor of hero-worship, seeking in lofty ways to perpetuate on our college ground the hallowing influence of Ira Allen's spirit.

Doctor of Laws.—His Excellency, Franklin Swift Billings, Governor of Vermont; bearing a name very dear to this University; moulded by a village boyhood, by a youth at Harvard, by a score of years of city commerce; returning in his prime to the state and town of his own people; maintaining family traditions of generous service by whole-hearted dedication of self to community and commonwealth; filling with distinction many offices freely offered.

VERMONTERS AT SILVER BAY CONFERENCE

Vermont was well represented this year at the Silver Bay Conference at Lake George. Fourteen men attended in spite of examination conflicts.

Famous speakers from all over the country and some well known people from other countries gave addresses. Bible classes, run on an entirely different and more interesting scheme, than the familiar Sunday school type, were found of great value.

Forums, where different subjects of the day were taken up, helped their comions from other colleges and by the aid of experienced men as leaders, to give one a fair idea on questions of the day and their possible solutions.

The Student Congress went on record as opposing Defense Day as the government now recognizes it. Vocational meetings were held each evening directly after supper.

Personal interviews with the many leaders of the Conference were urged and were found very helpful in getting at personal problems.

Athletics held an important place in each day's program in the form of baseball, tennis, track, swimming and boating.

Ralph Maxted the new Vermont Y. M. C. A. Secretary, accompanied the delegation to Silver Bay. "Max" is a graduate of Oberlin College and of Yale Theological Seminary.

FRATERNITIES HOLD ANNUAL RECEPTIONS

Several fraternities held receptions at their homes Friday afternoon, June 18, after the baseball games. Alumni, faculty members and friends were entertained and served with refreshments. The receiving lines were composed of alumni and their wives and families, or of members of the graduating class.

At the Kappa Sigma House, Mr. and Mrs. M. C. Robbins of Pelham Manor, N. Y., and Mrs. W. R. Austin of Burlington were in the receiving line. Mrs. H. T. Way of Burlington poured.

The Sigma Nu Lodge receiving line was composed of Mrs. Matt Daley, Mrs. A. E. Freeman and Mrs. R. W. Ready. The refreshments were in charge of Misses Laura Bliss, Ruth Buck, Rebecca Carpenter, Helen Dullahan, Dorothy Ellis, Eleanor Graham, Loretta Jennings, Constance and Elizabeth Ready, Dorothy Thayer, Madeline Whitcomb and Mary White.

At the Sigma Phi Place, Dr. J. B. Wheeler, Miss Constance Wheeler, Mr. and Mrs. Roy E. Bingham, J. J. and M. S. Allen of Brooklyn, N. Y., and Mrs. W. J. Van Patten received. Mrs. Dallas Pollard, Mrs. Mary Dow, Mrs. Lyman Allen and Mrs. A. B. Simonds poured.

The Phi Delta Theta House receiving line consisted of Mr. and Mrs. Hollis E. Gray, Don Hawley and Miss Irene Bates. Mrs. F. W. Kehoe, Mrs. J. E. Taggart, Mrs. W. H. Wilson, Mrs. H. T. Rutter and Mrs. C. H. Mower served refreshments.

The Phi Mu Delta House was decorated with bouquets of peonies. Clifton Tandy and Miss Clara Salls, Thomas Cook and Miss Mary Collins, Richard Aplin and Miss Amanda Davison, John Casey and Miss Elsie Strong were in the receiving line.

The receiving line at the Lambda Iota House included Mr. and Mrs. H. M. McIntosh, Mr. and Mrs. E. A. Brodie, and Mr. and Mrs. W. O. Lane. Refreshments were served by Misses Katherine Lang, Marjorie Fifield and Edith Vernon.

The Delta Psi House had in its receiving line Dr. and Mrs. H. F. Perkins, Prof. and Mrs. M. B. Ogle, A. Bradley Soule and Miss Doris Campbell, Ralph Taylor and Miss Marion Daley. Refreshments were supervised by Mrs. P. K. French. Mrs. C. P. Smith, Jr., Mrs. M. B. Stetson, Mrs. D. C. Hawley and Mrs. C. L. Soule poured.

The University of Pittsburgh has completed plans for the erection of a 52-story "Cathedral of Learning," to house virtually all the university activities. The structure will be 680 feet high.

Commencement Notes

The various fraternities and sororities held reunions at their respective houses and rooms Saturday evening at which were present such of the active chapters as were in town and considerable numbers of alumni back for Commencement.

The members of the faculty held open house Sunday afternoon at o'clock for the reception of alumni, undergraduates and friends.

At various times during Commencement Week the Trustees held meetings for the consideration of routine business.

Dinners of the alumni of the various colleges were held Saturday evening. The medics were at the New Sherwood where, with their customary ability to enjoy themselves, they spiced up the program of dinner and speeches with group singing of popular songs and a charming exhibition of solo dancing by Miss Cashman of the city.

The aggies met at the Ethan Allen Club, and enlivened the occasion for Dean Hills, Prof. Ellenberger and a few of the alumni by calling for impromptu talks. Prof. F. B. Jenks presided.

The engineers had as their guests President Bailey, Hon. James B. Wilbur of Manchester, Hon. Mason S. Stone, and a considerable number of prominent graduates of the college of Engineering.

About 40 past and present members of Boulder tore themselves from their downy couches Saturday morning to gather at the Ethan Allen Club for the first reunion breakfast ever held by the senior men's honorary. Prof. Frederick Tupper presided and called upon a number of alumni. D. A. Gannon spoke for the graduating class, and introduced to the alumni the 1925 and 1926 members, as well as some of the graduates of the past two years.

The band concert and singing Sunday evening was held in the gymnasium annex because of the rain which had fallen all day, and which threatened at any moment to commence again. Considering the weather there was a good gathering.

There were, as usual, two boatrides during the week, one for the alumni and one for the seniors. The alumni trip was taken Sunday morning, north along the Vermont shore, then across the lake and south on the New York side. The seniors went to Ausable Chasm, where a dinner was held in the hotel, followed by dancing for which the Green and Gold Players furnished the music.

SENIOR WEEK COMMITTEES

The Senior Week Committee and sub-committees were made up as follows:

Senior Week: E. B. Roberts, chairman; C. W. Tandy, Cynthia Goodsell, Eleanor Joyce.

Class Day: B. W. Randall, chairman; R. M. Johnson, R. E. Aldrich, Ruth Stanley, Mary Lou Griffith.

Class Walk: T. D. Cook, chairman, R. A. Walker, Cora Chamberlain, Marion Odell.

Pipe: H. C. Carter, chairman; R. E. Holway.

Gowning Statues: B. N. Reissig, chairman; H. F. Morse, Clara Salls, Etta Parsons.

Senior Prom: C. G. Cayward, chairman; G. H. Gates, E. M. Beebe, Elizabeth Ritt, Dorothy Heffron, Gladys Houghton.

Boat Ride: R. H. Barrows, chairman; G. McGuire, F. R. Lanou, Miriam Angell, Mary Carpenter, Viola McBride.

Banner: R. F. Patrick, chairman, A. A. Campbell, Anne Dauchy, Ruth Hobill.

Invitations: D. A. Gannon, chairman; F. L. Berry, Dorothy Gilbert, Dorothy Ellis.

Speeches of Unusual Excellence Feature of Class Day, June 19

...e, one of the few good days of ...or Week, last Friday, 1925 ob...ed Class Day on the north end ... the campus.

On a platform facing the north sat ... speakers of the day, while in rows ... seats arranged in a semi-circle in ...ont of the platform were the mem... of the Senior Class and their ...ends.

The seniors formed in front of Bill... Library and marched to the ...e of the exercises, led by Ray Bar..., class marshal, and E. N. Brush, ...ss president.

Following his address as president ... the class, Brush introduced the ...er speakers in turn. The Class ...story was presented by Dorothy ...lis of Huntington. Campus Oration ... Frederick T. Welling of Benning...n. Boulder Oration by Thomas D. ...ook of Shoreham. Then came an ...ntermission, during which an alumni quartet sang and pipes were distrib...ted and lighted.

When the pipes were well alight, Raymond E. Holway of Barnard gave the Pipe Oration, followed by the Class Poem by Dorothy Barrows and the Address to the Undergraduates by Claire G. Cayward. Again the alumni quartet sang.

Then the whole gathering went to the south end of the library, where Dorothy Heffron of St. Albans planted the class ivy and gave the ivy oration.

PRESIDENT'S ADDRESS

Edward Brush, class president, opened the annual class day exercises with a fitting address in which he extended a warm welcome to the returning grads and to the invited friends and guests, and expressed the hope that the latter might catch some of the true Vermont spirit during their Commencement stay.

"In leaving the old college," the speaker said, "we must sever many connections which we have come to prize greatly." He spoke of the great help and value which the faculty has been to the members of the class, and pays a special tribute of gratitude to President Bailey.

"The friendships of college days have been many and cordial, but college has meant something more to us than these very pleasant associations. There has been much hard work, and it is from that work that we have gained what is really most worth while and lasting in our years at Vermont.

"There have been many courses of development. We have learned such things as will fit us for a particular line of work. Daily contacts with our fellows and carrying on the work of our little undergraduate world—these have been important parts of our life here.

"At all times, during our stay here, we have been in contact with that something we call Vermont Spirit, the deeper ideals which Vermont holds up to us. Democracy, loyalty, honesty, and aspiration toward the bigger and better things are the essence of the true spirit of Vermont.

"Now comes the test. Let us not fail to make use of the training Alma Mater has given us, but let us make her ideals the guiding principles of our lives, and going out into life, let us prove ourselves worthy sons and daughters of our Alma Mater."

CLASS HISTORY

Dorothy Ellis, class historian, brought back the outstanding events of the four college years of the class, and glanced over "the record of our glorious life of work and play, which we have enjoyed together."

The first chapter of our history brings smiles to our faces." All was confusion then. Especially do the women of the class recall their early life at the Cannon Estate, and their later transfer to Redstone or Robinson Hall when these two buildings were opened.

A touching tribute was tendered to the memory of Pearl Wasson, former dean of women, and Miss Ellis said that Lilac Day will always remain as a memorial to her. The freshman year was a banner year for athletics, and the state championship in football, basketball, and baseball were awarded to Vermont.

The sophomore year saw the rededication of the remodelled Centennial Field. Again the athletic teams responded by winning the state championship in all three sports, and the football team won special fame by beating Dartmouth, 6 to 3. The Sophomore Hop began the real social activities of the class, and its musical ability was shown in its capture of the Lyman cup in the song contest.

The literary ability of the class members was lauded and "the best *Cynic* ever published" was claimed on behalf of the class. Junior Week with its Peerade, "Duley," and the Prom provided the biggest social whirl of the year. The speaker here gave honorable mention to "the successful work of Dan Cupid." Founder's Day again brought the Lyman song cup to the class of 1925.

The class sojourn as dignified seniors saw several important happenings. The R O T C band played at Coolidge's inauguration. Akaia was initiated as a chapter of Mortar Board, and the class established a record by singing its way to victory in the Lyman cup contest for the third successive time.

The oustanding persons in 1925 were not particularly cited, but the class members "stand ready to cheer them on and await with eagerness the day when the world crowns them with pride," said Miss Ellis.

"Our senior year has, perhaps, been both our happiest and our saddest year; happiest, because early acquaintances have ripened into true sincere friendships; because our days on this beautiful campus have fast been drawing to a close.

"We have reached the summit of our college life, but can we not await with eagerness the dawn when we shall begin our careers in a different world as men and women, better fitted for the tasks before us because of the high ideals we cherish as Vermonters?"

In conclusion, "we express our desire to live up to the Vermont Creed given us by Dean Wasson:

"'Vision to see the right our world demands,

"'Enthusiasm not content with dreams,

"'Reserve to guard foundations with firm hands,

"'Mentality to judge between extremes,

"'Opportunity for those who do not shirk,

"'Normality to guide real honest work,

"'Tradition—all you mean to us, *Vermont*.'"

CAMPUS ORATION

The Campus of the University of Vermont holds a dear place in our thoughts. For four years we have crossed it and re-crossed it on our way to and from classes, and varied as our moods have been as we have trod the paths, we have learned to love our campus because it has always seemed interested and sympathetic. Not only do we love it, but we are proud of it, and believe it to be the best and most beautiful campus in America.

The reason for the exalted place held by the campus in our thoughts is because it represents Vermont. Here we find trees native to Vermont and here also we find youth from all parts of our state. This youth is here to prepare for citizenship, to grow strong, and to serve and lead. The trees have withstood many hard winters and yet in the spring they bring forth their leaves and live anew.

Let us take a lesson from the trees of our campus, and should we have to endure periods of wintry hardship, we should remember what our trees do in the spring, and strive to bring spring into our own lives. Let us not be overcome by the first obstacle we meet, but strive ever onward toward better things.

The impression the campus has made on us is more than we may now realize. We remember how it looked under its pure white blanket of snow. We remember it in the autumn when it was a scene to take the eye with its beauteous, colorful foliage. And we know how it appears when spring arrives and the grass and the dandelions deck it in the colors of our Alma Mater. We are here to say shall it be "farewell?" No! Let it be "till we meet again," for though we may never see our campus again, it will live in our memories forever.

We must not forget the fellowships of our past four years, for they are more precious than we know. The friendships made here have changed our whole lives friendships made with each other and friendships made with the professors. We thought our professors were merely teaching us lessons from books, but we find now that their aim has been to teach us to think and to live.

But now we are about to go out into the world to follow the callings of our choice and we feel that to our campus and its associations we owe much. We may soon forget a great deal of what we have learned here, still our lives will surely be better from the pervading influence of the campus.

May our campus ever increase in beauty, and may those who follow us think of it as we do, with the greatest love and with the pleasantest recollections.

BOULDER ORATION

One of the privileges that comes to us today, as undergraduates of the University of Vermont, is to pay tribute to our sacred Boulder. And in our tribute is embodied our lasting love and respect for that symbol of our many ideals, which it has helped to keep constantly before us during our four short years here.

The University of Vermont Boulder is the symbol of the best efforts and ideals of our student body. This does not include the present members of this class alone but all those who have gone before us. It helps to bridge the gaps between the student body, the faculty, and the administration.

Perhaps it would be best if we were to pause here for a brief time, and together go over something of the history and legend surrounding the origin of the Boulder.

Geologists confidently tell us of its formation during the glacial period, and of how it was worn to its present smooth spherical form by the slow grinding action of the mass of ice, which finally left it in a large pothole in West Hartford, Vt.

There it was found by workmen during the construction of the Central Vermont railroad in 1848. Not recognizing in this granite mass the perfect handiwork of nature, they cast aside the Boulder, and allowed it to lie in the ditch until found by Professor Hitchcock of Dartmouth College, who at once wished to move it to Hanover. But Governor Payne, then president of the railroad, felt that it should remain in Vermont, and the Boulder came to our campus. For several years it led a very roving life, taking part in several freshman activities and being often propelled about the campus by ambitious Frosh.

In 1905 it found its present resting place and was made the foundation of our senior honorary society. It has come to embody all that is best at Vermont, and, as each new member has taken his oath with his hand on the Boulder, he has come to realize as never before something of the splendid traditions and purposes for which it stands.

If at any time the Boulder Society has not measured up to the standard it has set, it was because its members were not big enough to grasp its aims, but saw instead some petty personal advantage. Only so long as its ideals and those of the student body remain as firm and carefully modeled as our Boulder itself can it continue to be the symbol of our purposes and of all that we hold dear at Vermont.

Just as the Boulder through constant wearing and pressure was at last moulded to its present shape so we as students at Vermont have all

(Continued on page 10)

SENIORS VISIT DEANS AND FACULTY MEMBERS

The members of '25 in caps and gowns sallied forth Friday morning, June 19, on their Class Walk. During its course they stopped at various professors' houses and listened to the words of farewell and advice which they gave to them. Songs and cheers for each one were heartily given under the direction of Don Gannon, class song leader.

Among the homes visited were those of President Bailey, Deans Patterson, Perkins, Hills and Swift and Professors Perkins, Ogle, Groat, and Pupper. Each spoke briefly. Dean Perkins addressed the class for several minutes, saying that the present world is in great confusion. He prophesied many changes and much progress during the next quarter-century, and told the members of '25 that it was their privilege and duty to take an active part in this advancement.

The class benedicts were given opportunity to say a few words and the class stopped before "Bob" Platka's new house on Prospect Street long enough to induce the owner to speak briefly.

BACCALAUREATE SERVICES

An inspiring baccalaureate sermon was delivered last Sunday afternoon by the Rev. Richard Roberts of Montreal before the 200 graduates in caps and gowns and a large audience of friends and alumni. The services were held in the gymnasium annex which was decorated for the occasion with evergreens and flowers with [illegible] in attendance. Rev. Joseph Reynolds acted as chairman of the day.

As a text Rev. Roberts chose a passage from St. Paul. "Work out your own salvation in fear and in trembling, for it is God that worketh in you both to will and to do of his good pleasure." The need of God at the time and not merely in the great crises of life was stressed. "Some people," said the speaker, "have faith in luck but not faith in God. They somehow expect all things to come out right but accept no responsibility themselves for the outcome."

"The only sure road to the sort of success which is genuine lies through a partnership with God for the business of life. And God should be the senior partner, doing away with fear and timidity, the greatest enemies of mankind. With such a partner the terrific impatience and hurry so much over-emphasized in these days would fade from life."

Rev. Roberts gave a very good summary of what religion is. "The tendency today is to try to tie up too much impediments to religion, to standardize morality and lay too much emphasis upon orthodoxy. Religion cannot be cut to any pattern. It is an adventure. It emancipates the man who sets forth to walk with God. It beckons to the discovery of a new life."

Formerly pastor of a Presbyterian church, Rev. Roberts has become a non-sectarian preacher in the United Church of Canada and one of the foremost religious teachers of the country.

TAYLOR AND HAWLEY PILGRIMAGE SPEAKERS

The Class Pilgrimage Thursday afternoon, June 18, formally opened the 1925 Commencement Week. The seniors in caps and gowns first made a call on the statue of Ira Allen, and sang the "Old Mill Song," after which the statue was invested with the senior costume of cap and gown.

Floyd J. Taylor of Essex Junction delivered an address on the life of Ira Allen. "We pay tribute to General Ira Allen, soldier, statesman, and martyr," he said and went on to tell of the part of the great general played in the founding of the State of Vermont and of the University. He pictured the place and surroundings of that time, and spoke of the vision which Ira Allen must have had of what was to come, and of the state which is ours now.

At General Lafayette's statue, the class sang a second verse of the "Old Mill Song." Don Hawley, also of Essex Junction, gave an interesting speech in which he recounted the history of the man who 100 years before had laid the cornerstone of the Old Mill. In some detail he described Lafayette's visit to Burlington. "He made liberty his life work," said the speaker and mentioned the fact that this was a particularly fitting time to pay tribute to his memory.

General Lafayette's statue was also given the honor of wearing the cap and gown, and following this exercise, the class marched to the flag pole to raise the class banner of blue, with the numerals "25" in gold. The pilgrimage closed with the singing of the class song and "Champlain."

SPORTING NEWS

JAPS LOSE TO VARSITY 2-1 IN FINAL HOME GAME

Vermont teamed up in the last game of the season by beating back the Osaka Mainichi team to the tune of 2-1.

Each team got seven safe hits in the nine innings, while the Japs put their runs across in the following manner.

Vermont was very dangerous at bat in the first, thereafter, though the visitors had a man on third in the eighth inning with but one out, pitcher Ono knocked down a hot drive which Conway was able to recover, and Takasu made the third out on a peg to shortstop. The close score from the first made the contest a thrilling one, when a rally by either team would turn the tide in their favor.

The Japanese team is sent to this country by a large newspaper of their homeland and is made up entirely of college graduates. It is a fast and snappy aggregation, which has learned most of what there is to know about the American national pastime.

The feature of the game was "Bill" Morse's long circuit clout, with Carney preceding the paths ahead of him. Vin" was the second man to face Watanabe, after Chevalier had flied out, and connected for a single.

The visitors garnered eight safe ones off "Don's" delivery, but he kept them well scattered. Ono relieved Watanabe in the second.

Morse wielded the big stick for the afternoon, getting a nice double on his next trip to the plate after his homer in the first. He was allowed a free ticket for his last two appearances. Moriarty retired six by the air route, to three for Ono.

The summary:

OSAKA MAINICHI

Earned runs, Vermont 2, Osaka Mainichi 0. Two-base hit, Morse, home run, Morse; first on balls, off Moriarty 2, off Watanabe 0, off Ono 4; struck out, by Moriarty 6, by Ono 3; double plays, Cayward to Thompson to Conway to Carney; Carney to Conway to Carney, Conway to Carney; passed ball Ikawa; first on errors, Vermont; left on bases, Vermont 8; Osaka Mainichi 6; sacrifice hits, Bradley, Takasu; Time 2 hrs; Umpires, Stark at plate, Carney on bases.

Setting a precedent for American colleges, Charles Chauncey Stillman of New York has endowed a professorship in poetry at Harvard University. It will bear the name of Charles Elliot Norton in recognition of what this professor did for Harvard. Mr. Stillman has stipulated that the incumbents of the chair be chosen without limits of nationality, and shall be preferably men of international reputation. In the administration of his gift, Mr. Stillman wishes the term poetry to be interpreted in its broadest sense, including, together with verse, all poetic expression in language, music or the fine arts.

Cayward Home Run King and Leading Scorer in His Last Season on Varsity

In the last few games of the season the batting average of the Green and Gold nine dropped off a bit from its previous high mark, but at the close of the season it was still very high, the entire team having maintained throughout the season an average of .292 in its 28 games.

The individual high man is Burns who hit for .375 in 19 games. "Bill" Morse, left fielder, missed only one game all season and occupies second place with .350. Five men who have played quite regularly batted over .300.

"Squirrel" Cayward put his bat and his speed on the bases to good use, leading the team in scoring with 25 runs, of which six were homers. "Bill" Morse and "Bob" Patrick showed the greatest speed on the paths, stealing 10 bases each on opposing catchers.

In the field, the team maintained an almost equally high efficiency, fielding for .952. "Vin" Carney on first leads with 265 putouts, 11 assists and only four errors, an average of .985. Morse and Laubach follow with .981. In spite of Morse's outfield position, 51 opponents fell victim to his unerring judgment, more than were retired by anybody but Carney, Laubach and Cayward, who of course had the advantage of position.

Of its 27 official games, the team has won 16, of which two went to extra innings, and has lost 11, in one of which Dartmouth had to go 12 innings and another of which might well have looked different had not rain interfered after five innings had been played.

The season's averages:

NAUBAUER STINGY WITH HITS AND BROWN TRIMS VERMONT

Brown defeated the Green and Gold nine 5 to 3 in its annual Commencement day game at Providence, June 17. Naubauer, Brown twirler, was stingy with his hits, and allowed the Vermont batters only two safe bingles.

"Jimmy" Burns started for Vermont, but was removed in the fifth inning in favor of "Don" Moriarty, who finished the contest capably.

Umpires, Fennell and Devron.

TIGERS AND HOLY CROSS ON SCHEDULE

Holy Cross and Princeton will reappear on the Green and Gold baseball schedule next year. Princeton is played on the annual southern trip of the team, during Easter vacation, and Vermont takes on the Purple at Worcester later in the season. A return game at Burlington in 1927 has been arranged with Holy Cross.

VERMONT LOSES LAST GAME AWAY, 10-8, TO WILLIAMS

Vermont dropped its final game away from home June 18 to Williams 10 to 8. As the score indicates it was a batting bee, each pitcher being touched for several hits, and the fielding was not of the first class.

Williams clinched the game in the sixth inning, when it came from behind and with four runs secured as much of a lead for the Green and Gold to overcome. Vermont had tallied four runs in the preceding frame.

Jones for Williams was hit for 11 safeties and passed six men, but managed to escape from some tough holes at times. Fogg allowed seven passes besides 11 bingles.

Cayward drove a homer into deep center field in the second, and also got two singles during the game. Carney hit a triple in the seventh, tallying later on Morse's second hit of the contest.

BURNS BESTS POLLINGER AND ST. MICHAEL'S LOSES

The Green and Gold nine won the state championship again by beating St. Michael's 8 to 0 at Centennial Field June 6. With two decisions over Middlebury and one each over Norwich and St. Michael's, there is no apparent reason for any one but Vermont to claim the title.

Although the score would seem to indicate a poor game with the Purple it was very evenly matched until the last inning, when Vermont pushed over six runs. Until then, the contest had been a good pitchers' battle between Pollinger and Burns.

Vermont scored once in the third inning. With one down, "Jimmy" Burns lined a "long fly" to center and crossed the plate ahead of the relayed throw.

Again, in the seventh, the Green and Gold scored a run on St. Michael's errors. Cayward reached first on Boucher's fumble, advanced when Pollinger threw over first in an attempt to catch him, and scored as Burns, in right field, dropped Patrick's fly.

The eighth was the disastrous period for St. Michael's. Burns lined out a two-bagger, his second extra base hit of the day. Chevalier, Carney and Morse all came through with hits, Burns scoring on Carney's blow and "Chevvy" on Morse's scratch hit. Bradley hit one too hot for Benoit to hold, and reached first as he dropped it, Carney tallying on the play.

"Jack" Cayward drove in Morse and Bradley with a long double. Patrick sacrificed, and Cayward came across as Pollinger and Wakefield became mixed on Conway's bunt. Boucher quelled the riot with a single-handed double killing off Laubach's bat. The three St. Michael's batters went out easily in the ninth, and Vermont again became champs.

Umpires, Glass and Carney.

MCCREHAN WINS PITCHING DUEL WHEN BURNS WEAKENS

Boston College squeezed another victory from Vermont by scoring two runs in the last inning of the game on Centennial Field, June 13, winning 3 to 1.

Until the ninth the game was a pretty pitcher's duel between McCrehan and "Jimmy" Burns. No scoring occurred until the seventh inning and Burns appeared to have a slight advantage over McCrehan.

In the seventh B. C. drew first blood when McCrehan beat out an infield hit, and scored on Whelan's hard drive to deep right. The Green and Gold retaliated in the eighth, evening the count. "Jack" Conway singled cleanly to center, advanced on Laubach's bunt, and raced in on "Chevvy's" single. Carney was hit, Morse walked, and another run or two seemed likely until Bradley popped out.

In the ninth a pass, a sacrifice bunt and clean hits by Foley and Whelan sewed up the game for the Eagles, and caused the replacement of Moriarty for Burns who until this frame had twirled a fine game and the visitors had encountered airtight pitching. "Don" retired two men but the damage had been done.

Excellent fielding featured the game, in spite of the tricky wind which made fly balls hard to judge. Bob Patrick contributed a spectacular play when he ran back to pull down with one hand Murphy's long fly, falling as the ball hit his glove, but clinging to it successfully. Conway and Cayward stopped several hard grounders, and worked efficiently around second. C. Cronin of B. C. made a fine catch off Bradley in the second inning.

the singing of "Champlain" by the entire assembly.

DR. FINLEY'S ADDRESS

Dr. Finley opened his address to the class by recapitulating shortly the life and accomplishments of Lafayette. He particularly called the graduates' attention to the fact that when Lafayette was here in America, fighting for the liberties of the colonies his age was very nearly to their own.

"You are entering into life at an age when Lafayette was fighting for the precursors of a new nation," he said. Then made the statement, which was the key to the remainder of his address: "You are yourselves, whether you know it or not, the precursors of a new age."

What that age is, Dr. Finley proceeded to explain. It is an age of wider connections and of wider consciousness on the part of the individual. "Emerging from the wilderness of isolation, we have come to realize that, whether we will or not, our destiny is interwoven with the need of the rest of the world, just as we are mineralogically interdependent; our salvation is entangled with that of all flesh.

"It is as such potential pioneers with a planetary consciousness that I address you today; you who, with your University and College brothers and sisters, have the resource and the opportunity to enlarge the spiritual and intellectual estate of man, now that the land is all settled."

HONOR LIST

undergone a formative process that will determine greatly our future lives. May we each keep before us as lofty ideals and as perfectly moulded lives as the memories of our sacred Boulder will ever recall.

PIPE ORATION

In keeping with an honored tradition our friendly pipes are lighted. From each warm bowl there issues a billow of fragrant smoke. Let us contemplate the action of this smoke. See how the many separate columns blend in genial manner to form a single blue-white cloud. Observe this cloud. It lingers for a little, then takes its course out and up—up through the trees of our fair campus and into the spacious sky.

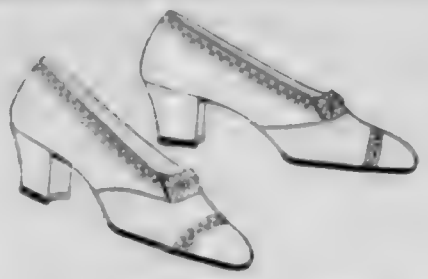
Do you recall our coming to Vermont each with individual aims and ambitions—how later we found that we had in common many interests and ideals? Remember how we first found occasion for united action in our scraps with the sophomores? Out of the group spirit born in these first scraps developed the organization of the class of 1925.

Just as the smoke from our separate pipes has merged into one bright filmy mass, our interests became associated and we have functioned as a class.

But in few minutes we shall leave the scene of four full and happy years. Like this cloud of smoke which stays for a bit, then rises into the tree tops and out to the great blue sky, the time is near for us to go out into the great wide world.

This blue-white cloud will soon be absorbed in the atmosphere. It will become indistinguishable. But though the members of the class of 1925 be scattered to the four ends of the earth, each will retain personality and be proud of membership in this class.

The smoke leaves our pipes on a rising plane. We leave these walls of learning fired with ambition to attain higher and higher levels of achievement.



In our experience here we have endeavored to contribute not only to our personal ability, but separately and collectively, we have been striving to promote the progress of the University of Vermont.

In these four short years we have witnessed many improvements. Under the broad, far-sighted policy of our president, Mr. Bailey, we may expect continually greater and finer things for Vermont.

Our basic training is sound. Recall again the lesson of our freshman year: Personal interests are safeguarded and furthered by the united action of individuals. Let us carry this principle into our lives as alumni. Let the class of 1925 unite heartily with the older classes to present to the world a united front of Vermont alumni. And so may we cooperate for the advancement of our dear Alma Mater.

Our pipe dream has taken a practical turn. But we are equipped to assume responsibility.

We have smoked at the end of one great struggle. The pipe of peace and friendship is the sweetest pipe of all. When again we light our pipes together, let it be with the pride and

Your Choice Of A Career

Whatever your "Choice of a Career", college training has increased your economic value, and adequate life insurance is a proper self-appraisal.

The college graduate can take especial pride in the traditions, practices, and financial strength of the John Hancock Mutual Life Insurance Company.

A John Hancock policy is a distinct asset from the start. It will pay you to buy it; and later on, should you think of joining the field corps of this company, it will also pay you to sell John Hancock policies.

John Hancock representatives will tell you just how, and assist you in selecting both your career and your insurance.

The John Hancock is particulary interested in insuring college men and women and in obtaining college graduates for the personnel of the field staff.

Over Sixty Years in Business. Now Insuring Over Two Billion Dollars in Policies on 3,500,000 Lives.

The Blue Store
1875—1925

...sfaction born of worthy attain...ts—attainments of the class of ..., which contribute substantially ... the progress of our college, Dear ... Vermont.

CLASS POEM

N... we pause a little while
In the rush of busy life;
M...m'ries throng of bygone times,
Joys and sorrows, stress and strife

Freshman, sophomore, junior, too—
All were years we'll ne'er forget—
O... the campus now so green
W... ere in homage we are met.

We've a greater task before us,
One of which the sages speak.
We're no longer carefree freshmen
With our training yet to seek.

Fostered by our Alma Mater,
Given friendships true and deep,
We will always love her truly
And her fame untarnished keep.

In her gain and in her losses
We will always cheer her on;
For though paths seem black before her,
Loss may mean but vict'ry won.

Loyal hearts must yearn forever
For the lake and mountains here;
Though we no more tread her campus,
Yet our thoughts will ere be near.

So we bid farewell to Vermont,
Our loved college on the hill;
When she calls her sons to aid her,
Twenty-five shall do her will.

ADDRESS TO UNDERGRADUATES

C. G. Cayward's address follows in part:

It was in the spring of the year many years ago that a slight, rather weak, but determined looking lad stood at the foot of a mountain which stretched up and up before him until it seemed to pierce the clouds. This mountain was the obstacle which he must overcome.

Today, a tall, broad-shouldered, clear-eyed, virile-looking man is standing on top of a mountain. He has had a long, hard climb. He has strained his muscles until his blood pounds through his veins and his very joints seeemed ready to crack under the strain. He has balanced on boulders and crags, jutting out over bottomless precipices, when a misjudged inch would have sent him hurtling down into the abyss.

Many times he fought for his life but through all the wracking strain, the terrific effort, the man kept his grip. He kept his chin up and his eyes on the glory of the sunshine flooding the peak of the mountain, and with that wonderful vision before him, and in his soul that spirit which we love to call the "maker of college tradition, and moulder of men and women," he came through triumphant. That figure represents the University of Vermont.

Vermont has come to the top of her mountain now, but work remains to be done. Vermont cannot rest upon past laurels, but must exert a more tremendous effort than before to stay at the top of the mountain. My friends, that effort must be our effort. As undergraduates of this university we have done comparatively little to place Vermont upon the peak she now occupies.

Just how much we have succeeded in being true sons and daughters of Vermont depends to a great degree upon whether we have been thinking only of what we can get from Her or of what we can give to Her.

We must remember that regardless of what endeavor we choose while in college so long as it be worthwhile, there follows after us someone for whom we ought to build a bridge. By building these bridges we are strengthening the spirit and bond of Vermont, and by so doing we are giving to Her and not altogether getting from Her.

In a few days we cease to be undergraduates and the responsibilities of each one as a graduate loom up big before us. Each of us is coming to chasm across which all of us must build his own individual bridge. Vermont has helped prepare us for building that bridge. We must not forget Her. Each of us must build our bridge with one end at Vermont, the other end stretching out to whatever line of endeavor we may choose. When we do this, we shall be true Vermont men and women, and with that spirit in us Vermont cannot go down the other side of the mountain.

IVY ORATION

To me has been given, this afternoon, the privilege of planting the ivy, now a tradition of every class that graduates. It is an old and lovely custom, having its origin over thirty years ago, when the class of 1894 marched here to the library and planted the first slip. The symbol of each class since then is here among these college buildings of ours. They have taken root and grown, covering the cold stone walls with their soft green mantle. The ivy may well be taken as the true symbol of any class which aspires to growth and success. Never content, it continues climbing ever up toward the highest.

We might liken our future life to this little plant. Here it has all the essentials of growth. It has its foundation, the earth from which it derives its nourishment, and it has the wall upon which to climb. We, too, have these essentials.

We have our foundation—four educative years at our Alma Mater, and we begin our upward climb immediately after this milestone in our life has been reached. We have nothing so solid as a wall upon which to grow, but there are many things which will aid us as we go along. We have our energy, our youth and vitality, our ambition, our undauntedness.

If our ivy plant of progress does not always seem to climb higher, but at times seems to lose its hold on the side of the wall, we must not become discouraged, but must realize that no plant grows downward, that this is but a part of our training, teaching us in the way of the world, testing our ability.

And as the ivy grows and spreads, in like manner may our influence and effort be felt. As each year the ivy covers a greater surface on this wall of stone, so may each one of us, year by year, reach out and up, giving a life of service and beauty to the world in which we live. And when we return to our Alma Mater in the later

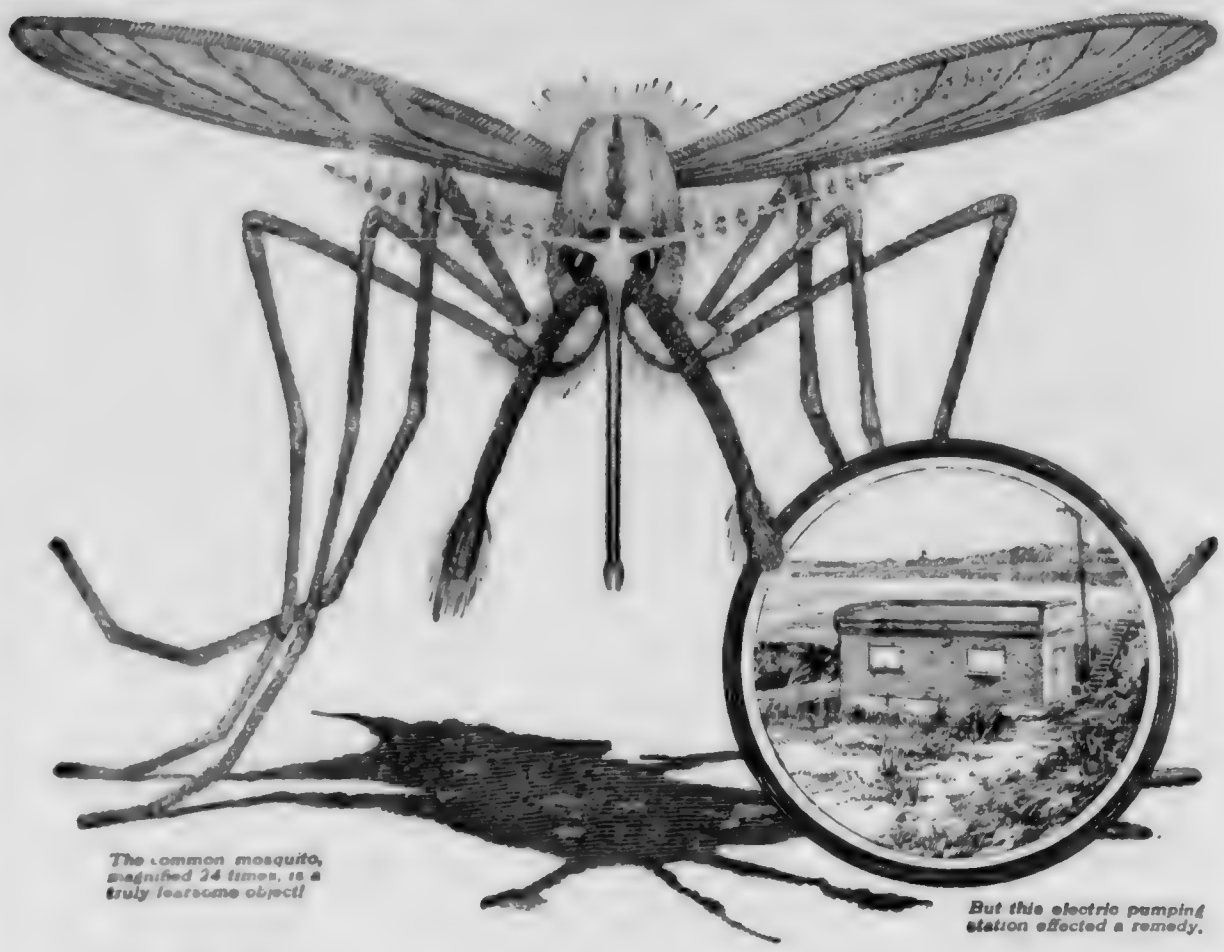
Here and There

A huge golden bear, to be placed on the hill just above the memorial stadium, is to be given by the Junior class of the University of California.

A new gymnasium class is to be instituted soon at Depauw University. A part of the gymnasium plans are already under way and Sigma Delta Psi fraternity

Six hundred Howard University students have gone on a strike in order to remove a certain ruling whereby students who accumulate twenty cuts in physical education and R. O. T. C. are suspended from the university. The ruling, framed of late, was made under this ruling precipitated the strike.

Almost six hours after the strike was begun it was discovered that the records of attendance upon which the dismissal were based were found to be in error and the students were automatically reinstated. The student council was not satisfied with this partial victory. They declared that the strike would not end until the offensive rule is abolished. A mass meeting of the students on Monday arrived at the same decision.



For the first few days the strike was conducted in an orderly manner. The strikers made their purposes known by a liberal display of posters on the campus. According to a newspaper report, several clashes occurred on Monday when the strikers attempted to bar other students from entering classrooms. President Durkee then told the strikers that he intended to maintain order, even if it was necessary to call the police.

The common mosquito, magnified 24 times, is a truly fearsome object!

But this electric pumping station effected a remedy.

Do what Toledo did

Once Toledo had a nuisance, a tract of swamp land near the lake, a breeder of mosquitoes, foul odors and fogs.

But an automatic pumping station, equipped with motors made by the General Electric Company, turned the swamp into dry land—and abolished the menace to the city.

This is one example of what electricity can do. As you meet life's problems, think of electricity as a valiant and ever-ready ally.

Study what electricity is doing to make a better and happier America; remember that you will live in an electrical age, full of surprises, and full of new services to humanity. The monogram "G-E" which you see above is placed on the epoch-making products of the General Electric Company.

If you are interested to learn more about what electricity is doing, write for Reprint No AR391 containing a complete set of these advertisements.

The Vermont Cynic

VOLUME 44 BURLINGTON, VT., SEPTEMBER 26, 1925 NUMBER 1

OPEN HOUSES TO START WEDNESDAY

Rushing Dates Will Be Given Out Oct. 19 and Bids a Week Later

FRATERNITIES ADOPT USUAL RUSHING RULES

Dates and rules for rushing and pledging freshmen and upperclass transfers were adopted by the fraternities Tuesday evening at a meeting of the Interfraternity Council held at Phi Delta Theta House. R. S. Gates, this year's president, presided and P. B. Daniels acted as secretary. Every fraternity was represented.

The first Open House night, when prospective members are given a general invitation to visit any and all of the fraternities to get acquainted, will come Wednesday, September 30. Open House nights will be held also the evenings of Saturday, October 3, Wednesday, October 7, Wednesday, October 14 and Saturday, October 17. The evening of the 10th is omitted because so many will be in Hanover to attend the game with Dartmouth.

Open Houses will be held from 7 to 10 in the evening. Entertainment is limited to "smokes," and it is understood that absolutely no fraternity matters will be talked over on these occasions.

Monday afternoon, October 19, the representatives of all fraternities will meet in the Old Mill and will offer rushing dates to the new men, who will pass through in single file to receive their dates, mark them, and return them to the fraternity men.

No fraternity may offer more than two rushing dates to any man, and no more than one of these shall be an evening date.

Rushing dates will be Thursday, Friday and Saturday, October 22 to 24 inclusive. Afternoon dates extend from noon until six o'clock and evening dates from six o'clock to midnight. On these occasions the freshmen will be entertained according to the plans of the different fraternities, and then they may be given rushing talks, intended to show them why they should choose the particular fraternity rushing them.

From midnight Saturday to the time when the last bids have been given out and acted upon Monday afternoon is a neutral period, when fraternity men and new students must hold no communication.

Monday afternoon at four o'clock fraternity representatives will again assemble in the Old Mill, and again the new men will pass in single file, this time to receive bids from the fraternities interested in them.

Those receiving bids will go into a room set apart for the purpose, mark their bids either "I accept" or "I do not accept," and then return them to the fraternity representative. While the bids are being given out, all fraternity men are to remain at the chapter houses, and as soon as a man has accepted a bid he is to go to the house of the fraternity he has chosen.

As soon as all bids are given out, marked and returned, the new students are relieved from the restrictions of the neutral period and they may be approached by any fraternity, at any time or place. But no new student may be pledged until 72 hours has elapsed from the time all bids are given out.

All bids for men who do not go through the line will be handled this year by the president of the Interfraternity Council, who will see that they reach the men interested and are signed and returned in accordance with the rules.

A committee of three men was appointed at the meeting to draft a new constitution for the Council, and a meeting is called for Thursday evening, October 1, at the Lambda Iota House, to act upon this proposed constitution, which is to include definite penalties for violation of rushing rules by fraternities.

TRYOUTS FOR CYNIC

Freshmen wishing to try out for positions on the editorial staff of the CYNIC will report at Room 3, North College, Monday afternoon at 4 o'clock. In order that competition shall be keen and the best possible men shall represent the Class of 1929 on the CYNIC Board, it is desirable that as many as possible come out at once.

News Editors of the CYNIC are requested to be present.

GREEN AND GOLD IS READY FOR CLARKSON

Team in Good Condition and Full of Fight—Many Veterans in Lineup

The hour of five this afternoon will announce to Vermonters the first results of Coach McAvoy's tutelage over the Green and Gold squad, and the student body is waiting to hear the Old Mill Bell spelling out defeat for Clarkson.

Football camp started on September 8, with a squad composed almost entirely of veterans. As interest has increased, more material has turned out, till now there are three full teams and stiff competition for honors.

Captain "Joe" Tarpey is back in the old berth at quarter, with "Mike" Cerasoli and "Danny" Johnson ready to fill the gap if necessary. "P. D." Clark is shooting the oval back with the usual precision, flanked by Olney Hill in one of the bulwark positions, while the other is being fought out by "Doc" Daugherty, "Joe" O'Connell, and "Swede" Aronson.

Winchenbach and Katz are displaying the same aggressiveness as last year, and make a smooth pair of tackles. The '25 squad has the same ends as the '24 team, Thompson and Chapman, with the valuable addition of "Bill" Morse and "Doc" Leary.

Jack Smith is hitting the line hard as of yore, from the fullback's position. There is a fast, gritty quartet of halfbacks to choose from, there being Tuxbury and Buttles in addition to the experienced Conway and Candon. There is plenty of material in the seconds to furnish good scrimmage, and the team is "rarin' to go," in the face of the stiff schedule ahead.

Coach McAvoy gives an encouraging message to the student body, feeling that the spirit of the squad is all that could be wished for, and that they will give all they have to play every game to a fighting finish. He has found hearty cooperation among the men on the field, and desires one hundred per cent backing from the student body as a whole.

SCHOLARSHIP CUP WON BY ALPHA CHI OMEGA

The Mabel Nelson Jacobs cup which is awarded to the sorority having the highest scholastic standing, was won by Alpha Chi Omega for the second semester of the year 1924-25.

The relative scholastic standing of the fraternities is as follows: Alpha Chi Omega, Phi Delta Zeta, Delta Delta Delta, Pi Beta Phi, Alpha Xi Delta, Kappa Alpha Theta, Sigma Delta, Sigma Gamma, Phi Mu Delta, Sigma Alpha Chi, Alpha Tau Omega, Delta Psi, Lambda Iota, Phi Delta Theta, Sigma Nu, Kappa Sigma, Zeta Chi, Sigma Phi.

135th Year of University Opened With Convocation

"A True Collegiate Democracy" Theme of the Opening Address by President Guy W. Bailey in Gymnasium, September 16

V. C. A. CABINET HAS A RETREAT AT ABNAKI

The Y. M. C. A. cabinet held its retreat at Camp Abnaki September 11 to 14, together with a small group of freshmen. Middlebury College was represented at the gathering.

Sessions were held through which the freshmen were given an idea of campus life and activities. This was accomplished by forums, at which upperclassmen presided and the freshmen were given opportunity to ask any questions they wished.

Interesting and profitable discussion groups were held in the hour preceding the forum.

"Methods Hours" were held, at which the plans for the different cabinet departments for the coming year were criticized, gone over, and reformed into a fuller and more complete Christian program.

Talks were given by Ralph B. Maxted, secretary of the V. C. A., Morris Ross, general secretary and physical director of the Burlington Y. M. C. A., and Byron N. Clark, director of Camp Abnaki and state secretary.

Raymond B. Culver, traveling student secretary for New England, as principal speaker of the gathering, gave the members a clear understanding of the Student Y. M. C. A. as a student controlled and student initiated movement.

Mr. Culver also gave an address entitled "The Joys of Being a Freshman," which proved of much interest to every student there, whether freshman or senior. Mr. Culver definitely connected the time spent at college with the future life.

A spirit of fellowship and service was maintained throughout the retreat which should be beneficial to both freshman and cabinet members, and help them to enjoy a more successful year in realizing personal and college ideals.

FRESHMAN MIXER AND MASS MEETING IN GYM

Friday night, in preparation for the Clarkson game, a mass meeting was held for both men and women instead of the usual smoker. Talks were given by Coach McAvoy, Coach Dresser, Manager Kinsler, Captain Joe Tarpey, and Captain F. B. Lammons of the Military department. Practice in cheering and the singing of college songs was led by "Mose" Moore. Boulder society was in charge.

After the mass meeting the Y. W. C. A. and Y. M. C. A. staged a Freshman "Mixer." The Military Band furnished music, and the proceeds of the dance were given toward their expenses. The Grand March and other novelties, including cut-in-dances, were enjoyed, and refreshments were served, while a large floor committee kept things moving. The chaperones were Mr. and Mrs. R. B. Maxted, Captain and Mrs. Lammons, and Captain and Mrs. Rattan.

CHANDLER-LOWE

Harold Leslie Chandler, '25, who will serve this year as instructor in chemistry, was married September 7 at St. Johnsbury to Miss Pearl Marguerite Lowe of that place.

STUDENT BODY ABOUT SAME AS LAST YEAR

The 135th year of the University officially began with the opening convocation in the gymnasium Sept. 16. The audience included the deans of the four colleges, faculty members, some trustees and guests, and members of the undergraduate classes. A large number of freshmen were present.

Prof. Evan Thomas, chaplain, read the scripture lesson, gave the prayer, and pronounced the benediction. Prof. Howard G. Bennett led in the singing of "America, the Beautiful," "Come, Thou Almighty King," and "Champlain." Music for these was provided by Lechnyr's orchestra.

President Guy W. Bailey delivered an address on "A True Collegiate Democracy," in which he said, in part:

The student of Greek is, of course, familiar with the literal meaning of the word "democracy." Speaking generally, this original import has obtained throughout the years, although the noun "democracy" and the adjective "democratic" have come to have a somewhat broader meaning and are used frequently to describe a state of being. When the term "democracy" is used in its true sense, we think of a political system in which government is directly exercised or controlled by

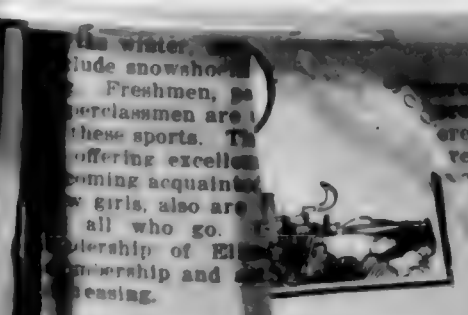
(Continued on page 6)

ANNUAL CANE RUSH TO FOLLOW TODAY'S GAME

Frosh and Sophomores Will Clash in Fight for Canes; Also Tug of War

The annual Cane Rush will be held this afternoon, following the Clarkson game, at Centennial Field.

Freshmen will meet at the gymnasium at 2 o'clock and march in a body down College Street to Miles & Perry's store, accompanied by members of Boulder and Key and Serpent societies. There the canes will be given out to the Freshmen, who will march with them up Church and Pearl Streets to Centennial Field. After the game, which is called for 3.30, the Cane Rush will take place.



Freshmen will place the canes at regular intervals along a specified line. The two lower classes will then line up at equal distances from the line of canes and at a given signal the fight will commence. At the end of ten minutes, the class possessing the greatest number of canes wins. In case of broken canes the crook only counts.

A tug of war between teams representing the two lower classes will follow the Cane Rush.

WANT THE CYNIC?

Several students who have paid for the CYNIC will not receive copies this week because they neglected to fill out address cards.

The addresses of those who do not get a copy of this issue through the mails should be left at once in the Manager's side of the CYNIC box in North College hall, or in the CYNIC office.

All Teacher Training Girls and Many Others Studying Under Bennett

WCAX AND IARY WILL RESUME OPERATIONS

Broadcasting from WCAX will be resumed this fall as soon as the equipment can be thoroughly overhauled according to J. R. Morton, president of the Radio club.

The amateur wireless station, IARY which has made unusual records in the past few years in communicating with distant points in Europe, Australia and points in the Pacific is now being gotten into shape for a hard season's work.

New members will be taken into the Radio Club in the near future, and a more definite program for the year prepared.

OLD MEDICAL BUILDING FOR DAIRY RESEARCH

ALL CLASSES OPEN THE YEAR WITH MEETINGS

Fraternities Have Missions

Rockne's Team to Travel

AND THAT IS WHY WE ARE "RAH RAH BOYS"

There is a real reason why college cheers so frequently contain the word Rah! According to studies made by the Bell Telephone laboratories, men ordinarily speak this sound louder than any other vowel. If the value of 10 be assigned to the amount of energy delivered by a man's voice to the air for this particular sound, then its nearest rival, the sound of "a" as in "tap" comes next at 44, and "a" as in "talk" at 37.

Women's voices present quite a contrast to men's, in that there are four vowel sounds of practically the same loudness. These are the vowels in "tone," "talk," and "Rah." "Ah" is the easiest sound to produce because fewer throat and mouth muscles are tensed. Hence it is the basic vowel sound in most languages.

TENNIS TOURNAMENT STARTS WEDNESDAY

The annual fall tennis tournament for the Perry H. Aldrich cup is to commence Wednesday afternoon, all students and faculty members being eligible to compete. Entries must be in by Tuesday afternoon at the latest to Manager Russell at the Kappa Sigma House, or to Captain Guild or O. B. Nye at the Delta Psi House. Twenty-five cents must accompany each entry.

The winner will receive an individual cup, in addition to the inscription of his name on the Aldrich cup which was offered for the first time last year.

The courts will be put in shape previous to the start of the tournament and tennis enthusiasts will have good opportunity for a work-out. This is a good chance for new men to show their ability, for Coach Carpenter is looking for recruits, and regular practice will start soon.

Among the assured contestants are "Freddie" Guild, captain of this year's team and star veteran of three years; "Ozzie" Nye and "Dutch" Hoag, members of last year's team; and Taylor Baldwin, and Mower, other members of the squad.

The faculty will be represented by Coach Carpenter, Dean Swift, DeForest, Gershoy, and Walbridge, with other entries yet to be received. Some of these men have been playing during the summer, and are in good condition to go after the cup. Carpenter played in the finals of the mixed doubles tournament of the summer school, Guild played on the Burlington team, and Baldwin and Hoag are in trim from consistent practice.

A good schedule will be arranged for the spring season, and one match is already assured this fall, with the Ethan Allen Club. Plans are also nearly complete for meeting Middlebury.

Sponges

[illegible] species are [illegible] varieties of the latter. Highly prized [illegible] product there are 157 varieties of sponges, 9 per cent of which are open to explore at the present time made possible by Benjamin Franklin's patronage.

The most prominent member that I know is the "bathing-beauty" sponge. It is [illegible] every specimen of the genus should be caught, placed in [illegible] jars and deposited in the archives of the zoology department with other brother members. This is the sponge that crawls into your room the night before the history [illegible] and tells a thrilling story of the fate of its notebook and asks to crawling away with *your* [illegible]. This is the same sponge who has been snoring up all the good hours during the term while you have been doing your outside reading. Oh, yes true, this is the entire sponge who absorbs an 85 in the course where you "float a-say" with a 70.

"Let's lose the book together." Sponge number two Grr-r-r! Why not be honest? Why doesn't said sponge say what it really means, namely, You lose the book and we'll *use* it together. What a difference from the first statement! There are however more implications in the main intentions of this sponge. Probably the book will not be used all the term until the night before the final. "You [illegible] first," says the polite little sponge. Kind isn't it? Kind? What is the method?" you ask. Why, the sponge gets the book last of course. It not only gets the book but keeps the book. What? Yes, you paid it but the sponge gets it. That the difference between you and sponge.

Although the zoological sponge seldom pictured in gay attire, the twentieth century type is a fiend for clothes, *your clothes*. This sponge is the one who comes back from vacation with the lamentable tale of woe that it didn't get any new clothes. It just didn't have time! Gr-r-r-r! Would that I hadn't! The first afternoon the sponge spends repeating this dirge until every hair of your carefully greased coiffure curls with rage. Three days later these same hairs straighten out in counteraction to the previous wrath, for now has come the inevitable beginning of the borrowing period. Good-bye, dress! One week later the dress returns generously sprinkled with stains and plaited with wrinkles. Let the psychologists fight it out as to whether heredity or environment is stronger, but cur-r-r-rses on the inheritance that made my disposition of that sweet, impassive nature which permits such insults.

The "mail-table" sponge represents the more elusive, the more beguiling type. This is the skillful sponge which either through the powers of imitation or by repeated practice has reduced its movements to a science. Seemingly it is answering the telephone or waiting for a brother poriferа, but what it is really doing is eyeing packages. Following the eyeing process comes the feeling process. The hidden appendages are thrown out and ensnare the packages. All possible food-containing cartons are kindly brought to the

Co-ed Columns

ELIZABETH E. WARNER, '27, Women's Editor

EDITORIAL

More than a week Freshman have been getting acquainted Vermont and Vermont has been acquainted with them. Welcome have been extended to them the faculty, from the students, the campus organizations, until today has the Cynic had opportunity to add its welcome to It is necessarily a belated come the less sincere

The hardest thing for the new to decide, outside of planning schedule, is what activity or she will go out for. She course what she liked best school. Perhaps it was athperhaps dramatics, or work on school publications But she may now all about the organizations the University which have to these and other activities. A goal really depends on the start made one's Freshman year and one starts out by doing the things that she can do best and is interested in The time to get things is now, at the beginning

In the co-ed columns of the Cynic shall publish each week an article dealing with the activities of various organizations in order to acquaint Freshmen more closely with the work and aims of each and perhaps refresh the memories of upperclassmen as well.

It always seems to us that the first convocation of the year is rather an It isn't the music of the speeches or all the new slickers and sweaters jerseys or even the great array of verdant Frosh caps which proclaim 1929 to be the largest entering class which the University has ever known. It's the thought that for the first time hundreds of new Vermonters have become a part of the University and that somewhere among them are Vermont's future athletes, debaters, scholars, leaders of all the campus activities.

Then, too, this first Convocation seems to mark the "stepping up" of which Dean Patterson spoke in Student Union. The Freshmen find that they are college men and women. Last year's Freshmen have been elevated to the dignity of Sophomores. Last year's Sophomores are Juniors now upperclassmen! and the Juniors of yesterday stand on the topmost step as the Seniors of today. It is really the College New Year—a fresh start, good resolutions, a clean slate page.

GLADYS HOUGHTON

Gladys Houghton, a member of the class of 1925, died at the Mary Fletcher Hospital July 19 after a long period of ill health.

For nearly four years she was a student at the University from which she would have graduated last June. She was a member of Alpha Chi Omega. During her college career she was active in W. A. A., Y. W. C. A., Outing Club and many other campus organizations and was elected to Mortar Board. She was to have gone to Constantinople in August to teach there.

Her loss is keenly felt by her many friends here who knew her as a girl of exceptionally fine character and lovable personality.

STUDENT UNION HOLDS MEETING IN CHAPEL

There was a large attendance at the first meeting of the year of Women's Student Union last Saturday morning. Helen French, president, conducted the meeting, which opened with the singing of Vermont songs, led by Tony Thorne.

Dean Patterson addressed the students, welcoming the Freshmen and members of the upper classes, and comparing the four years of college to a flight of steps up which one advances a single step at the beginning of each new college year.

Elections of campus and class managers of hockey and volley ball were held and Freshman roll call was taken.

The Catty Co-ed Says

Registrations'
Just-tickled-ashuns! !
Kiss contortions
And Frosh distortions! ! !
We're all back
Er—that is
Most of us
Whom
Wedding bells
Or dollar bells
Have not called.
And most of us
Regret
Our spring's folly
(Laziness of course!)
And for a week,
Or maybe two
We'll be
Ambitious,
And start
The year right,
'Cept the frosh.
And they—
(Poor things!)
Are ambition
Person —I—defied!
But
Dear little ducklings,
Tho' the weather
Was damp
(Or should
I say moist?)
Including
The fountain's
Crystal sprays
And at any depths
Be not
Dismayed.
A warmer
(Maybe hotter)
Welcome
Is yet to be yours.

* * *

I missed you-all
This summer,
As the mice
In the Old Mill
Missed me,
As a class
Its profess-sore.
Hope you
Missed me
Too.

* * *

The campus
Is still here.
But noisy now.
Maybe there is
A still.
Don't investigate,
'Cause we want
To keep
A clean slate,
And a clean campus.
Amen: C. C.

* * *

The campus
Was never
More verdant.
Walking bags of
Potatoes
Sprout from
The sidewalks.
And even the
Olde Mille halls
Are freshened by
The "Pure and Simple"
While outside
Droves of ducklings
Practice the
Art of paddling!
They'll soon know
What real
Paddling is.
(If they don't now).
This isn't
Cow-college.
Merely
A duck farm.

Cheer up!
There's worse
Than that.

MISS PATTERSON RETURNS TO UNIVERSITY AS DEAN

Miss Marian Patterson, who was recently made Dean of Women at Vermont, returns to us this fall in that capacity.

For several years, since the death of Dean Wasson, Miss Patterson has served as acting dean of women here. A college mate and close friend of Dean Wasson, she has been untiring in her efforts to establish Lilac Day as a memorial to Mrs. Wasson, and it has become one of the annual observances of the University.

In the duties of her office, Dean Patterson has shown sincere interest and sympathy in all phases of college life and news of her acceptance of the permanent office assures Vermont women of continued wise direction and understanding.

FIRST PARTY OF YEAR FOR VERMONTERS' CLUB

The first Vermonters' Club party of the year was held last Saturday evening. The upperclassmen brought their "little sisters," while those of the freshman ranks who lacked the protecting guidance of "big sisters" came anyway and got acquainted.

Entertainment was furnished in the form of stunts given by W. A. A., Y. W. C. A., and Vermonters' Club. Eileen Goodwin, '28, gave a little talk in which she made all new members welcome, at the same time giving pointers on the respect due all upperclassmen and the traditions of the "college on the hill."

Ice cream cones were served and Vermont songs sung. This was the Freshman's introduction to the frequent "get togethers" held by the Vermonters' Club. Later in the year another party is planned similar to the one held last year in the gym, which was such a great success.

The enrollment at Texas University shows only 12 foreign students out of a total of 4,790 students.

POTABLE TYPING NEW BOOTLEGGERS' SCHEME

Others might cool their heels in the anteroom of the lawyer's office, but not so Merkin McLaren Mudge, the erudite bootlegger, who, through the beneficent reactions of the prohibition amendment, had fermented his way through college and amassed a modest competence through realizing on assets whose liquid nature precluded their inclusion in an income tax return.

While the others looked on in mingled resentment and envy, Mudge, the latest arrival, was ushered at once into the sanctum of the tier and untier of legal knots.

"Welcome to our city—where've you been keeping yourself—you don't mean to tell me you are selling typewriters," came all in a breath from the lawyer as he looked in astonishment at the object which Mudge placed on his desk. To all intents and purposes it was a portable typewriter case.

"Answering your last question first," replied the urbane Mudge, "I am not selling typewriters, although I admit appearances are against me. I am still engaged in the Samaritan occupation which enables me to minister to suffering palates and at the same time keep abreast of the altitudinous cost of keeping up a bachelor apartment and a runabout and a limousine. It has been in furtherance of those altruistic purposes that I have absented myself from my clients for a year or more. I have been taking a postgraduate course in chemistry at one of our leading universities the better to fit myself for service to those who depend on me for liquid sustenance. 'Fit yourself for service' is the motto of all our leading industries, you know, not excepting the kitchen bar."

"What you been studying now?" interrupted the lawyer. "How to make hooch?"

Reveals Potable Typewriter

"Not exactly," returned Mudge, "although in the course of my researches I have acquired knowledge of that nature. I have rather sought to learn how hooch is made. A fine distinction, but I'll explain. I do not care to venture into the making of illicit and interdicted beverages. One's capital and plant, you might say, are too evanescent, to say nothing of the risk to life and limb and the impossibility of getting insurance even to cover accidents. I prefer to let others manufacture and devote myself to the selling end. But to assure myself of the merchants of the home brew which I am now recommending in preference to the so-called imported product and to insure for my customers that the quality is *sans peur et sans reproche*, I have taken my Ph. D. I can give you, if you ask for it, a chemical analysis of the rye, Scotch or gin whose flavor appeals to you. In addition I have been employing my inventive faculties to good purpose."

That's all right—your words good enough for me," nodded the lawyer. "What I'm interested in is that portable typewriter you have there. What's the idea of lugging that thing around?"

"Not portable—potable," corrected Mudge, allowing a slight smile to escape his usually serious features. "This is my portable typewriter, one which should I allow the secret of its construction to become known would revolutionize the typewriter industry, methods of dictation and the conduct of business colleges and secretarial schools. In reality it is my sample case. I will illustrate."

So saying he unlocked the case and removed from it what in all its externals was a portable typewriter complete in every detail. Placing it on the desk and pulling up a chair Mudge placed his fingers on the keys.

"Standard keyboard," he explained. "Any experienced typist can operate it easily. What were you thinking of ordering today?"

Rye or Scotch or Tye

"I need some Scotch," said the lawyer.

"If you look closely at the southern exposure of this machine," continued Mudge, "you will observe that underneath the carriage are three small tubes, their bottoms closed by caps. You will note that there is room between these tubes and the base on which the mechanism rests for a whiskey glass to stand upright just as though it were under a soda fountain spigot. You said you wanted Scotch. Watch closely.

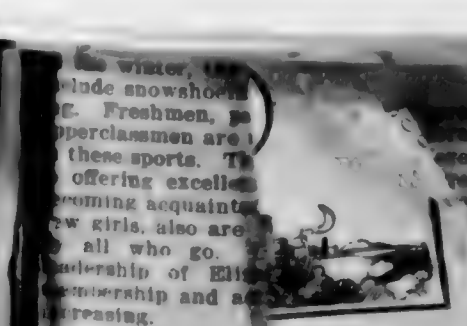
"First I place the whiskey glass under the tube delicately inscribed with an 'S.' Then I press the shift key and the letter S. See, the caps swing off, leaving the bottom of the tube open. Oh, a piece of paper. Now, I will write the word Scotch. As I press the final 'h' of that welcome word say 'When.'"

He suited his actions to his words and to the astonished eyes of the lawyer as Mudge's fingers came to a stop on the letter "h" an amber-colored fluid began to flow from the tube he had indicated. The glass was nearly filled to the brim before the customer remembered to say "When."

"Taste it," said Mudge, "and if you want it, here's the formula and table of chemical ingredients. It's home brew and to my mind better than any of the stuff masquerading now as coming from across the water."

The lawyer sipped reflectively and nodded in approval. "Send a case. Let me try that machine, will you?"

"Delighted," acquiesced Mudge, relinquishing his seat to the other. The lawyer inserted a fresh sheet of paper, pressed the shift key and the letter "R" and wrote "Rye." As he held his finger on the "e" a stream of familiar color flowed from the tube on which the letter "R" was inconspicuously engraved to the glass beneath it.



He reached around, drew the glass to him and tasted reflectively. "Better than the Scotch, I think, but just to remove all doubt—"

"Wait a minute," said Mudge. "I want to fix that back space key. Now it's all right—go ahead."

The lawyer wrote "Scotch," holding his finger lovingly on the final

The Vermont Cynic

ROBERTS, '25, GIVEN COVETED APPOINTMENT

College Directory

HONORARY SOCIETIES

FACULTY AND ALUMNI

Copies of this first issue of the Cynic are also being sent to all members of the faculty and to all members of the Class of 1928. In sending these copies of Cynic and requesting that payment on their subscriptions to the Cynic be made, and requesting that they renew their subscriptions for the coming year, this paper is keeping in closer touch with what is going on at the University of Vermont than they can by any other means.

U. V. M. MEN GET CUP AS BASEBALL CHAMPS

The R O T C of the University made a fine showing in two summer camps. The infantry unit at Camp Devens, Mass. consisted of 47 men and 11 members of the Medical unit were at Carlisle Barracks, Penn.

The boys at Camp Devens returned with a silver cup awarded to them as baseball champions of the camp. In addition, honors for proficiency in rifle were won by James N. Follett, Jr., M. Johnson, Jr., Myer Katz, Russell W. Sykora, Arthur H. Tudhope, and Edward M. Wallis.

Brief Notes

Wednesday afternoon a meeting was held for those interested in cross-country running. Twelve men are out for the sport and others are expected to turn out later. Regular workouts began Thursday afternoon and will be carried on at 4 o'clock every afternoon under Coach E. R. Latty.

KANSAS PLEDGE HAS PRETTY HARD LIFE

Many to their physical discomfort Kansas rooms Greeks are learning that pledge life is much different from that of last week. In the afternoon when a coke tastes so good and a ham sandwich will satisfy that weak feeling only flashing pins are seen on "Bricks." Pledge buttons are quite conspicuously absent and it is a cold kid who even stops to talk with some friend in front of the campus loafing-place. No longer are upperclassmen insisting that the "yearling" take his cigarette, the action is just reversed. The organ factory has been kept busy the past week turning out paddles which will not break under the roughest use and even the clothing stores report much heavy underwear being sold. As one unhappy pledge said after his first day out: "They beat us because we are too cocky and then do the same thing because we aren't cocky enough. What's a fellow doing to do?" It's a tough life!—*University Daily Kansan.*

Six students have been picked from the Labor Problem class at Northwestern to discuss with the professor the best method of conducting the class.

CARROLL GETS D. S. C. AT FORT MCKINLEY

Popular Professor Awarded Medal for "Distinguished Heroism" During War

Captain Daniel B. Carroll, instructor in the department of government and law, received the Distinguished Service Cross "for extraordinary heroism in military operations against an armed enemy of the United States at Bois de Cheppy, France, September 26-28, while serving as a first lieutenant in the 364th Infantry, 91st Division."

The D. S. C. was presented to Prof. Carroll at Fort McKinley, Maine, on August 6, while he was on a 15-day assignment there. He is a member of the Officers' Reserve Corps, assigned to the 388th Infantry of the 97th Division.

He was born in Illinois, and after attending an officers' training camp at Fort Harrison, Indianapolis, served overseas with the 91st Division.

FOUR WOMEN OF 1927 AND 1928 GET ALL A's

The final grades for the second semester show the following members of the class of 1928 to have received none lower than A: Faith Baldwin, Frances Dimick, and Muriel Richardson. Those of 1928 who received no grade lower than B were Alma Batten, C. E. Brown, Helen Lynch, Virginia Margie, Lillian Marsh, U. R. Merikangas, D. E. Palmer, L. J. Peet, G. R. Perry, Marjorie Purinton, T. F. Rich, Clara Richmond, Mildred Roberts, G. E. Saunders, Helen Stevens, Charlotte Stone, D. Tatelman, N. A. Towne, Ruth Westin, C. Wolfe, Kathryn Wright.

From the class of 1927 Elizabeth Warner was the only student who received no mark lower than A. Those who received none lower than B were Catharine Armstrong, Dorothea Baker, Ralph Blodgett, Bernice Bombardier, Lois Burbank, Eleanor Chapman, Claire Currier, Gladys Ford, William Hall, Doris Harbour, Agatha Jasspon, Almeda Morrissette, Marion Putnam.

Summer Notes

Delegates from the 4-H clubs of the state, numbering about 150, were entertained by the University during the week of August 17-22. The clubs, consisting of boys and girls interested in agricultural work, were taken care of by the Boys' and Girls' Club [illegible]

Professor Carpenter and Freddie Guild played several matches during the summer with the Burlington Tennis team, and Guild reached fourth round in the State Tournament held in August.

About 50 members of the New England Federation of Harvard Clubs were entertained by the University of Vermont on August 15 and 16, with tea at Redstone on Saturday afternoon and a banquet in the evening at Hotel Vermont. Among the speakers at the banquet were former Congressman S. E. Winslow, President Guy W. Bailey, Bishop Samuel B. Booth, W. B. C. Stickney, president of the Vermont Harvard Club, and the poet, Percy MacKaye.

A miniature of Jerusha Allen, wife of Ira Allen, and a number of books belonging to her, were recently presented to the library by Mrs. Sarah Allen, granddaughter of Ira Allen. The books included a set of Cowper's poems in three volumes, which was originally presented to Jerusha Allen by her son in 1821.

"The Savitar," annual publication of the University of Missouri, was awarded first place in the national contest for college annuals during the past summer. It is the third time the Tigers have carried off honors in this competition.

LELAND JOHN CAHOON

GARY OFFERS BUSINESS COUNSEL TO STUDENTS

BIG GREEN GRIDMEN WIN FROM VERMONT 110-0

Captain of Losers Had to Wait Forty Years for His Revenge Against Dartmouth

[illegible] defeated Vermont 110 [illegible] the first official intercollegiate [illegible] contest in which a Green and [illegible] ever participated, according to a letter recently received by [illegible] from A. L. Johnson, '88, of [illegible] Fla., who describes himself [illegible] to the establishment of [illegible] football at the University of Vermont" and "captain of the [illegible] that went down to fighting de-[illegible]

[illegible] interesting things are [illegible] in Mr. Johnson's letter that [illegible] printed practically in full. If [illegible] believes that football has [illegible] changed in the past forty years, [illegible] read and change his opinion. [illegible] whatever distinction may [illegible] to having been the father to [illegible] establishment of present-day football at the University of Vermont.

Another high point in history is the fact that I was the captain of the team that went down to fighting defeat in the first official intercollegiate game. The game was with Dartmouth and the score was 110 to 0, which is not far from being a record itself.

Ever since that time, I have attended every football game of note within 100 miles of me, in whatever part of the country I happened to be, which ought to qualify me for any remarks I may spring.

Naturally my standard of success and source of inspiration, so far as my Alma Mater was concerned, was to learn that by hook or crook she had been able to beat Dartmouth. I have watched the press dispatches pretty closely, but never got a thrill.

Last night in a restaurant I was discussing current outdoor sports with a young Greek waiter, and it finally developed that he had played on a Manchester, N. H., high school team last year against the Vermont freshmen, and incidentally and also, he advised me that Vermont had beaten Dartmouth last year! I am hastening to write this, before I find out for sure that this advice is untrue.

Things I remember about that Dartmouth game are that I, as captain, did not have grace enough to meet the team till they appeared on the field and looked me up. It rained continuously throughout the game. I weighed 150 pounds, which average I have continued to maintain and their center weighed 246 pounds. My most intimate recollection of said center was that while we were abraced at the bottom of a heap of twenty other players, he exclaimed with much vigor that if he ever got up, he was going to kill me! Something about his eyes!

"At that period all that we knew about Rugby was gained by a careful study of Spaulding's Guide. It is more than likely that I gave it more thorough study than some other books. Try and conceive, you drop-kickers, getting your only instruction from the printed word. I do not believe that at my best I was near to breaking distance records in the drop-kick, but for consistency and accuracy, and considering that the kicker had practically no protection whatever, I have never seen a drop-kicker that I considered was in my class one season.

"The real reason for this was practice, practice, and then practice. That particular fall I did a little kicking after the season closed, every day took a ball home with me vacations and kicked, with or without snow practiced through the spring and summer—and the next fall I was there. I drop-kicked with either foot, and punted likewise. It was the regular thing to get the ball away with [illegible] three men hanging on. I remember one practice game making seven successive drop-kicks for goal!

"Along about my senior year, we secured a coach, a graduate 'M. D.' from Pennsylvania. He put a lot of things into our heads that had never been there before. Particularly I remember that the linesmen had some purpose in life other than to stand up and scrap with each other. I remember the first day that we took the field to show him our wares. He called me to one side and said, 'Say, you're pretty fast; I'll make an end out of you.' I told him to think again, that this was my last year, that I had always played half, and that I wasn't going to take on any new tricks. (Hope this does not weaken present-day discipline.)

"Well, it came to the end of the season, and the reward for our six-day a week scrimmages was to be a trip to Boston. We had been faithful to our work and were a mighty good all round team and should have mopped up but for a couple of tricks which had developed in the metropolis while we were laboring in the sticks.

"In the first place, our coach did not go along. His contract was finished. He offered to go along and play with us for $50. Well, $50 was some item, and anyway some of us had some idea of the ethics of such a situation, and we passed him up.

"A trip to Boston was some exciting incident in those days, in itself. To add to the confusion our manager discovered about an hour before train time, that we lacked $50 of having enough money to make the trip! He confided his troubles to me, and we scoured the town and missed our supper, and at the last moment found Col. Woodbury with the needful in his pocket.

"I expect Essex Junction is much the same as it has always been. Anyway, about 12 o'clock we were more or less settled two in a berth, as a preliminary to battle the next day with Boston University. The excitement and all had given me worse than nervous indigestion, and I arrived on the field very weak. There were a few striplings at first kicking a ball around and we felt that we had a snap. Later, however, an entirely different type of men showed up, and it finally developed that we played a full team of Harvard scrubs.

"The one thing that we did not know anything about was interferance. It bothered us much to stop a covered-up man, but at that, we held them scoreless till the very last part of the game. This was in the day of lateral passes. I intercepted a long one and had a clear field for a touchdown, but overran myself, or possibly it was on account of my weakened condition. Anyway I tripped in the open field. Later someone fumbled a punt and they scored. Then they pulled a trick of touching the ball down a few feet from the goal line and rushing it over again. They repeated this operation several times before we knew what it was all about.

"The next day, mind you, we had a game with Tufts. They had a better team and we were also better. They had a 220-pound center that was fast, and they switched him to fullback for our benefit. He was my special antagonist, and I remember that one impact started the blood out of my ears as well as my nose. This was the nearest I ever came to being knocked out of a game.

"We held them even also till the last ten minutes, when something went wrong and they scored. Then

(Continued on page 8)

Y. M. C. A. Notes

The Y. M. C. A. has been very active this year, running an employment bureau and in finding rooms for students. General Secretary Maxted has made a canvass of the business section of the city for jobs for students, and John McCall with freshman aid, has covered much of the residential section. All applications from townspeople for student help have been filled.

Fifteen steady positions have been given out and no day has passed that some odd jobs have not been placed in student hands. Other steady work has been promised by down-town firms. Rooming places may still be had through the "Y."

Plans are already under way for Bible Discussion groups. General Secretary Maxted will head the leaders' group, which will be composed mainly of students.

CANDIDATES FOR BAND THIS FALL NUMBER 75

The U. V. M. Band starts off its season this year with approximately 75 applicants. This number will probably be reduced later in the season to between 50 and 60. There will be added a section of eight French clarions and six field drums.

J. F. Lechnyr will direct the band again as he has for the last two years, and under his able leadership the college should put out a band this year which will be even better than the one last year.

The first public appearance of the band will be at the Clarkson game, but the men will not appear in uniform until the Holy Cross game, October 24.

Faculty and Alumni

President Guy W. Bailey, Dean J. L. Hills, Director Thomas Bradlee of the Extension Service, and Mr. E. L. Ingalls of the Boys and Girls' Club Work have been attending the Eastern States Exposition at Springfield, Mass. this week.

Professors Arthur B. Myrick and Evan Thomas, who were on sabbatical leaves last year, have spoken several times recently, describing their trips in Europe. The countries visited include England, France, Italy, Holland and Switzerland.

Ovidio A. Boni, '23, and Elmer B. Stevens, '24, are in the employ of the American Bridge Company, the former being located at Philadelphia and the latter at Pittsburg.

Karl R. Samson, '24, is a draftsman at Chattanooga, Tenn.

Douglas W. Barrows, '24, has a position with the Atlantic Coast Line Railroad in Florida.

ABOUT 30 NEW NAMES ON FACULTY ROSTER

Many Changes in Nearly All Departments Effective This Fall

The changes this year in the faculty personnel are rather larger than usual, with about 30 new names on the registers of the academic colleges.

Professors Myrick and Slocum, heads of the departments of Romance Languages and Physics, respectively, have returned this year from their sabbatical leaves. Professor Lester M. Prindle takes the place of Professor Ogle in the Latin department, and in the absence of Professor Groat on sabbatical leave, Professor W. F. Spafford heads the department of Economics.

The department of Music, newly created this year, is headed by Howard C. Bennett, Harvard graduate, who has just returned from studies abroad.

Professor H. W. Peck, for four years in the department of Economics at Vermont, will assume a new chair in economics in the School of Citizenship and Public Affairs of Syracuse University. His place is taken by Alfred G. Buehler of Heidelburg University, Ohio.

Donald H. Wallace, son of Professor Wallace, instructs this year in Commerce and Economics. Mr. Wallace, who graduated from Harvard in the class of '24, taught last year in a private school in Suffield, Conn., and spent this summer in travel abroad.

Ralph M. Holmes will act this year as associate professor of Physics, and Paul C. Squires of Princeton is an associate professor of Psychology.

The Zoology department has been augmented this year. Miss Rhoda Hartwell of the University of Illinois and Miss Carolyn Ladd of Wellesley supplant Miss Eddy and Mr. Scott, and in addition, Lyman S. Rowell, U. V. M. '25, will act as research instructor in the department.

In the College of Agriculture, W. B. Silcox, city milk inspector, will act as part-time instructor in the dairy marketing department. Mr. Silcox is a graduate of Ontario Agricultural College, receiving his master's degree at Iowa State College.

A complete list of new faculty members was not available for this issue, but additional changes will be noted in the next issue.

FRESHMAN HANDBOOK LATE IN APPEARING

The staff of the 1929 Freshman Handbook has issued an expression of regret for the tardiness of the appearance of the book especially since every effort was made to get it out early.

All material, including the advertisements and cuts, was in the hands of the publishers June 12, but the publishers failed to live up to their contract.

Though the book loses part of its value through coming out late, it will still be useful to freshmen and valuable as a souvenir. It contains several new features and includes all of the Vermont songs and cheers in use at the present day.

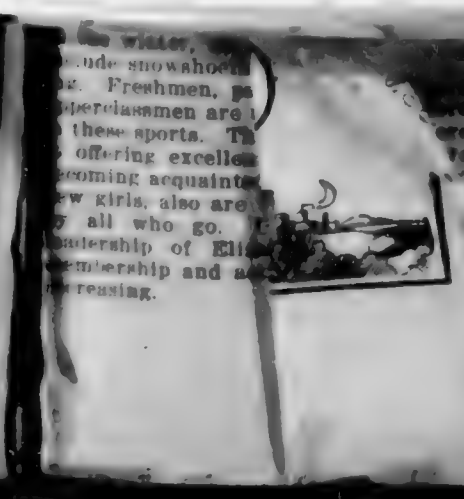
When the book arrives it may be obtained by all freshmen and new men by applying at the "Y" office in the Old Mill.

SOCIAL CALENDAR FOR YEAR HAS 24 EVENTS

The general social events scheduled for this year in the social calendar adopted last spring by the Student Senate and Women's Student Union are as follows:

September 25. Senate-Boulder Mixer.
October 2. Key and Serpent Dance.
October 16. Mortar Board Dance.
October 23. Cap and Skull Dance.
October 30. Aggie Dance.
November 10. Military Ball.
November 13. Medic Smoker.
November 20. Masque and Sandal.
November 25 or 26. Boulder Dance.
December 4. Football Hop.
December 18. Key and Serpent Dance.
January 8. Gold Key Dance.
January 15. Women's Glee Club.
February 5. Sophomore Hop.
February 19. Kake Walk.
March 5. Key and Serpent Dance.
March 12. Interscholastic Basketball Tournament.
March 19. Basketball Hop.
March 26. Mortar Board Dance.
April 16. Boulder Dance.
April 23. Concert by R. O. T. C. Band.
April 30. Key and Serpent Dance.
May 7. Men's Glee Club.
May 28. Junior Prom (tentative.)

Student Senate



The Student Senate held its first meeting of the year last Saturday morning in the Gymnasium, with fourteen members and two visitors present.

It was voted to hold a mass meeting and mixer Friday evening, September 25, the mass meeting to precede the mixer. The Boulder Society's offer to run the mass meeting as a pep raiser for the game with Clarkson Tech. was accepted. The Y. M. C. A. volunteered to manage the mixer with the object of getting the freshmen acquainted with each other and the upperclassmen. The band agreed to furnish music for dancing, and it was voted to give that organization a generous share in the profits to finance the Norwich trip.

Captain Lammons represented the band and Philip Hodgdon appeared for the Y. M. C. A.

DR. A. K. ALDINGER PHYSICAL DIRECTOR

Vermont Grad in 1899 and Director of P. E. in New York City Public Schools

[illegible] direction of physical education [illegible] University will be assumed [illegible] immediate future by Dr. A. K. [illegible] of New York City. Dr. Aldinger is known to many because of [illegible] in a similar capacity at [illegible] sessions of the U. V. M. [illegible] school, and as a member of [illegible] Council. He is a Vermont [illegible] in the Class of '99.

The two lower classes, in which physical training is required, are [illegible] to come under the new regime [illegible] now outlined. A general knowledge of all sports will be acquired by each student, after which [illegible] specialize in his favorites. The work of the department is to be divided into three branches: health instruction, physical training, and hygiene. Dr. Aldinger will arrive [illegible] from New York, where he has been director of physical education in the public schools for twenty years.

THIRTY MEN REPORT FOR FALL BASEBALL

Baseball coaches Collins and Colpoy are out after material for next spring's baseball squad, and believe in going after them early. All men who have never been in the Varsity lineup and who were interested in baseball were ordered to report in the cage last Tuesday. About thirty turned out, and will get a work-out of an hour a day for three weeks this fall. Some good dope is being gained in advance, and the boys will be all set when regular practice starts in February.

Football prospects at the University of Nebraska were somewhat dimmed when Locke, premier dash and football star, failed to report for practice, due, it is said, to advice on the part of head coach Schulte, who is saving Locke for track next spring. Nevertheless, the Huskers have their usual weighty team out, and should be found among the leaders in the valley standing.

Potable Typing New Bootleggers' Scheme

(Continued from page 3)

"h." Then viewed the glass. It contained not a drop. He looked at Mudge in amazed inquiry.

SAFETY CATCH AT BACK SPACE

"That was just to show you the safety catch," Mudge enlightened him. "We will suppose that I am about to draw off a sample in some customer's office when a person whose presence is unexpected and *de trop* enters unannounced. In that case I simply touch the back space key and the machine becomes a regular typewriter, delivering merely printed words."

He pressed the back space key again. "Now go ahead and draw your potion of Scotch." The lawyer repeated his performance with satisfactory results.

"If you should want gin the process is the same. You press the shift key and the letter 'G,' then write 'gin.'"

"I wouldn't mind having one of those," the customer remarked as Mudge was restoring the machine to its case. "Just think of dictating direct to the machine a long, dry, musty legal document and ending up with a Scotch or rye. What'll you have for that? You can make another."

"One lot of heatherbloom and one of corn cure," answered Mudge, entering the order in his gold-embossed memorandum book. "I'm afraid not. I am a firm believer in temperance."

"How do you find things now that they've busted up Rum row?" asked the customer as Mudge prepared to depart.

"A distinctly beneficial measure," replied the bootlegger. "It gives all the benefits of a protective tariff to an infant industry which was barely keeping alive in the face of foreign competition. Our home stills are expanding both in number and productivity, and many of those who flocked to the undertaking business have sought more lucrative fields. Most any flathouse can now provide liquid refreshment for any wedding or wake that may be held on the premises. It is only occasionally that the relatives and friends at the wake join the corpse." *Springfield Republican.*

"HANK" DRESSER NEW FOOTBALL LINE COACH

"Big Bill" McAvoy is ably assisted in turning out a football team this year by "Hank" Dresser, line coach. Dresser hails from Kansas Agricultural College, where he played a noteworthy game at half and quarter.

He then went to Springfield Y. M. C. A. College, became interested in coaching, and took the athletic leadership of Springfield Tech High as his first position. Springfield Tech lost but one football championship during his stay there, and was successful in basketball and baseball.

He repeated the good work in one year at Winchester High, after which he accepted Vermont's offer.

"Hank" knows football thoroughly, having put in last summer in a football school under Knute Rockne of Notre Dame and "Bill" Roper of Princeton, recognized leaders in their line, and he has the pep and personality to get the dope home to the Vermont squad.

"HINKEY" KINSLER, '26
Manager of Football

FROSH ELEVEN WILL BE HEAVY AND FAST

Many Prep School Stars Showing Up Well in Practice So Far

The freshman football squad under Coach Householder is beginning to shape up into the heaviest yearling aggregation that has been seen for some years at U. V. M.

So far the Frosh have been occupied in learning fundamentals and getting into condition. The backs and ends have been receiving punts from Robbins, a 165-pound fullback who has played three years with Brattleboro H. S. and two years with New York Military Academy.

The linesmen are being coached on position and starting. Capt. Rattan, formerly of Texas Christian University, is assisting in the line coaching.

Coach Householder has not yet had time to pick anything but an extremely tentative line-up but several of the candidates show promise. Among those who have attracted attention are Foster of Montpelier Seminary, 162 pound halfback; Kropper of Bridgeport, Conn., fast 196-pound tackle; Estabrook of Brandon at quarter, a former basketball star, Morton of St. Albans, 158-pound center; Palmer an end, and Scutakes, 168-pound halfback, both of Burlington; Van Vame, fast, powerful tackle who handles the ball well; Thorn, halfback from Deerfield Academy; Smith, former Rutland H. S. guard; Osterhus, light, fast end; O'Keefe, 162-pound center; Mackay of Peacham, 165 pounds, well built and a good forward passer; Kerr, end, 165 pounds, powerful, speed doubtful, may be shifted to guard.

If everything progresses favorably, scrimmage will begin the first of next week.

Coach Householder and Manager Russell are agreed that the freshmen should win every game this year.

ARIEL PHOTOGRAPHER COMING OCTOBER 1-7

Appointments for Sittings Will Be Made Monday at Class Meeting—New Members of Board

[illegible] Ariel Board meeting [illegible] was held Wednesday afternoon at 4 o'clock in the Ariel office. [illegible] were appointed to fill the vacancies caused by the [illegible] of J. J. Gibson and W. J. Mahar. [illegible] were added to the Board as assistant [illegible] and T. M. Flint as an assistant in the feature office.

[illegible] Ariel Photographer will be here the first week in October, who accomplishes much at the very start of the college year. [illegible] is important that all those [illegible] present at the meeting Monday at 4 o'clock in the Society Hall, except seniors, for at the close of this meeting the time [illegible] will be arranged for the sittings at the Commencement Club house, October [illegible].

Appointments in teacher training are also expected to be announced at the meeting on Monday. Mr. Smith has arranged for two people every 20 minutes between the hours of 8 to 12 a. m. and 1 to 4 p. m. on each person indicates a time for being at the club house. The names will be entered at that time by name and in charge at the meeting. Sittings for the seniors will be arranged for October 1 to 5, and the rest for October 6 to [illegible]. Pictures of [illegible] and women teams will also be taken during this period.

R. Morton has been appointed Art Editor to fill the vacancy caused by the death of J. J. Gibson and W. J. Mahar has also added to the department. W. R. Brown has been added to the Board as an assistant sports editor and T. M. Flint as an assistant to the feature editor.

If a recent proposal made at Topeka is carried through, the city of Topeka will pay the tuition of each of its high school graduates for two years of college work at Washburn College. This will practically eliminate competition between the two institutions.

Eight [illegible] colleges in Kansas have formed an athletic association. Those included in the league are Arkansas City, Parsons, Coffeyville, Kansas City, Garden City, Iola, Fort Scott and Pittsburg. All of these schools compete in basketball and track but due to their inaccessibility from other cities with similar institutions Kansas City and Garden City will not maintain football teams. All the other teams in the football league have extended invitations for entering teams

VOL. 54 BURLINGTON, VT., OCTOBER 3, 1929 NUMBER 1

LOCATIONS OF THE FRATERNITY HOUSES

Homes of Fraternities Are Found in Groups—List for Benefit of New Students

[illegible] nights have once more [illegible] Vermont. Freshmen, travel[illegible] groups of two or three, seek out the fraternity [illegible] which they admire, or to which [illegible] been invited. The Freshman [illegible] a strenuous evening. [illegible] introduced to every fellow in the [illegible] is shown over the entire [illegible] and has his supply of informa[illegible] himself exhausted before [illegible]

For the Freshmen, the fraternity [illegible] are sometimes difficult to find, [illegible] may aid them to know that [illegible] of the houses are located in [illegible]

[illegible] the Pearl Street group. On [illegible] Pearl Street from the Col[illegible] of Medicine, one immediately [illegible] himself before a large red brick [illegible] with an immense porch, [illegible] with white pillars. This is Lambda Iota, a local fraternity, and [illegible] called the Owls. It is at 44 Pearl Street. On proceeding down Pearl Street to number 394, there appears a new fraternity house, that of Zeta Chi, a local also. It is a large [illegible] story building, finished in a light brown, and was taken possession of by Zeta Chi only this last week.

Two houses below, at 386 Pearl Street stands out a large square brick building, that of Kappa Sigma, a national fraternity. Crossing the street at this point and going south on Williams Street, the Freshman will discover on the right, a red brick building bearing the number of 57, which houses the Sigma Nu Fraternity, also a national.

Near the end of Williams Street is College Street, and there are four fraternity houses there. Above Williams Street, on the left hand side of College Street is the Sigma Phi Place, a large building with white columns. This is a national fraternity and is at the corner of the streets. Opposite Sigma Phi is a low-lying marble structure which belongs to Phi Delta Theta, a national fraternity. This is at 439 College Street.

Down the street a little ways appears on the right, at 368 College Street, Phi Mu Delta, a national, and nearly opposite, at 349 College, Alpha Tau Omega, a yellow brick building. The A. T. O.'s are a national fraternity.

Crossing south to Main Street, one finds down the hill a short distance, Sigma Delta, a local. They inhabit a brown building, a little set back, at number 316 Main Street.

Ascending Main Street to Grasse-mount and taking the street to the right Summit Street, the Freshman will have little difficulty in finding Sigma Alpha Chi and Delta Psi, two locals which face each other, and both of which are large stone and brick buildings.

Tau Epsilon Phi, the Jewish national fraternity, is north of the Medical building on Wilson Street, which is at right angles to North Prospect Street.

COPY OF "EURIDICE," FIRST OPERA WRITTEN

During his studies in Europe in the past year Professor Bennett has obtained copies of many noted operas and ballets. He was especially fortunate in securing a copy of the opera "Euridice," the first opera ever written, composed in Italy in 1600.

A new instruction room in the music room is especially attractive to the boys students as well as a new Duo-Art reproducing piano, which is able to play the Duo-Art selections from all modern pianists as well as the usual piano rolls.

COMIC ISSUE

The first special issue of the CYNIC for this year, a Comic Issue, is scheduled for October 31. All copy must be in the hands of the editors not later than Saturday, October 24.

Whether the University of Vermont is capable of getting out a comic issue once a year is up to the student body. Witticisms are frequent enough on the campus and in fraternity and sorority houses and dorms.

If enough of them can be put on paper and will stand the spotlight of publication, a Comic Issue will appear. Otherwise, such contributions as are received must go to enliven the pages of news issues.

The time is short. A lot of copy will be needed. It should be given to S. Burton Heath, Sigma Alpha Chi House, or to F. F. Atwood, Delta Psi House.

MOUNTAIN DAY WILL BE OBSERVED OCT. 10

The annual observance of Mountain Day will come this year next Saturday, when a large part of the student body will climb Mount Mansfield, the top of which has belonged to the University for several years. This will be the third time that the holiday has been observed, it having been established in October, 1923.

Mount Mansfield is the highest point in the state, having an altitude of some forty-four hundred feet. From its summit there is an unexcelled view over a large part of Vermont and into adjoining states. There are a hotel and several lodges on or near the summit, which are available for shelter if necessary.

Transportation will be furnished by trucks, which will leave Burlington at an early hour. Blanks are posted on the bulletin boards for signature by those who wish transportation reserved.

The day has been declared a holiday by the University Senate, and all classes will be suspended.

Green and Gold Lineup Still in Doubt as Team Prepares for Orange

Syracuse Lost Many Men from Last Year's Strong Eleven by Graduation, But Is Filling Their Places With Experienced Veterans

Today at Syracuse the Green and Gold lines up against the strong Syracuse eleven in what promises to be one of the hardest games on our schedule this year. The Orange was victorious last Saturday over Hobart by a score of 32-0.

In spite of the loss of Noble, Staro bin, Waldorf and Fivaz of the 1924 line and ex-captain Simmons and McBride in the backfield, the Orange will have an eleven which will be nearly as strong as the championship eleven turned out last year by Chick Meehan.

Coach Reynolds, the new coach, has a promising array of tried material to rush into the gaps caused by the graduation of last year's stars, and indications point toward another championship for the Orange.

In place of Noble, Syracuse has Arxhoska, regular end one year ago until he was robbed of his opportunity by injuries, and Jones, speedy Freshman from last year's team. To succeed Waldorf and Starobin Reynolds has Levy, who has starred many a Syracuse major contest, and McNamara, a fast and heavy lineman. Biggs, giant guard of two seasons ago and Bayley, veteran guard, are crowding out Rugge, who played regularly at a guard position last year.

Freeman will probably succeed Fivaz at the pivot position. In the backfield in addition to Captain Foley, there will be Clark, Carr and Barbeau, who is a Freshman star up for his first year of varsity work.

Vermont's lineup will be in doubt up to the time of the opening whistle due to injuries. Some men who were unable to play in the Clarkson game will be in trim for this game, but Vermont will be without the services of her captain, Joe Tarpey, due to the injury which he sustained in the opening game.

Wednesday's practice showed the varsity at its best so far this fall. In 15 minutes the first-string eleven tore through the seconds, reenforced by ex-Captain "Art" Harms and "Doc" Dougherty, for seven touchdowns.

Winchenbach, Conway and Thompson featured on line plays, with Thompson and Conway going around the end for big gains.

The overhead game, which fell flat against Clarkson, went better. Morse and Chapman each took passes from Smith for touchdowns. Thompson got three touchdowns and Conway two, and Conway kicked six out of seven goals.

Except for Captain "Joe" Tarpey, appearances would indicate that the team will line up against Syracuse about as it did against Clarkson, with Conway calling the signals. Laubach is making a good bid for Conway's old position at righthalf, although rumor has it that either Aronson or O'Connell might be shifted from guard to fill the gap.

CALIFORNIA U. WANTS TO DEBATE VERMONT

Negotiations are now being made for a debate here with the University of California. The western college is willing to debate Vermont in Burlington, but owing to the fact that theirs is a graduate team, there is at present some little question as to whether the event can be arranged.

COACH McAVOY GIVEN ENTHUSIASTIC WELCOME

On the evening of Friday the 25th, a Mass Meeting was held under direction of Boulder as a pep raiser for the Clarkson game. Immediately following this a Freshman Mixer was staged by the Y. M. C. A. and Y. W. C. A.

The Mass Meeting took the place of the usual Smoker and was generally considered a great success, with nearly seven hundred of the student body there. The newly organized college band furnished music. Coach Latty was the first speaker, giving a brief summary of the benefits derived from athletics in general and stressing Track work in particular. Professor "Jimmie" Donahue welcomed the new men to Vermont in a most hearty manner. Coach McAvoy gave his first speech before a general Vermont gathering, and was enthusiastically greeted and cheered. Coach Dresser was also warmly received. Captain "Joe" Tarpey and Manager Kinsler completed the program.

Immediately following the Mass Meeting the Freshman Mixer took place. The ball of social activity was started rolling when Phil Hodgdon and Miss Constance Weaver led the Grand March. Dancing was continued

(Continued on page 7)

Enrollment in University 76 Under Last Year Because of Restriction

The figures for enrollment in the University on October 1, have been announced by the Registrar as follows:

Seniors	167
Juniors	191
Sophomores	261
Freshmen	334
Medical students	104
Unclassified and post graduate	18
Teacher training	99
Total enrollment	1174

These figures show an enrollment this year considerably smaller than that of last, which was 1250, the largest the University has ever known.

The decrease shows itself in the numbers of the Freshman class and also in those of the Medical College. The former is due to a restriction by the administration, which was necessary in view of the limited facilities of the University, and the latter to the exceedingly large class which was graduated from Medicine last year.

The Department of Education shows a gain of 32 per cent in the Junior and Senior clases, although the two year Teacher Training classes are slightly smaller than those of last year.

NEW MEN

The names of all new men who have entered the University this fall, so far as obtainable, are printed this week. Next week a similar list of new women students will be printed.

Glenn Aiken of Burlington, John Aiken of Burlington, Maxwell Antell of Bridgeport, Conn., Robert Averill of South Orange, N. J., Henry Ballou of Springfield, Mass., Joseph Barnard of Springfield, Mass., Joseph Barnard of Burlington, Converse Barnes of Essex Junction, Herbert Bartholomew of Whitehall, N. Y., Harold Barter of Essex Junction, Gordon Batchelder of Bethel, Henry Beck of Lawrence, Mass., Edward Berry of Jeffersonville, Arthur Birchard of Springfield, Mass., Frederick Birchard of Springfield, Mass., Louis Bjorn of Barre, George Bond of Thetford, Richard Bragg of Bellows Falls, Myers Brand of Burlington, Peter Brikiatis of Skontari, Greece, Loren Brooks of Milton, Raymond Brough of Poultney, Herbert Brown of Swanton, Jerome Bullis of Oelwein, Ia., George Butterfield of Burlington.

Levid Calcagini of Hardwick, Osman Camburn of Cedar Rapids, Ia., Thomas Carrigan of Pittsford Mills, John Chadwick of Randolph, Donald Chalmers of Danville, Charles Chapin of Stowe, Donald Chapman of Essex Junction, Benjamin F. Clark of Groton, Lyle Collins of Swanton, Lawrence Cowles of Burlington, Maurice Creed of Northfield, Clayton Crothers of Randolph, Richmond Curtiss of New Haven, Conn.

Daniel Damon, Jr. of Fort Edward, N. Y., George Davis of West Fairlee, Herbert Davis of Marshfield, Israel Davis of Revere, Mass., Ralph Davis of Morrisville, Warren Dodge of Johnson, John Donnelly of Atlantic City, N. J., Robinson Dorton of Rutland,

UNIVERSITY RECEIVES TRUST FUND OF $50,000

A trust fund of $50,000 is left to the University of Vermont by the will of Mrs. Emma H. Slade, widow of the late William Gerry Slade of New York City and prominent clubwoman, in her will, which was filed for probate Tuesday.

The fund is established, according to Associated Press dispatches, as a memorial to her daughter, Harriet Slade Crombie.

Correcting last week's College Directory A. A. Allen '27 is captain of the Rifle Team, and J. R. Morton '27 is manager. J. R. Morton is also president of the Radio Club.

FRESHMAN HANDBOOKS APPEAR ON CAMPUS

STUDENT SENATE MEETS AFTER MASS MEETING

THORN MADE PRESIDENT OF THE CLASS OF 1929

SOPHS WIN MOST CANES BUT LOSE ROPE PULL

The Cane Rush and Rope Pull between the two lower classes took place last Saturday at Centennial Field immediately following the Clarkson game.

In the Cane Rush the Sophomores more than doubled their opponents' record gaining victory by a big enough.

True to tradition, the Frosh marched through the city, obtaining the canes at Mims and Perry's before the game. This year the opposing forces on either side of the row of canes were more nearly equal than usual, though the new men had some advantages in numbers.

The battle was hard fought for the entire six-minute period, though no serious casualties were reported and fine sportsmanship was shown on both sides.

Decision in the Rope Pull was given the class of '29 through default. Two out of three pulls winning, the Freshmen and Sophomores respectively won the first two. The third pull was the hardest fought; at first holding even, fortune then turned for the Frosh, who seemed to have things their own way until the Sophomores staged a comeback and pulled back to what would have been victory, had not the men from the side lines laid hands on the rope.

At a meeting of the Vermont Independents last Thursday evening E. C. Suitor and F. W. Regan were elected as members of Gold Key from the class of 1928, filling vacancies which occurred when two of the former members recently joined fraternities

FROSH MEET GODDARD IN OPENING BATTLE

This afternoon at Centennial Field the strong Freshman eleven meets Goddard Seminary. Coach Holder has had to break in an entire new set of men for the left side of the line because of the loss of regulars from the squad. If the new men work well the team will be in fine shape for the right side of the line and the backfield are exceptionally good.

The probable lineup is as follows: Palmer, r. e.; Kropper, r. t.; Mack or Morton, r. g.; Morton, O'Keefe, c.; Gardiner, c.; O'Keefe or Morton, l. g.; Waldman or Williamson, l. t.; Montbriand or Estabrook, l. e.; Donnely, Estabrok, q. b.; Foster, f. b.; Robbins, r. h. b.; Thorn or Montbriand, l. h.

Because so many of the Blue and White netmen plan on being in Cambridge today when Harvard and Middlebury clash in football, it is not expected as the CYNIC goes to press that the projected tennis match between Middlebury and Vermont this afternoon will be played.

Co-ed Columns

ELIZABETH E. WARNER, '27, Women's Editor

EDITORIAL

...r last week's promise, we ... this issue a series of brief ...cussing the women's organ... the campus. The purpose ... is to acquaint the Fresh... the activities of these organ... and to encourage them to go ... which they are especially ... in.

...eason of the year one of the ...ns most active on the ... the Women's Athletic Asso... more familiarly known to Ver... as W. A. A.

...h W. A. A., interest in all ... of women's athletics is stimu... and an attempt made to engage ... freshman girl in one or more ... variety of sports offered. To ... a point system has been ... which space does not allow ... scribe in detail, but which car... with it substantial awards for the earning of points. No possessions are more coveted or more highly ... when won than the sweaters, ... and other emblems of W. A. A.

...ey, tennis, volley-ball, soccer, ...ball and baseball, horseback rid... hiking, canoeing—all according to the season. Surely every girl must find in this list something which she is interested in. Points may also be won through keeping health cards, which isn't as easy as it sounds but is rather like a game.

Every girl who has been a year at Vermont knows that what W. A. A. is to Vermont, Miss Cummings is to W. A. A. And everyone knows that she has always brought to her work, in addition to skill a genuine enthusiasm which has made her the "moving spirit" of the organization. This year she has as her assistant Miss Alice Blanchard, a graduate of Middlebury College who has received special training in physical instruction and an able successor to Miss Cynthia Lash, who formerly filled the position.

Frances Burditt '26 is this year's president of W. A. A. A glance at her record in last year's *Ariel* proves that she is well fitted for the position.

With such leaders as these and the other officers, with so great a variety of sports and such substantial goals to work for, it is small wonder that W. A. A. stands out as one of Vermont's finest and most popular organizations.

PRAISES LUNCH COUNTER

To the Women's Editor of the CYNIC:

With a most sincere and deep sensation of satisfaction and pleasure, I write to congratulate you, myself, and all others connected with our beloved University, on one of our recent improvements. We are making progress in many ways, but the special advantage of which I wish to write seems to me a most important one. I am referring to our lunch counter just across the hall from the University store.

Doubtless you, yourself have already patronized and found the intrinsic value of that little alley, literally, a heart-warming spot. For is not the stomach somewhere in proximity to the heart? And what, pray tell me, could warm anyone more than a good cup of steaming coffee with real cream in it? Just for a moment, imagine it Saturday morning. Perhaps you've forgotten about those blooming eight o'clock classes, or perhaps you enjoyed something like the Mixer on Friday eve. Oh, hum—it makes me yawn to think of it—but there's certainly no time for breakfast. Oh for a cup of coffee just to start the day off!! Do you remember last year?—then there was only a chocolate bar that left a sickened taste in your mouth. But now oh boy, after the first class, a rush for the warming alley—"A cup of hot coffee, please!!" It makes me wish I weren't imaginary, right now. Isn't that self sed?"

Yours, in the praise of hot coffee, and our little store, "the warming alley"

COFFEE CO-ED.

The Catty Co-ed Says

Well—we're
Really at it now
Rushing, dating,
Acquainting
To say nothing
O' studying.
Er-that's
What most of us say
Nothing
Even after
Studying.
But
What's the use?
They say
Virtue reaps
Its reward.
Maybe
Someone else is
Doing our
Harvesting.

* * * * *

Mixing bowls!
Mixing spoons!
But
Mixing parties!
They're not quite
The same.
There may be
A large bowl
But there's no
Spooning.
There is no
Beating
But there is
Some stirring
Done by—
The feet.
(Frosh preferable.)

* * * * *

The cruelty
Of the Sophs!
Will it never cease!
Nor even ease
The hardships
Of the innocent.
The Frosh freaks
In all their
Flabbiness,
Are flapping
About
Our select campus.
Is there
Hope
For our salvation
From such
Decrepit beings?
Worse cases
Have been cured
While some—
Haven't changed a bit.

* * * * *

P. S. Don't take that
Personally.

* * * * *

Griddle cakes!
Gridirons!!
Forward passes,
Foxy passes,
(Some faux-pas).
We may not have
Quantity
But—the quality.
The only thing
Lacking
Is volume—
To the cheers
And spirit
To the cheers!

* * * * *

The Keys
And Snakes
Opened the year's
Socialities
And difficulties
All the
Bells and bills
(Including the dumb)
Of the seize-on
Were present.

* * * * *

And so—
The year goes on.

MORTAR BOARD PICNIC HELD AT NORTH BEACH

Thursday, September twenty-fourth, the annual Mortar Board Picnic was held at North Beach. Every girl in college was invited, and there was the usual large attendance. Supper was eaten on the beach by the light of bonfires, and Vermont songs sung. At this time the Pan Hellenic rules were explained to the Freshmen. Mortar Board as well as Vermonters' Club has thus contributed its welcome to the Freshmen.

W. A. A. IS PROMOTING MANY OUTDOOR SPORTS

Practice in hockey and volley-ball began this week, with much enthusiasm evidenced. More upperclassmen came out for these sports than usual.

Four tennis courts are in good condition and are being used regularly. A new feature this year is the tennis tournament between dormitories. The finals will be played on Fall Field Day.

Horseback riding is very popular, with a competent instructor, and many girls in the classes.

Canoeing instruction begins Friday and Saturday, October second and third, with Miss Cummings coaching. The charge for the course is only thirty-five cents. For both horseback riding and canoeing, written permission from home is necessary and for canoeing it is also necessary to be able to swim sixty yards.

Freshman physical examinations are almost completed.

An organized hike is planned for today, either to Queen City Park, if the weather is warm enough for swimming, or to Red Rocks. Those who take the hike will leave the gymnasium at 2 o'clock.

Y. W. C. A. NOTES

The Y. W. C. A. cabinet held a retreat at Miss Holbrook's camp last week-end. Plans for the coming year were made. The cabinet wishes to express their appreciation for all that Miss Holbrook and Miss Terrill have done for them.

WOMEN'S STUDENT UNION

After the usual singing of Vermont songs, reading of the minutes of the last meeting, and Freshman roll call in Student Union last Saturday morning, representatives of the various women's organizations on the campus spoke briefly describing the activities of these organizations. Freshmen were urged to take part in activities. Announcements followed, after which the meeting adjurned.

VERMONTERS' CLUB

On Friday, September 18, 1925, the Vermonters' Club entertained the Freshman Women at the University Gymnasium.

This was the first get-together of the year and was combined with a social affair.

A short entertainment was given by the different sororities, consisting of stunts that were both original and cleverly presented, especially the model class that the Freshmen are taking for an example.

Dancing was enjoyed the remainder of the evening, and refreshments were served during a short intermission.

With the Fraternities

Kappa Alpha Theta

Irene Allen '25 has a position in the Billings Library.

Evelyn Metcalf '25 is an instructor in the English Department.

Recent visitors at the Theta House included Selma Strong '25 who is teaching in Hyde Park, Dorothy Heffron '25, who is teaching in Pittsford, and Anna Brush '25, who stopped on her way from New York.

Delta Delta Delta

Margaret Kennedy of Champlain N. Y., formerly of the Class of '27 will be married in December to Gerald Sweet of Champlain, N. Y.

There will be a Rummage Sale Saturday afternoon at the W. C. T. U. Temple.

Alice Blanchard, a Tri Delt from Middlebury, is assistant Physical Director this year, taking Miss Lash's place.

Alpha Xi Delta

The engagement of Helen French '26 to David Hall '26, Delta Psi, was announced at the meeting September 23.

Merle Bristol '25 is employed in the R. H. Macy Store in New York City.

Madeline Whitcomb '25 is teaching in Cape May Court House, N. J.

Dorothy Gilbert '25 is teaching in Newport, Vt.

Edna Rush, formerly of the Class of '26 attended the summer session here.

Alpha Chi Omega

Edith Ladd '24 was married to John Armstrong, Medic '23, this summer as was also Fannie Peabody '23 to Allan Wood.

Phi Delta Zeta

A miscellaneous shower was given at the rooms on Pearl Street Thursday night to Pearl Marquis Aldrich '26, in honor of her marriage last June to Ralph Aldrich '25. Refreshments were served.

UNDERSTUDYING

For every unusually important task upon which a great deal may frequently depend there must be an understudy. He rarely breaks into print; he must rehearse along with the principles, the headliners; he must know their parts as well as they themselves. His one and almost only solace is that someday the star may be unable to answer, when the call comes, and thus give him his golden opportunity, the opportunity for which he has worked so long and waited so patiently.

So it is in football. There is always the second string player, who absorbs the buffets of the headliner, the first team man, and in doing so, helps condition the first team man so that he can better play his part. For two long months he dons his second string outfit and provides opposition, nothing more. Then when the team plays at home he is allowed just a taste of the glory he hopes will be his some day, when he is allowed to trot out on the gridiron after the first team has made its appearance and has been received with thunderous acclaim.

When the team plays away from home he is one of the crowd at the station when it departs and when it returns. He is happy in victory and sad in defeat. His is the existence of the understudy. All hail to him!—*University Daily Kansan.*

IS THERE SOME REMEDY?

As the nightmare of rushing again descends upon the College, the prevailing undergraduate attitude is one of resignation to the inevitable. With its temporary distortion of the usual relations, rushing has always been a subject of considerable comment, criticism, and reformative suggestion, but although its evils have been minimized to a very great degree, it still takes its place among the least agreeable of the yearly round of events. It has, in fact, been such a difficult problem to solve, that for it alone, of all the many questions dealt with by the Committee of Ten in its admirable investigation of the fraternity situation, the committee was unable to suggest any solution. *The Record* feels, however, that men interested in Williams' welfare should not on that account cease to canvass possibilities of improving the present system, and we wish at the beginning of this rushing season to urge everyone again to turn his attention to ways of relieving the situation. Perhaps we will be too close to the problem to see it as a whole, but if there can be throughout this period an effort to see just what displeasing features are avoidable and which are inevitable as long as we continue with the present system, it must help eventually in finding a remedy.

In the meantime, however, the present conditions are with us, and we can but make the best of them. The only other thought that we would leave with the student body at the start of this time is that the basis for the success of fraternity relations in the past has been the strict adherence, not only to the letter, but also to the spirit of the Interfraternity Agreement. As with the operation of the Honor System, the working of the Interfraternity Agreement has always reflected credit on the College. We feel sure that the College will want to help strengthen this tradition of successful operation and will realize that continued success demands continued attention to all the requirements.—*Williams Record.*

Daily Dribble

The Y M C A. is undertaking something new in the way of giving publicity to quotations of sly bits of humor and popular philosophy. These quotations are posted on the bulletin board in front of the "Y" office and are changed daily. Those which have appeared the past week follow

"The man who loafs in college has just to ask for dough."

"The highest degree any college can offer is that of M A N."

"A college degree does not lessen the length of your ears; it only conceals it.

"Put your troubles in a pocket with a hole in it."

"Success comes in CANS! Failures in CANTS!"

"When a man is wrapped up in himself he makes a mighty small parcel."

Faculty Notes

Dr. C. H. Beecher is spending a two weeks vacation in the Canadian woods.

Professors Evan Thomas and A. F. Myrick, who were travelling abroad last summer, recently gave interesting talks at the College Street Congregational Church.

The regular annual meeting of the ladies of the faculty will be held Tuesday afternoon at 4 o'clock at the home of Mrs. Frederick Tupper at 179 North Prospect Street.

Miss Jessie Winchell, assistant professor of Home Economics, spoke Thursday afternoon at the Hotel Vermont before the Regional Conference for Northern New England of the American Red Cross, on "Home Hygiene and Nutrition."

DIX-HELLER

The wedding of Allen G. Dix '16 and Miss Sarah Ellen Heller, daughter of Mr. and Mrs. Stewart F. Heller, took place August 1 at Mt. Bethel, Penn. the home of the bride. Mr. Dix is engaged in engineering work with the Singer Sewing Machine Co., at Elizabeth, N. J., where they well reside. Mrs. Dix is a graduate of the East Stradsburg, Penn., Normal School and until her marriage taught in the public schools of Easton, Penn.

Life experiment groups are well under way with three already organized at Converse Hall. These will be conducted as discussions. Some of the topics chosen by the Freshmen are: "Campus Traditions," "Choosing a Life Work." "How Radical Shall We Be." "Fraternities," "Campus Popularity." and "What Are We In College For."

Savage, absent on sick leave and F. W. MacKinnon and D. V. DeLancey, who is doing post-gradute work at Princeton. In the English department is B. B. Wainwright, who comes from the University of Illinois and takes the place of H. C. Wells, who is acting as principal of Black River Academy, Ludlow, Vt. Evelyn R. Metcalf is doing post-graduate work in the department and teaching. Her place was held last year by Dorothy A. Parker. In the College of Agriculture W. B. Silcox, city milk inspector, with degrees from Ontario Agricultural College and Iowa State, will act as part time instructor in the dairy marketing department. From the military department Capt. E. N. Fay has gone to Fort Benning Infantry School, Ga., and Captain Kennon has gone to the 5th Infantry, Fort Williams, Me. Taking their places are First Lieut. John B. Frederick, West Point 1918 who has just returned from the Philippines, and Capt. W. V. Rattan, a graduate of Fort Benning Infantry School in 1925, who has recently returned from a four-year detail in China.

FAVORITES WIN FIRST GAMES OF TOURNAMENT

The intramural tennis tournament, which began Wednesday afternoon, is now in full swing. The drawings were posted Wednesday morning, with Capt. Guild, Prof. Carpenter, Prof. Swift and Dutch" Hoag seeded

The three first round matches were out of the way Thursday and the second round contests will be finished today. Preliminary matches are the best two sets out of three; finals are the best three out of five

Much more interest has been evinced this year in regard to the tournament than ever before, and several good matches will be seen. Among the Freshmen, Shaw and Holmes will bear watching

The draw was as follows: First round, Taylor-Nye, Baldwin-Pingree, Shedd-Blodgett; Second round, Hoag-De Forest, Perry-Wilbur, Phelps-Mower, James-Hyland, Carpenter-Tenney, Goddard-Crump, Pouch-Clapp, Towne-Taylor or Nye, Baldwin or Pingree-Shedd or Blodgett, Swift-Metcalf, Holmes-Wilson, Roy-Yarnall, Shaw-Miller, Jackson-Wedell, Saunders-Hartwell, Guild-Noon.

Results of the matches up to the time the CYNIC went to press are as follows:

Hoag-De Forest match to Hoag, 5-7, 6-1, 6-2; Perry-Wilbur to Perry through default; Phelps-Mower to Mower, 6-4, 6-2; Goddard-Crump to Crump, 4-6, 6-4, 11-9; Taylor-Nye to Nye, 6-0, 7-5; Shedd-Blodgett to Shedd, 6-4, 6-2; Swift-Metcalf to Swift, 6-4, 6-0; Guild-Noon to Guild, 6-0, 6-2.

INTERFRATERNITY BODY ADOPTS CONSTITUTION

A Constitution providing definite penalties for infraction of the rules of the Interfraternity Council was adopted Thursday evening at a meeting of that organization held at the Lambda Iota House. The text of the new Constitution is as follows:

I. This organization shall be known as the Interfraternity Council of the University of Vermont.

II. Its purposes will be:

1. To promote the interests of the said University.

2. To promote the interests of the several fraternities represented therein.

3. To insure cooperation among the several fraternities represented therein.

4. To promote better relations between the administration and the several fraternities represented in this Conference.

III. This Council shall comprise two members from each fraternity represented in the University of Vermont which shall subscribe to this Constitution.

Each fraternity may choose its representatives in any manner which seems fitting, with the proviso that the members shall be one Senior and one Junior (academic, not campus). The Junior member will become the Senior member during his senior year, providing he maintains his academic rating.

The president of the fraternity will notify the president of the Conference when the new member is elected and only these members shall be eligible to serve during the year. In case one or both of the fraternity's representatives should leave college, new men will be appointed by the fraternity.

IV. The officers shall be President, Vice-President, Secretary-Treasurer.

The presidency shall rotate in the following order, beginning with the year 1925-26: Phi Delta Theta, Kappa Sigma, Sigma Nu, Sigma Phi, Delta Psi, Lambda Iota, Alpha Tau Omega, Phi Mu Delta, Zeta Chi, Phi Mu Delta, Sigma Alpha Chi.

The vice-presidency will rotate in the same order, but following one year behind the presidency, and the secretary-treasurership four years behind the presidency.

V. Voting shall be by fraternity and not by individual vote. Each fraternity shall have one vote, and there shall be no voting by proxy.

A quorum shall consist of eight fraternities.

VI. This Constitution may be amended at any time by a vote of two-thirds of the fraternities in the Council

VII. Penalties for infractions of the rushing rules will be administered by the Council sitting as a court, with the offending fraternity as the defendant and the president of the Council as Judge, providing his own fraternity is not the defendant. In such case the vice-president will act as judge. Any penalty will be given only if a majority of the Council are in favor. All evidence shall be presented, and then the decision will be rendered in secret session to preclude the possibilities of friction among the various fraternities

The punishment for any infraction of the rushing rules shall be dismissal from the Conference for the period of one year, and prohibition from all interfraternity contests. These shall include all interfraternity athletic contests and Kake Walk in all of its forms. If a fraternity is suspended it will be published in the Cynic.

VIII. Rushing rules will be formulated from time to time according to the will of two-thirds of the Conference and will be known as by-laws.

IX. Any new fraternities may be accepted as members of this Conference when they have been organized for three years and have had a formal petition for membership before the Council for at least one year. A majority vote will be necessary for admission.

X. In the event of any local fraternity which is a member of this Council becoming affiliated with a national, said fraternity will still be a member of this Council but will be a member under the name of the National Fraternity with which it shall have affiliated.

GALLI CURCI

Who Will Sing In the Gym, October 14

It was voted to give out rushing dates Wednesday afternoon, October 21, instead of the Monday preceding, to save the fraternities the necessity of holding special meetings.

It was also decided that after a week from Monday night any campus sophomore who had returned after dropping out of college at Vermont for any reason, if unpledged or if his pledge had expired may be rushed or pledged by any fraternity at any time or place.

Wednesday evening a comparatively small number of Freshmen took advantage of the first Open House night this fall to visit the fraternity houses and become acquainted.

CHAPMAN SCORES FIRST TOUCHDOWN

Conway Makes It 7-0 Against Clarkson in Curtain-Raiser By Kicking Goal

VERMONT OUTPLAYS RIVALS IN ALL WAYS

Diamond, Field and Track

The prognosticator who attempts to prophesy a week or a day, or even an hour before an athletic contest what the outcome will be, has little regard for his reputation. Occasionally a sportswriter appears to forecast results quite accurately, and once in a while one of the big boys boasts of his percentage of correct guesses. In such cases, it is quite often found that the writer followed the example of the professor of a debatable subject [illegible] has done that "all evidence would indicate that such and such results will follow, but on the other hand.....

—V—

All of which is preliminary to calling attention to the fact that the [illegible] outplayed Clarkson last Saturday in every department [illegible] observers had supposed [illegible]

[illegible] Green Mountain Boys [illegible] substantial gains then [illegible] to a [illegible] of exactly 0

—V—

[illegible] which last Saturday played Hobart [illegible] Syracuse is more or less a [illegible] information has [illegible] four veterans, and not over [illegible] veteran material this year, there are clouds [illegible]

[illegible] Bayley guards, and Hanson, [illegible] Clarke and Carr, guards and Archoska and [illegible]

[illegible] Meehan is now member of the N. Y. U. squad, and [illegible] is replacing him as head coach.

—V—

[illegible] Vermont nearly 40 years, with some extended intervals of [illegible] defeat upon the Fox Green warriors. It may take 40 [illegible] and it isn't the Vermont spirit to [illegible] the possibility of defeat.

[illegible] a steady, powerful line, almost identical with that [illegible] eleven. Of the ten letter men numbered in the [illegible] are linesmen. Coach Jess Hawley's worries are centered [illegible] backfield, which must be built up almost entirely anew.

[illegible] of the strength of the Hanover team may be judged from [illegible] 39 to 0 defeat it pinned onto the Cadets in the curtain-raiser.

—V—

Hook Cross took Manhattan into camp to the tune of 41 to 0, Kittredge, Forjoe and Sullivan, making three touchdowns to cap runs of 25 and 55 yards.

—V—

While football is holding the center of the stage, the Green and Gold harriers are reporting daily for Strolls amid the beauties of Nature in the [illegible] hills in preparation for whatever Fortune, and the schedule-[illegible] may bring forth. Middlebury, mentioned as a possible opponent this fall, has five veterans covering the six-mile course daily, besides [illegible] who are scoring places on the team. The Middlebury schedule [illegible] with Harvard October 9, followed by Williams the 24th and R. P. I. at Middlebury the 31st. Negotiations for a meet here the morning of the Middlebury-Vermont game, November 14, are under way.

V

The intramural tournament which commenced Wednesday may show some material available for the tennis squad, which is scheduled to meet the Ethan Allen Club this fall.

BASEBALL MEN GETTING GOOD FALL PRACTICE

The baseball squad is steadily in [illegible] in tumblers. "Headey" Ran[illegible] who started at second for St. Michael's last season, looks good at [illegible] base and Prentiss, last year's [illegible] letter man, seems to be showing up well at first base. "Mickey" Rourke, [illegible] George Talcott and [illegible] Foley are lumbering up their arms but no new stalwarts have put in an appearance.

In a few weeks some new material may be uncovered among the Freshmen, but, as yet, the new candidates have not had sufficient time to show their quality.

The passing game was notably weak on Saturday and it is such features that [illegible] in contending with the far heavier teams on the schedule.

BASKETBALL FOUL RULE IS RADICALLY CHANGED

When the time comes for the basketball candidates to report for practice in the hangar gym, they will be acquainted with a radical change in the foul rules which the basketball moguls passed during the past spring.

It will no longer be the custom for the man fouled to shoot his own foul. Instead the man who committed the foul will be called upon to shoot the foul.

If he misses the basket, the opposing side will gain the extra point. If he makes the shot, neither side will score. It is hoped in this way to decrease the number of personal fouls in a game and also to improve the caliber of foul shooting.—*M. I. T. Tech.*

DENNING AND FOGG, LEMAY AND SMITH

An Effort Will Be Made to Get These Men Out to Help Strengthen Line

A meeting of all sport manag[illegible] assistants and scrubs was held at H[illegible] Mayforth's office Wednesday even[illegible] to discuss the athletic situation at the college.

The meeting opened with the dis[illegible] sion of finances. A contract [illegible] authorized for a three-concert se[illegible] of entertainments from the W[illegible] Entertainment Bureau, the first to [illegible] "New York Artists" an October [illegible] the second, "Swanee River Quart[illegible] on November 2, and the third a[illegible] final, "Cotter's Saturday Night," bas[illegible] on the poem and presented by a c[illegible] pany of talented Scotch comedia[illegible] singers. The proceeds from the three concerts will go towards reducing the principal on one of the Athletic Association's notes. All the men were given tickets and several novel sales plans introduced, including the selling percentage plan. A new one, sure to be popular with the Sophomores, was to make each Freshman, who has been listed for a violation of the Frosh rules, sell a certain number of tickets.

The second part of the meeting was taken up in the discussion of Varsity football material. What material is available as good, but there is an unfortunate lack of substitutes and veteran material that could be used in a big game.

The names of several were brought up, and it was decided that "Speed" Denning, "Al" Lemay and "Red" Smith, medics, all linesmen, should be gotten out if possible. After talking with the medical faculty, it was found to be entirely possible for these three men to come out and every attempt will be made to see them in uniform.

"Noisy" Fogg is another man the coaches and managers are anxious to get out. Fogg would be the biggest man on the squad and would bolster up the light backfield. He was the best back in the State in the days when he played half at Burlington High, and the coaches say they need him.

PROSPECTS FOR TRACK LOOK UNUSUALLY GOOD

Fall Practice Gives Line on Men —Track to Be Put in Good Shape

[illegible] twenty men responded to the [illegible] track squad and are getting [illegible] workouts on Centennial Field [illegible] cross-country course. It is [illegible]'s idea to use the fall season [illegible] sampling the strength of his [illegible] and getting them into condition.

[illegible] are bright for one of the [illegible] in Vermont's track history. [illegible] Green and Gold will give all [illegible] some real contention at the [illegible] Intercollegiates. Plans are [illegible] completed for a cross-country [illegible] Middlebury on the morning [illegible] dual football game here, and [illegible] meets may be arranged, including [illegible] interclass contest.

[illegible] Rowe, "Art" Tudhope, and [illegible] Suitor are veterans on the distance [illegible] and from a squad of a dozen [illegible] Martinetti, Collins and E. [illegible] are developing notably.

The quarter-mile track at Centennial [illegible] has been accurately measured [illegible] summer, and will be given a first-class [illegible] hauling early in the spring, providing a clay bottom and new cinder surface. The straightaway will also be improved, and the triangular meet that is brought to Burlington next spring.

General workouts are being given all the men on the track, and there is some practice in field events, especially the jumps.

Captain Simpson and Manager Herlihy are to be congratulated on having such material from which to build.

Coach McAvoy Given Enthusiastic Welcome

When rural service lines bring electricity to the farmer's door, many of his labor troubles are at an end. Motors, large and small, will do the many chores of farm and farm house for a few cents per day.

The Farm Electrical

Of the six and a half million farm homes in this country, only half a million have electricity.

Still, the advantages of electricity are widely known. But there is more to farm electrification than the installation of motors, lights and heaters. Current must be brought to the farm, and that means many miles of transmission line, supporting poles, transformers, and adequate generating equipment.

Slowly but surely the electrification of American farms is taking place. As farmers learn how to use electricity, rural service lines reach out farther and farther into open country.

Six million farms to be electrified! Here is a vast and virgin field for the application of electricity, with countless opportunities for college-trained men in the technical and commercial phases of this undertaking. And for the agricultural college student and others planning a future life in rural sections, it means a better, bigger, happier life-time now in the making.

Since its inception the General Electric Company has pioneered in the various fields of applied electricity. Today G-E engineers are co-operating with various State agricultural committees in the study of farm and rural electrification. These committees include members of the agricultural college faculties.

A new series of G-E advertisements showing what electricity is doing in many fields will be sent on request. Ask for Booklet GEK-1.

No other typewriter has all these features

STUDY the diagram above. *No typewriter, large or small, at any price,* has all of the refinements of the new Corona Four with standard office keyboard.

Come in and see it. Notice its simple, sturdy construction—its many conveniences.

Touch a key lightly—feel the swift, easy action—the superlatively light touch.

Now feed a sheet of paper into the carriage and write. See what beautiful work it does and how *quietly* it operates.

Then try a hard test—12 carbons at once. Look at the *last* carbon—clear and black. Do you know any typewriter that will beat it?

It's an office typewriter—and a portable typewriter. You will want one for personal use—you will want one or more in your office. Phone your reservation now—our supply is extremely limited.

The Vermont Cynic

14 BURLINGTON, VT., OCTOBER 10, 1925 NUMBER 3

HOLDING YOUR TONGUE WILL BE PROFITABLE

Fraternities Having 20 Outgoing Phone Calls a Day Will Pay $23.50 a Month

[illegible] rates for fraternity [illegible] to be changed from the [illegible] business to public classifica- [illegible] ording to H. W. Buzzell, man- [illegible] the local exchange. The new [illegible] to have gone into effect [illegible] 1 but as all the houses have [illegible] notified they will not go into [illegible] next month. Dissatisfac- [illegible] the new rates is general and [illegible] talk about protesting against [illegible] of the telephone company. [illegible] ternities will be given a [illegible] between coin box or metered [illegible] The first costs five cents for [illegible] al call, and is in reality a pay [illegible] Measured service is given [illegible] a one-party line only, and the [illegible] as follows:

[illegible] to include 65 calls.
[illegible] each for next 135 calls.
[illegible] each for next 100 calls.
[illegible] each for all other calls.

The rate for a two-party line in a [illegible]nity house was $3.50 until the [illegible] of October.

Business telephones can be installed [illegible] private room, to be used only for [illegible]rnity business and by the house [illegible]ther, but not by members and out- [illegible]s making unofficial calls. The [illegible] management claims that a tele- [illegible]phone in a fraternity house is pub- [illegible] At other college centers they are [illegible]talled, as are telephones in club [illegible]ms and in college dormitories, ac- [illegible]rding to Manager Buzzell.

PRIZE ENTRANCE EXAMS IN LATIN AND MATH

Under the terms of the will of Han- [illegible] M Howard, first prizes of twenty [illegible]llars each are awarded to the mem- [illegible]bers of the entering class who receive the highest grades in Latin and Ma- [illegible]thematics entrance examinations re- [illegible]spectively.

The Latin examination was given [illegible] Wednesday and Thursday after- [illegible]noons, October 7 and 8, in Room 31, [illegible] South College.

The Mathematics examination will [illegible] be given on Saturday afternoon, Oc- [illegible]tober 17 from 2 to 5. The questions [illegible] will cover the topics specified in the [illegible]current catalogue, pages 102 and 103, [illegible]paragraphs 12 and 14, in Algebra and [illegible]Plane Geometry. Information may be [illegible]obtained from any member of the math- [illegible]ematics department.

[illegible]Pictures of the entire student body [illegible]and the Freshman class were taken [illegible] Saturday in front of the Library [illegible] are now on sale. Pictures of the [illegible]remaining classes will be taken within [illegible] weeks.

[illegible]The annual day set aside by the Uni- [illegible]versity Senate, as Mountain Day, will [illegible]be observed today, when as many of [illegible]the student body as care to go are [illegible] given opportunity to climb to the top [illegible]of Mount Mansfield. "Vermont's [illegible]own campus." Mountain Day has [illegible]been observed at the University for [illegible]many years. The trucks leave [illegible] at 6:30 A. M. and the party will go directly to Underhill where the real climb begins. The remainder of the trip up and down the mountain is on foot. The Mount Mansfield House will be open for the occa- [illegible]sion and the party should return at about [illegible]afternoon.

Dartmouth Has Prepared Thoroughly For Battle With Green and Gold

Team In First-Class Condition After Hobart Game; Seconds Gave Varsity a Taste of Vermont's Style of Play

After turning back Hobart college Saturday 34-0 the Dartmouth football team is now preparing for this week's contest with Vermont. All of the regulars and second string men are in good condition and suffered no injuries from the Hobart encounter.

The Hobart game was a turning point in the progress of the Green. The backfield situation, which was quite unsettled, has now cleared up. Lane, a sophomore, clearly earned his way to a regular position on the first team as Oberlander's running mate by virtue of his many long runs last Saturday. The position is well fortified, however, as McAvoy and Robinson, the leading contenders for the position, are also triple-threat men.

Hobart presented an attack of fast and tricky plays which completely rejuvenated the Dartmouth forwards. The line has been given less attention than the backfield because of the large number of letter men who have returned to play. Davis, at center, is the only one who is not a letter man and he played regular during the early part of the 1924 season.

The quarterback problem has also been cleared up by the improved work of McPhail, captain of last year's freshmen. The loss of Dooley and then of his substitute, Fallon, who started against Harvard last year, gave great consternation to the coaches. After several shifts had been tried, McPhail moved up from fullback and has done well as a regular. Horton, who earned his letter in the Cornell game last year, is the regular fullback.

Coach Hawley, on account of a wet gridiron, drilled his men on Vermont plays the first of the week and has since then put them through the stiffest workout this fall. The first team has been running through dummy scrimmages against an eleven which has been drilled in Vermont plays.

The Green and Gold will start practically the same team as has been previously used in the Clarkson and Syracuse games. No serious injuries were sustained in last week's game with Syracuse and the team appears to be in the best of condition.

The Vermont line will be greatly strengthened when it goes against the "Big Green" by the appearance of "Doc" Daugherty in his old berth at guard. "Doc" has been contending with an injured back and shoulder since the beginning of the season, but is now in condition and pining for the Indian's scalp.

SPRINGFIELD ELEVEN THE NEXT OPPONENT

Red and White Appears to Have One of Strongest Teams in Recent Years

Next Saturday the Green and Gold eleven will line up against Springfield College at Pratt Field in Springfield in what should be one of the most exciting games of the season.

Those who witnessed last year's battle, in which the Red and White triumphed by a solitary touchdown are looking forward to the coming struggle, and undoubtedly a large group of rooters will follow the McAvoy-coached men to Massachusetts.

Springfield boasts a veteran team well coached in the overhead game particularly, and capable of offering stiff opposition to any college eleven on its schedule. Coach Rothacker trotted out a powerful eleven against Cooper Union in the Red and White's first home game, and the character of their play opened the eyes of the Springfield supporters. They ran rings around the New Yorkers, emerging victorious by a 30-0 score.

The Springfield *Republican* states that no Springfield eleven in recent years has appeared so impressive in an opening contest. Even after the second team had been substituted in the middle of the second quarter, the scoring was unabated. In "Tex" Maddox, the down country eleven has uncovered an apparent star, his play at half back in the Cooper Union game being of a scintillating character. His field goal from the 30-yard line was a feature.

"Bob" Berry at quarterback is a field general of experience, cool under fire, and an excellent ball carrier. Mahnken at fullback is of the rugged, plunging type, and is a fine defensive man. Crawley, at left end, and Capt. Elliot at center are also two men to be watched closely at all stages.

Vermont, with a light, but fast and game eleven, will give the Rothachermen the battle of their lives. Coaches McAvoy and Dresser have, even this early in the season, worked wonders handicapped as they were by lack of material, injuries and the like, and the team's showing in Syracuse was of the highest caliber.

CAPTAIN FAY ENJOYED HIS STAY AT VERMONT

The following letter from Captain E. N. Fay, last year attached to the military staff here, was read at the mass meeting in the gymnasium recently:

"I desire to express to the student body of the University of Vermont my deep appreciation for the Loving Cup presented me at the Memorial Day exercises.

"During my four years of most pleasant service at the University of Vermont I have made many friends and my memories of Vermont will be most happy.

"I know of nothing during my service in the Army that has given me more pleasure than your token of appreciation.

"Upon leaving the University of Vermont I desire to convey to the student body best wishes for their future success and happiness."

BURRITT SCHOLARSHIP FOR WOMEN AVAILABLE

Miss Sarah L. Burditt of this city has bequeathed to the University of Vermont the sum of twenty-five thousand dollars, income of which is to be used in paying the tuition, all or in part, of a deserving young woman student.

This fund is to be used and known as the Burditt Scholarship and is available for use this year.

About one hundred students turned out to meet the team Sunday afternoon on its return from Syracuse. There was cheering and singing under the direction of "Mose" Moore. The Sunday afternoon turn out, the largest in recent years for a returning team, shows the appreciation which the college holds for the efforts of its athletes, even though they lose.

SCHEDULE FOR SENIOR DEBATES FIRST HALF

The schedule for senior debates has been arranged and posted as follows:

October 16: Abbott, Atwood, Bartlett; Allen, Beach, Blodgett.

October 30: Butterfield, Bradley, Bosworth; Conlin, Cox, Cormia.

November 6: Dauchy, Dougherty, A. M. Guild; Gannon, Gates, Jaynes.

November 13: Heath, Harms, Farrington; Herron, F. W. Guild, Goodrich.

November 20: Katz, Kinsler, Lamb; Lillie, Lamson, G. A. Mason.

December 4: Mower, Moreton, J. A. Mason; O'Connell, Newton, Norton.

December 11: Ottley, Platt, Rowe; Rider, Russell, Strong.

December 18: Wilson, Kimball, Chapman; Withrow, Tarpey, Ward.

January 8: Wilbur, Wells; Yarnall, Wyman.

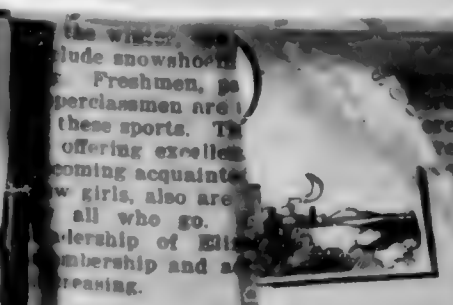
A large number of students paraded to the station Friday evening to give the team a send-off for their game with Syracuse. "Mose" Moore and his assistants led the cheering. Music at the Key and Serpent dance was suspended while the dancers took part in the parade.

The work of the 1927 *Ariel* Board, under the leadership of Philip B. Daniels, is well under way, and the evidence points to an early publication of the yearbook. Mr. Sands, the White photographer, has left for New Hampshire State College, having completed practically all of the individual pictures and also a group picture of the football squad. Rough drafts of the drawings for the opening section have already arrived from the Bureau of Engraving. Several illustrations have been received from the parents of Leland J. Cahoon, which he had completed before his death in September. Cahoon was to have had charge of the art work.

DEANS' OFFICE HOURS

The deans of the various colleges will observe the following office hours during the present year:

College of Arts and Sciences: Acting Dean Swift, Old Mill; Monday, Wednesday, Friday, 11-12; Tuesday, Thursday, 2:30-4:30.



College of Engineering: Dean Votey, 489 Main St., 1:30-3:00.

College of Agriculture: Dean Hills, Morrill Hall, 9:00-1:00, and 2:00-6:00.

Dean of Women: Miss Patterson, 9-12, except Saturday.

In order to clear up certain misunderstandings which may have arisen, the University Council has authorized the publication of the following extract from the records of its meeting of June 30, 1925: "The question being raised as to the use of tissue paper decorations in the gymnasium at the time of dances and other festivities being held there, on motion it was voted to advise the head janitor to see to it that, effective at once, and hereafter, no tissue paper or other inflammable decorations be allowed in connection with the usage of the Gymnasium, whether by students or other organizations."

[illegible] the winter. [illegible] clude snowshoeing [illegible] Freshmen, [illegible] perclassmen are [illegible] these sports. [illegible] offering excellent [illegible] coming acquaintance [illegible] w girls, also are [illegible] all who go. [illegible] dership of Elizabeth [illegible] mbership and a [illegible] reasing.

[illegible] Simpson at end, and Corasoli and the Scutaker brothers in the backfield are likely prospects.

Columbia is treated elsewhere in this issue and as to forecasts on the game there are none worth considering. Our line will hold or it will not. The backfield is good and Coach McAvoy is using some sound plays, practically all from unbalanced formation. The lack

A FEW QUESTIONS

To the Women's Editor of the CYNIC:

Attitude! How do we look at college? At everyday contacts? At "chapel?" What is our attitude towards others, and towards our own future? Do we care? Are we going to make something of ourselves in the end? Why are we at college? Why are we doing today all these little things? Do they mean something? Are they going to help?

Most certainly. Everything we do at college helps or should help towards the end for which we are working. We must put our whole selves into our work. Each little deed should not be meaningless. Just a little cheery "hello" to an unknown freshman will help us to broaden that inner feeling of narrowness. Be cheerful—happy—give a hearty welcome to the world. Put our whole effort to our task, and it will seem lighter than when we did it half-heartedly.

We must not look at life as an unsolvable problem. It is a problem to be sure—but it can be solved—by looking it straight in the face and not flinching. We must not turn aside from those problems, but tackle them with the idea that we are going to win out. Then the world will seem so much more worth while. The sun will shine just a little brighter, and we will all feel just a little happier than before.

Let us start today. Keep up with ourselves. Swallow that little "can't." Let us say "I can," and we will win.

'27.

CLOCK GOLF LATEST ATTRACTION OF W. A. A.

W. A. A. is promoting a new attration namely clock golf. This game has been very popular in other colleges and it is sincerely hoped that this form of golf will lead to the real thing before many years. Elizabeth Johnson '27 who has had considerable experience in the game will serve as instructor.

The first two-week course in horseback riding ends this week. Another course begins next Monday. Those who have had the advantage of the course know the rates are very low and there is expert instruction.

Fall Field Day is planned for October 31. Constance Weaver, chairman of the committee, and all W. A. A. are uniting their efforts to make this the biggest year in the history of the University.

As there has been some misunderstanding among the girls about the keeping of points received, a point-system day was held Thursday in the office of the gymnasium. As a result every girl knew just how many points she was entitled to.

Tennis for points for correct strokes in tennis are being held this week and next.

The preliminaries for the inter-dormitory tennis championship have been played off this week. The finals will take place on Fall Field Day, October 31.

W. A. A. was responsible for the correct costumes worn on the Mt. Mansfield trip, thus preventing the numerous ailments that usually arise.

Last Saturday an organized hike to Red Rocks was held, a large number of girls taking advantage of the opportunity.

MORTAR BOARD DANCE COMING OCTOBER 16

The first Mortar Board dance of the season will be held in the gym on October 16.

Mortar Board dances have always been campus favorites and this one promises a good crowd and good time as usual. Programs and tickets can be obtained from members of Mortar Board.

The Green and Gold orchestra will play for the dancers, and there will be light refreshments.

MORTAR BOARD NOTES

The postponed Mortar Board picnic materialized Thursday, October 8, in the form of a party held at the gymnasium. The program was carried out with great success, and consisted of stunts put on by the various classes, games and dancing in which all indulged. Refreshments were served.

The Social Calendar lists the autumn dance given by Mortar Board for Friday, October 16.

The Catty Co-ed

Says

Blank ———
Blank — blank
How does my
Blank
Poetry strike you?
But
I'm just
Practicing now.
I have
A good supply
Of them.
They're always
And all ways
Runnin'
Thru my mind.

* * *

Now ———
That's using
My own claws
On my own self
And that's not
What
I'm paid for.

* * *

Look out!
Don't pat
The kitties
They scratch!

* * *

A group
Of large
Stewed ants
Are ———
This momentous
Mountainous
Day ———
Scrambling o'er
Sir Mansfield's
Respected visage.
Of all
The nose!
And cheek!!
And high brow!!!
If the old
Fellow
Isn't blind
He'll get
An eye full.

* * *

Yes
I have climbed
The mountain
But ———
I didn't
Loiter
On the way
Nor
Hesitate
On the
No's.

* * *

Ain't it
Orful!
To study!
But ———
One night
Not long
A — go.
When
Walking without
Art or care,
Voices
Called
To hope! To hope!
And now ———
Let's laugh
And be
Merry for
He laughs best
Who laughs
Last!

WOMEN'S HANDBOOK IS ISSUED FOR FRESHMEN

This fall saw the revival of an old institution, when the Woman's Handbook made its appearance on the campus.

Coming out on the first day of college, it served as a welcome to the entering class of 1929, to whom it is officially dedicated.

It comprises within its pages some of the major traditions, customs, etc., of the University. It also represents the handbooks of all the women's organizations, as well as the very important Point System.

Much credit is due the Y. W. C. A. which sponsored the movement, and to those girls whose untiring effort accomplished its early and timely appearance.

DRAMATIC CLUB MAKES PLANS FOR YEAR'S WORK

As yet [illegible] has been done in regard to the Dramatic Club although some plans have been formulated.

On Tuesday September 29 the Dramatic Club committee met and drew up a few plans. It proposed that Dramatic Club members should meet regularly and at these meetings definite programs should be carried out. It was also planned to have as usual, the annual class plays for the purpose of selecting new members.

Other suggestions were made which will be discussed and voted on at the first meeting of the club which is to be held the evening of October 22 at 7.30 at either Redstone or Grassmount. Futher notice will be given in regard to the place of meeting.

LITTLE SISTER PERIOD IS EXTENDED BY WOMEN

It is the earnest desire of all upperclass men and sophomores to aid and encourage the entering class, especially during their period of adjustment.

In order that the freshman girls may feel they are truly welcome, and that the other classes are more than glad to have them here, it has been decided to extend the time of the so-called "Little Sister Movement."

It is hoped that this will promote a genuine spirit of friendliness and good fellowship on the campus, and result in general happiness to all.

Y. W. C. A. NOTES

Wednesday night a meeting was held for the purpose of acquainting freshmen with the "Y. W." A cabinet meeting, at which the relation of freshmen to Y. W. C. A. was discussed, was the means of disseminating the desired information.

The membership drive is well under way, and will continue until a week from today.

Discussion groups have been started this week, with much the same plan as last year. Student problems are bases for this year's discussions.

The cabinet meeting was held at 6 o'clock Wednesday morning. Attendance was 100 per cent, and no conflicting dates have been reported.

MASQUE AND SANDAL WILL INITIATE TWO

At the meeting held Thursday, October 1, it was voted to initiate Isabelle Galli and Dorothea Baker.

A combined meeting with Wig and Buskin was held recently.

Plays for the fall production have been written for, and as soon as they arrive and a discussion has been held, the choice and further announcements will be made in the CYNIC.

GLEE CLUB TRYOUTS HELD

Tryouts were held Wednesday evening, September 30, for the Women's Glee Club. More than fifty girls were present. Names of members will appear in an early issue.

MISS HOLBROOK'S CLASS IN RURAL LEADERSHIP

Since a large percentage of the women who graduate from this University enter the teaching profession, and since a majority of this number teach, at least for a year, in comparatively small communities, a course in rural leadership has been planned for this fall and early winter.

Miss Holbrook, who is peculiarly adapted to giving such a course, has been secured as leader. She will present not only theory, but also practical suggestions which she has acquired through experience.

The class will meet Tuesday nights from 7 to 8, beginning October 20.

Number 61 of a Series

The Vermont Cynic

Campus Comment

To the Editor of the CYNIC:

The support which the football team has had so far this year has been terrible. There are many in college who did not see the Clarkson game; some have not seen a practice, and there are some, maybe, who care less. That team did not have the fight, but it wasn't their fault. It was the fault of the student body. The cheering was rotten. Now for something constructive, instead of crabbing.

Vermont is a Man's College, and from the standpoint of the co-eds, too, because they do not want weaklings either. For a pep meeting before a game, leave your girls somewhere else or your purpose will get mixed.

At the game, have a cheering section for men, and you'll have some cheering—every man in it.

Have a cheer rally one or two afternoons a week at the field. Remember (if you learned the song) "Vermont, We're Loyal to You, Whether We Win or Lose."

ALUM.

HIGH SCHOOL EDITORS' CONFERENCE OCTOBER 31

The annual conference of editors of high school papers of Vermont will be held in the chapel on Saturday, October 31. It is expected that each high school will send the editor, the business manager, and a teacher of English.

The conference will open with an address of welcome from President Bailey. It is also expected that Walter Crockett and Professor Tupper will speak, after which an editor and a manager, to be selected, will start a discussion on their respective problems.

The University will entertain the delegates at luncheon, and, in the short afternoon session, a talk will be given on relations between the English teacher and the paper

The school of experience stays open all night

An optomist is a cross-eyed man who is thankful he isn't bowlegged

Faculty Notes

Professors Douglas and Wallace are now attending an Educational Meeting at Hotel Alpine, North Woodstock, New Hampshire, at which college teachers of Education and State School Superintendents will be present.

President Bailey has been appointed to a committee of citizens in connection with the new City Hall project.

Professor Evan Thomas addressed the Brotherhood of the First Congregational Church last Sunday.

Dr. Beecher has just returned from a two weeks hunting trip in the Canadian woods.

Professor and Mrs. Robinson have been making a stay in Maine, after which they will make a tour, visiting Engineering Colleges, and go to Europe about the middle of the year.

Professor Jenks is making preparations to attend an Educational Meeting in Indianapolis.

After visiting Scotland, Professor Groat is attending a labor meeting in Liverpool.

Raymond Lyon '27 is acting as assistant instructor in Zoology II.

DOWN WITH TYRANNY!

President Coolidge, since assuming his high office, has done a number of things to gladden the hearts of the American people in general and of regular Republicans in particular, but he never pleased us more than he did last Saturday afternoon, when, according to an Associated Press dispatch, he strolled down Pennsylvania Avenue wearing a straw hat.

That act of the President's was a new if mute declaration of independence. For, mind you, it was September 19 and four full days since the male adult population of the land of the free and the home of the brave had discarded the good old comfortable thatched roof of Summer, in blind obedience to a tyrannical decree of the Mad Hatters' Protective and Benevolent Association of America, and had been sweltering in the annual early September heat wave under their felt Fedoras and depressing derbies.

The presidential persistence in sporting a straw hat may have been another instance of Coolidge economy but we prefer to think that the Chief Executive wished to set an example of freedom from the foolish dictates of commerce-ridden fashion to the entire country.

It was just about time that someone should arise in this great Republic of ours and show sufficient courage to wear whatever kind of hat he pleased at any time commensurate with his own notions of personal comfort.

The fact that that someone, of all people, should have been the President of the United States, has set us thinking seriously about the possibilities of a third term for Calvin Coolidge.

MAIDS SECURE HUSBANDS EASIER THAN WIDOWS

The old belief that the canny widow was more sure of securing a man than the inexperienced maid has been blasted by cold statistics collected by the census bureau and supplemented by insurance companies.

These show that there are more widows than widowers in this country, that more widowers than widows remarry, and that when widowers remarried in most cases they take maids instead of widows as mates, according to a tabulation prepared by the Prudential Insurance Company.

The next Inter-fraternity Council meeting will be held Tuesday, October 13, at the Delta Psi House. In connection with other business, the rushing rules will be discussed. The officers of the Council are: R. S. Gates '26, president; S. Burton Heath '26, vice-president; P. B. Daniels '27, secretary and treasurer.

The tryouts for the first play of the year will be held in the gym the coming week. If sufficient material turns out, Wig and Buskin will depart from its usual plan and put on two plays, with a different cast for each. The plays will be coached by Mrs. C. Ives Taggart, who has coached several other plays for the club. Those who obtain parts in the plays will be eligible to election to Wig and Buskin or Masque and Sandal.

Tryouts for the University orchestra held at the Music House Wednesday afternoon brought out some good talent, but more is needed. Wood wind and more stringed instruments are the greatest need. Another tryout period will be held at the same place Monday afternoon between 4 and 5.30. Both men and women students are wanted, and young faculty members will also be welcomed into the organization.

Phi Mu Delta announces the pledging of W. F. Regan '28 of Pittsfield, Mass.

The following Sophomores have been elected by their respective fraternities to represent them on the Gold Key Society: Robert Heaton, Sigma Phi and George Perry, Zeta Chi.

Zeta Chi announces the pledging of George H. Sloan '27 of East Fairfield, Axel G. Sjostrom '28 of Rutland and Bernard M. Lawler '27 of Bellows Falls.

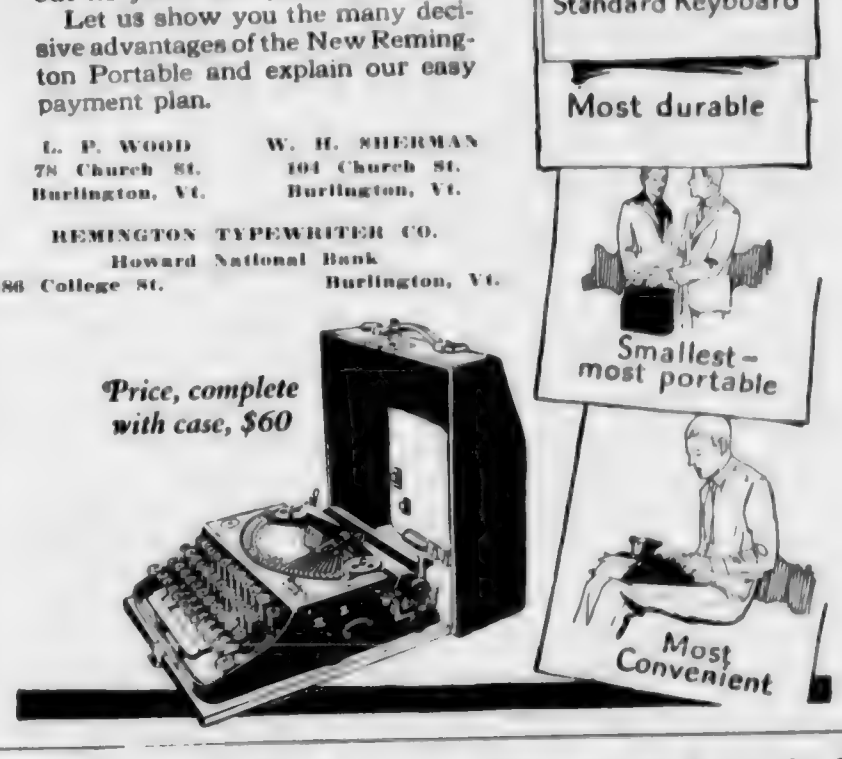
Always buy Remington Portable



IT is the outstanding choice of students everywhere, because it is the lightest, smallest, and most compact of all standard keyboard portable machines. It fits in a case only four inches high. You can carry it anywhere and use it anywhere—and when not in use, you can tuck it away in a desk drawer or bookcase. You'll find it a great time-saver throughout its years and years of service.

Let us show you the many decisive advantages of the New Remington Portable and explain our easy payment plan.

6-4, 6-2.

Diamond, Field and Track

GODDARD DIDN'T COME SO FROSH SCRIMMAGED

The failure of the Goddard eleven to appear for the scheduled contest on Saturday was a disappointment to fans who wished to see how the Freshman aggregation would stack up in a game, but the scrimmage between the two teams picked from the squad did not prove sensational. It does, and proved that the club which bears away the scalp of '29 will know it has been playing football. The yearlings are a husky fighting team, with both weight and speed.

The work of Fred Robbins, former Brattleboro high school star, stood out [illegible] and the Vermont Varsity will have a good halfback to rely on for the coming three years. He handles the ball well, is extremely fast on his feet, and drop-kicks with distance and accuracy. His running mate, Thermo[illegible], does not have Robbins' speed ability, and the defensive work of Gardner at fullback was [illegible] phenomenal at times. Foster vies for honors at the same position.

[illegible] at quarterback is a brainy [illegible] with a lot of fight. In the line Kropper at tackle, Palmer at [illegible] Morton at center are all showing plenty of stuff, and are going to [illegible] big holes in any opposition

RAIN INTERFERES WITH TENNIS TOURNAMENT

Rainy weather over the week-end caused the postponement of the proposed schedule for the tennis tournament, but all except two of the second round matches were played off by Wednesday. In this round, since last week, James won from Hyland 6-4, 6-4; Prof. Carpenter from Tenney 6-1, 6-1; Baldwin from Pingree 6-2, 6-4; H. F. Wilson from Holmes 6-4, 6-1; Yarnall from Roy 6-2, 6-2; Shaw from Howe 6-2, 6-3; Wedell from Jackson by default. In the third round, Prof. Carpenter took two straight sets from Crump 6-0, 6-2.

Two other matches were also played off in the third round: Hoag won from Perry 6-1, 6-3; and Wilson from Yarnall 6-2, 6-0.

In the upper half Hoag should easily come through to the semi-finals as should Carpenter. The winner of the Nye-Towne match is apparently the only contender with whom Prof. Carpenter might have difficulty.

In the lower half there seems to be only one chance of a seeded player being eliminated and that is in the winner of the Baldwin-Shedd match defeating Prof. Swift.

SYRACUSE DEFEATS VERMONT BY 26-0

Green and Gold, Outweighed 20 Pounds to Man, Fights Desperately

CARR STARS FOR ORANGE AND MAKES 13 POINTS

The fighting Green and Gold went down to defeat Saturday at Syracuse in their second start of the season to the tune of 26-0. The Vermont team despite the fact that it was many pounds lighter than the Orange, showed a rugged stubborn brand of football, repeatedly checking the Syracuse advances through the forward zone.

The Vermont backs, especially Conway and Thompson, gave a splendid exhibition of carrying the ball against heavy odds and though the invaders came through for only three first downs, they never let up in their attempt to score on the Orange.

Syracuse won the toss and elected to receive. Morse kicking off for Vermont, Clava received the ball on his fifteen yard line, and ran it back to the thirty-yard stripe. On the next play Carr broke through right tackle, and dodging the Vermont tacklers, with splendid interference raced the length of the field for a touchdown.

Carr failed to kick the goal and Syracuse kicked off to Smith, who carried it to his own thirty-yard line. Smith then punted to Cook who carried it to Vermont's forty-yard line where, after attempting to complete a pass which failed, Barbuti dove through the line for five yards. Carr went off right tackle for twenty-five yards for a touchdown, and kicked the goal. The period ended with the ball in Syracuse's possession, the Orange leading 13 to 0.

The second quarter started with a gain of 8 yards by Carr. Barbuti took the ball to the 5-yard line on a smash to right tackle. Clarke gained two yards in the same position and Barbuti dove across for a touchdown. Carr kicking the goal.

Candon intercepted Cook's pass to Jones and Vermont took the ball in mid-field. Thompson hit the line for five yards, and a forward pass, Smith to Thompson, netted a seventeen-yard gain. Conway went through tackle for two yards. Another forward pass was grounded and Conway's try for a field goal from the 30-yard line failed.

Rourke kicked off for Syracuse to Smith, who was downed on his 28-yard line. The Vermont fullback punted, and the quarter ended with the ball on Vermont's 40-yard line. After consistent gains Roberts tore around right tackle for 11 yards and a touchdown. Rourke missed the goal, the ball striking the cross bar. Chapman replaced Morse. Vermont made first down after Conway's line plunges and a forward pass, Smith to Thompson, on Syracuse's 48-yard line. Davies replaced Chapman.

Smith's pass was grounded. Conway tore through tackle and Vermont fumbled, Syracuse regaining the ball on her own 40-yard stripe. Laubach replaced Candon, O'Connell went in for Denning, Cerasoli replaced Conway. Roberts made three yards around right end. A forward pass Roberts to Rourke, netted ten yards, as the game ended.

T. C. A. AND FRESHMEN PLAY AT CENTENNIAL

This afternoon at Centennial Field the Freshman eleven meet the strong T. C. A. aggregation. Last Saturday the Troy team held New Britain Conn. H. S. to a 6-6 tie. The Connecticut School is supposed to have the best high school team in New England, so the frosh will have a good battle. Last year T. C. A. played the yearlings to a scoreless tie and this year it has practically the same team but Coach Householder has successfully reconstructed the left side of his line with Williamson back at the tackle berth and the Frosh should come up to pre-season expectation-

FROSH TIE SECONDS 7-7 IN A SCRIMMAGE

[illegible] lined his fast [illegible] against the varsity [illegible] Centennial Field Tues[illegible] that they battled to a [illegible] Freshmen looked good [illegible] lacked in science they [illegible] fairly bowling the [illegible] over. The Frosh kicked [illegible] holding the seconds for [illegible] ball and pounded down [illegible] 7-yard line where a [illegible] the seconds the ball. The [illegible] mediately kicked out of [illegible] The Frosh started another [illegible] offensive with the seconds [illegible] doggedly every step of the [illegible] finally the Frosh were forced [illegible] and a long exchange of [illegible] followed with the ball always in [illegible] this danger territory until one [illegible] yearling halfs muffed a punt [illegible] seconds recovered. A pass, [illegible] to Denning, brought the ball [illegible] to the Frosh 7-yard line. A [illegible] brought the ball to the 1-foot [illegible] where the Frosh stubbornly held [illegible] downs only to have Winchen[illegible] crash through for a touchdown [illegible] him down. Buttles kicked the [illegible]

The seconds then took the ball on [illegible] 20-yard line and battled down the [illegible] to the opposite 20-yard line where [illegible] Frosh recovered a fumble and fight[illegible] like mad pushed across a touch[illegible] Robbins kicked the goal that [illegible] the score.

MONTH'S DAIRY COURSE TO START OCTOBER 27

The University of Vermont and State Agricultural College announces two winter short courses in dairying, from October 27 to November 25, as follows.

Course one. Testing milk and its products, herd management and cow test supervision, Tuesday, October 27, to Wednesday, November 25.

Course two. Testing in dairy plants Tuesday, October 27, to Wednesday, November 11.

Operators' and managers' conferences and courses in ice cream making, cheese making, etc., will be announced later.

These courses offer an opportunity to men and women unable to spend a longer time in school to become better acquainted with modern dairy science and practice. As a result, they are enabled to do better work on the farm or in the dairy and are prepared for better and more profitable positions.

The winter courses are business and not academic courses, hence no standard of entrance requirements is insisted upon, except that each student shall possess a good common school education, particularly in arithmetic and English.

RADIO AND WIRELESS FANS ARE GETTING BUSY

People interested in radio on the Hill will not find it lagging this year. The Shack has been the scene of considerable activity ever since college opened, and the apparatus of both stations thoroughly overhauled.

The controls of WCAX have also been arranged for easier and more convenient handling. As soon as a series of programs can be arranged, WCAX will begin broadcasting.

LARY has been in operation for several days now, and it is reported that it is working in great shape. It has not yet been possible to call the organization meeting for the Radio Club but this will occur shortly. All those interested in radio are urged to watch for the notices of this meeting which will be posted on the bulletin boards.

Student Senate

The Student Senate met Sunday afternoon at the Phi Delta Theta House.

Bills against the organization were ordered paid, insofar as finances permit. The treasurer was instructed to draw up a budget for the year's expenses to ascertain how large a tax should be levied at mid-year's.

The committee on Mountain Day submitted its report. If enough sign up transportation will be provided to Underhill at a reasonable charge.

Committees were appointed to consult the Athletic Department on the selection of a new Eligibility Manager, and to make recommendations on necessary revisions of the point system and on the enforcement of the system.

The treasurer was instructed to confer with the treasurers of those societies which collect taxes with the term bills on the possibility of using a single form on which the different items could be placed for collection at the Comptroller's office.

The matter of fraternity dance schedules was discussed, but action was deemed inadvisable.

FALL BASEBALL GIVES LINE ON CANDIDATES

Fall baseball practice continues in the cage under the direction of Coaches Collins and Collopy, with about fifteen men in the squad. No veterans of the Varsity are represented, though there are some that were in last season's squad. No new battery material has developed, though there is much necessity for it. Estey, Roark, and Talcott are on the mound, and Johnson and Chadwick behind the bat. Baseball enthusiasts are getting a little dope on prospects and available material for next spring's intensive campaign, while the men limber up their arms and get a general work-out before hibernating to await the balmy breezes.

SCHEDULE FOR WOMEN SHARPSHOOTERS SOON

The Women's Rifle Team will be organized in the near future. Miss Constance Weaver, manager of the team, is arranging matches with about 30 other colleges. Several challenges have been received. Since its inception the coed rifle team has been among the best in the country, regardless of sex.

Y. M. C. A. Notes

Last week-end a deputation team went to Whiting led by Secretary Maxted and Lasin Ross [illegible] night, following a community supper served in honor of the occasion, they put on a social evening with stunts, college songs and games mixed in. Sunday the entire church service was taken over. The work all went off very well and the people of Whiting were very pleased, cordially inviting another visit.

Discussion Groups went off this week with a vim that was very encouraging.

Secretary Maxted, Philip Hodgdon '26 and Herbert Crandall '28 are in Boston attending the meeting of the Feld Council of the Student Y. M. C. A.

Signals!

—vital in electrical communication, too

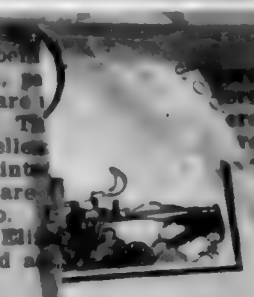
"41-7-27-3," sings out the quarterback; and the football goes on towards a touchdown.

"Madison Square 82198," says a voice in San Francisco; and a message starts on its way across the continent.

But the similarity between football and the communication art doesn't stop there. In each case signals have unleashed a great force. Coordination has scored the goal.

And this was made possible only through years of preparation. In one instance, on the gridiron. In the other, in the college classroom and the laboratories of industry.

That, in short, is why men who've learned their fundamentals and how to apply them at the snap of a signal are qualifying for positions of leadership in the greatest field of signals known to man — the field of communication.



Published in the interest of Electrical Development by an Institution that will be helped by whatever helps the Industry.

VERMONT HAS RHODES SCHOLARSHIP AGAIN

Candidates Should File Applications Not Later Than Oct. 24 to Be Considered

...nt is one of the states from ... a Rhodes Scholarship will be ...d this year. This scholarship ... awarded every second and third ... and there will not be one from ... next year.

...e scholarship provides for a three ... course at Oxford University with ... sum of four hundred pounds a ... Examinations are not usually ... from anyone holding a degree ... a recognized American College, ... no restriction is placed upon the ... to be followed.

A candidate to be eligible must be a ... citizen of the United States, ... at least five years' domicile, and ... married; he must have completed ... least his Sophomore year in some American College or University of ... recognized degree-granting stand.

Representatives will be chosen on the basis of literary and scholastic ability and attainments; qualities of manhood, force of character and leadership; physical vigor as shown by interest in outdoor sports or otherwise.

Applications must be in by October 24th. Students may apply either in their home states or in that state in which they have been attending a college or university. If applying from Vermont, address J. C. Sherburne, Esq., Randolph.

U. V. M. GRADUATES TO TEACH IN NIGHT SCHOOL

Classes in the Burlington Night School will begin Monday evening, October 19 and will he held in the High School Building, as usual. The sessions take place from 7 to 9 P. M., every Monday, Wednesday and Thursday until Easter vacation.

Six of the thirteen members of the teaching staff are graduates of the University of Vermont. Their names and the subjects which they teach follow: John E. Colburn, Advanced English; Charlotte F. Hale, French; Doris McNeil, Typewriting; Ruth P. O'Sullivan, Advanced English; Herbert D. Pearl, Algebra and Arithmetic; and David J. Rutledge, Jr., Bookkeeping.

Further information about the courses taught, the expense involved, and so forth may be obtained from either Lyman C. Hunt, Superintendent of Schools or Adrian E. Holmes, Principal

ASSISTANT DIRECTORS OF 1927 KAKE WALK

William M. Lockwood '27 of Burlington, and Donald M. Rockwell '27 of Proctor have been chosen assistant directors of the 1926 Kake Walk. They will work under the directors, Edwin ... '26 of Essex Junction and Francis J. Lillie '26 of Montpelier, in the production of this Kake Walk and automatically succeed to the directorship next year.

Both men have been outstanding members of their class and active in campus affairs. Lockwood was class president his Freshman year, chairman of the Sophomore Hop Committee and a member of Gold Key last year, and at present is a member of Key and Serpent and the Student Senate, and was an assistant manager of the Cynic. He is a member of Phi Delta Theta.

Lillie is an assistant manager of football, a member of Key and Serpent, ... of the *Ariel* and Cynic Boards. He belongs to the Kappa Sigma Fraternity.

Green and Gold Facing Gridmen of Springfield College Today

Has Not Been Scored on; Defeated Cooper Union 50-0 and R. P. I. 28-0; Strong in Aerial Game

The Vermont gridsters left last night, to buck the Red and White of Springfield Y. M. C. A. College, in the fourth game of the season. Springfield is another worthy opponent, against whom "Big Bill's" charges will have to display their best brand of football to defeat. Their first contest was a walk-away, when they walloped Cooper Union to the tune of 50-0, and the second was in one sense a bigger victory, for they downed R. P. I. last Saturday by a 28-0 score. When we consider that Rensselaer only met with an 18-6 defeat at the hands of the big Crimson the previous week, we realize more fully the calibre of the eleven which Vermont trots out to face this afternoon at Pratt Field. They triumphed by a seven-point margin last year, but the Green and Gold are going down this year with plenty of confidence to win. Though trounced by the vastly heavier Green team last Saturday, there were no severe injuries to the Vermonters, and they will be hitting the top stride today. Conway has recovered from the ailment which kept him out at Hanover, and will be barking signals once more. "Bill" Morse will also be in the lineup, and these two men add much to the aggressiveness of the Mountaineers. Thus far Springfield boasts an uncrossed goal line, but they are going to have their troubles to keep it so today.

Coach Rothacher's charges are reputed to be skilled in the aerial attack, which Vermont must guard closely against if the weather man does not repeat last Saturday's blizzard. "Tex" Maddox at halfback for the opponents, Berry at quarter, and their fullback, Mahnken, are a trio to be watched sharply, and are due to offer a strong offense

McAvoy has also been emphasizing the passing game, and the squad is clicking off trick formations with perfect coordination calculated to keep any opponent guessing. The powerful searchlights on the north stand are again in use, to permit extended practice. The Frosh team furnishes good competition in scrimmage, though the Varsity wins from them easily by virtue of greater experience. "Wink" shows his usual flashy brand of football, and plays a brilliant game at end He is going to be a menace to any backfield in getting off their punts. Katz and Denning will occupy the tackle positions this afternoon, Hill and Aronson at guard, Chapman the other end, Clark his accustomed berth in the middle of the line, and the same backfield combination that went in at Syracuse, consisting of Conway at quarter, Candon and Thompson at halves, and Jack Smith as fullback. Conway and Thompson are developing speed and cleverness in threading a broken field, and may be expected to tear off good gains.

HOLY CROSS PURPLE VERMONT'S NEXT FOE

The annual clash between the Green and Gold of Vermont and the Purple of Holy Cross will be a big drawing card at Centennial Field next Saturday, and a good contest should be staged in spite of the heavy odds for the Worcester squad.

The Purple team downed Vermont by a score of 27-0 last fall, in a game which was far closer than the figures indicate, and this year if we can get a few of the breaks we should give them a real test.

Providence College bowed before their attack, taking the short end of a 22-7 tally, and they also defeated St. John's, but by a narrow margin, 9-6. Neither of these games indicates a powerful offensive drive, and the Green and Gold will keep them in check in spite of a disadvantage in weight.

These opponents are weakened by the graduation loss of their star end, ex-captain Mahaney, mentioned for All-American of the '24 season by some writers.

"Tad" Jones, Yale coach, states that Holy Cross has its usual strong team, but only judges them as needed opposition to Harvard in their mêlée today. The result of that game will give Coach McAvoy much greater knowledge of the work ahead than is known at present, both as to strength and form of attack.

Interclass Track

The handicap track meet between the Freshman and Sophomore classes is scheduled to commence Monday afternoon. At the time of going to press the schedule of events was not available, but will undoubtedly be posted soon.

The Freshman eleven will play Mt. Assumption Institute this afternoon in Plattsburg. Little is known of the strength of the Plattsburg team except that it defeated St. Mary's 25 to 0 last Saturdty.

RUSHING DATES HAVE BEEN CHANGED AGAIN

At a meeting of the Interfraternity Conference held Tuesday night, it was deemed advisable to hold the first night of rushing on Wednesday, October 21, rather than on Thursday. Following is the schedule for this year:

Tuesday, October 20, 4 P. M., the Freshman men will meet at the chapel to receive rushing date cards. They will fill out these cards, granting their choice of dates to the fraternities requesting them, and hand them back.

Wednesday, October 21, 6-12 P. M., first evening date.

Thursday, October 22, 12-6 P. M., first afternoon date.

Friday, October 23, 12-6 P. M., afternoon and evening dates.

Saturday, October 24, 12-6 P. M., afternoon and evening dates.

Monday, October 26, 4 P. M., the Freshmen will meet in the chapel to receive bids.

OLDEST MEDICAL SOCIETY MOVES TO NEW QUARTERS

Delta Mu, the oldest medical fraternity in the United States founded at the University of Vermont in 1880, has moved from its rooms on the top floor of the Hayward block to the rooms formerly occupied by the Athena Club.

The new rooms, situated just over the store of the American Phonograph Company on Pearl Street, are three in number.

It is expected that the two larger rooms will be used for parties and dances while the smaller room will be used as a chapter room.

A farewell dance was held in the Hayward block with a large attendance. Dr. and Mrs. Karl C. McMahon and Dr. and Mrs. W. T. Rees of this city acted as chaperones

There are now about twenty men in the active chapter of the fraternity. Included among the alumni of the

CAMPUS COMMITTEE TO BOOST HARMONY PLAN

Y. M. C. A. Is Getting Behind Effort to Bring Peace Advocates Together

Preparations are now under way for the establishment of a local committee for the promotion of the Harmony Peace Program. Briefly, this program is to the effect that

(1) The United States should enter the World Court for a period of at least five years conditioned upon

(2) That all nations declare by appropriate governmental action their adherence to the basic principles of the outlawry of war, and

(3) Shall call an international conference of all civilized nations for the purpose of making a treaty involving these principles.

These principles are: War between nations shall be outlawed as an institution for the settlement of international controversies, by making it a crime under the law of nations. A code of the international law of peace, based upon the outlawry of war and upon equality and justice between all nations, great and small, shall be formulated and adopted

When war is outlawed, the permanent court shall be granted affirmative jurisdiction over international controversies between sovereign nations as provided for and defined in the code and arising under treaties

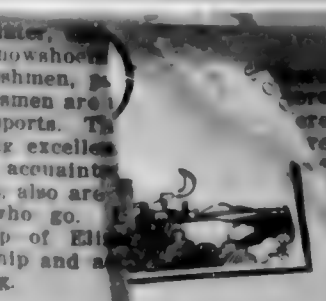
(4) Should such signatories within two years after the adherence of the United States fail to make such declarations and to join in the conference for the purpose of making such a general treaty, the United States may in its discretion withdraw its adherence to the court protocol, but any action of the court taken in the interim shall remain in full force and effect

This program was the one adopted by the peace advocates at a recent conference. Further information can be found in the *Christian Century* of July 16th, and in the October issue of the *Intercollegian*.

BILLINGS LIBRARY GIVEN HISTORICAL MATERIAL

Rev. E. C. Bass of Providence, R. I. has presented the Billings Library with University Catalogues for 1857 to 1860 inclusive; a pamphlet containing the inaugural exercises for President Matthew Buckham; a sermon by President Calvin Pease; an address by Prof. J. C. Goodrich; a commencement program for 1859; and the programs of the exhibitions and suppers given by the classes of 1857, 1858 and 1859.

NINE FROM R. O. T. C. GOING TO RANDOLPH



An infantry squad will be entered by the University R. O. T. C. in a prize drill for squads representing military organizations of the state, to be held Tuesday at Randolph, under the auspices of the American Legion. A large silver cup is offered to the winning squad

The team from the Vermont battalion consists of R. N. E. Cass '26 leader, H. W. Chellis '26, F. J. O'Brien '26, R. S. Gates '26, B. M. Johnson '26, R. W. Sikora '26, A. R. Hill '27, C. H. Blackhall '27, and R. Morrison '27 These men will also enter a drilldown for individuals, for which three cash prizes will be given.

Squads will be entirely in the competition by the University of Vermont, Norwich University, Company F of Northfield, Company G of Windsor and the Service Company of Montpelier.

Dr. Pratt, psychologist, was at the Medical Building October 13 for consultation with students.

Corona—
the best typewriter for students

This new Corona is the most complete portable typewriter on the market. It has the standard four-row keyboard; two-color, self-reversing ribbon with easy stenciling device; big, convenient, self-spacing carriage return lever; margin release and back-spacer on keyboard; twirlers on both ends of platen; and it has the widest carriage and the most perfect visibility of any portable typewriter.

$60 buys one, and no other machine under $100 can give you this complete range of standard office features. See Corona before you buy your typewriter.

The program for the year is not ... decided upon, but is to com... a varied, original and novel ...

Membership to Blue Stockings is achieved in one of three ways:

1. Average of A in English for two successive years.
2. Members of Cynic Board.
3. Paper on any worthy subject, and accepted by the club.

Y. W. C. A. NOTES

The Y. W. is getting into action at once under the able leadership of Lois Robinson. The big membership drive is on! It is a drive not only to obtain new members, but also to make the old ones pay their dues. The Y. W. members are divided into teams, each of which has a chairman. The leaders are earnestly striving to make the campaign a success. Sunday, at 4 p. m. a Recognition Service will be held at Redstone, for the purpose of welcoming all new members. White dresses are to be worn by all new members.

There will be an opportunity for each member to sign up for the kind of committee work in which she is most interested. The notices will be posted in the "Y" room next week.

Miss Holbrook, who has had valuable experience in teaching, will give a special course in rural leadership. Classes will be held every Tuesday from 7 to 8, beginning October 20.

MORTAR BOARD DANCE HELD IN GYMNASIUM

The fall dance given every year by Vermont chapter of Mortar Board was held in the gym last night. The Green and Gold orchestra furnished music for the dancers, and refreshments were served during a short intermission. The chaperons of the evening were Captain and Mrs. Lamkins and Mr. and Mrs. L. W. Dean.

The snow and wind Saturday ...ted the plans for Mountain Day, among other things.

With the Fraternities

Kappa Alpha Theta

Dorothy Heffron '25 was a visitor at the chapter house over the week-end.

Delta Delta Delta

Rebecca Carpenter '25 and Dorothy Thayer '25, who are teaching in the Jericho Center high school, were visitors over the week-end.

Eta chapter entertained the other fraternities at a tea on Wednesday afternoon at the new rooms.

Elizabeth Booth '23 and John Patrick '23, Phi Delta Theta, are to be married Saturday, October 17, at the College Street Congregational church.

Elizabeth Warner '24 has gone to Boston to study interior decorating.

Pi Beta Phi

The engagement of Ruth Frost '26 to Hugh Sinclair '23, Phi Delta Theta, was announced at the meeting Monday evening.

Marion Parker '27 will entertain the junior Pi Phis at a house party at her home in Williston over the week-end.

Mr. and Mrs. M. L. Hard (Florence Farr '23) are living at 342 South Winooski Ave.

Alpha Xi Delta

Daisy Stewart '17 visited the chapter on Wednesday.

Upsilon chapter entertained Alpha Pi chapter of Middlebury Wednesday.

Sigma Gamma

Nellie Chase, ex-'27, is teaching in Monkton.

Consuelo Northrup has passed her examination and been admitted to the bar.

Phi Delta Zeta

Doris Freeman ex-'25 is attending Syracuse University.

W. A. A. NOTES

On the W. A. A. bulletin board is a paper on which to sign up for a Girl Scout course, to be given in December. The series of six lessons, each an hour and a half long, will cost $2. The course is especially valuable to social and rural workers, and to camp councilors.

An organized hike is posted to leave the gym at 2 o'clock this afternoon.

Remember the Fall Field Day October 31. All classes should make a special effort to earn enough points for their awards by that time. Although freshmen will not have time enough to earn the full 400 points in such a short time, they will fully appreciate whatever they have earned when they see the results at Fall Field Day.

GLEE CLUB MEMBERS SELECTED FOR YEAR

The first rehearsal of the Glee Club was held Wednesday evening, October 14, at 7 o'clock, at the Music Hall at 85 South Prospect.

Professor Bennett, head of the Department of Music, is supervising the Glee Club this year, and work has been started on the material for the annual concert, which is to be held in January.

Tryouts for an accompanist were held at the same time, the result of which will be posted at a later date.

The members of the Glee Club for 1925-26 are as follows:

Soprano—Vina Rugg, Lois Wright, Elizabeth Johnson, Florence Smith, Thelma Matthewson, Ruth French, Edith Start, Helen Laduke, Eileen Goodwin, Grace Killam, Marion Cleveland, Faith Edmunds, Helen Stevens, Mary Davis, Teresa Walsh.

Second Soprano—Fern Westover, Mary Killalea, Marian Lawrence, Dorothy Cottrell, Catherine Bassett, Margaret Corbin, Dorothy Weller, Eleanor Davidson, Eloise Ballard, Annette Middleton, Eleanor Smith, Marion Preston, Velma Cochran, Willamette Cross.

Alto—Barbara Gray, Myrtle Start, Marion Sargent, Carolyn Hyde, Della Martin, Kathyrn Griffith, Lillian Avery, Helen Morissey, Edith Vernon, Iola Bagley, Edna Shaw, Marion Baldwin, Doris Peterson, Eleanor Bean, Rosalie White, Katharine Eckley, Eleanor Hubert, Elizabeth Howe.

Masque and Sandal

Masque and Sandal held a meeting Thursday night at which plans for the coming play were discussed. Tryouts will be held and work on the play begun very soon.

COMMUNICATION

To the Women's Editor of the Cynic:

Is physical education considered as much as it should be at Vermont? A great deal is done to attain greater physical health for the two lower classes. Should it stop here?

Is any Phi Beta Kappa woman who has ruined her health in winning her key a credit to any college? To the majority, she seems to be letting her ambition run away with her reason. The girl with the delicate air is not a good advertisement for any college.

We are exceedingly lucky to have the gymnasium, teachers, and equipment that we possess. Why not use them to better advantage? If you are physically fit to carry on our college work, it makes all the difference in the world. The women of the University of Vermont have had the privilege of taking physical education for only 21 years. In looking over the juniors and seniors it seems that the number of girls who look as if they need more outdoor exercise and physical training is quite large. Let's make it smaller and show that we appreciate the privilege which the women of the Class of '04 were the first to enjoy.

"HOW TO STUDY"
The Students' Hand-Book of Practical Hints on the Technique of Effective Study
by
WILLIAM ALLAN BROOKS
A GUIDE containing hundreds of practical hints and short cuts in the economy of learning, to assist students in securing MAXIMUM SCHOLASTIC RESULTS at a minimum cost of time, energy, and fatigue.
ESPECIALLY RECOMMENDED for overworked students and athletes engaged in extra curriculum activities and for average and honor students who are working for high scholastic achievement.
Some of the Topics covered
Scientific Shortcuts in Effective Study.
Preparing for Examinations.
Writing Good Examinations.
Brain and Digestion in Relation to Study.
How to Take Lecture and Reading Notes.
Advantages and Disadvantages of Cramming.
The Athlete and His Studies.
Diet During Athletic Training.
How to Study Modern Languages.
How to Study Science, Literature, etc.
Why Go to College!
After College, What!
Developing Concentration and Efficiency.
etc., etc., etc., etc., etc., etc., etc.
Why You Need This Guide
"It is safe to say that failure to guide and direct study is the weak point in the whole educational machine." Prof. G. M. Whipple, U. of Michigan.
"The successful men in college do not seem to be very happy. Most of them, especially the athletes are overworked." Prof. H. S. Canby, Yale.
"Misdirected labor, though honest and well intentioned may lead to naught. Among the most important things for the student to learn is how to study. Without knowledge of this his labor may be largely in vain." Prof. G. F. Swain, M. I. T.
"To students who have never learnt 'How to Study,' work is very often a chastisement, a flagellation, and an insuperable obstacle to contentment." Prof. A. Inglis, Harvard.
"HOW TO STUDY" will show you how to avoid all misdirected effort. Get a good start and make this year a highly successful one by sending for this hand book and guide NOW.

CHARLES T. APLIN
News Editor
SHERMAN A. COX
Assistant Manager

NEW PHONE RATES

The increased telephone rates in the state which take effect October 1st will be brought home to the hundreds of users of fraternity and dormitory phones early in the first of November when unlimited service for those patrons becomes a thing of the past and fraternity members either must [illegible] to the rest of pay $20 [illegible] a month for service.

The telephone company has put forth literature explaining its reasonableness and making out a good case for the new rates. They have also answered some questions often asked in a sort of catechism. There are two questions they do not answer however which have often been asked.

Is it true that New England and New York have been for years and still are paying excess profits to the New England Company to offset the [illegible] of most of the remainder of the country to show fair profits?

Is it true that quite recently telephone stock was pretty thoroughly watered?

To these might be added a third pertinent query. Is it true that the American Telephone and Telegraph Company of which the New England company is a part—actually [illegible] in many and the highest income tax of any business in the United States excepting Henry Ford?

Of course none of these may be true. If the second and third are true you must be met with the answer that the New England company is but a branch of the American company. In this case, just what is the connection between the two?

The [illegible] Massachusetts last Saturday? Why else was there to prove a [illegible] way?

The vacancies on the Pep Parade to Centennial Field Thursday afternoon was small. Only a few upperclassmen and Sophomores followed the band to give a demonstration of confidence in the team. The Freshmen were somewhat better represented. The world series drew vastly more support from Vermont students than their own team. The few who attended were enthusiastic, giving cheers in a manner which would do justice to a larger crowd.

MISS HOLBROOK GIVES LEADERSHIP COURSES

The course in rural leadership which Miss Holbrook is initiating this year is intended to assist those of our college women who for a time at least enter small communities as teachers, in becoming better leaders. An effort will be made to treat the subject in as practical a way as possible with illustrations from actual work done in rural communities throughout the country. East, west, north or south the rural teacher is facing similar problems. Will it not help to know how others have successfully solved theirs?

The following outline covers roughly some of the topics to be considered:

1. A New Look at Old Places.
2. The New Teacher in a Community
   a. What should she know about it?
   b. How may she best learn to know and understand it?
3. Types of Rural Communities and Factors Influencing Them.
4. Building a Program of Extra Curriculum Activities.
   a. To strengthen existing activities.
   b. To replace existing activities.
5. Community Recreation.
   a. Conventional.
   b. Unique to the place.
6. Finding Beauty and Inspiration in the Local Community.
7. The Teacher's Relation to the Home.
8. Who is my Neighbor? To what extent can a teacher help to break

Campus Comment

To the Editor of the Cynic:

When you see the Middlebury Black Panther and the Yale Bull Dog and the Brown Bear—don't you wish we had a mascot here? Vermont has a recognized place among the leading colleges of this section; let's get a mascot to help her hold it! How does the "Vermont Lynx" appeal to you? May we have your suggestions in next week's Cynic?

PEPPER AND SALT.

"PEP PARADE" THURSDAY DREW A SMALL CROWD

The attendance at the Pep Parade to Centennial Field Thursday afternoon was small. Only a few upperclassmen and Sophomores followed the band to give a demonstration of confidence in the team. The Freshmen were somewhat better represented. The world series drew vastly more support from Vermont students than their own team. The few who attended were enthusiastic, giving cheers in a manner which would do justice to a larger crowd.

DEBATING TRYOUTS

[illegible] for the following questions: [illegible]

Amendment should be [illegible] to the States, or

[illegible] there should be Federal marriage and divorce laws (Constitutionality waived.)

Speeches may be prepared in advance, but must not be memorized or read

[illegible] ballots are [illegible] hours?

The first session will be Tuesday evening and will not conflict with the Discussion Group Leaders' meeting. Those planning to attend should [illegible] up on the Y. W. C. A. bulletin board before Tuesday noon.

Tennis Tournament

The intramural tennis tournament [illegible] progresses, the following matches having been played off this week. It is [illegible] that the finals will be contested this afternoon:

Guild—Shaw 9-7, 6-1.
Nye M. Mower 6-1, 6-4.
Nye—Prof. Carpenter 4-6, 6-4, 6-3.
Baldwin—Prof. Swift 6-2, 6-3

Brief Notes

Sigma Alpha Chi has announced the pledging of J. L. Hibbard '26 of Newbury.

Sigma Delta has repledged L. H. Brooks of Milton and C. A. Bailey, Jr. of Essex Junction, both of the class of '29.

The Press Club needs several more men to serve as reporters, and President R. I. Lamson '26 requests that all Freshmen interested in the organization report to him at the Owl House.

Daily Dribble

Bury your troubles as the doctors [illegible].

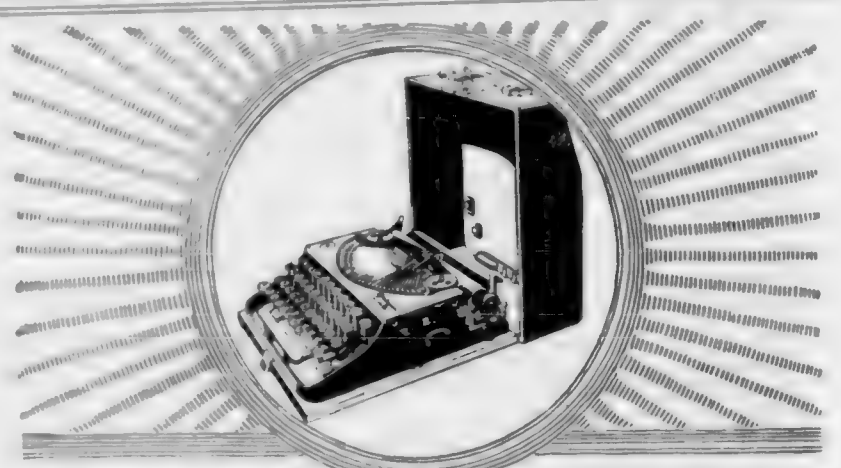
Is your head a hair farm?

[illegible] without purpose is PIFFLE. CONCENTRATION is merely intense [illegible] of the mind.

The hen is the only animal that can produce dividends by sitting around.

Beauty is only skin deep; some people need peeling.

The purpose of this club is to give publicity to the University in reporting to the papers of the students' home towns their particular activities and achievements.



The president and news editors of the Press Club are eligible for election to Pi Delta Rho, and a Freshman who begins reporting now may be chosen news editor in his Junior year.

The last of the prize entrance examinations, that of Mathematics, will be held this afternoon from 2 to 5 o'clock, in Room 3, South College. Any Freshman is eligible to enter.

Alpha Zeta, the honorary agricultural fraternity, at its first meeting elected Harry L. White to represent the society at the "conclave" which will be held in Chicago November 19, 20, 21.

About a dozen Freshmen, accused of breaking rules, appeared before the Gold Key, Tuesday evening at the Delta Psi House and after summary trial, made the acquaintance of the business end of hickory paddles.

The Glee Club is progressing well, according to R. S. Gates '26 manager. Approximately thirty members are now reporting for practice. There are still vacancies, however, especially in the low bass class. Any student wishing to try out for this activity should at once report to Gates or to Prof. Bennett. Rehearsals are held every Tuesday and Thursday evening from 7 to 8.

The smallest, most compact most portable PORTABLE
with 4 Row Standard Keyboard

THESE decisive advantages have made the New Remington Portable the predominant choice of students everywhere. Then too, it is exceptionally durable. It is simple and easy to operate—in fact, with very little practice you'll soon become a fast typist. And its work is so clear, even, and beautiful that you'll take real pride in your essays, notes, and in those letters home.

The Great Autumn Indoor Sport

...rushing, even as carried ... under an imposing set of ...gulations, always brings ...ts man something of the ...ll of the chase, with un...rosh as open game, and ...ities as rival hunters in ... Perhaps the comparison ...ter applied to the profes...ing, the suspense with ...ity men await pledglings ...esemblance to the anticipa...which a fisherman may be ... haul up his net. And if ... must be carried further, ...ly pledged Frosh has ex...ch the same feelings as ...ing fried and eaten.

... in spite of the shortcom... fraternity system, here it ... that, and what's to be ...?" Our fraternity confer... infinite judgment lays down ... has been laying down rules ...re the memory of man—that ... the men to whom this is ad... and every little while some... breaks a rule, or gets caught ...ing a rule, which is more ... point, and there is an ... now, and then some more ... are made. About all that ... said about fraternity rushing ... on in the last few years is ... it is better than the ancient cut... system where prospective ... were taken from railway ...es at Essex Junction and points ... and kept in close confinement on ... and water until they had been ... into the fold. There have ... faults in our rushing system; possibly there still are, but here is the ... of this discourse. In the latest ... of rules and regulations relating ... this sport of rushing the Freshman, the fraternities have, at last, created a weapon to brandish over their own heads, as it were. Expulsion from the Inter-fraternity Council and loss of all fraternity privileges, including athletics and Kake Walk, will make any fraternity think twice before poaching out of season; and when the season closes, and fraternities begin to inspect with surprise, and delight, their catches, the harmonious relations which have not always existed at this time of the year in the past will prevail.

Perusal of the editorial columns of contemporary publications creates the impression that rushing conditions existing in other institutions have not in all cases reached perfection. While a majority of these systems differ but little from our own, some interesting experiments are being tried.

At the University of New Hampshire, which resembles Vermont quite closely in size and number of fraternities, each fraternity is given a night on which to entertain alone. A Freshman can then spend an entire evening at any fraternity in which he is interested, and is able, no doubt, to become better acquainted with the individual members than is possible under the open house system.

The solution most often referred to, and one which has been discussed before in the columns of the CYNIC, is second semester rushing. The obvious advantages of such a system that fraternities can know their men better and *vice versa*, and that men with ability do not always show their talents during the first few weeks of college, are offset by the distrust of human nature in an opponent, and, in our institution, by the crowded condition of the calendar after mid-years.

This phenomenon of mid-years itself, is a factor in the question, one side arguing that a man can be kept in college more easily with the help of a fraternity, and the other arguing that it is the time and interest taken by a fraternity from the new man that makes him an easy prey to the fatal disease of flunkitis

It is too late to discuss plans for this season's rushing but there would appear to be ways in which it could be improved, and a plan of second semester pledging, being advocated at Cornell, and being demonstrated before our eyes by the sororities, has no small number of supporters on the campus

TICKETS FOR THE HOLY CROSS GAME

Student Athletic Tickets coupon No. 3 will be validated gratis for reserved seats, Vermont cheering section, for Holy Cross-Vermont football game, at the Chapel, Old Mill, between the hours of 4 and 6 P. M., Monday and Tuesday, October 19th and 20th *only*. Line to form at North College entrance to Chapel.

Applications for reserved seats other than cheering section may be obtained now at office of Graduate Manager. Coupon No. 3 will be honored in exchange at face value of $1.00.

Athletic tickets will not be honored for cheering section after October 20th at 6 P. M.

The examinations in Greek and Latin have already been completed. The questions in Latin consisted of prose construction, sight translation and extracts from Cicero, Virgil and Cæsar. About fifteen students entered the Latin examination and about five the Greek.

Diamond, Field and Track

[illegible] and the [illegible] Cup, [illegible] Mr. McAvoy chooses [illegible]

Few would have predicted a day or two before the contest that the Big [illegible] our loud laments that their team was "all shot" with injuries [illegible] Vermont in the 14 minutes of play. Nor would many have predicted that there would be three inches of [illegible] the 16th of October, plus a 60-mile gale.

[illegible] the first football machines [illegible] the invention of but one short speed

[illegible] Harvard should [illegible] than the Bull Dog had pinned [illegible] for the state completely in the [illegible] Aggies walked over the Cadets 19 to 0.

[illegible] the Golden Bear of California [illegible] conquest was not however a [illegible] the San Francisco Olympic Club.

[illegible] straight victims in tow 24 to 0. [illegible] games thus far gives any [illegible] comparison or criticism!

[illegible] though how about the 68-0 score of the Crimson [illegible] when compared with the 18 to 6 score to which Rensselaer held [illegible] two weeks before! That explains [illegible] appears hard-boiled, from [illegible]

[illegible] had to put off its game with Providence a couple of days [illegible] of the condition of the grounds. It seems hardly probable that they [illegible] were worse than Centennial Field, on which the Frosh and [illegible] battled to another scoreless tie.

The Middlebury yearlings who meet the Vermont Freshmen the 24th, [illegible] by Hanson and cut to the Big Green youngsters 24-0.

When the news story on cross-country was edited last week, about half [illegible] was cut out because no personal views are allowed [illegible] to keep them out. This column [illegible] permitted here to inquire, as the sports writer did, "What is the matter with Vermont, that after the triumph of [illegible] spring only four men can be gotten out this fall to compete for [illegible] in the cross-country team."

Last year Middlebury won in football and as though to erase the stain [illegible] every other sporting event of the year between the two institutions. There is some reason to hope that Middlebury won't win the football game this year but a Green and Gold victory is not at all sure. It would seem very appropriate if to clinch the matter, we could start out with a victory in cross-country.

Arnold Post, "Spike" Rowe, "Bud" Suitor and "Art" Tudhope are out [illegible] every night getting into shape for the meet. But they are all [illegible]. Wood who promised to show merit in the event, is ineligible. No [illegible] seem to have interest enough to go out. Nobody, that is, but a few freshmen ineligible because of the one semester rule who are, however, getting valuable training for next spring's track.

The cross-country situation gives the new Eligibility Manager something [illegible] to work on, since two of the best harriers may perhaps be saved to the team.

The Sophs are going to need something more than polite contempt for the Frosh if they pull their chestnuts out of the interclass track meet with [illegible] paws.

according to David B. Hall '26, new [illegible] manager, who states that it is the purpose of the eligibility department to learn when athletes are low in their studies and to apply [illegible] remedies. The athlete is notified and if necessary a tutor is secured for him.

To conform with changing conditions and accumulated experience certain modifications will be made for the department's future work.

A complete record of the grades of all men, both high and low, is not necessary essential and cannot be [illegible] under the ruling of the Arts College which requires that all reports come from the dean's office.

By eliminating this part of the work, and by concentrating its efforts on the more needy cases, it is expected that the usefulness of the department will be increased.

GRID VIOLATIONS AND PENALTIES EXPLAINED

With [illegible] thousands of persons [illegible] expected to attend the various [illegible] games it may be helpful to [illegible] to know the most common [illegible] of rules and their penalties. The suggestion for this article came from coaches and others interested in the sport. It is their opinion that games will prove more attractive if the spectators know what fouls have been committed when penalties are inflicted.

Offside Play

One of the most common penalties is for offside play. If a member of either team advances beyond his own restraining line before the ball is snapped, he is called offside and a five-yard penalty inflicted against his team.

First Down Eliminated

This year the offensive team does not obtain first down when the defense is offside. When it is first down and ten yards to gain, the next play will be first down and five yards to gain if the defending eleven is offside. If the offensive is offside under the same conditions, the next play will be first down and 15 yards to gain. In other words, the offending team loses five yards, but the down and point to be gained remain the same.

Holding

Another common penalty is for illegal use of the hands and arms in interference. This ordinarily is called holding. In most cases this foul is committed by the side in possession of the ball. The player carrying the oval may use his hand in stiff arm fashion to ward off tacklers, but his interferers must have their hands and arms close to their bodies while blocking opponents. The interferers usually use their hands to push tacklers out of the way and the holding is generally done in the line. For such an infringement of the rules a 15-yard penalty is inflicted from the spot of the foul.

The defense side occasionally is called for holding. In most cases this

...tackle or end who tries ... opponent from going ... under a punt or to re... pass. If the defense ...ard penalty results and ...eam is given first down. ...eligible to receive a for... after he has crossed ...line, the team on of... first down at the spot

CLIPPING

...most dangerous viola... football is clipping. ...ing block from behind. ...ing of one's body across the knees of an opponent from the rear. Clipping has resulted in many serious injuries in recent years. Something had to be done to curb it, so the rules committee has increased the penalty from 15 to 25 yards. It will be inflicted from the spot of the foul.

CANNOT PILE ON

When a player with the ball has been downed and the referee's whistle has blown, members of the defensive team cannot pile on. For this violation a 15-yard penalty is inflicted. If the player with the ball attempts to crawl after the whistle is blown, a five-yard penalty results.

TRIPPING

Tripping is not permitted. The penalty for infringement is 15 yards.

If a team in possession of the ball purposely delays the game, it can be penalized five yards. If officials agree that such an eleven is doing this to hold a slim advantage, they have the power to forfeit the game after duly warning the stalling team. The score of a forfeited game is 1 to 0.

AS TO TOUCHDOWNS

The ball does not have to be across the goal line in the scoring of a touchdown. If any portion of the oval is on, above or across the goal line it is a touchdown. If a player carries the ball across the goal line and then fumbles, the score is allowed. The moment the ball is carried on above or across the goal line it is a touchdown, regardless of what happens afterward.

STALLING

If a player is caught stalling he is put out of the game and his team penalized half the distance to the goal line. Unnecessary roughness calls for a 15-yard penalty, as does unsportsmanlike conduct, which includes abusive language to opponents or officials.—*Burlington Free Press*

The question is sometimes asked: Where do young men get when they enter a large industrial organization? Have they opportunity to exercise creative talents? Or are they forced into narrow grooves?

This series of advertisements throws light on these questions. Each advertisement takes up the record of a college man who came with the Westinghouse Company within the past ten years, immediately after graduation from his university.

This Graduating Thesis Bore Fruit

G. E. LUKE

BACK in 1917, G. E. LUKE, a Princeton student, wrote a thesis on heat flow in electrical apparatus. The world was not fired upon receipt of this opus; it went on, in fact, very much as it had gone before. But LUKE came to Westinghouse, where his interest was encouraged. Today, although less than ten years off the steps of Old Nassau, he has completed researches that have improved the motor-and generator-building arts.

An interesting problem that came to him here was the development of an analytical or mathematical method of predetermining the temperature of a motor or a generator under a given power cycle. Nothing so comprehensive had been undertaken before. When developed, however, the method would permit a more scientific application of motors and generators to practical requirements. Safety factors could be cut down. Smaller apparatus could be used, with resulting economies.

The work was exacting and the researches not spectacular. In the end, however, there emerged a formula that is now the property of the industry and that stands as an important addition to the field of engineering information.

This incident shows the opportunities which the electrical industry affords the research engineer of genuine endowments. Today this young man has charge of the insulation section of the research department, with an organization of three physicists and five assistant physicists.

His work calls for the broadest kind of experience, for it relates to every kind of electrical apparatus in which heat flow occurs. Half the problems of his section are referred to it by other departments of the Westinghouse business—they are in the nature of emergency calls. The other half are of the department's own initiating. From these come many of the most revolutionary developments in the electrical art.

Give me a pipe . . . and P. A.!

WHEN Comp. Lit. and Physics 3-B are crowding for attention; when I've just received an over-cut notice from the Dean; when my allowance is a month off and the stub of my checkbook confesses a balance of $9.32, give me a pipe and Prince Albert. I want to *be* happy!

Trouble's a bubble, they say. And I can prove it . . . with my jimmy-pipe and P. A. Just never was a friend like Prince Albert. Cool and sweet and soothing, P. A.'s true-blue smoke zooms up the stem, knocking troubles for a row of test-tubes.

Never a tongue-bite or throat-parch. Just cool contentment, no matter how hard you hit it up. Give me a grate fire to chase the chill of winter nights, an easy chair and my jimmy-pipe packed with P. A. Nearby, a tidy red tin for frequent refills. I know, Brother, I know!

PRINCE ALBERT
—*no other tobacco is like it!*

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

Look at the U. S. revenue stamp—there are TWO full ounces in every tin.

VOL. XLIV BURLINGTON, VT., OCTOBER 24, 1925 NUMBER 5

VERMONT SQUAD WINS SILVER LOVING CUP

Defeats Teams from Norwich and National Guard Units—Hill '27 Second Individual Prize

Vermont once more upheld her high athletic reputation, when a picked squad from the battalion won a prize drill contested by the American Legion at Randolph Tuesday afternoon. A large silver cup was presented to the winners and is being engraved before being exhibited.

Color Sergeant A. R. Hill '27 won second place in the drill-down held after the squad competition. He, together with H. W. Chellis '26, F. J. Gibson '26, R. S. Gates '26, R. W. Sikora '26, G. H. Blackall '27, R. Morrison '27 and R. N. E. Cass '26 as alternate composed the squad which won the cup. The squad was handicapped in its maneuvers by a blank file due to the illness of B. M. Johnson '26, who was to have made the trip.

Five organizations competing in the drill were. Two squads from Norwich one squad representing Co. F of Northfield, Co. G of Windsor, the Service Company from Montpelier, and Vermont.

HIS FRATERNITY BADGE BETRAYED TRANSFER

Harold Lloyd came to the Majestic as "The Freshman" and a horde of upperclassmen and sophomores, especially the latter, became possessed with a yearning to wear the frosh cap once more.

The reason was not because they reveled in being classed among the menials, but that the admission to see Lloyd was reduced 50 per cent for all freshmen.

One "transfer" carefully dressed in the approved frosh fashion, black sox, four-in-hand tie, and shrivelled green cap. Thus arrayed, he proceeded to the Majestic and flashed a quarter before cashier.

Much to his consternation, she demanded another. He was genuinely surprised, and asked if the advertised frosh price were withdrawn. The cashier coolly waited until the would-be frosh had calmed, then pointed to his breast with a smile.

The irate transfer glanced downward, and caught a gleam of gold.

It was his fraternity badge.

Y. M. C. A. WILL HANDLE "BOOKS WITH PURPOSE"

A contract has just been signed with the Association Press as a result of which the Y. M. C. A. will handle that line of books known as "Books with a Purpose." These books are being published to meet the growing demand of students for guidance to deeper thinking, and modern policies concerning many world issues are thoroughly discussed in them.

These books will be given a prominent place in Billings Library at an early date and copies will be purchaseable at the "Y" office. Also orders may be given for any books along this line.

ON TO NORWICH

Busses for the Norwich game will leave Burlington Saturday morning, October 31. The fare for the round trip will be $2.50, about a dollar less than train fare would be. Lyceum Society has chartered one of the big busses available in town, for the trip, so that there will be adequate room for everyone, provided arrangements are made early.

FRATERNITY BIDS GIVEN OUT MONDAY

Monday afternoon at four o'clock Freshmen will assemble in the Chapel to receive fraternity bids.

Men will be called out one by one to receive their bids, which will be issued by Interfraternity Conference representatives. All men accepting bids should report to their respective fraternity houses immediately.

A complete neutral period will be observed from the time the bids are formally issued until Thursday evening at six o'clock. During that time no non-fraternity men may be approached by any fraternity, and no bids may be given out.

L.-S. COURSE POPULAR WITH NEW STUDENTS

The Literary-Scientific Curriculum appears to be the most popular among Freshmen this year, leading the list with fifty-nine of the 334 members of the entering class enrolled in it.

Commerce and Economics comes second with fifty-four and Engineering third with fifty-two. The other courses are ranked in the following order: Teacher Training, forty-nine; Pre-Medic, thirty-six; General Science, twenty-one; Classical, nineteen; Secretarial, thirteen; Home Economics, eleven; Agriculture, eight; Chemistry, eight.

Among the Engineers, Electrical Engineering is first with twenty-two, Mechanical Engineering second with seventeen and Civil Engineering last with thirteen.

Among the students from other colleges who transferred to Vermont this fall are Lucy Anderson '28 University of Utah, Muriel F. Cleveland '28 Springfield Junior College, Gillson E. Reginald M. '29 McGill University, Angelo M. Guassi M. '29 Royal University of Naples, George Graves, Jr. '28 Williams College, Wayne P. Harrison M. '28 University of Michigan, Katherine D. Hill, Adelphi College, Uclesta L. Holmes '28 Wellesley College, Ruth E. Lovel '28 Oberlin College, Helen A. Orton '27 University of Maryland, Robert J. Siebenmorgen '28 Columbia, Alta L. Stowell '28 Michigan State College.

CONFERENCE OF HIGH SCHOOL JOURNALISTS

The University of Vermont is inviting the editors and business managers of high school papers throughout the State, together with teachers of English and principals of the schools, to attend a conference at which ways will be discussed of making the papers of more practical value, which will be held in the "Old Mill" chapel next Saturday.

There are about thirty-five school papers in the State, to each of which invitations have been sent, and large attendance is expected.

Welcome will be extended by President Guy W. Bailey. Mr. Crockett will state the purpose of the meeting, following which Elwin Twombly, editor of the St. Johnsbury *Academy Student*, and the business manager of the Bennington *Catamount*, will give talks. The meeting will then be turned over to general discussion, which will continue until noon when the delegates will dine together downstreet, at the Hotel Vermont.

In the afternoon special attention will be devoted to the relationship which should exist between the school paper and the English department.

In time past the University has shown much interest in high school publications, has held similar conferences before though not of such wide scope, and now gives annually three scholarships for $100, $75 and $50 respectively which may be awarded any member of the Board.

Purple Invaders, Inspired With Harvard Victory, Expect to Win

Have Light Team, But Powerful Enough to Defeat Crimson—Vermont Goes into Contest Crippled by Injuries

This afternoon at Centennial Field the Green and Gold meets the strong Holy Cross team. Last week both elevens showed unexpected power against heavier aggregations.

Vermont's strength apparently lies in her traditional fighting spirit while Holy Cross has a highly efficient organization in all departments of the game. Up to last Saturday the Crusaders were looked upon as just another light team, but in their defeat of Harvard 7-6 they showed amazing ability.

Capt. Jack Crowley was in a large measure responsible for the Catholic colleges victory. His defensive work and punting were excellent.

The home team is still seriously handicapped by injuries. Capt. Tarpey and "Bill" Morse show no signs of immediate recovery and Chapman's knee is still in bad shape. P. D. Clark received a gash over the eye in last Saturday's game and may not be in the Green and Gold lineup this afternoon.

Although the odds are in favor of the Purple, the visitors are not at all confident of an easy victory and the only sure thing about the contest is that the Green Mountain aggregation will fight to the finish.

CAST OF 13 CHOSEN FOR ANNUAL COLLEGE PLAY

Tryouts for parts in the play "The Goose Hangs High," to be presented by Wig and Buskin and the Masque and Sandal, were held Monday with poor results.

The women were represented in large numbers but the men failed to turn out. The tryouts were continued Wednesday with better results. Seven men and six women were chosen for the cast.

The play has just been released for amateur production and those who have previously seen it vouch for its appealing qualities.

The plot revolves around two children, a boy and a girl, who were sent to college by their parents. They had a gay time out of their college life, believing that a substantial fortune was backing them.

The climax arises when they find their parents have failed in business and their fortune has vanished.

The players will tour the southern part of the state before putting on the play in Burlington. It will be given here the second week in December, in the Strong Theater.

Final selection was made Thursday afternoon after four days of trying out. The cast will be as follows:

Bernard Ingals, H. C. Conlin '26; Eunice Ingals, Marion Laurence '26; Noel Derby, W. D. Safford '28; Rhoda, Dorothy Cottrell '29; Julia Murdock, Anna Perkins '28; Mrs. Bradley, Eleanor Chapman '27; Hugh Ingals, Robert Costine '27; Bradley Ingals, Roger Albee '28; Lois Ingals, Eunice Cooke '27; Ronald Murdock, J. B. Phelps '27; Leo Day, Evo Lucchina '28; and Elliot Kimberley, O. F. Parody '27.

F. W. Guild '26, E. C. Mower '27 and Misses Middleton, Bassett, Elliott, Roberts, Strong, Edmunds, Cleveland, Ready, Hazen, Avery and Schneller were selected as a secondary cast, and may become the nucleus for the cast of a second play.

JUNIOR CLASS MEETING

The junior class will hold a meeting Tuesday afternoon at 4 o'clock in the chapel. Members of the class will be chosen for the faculty-student council. One member from each college and two women from the class at large will be chosen.

WHEELER '26 WILL HEAD JUNIOR A. S. M. E. HERE

E. A. Wheeler '26 of Barkhamsted, Conn., has been elected chairman of the newly reorganized local student branch of the American Society of Mechanical Engineers at a recent meeting. Other officers elected are: E. I. Drury '26 of Essex Junction, vice chairman; Robert P. Barnes '26 of Brownsville, secretary and treasurer, and Prof. V. Yates, honorary chairman.

The society is composed of the junior and senior mechanical engineers. It holds meetings every two weeks at which communications, articles and moving pictures from the national headquarters form the program. At present the membership is fifteen.

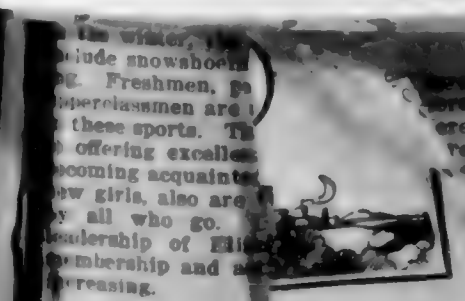
It is expected that the finals in the intramural tennis tournament will come Monday. Hoag defeated Nye, Thursday, 6-3, 7-5. The final set of the Wilson-Baldwin match was to have been played Friday, the winner to meet Guild for a chance in the finals.

BLACK PANTHER CUBS FROSH RIVALS TODAY

While the varsity and Holy Cross are battling on Centennial Field Saturday, the strong freshman eleven will engage the Middlebury yearlings at Middlebury.

Coach Householder has developed a rugged and aggressive freshman eleven. Robbins and Donnelly were especially prominent in the Mount Assumption game, and will be counted on to come through on Saturday. Kropper looks fine in the line, and Palmer, former Burlington high school star, has developed into an outstanding performer. It is confidently expected that the Green and Gold will return to Burlington on the long end of the score.

The construction of the Ira Allen Chapel is progressing at a fast rate. The walls are now high enough so that a hoist is needed to raise materials to the working level, and the steel girders and trusses will soon be put in place. The cold weather has slowed up the work somewhat, but it is expected now that the roof will be begun in about three weeks.



DEBATING TRYOUTS COMING THURSDAY

Because of the many events of the past week, it has been decided to defer tryouts for the varsity debating teams until Thursday afternoon at 4 o'clock. They will be held in Room 3, North College.

A different question has been decided upon for the tryouts, since it is probable that Vermont will meet Syracuse November 26 on the World Court question. Tryouts may be prepared for a three-minute talk on either side of the question:

"Resolved, That the United States should join the World Court under the Harding-Hughes reservations."

While the question may not be worded thus for the debate with Syracuse, this will give an idea of the capabilities of those who try out.

Odd Items

The enrollment of the school of Kan sas Fails is increasing fast recently. After the opening of the first week 1,200 was reported in that school with 3,000 was reported in that school the enrollment increased considerably for the two following weeks and the two weeks following that the enrollment increased considerably more than 3,000 more students

The Freshman privileges have been held at Williams for the week following the opening of the academic year. Freshmen are required to wear certain articles of dress and are required to perform certain duties which are most distasteful to them. Among the duties mentioned in the account of these meetings were the memorization of college songs, football and other cheers, the carrying of canes and umbrellas, etc. These are given to freshmen the first week that the term begins. Williams seems quite strict

Many engineers in leaving college, realizing the material lack that they have had in the academic course, that more and more the saying that a college education is little help but its absence is a big handicap" is becoming true, at least so far as the last part is concerned. Representatives at nearly every college is noticeably greater than ever before. At Middlebury 201 are enrolled this year as compared with 180 last year at Williams the Freshman class has increased 50 or 100 the entire enrollment on each unit of 1000 by 25 men

Middlebury's French Chateau, around which so much interest has been centered during the past year, opened its doors to forty-five girls, all of whom are taking courses in French at the opening of college. The formal House Warming has not yet been given but plans are being made for a date around the middle of October at which time Professor Andre Morize of Harvard is expected to visit Middlebury

Despite the ravages of war diseases and other catastrophies the population of the world increased 200 million in the last fourteen years according to statistics compiled by the international institute of Statistics

The world census taken in 1910 showed that there were 1,600 million people on the world In 1914 the total reported was 1,800 million Europe still has the greatest average density of population while the American continent showed the greatest gain the increase being calculated at 25 per cent The increase in Asia and Africa was about three per cent

In Epsilon Pi the "Ku Ku Club," is a pep organization at the University of Kansas maintained for the purpose of creating and maintaining a better spirit at the University The organization has a special uniform, which it wears at intercollegiate contests Its plans for this fall include a stunt for the Oklahoma Aggie game, and attendance in a body at the Nebraska and Oklahoma games

Wasn't it Horace Greeley who gave the advice to go west and grow up with the country? The tin craze has just arrived at Kansas University, and the Jayhawk there remarks editorially that "the older the car looks and the less it has on it the better" In a great many cases the sufferer is one of around the campus during class hours the articles missing And the owners of such cars go chasing noisily lecturing lectures or laboratory classes

The men's and women's student government bodies at the University of Kansas are having a mixer family party the basis of contention being the price which shall be charged for admission to the "Varsity Dances" The men tried to lower the price from $1 to 75 cents but the women say the

We are tired

If this be treason, make the most of it —*Northwestern Daily*

N B.—This is printed, not because we agree with the sentiments expressed but because it has aroused a storm of discussion everywhere What do you think about it?—Editor.

SLEEP THIS OFF!

We are tired

We are tired of this everlasting Soph Hub about a winning football team.

We are tired of having a football coach who trains 40 men and receives as large a salary as four instructors who teach one particular subject to our students

We are tired of having Rotary clubs donate scholarships for the alleviation of the financial sufferings of deserving athletes

We are tired of having more of these deserving athletes draw good pay for performing some trivial job at the gym

We are tired of having these silly speakers get up and exhort the boys to "beat that team"

We are tired of having alumni come back and say what a fine halfback there is in Podunk High School and can't we find a job for him

We are tired of having our intercollegiate teams sent all over the Middle West on expensive trips while the physical training of the ordinary students is neglected

We are tired of this stadium bunk whereby 50,000 spectators watch 22 men or rather employees—battle for supremacy

We are tired of having tutors furnished for failing athletes

We are tired of these athletic cavalcades to induce more athletes to come to Northwestern

We are tired of all the efforts to make this the last resting place for the dumb but brawny boys

We are tired of being told that Northwestern needs more men

A QUOTATION--AND HAZING

"Nothing useless is or low;
Each thing in its place is best
And what seems but idle show
Strengthens and supports the rest."

Now then Mr Freshman how are you going to reconcile your ideas on hazing to this quotation from was it Longfellow?

You freshmen have just come from high and prep schools where you were "it" you capitals on both letters Mr Printer And what are you to date in college? Nothing as far as activities and even scholarship are concerned You are just starting all over again You have therefore no right to wear a feather in your hats and if a little hazing will make some of you who do not actually realize this so we say Go to it Mr. Sophomore

Physical punishment and hazing are not and should not be synonymous But a little harmless frolicking at your expense is nothing to weep about If you don't like to be hazed, do as you are told without expressing any emotion After all there is no pleasure in hazing a man who hazes unemotionally This may sound improbable to you but ask any fraternity man Instances are only exaggerated hazings and so a Greek letter man is a good man to consult on the hazing score

Suppose two pledgees are told to shake the "dead man's hand." One betrays no emotion even though he is sure he is shaking a dead man's hand Can fraternity men burst into guffaws about this? They cannot there is nothing to laugh at Suppose the other man says "Oh please, don't. I can't. Please please" The assembled brothers will roar with laughter. The same is true of hazing

And so it does seem as if the quotation which heads this editorial is generally correct But if you still disagree remember these two facts; next year you will be sophomores; and shortly many of you will go through more stringent hazing; the time honored fraternity initiation —*Boston University News*

ELIZABETH E. WARNER '27, Women's Editor

EDITORIAL

The CYNIC this week claims the [illegible] talking about itself as a [illegible] privilege for women. It feels [illegible] justified in doing so since [illegible] many girls already trying out [illegible] on the Board and only [illegible] of this number were able [illegible] the meeting of tryouts held [illegible].

No [illegible] everyone understands, in a [illegible] how to write up assignments. [illegible] filling the pages of the CYNIC. [illegible] who are not certain about [illegible] there are printed leaflets containing Rules for Reporters, [illegible] from any member of the [illegible] Board. One point in writing [illegible] cannot be overstressed. *Do not* [illegible] personal comment into news [illegible]. Write them according to [illegible] in big newspapers and hand [illegible] in the form of Communications addressed to the Editor.

Those who will make the Board [illegible] are those who hand in not only their regular assignments but [illegible] material as well. Everything [illegible] in is credited, whether it is published or not, and new members are chosen for both quality and quantity of work.

Vacancies on the Board are usually filled from the sophomore class, since sophomores who have been trying out since their freshman year have more experience and material to their credit. If any freshman shows unusual talent in the work she may make the Board her first year, however.

The main thing is to keep on trying. Do you know that there are several literary issues of the CYNIC published each year and stories and poems are in great demand for these? Judging from the quality of the work handed in up to date, Vermont women are going to do their share.

Last week a letter was published suggesting that Vermont should have a mascot and considerable comment was aroused. The prevailing opinion seemed to be that the suggestion was a timely one and that something should be done to bring about action on the matter.

If Vermont wants a mascot—and why should it not have one as well as other colleges and universities—the time to do something about it is now. More suggestions are wanted. What mascot would best typify Vermont? Of what advantage would it be to us? Let the CYNIC have your opinions, whether they are favorable or not. The first thing to do is to get everyone interested.

GLEE CLUB BEGINS WORK WITH ABOUT 45 VOICES

The first meeting of the Women's Glee Club was held Wednesday evening, October 14, at the Music House. Professor Bennett, music instructor, has charge of this year's work, which will be along rather different lines than formerly. The type of music selected consists, in part, of Swedish folk songs, ballads, etc.

The club consists of about 45 voices and rehearsals are held every Monday and Wednesday evening at the Music House from 7 to 8 o'clock.

Work has commenced on "Chorus of Priestesses from Salambo," a composition of Moussorgsky's, and on Dargomyzhsky's "Second Chorus of Maidens."

EPSILON SIGMA PLEDGES 12 SOPHOMORE GIRLS

Epsilon Sigma announces the pledging of the following sophomore teacher training girls on Tuesday, October 13: Gertrude Gilligan, Aileen Corey, Helen Laduke, Alice Conlon, Margaret Howgoon, Bernice Hatch, Theresa Burrett, Ruth Willis, Agnes O'Kane, Grace Kimball, Elsie Gray and Ethel Simms.

On Tuesday, October 20, Miss Patrick entertained the members of the Epsilon Sigma and the pledges at a party at her home at 11 Hungerford Street.

Phi Delta Zeta announces the pledging of Adena Thompson '28 of Middlebury.

COLLEGE PLAYERS TO GIVE "THE GOOSE HANGS HIGH"

December 31 "The Goose Hangs High" will be presented by Masque and Sandal and Wig and Buskin. Tryouts for the cast were held early in the week and announcement of those chosen for the parts will be made in an early issue.

"The Goose Hangs High," a portrayal of modern college life, has scored unusual success on the American stage, and promises to furnish splendid material for the college players.

If a sufficient amount of talent present at the tryouts seems to warrant it, a second cast will be chosen for another of the college plays.

A four-piece orchestra has been secured to play during meals at Commons Hall. In addition a barber shop and shoe-shine stand are soon to be installed.

Sabin Abell of St. Albans and Carolyn Hyde of Newfane were elected to the Faculty-Student Council from the Sophomore class, at a meeting held Monday.

The Catty Co-ed Says

Holy Crosses
And
Ver-mounters
Tread the sacred soil
Today.
Pray,
Oh pray
Ye silent ones
If ye scorn
To cheer
Rave
And tear
Ye mad 'uns,
If ye must
And make
Your shivers—
Rrrrrrr—
Into
Rah, Rah, Rah!
It's simple
Shiver once
And then
Say Ah!
Occasionally
Tell your
Farthest neighbor
What
College this is.

* * *

They'll remember.

* * *

Independence!
Co-eds
Declare-a-shun
Of all the Rudes
And rubes.
Can they do it?
Well—
They tried it
Last night
In the gym.

* * *

Cheer up
Fellars.
Boys used
To be boys.
But now—
Girls will be
Boys.

* * *

Wanted!
Homes for
Destitute or
Undecided frosh,
Now roosting
On the fence.
Going! To the
Highest bidder
(Dare I say—fibber?)

Y. W. C. A.

Miss Lois Robinson, president of the Y. W. C. A., was in Boston over the week-end, attending a convention of New England Colleges relative to American entrance into the World Court.

There is a large attendance in Miss Holbrook's class in rural leadership.

A Recognition Service will be held at Redstone, Sunday afternoon at 4 o'clock. New members are requested to wear white dresses.

Plans are being discussed for the annual Y. W. Bazaar to be held sometime in December.

Anyone who has original suggestions for the bazaar should submit them to the committee.

The first formal dance of the year, the Military Ball, will be held Armistice Eve, November 10. Tickets, which cost $2.50, can be secured from the committee, R. L. Thompson, E. C. Abbott, and B. M. Johnson. The admission into the ball is limited to 200 couples. Landi's Orchestra of Barre has been engaged to play.

MORTAR BOARD STARTS NEW MEMORIAL FUND

The Mortar Board dance held last Friday evening in the gymnasium was a most successful event. The proceeds have been given to the Dean Wasson Memorial Fund. This fund is to provide a free room at the Mary Fletcher Hospital for the use of U. V. M. women.

STUDENT UNION

At Student Union Saturday morning the usual business meeting took place and a Vermont song was sung. Nominees for the office of vice-president of Vermonters' Club were announced. They were Doris Harbour, Esther Stanley, Florence Smith and Arline Cushing, all of the class of '27. The Student Union Council made these nominations according to the system adopted last spring. The president then excused the upperclassmen and sophomores and gave a short talk to the freshmen.

An examination was given all freshmen women on the Student Union constitution Thursday at 4 o'clock in the Williams Science Hall lecture room, second floor. A second examination will be held later for those who were unable to be present at that time.

W. A. A. NOTES

The date for Fall Field Day has been changed from October 31 to November 3 and the program will appear in the next issue of the CYNIC.

Preliminaries in hockey will be played Monday, October 26: Seniors vs Freshmen, and Juniors vs Sophomores.

The tennis tournament is now in progress.

For those of the freshmen who are eager to earn points and who may not be thoroughly familiar with the point system, the following may be of interest. Points may be gained aside from making teams, in three ways:

(1) Fifty miles of hiking—50 points.

(2) Health cards—25 points each.

(3) Twenty-five hours of outdoor exercise—25 points.

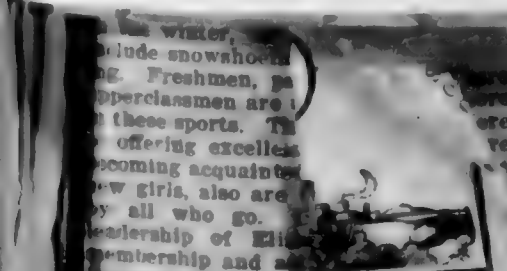
Required gymnasium work may not be included.

For girls not making a first team, but who win 400 points in one year or 600 points in two consecutive years, a special emblem in class colors (numerals inside a circle) will be awarded.

WOMEN DOFF GARMENTS AND MEN WEAR CORSETS

Men are now taking up corsets and waistline reducers, says Robert C. Stirton, president of a leading corset firm, after making a fashion tour to Europe. From Constantinople to London, everywhere he had gone, he has found women of fashion discarding surplus garments. To wear only two articles of apparel is the vogue today, he said.

"Women are returning," he said, "to garments that give a fuller expression to the natural body lines."



Mr. Stirton made a fortune in corsets, but refused to be dismayed by the disappearance of that article from milady's boudoir. Men have "stepped in" he asserts, and now use corsets and waistline reducers to keep themselves in shape to make an impression upon the fair ones.

Number 61 of a Series

The Vermont Cynic

MY DEAR GASTON

Many of the rules made for the guidance of freshmen at Vermont are foolish and intended to be so for the amusement of the old folks.

Some fellows are rather foolish without intending to be so, perhaps that is all in the viewpoint. Such are the ones getting out of classes via dictaphone. Those who agree with the czar of Dearborn that all History is bunk and those who have the pleasant advantage of realizing the superiority of youth as well as those who merely realize their own individual superiority to all rules these and perhaps a few others know that rules based on tradition are the bunk.

Then again there are those frosh mere and sad to relate those sophomores who peek upon freshman rules as the material for class struggles and who feel that the frosh are entitled to get away with anything they can. And there are those who forget.

A few of the rules however would seem worth remembering and enforcing. Such is that which forbids a freshman to precede an upperclassman through a door. The New Situation to the contrary notwithstanding respect for age and for station is sometimes desirable and this rule as we understand it rests upon the assumption that the upperclassman is entitled to a modicum of respect from freshmen. He does not get it.

Wherever when opportunity allowed it has been hard to find examples of obedience to the rule. The exceptions have arisen until they are the rule. A grand rush for best man wins and Old Nick gets the hindermost. The frosh are fast.

This is not individual observation. The matter has attracted quite general notice. If the freshmen wish to make it a matter of might quite probably the upperclassmen can enforce the rule to their benefit.

However a matter of respect and courtesy is a matter of courtesy. Offered and encouraged by the finest of upperclassmen the rule becomes a farce. It is not in the spirit of the rule. Neither is it in the spirit of the rule that freshmen are made ridiculous.

1927.

To the Editor of the CYNIC:

Many fine attributes have been given the buildings which share our campus. Williams Science Hall, Billings Library, the Old Mill and others have not been lacking in song and praise. Sometimes the great overshadow the small, and I should like us not to forget a little old, homely building which has done more for Vermont than any of us realize.

Many friends and relatives of the present student body became loyal Vermonters because of the atmosphere which the "Hash House" instilled into them. "Hash House!" A common expression, which carries tradition behind it as strong and as great in its way as that of the other beautiful buildings on our campus. It was in the "Hash House" that, among other things, the idea of Kake Walk was born.

Loyalty and tradition are gotten mainly through associations. In most colleges the freshmen dine and live together—the surest means of making them loyal college men. Our freshman spirit would be much improved if we could enforce these rules here at Vermont.

This year, in spite of the fact that many improvements have been made at Commons Hall, it is patronized by a relatively small per cent of the men students. It's the only place we have to get together socially to develop that spirit of unity and loyalty which is not the least of Vermont's traditions. Let's use it

MASSACHUSETTER

To the Editor of the CYNIC

In regard to a Vermont mascot What is the use of getting a new one when all we have to do is to revive the use of our old one?

I mean the old "Vermont Lion" The king of animals is the only thing good enough for the Queen of colleges—Vermont.

On the wall over my study table hangs a Vermont pennant that has been in my family as long as I can remember, and on this pennant is painted a large lion's head

In beauty, it is in the class with the Princeton Tiger, and certainly does not suffer in comparison.

Here's for instilling new life in the old Vermont Lion. How about it?

D. M. H. '26.

MOUNT ASSUMPTION FALLS BEFORE FROSH

While the varsity was fighting for honors at Springfield last Saturday, the freshman football team was also having its troubles with Mount Assumption at Plattsburg. Although Mount Assumption looked like winners in the first half, the spectators changed their minds in the second half when the Frosh caught the old Vermont spirit, and fighting as one man they gained their first victory for the Green and Gold.

During the first period the Assumption team seemed to have the best of the fight. The frosh took the ball on their own 20-yard line in the final period and started a series of smashing attacks which the Institute line could not stop, and marched steadily down the field until Robbins broke away for a pretty run off tackle, only to be downed six inches from the goal line by the fighting Conway. Here Mount Assumption held the frosh for three downs, but could not stop the invincible Robbins who went off tackle for a touchdown A moment later he kicked the extra point.

With only one minute to go Foster kicked off to Mount Assumption, the ball going over the goal line After three attempts at forward passes, Mount Assumption kicked the ball, going to midfield. Here Vermont's scrappy quarter, Donnelly, pulled a surprise when he hurled a pass to Montbriand, who galloped 50 yards for a touchdown. Robbins again kicked the goal Score, Vermont freshmen 14, Mount Assumption 0

The summary

Touchdowns, Robbins, Montbriand, goals, Robbins 2; referee, Varney Springfield; umpire, Coles, Middlebury; linesman, Whitmarsh, Burlington. Time, 10-12 10-12

There will be a meeting of the Senior class Tuesday afternoon at four o'clock in the Science Hall, for the purpose of electing members of the Faculty-Student Council

"HOW TO STUDY"
The Students' Hand-Book of Practical Hints on the Technique of Effective Study
by
WILLIAM ALLAN BROOKS

A GUIDE containing hundreds of practical hints and short cuts in the economy of learning, to assist students in securing MAXIMUM SCHOLASTIC RESULTS at a minimum cost of time, energy, and fatigue.
ESPECIALLY RECOMMENDED for overworked students and athletes engaged in extra curriculum activities and for average and honor students who are working for high scholastic achievement.

Some of the Topics covered

Scientific Shortcuts in Effective Study.
Preparing for Examinations.
Writing Good Examinations.
Brain and Digestion in Relation to Study.
How to Take Lecture and Reading Notes.
Advantages and Disadvantages of Cramming.
The Athlete and His Studies.
Diet During Athletic Training.
How to Study Modern Languages.
How to Study Science, Literature, etc.
Why Go to College!
After College, What!
Developing Concentration and Efficiency.
etc., etc., etc., etc., etc., etc., etc.

Why You Need This Guide

"It is safe to say that failure to guide and direct study is the weak point in the whole educational machine." Prof. G. M. Whipple, U. of Michigan.
"The successful men in college do not seem to be very happy. Most of them, especially the athletes are overworked." Prof. H. S. Canby, Yale
"Misdirected labor, though honest and well intentioned may lead to naught. Among the most important things for the student to learn is how to study. Without knowledge of this his labor may be largely in vain." Prof. G. F. Swain, M. I. T.
"To students who have never learnt 'How to Study,' work is very often a chastisement, a flagellation, and an insuperable obstacle to contentment." Prof. A. Inglis, Harvard.
"HOW TO STUDY" will show you how to avoid all misdirected effort
Get a good start and make this year a highly successful one by sending for this hand-book and guide NOW.

EDITED BY DANIELS '27 Sporting Editor

GREEN AND GOLD HOLDS SPRINGFIELD TO 6-0

Vermont Defense Prevents Red and White Touchdown—Maddox Kicks Two Goals

[illegible] goal line.

The low score came as a surprise [illegible] Springfield [illegible] Harvard to a low score and succeeded in crossing the Vermont goal line.

The [illegible] Springfield [illegible] Vermont goal [illegible] Springfield with the crowd yelling for [illegible] failed a [illegible] Vermont took the ball on their 31-yard stripe. Thompson tore off two yards but fumbled, and Mahnkin made six yards for the Red and White.

With the [illegible] Green and Gold [illegible] kicked and the ball hit the [illegible] Vermont [illegible] through, throwing [illegible] for a 10-yard [illegible] Vermont [illegible] yards on [illegible] went [illegible] Vermont's defense held here and in order to score Maddox dropped back to the 31-yard line, booting the ball over the goal for Springfield's first score.

The second period started very much like the first, with the heavy Red and White pushing Vermont back to the shadows of her goal posts, where the attack was halted. Several times the Springfield team made their way down the field, once when Maddox picked up a fumble and raced to our 2-yard line where Vermont held and kicked out of danger. Maddox attempted to kick the goal but failed. However, on the next play, Springfield got the ball on Vermont's 1-yard line, where Bob Berry hurled his backs four times against the Vermont defense. They were turned back four times, being no farther advanced on the last down than on the first.

Springfield scored again in the third quarter when they brought the ball to the 3-yard stripe. Beasley intercepted a pass but finding it to no advantage to pound against Vermont's stone wall, Berry gave Maddox a chance to use his toe again, this time making good from the 24-yard line.

The Springfield Union says, "Vermont's defense under its own goal was superhuman. Springfield gained enough ground for six touchdowns, but crossing the line was impossible. The Vermont team had no individual star but showed a spirit which could not be broken."

On account of rain, the Junior and Sophomore class pictures were not taken last Saturday.

Two dances are to be held by honorary societies during November, besides the Military Ball. Cap and Skull is to hold one on November 6. Fantastic posters advertising the event have been placed on the bulletin boards and are drawing much attention. Boulder is to give a dance the day after Thanksgiving.

So little humorous material has been handed in to date for the Comic issue of the CYNIC, that it will be impossible to have it. The next issue of the CYNIC will be an ordinary news issue.

Diamond, Field and Track

Comparative scores do not mean a thing when it comes to determining in advance the chances of a team or the probable score of a game. And yet it is sometimes good parlor sport to play with the figures in spare moments.

—V—

Vermont would defeat Middlebury something like 74-0, if comparative scores meant anything. As it is, the Green and Gold will be well satisfied with two touchdowns margin on even the [illegible]

—V—

Carrying it a bit further, Springfield defeated Rensselaer 24-0 and Vermont, which would give us a decided margin over Rensselaer. And since Vermont's margin over Rensselaer was 12 points less than the margin of Springfield, the figures would give the Green and Gold a mathematical victory over the [illegible]

—V—

As for today's game, Holy Cross defeated Harvard only 7-6, while the figures give Vermont 6 points over Harvard, which means, of course, that the Purple is in for a whipping. And again, comparing the showings made by Rensselaer and by Vermont at Springfield, the game November 7 can be counted of as a victory [illegible]

—V—

The trouble is that this doesn't mean anything, for a variety of reasons [illegible] When the whistle sounds, however, we can comfort ourselves with the thought that we have Middlebury, Norwich, St. Michael's, Harvard, Holy Cross, Rensselaer, et als., whipped to a frazzle on the basis of comparative scores.

—V—

[illegible] back to earth again, it looks as though the Red and White had the 6-0 habit. While the Green and Gold is reported weak on the offense, the light line held so tight that only Tex Maddock's busy toe counted for [illegible]

—V—

The Purple comes to Burlington today flushed with three straight victories, one of which was over Harvard Saturday. For all that we have written this game into the win column, perhaps it would be as well to leave the billfold at home, and take only an athletic ticket and change for a protection to the feet.

—V—

West Point outplayed Notre Dame in every department, and for the first time since Rockne's skill and the courage of his charges could not [illegible] with the tide of open aggression. The "Four Horsemen" are missed.

—V—

It was a hard day for the big three. Princeton held Annapolis to a tie, but Yale and Harvard both lost, while Columbia, rated one of the strongest teams in the East, was taking bitter medicine at the hands of Ohio.

—V—

Middlebury and Norwich, playing in their class, both won. The Blue and White smothered St. Michael's entirely, while the Cadets managed to down Tufts.

—V—

With the return of "Art" Stone, there are now five eligible competitors for five places on the cross-country team.

—V—

St. Louis' 26-7 victory over Drury means little to us to whom Drury is a name met with seldom and casually.

—V—

How many noticed that Center was defeated Saturday 15-13 by Michigan Aggies? Not long since, the little Blue Grass college owned the front pages. Now it is just one of the "other scores." Such is the fame which comes from leaving one's own class.

—V—

Some read in the World's series decision that "youth will be served." Others that sentiment has no place in business. Some feel that the best team won, others that it did not. One worldly-wise diner, who knew the whole inside of the matter, on the afternoon of the last game, told the patrons of a restaurant that it was all business.

—V—

"Of course," he said, "they probably don't get together and decide to throw the game, but it's easy for the manager to tell his pitcher to 'ease up and let them hit a little' to make the series last and bring in more money."

—V—

Any man who sees anything crooked in this year's series wins the fur-lined meskit as the world's champion doubting Thomas. It's all right to come from Missouri, so long as one comes early enough, but it must be terrible to see so clearly the evil in all one's neighbors, and to realize so well that there is no honesty in the world.

—V—

It must be unpleasant to get that way, but it should be made criminal to advertise it. Isn't there some law about nuisances?

CADETS VS. VERMONT NEXT WEEK'S TREAT

The stage is slowly being set for what should prove to be one of the most bitterly contested games of the present football season, when the Green and Gold meets its traditional rival, Norwich, at Sabine Field, Northfield, next Saturday.

The Norwich team has been developed slowly under the watchful eye of "Josh" Laird, and came into a realization of its power last Saturday when Tufts was downed, 13-0, in a fast game, in which Norwich proved especially adept at the aerial game. The Soldiers, while not especially heavy, are fast and shifty and will cause a lot of trouble before the sun has set.

Kane, midget quarterback, will be closely watched, as will Bill Andrews who was recently shifted to the backfield. Andrews, while he weighs but 150 pounds, is a most elusive ball carrier, and is a hard man to down. Rice at fullback is also a powerful, plunging back, and is well supported by a very aggressive line. Norwich has a fine reserve list, and already the boys from down country are boasting of what their team will do to the Green and Gold.

Coaches McAvoy and Dresser are saying little but working steadily, and with results, to build up a snappy offensive for the Green and Gold. Vermont men really found themselves in the Springfield game, the defensive work being of an almost miraculous type. In the Syracuse game also the defensive work was of a high caliber. It remains, now, to polish up a running and overhead attack, which will be a constant menace to Norwich.

All of the injured are getting back into shape, and barring any mishaps in the Holy Cross game, Vermont should be as fit as the proverbial fiddle when she takes the field at Northfield.

It is confidently expected that the student body will turn out en masse to make the trip to Norwich and to encourage the team and coaches with their support.

NTERCLASS TRACK MEET POSTPONED

The [illegible] meet between the freshmore classes, schedly part of this week, postponed indefinitely beity activities and the conditions. However, be run off as soon as should be planned for everyone interested. ss-country practice is y, in preparation for nst Middlebury on the November 14, preceding with the Black Panternoon. The squad is ill very small, and more men are eded at once.

FRATERNITY RUSHING CONSIDERED PROBLEM

Now that the high-pressure salesmanship of fraternity rush week is over with many campus leaders are wondering how they can doctor up the whole system of freshman rushing.

During the opening college days the desirable freshmen are courted by the well-dressed mob. For a period, lasting in various colleges from two days to a week they are caressed by courteous upper classmen and stampeded by scheming cliques. During this abnormal period of excitement they choose their companions for the following four years.

"Mistakes and a lot of them have been made this rush week," declares a western college student. Hasty judgments have been the order of the ceremonies, men and maids were judged after a few moments of trivial chatter, 'first appearances' counted for everything while no inward look at the real person could be obtained." In addition to this an eastern editor cites the harmful effect on the freshmen of a distorted sense of values. ". . . . . The freshman will suddenly learn that he has come here chiefly to become affiliated with a Greek letter organization to which any sort of education is only secondary in importance, and being a freshman he will believe this. The glamor of the chapter house, the thrill of the fraternity man's automobile which is at the freshman's service, the gracious attention of those unbelievable sophisticated individuals—the upper classmen—will leave him as dizzy and elevated as does a heady wine

Deferred rushing is at present the most hopeful solution. Last year the Interfraternity Council of Columbia decided to defer rushing until after the Thanksgiving holiday. The Dartmouth faculty passed a ruling which postponed rushing until the sophomore year. The faculty of the University of Syracuse strongly recommends second semester rushing. At Colgate University the *Maroon* calls for a change from the conventional method of rushing and mentions postponed rushing as a possibility. A Student Commission of Underclass Relations is now working on a new system at that university.—*New Student.*

ARTIFICIAL EMOTIONS MORE USUAL IN WOMEN

Mental hygiene tests given to 1,000 students in various colleges this fall have revealed that women have far more artificial emotional outlets than men

The experiments, devised by Dr. Donald A. Laird, Associate Professor of Psychology at Colgate University and his students, show that twenty per cent. more women than men pretend mental fatigue, while ten per cent. more women are introvert. Women are more neurasthenic, but hysteria was found to be about as common with one sex as with the other.

Although women showed to less advantage than men in the tests, extreme emotional instability occurred more frequently among the male students examined.

Dr. Laird suggests that the preponderance of insanity among males in the general population is not a true test of emotional equipment for the reason that men are more exposed to the hazards that result in insanity.

It has been shown, the investigators point out, that eight times as many men as women are confined for mental diseases resulting from physical causes and five times as many as a result of social diseases. When these classes are eliminated, the experimenters assert, the scale tilts slightly to the other side and more nearly agrees with the results of the tests among the college students.

The experimenters are not satisfied that this disparity is due to sex, but incline to attribute it to a difference in social conditions.

"From earliest childhood," says Dr. Laird, "the restraints and training of the sexes differ, and the differences we find in middle adolescence may be a reverberation of this early environment. Our data cannot be interpreted as showing that there are innate differences. The trend of opinion is that the emotional outlets such as we are testing are acquired."

From "Quaker Town"

Powder-compacts for men have made their distressing appearance on the campus of Columbia University, according to a report published some days ago in the New York newspapers.

We do not know whether the rumor is true or not, but, if true, it does not amaze us. The powder-compact is one of the few dainty accessories which were still lacking to complete the outfit of those well-dressed, so-called "collegiate" young persons of the male persuasion who are wearing waistcoats of flowered cretonne, "Oxford bags," and neckties and sweaters resplendent with colors beside which the rainbow and the peacock's tail pale into anemic insignificance.

We are witnessing a strange but interesting transformation or rather a process of exchange, in the appearance of some juvenile representatives of the sexes. Certain girls assume an increasingly masculine aspect, what with boyish bobs, convicts' neck-shaves, "spit" curls in the form of side-burns, tight little helmet-shaped hats, and skirts which are so short as to resemble knickerbockers as closely as possible. The schoolboy's "knee-pants" themselves are worn by the fair ones wherever such attire is not strictly taboo. The smoking of cigarettes is common among those hardy sisters, and their language is coarsening rapidly.

On the other hand, some young men apparently are striving hard to be taken for young ladies. They wear their hair long and sleek; their trousers are almost as long and wide as mid-Victorian skirts, and gaudy colors, once the monopoly of femininity, are quite the thing among them. And now, if the story from Columbia can be trusted, the powder-compact is coming in. Perhaps the lip-stick and eyebrow-pencil will follow.

But does it mean that all the lads of the land are becoming effeminate and all the lassies too maculine? We do not think so.

The same sort of phenomenon has puzzled observers of several nations at post-bellum periods throughout history. During a war, masculinity is at its apex; it is merely in the nature of things that a reaction should set in when the smoke of battle clears away and the martial din subsides. Alarmists have thrown their hands heavenward and rolled their eyes in the same direction whenever the youth of their particular race threatened to degenerate following a war. Most of those nations, however, are still alive and kicking, thank you, and the old world, which is about 1,200,000,000 years of age, according to the recent statement of a German scientist who waited until the late Mr. Bryan was safely dead and buried before he made the announcement, is rolling merrily on.

Men still build bridges, go "down to the sea in ships," erect buildings, construct railroads, open up new countries, invent machinery, and generally perform the sturdy tasks of the world. Oxford bags would get in their way, and there are not enough powder-compacts on earth to take the shine off their noses.

Women still become mothers, take joy in sustaining their husbands and children with excellent food, make devoted nurses, and render the thousand and one other gentle services for which their brothers, sons and lovers call them blessed. They have not time to smoke cigarettes, and are too wise, proud and modest to shave their necks or expose their knees to the public gaze.

Young people of both sexes who go to inordinate extremes in modes, manners and morals, constitute but the frivolous fringe of humanity in any generation. It presently disappears and is heard from no more.—*Temple Weekly.*

1926 FOOTBALL

With the exception of two dates the football schedule for the fall of 1926 is complete, and was released yesterday in the special 12 page University of Vermont edition of the Burlington *Daily News*.

The schedule for next year is the best-balanced in recent years, and offers the desirable combination of close, hard games with the chance of victory.

Except for the opening game and the final contest Thanksgiving day, the final dates follow:

Sept. 25—N. Y. U., Columbia or Penn
Oct. 2—Syracuse at Syracuse
Oct. 9—Clarkson at Burlington
Oct. 16—Springfield at Burlington.
Oct. 23—Tufts at Medford.
Oct. 30—Norwich at Burlington.
Nov. 6—R. P. I. at Burlington.
Nov. 13—Midd. at Middlebury.
Thanksgiving Day—Pending.

BOULDER SMOKER

A neutral period was declared last Thursday night for the Boulder Smoker. Among the speakers were "Mickey" McMahon, a former cheer leader at Vermont, Mayor Beecher, and Coach McAvoy. "Mose" Moore and his assistants led cheers and songs.

TAUSSIG HONORED

Vermont students in the department of Commerce and Economics who have spent many hours in the pre-examination periods studying the works of Professor Taussig, famous Harvard economist, will be interested to hear that he has been made a Corresponding Fellow of the British Academy.

This learned body which receives from Parliament a yearly subvention of £2,000 for the promotion of research was established in 1902 with Lord Roseberry, W. E. H. Lecky and James Bryce—as he was then—among its incorporators. The Earl of Balfour is now its president. Its membership is made up of 150 British Fellows and about 40 corresponding Fellows of other nationalities.

$25,000 DAMAGE TO DEWEY HALL BY FIRE

Fire starting about 5.30 last Saturday morning, gutted the upper stories of Dewey Hall at Norwich University and caused damage estimated unofficially at about $25,000. Authoritative statements as to the cause of the blaze have not yet been secured, because those who discovered the fire are still busy fighting the flames, but round about reports discredit the theory that a cigarette, carelessly discarded at last night's smoker, was responsible, and locate the cause in the electric wiring system. Several members of the University fire brigade were overcome by smoke but none was seriously injured.

The fire, the first large blaze since the 1866 conflagration which destroyed the entire University and resulted in transferring the institution from Norwich to Northfield, was discovered at about 5.30. Just who made the discovery cannot be learned definitely but within a few minutes after the alarm Bugler Streeter sounded fire call and aroused the Corps. Before the Hill knew what was happening, a handful of cadets had entered Dewey Hall and began the fire-fighting. A. F. Rice, Nock, Woodberry, Osgood and Todd rushed to the [illegible] room. Handicapped by [illegible] equipment they were unable to retard the flames. Several of this group were overcome by smoke, and according to reports, had to be carried from the building.

The town fire department responded within a few minutes after the sounding of the alarm and was assisted by the entire Corps and half of the faculty. The flames had gained such headway by 6 o'clock that it seemed that the entire building would be [illegible] and spectators were fre-

NEW PHONE NUMBERS

The New England Telephone Company has installed pay stations in most of the fraternity houses in accordance with its new ruling which allows only pay stations or metered service in dormitories and fraternity houses. The new numbers are as follows:

Alpha Tau Omega	2905
Delta Mu	328
Delta Psi	741
Kappa Sigma	430
Lambda Iota	762
Phi Delta Theta	2545
Phi Mu Delta	2665
Sigma Alpha Chi	2983
Sigma Nu	1319
Sigma Phi	1955
Tau Epsilon Phi	2880
Phi Chi	488

Telephone numbers have not been obtained from Zeta Chi, Sigma Delta and Kappa Alpha Theta, but will be published as soon as possible.

SIG ALPH HOUSE WILL BE OPENED NOV. 6-7

Tea Dance Saturday for Faculty and Students—Open House Sunday

Sigma Alpha Chi fraternity will formally open its new house on November 6 and 7. The chapter home is located at 56 Summit Street and was formerly occupied by Prof. Samuel Emerson.

According to announcement, on the afternoon of the first date, there will be a tea dance for all students and members of the faculties of the University. A fraternity pledge dance will be held in the evening. During Sunday afternoon and evening, the house will be open to the general public.

The new Sigma Alpha Chi house which was acquired by the fraternity last spring, was renovated and furnished during the summer. Due to open house nights and rushing, the house warming has been delayed.

SALUTE TO NATIONAL AND UNIVERSITY COLORS

Preceded Holy Cross Game—Put on by Scabbard and Blade Society

Scabbard and Blade Society initiated an impressive opening of the Holy Cross game last Saturday. Just prior to the lining up of the players for the first kick-off, the band marched onto the field and faced toward Mt. Mansfield.

From the eastern end of the gridiron, the national and university colors were brought onto the field by two cadet officers with a guard of cadet sergeants.

The colors and their escort proceeded to the center of the field, where the band saluted them with the "Star Spangled Banner."

The large crowd arose to a man and paid homage to the nation and university. At the close of the anthem, the colors were retired and the band took its place in the stand.

The ceremony received very favorable comment among the crowd and was the subject of an editorial in Monday's *Free Press*. There is a feeling in some quarters, that all future football contests at Centennial Field should be opened by such a demonstration.

Between halves, while the band played, the students descended from the stands and took part in a snake dance around the field until they were exhausted. At the close of the game the crowd remained in the stands to sing "Champlain." The cheering squad was very effective throughout the game

Student Body Going to Northfield at Noon for First State Game

Green and Gold Meets Cadets This Afternoon in First Tilt of State Championship Series—Teams Appear About Evenly Matched This Year

CLASSES 7:30-11:20; TRAIN LEAVES AT 12

When the varsity football team goes to Northfield Saturday, it will not be the lone representative of Vermont. Due to the efforts of Boulder Society, a special train has been chartered, and the band, together with many students, is planning to make the trip.

In order to reach Northfield on time, the train is leaving Burlington at noon. Classes Saturday will commence at 7.30 and run straight through until the last one, which ends at 11.20. The train should reach Northfield by 1.30 p. m. at the latest. As the game is not scheduled to start until 2.30, this allows plenty of time. The train is returning to Burlington as soon after the game as possible, so that it will be back in Burlington by 7 o'clock Saturday evening.

Round-trip tickets were sold in the chapel last Tuesday afternoon, and they have been on sale all the week by Boulder Society and at the Hash House.

At the Smoker held before the Holy Cross game, it was announced that busses were to be hired for the Norwich trip. This was the original plan, as when a special train was chartered two years ago, it was necessary that 300 students first signify their intention of making the trip. But this year only 100 names are necessary, and as approximately 65 men are going in the band, it was considered safe to charter the train. This makes for much greater convenience and comfort, as in this way the trip can be made regardless of the weather.

Two years ago, when Vermont played Norwich at Northfield, Vermont had a strong team. At that time, approximately 400 students made the trip. This year, with Norwich having an even chance to win, every Vermont man will want to be at Northfield and do his bit to back the team.

SAYS GOOD STUDENTS NEED MORE ATTENTION

Dean of Iowa Graduate School Advocates Program for Gifted Students

Dean C. E. Seashore of the Graduate School, University of Iowa, addressed the Research Club, Friday evening of last week on methods of encouraging the unusually gifted student.

Dean Seashore pointed out the fact that our colleges are doing more for poor than for good students. He advocated original and independent work for the few who are qualified for such work. He also discussed methods of selecting those few.

He has developed a program to carry out his ideas, containing fourteen points, as follows: A special entrance examination to select material; departmental examinations to orient students within the department; sectioning of classes by ability; organization of instruction to permit

(Continued on page 4)

Vermont goes to Northfield today! The special train leaving Union Station this noon is going to be packed to the luggage carriers, and the 65 piece band will help to make the hills around Sabine Field resound as loudly with evidence of Vermont fighting spirit as they did at Centennial a week ago.

The Norwich Cadets, winning over Tufts and Lowell Textile on the last two Saturdays by 120 and 130 scores, thus broke into the winning column for the first time in two seasons and now have high hopes to "stand Vermont on its head," to quote the *Gardens*. However, the Green and Gold has a singular aversion to such an abnormal disposition of its anatomy and will make strenuous efforts to have the outcome of the game anything but that.

It will be a hard-fought contest, there is no doubt of that and no dope-sters will do much loud talking till the final whistle blows, in spite of rumors to the effect that Northfieldites are giving 2-1 odds in favor of their gridsters.

Very little can be said in comparison of these teams from the season record. Dartmouth has been the only opponent in common, by whom both were completely snowed under. Vermont had a nine-point advantage in the final result, but the weather conditions were totally different. The locals have won but a single game, a 7-point margin over Clarkson in the opener.

Vermont had just reason to wear a grin when Springfield failed to push

(Continued on page 6)

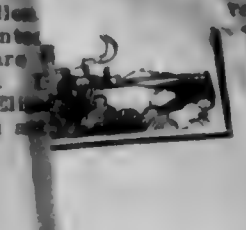
CONFERENCE OF HIGH SCHOOL EDITORS TODAY

The University is conducting a conference today made up of the editors and business managers of high school papers throughout the State. English teachers and school principals are also taking active part.

This morning President Bailey will extend a greeting to the delegates, following which Mr Crockett will give a definite idea of the purpose of the meeting. Problems of the school paper will be taken up from the standpoint of both editor and business manager by Elwin Twombly, editor of the St Johnsbury *Academy Student* and by Lawrence Clayton, business manager of the Bennington *Calamogan!* A general discussion will take place until noon.

The delegates will dine together at the Hotel Vermont and the afternoon meeting will take place at the roof garden at which time Miss Georgia E. Kauffman of Brattleboro high school will speak on the relation of the English department to the school paper. This will be the theme of discussion throughout the afternoon.

The conference will close this afternoon early enough to allow those who so desire to return home tonight.



JEROME DAVIS WILL SPEAK ON WORLD COURT

It is expected that Jerome Davis will be on the campus November 9 and will speak at a convocation in the evening on the World Court. In preparation for this Professor Carroll will address the Women's Student Union.

Following the convocation the subject will be discussed in those discussion groups which are now organized and also in forums.

Literature can be obtained on this subject at the "Y" office.

"Everything's jake" when you smoke P. A.

TROUBLE'S a bubble, just as the song says. And you can stick it with the stem of your old jimmy-pipe, filled to the brim with good old Prince Albert. A remedy? It's a *specific!* Ask any jimmy-piper who ever butted into trouble.

Cool as the zone-of-kelvination you read about in the refrigerator ads. Sweet as the kiss of spring on a winter-weary brow. Fragrant as locust blossoms. Soothing as a cradle-song. *And*—P. A. can't bite your tongue or parch your throat. The Prince Albert process fixes that!

Get on the sunny side of life with a jimmy-pipe and P. A. Tie a tidy red tin to trouble. Smoke the one tobacco that's got everything you ever wished for—Prince Albert. Quicker you get going, the sooner your worries will be over. Men who thought they never *could* smoke a pipe are now P. A. fans. You'll be a cheer-leader too!

PRINCE ALBERT

—no other tobacco is like it!

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

Look at the U. S. revenue stamp—there are TWO full ounces in every tin.

DRAMATIC CLUB MAKES DEFINITE PLANS FOR YEAR

The first dramatic club meeting of ... year was held October 22 at the Kappa Alpha Theta House.

A short business meeting was first held at which it was decided that the club would take entire charge of the Thanksgiving reading for vespers for the Y. W. C. A.

The matter of a Christmas miracle play, under the direction of the Dramatic Club, was also discussed, as well as the class plays, which are to be presented sometime before the Easter recess.

The secretary urgently requested that all dues be paid as soon as possible, in order that all outstanding obligations be attended to.

After the business meeting, a short entertainment was presented, the Misses Della Martin and Marian Sargent rendering a duet, "Out Where the West Begins," followed by the reading of a short form of the play "You and I," after which the meeting was adjourned.

With the Fraternities

Kappa Alpha Theta

The engagement of Merle Smally '22 to Philip Keeler was announced at the regular meeting Monday evening.

Dorothy Heffron '25 was in town over the week-end.

The alumnae entertained the active chapter with a luncheon last Sunday evening.

Delta Delta Delta

A bridge party and shower were given to Margaret Kennedy ex-'27 at the chapter rooms Monday evening.

Alpha Xi Delta

Kathryn Cox Holway '25 was in town over the week-end.

Upsilon Chapter entertained Alpha Pi Chapter of Middlebury at the chapter rooms. Mrs. Myrick gave an interesting talk on her trip to Europe.

Alpha Chi Omega

Alpha Iota Chapter announces the pledging of Claire Currier and Catherine Armstrong, both of the class of '27, on October 25. The service was followed by a pledge breakfast in the chapter rooms.

Pauline Burbank Lyons '24 has returned from the west and is now at home in Plainfield.

Phi Delta Zeta

A tea was given to the patronesses at the new tea room on Pearl Street October 22.

Y. W. C. A. SECRETARY WILL ADDRESS WOMEN

An innovation in convocations is scheduled for next Thursday at 4 p. m. when Miss Anna Clark will speak to all the women of the University. Miss Clark is rural secretary of the Young Women's Christian Association, but, as those who know her will testify, her interests are not limited by her position. She has traveled widely and has the charming ability of passing on her experiences. Maqua girls well remember her appreciation and interpretation of poetry.

Miss Clark will be at liberty for group or individual conferences Wednesday and Thursday mornings. Appointments may be made through Harley Armstrong at Redstone (tel. 2942). It is unfortunate that the convocation comes at the end of her visit but it is hoped that as many as time permits will accept this opportunity for interviews upon the recommendation of those who know Miss Clark.

WOMEN'S STUDENT UNION MEETS IN CHAPEL

Last Saturday morning after the usual business meeting, singing of Vermont songs and announcements, Mr. F. D. Abernethy addressed the Student Union body, speaking on the "Opportunities for Women in the Business World," stressing in particular the opening for women in the field of advertising and showing the need for art and imagination in business. Vocational talks are greatly appreciated by the students.

Doris Harbour '27 was elected vice-president of Vermonters' Club to take the place of Ruth Robinson ex-'27.

An examination on the Student Union constitution was held last Thursday in the Science Hall for all those who were unable to take the first examination.

There will be tryouts for song leaders in Student Union, Saturday, November 7. All who wish to try out should sign up on the bulletin board in the "Y" room. Show your interest and sign up!

Nathan Dauchy '26 of Townshend is acting as coach of the Women's Rifle team.

FALL FIELD DAY OF W. A. A. ON TUESDAY

Tuesday, November 3, is the scheduled date of Fall Field Day. A very interesting program has been planned. After the finals have been played off there is to be a picnic supper at Grassmount. The program follows:

FALL FIELD DAY, BACK CAMPUS. 4 P. M.

Hockey finals, referees, Misses Blanchard, Mabel Goodwin, Corinna Somerville.
Volley ball, referees, Misses Cummings, F. Hard.
Tennis, referee, F. W. Guild

GRASSMOUNT 5 P. M.

Song Contest
Picnic Supper
Sweet potatoes Hot dogs Pickles
Pumpkin pie Coffee

Around the Bonfire

Toastmistress F. Hard '23
A Word from Our Director, Miss Cummings

The Field and Gym, Corinna Somerville '25
A Word from our Coach, Miss Blanchard
Coming Attractions, Frances Burditt '26
Awarding of emblems
Prize for Song "Champlain"

Preliminaries in hockey were played off Monday, October 26. The seniors defeated the freshmen 2-0 and the sophomores tied the juniors 0-0. The following is the line-up:

Seniors

C. F. Burditt, R. I. Hazen, L. I. Bertholf, R. W. Symonds, L. W. Herberg, C. H. Fassett, R. H. Weaver, L. H. Northrup, R. F. Palmer, L. F. Hapgood, G. Mathewson.

Sophomores

C. F. Morrissey, R. I. Martin, L. I. Witters, R. W. Burns, L. W. Hayes, C. H. Stevens, R. H. Mildon, L. H. Anderson, R. F. Pingree, L. F. White, G. Whitney.

Juniors

C. F. Teachout, R. I. Eayres, L. I. Ryan, R. W. Tyler, L. W. Markle, C. H. Cushing, R. H. Bagley, L. H. Parker, R. F. Bean, L. F. Sprague, G. Thorne.

Freshmen

C. F. Everest, R. I. Hubert, L. I. Lanou, R. W. Morgan, L. W. Canning, C. H. Haskins, R. H. Bassett, L. H. Hazen, R. F. Perelman, L. F. Cottrell, G. White.

Tests were given in tennis, hockey, and volley ball on Wednesday. Each player's mark was determined this week, also.

On Tuesday and Wednesday, class volley ball teams played. Tuesday, the sophomore and freshman and Wednesday, the senior-junior.

Soccer and biking will begin next Wednesday. Everyone is urged to sign for her choice before that date. Teams will be picked at the earliest opportunity and games will be played off if the weather permits.

"It's a great aid to scholastic efficiency"

ONE professor makes this remark, and countless others are saying the same thing. They know the value of a typewriter as a time-saver, as a means of compiling data, and as a help in the expression of thought. Then too, it frees the "prof" from that tedious task of deciphering longhand, and keeps him in perfect "reading humor." And perfect "reading humor" tends to mean better marks.

Attempt Being Made to Concentrate Student Opinion Behind World Court

...crystallize a public ... American partici... Permanent Court of ... is now being con... the colleges and uni... country.

...A and Y. W. C. A. are ... their energies to bring ... a successful conclu... this fact and the fact ... 15, 1925, the Senate ... ition fixing December ... date for the considera... Swanson's resolution pro... American adhesion to the ... with the Harding-... reservations, it seems ... ects of this whole problem ... presents itself is highly ...

... at the development of the ... idea, from the time of ... ion of the Covenant of the ... Nations to the present, ... gradual development of an ... world peace.

... foundation upon which the ... Court of International ... was built is found in Article ... League Covenant: "The ... shall formulate and submit to ... Members of the League for adop... plans for the establishment of a ... Court of International ... The Court shall be competent ... and determine any dispute of ... international character which the ... parties thereto submit to it. The ... may also give an advisory opin... upon any dispute or question re... to it by the Council or by the ... Assembly.

On the basis of this authority, the Council of the League of Nations set up a committee of jurists to formulate a statute for the court on February 13, 1920. The report of this committee was accepted with amendments by the First Assembly of the League on December 13, 1920, and was submitted to the nations of the world with the Protocol of signature for acceptance on December 16 following.

The first selection of judges for the court was completed September 16, 1921, and the preliminary session of the court was held at The Hague on January 30, 1922. Since this preliminary session, there have been four regular and four special sessions of the court.

Prior to June, 1925, the court had handed down five judgments and ten advisory opinions, dealing with important questions of international relations.

Forty-eight states have signed the protocol of the court and twenty-three of those states have signed the "optional clause" of the protocol providing for compulsory jurisdiction of the court in cases arising between the states thus signing. Every state of any consequence in the world except the United States, Germany, and Russia, has become a signatory of the protocol, and it seems apparent that Germany will soon be added to the list.

The organization of the court is provided in the statute attached to the protocol. The court consists of fifteen members, eleven judges and four deputy judges. The deputy judges sit as members of the court only at such times as it is impossible for the regular judges to attend the sessions.

The members are elected by the Council and Assembly of the League of Nations by a majority vote in which each chamber votes separately. Nominations for the purpose of this election are made by the members of the Permanent Court of Arbitration (The Hague Court) without regard to nationality, from among persons of high moral character who possess the qualities required for high judicial position in their respective countries.

(Continued next week)

At the meeting of the Aggie Club Tuesday evening Dean J. L. Hills addressed the members on the relationship of the University to the agricultural conditions of the State.

Such progress has been made on the roof and tower of the Ira Allen Chapel that it is expected interior work will continue through the winter. As things now look, though every detail will not be completed, it is probable that the organ will be installed by Commencement and that dedication will then take place.

The annual Aggie Harvest Festival dance was held last evening at the gymnasium. There was a large attendance and the whole affair was a success.

MILITARY BALL FIRST FORMAL DANCE OF YEAR

Landi's Orchestra Will Play and Champion Drill Squad Will Do Its Stuff

Scabbard and Blade Society announces the first big event in the social calendar, the annual Military Ball, to be given Tuesday evening, November 10. The committee in charge has been working on the plans for several weeks now and all indications point to a successful function.

Landi's Orchestra from Barre has been engaged to furnish music, and the champion drill squad of the state, under the leadership of R. N. E. Cass, will be present to give an exhibition.

The dance will be a formal affair, either uniforms or tuxedos being worn and will last from 8:45 to 1 o'clock. Refreshments will be served.

Tickets may be bought for $2.50 from the members of the committee, Thompson at the Delta Psi House, Abbott at Sigma Nu Lodge, or Johnson at the Phi Mu Delta House.

The men's rifle team held its first meeting in the gymnasium last Tuesday at which several candidates reported. Manager Morton announced that about 20 matches would be fired this season, commencing December 19.

R. N. E. Cass '26, second lieutenant Infantry, Reserve Corps, who graduated from the R. O. T. C. here last year, has been appointed an instructor in Freshman Military.

Final tryouts for the Men's Glee Club were held at the Music House Tuesday night. About 20 men were present. Although there is much good material this year, it is very unevenly distributed, there being as many baritones as all the other parts together.

Do You Know?

"HOW TO STUDY"

The Students' Hand-Book of Practical Hints on the Technique of Effective Study

by

WILLIAM ALLAN BROOKS

A GUIDE containing hundreds of practical hints and short cuts in the economy of learning, to assist students in securing MAXIMUM SCHOLASTIC RESULTS at a minimum cost of time, energy, and future. ESPECIALLY RECOMMENDED for overworked students and athletes engaged in extra curriculum activities and for average and honor students who are working for high scholastic achievement.

Some of the Topics covered

Scientific Shortcuts in Effective Study.
Preparing for Examinations.
Writing Good Examinations.
Brain and Digestion in Relation to Study.
How to Take Lecture and Reading Notes.
Advantages and Disadvantages of Cramming.
The Athlete and His Studies.
Diet During Athletic Training.
How to Study Modern Languages.
How to Study Science, Literature, etc.
Why Go to College?
After College, What?
Developing Concentration and Efficiency.
etc., etc., etc., etc., etc., etc., etc.

Why You Need This Guide

"It is safe to say that failure to guide and direct study is the weak point in the whole educational machine." Prof. G. M. Whipple, U. of Michigan.

"The successful men in college do not seem to be very happy. Most of them, especially the athletes are overworked." Prof. H. S. Canby, Yale.

"Misdirected labor, though honest and well intentioned may lead to naught. Among the most important things for the student to learn is how to study. Without knowledge of this his labor may be largely in vain." Prof. G. F. Swain, M. I. T.

"To students who have never learnt 'How to Study,' work is very often a chastisement, a flagellation, and an insuperable obstacle to contentment." Prof. A. Inglis, Harvard.

"HOW TO STUDY" will show you how to avoid all misdirected effort. Get a good start and make this year a highly successful one by sending for this hand book and guide NOW.

The Manly Game

A alumnus of Middlebury College criticizes the policy of early season football games with the bigger, more powerful college, and an article in the same issue of the *Middlebury Register* tells of the terrific battering which the Green Mountain Blue team received in its game with Harvard. The point seems well taken and fortified in unexpected fashion by the news stories.

The *Register* says in its report of the game:

Injuries were frequent. Not a single member of the team escaped entirely unscathed. The men who were hurt at Cambridge the week before were the first to be forced to leave the game. Then one by one the others came out until Captain Potter was the only man in the original lineup who was left in the game.

Does this sort of thing pay? Is this what parents pay for when they send their sons to college?

Football is a fine, manly game, but it is rough and somewhat prone to the infliction of serious injury even when the teams are evenly matched. In boxing, common sense as well as sporting sense forbid the matching of a heavyweight like Dempsey with a featherweight like Johnnie Dundee, yet this would be no more mean and ill-matched professionally than the game between Vermont and members of the "big six." The alumnus aforesaid admits that the cash guarantee goes with such games, but is this a sufficient reason for allowing these punishing and disabling matches? *Rutland Herald.*

INTERCLASS TRACK MEET POSTPONED TO SPRING

SPECIAL TRAIN FOR NORWICH

The Special train for the Norwich game leaves Burlington at noon Saturday morning arriving at Norwich after the game. The train will leave at the same time. It is hoped that a large number of the student body will go. The fare for the round trip will be $1.50.

GUILD, UNIVERSITY TENNIS CHAMPION

In the last report on the tennis tournament the following matches were played off

Hoag vs Wilson 4-6, 6-2, 6-0
Hoag Nye 6-4, 7-5
Guild Baldwin 2-6, 6-1, 6-2

In the finals Guild defeated Hoag decisively 6-0, 6-2, 6-1. The champion was in fine form and his opponent never had a chance.

The close of the intramural tennis tournament this week marked the end of the fall season for the net artists. Practice will be resumed in the cage after the last football game.

BOULDER SMOKER VOTED BEST PEP RAISER OF YEAR

The distinction of having put on the best pep raiser in years was awarded to Boulder Society after their smoker Thursday evening, October 22. The speakers were Capt. Lammons, "Rusty" Yarnall, "Mickey" McMahon and Coach McAvoy. Among the unusual features was "Mick's" demonstration of cheer-leading.

Student Body Going to Northfield at Noon

(Continued from page 1)

[illegible] a single touchdown though five times [illegible] the Norwich line, but [illegible] was disappointed when Holy [illegible] 4 points last Saturday [illegible] Norwich plays Tufts and M A C [illegible] after the opening [illegible] Tufts [illegible] against Tufts [illegible]. That would [illegible] stiff opposition for the light [illegible] which Coach McAvoy sends in [illegible] the smash scorer against [illegible] Boeving goes last point to his [illegible] offensive and she is surely [illegible] with our line this year, [illegible] which even the heavy Holy [illegible] has not made no headway [illegible] to resort to other tactics.

It may be that Jack Conway's [illegible] foot will turn the tide in our favor, for anything prettier than that [illegible] between the posts from [illegible] last Saturday has yet [illegible] be seen.

All and all the Vermonters are going to do their level best to pin the first [illegible] defeat on Laird's Maroon and Gold. None of the contests for the state championship have been played as yet and the Cadets will make a tremendous effort to upset the prophecy of scotiness ties all around the triangle.

Aronson playing left half for the opposition seems to be their big threat. He was the ground gainer in the Tufts game though Rice at full back must be watched. Kane will be calling signals and either O'Donnell Walker or Garrity at right half. Their line-up was completely changed previous to the Tufts game and is still rather uncertain, but the following will probably make up their line: Heaton or Deming l e, Tarbox l t, Farmer or Brooks l g, Crowley c, Grill r g, Bayer r t, and Monter r e.

Just whom Big Bill is going to send in for Vermont is also a matter for speculation, though probably Aronson and Carden will be recovered from last Saturday's injuries and hence make no radical changes from the combination of previous games. Wink was not sent in against Holy Cross, and in practice has been taking Carden's place at half but will probably assume the wing position today with Schachtman or Chapman as his running mate.

Hal Clark Denning and Katz will hold their usual berths, and the other guard will be either O'Connell or Aronson. Conway will do his stuff at quarter and Smith at fullback with Plumstead Thompson and Johnny Carden as probable halfbacks.

Unexpected breaks a trick formation or a pass may decide the game in short order but at any rate Vermont wants that championship back and Norwich must step some to prevent it.

"You'll never make an electrical engineer"

Carl Taylor

SO a blond young man named Taylor, just graduating in electrical engineering at the University of North Carolina, was advised by a conscientious professor. The professor's conviction was based on quiz papers and was amply justified. But the young man was not discouraged; he had other hopes, he said. Today—ten years later—he occupies a peculiarly important position with the Westinghouse Company.

Before Carl Taylor had completed his apprenticeship with Westinghouse he began to sell apparatus to utility-customers. He had previously sold clothing in college. He had selected an electrical engineering course because he believed the industry promising for men of selling interests.

His first actual order—the electrification of a scrap yard—was awarded to him at a higher price than that asked by any other bidder because he had "lived with" the job and given all the service this implies.

Some months later the Company was surprised at a request from him for an indefinite leave of absence. He wanted to take a job with a manufacturer of steel mill machinery, in order better to understand the problems of such users of electrical equipment. His leave lasted two years. He returned from the superintendency of a well-known plant—returned at a lower salary than the superintendency had paid him. But within three years he was manager of the industrial division of the Pittsburgh Sales Office—the largest division of the Westinghouse Company in the entire country. Today he has a sales organization of sixty-five men.

To get the customer's point of view—to go the limit to anticipate his wants and keep him satisfied—this is the Westinghouse sales policy. It is the policy of all enlightened industrial organizations. Men who can exemplify it in their personal careers need have no question about their futures.

The question is asked: Where do young men get when they enter a large industrial organization? Have they opportunity to exercise creative talents? Or are they forced into narrow grooves?

This series of advertisements throws light on these questions. Each advertisement takes up the record of a college man who came to Westinghouse within the last ten years, immediately after graduation.

FROSH—ATTENTION

There will be a peerade to Centennial Field Thursday, November 12, starting from the gymnasium at 4 o'clock. This day has been designated Toque Day by the Boulder Society. All Freshmen must be in the peerade and must wear their new toques. These will go on sale Monday at the bookstore.

VETERANS ON TEAM DEBATING SYRACUSE

Syracuse University opens the Vermont debating season this year, the contest taking place in Burlington about November 26.

The Vermont team, consisting of S. B. Heath '26, W. J. Herron, Jr., '26, and A. Schneller M '28, with E. C. Mower '27 as alternate, upholds the negative side of the question, "Resolved that the United States enter the World Court under the Harding-Hughes reservations. At some near date the CYNIC will conduct a poll to see how the student body stands on the question.

Negotiations are also under way for a debate with the University of New Hampshire, and, in addition, an inquiry has been received concerning the possibilities of a contest between teams representing the women of the two universities, so that a women's debating team may become an established fact at Vermont in the near future.

ANNUAL MILITARY BALL THE NEXT SOCIAL EVENT

The annual Military Ball will be given by Scabbard and Blade, Tuesday, November 10, at the gymnasium.

The committee has worked hard to make this the best yet, and there is every indication that it will be a success. As there is only a limited number of tickets, they should be secured at once, from any of the members of the committee: Thompson at the Delta Psi House, Abbott at the Sigma Nu Lodge, or Johnson at the Phi Mu Delta House.

The dance will be formal, and either tuxedos or uniforms should be worn. Dancing will be from 8.30 to 1, music to be furnished by Landi's orchestra. Refreshments will be served in the cage.

Among the novelties at the Military Ball will be a number of trophies taken from the Germans in the World War. A consignment of the captured material has been donated to the University by the United States through the state of Vermont. It is to be displayed at the ball. The drill squad which carried off the cup at Randolph will also give a drill during the evening.

VICTORY SMOKER DRAWS QUITE LARGE AUDIENCE

A large crowd of students and townspeople attended the Victory Smoker Monday night. Much of the program consisted of songs, recitations and impersonations by the Suwanee River Negro Quartet.

Coach McAvoy and Eugene H. Clowse '11 of Richmond made short, peppy speeches during the intermission. Cheers were given and songs sung to music by the University band. "Champlain" closed the program.

TICKETS FOR MIDD GAME

Student athletic tickets may be validated for seats in the cheering section at the Vermont-Middlebury game, at the chapel, Monday and Tuesday next between 4 and 6 p. m.

Reserved seats may be obtained at the office of the Graduate Manager in exchange for athletic coupon No. 6 and $1.

R. P. I. Must Show Strong Offense to Defeat Green and Gold Today

Light Vermont Team Will Again Depend on Its Shifty Attack and Speed to Chalk Up Another Favorable Score at Troy This Afternoon

Today at Troy, Coach McAvoy's charges tackle the strong R. P. I team Although not much can be predicted from the comparative scores of the two teams, they appear to be about on a par, with the chances leaning somewhat toward the Green and Gold.

This is due in part to the fine showing made at Norwich last Saturday when Vermont held the heavy Cadet outfit in check.

The Rensselaer team is powerful this year, but Vermont supporters feel confident that the Green and Gold will turn the tables on them. The team from Troy outweighs the locals greatly and Vermont must place its hopes in its shifting attack, speed, and strong defense as shown at Northfield.

Thus far this year the New Yorkers have scored on Harvard, only to be beaten 18-6, and lost to Springfield by a score of 24-0 the week later. Spring held, not being able to cross Vermont's goal line showed the better defense to be with Vermont. R. P. I. defeated Clarkson 10-6 last week.

Not much is known of the ind work of R. P. I. except that their most dangerous men is Esc who is also a first sacker on the bas- ball nine.

The Vermont line-up will be minus the services of Aronson, powerful defensive guard, who sustained a broken arm in last week's game. His place at guard will be taken by Winchenbach, who has proven his worth at several positions.

The rest of the line will remain the same and the backfield will probably consist of Smith at full, Candon and either Thompson or Laubach at the halves, and Conway at quarter.

NINE FRATERNITIES HOLD PLEDGE DANCES

New Pledges Welcomed in Variety of Social Functions by the Different Groups

The Phi Delta Theta pledge dance was held October 31 in the chapter house, with Dr. and Mrs. H. A. Durfee as chaperones. Music was furnished by several men from Carroll's orchestra.

The Phi Mu Delta dance was held in their house October 31, with Mr. and Mrs. L. E. Lamson and Prof. and Mrs. L. A. Woodward as chaperones. Ryder's orchestra provided music.

Sigma Phi held a tea dance Wednesday afternoon from 4 to 7. Col. and Mrs. L. J. Holden served as chaperones. The Green and Gold orchestra was in attendance.

Lambda Iota will hold its pledge dance in the chapter house Saturday evening, November 7, with Dr. and Mrs. K. C. McMahon and Prof. and Mrs. D. B. Carroll as chaperones. Music will be furnished by Pearson's orchestra.

The Tau Epsilon Phi dance will be held November 6, with Prof. and Mrs. D. B. Carroll and Mr. and Mrs. A. P. Feen as chaperones.

The Sigma Alpha Chi formal house warming will take place Saturday and Sunday, November 7 and 8. It will consist of a tea dance Saturday afternoon from 3.30 to 5.30 to which all students and faculty members are invited, the fraternity pledge dance Saturday evening, and open house Sunday afternoon. Prof. and Mrs. A. B. Myrick and Mr. and Mrs. L. W. Dean will serve as chaperones. Music will be furnished by Flagg's orchestra.

Alpha Tau Omega, Sigma Nu and Kappa Sigma will hold pledge dances next Saturday.

HARRIERS PREPARE FOR MEET WITH MIDDLEBURY

Vermont harriers are now putting on the finishing touches of intensive training preparatory to the cross country run, over the new course, with Middlebury on the morning of the grid battle with the Blue and White.

Prospects point to a fairly even contest, though the Vermonters have had no previous meets this year to test their mettle. The Green and Gold will be represented by Archie Post, "Spike" Rowe, "Art" Stone, "Bud" Suitor, "Art" Tudhope, and Brock Somers, who will do their level best to make a good showing.

Midd has lost in all three meets thus far, to Williams, R. P. I. and Harvard, but in each case "Bill" Donald has placed either first or second at the finish, and may be counted on to give stiff opposition to any of them. In the last meet against R. P. I. he broke the Middlebury course record, which was previously held by Dean Rowe, Vermont '27.

Track practice will be discontinued for a time after this meet next Saturday, to be resumed on the indoor track during the winter.

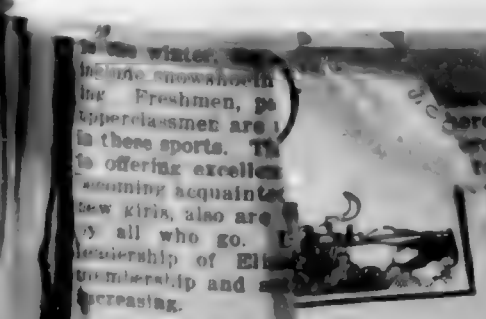
Word has been received from Jerome Davis that he finds it impossible to come to this campus. No other speaker has as yet been found to take his place.

60 HIGH SCHOOL EDITORS DISCUSS METHODS HERE

The conference of high school editors and teachers with the University was held in the chapel last Saturday morning. Sixty delegates from 17 schools helped to make it an unusually successful gathering.

Dean J. L. Hills extended a welcome, following which W. H. Crockett, who presided at the meeting, gave many helpful suggestions to the young journalists.

The first function of a school paper, he said, is to tell the news. The alumni section should also be unusually interesting. The best paper is that one which arouses the most interest and which has the largest number of contributors.



Mr. Crockett also explained the offer of the University to the three best papers in the state of a scholarship to each, worth respectively $100, $75 and $50.

Prof. Frederick Tupper emphasized the change in journalism over a period of 50 years. Correct English is insisted upon today in all newspapers, he said. Colleges are sending out professors to editors' chairs, and newspapers are sending in experienced men to teach journalism in the colleges.

The speaker referred specifically to some faults he had noticed in several school papers, and suggested ways of improving them.

Two of the editors spoke briefly about their respective papers, and the remainder of the morning was spent in discussion of problems by the young people themselves.

Luncheon was served on the Hotel Vermont roof garden, after which Miss Georgia E. Kauffman of Brattleboro high school spoke of the relation of the English department to the high school paper.

Simpson at end, and Cerasoli and the Scattles brothers in the backfield are likely prospects.

Columbia is treated elsewhere in this issue and as to forecasts on the game there are none worth considering. Our line will hold or it will not. The backfield is good and Coach McAvoy is using some sound plays, practically all from unbalanced formation. The lack

AGED EGGS AND PARIS POLICE IN THE NEWS

London Oct 24 Austen Chamberlain scored a new triumph today when he was elected by the students of Birmingham University to be Lord Rector for the coming year, with 1,242 votes to 285 cast for G. K. Chesterton, standing in the Liberal interest, and 285 for Sidney Webb, Laborite.

The election produced a riot of rags. Twenty thousand eggs of different vintage and uncertain age had been stored near the polling booths in the college campus, and several tons of peasemeal, a great quantity of soot and a fine selection of hearts and overripe herrings were brought up by truckloads. To vote meant to face a barrage of missiles, eggs herrings and peasemeal, and voters as they appeared were covered with a species of omelette and then had to indulge in personal wrestling matches with earnest adherents of the other parties.

At noon the hostilities ceased, and an hour was left for non-combatant voters to exercise their suffrages.

(Continued on page 5)

Over 40 men have reported at the gym for the Men's rifle team. The applicants are being put through preliminary training in preparation for firing on the rifle range next week.

EDITORIAL

...mmunications this ... question of a cut ... to revive the ques... oh why, must these ...vived, die out again ... lack of interest? ...dent body so slow to ...ons in the CYNIC and ...n meetings? No one ...bout knocking condi... to his or her classmates ... a different story when ...medying them. We can ...ng on the campus or ...out public interest and ...use this, a thing must ...

...ar professors recently ...ad become of the "Stu... published in the CYNIC ...What the CYNIC needs," ... to stir up a row about ...

...eed to search for topics ...out. Here's this cut sys... Are we going to do ...bout it this time? Can't ... show enough interest to ... opinion, to vote for some ... system or at least to defi... the matter? Anything's ... than the indifference which ... prevail just now.

Campus Comment

More on the Cut System

To the Women's Editor of the CYNIC:

For a while last year there was ... talk about the introduction of ... system—enthusiasm was even ...ested pretty generally. Then, for ... apparent reason, it seemed as if ...everyone agreed—though not ver...ally—to let the matter drop.

Was it because of lack of interest, ...r because it was supposed that the ...system could not work here? If the ...latter I think there should be a re...vival of interest, so to speak. It ...would come in handy both before and ...after vacations. And, of course, in ...order to take advantage of the system, ...each student would do his best to ...raise his work to a general standing ...of B, if those were the conditions in...volved.

Should the other alternative be true, ...and cause the old argument, "It's done ...in other colleges, why not here?" It's ...being worked quite effectively elsewhere, to the mutual benefit of student and institution.

There are a great many points in favor of the "cut system"—it is unnecessary to specify here and now, for everyone has heard them time and again. Why not try it for a year and see how it works out? Nothing like trying, of course, and if it should prove detrimental or a disadvantage in any way, it is always possible to do away with it.

How about it, Vermonters? Get your heads together—dope it out—and come back with arguments, pro and con.

'27.

To the Women's Editor of the CYNIC:

Speaking of campus problems, here is one which I know many will agree is one of the most-talked-of at present. Just why is there a rule that girls who room in a dormintory must board either at Grassmount or Robinson Hall? A good many of us, to put it mildly, are dissatisfied. We have no desire to be "chronic kickers." We are willing to board elsewhere but are not permitted to. It seems hardly fair that we should be compelled to board where we do not consider the diet as a whole either enjoyable or healthful. Do others agree?

CO-ED.

To the Women's Editor of the CYNIC:

The class of '29 has been tried and found wanting. Not only has it violated some of the Vermont traditions, but it has, as a class, been utterly disgraceful.

The recent Judgment Day was a culmination of the offenses. The attitude of the class, as a whole, was insulting, not only to the sophomores, but to the two upper classes as well. As a result of this action, '29 has earned for itself the reputation of poor sportsmanship.

Ever since college has been in existence it has been customary for the freshmen to show respect to the sophomores and to submit to mild humiliations. Never before in Vermont has a class shown such poor spirit. It is now up to '29 to make amends for its conduct.

This may sound unjust, and to the freshmen who were good enough sports to take Judgment Day in the right spirit, it probably sounds most unfair. For there were some who showed due respect to the sophomores and upperclassmen. To that minority this is not directed.

The class of '27 is supposed to be sister class to '29, and to take its part. But instead, the juniors are thoroughly ashamed of the majority of the freshmen. And their message to the freshmen is to think carefully before violating any more traditions of Vermont, thereby showing the sophomores, upperclassmen, and faculty that '29 really can be good sports.

'27.

To the Women's Editor of the CYNIC:

During the past few years there has sprung up in the women's colleges throughout the country, the so-called little-sister movement, which bids fair to become a lasting and beautiful tradition of the ivied Halls of Learning.

Here at our own Vermont, the custom has been adopted. The plan is sound in its purpose. But how many times does it fail in execution! There are far too many instances where the "little sister" finds her ideal of a "big sister" shattered and her fond hopes at the end of the rainbow.

What we all want is to make the little-sister movement one not in name alone. Whatever it may be elsewhere, here at Vermont we want it to be a real, unselfish effort to render service to the girls of the entering class.

How may this be effected? By voluntary agreement of girls in the upper classes to become "big sisters," perhaps.

Surely, the matter demands our attention if the little-sister movement is to be made a real tradition along with the other noble and beautiful ones, dear to the heart of every Vermont woman.

Corinna Somerville '25 spent the past week in town.

Alpha Xi Delta

A tea was given Monday, November 2, by the chapter, at the home of Miss Marion Way, to the other fraternities in honor of Mrs. Combe, national visitor of the fraternity. The chapter entertained the alumni and patronesses at a supper given Wednesday, November 4, in Mrs. Combe's honor. Mrs. Combe left Thursday for Middlebury where she visited Alpha Pi chapter of Alpha Xi Delta.

Alpha Chi Omega

The active chapter gave a tea for the new ladies of the faculty Wednesday afternoon at the rooms.

Sigma Gamma

Sigma Gamma announces the pledging of Marie Sherbino of the class of 1928.

JUDGMENT DAY LEAVES HUMBLE FRESHMAN CLASS

At least one Judgment Day has passed for the freshmen. 1929 has joined the ranks of those familiar with the dizzy heights of Lecture Hall A, the descent from which is perilous enough for the innocent but for the guilty brought to judgment, rivals in terrors a descent into the Pit. A subdued and (temporarily) reformed freshman class politely speaks when spoken to, stands aside for upperclassmen to pass, and otherwise strives eagerly to prove its humility.

When one is a freshman, Judgment Day seems like a bit of nonsense, enjoyed by some, dreaded by others. Later one sees that it is more than that; it is of course a lesson in respect but it is also a test of sportsmanship. Many a freshman is judged by the way in which she accepts the good-natured disciplining. If she accepts it as part of the game and is a good sport, the upperclassmen receive a good impression of her and decide that she is worth knowing. If not—but happily there are few of the other kind.

FALL FIELD DAY PROVES UNPRECEDENTED SUCCESS

The annual Fall Field Day conducted by W. A. A. was held Tuesday, November 3, perfect weather and a large attendance combining to make it one of the most successful in the history of W. A. A.

The athletic events took place on the back campus at 4 o'clock. In hockey the sophomore and junior teams again held each other to a score of 0-0. The freshmen were victorious in the volley ball finals with score 15-10, 16-14, while in tennis, Eunice Wilder '29 won the honors for her class from Betty Wilson '26, 6-3, 4-6, 6-4.

A picnic supper was served on the lawn at Grassmount by the light of huge bonfires, the menu consisting of sweet potatoes, "hot dogs," pickles, pumpkin pie and coffee.

The inter-class song contest followed, each class grouped about its own bonfire to sing a new class song. The junior song was judged the best.

Then all classes grouped about the central bonfire for the following program, with Florence Hard '28 as toastmistress:

A Word from Our Director, Miss Cummings.

Goals for W. A. A., Mabel Goodwin '24.

The New Field and Gym, Corinna Somerville '25.

Coming Attractions, Miss Blanchard.

Toasts, Dean Patterson, Lillian Tomlinson '29.

Emblems were awarded to the following girls: Thelma Mathewson '26, Lillian Avery '27, Charlotte Bean '27, Eleanor Burrell '27, Marion Parker '27, Alma Tyler '27, and Winifred Teachout '27. Harriet Leach '26 and Charlotte Leach '26 received sweaters. Numerals were awarded to Lois Burbank '27, Jeanette Hays '28 and Evelyn Davis '28.

Announcement was made of varsity teams in hockey and volley ball. Betty Wilson '26 was elected campus manager of basketball and as class managers, Allene Bertholf '26, Arline Cushing '27, Jeanette Hays '28 and Eunice Wilder '29, were elected.

Do You Know?

"HOW TO STUDY"

The Students' Hand-Book of Practical Hints on the Technique of Effective Study

by

WILLIAM ALLAN BROOKS

A GUIDE containing hundreds of practical hints and short cuts in the economy of learning, to assist students in securing **MAXIMUM SCHOLASTIC RESULTS** at a minimum cost of time, energy, and fatigue.

ESPECIALLY RECOMMENDED for overworked students and athletes engaged in extra curriculum activities and for average and honor students who are working for high scholastic achievement.

Some of the Topics covered

Scientific Shortcuts in Effective Study.
Preparing for Examinations.
Writing Good Examinations.
Brain and Digestion in Relation to Study.
How to Take Lecture and Reading Notes.
Advantages and Disadvantages of Cramming.
The Athlete and His Studies.
Diet During Athletic Training.
How to Study Modern Languages.
How to Study Science, Literature, etc.
Why Go to College!
After College, What!
Developing Concentration and Efficiency.
etc., etc., etc., etc., etc., etc., etc.

Why You Need This Guide

"It is safe to say that failure to guide and direct study is the weak point in the whole educational machine." Prof. G. M. Whipple, U. of Michigan.

"The successful men in college do not seem to be very happy. Most of them, especially the athletes are overworked." Prof. H. S. Canby, Yale.

"Misdirected labor, though honest and well intentioned may lead to naught. Among the most important things for the student to learn is how to study. Without knowledge of this his labor may be largely in vain." Prof. G. F. Swain, M. I. T.

"To students who have never learnt 'How to Study,' work is very often a chastisement, a flagellation, and an insuperable obstacle to contentment." Prof. A. Inglis, Harvard.

"HOW TO STUDY" will show you how to avoid all misdirected effort. **Get a good start and make this year a highly successful one by sending for this hand-book and guide NOW.**

Aged Eggs and Paris Police in the News

(Continued from page 2)

Four students were reported se... ... in the struggle and were ... to the hospital.

Particular interest was taken in ... the way women students showed they had absorbed college customs. They eschewed the eggs and herrings and devoted their attention to tearing off ... badges. Twenty women had a little fight all to themselves, and amid the cheers of spectators hats were wrenched off and girls rolled in the wet grass and their costumes ...

Paris, Oct. 24.—The police had to be called into Sorbonne classrooms this afternoon to persuade the unsuccessful candidates for the bachelor's degree to keep the peace.

Thursday was the day for written examinations, Latin and languages, and today was fixed for the orals. But when the candidates arrived they found that an enormous majority had failed.

Only three or four out of thirty aspirants had been passed in some sections, and while the few successful ones were undergoing their oral examinations the losers took possession of the classrooms and raised so much din that the dean was forced to send for half a dozen policemen to clear them out.

Once expelled they held a mass meeting and drafted a petition for a new examination, alleging that the papers had been unfairly stiff and examiners prejudiced.

That, however, is not the opinion of the dean. One passage of a certain examination, he admitted, was stiff, but allowance was made for that by the examiners. The fault, he said, was all in "the incredible ignorance" of the aspirants. One of them described Chateaubriand as the celebrated dramatic author who wrote the two tragedies, "Emile" and "The Social Contract."

These reprints of copyright articles were suggested by a faculty member, who clipped them from last Sunday's New York *Times* as live indications of what European undergraduate life may be. Editor.

Brief Notes

Arrangements are being made to ... the team a big send off for the St. Louis trip, which will probably start about November 21st. A complete announcement will be made later.

The basketball schedule was adopted in part at a meeting of the Athletic Council Wednesday evening, but there are so many pending dates that Manager Gannon does not wish to release any for publication until it is more nearly completed.

The steel girders for the roof of the new chapel are in place and the roof itself is near completion. The derrick and steam engine used for the girders have been taken away. The building is now so enclosed and fitted with doors that it can be locked at night.

Lest We Forget

The following poems, one well-known to us all, the other a poignant companion to the first, were submitted by a member of the class of 1929 as "a reminder of the approach of Armistice Day and its significance for the wounded as well as those in Flanders Fields."

WE ARE THE MAIMED

In Flanders fields we do not lie
Where poppies grow and larks will fly,
Forever singing as they go
Above the bodies, row on row,
Of those whose duty was to die.

We are the maimed! Death did deny
Its solace. Crippled, blind, we try
To find on earth the peace they know
In Flanders fields.

Forget us not! As years go by,
On your remembrance we rely
For love that sees the hearts below
Our broken bodies. Else we grow
To crave our place with those who lie
In Flanders fields.

W. B. France.

IN FLANDERS FIELDS

In Flanders fields the poppies blow
Between the crosses, row on row,
That mark our place; and in the sky
The larks, still bravely singing, fly,
Scarce heard amidst the guns below.
We are the dead. Short days ago
We lived, felt dawn, saw sunset glow,
Loved and were loved, and now we lie
In Flanders fields.

Take up our quarrel with the foe!
To you from failing hands we throw
The torch. Be yours to hold it high!
If ye break faith with us who die
We shall not sleep, though poppies grow
In Flanders fields.

Lieut. Col. John D. McCrae.

MISS CLARK A VISITOR

The Y. W. C. A. was very fortunate in having as a visitor this week Miss Clark. Miss Clark is not new to us, having been here last year also, as the national representative of Y. W. C. A.

A tea was given at 4 o'clock Wednesday by the Maqua girls for Miss Clark. Special convocation was called at 4 o'clock Thursday. Personal conferences were given by Miss Clark and many girls took advantage of the opportunities for private talks with our national traveling secretary.

Plans are underway for the annual Y. W. C. A. Bazaar. This event takes place in the gym, and plans hold it to be "the best ever."

Cap and Skull, Honorary Medical Society, held a dance at the gymnasium last evening. The music was furnished by an augmented Green and Gold orchestra with two pianos, and was broadcasted by the Radio Club. Fancy lighting effects were secured and special dancing numbers were played during intermission.

FORMAL WEAR

Dress shirts with plain stiff bosom, or the latest vogue, with miniature pleats. Suspenders, or if you must be correct "braces" in all tints. Dress bows, the kind you tie yourself or those already made.

Every item is an aid to the man of social affairs.

* * *

HUMPHREY'S
The Blue Store

Quite So!

A columnist sermonizes on "Swearing" as follows:

"Young man don't swear. Swearing never was good for a sore finger. It never cured rheumatism nor helped to buy the necessaries of life. It isn't recommended for liver complaint. It won't insure against the sewing machine agent nor any of the ills which beset people through life. There is no occasion for swearing outside of a newspaper office where it is useful in reading proofs and indispensably necessary in getting the forms to press. It has been known to materially assist the editor in looking over the paper after it was printed. But otherwise it is a very foolish and wicked habit." *Illinois Tribune*

EIGHT MORE MEMBERS OF THE WOMEN'S GLEE CLUB

In addition to the names of Glee Club members already announced, the following girls have also been selected to form the personnel for the season 1925-26:

Miriam Idleman '29, New York City; Gertrude Hurst '26, Newport; Charlotte Brown '27, Winchendon, Mass.; Katherine Lang '26, Barre; Gladys Kone '29, Hartford, Conn.; Mildred McLeod '29, Hatfield, Mass.; Margaret Wallace '28, Burlington; Ruby Blaine '27, Barnet.

CUMMINGS-VOLLETTE

Announcements have been received in Burlington of the marriage on Saturday, October 17 of Miss Velma V. Vollette, daughter of Mr. and Mrs. Arthur E. Vollette of Baltimore, Md., and Clesson S. Cummings of New York City. The wedding ceremony was performed by Dr. W. Russell Bowie at Grace Episcopal Church, New York City, in the presence of relatives and immediate friends, and was followed by a reception at the Hotel McAlpin.

Mr. Cummings is the son of Mrs. Chadwick P. Cummings of 276 College Street and was graduated from the University of Vermont in the class of 1922. He is a member of Phi Delta Theta Fraternity and Scabbard and Blade Society. He is employed as assistant engineer in the department of foreign plant relation by the Western Union Telegraph Company in New York City. The bride is a graduate of St. Margaret's School, Petersburg, Va., in the class of 1918 and from the New York Hospital in 1922.

Mr. and Mrs. Cummings will make their home at Greenwich Court, 117 West 13th Street, New York City after November 1.

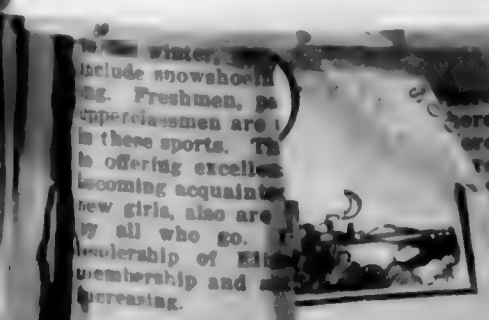
Carte du Jour

Now, Phineas Krinkle, early in his college course, would have no frills, either as regards scholarship and studies, or equipment. Hence, we found him (that is, some one did) buying a pen for $1.37 — today only — and putting the difference between that and the price of a Parker Duofold in books—good books, too, let it be understood. And passing charitably over some profane lapses, he got along with it till graduation, and then some. We're liberal—it would make a mark when you pressed it, frequently. But Krinkle, with this penny-grasping trait, went bankrupt three years after graduation. And he never did amount to much after.



Jack Free, on the other hand, had an eye to quality, beauty, and—oh yes—quality. His second week in college found him with a Parker Duofold. Makes no difference if he did steal it—he knew what sort to steal, and the victim bought another Parker, anyway. Well, to coin a phrase, that was just like Jack, and he graduated and signed his first check with a flourish and a Parker. And, due, it must be admitted in fairness by all, to this belief and insistence on *quality* at all costs, *he* went stony broke in two years.

So there really was little advantage in the Parker Duofold over the orphan-pen, except having something decent to write with during the period mentioned.

BLACK PANTHER COMING FROM ITS JUNGLE LAIR

Green and Gold Hopes to Knock Wily Beast From Its 1924 Limb

Middlebury's Black Panther eleven

Field goal by Conway, referee, Neely, Springfield umpire, Eshbrsen, Springfield; linesman O'Brien Tufts. Four 5-minute and two 12 minute periods.

Diamond, Field and Track

Next week comes the big test. With two games tucked in his belt, and a team that doesn't [illegible] McAvoy is setting his snare for the wily Black Panther. Both teams are thoroughly confident of [illegible] but both are expecting a hard struggle.

V

Dartmouth is given edge in the opinion of [illegible] Eastern football competition [illegible]

V

Figure talks are fly in [illegible] competition to determine [illegible] Vermont only 6-0, while [illegible] Colgate 14 and Syracuse defeated the Pennsylvanians only [illegible] Vermont have an even chance of winning.

V

The Blue and White Lassies have won [illegible] three meets thus far and [illegible] for an average of [illegible] the Green and Gold runners [illegible] although they have not yet been in a meet for an [illegible] as yet.

V

If the Commodore can put on the finishing touches between now and [illegible] should prove of more than a double victory.

V

Dr. Anderson has arrived to take up his new work. He has warned [illegible] that this or that is going to be done at once—that the [illegible] is a long-time program to be carried out as time, [illegible] and many circumstances permit.

V

Dartmouth has had for some time a system by which each man is [illegible] of any competitive sport for his physical training. As we [illegible] every man must take part in some sport, formally or informally.

V

New comes Princeton, with the statement that over 90 per cent of the [illegible] is engaged in some form of intercollegiate or intracollegiate sport. And that $2,500 has been appropriated for the direction and equipment of [illegible] teams. Athletic exercise is compulsory for first-year men but the undergraduates continue during upper class years their customary workouts, to enable the men to get the benefit of team play."

V

Such systems develop varsity material occasionally, but their chief object is to bring the opportunity for a sound body in which to house an educated mind to the many, rather than to the few capable of participating in intercollegiate competition.

V

Red Grange isn't the man he used to be, says Zuppke. He gained only [illegible] yards in 32 tries against Penn's hitherto undefeated eleven. Throughout the game he made only three touchdowns, although he did help somewhat on the fourth with a 55-yard run. No, poor Red ain't what he used to be, [illegible] Heaven!

V

St. Louis lost 14-7 to Rolla Mine. Who's that? Does anyone know?

W. A. Potter '26
Captain of Black Panther Eleven

April 14—Army at West Point

bulwark of strength in the line, tackling being deadly. His work [illegible] receiving end of passes has been one of the bright spots in the Middlebury attack this year. Jones, a Sophomore has won the position of left [illegible] by his aggressive playing.

Mullen and Brosowsky at tackle and Ehlert at guard, fixtures in the Middlebury line-ups of the past few years, are playing their last year of Varsity football. All three, however, received injuries in the Yale and Harvard games, that are still troubling them, and are keeping them from doing their best work.

Wiley, a Sophomore who weighs [illegible] pounds, is at the other guard position and is doing excellent work in his first year of Varsity football. McLaughlin at center is an old face in a new position, he having played end for the past two years. Furbush, a capable substitute this position, broke his knee in two places in the N. Y. U. game and will be out for the season.

The brightest spot in Middlebury's showing this season was the overwhelming 61-0 victory scored over St. Michael's game. The eleven showed real power and drive in this game, and

The best stories are never written

HOW many times have you said, "This would make a wonderful short story"? But you didn't write it, and the inspiration was soon forgotten.

"Many a story banged off hot on my Corona in a front-line dugout would never have been written if I had waited to reach a spot of greater convenience." — *Louis R. Freeman, War Correspondent, Explorer, Traveler.*

* * * *

The advantage of owning a Portable Corona is that you can write your best thoughts as they come to you, anywhere, any time—and that's the secret of successful writing! The newest Corona (Model Four) has the standard keyboard used in offices everywhere.

Corona Four costs only $60. Easy terms if desired. Call or phone for demonstration.

An Alumnus Gets "Pepped Up" by Watching Vermont-Norwich Clash

went to Northfield Sat- to get "pepped up" by ful exuberance as football field. Per- the spectators were n't run across the falling down through their "blowers." But to run; they were other fellows run.

ing spectacle, the Nor- wasn't. It was animals of equal ing against each other ing much headway on Fact is, Norwich an about a standoff, with boys doing a little moving in the first half coming back with the strengthened and with uncorking of an aerial side that kept their op- defensive a good share thereafter. But just when appeared well started on the field, the civilians put a little more beef obstruction and halted the

Thus it was another Verdun all day, with one side shouting, by their ac- "They shall not pass." And did not—excepting a few forward passes by Norwich. hadn't used them more in the first half is a cross-word puzzle. Coach "Jum" Laird inter- cross words between the which brought the Norwich generals around to his way of thinking.

For their part, the Burlington boys, south, Norwich was also out to make another Verdun of it, varied their tac- and, thanks to the cunning toe of Quarterback "Jack" Conway, booted the ball from the 40-yard mark high over the cross-beam but so equidistant from the posts that there was no mis- those three points. "There's the game," responded one fan as he saw the ball sailing over the mark. And so it proved. It was the whole ante in a cowhide shell.

Seeing they weren't going to get any heart-busting thrills out of the game itself, the spectators, who went to get "pepped up," turned their at- tentions partly to the crowd and the sideshows. Looking over in front of the Vermont stands, they saw a slip of a girl in short skirt, plaid stock- ings green and gold sweaters stand- ing out there and goading the boys of the college into shouting for alma mater.

Something new in cheer leading for a college crowd—a mere slip of a girl. But she went through most of the con- tortions of her male collaborators and ended up with the usual leap into space as if she were made of India rubber, or mounted in a springboard. She and the two boy cheer leaders had a good deal of material to work on. Vermont came down to Northfield en masse it seemed.

So much masse there was that it turned into a somewhat ludicrous situation before the game. President Bailey of the University of Vermont, with his party, was one of the early arrivals and took up a position in the middle of the Vermont section. Just as natural as could be for Prexy Bai- ley to stay there! But several of the Norwich cadets, deployed thereabout to keep the Vermont stands clear for the oncoming Vermont horde, didn't recognize Prexy Bailey and they pro- ceeded to tell him in no uncertain lan- guage to get off and give the Vermont people a chance at their own stand.

The Norwich guards harangued the party and finally exercised cajolery: "Won't you PLEASE get out and give the Vermont people a chance?" But still President Bailey and his party stood pat, highly amused that they should be singled out to walk the plank to the neutral zone.

Up came a Norwich upperclassman and, seeing the Vermont stands occu- pied by persons who might have been taken for persons other than students, shouted to the guards: "Hey, youse get those people off the stands, for the Vermont crowd is coming."

"We can't get 'em off, they won't go even when we say PLEASE."

By that time the Vermont horde was on the field and filling in around President Bailey so compactly that President Bailey couldn't have moved if he had started.

Probably the Norwich guards don't know now that they were ordering President Bailey of the University of Vermont off his own stands. It was

In an isolated region, almost inaccessible in winter, this 6500 h.p. hydro-electric plant located on the Deerfield River in New England, starts, protects, and stops itself.

A Self-Starting Power Plant

Dawn—the slumbering city awakens and calls for electric current. Many miles away the call is answered. A penstock opens automatically, releasing impounded waters; a water turbine goes to work, driving a generator; and electric current is soon flowing through wires over the many miles to the city. This plant starts and runs itself.

Power plants with automatic control are now installed on isolated mountain streams. Starting and stopping, generating to a set capacity, shutting down for hot bearings and windings, gauging available water supply, they run themselves with uncanny precision.

Thus another milestone has been reached in the generation of electric power. And with present-day achievements in power transmission, electricity generated anywhere may be applied everywhere.

The non-technical graduate need not know *where* electricity comes from—nor even *how* it works. But he should know *what* electricity can do for him no matter what vocation he selects.

The General Electric Company has developed generating and transmitting equipment step by step with the demand for electric power. Already electricity at 220,000 volts is transmitted over a distance of 270 miles. And G-E engineers, ever looking forward, are now experimenting with voltages exceeding a million.

A new series of G-E advertisements showing what electricity is doing in many fields will be sent on request. Ask for booklet GEK-1.

Attempt Being Made to Concentrate Student Opinion Behind World Court

[illegible] the League [illegible] Article 13) requires the members of the League to "carry out in full good faith any award or decision that may be rendered" and denies to any State the right to go to war against a member of the League which complies therewith.

This provision, sets up an obligation for the members of the League to carry into effect the decisions of the court as between themselves but it does not affect nations outside the League who were adhered to the court protocol. It thus becomes evident that the only real sanction of the court is that the last members of the League is enlightened public opinion. This sanction can have effect only in so far as public opinion on this subject is developed and developed in every country of the world.

It is now proposed that the United States shall become a signatory to the court protocol on the basis of the Harding-Hughes-Coolidge reservations. The conditions set up by these reservations may be briefly summarized as follows:

1. The exclusion of any legal relation to the League.
2. United States participation in the selection of judges by the Council and Assembly.
3. Payment of our share of the expenses of the court, as voted by Congress.
4. No changes to be made in the statute of the court except with the consent of the United States.
5. The United States is not to be bound by any advisory opinions of the court upon questions which we have not voluntarily submitted for its judgment.

The groups which the Y. M. C. A. and the Y. W. C. A. are advocating, known as the "Nine Harmless Points" [illegible] the following additional conditions:

1. Declaration at time of adhesion of our purpose to invite all nations to join us in declaring war a crime.
2. The calling of an international conference to frame a code of international law which would outlaw war.
3. When this code is adopted by the nations of the world, the court is to be given obligatory jurisdiction over all cases falling under its provisions.
4. The United States to withdraw

JAP ATTACHE TAKING ENGLISH COURSES HERE

Arata Sugihara Likes Americans; Thinks Mutual Understanding Needed

I ... often asked by college men, ... my others, such questions as "Do you have automobiles in Japan? Do you have electric lights?" said Arata Sugihara, who will go to Washington about the first of the year to take up his new duties as attache at the Japanese embassy there.

"I think Japan is not known as it should be known," after a hearty laugh at the absurdity of the questions. "Of course, one reason why America should cultivate Japanese friendship is, the commercial relations of the two nations, but the cultural life of Japan—its fine arts, literature, and philosophy—is worth studying for Americans.

"If we understand each other in cultural respects, real friendship between the two countries will be firmly established."

Sugihara is taking special work in English as a preparation for his diplomatic service. While he understands quite well what is said to him, he finds difficulty occasionally in choosing just the right word to make clear what he wishes to say.

The young diplomat—he is but 26 and graduated last year from a law course at the Imperial University in Tokyo—likes American people. "I have found them very sociable," he said.

"It an essential of diplomacy is to say little and listen much, Sugihara will succeed in his chosen field. "I could understand the Monroe doctrine," he admitted frankly. "In my examination" (for the diplomatic service) "I was asked what the Monroe Doctrine means. But I don't understand." He said, in response to a suggestion, that he did believe it should be applied equally to Asia and Europe.

On the subject of Japanese exclusion Sugihara was equally reticent, terming the matter, apparently, as a ... difficulty which will blow over soon.

"I think America has an idealistic side and a materialistic side—a dark side and a light side—and that this is the dark side. When the bright side appears, this feature of the immigration law will be repealed by ...

Sugihara was born in Nakadori-
(Continued on page 8)

Season's Objective Will Be Reached This Afternoon at Centennial Field

Only Tarpey and Aronson Missing From Green and Gold First String as It Faces Crippled Black Panther for 1925 State Title

Eleven Green and Gold warriors go forth on Centennial Field this afternoon to tear from their heights the Blue and White colors of Middlebury. Upon the outcome of the struggle rests the state championship, and both teams are ready to fight to the last ditch.

From Middlebury have come reports during the week of a team crippled by injuries and hardly expecting victory; of a coach fighting desperately to whip his squad into shape for the big event of the fall; of a team which should win on paper, but which is worried lest last-minute injuries may turn the scale.

From Centennial Field have come few rumors. Coach McAvoy has had his charges hard at work. Monday and Tuesday afternoons the team indulged in hard, long scrimmages against the frosh and the seconds, and Tuesday, especially, made about the best showing of the season to date.

Nobody can foretell what will happen when the Green and Gold meets the Blue and White. Both teams, for the occasion, play well beyond their ordinary ability, urged by a rivalry as old as athletic relations between the two institutions.

More interest has been aroused on the campus by this contest than by any other this fall, and the many signs of all sorts displayed on bulletin boards and buildings evidence the depth of the conviction that Vermont must win today.

Captain Potter, most dangerous man on the Blue and White team, is reported on the injured list because of trouble with an ankle broken last year. McLaughlin, who has been at center since the injury to Furbush in the N. Y. U. game, is out with an injury to his hip, and Wiley, who has been starring at left tackle all the season, is laid up. Probably all of these men will get into the game here, but their weakness does not add to the confidence of Middlebury supporters.

The Middlebury team has been drilled in Vermont plays this week, and according to newspaper reports, the seconds played the Vermont game well enough to score touchdowns on the varsity. However, Vermont heard the same sort of stories from Hanover before the game there, and there is little danger of overconfidence resulting.

As for Vermont, the team will go into the contest almost intact. Of course, Captain Tarpey will not be
(Continued on page 6)

EVERYBODY OUT

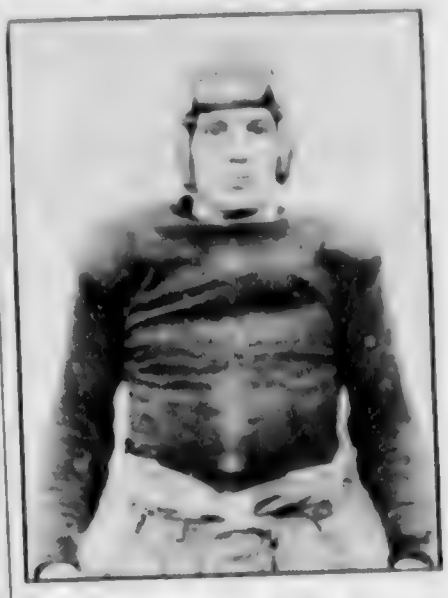
This morning at 11 o'clock the Vermont cross-country men will attempt to put a little preliminary twist in the Black Panther's tail before the gridmen get their clutches on it this afternoon. The harriers will leave the front entrance of the gym at 11, and will finish there at about 11.30. Everybody out to give those men a cheer, for it is a gruelling race and one that we want to win! Let's see five green V's arrive at the line before the five blue M's of Middlebury!

"Spike" Rowe, "Art" Stone, Archie Post, "Art" Tudhope and "Bud" Suitor will probably start for Vermont.

MEDIC SMOKER GREAT SUCCESS AS PEP-RAISER

The Medic Smoker, presented in the gymnasium last night, lived up to all the traditions connected with that name, and was highly successful in arousing fight spirit for the Middlebury game.

The speakers were Dr. D. C. Jarvis '04, of Barre, on "What's Wrong?", Mayor C. H. Beecher, M. D., '00, and Dr. T. S. Brown '04, superintendent of the Mary Fletcher Hospital.



Among the novel features of the program were songs by the Medic Quartet, a Medic special, and the "Hippodrome Cartoonist" by Wilbur Judd, M '27, characterizing "Men We Have Met," etc. The R. O. T. C. Band gave several selections and "Jerry" Buckley, M '26, served as cheer leader. The program ended with "Champlain."

The refreshments were à la medic, and consisted of doughnuts and cider. Smokes were furnished by L. P. Wood.

The credit for the success of the smoker is due to the all-medic committee of J. L. Buckley '26, chairman, R. L. Smith '26, P. T. McGreevey '27, W. L. Deignan '28, and H. H. Twitchell '29.

The debating team is negotiating with Rhode Island State College and St. Lawrence University for debates to take place sometime this winter.

L.-S. COURSE GAINS IN POPULARITY AT VERMONT

Commerce and Ec. Shows Drop —Relatively More Out-of-State Students This Year Than Last

A slightly smaller percentage of the students at the University of Vermont than at any time in the past ten years are from Vermont, according to figures in the directory just published. Of the total of 1,181 enrolled this year in all courses, 882 or 74.7 per cent, are from Vermont. This is one and a half per cent less than last year, which was in turn the lowest in the ten year period examined.

The out-of-state students represent 16 states, a territory, the District of Columbia, Canada, Ireland and Japan. Massachusetts leads with 96, followed by New York with 73, Connecticut with 39, New Hampshire with 27 and New Jersey with 26. Other states are Pennsylvania 9, Maine 7, California 3, Iowa, Michigan and Canada, 2 each, Tennessee, District of Columbia, Utah, Idaho, Illinois, Louisiana, Maryland, Ireland, Japan, and the Philippines, one each.

In a comparison of courses, the Literary-Scientific has profited at the expense of the Commerce and Economics course, the former coming into prominence as the most popular course and registering an actual gain of seven students in the fact of a falling off in the total registration. Commerce and Economics, the general business course, fell off from 211 to 193.

In the College of Engineering, the

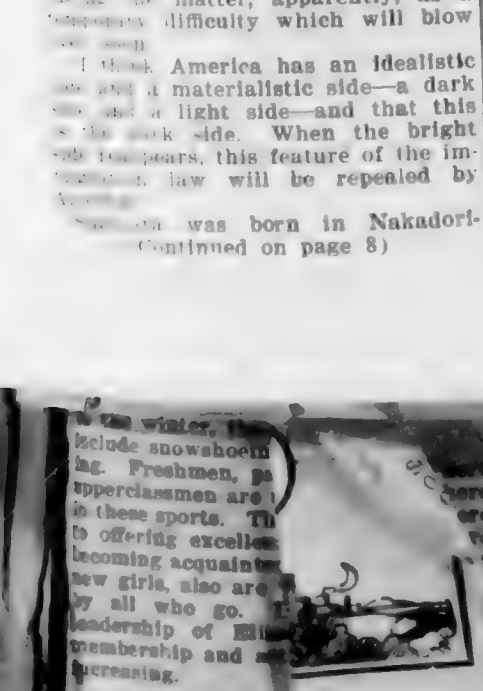
RIFLE MATCHES START WITHIN TWO WEEKS

The men's rifle team is making rapid progress under the able coaching of Captain Rattan and Sergeant Conner. A large number of men are out for the team, and a winning combination should be picked from such ample material.



Manager Morton has arranged a good schedule for the year, and intercollegiate preliminary matches will start within two weeks, though these are chiefly in the nature of practice matches.

The training thus far has been in positions, sighting and aiming, and general instructions concerning the care and use of the rifle, but actual shooting started this week in the gallery range.

When you have to concentrate on a heavy theme

TAKE this tip from Prince Albert: Pack your pipe with P. A. and make fire with a match! That's the formula. Nothing complicated. And it works, it works! Yes, *sir!* Every jimmy-pipe bowl is a well of inspiration when it's packed with cool, fragrant, soothing Prince Albert.

You'll cerebrate . . . and celebrate the discovery. Prince Albert is sure the right kind of pal to tie to. No matter how stiff the grade, P. A. will go right along *with* you. Can't bite your tongue or parch your throat, because the Prince Albert process won't let it.

Let Prince Albert cheer you with your work. Let it sweep away the mental cobwebs as nothing else can. In all the world of fine tobaccos, there's nothing like friendly P. A. Slip into top-speed now and head for the nearest store where they hand out jimmy-pipe joy in tidy red tins, marked "Prince Albert."

PRINCE ALBERT

—no other tobacco is like it!

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

Look at the U. S. revenue stamp—there are TWO full ounces in every tin.

Do your little bit towards ... good of the college. Consider it ... personal responsibility of your own ... help her in every possible way.

Now this big game today—Satur- ... we all want to win and will do ... best to help the team to win. ... want to bury Middlebury good ... deep. We want Vermont to get ... victory.

Let's make it a victory! Let's turn ... in a big body and show the fel- ...s that we want them to win—that ... are back of them and will support ... to the end. Come on girls! ... show 'em what spirit the Ver- ... coeds have.

CO-ED.

... the situation now stands, Christ- ... vacation is to begin on December ... at 7.30, and end at 7.30 January 5. ... plan will make it necessary for ... to remain at Burlington on ... afternoon and Sunday, be- ... of the fact that classes are to ... held Monday the 21st. This will ... very inconvenient for those ... have planned on getting some ... employment during the holi- ... because the week is broken into ... end of the vacation.

... remedy the situation I would ... that the vacation period ... commence at 7.30 Sunday, ... December 20, and end at 7.30 Jan- ... This change would make no ... in the number of class days ... for the vacation period, and would at the same time be much more convenient from the students' viewpoint.

If this plan is satisfactory to the student body as a whole, I would like to see some action taken on it by the Student Senate and the University Council.

Although in the past few years the University authorities have displayed a growing tendency to disregard the wishes of the students, it does seem as if they would be willing to make this slight change, if the students desire it.

'27.

To the Women's Editor of the CYNIC:

Evidently the juniors and sophomores are going to stand or fall together in trying to show the class of '29 the error of its ways. Perhaps it would be a good idea for '28 to wash its hands of the entering class and to let it go its own way rejoicing. For tradition has it that the freshman woman should, in a mild way, bow down to the class next above hers. But if the unwritten laws cannot make any tangible impression, how can we, the sophomores, hope to concoct written laws whereby she will do our bidding?

'28 joins heartily with '27 in admonishing the freshman women to "think carefully before violating any more traditions of Vermont."

'28.

To the Women's Editor of the CYNIC:

The library is in constant use by the majority of the students, who come for information and to study. How can any one study if he is constantly annoyed by the whispering and giggling of a few who come, primarily, for a good time? It seems to me that the students at the University of Vermont, as a whole, realize what a wonderful privilege they have in that library. Isn't there some way we can make the minority appreciate it, too? Don't make the library your rendezvous; meet your friends elsewhere. Come to study and to enjoy the quiet and uninterrupted leisure in an unobtrusive manner.

'29.

The Catty Co-ed

Says

Burymiddle bury!
Bury Middlebury!!
No matter how
We all know why.
No hankies needed.
For tears.
And now—
Give that old
Fun-era-l dirt-ge
Shall we pray?
For our own
Victory,
Aye-men.

* * * *

Caution!
Expect anything
Hereafter.
A brick is loose
From our
Fun-dam-meants,
And is now
Roaming our campus
Why?
A free holiday
Given for
The asking to
You of V.
Something's wrong,
Or rather right
For a change.

PROF. CARROLL TALKS TO WOMEN'S STUDENT UNION

Professor Carroll gave an interesting talk in Student Union Saturday morning, November 7, explaining the plan of the proposed World Court and its importance in future world affairs.

Although the time was necessarily brief, Professor Carroll conveyed a condensed and definite idea of this body. At the close of the meeting leaflets were distributed urging college women to take an active interest in this move to further peace and arbitration among the nations.

GLEE CLUB REHEARSAL NIGHTS ARE CHANGED

Women's Glee Club rehearsals are held every Monday and Thursday evenings at 7 o'clock at the Music House. Previously rehearsals have been held on Monday and Wednesday evenings. The change was made to accommodate the Men's Glee Club.

WOMEN URGED TO ATTEND MISS HOLBROOK'S CLASS

Despite several attempts to acquaint the girls of the University with the class in Rural Leadership, there are some who are still wondering what the course is like, and what it seeks to accomplish.

Under the leadership of Miss Holbrook, a trained and experienced worker, the class takes up the ordinary problems of a teacher in a small community; but it goes farther than this, it points out solutions to questions whose problematic qualities would pass unnoticed by one who could not anticipate them. From her own varied experiences, Miss Holbrook draws illustrations and practical suggestions which supplement most interestingly the bare academic facts.

Questions will be answered by any members of the class but it would be a better idea to see for yourself between 7 10 and 8 on Tuesday evenings.

40 Lbs. Candy Given Away
10 Lbs. Smoking Tobacco
and
20 Cartons Cigarettes

1st Prize 2 5-pound Boxes Candy

TRY-OUTS FOR NEW PLAY

The first rehearsal for "The Goose Hangs High" a play to be given some time in December was held Tuesday, November 10. Rehearsals will be held every day until the time of presentation.

Plans are under way for another play to be given jointly by Masque and Sandal and Wig and Buskin. It is rather unusual to have two plays going at the same time, but the second was expressly designed to award further interest in dramatics and to give more opportunity to those having talent. There were tryouts for "The First Year" Monday and Tuesday at 4 o'clock. The cast definitely chosen will be announced later.

"HOW TO STUDY"

The Students' Hand-Book of Practical Hints on the Technique of Effective Study

by

WILLIAM ALLAN BROOKS

A GUIDE containing hundreds of practical hints and short cuts in the economy of learning, to assist students in securing MAXIMUM SCHOLASTIC RESULTS at a minimum cost of time, energy, and fatigue.

ESPECIALLY RECOMMENDED for overworked students and athletes engaged in extra curriculum activities and for average and honor students who are working for high scholastic achievement.

Some of the Topics covered

Scientific Shortcuts in Effective Study.
Preparing for Examinations.
Writing Good Examinations.
Brain and Digestion in Relation to Study.
How to Take Lecture and Reading Notes.
Advantages and Disadvantages of Cramming.
The Athlete and His Studies.
Diet During Athletic Training.
How to Study Modern Languages.
How to Study Science, Literature, etc.
Why Go to College?
After College, What?
Developing Concentration and Efficiency.
etc., etc., etc., etc., etc., etc.

Why You Need This Guide

"It is safe to say that failure to guide and direct study is the weak point in the whole educational machine." Prof. G. M. Whipple, U. of Michigan.

"The successful men in college do not seem to be very happy. Most of them, especially the athletes are overworked." Prof. H. S. Canby, Yale.

"Misdirected labor, though honest and well intentioned may lead to naught. Among the most important things for the student to learn is how to study. Without knowledge of this his labor may be largely in vain." Prof. G. F. Swain, M. I. T.

To students who have never learnt 'How to Study,' work is very often a chastisement, a flagellation, and an insuperable obstacle to contentment." Prof. A. Inglis, Harvard.

HOW TO STUDY will show you how to avoid all misdirected effort. Get a good start and make this year a highly successful one by sending for this hand book and guide NOW.

You Need This Intelligent Assistance

Boston Writer Suggests Vermont's Schedule-makers Play Football

... visitor to Burling... University of Vermont ... sees Champlain's ... he must have a ... the Vermont foot... fortunately repress... the soap box and ... of schedule-mak... the football squad. ... collegiate football ... its lack of provi... schedule-makers to get ... ing which this year ... of Capt. Joe Tarpey's

... of this Dartmouth ... new football ... to draw an assign... of proportion to their ... Particularly was it hard ... a viewpoint of respon... successive games with ... mouth, Springfield and ... second football teacher, ... should get results, Mc... been a difficult one.

... five and one-half ... with a 7-0 victory over ... Vermont hit its tough ... Probably the schedule-mak... the grind would properly ... the team for Norwich, Rens... Middlebury and St. Louis. ... at last to Syracuse only 26-0, ... tribute to its coaching and ... spirit. Dartmouth ran rough ... a 50-0 win, and after those two ... beatings, this Vermont team ... back and held Springfield five ... within its five-yard line and be... by a couple of field goals off ... Maddox's toe. That was real ... against a veteran Spring... team.

Holy Cross slapped another hurri... into the Vermont path to win ... and the wonder of it is that ... there's such a thing as a Vermont ... today. But having a team, Coach ... Lafayette fullback in 1908, ... for 13 years the Delaware coach, ... to work to mould one which ... weather its remaining games. ... O. Dresser is his assistant in ... rehabilitation work, a man well ... in Boston, Kansas State ... in 1914 and Springfield ... in 1917.

Could Vermont have weathered the ... planned for it, football ... back in the big cities would be ... knowingly these days, be... no small college team has hope ... such an array of foes in an ... year unless it is judiciously ... for such a schedule.

Joseph Tarpey '26 presently on the ... injured, is the Vermont ... a plucky leader possessed of ... qualifications which certify a ... quarterback or halfback. Like ... Vermont backs the Fitch... boy lacks the weight to stand ... a bruising schedule.

His squad had the handicap of ... for the first time in Vermont ... under a one semester eligibil... residence rule. That meant that ... would have no new material ... year and it would have to go ... its schedule with a squad ... was repeatedly defeated a year ... and which had been depleted by ... When ineligibility took ... squad, not reaped by grad... among them Rusty Yarnall ... Arthur Harms, prospects looked ... and slim they were.

In the squad available were five Bay ... men: W. S. Denning '27 of ... right tackle; Frank A. Win... '28, end and tackle, from ...; Jack Smith '28, full... from Dedham; John T. Conway ... quarterback, from New Bedford; ... R. I. Smith '26 of Holyoke, a ... student, whose studies hardly permitted him the time for football practice.

To start with, the squad had the makings of good ends in Willard J. Morse and Bill Leary, but changes were necessary as the season advanced, brought about by reason of the strenuous campaign. Bertram Chapman of Springfield, Vt., was the starting end against Holy Cross, with Leary on left end, and Morse spelling for him, while against Springfield, Leary and Frank Winchenbach had the wing assignments.

In the rush line Paul D. Clark of Woodstock has been a fixture at center with H. A. Aronson and J. Hill the guards. Hill is a fine lineman, a weight man on the track team and a lad who played every minute of last year's hard campaign. Aronson lacked seasoning, but has progressed fast. Tony Dougherty of Audendried, Pa., and Joseph J. O'Connell, Jr., of Saranac Lake are the reserve guards.

In Mike Katz and Frank Winchenbach, Vermont had veteran tackles, but Winchenbach, has been used as an end when available, and Denning filled in well as Katz's running mate, to make aggressive, hard charging tackles. R. L. Smith has subbed for Katz, while Russell Gray, originally an end, has subbed for Denning.

Vermont would present a fast backfield could it hold its varsity quartet together. Capt Tarpey is the logical quarterback, with Smith, Candon and Conway the carriers, but with Tarpey out it becomes necessary to move Candon to quarter with Robert L. Thompson of Proctor replacing him. Smith has done valiant work this year, and the Dedham youth has a bright future in collegiate football.

Vermont settles into its own class this week-end, when it meets Norwich, but in keeping with its usual run of luck it finds Norwich stronger than in recent years. If Vermont can pull itself together and win, the game will be fitting testimonial once more to a lion-hearted squad, as game as you'll find on the nation's gridirons.—Frank Ryan in the *Boston Traveller*

FOUR MORE FRATERNITIES HOLDING PLEDGE DANCES

Three fraternities will hold pledge dances at their respective houses on the evening of Saturday, the 14th.

At Sigma Nu Lodge Prof. and Mrs. Aiken and Mrs. A. E. Freeman will act as chaperones, and Paul Rider's Collegiate Orchestra will furnish the music.

The Alpha Tau Omega dance will be chaperoned by Captain and Mrs. W. V. Rattan and Lieutenant and Mrs. J. D. Frederick.

Kappa Sigma is expecting a large number of alumni to attend their dance, for which Pearson's Orchestra will furnish music. Professor and Mrs. D. B. Carroll and Mr. and Mrs. A. J. Stevens will chaperone.

Delta Psi will give a pledge dance on Friday, the 20th.

BASKETBALL SCHEDULE

The basketball schedule for the Green and Gold quintet, just released by Manager W. B. Gannon, contains six games at home and eight away with two pending dates, for the filling of which negotiations are under way.

The schedule follows:

December 12		Pending
December	15	St. Michael's at home
December	17	N. Y. State Teachers College, at home
January	5	N. Y. University, at New York
January	6	Union at Schenectady
January	9.	Pending
January	14.	St. Michael's at Winooski
February	4.	New Hampshire at home
February	6.	Middlebury, at home
February	9.	Union, at home
February	13.	Springfield at home
February	19.	Connecticut A. C. at Storrs
February	20.	M. A. C. at Amherst
February	22.	Springfield at Springfield
February	26.	Middlebury at Middlebury
March	1.	Norwich at Northfield
March 12	13.	Interscholastic tournament

NEW SIG ALPH HOUSE IS FORMALLY OPENED

Sigma Alpha Chi opened its house to the college and the city during the last week-end, and entertained a considerable number of faculty, students, and townspeople, besides many friends from out of town.

Prof. and Mrs. A. B. Myrick, Mr. and Mrs. A. C. Janke, both '23, and S. B. Heath '26 and Mrs. Heath '23 were in the receiving line in the afternoon. Prof. and Mrs. Myrick and Mr. and Mrs. L. W. Dean were chaperones at the pledge dance in the evening.

Miss Marion Brooks ... Saturday and Sunday. Misses ... Burbank '27, Charlotte Wood... Marietta Foster '28, Evelyn Lewis '28, Frances Dimick '28 and Mary Turner '29 served.

The house was decorated with ... and barberries set off ... every way. Lamoka ... orchestra played for the tea dance Saturday afternoon and the pledge dance in the evening.

WILL DISCUSS DIFFERENT THEORIES OF RELIGION

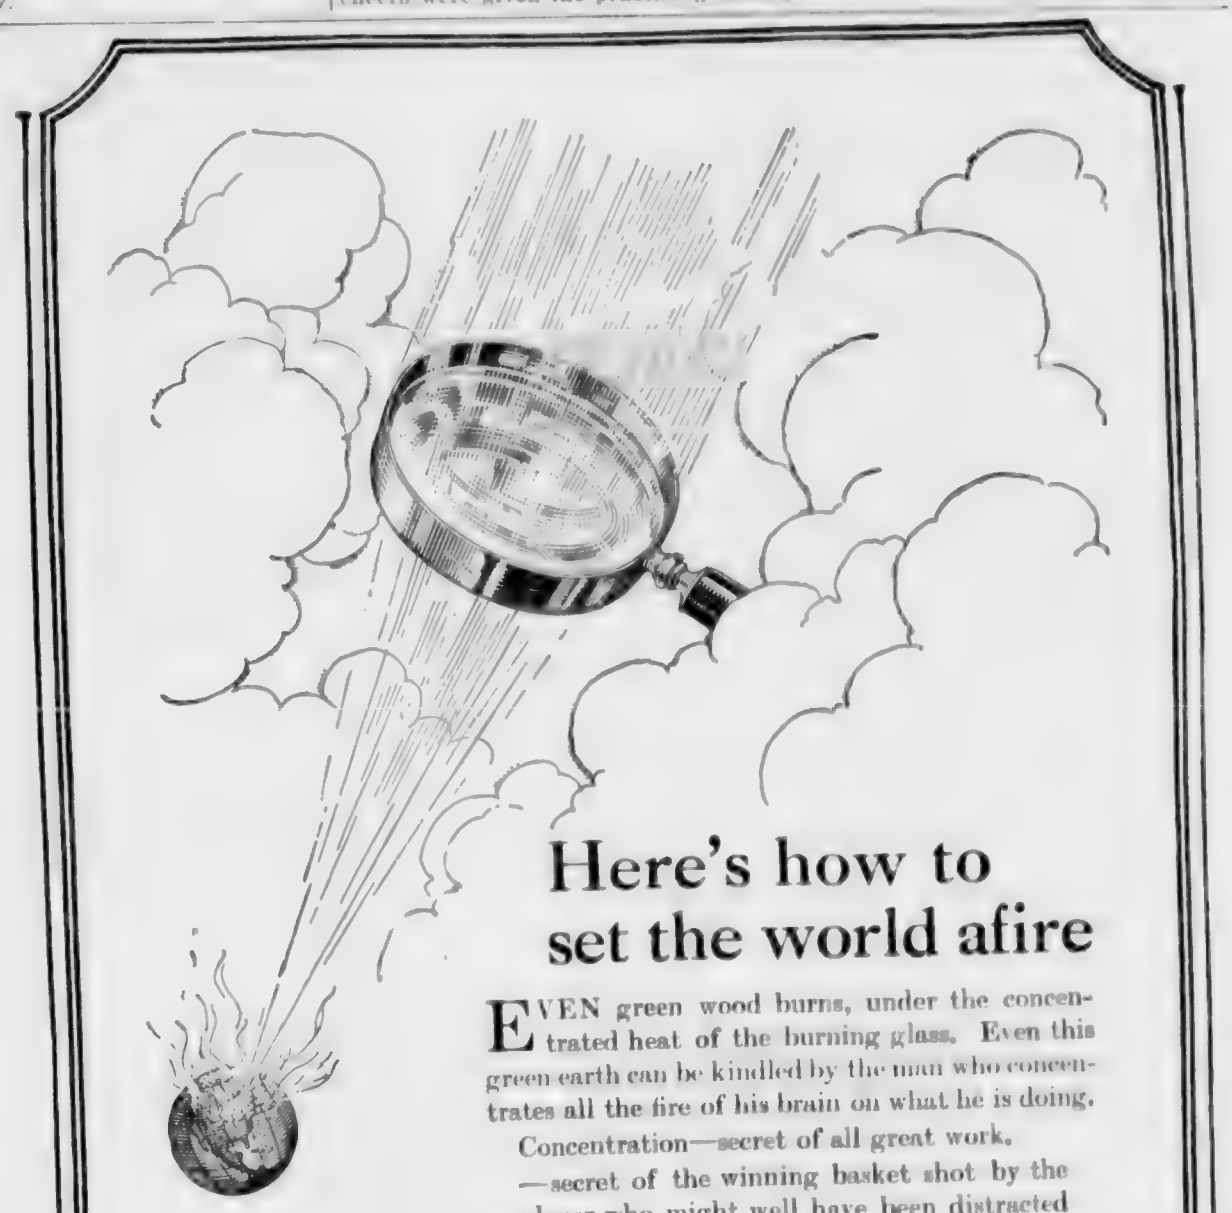
A small group has organized with the following stated purpose: "To endeavor to discover those things which we have in common, with the hope of greater cooperation, sympathy, and understanding in the future; to intelligently seek truth and discover facts in various faiths—Jewish, Roman Catholic, Protestant, et cetera—represented at their best; and to accomplish this without regarding any previous precedents or prejudice, without resorting to argument, with perfect sincerity and frankness and finally with due respect to spiritual things." Those interested may have additional information by writing to Department of Inquiry, 457 North Street, Burlington.

Owing to the absence of a quorum, no official business was done at the Student Senate meeting last Saturday. Several matters were discussed, and a petition addressed to the University Senate for the suspension of classes Wednesday.

WORLD WAR TROPHIES AND R. O. T. C. SQUAD

The first formal dance of the year, the Military Ball, was held last Tuesday at the gymnasium. Landi's orchestra of Barre played the Terpsichorean chants from 8.30 until 1. The gymnasium was tastefully decorated with banners in accordance with the ruling forbidding the use of crepe paper decorations. Several German machine guns and rifles captured during the World War were on display.

A novelty of the evening was the drill of the crack R. O. T. C. squad which won a prize competition held at Randolph in October. In the receiving line were Capt. and Mrs. F. B. Lammons, Major and Mrs. A. O. Davis, Capt. and Mrs. W. V. Rattan and Lieut. and Mrs. J. D. Frederick. About 200 couples attended the dance which was held under the auspices of the Scabbard and Blade society.



A grand parade to the Centennial Field was held Thursday afternoon. A large number of students led by the band proceeded to the field, where cheers were given the practicing team.

Here's how to set the world afire

EVEN green wood burns, under the concentrated heat of the burning glass. Even this green earth can be kindled by the man who concentrates all the fire of his brain on what he is doing.

Concentration—secret of all great work.

—secret of the winning basket shot by the player who might well have been distracted by "burned" elbows and eyes clouded with perspiration.

—secret of the scholarship prize that might more easily have been allowed to slip by in favor of the twittering birds and the flowers that bloom in the Spring.

—secret of the electrical short cut devised by the engineer too intent on that single task to let the thousand and one time-killers of the business day get the upper hand.

Concentration was their burning glass. And focused ability set their worlds afire.

The best stories are never written

HOW many times have you said, "This would make a wonderful short story"? But you didn't write it, and the inspiration was soon forgotten.

"Many a story banged off hot on my Corona in a front-line dugout would never have been written if I had waited to reach a spot of greater convenience." — *Louis R. Freeman, War Correspondent, Explorer, Traveler.*

• • • •

The advantage of owning a Portable Corona is that you can write your best thoughts as they come to you, anywhere, any time—and that's the secret of successful writing! The newest Corona (Model Four) has the standard keyboard used in offices everywhere.

Corona Four costs only $60. Easy terms if desired. Call or phone for demonstration.

The Vermont Cynic

BURLINGTON, VT., NOVEMBER 21, 1925 — NUMBER 9

LOOK WHO'S HERE!

Jack Smith Buries Midd, Assisted by Jack Conway

Green and Gold Recovers State Championship, Defeating Blue and White by Margin of Conway's Goal After Touchdown

Midd Band Plays "Champlain" and Green and Gold Returns Courtesy

The Vermont R. O. T. C. represented [illegible] and Blade, together with [illegible] Lechnyr of the band [illegible] instrumental in adding interest [illegible] features to the Vermont-Middlebury game last Saturday.

Before the opening of the contest the national and university colors were presented before the large crowd, and the Vermont band played the [illegible] anthem. The crowd arose [illegible] covered. The practice of open[illegible] contests at Centennial [illegible] paying homage to the nation [illegible] with much commendation.

During the halves of the game, the [illegible] and Vermont bands paid [illegible] to their rival's Alma Mater, [illegible] arrangements made by Leader [illegible]. After both organizations [illegible] marched on the field, they united [illegible] played the familiar "Up the [illegible] march.

The Middlebury band formed a "V" [illegible] played "Champlain." The local [illegible] responded by forming a [illegible] "M" and playing the Middle[illegible] Alma Mater. Both stands paid [illegible] while their rival's song [illegible] being played and sung. The *Free* [illegible] made the friendly spirit of the [illegible] a subject for a laudatory edi[illegible] last Monday.

COACHES HAVE MET HARD PROBLEMS WELL

Coach McAvoy came here this year as a new coach. He had mediocre material with which to prepare for a hard schedule. Odds were commonly considered as being two to one against Vermont with Middlebury, according to football authorities, and to be brought the team through to the Vermont state championship. What is more, his coming marks the [illegible] of a new spirit in football at Vermont. Coach McAvoy is respected and generally liked by all [illegible] whom he comes in contact. [illegible] Coach Dresser Vermont has had [illegible] of great value. He has [illegible] hand with good ideas, always [illegible] ready to be of any service [illegible] has helped in no small way [illegible] the team where it now is.

[illegible] Householder and Rattan [illegible] in much hard work with the [illegible] and a great deal of credit [illegible] to both of them. Through their [illegible] varsity material has [illegible] developed for the coming three [illegible].

The [illegible]more team has received [illegible] coaching from Mainini, who is [illegible] playing with them.

YEARLINGS PROMISE STRENGTH TO VARSITY

Several Frosh Look Like First String Material for Next Fall's Team

The yearling eleven close their season this afternoon with the game against Fort Ethan Allen. The season's record has been comparatively good, not only so far as victories are concerned, but also in unearthing material for following years.

To date the Frosh have won from Burlington High School and Mount Assumption Institute, Troy Conference Academy, and lost to Montpelier Seminary and the Middlebury freshmen.

The backfield shows prospects for great strength in Capt. Robbins, who is the mainstay of the team. His kicking and running stamp him as varsity material next season. With him may be considered Gardner, Foster and Thorne, all of whom may be depended upon for future use.

In the line, Palmer looks well as an aspirant for a wing berth by virtue of his scholastic record and also his playing this year. Kroppe, 195-pound tackle, will aid materially in building a line, something which is missed greatly at present. Levine, Robinson and Smith have the weight at the guard positions, and will no doubt be called upon to fill vacancies left this year. The varsity loses only five regulars by graduation, and with the advent of this year's Frosh eleven and considerable more grooming, the prospects for next year will be brightened to a great extent.

FROSH CLOSE SEASON AGAINST SOLDIER TEAM

This afternoon at Centennial Field Coach Householder's freshman eleven lines up against Fort Ethan Allen.

Little is known of the soldiers' lineup, except that it is the team which won the championship in the series recently held among the teams there, and will no doubt give the Frosh stiff opposition.

The freshman lineup will in all probability be the same as has started in previous games. There should be a good attendance, as this is the last opportunity to see a home game this season.

BLACK PANTHER HARRIERS DEFEAT VERMONTERS 33-22

Middlebury triumphed over Vermont in the Cross-Country meet Saturday morning, November 14, winning 33-22. Donald of Middlebury came in first, his time for the five-mile course being 23 minutes, 9 seconds. "Archie" Post of Vermont was second in 23 minutes, 41 seconds.

The runners finished in the following order:

Donald (M); Post (V); Arnold (M); Robinson (M); Tudhope (V); Dodd (M); Rowe (V); Lathrop (M); Stone (V); Suitor (V). Middlebury had four other men entered who were not counted, as only the places of the first five men on each side can be scored for points.

Vermont did well, considering that there were only five men to enter, with three of those in poor condition. Every man who started, finished the race.

CHEERLEADING IS OF VERY HIGH CALIBRE

"Mose" Moore and his cheer leaders deserve high praise for their tireless efforts in the season just completed. They have manufactured pep at every smoker, at every game, and have talked it and looked it the rest of the time. They have managed parades to the field and parades to the station, so that through their work a strong college spirit has been aroused this fall.

Among the novelties handled by them this year were the formation of the "V" at the Middlebury game, a snake dance between the halves of the Holy Cross contest, and the introduction of two new cheers, the "Yea Team," and the "New Vermont."

C. W. Moore '27 of New York City has been head cheer leader since last spring, and has developed a wonderful ability for extracting noise from a seemingly reticent student body. He has been assisted by Emory C. Mower '27 of Burlington, and George K. Leary '27 of Pelham, N. Y., from last year's squad.

In addition to these two members of the freshman class have been showing up well, Rosalie E. White of Burlington, and John K. Leahy of Allston, Mass.

Miss White is the first co-ed to lead a Vermont cheering section at an intercollegiate contest.

The two new cheers, which are not as well known as they should be, are as follows:

NEW VERMONT

vvV-eeE-rrR-mmM-ooO-nnN-ttT
veeeeeeer-MONT!
rrrrrrrrrr-Rah!
(*TEAM, TEAM, TEAM*)

YEA TEAM

V—E—R—M—O—N—T
veeeeeeer-MONT!
yeeeeeeee-A!
(TEAM)

FOOTBALL ELECTIONS

The Athletic Council will hold a meeting the first Wednesday in December at which time the "V's" for this season's football will be awarded. Directly after this elections will take place for next year's manager and captain, and the three assistant managers.

SMITH AND THOMPSON CARRY BALL 19 YARDS

Before one of the biggest crowds to witness a Vermont football game in several years, Vermont defeated Middlebury, a team that was predicted to win by football critics throughout New England.

It was the trusty toe of Jack Conway that turned a tie into victory for the Green and Gold.

Although the Black Panther line outweighed the light but fighting Vermont line, the fans were surprised by the way in which the Green and Gold outplayed the Black Panther line, both offensively and defensively.

Schechtman playing his last varsity game for Vermont, was easily the star on the defense, getting down under Smith's high punts time after time and tackling Whittemore in his tracks.

On the offensive Smith and Thompson starred for Vermont, Thompson gaining from 3 to 10 yards every time he took the ball. Had it not been for Smith's line bucking in the third quarter, Vermont might not have been state champions this year.

Time after time the Blue and White would work the ball up into Vermont territory, only to be held for downs, and Smith would calmly boot the ball 50 or 60 yards down the field.

It was due to Conway's educated toe that Vermont was victorious over Norwich. Again it came to Vermont's rescue and booted the final point after the touchdown.

Capt. Potter was easily the star for Middlebury, both offensively and defensively, pulling in pass after pass in the final quarter.

Winchenbach, playing guard in place of "Swede" Aronson, brought the Vermont fans to their feet when he intercepted a Middlebury pass and raced 50 yards only to be brought down by Hinman. The latter also caused the Vermont fans a little excitement when he ripped off 40 yards around right end before he was brought down by Conway.

Candon, still hindered by his injuries received in the Holy Cross game, played a wonderful defensive game and stopped many plays that would have been good for 10 yards more but for him.

Both touchdowns came as the direct results of fumbles, Middlebury's after Conway had fumbled Whittemore's punt, and Vermont's after Hinman fumbled on the 18-yard line.

The Game by Plays

Elbert kicked off to Conway on Vermont's 30-yard line. Candon was thrown for a one-yard loss. Smith made four yards, Thompson made two and Smith punted to Whittemore. Hinman failed to gain. Vermont was penalized five yards. Druggett gained two and Hinman added three more for first down.

Here Vermont was penalized five yards, twice in succession, for being off-side, giving Middlebury another first down. In the next play Hinman fumbled and Clark recovered for Vermont. Thompson made five yards. Smith failed to gain and a pass, Conway to Schechtman, failed. Smith punted to the eight-yard line where Doc Leary downed the ball.

Whittemore returned the punt to Conway on the 40-yard line. Thompson bucked the line for three, four and three yards respectively and first down. Conway failed to gain on an end run. Thompson made 4 yards. A pass, Conway to Leary, failed. Conway attempted a drop kick, which was

Number 41 of a Series

Introducing the Boys

"Joe" Tarpey

"Onie" Hill

"P. D." Clark

"Wink" Winchenbach

"Mike" Katz

"Speed" Denning

"Swede" Aronson

"Wink" Winchenbach
Left Guard. Weight 165

"Chappie" Chapman

"Bill" Morse

"Charlie" Schechtman

"Doc" Leary

"Jack" Smith

"Johnny" Candon

Johnny Candon, the Pittsford boy, played a hard game throughout the season at half. Many times he showed his grit when he was hurt, by getting in his test, and playing harder than ever. He was strong on the defense and always made the distance required of him when he carried the ball.

"Jack" Conway

Vermont is justly proud of her quarterback this year. In "Jack" Conway rests a threat that no opponent underestimates for let him get inside the 40 yard line and the oval is going to sail between the posts in short order unless the team is plowing steadily for a touchdown. He won the Norwich game in this fashion, and likewise made the first score of the Holy Cross game. His prowess in passing and broken field running, especially around the ends is also noticeable.

"Bob" Thompson

"Joe" O'Connell

"Doc" Daugherty

Misfortune overtook "Doc" Daugherty in practice before the season had commenced. He received an injury which held him back for a few weeks. Nevertheless when well he was back out on the field and whenever opportunity knocked he came through.

"Jim" Davies

Davies has served this year mainly as an understudy to Conway at quarterback. He started as a half-back but has shown his ability at the pilot's position when injuries have kept Conway out of the fray, proving to be a dependable substitute. Next year will find him in there fighting it out with the regulars for a first-string position.

"Red" Smith

"Red" Smith, although not being in the line-up all season, has been out every afternoon to practice and has been a hard worker. This is real spirit when one considers that he is a senior medic.

"Mike" Cerasoli

Coach McAvoy has another able second string quarterback in Cerasoli. He has seen some service this year but has had little chance to show his stuff due to the amount of material for the backfield. His speed makes up for his lack of weight since he tips the scale at only 143. He came from Montpelier Seminary.

Jay O'Connell
Left Guard. Weight 151

"CHARLIE" SCHECHTMAN
Right End. Weight 151

When the cuts of members of the team were gathered Wednesday afternoon for the CYNIC, it was discovered for the first time that there appears to be no cut of Schechtman in existence, and owing to the brief time left it was impossible to have one made. It is with much disappointment that we are obliged to omit a picture of this speedy end, whose work has had so much to do with the success of the team in the state series.

George Tuxbury

George, although not having played as a regular, has served as a dependable substitute at halfback for the past two seasons. He will be lost this year by graduation but in another year would have been in there fighting a strong bid for a berth.

"Nujol" Laubach

One day "Nujol" decided he'd like to take a vacation from baseball, so he donned a football uniform and came out to practice. He was soon running signals with the varsity first team, and consequently we find him playing part of the time, at various places in the backfield.

Campus Comment

To the Women's Editor of the CYNIC:

The story of the three bones might well be applied to those persons eating in college dormitories. The "jawbones" are continually complaining about the food. If it's not the kind of food, it's the quality or service that annoys them.

Secondly, there are the wishbones who are always dreaming of, and hoping for, certain delicacies. They don't realize that it would cost, at least a thousand dollars a year instead of two hundred and twenty-five for such fancies.

Thirdly, there are the backbones. They eat the food served to them, making the most of what they like, and either overlooking or correcting the rest.

How much pleasanter the conversation at a table would be if there were no "jawbones" or "wishbones"! Let us increase the number of "backbones" to the limit!

'28.

To the Women's Editor of the CYNIC:

Concerning the article about the food at Robinson Hall and Grassmount, the situation expressed is almost too ridiculous to deserve comment. The food was called "unfit to eat" in the name of all reason, what else? We have not suffered any bad effects from the food nor have we heard of any one else that has. While it is perfectly true that individual likes and dislikes cannot be catered to in an institution, it is equally true that the food is wholesome and good, and what is tremendously important, very plentiful. Let us play the game fair, and stop this grumbling about what we eat. If we must find fault with something, let us try to find some more worthy subject.

To the Women's Editor of the CYNIC:

In the last number of the CYNIC, a suggestion was made that Christmas vacation begin at 7.30 Sunday morning, December 19, thus enabling students to catch the Saturday trains.

This has caused considerable talk and a group of students assembled seem strong in favor of this suggestion be worked out and taken to the University Council.

Should we have our "say"—but a correspondent necessary in the present attitude thinks the University will disregard our wishes? Of course they can't comply with all our requests, we must admit they do not. We wanted Armistice Day. Perhaps it was purely sentimentalism, but then again perhaps not. Anyway the Council gave us the benefit of the doubt and declared "no classes would be held November 11." Many instances of this may be cited, and when we consider the question seriously, without any issues—we come to the point "What are we here for, to study—or see how many days of vacation we can get?"

The faculty is behind us—so let's give this question some more thought. It's a fine idea—better for everybody to be able to be home on Sunday—and we'll cheerfully come back to school a day ahead of the date called for—and renew our work with true New Year resolutions.

So—talk it up—and if we want it, the faculty will do their utmost to bring this about.

'27.

To the Women's Editor of the CYNIC:

Spirit—Spirit—we've had that word howled at us since our first day at Vermont—in fact we were just about to reach the stage when we'd shriek if anyone said the word again.

But it was worth it—wasn't it? Congratulations on the spirit displayed at the Vermont-Middlebury game. It was a hard-earned victory—and the team, fighting down there on the gridiron, knew that they were fighting—and fighting hard. But they went on—not because Vermont must capture the state championship—but the cheering, the vim, the pep. Every person on the bleachers was fighting with the same strength and spirit as our loyal representatives on the field.

It was a good game, wonderful spirit—everything blended to make it a never to be forgotten day. The impending storm hovered above—yet held off. Even the heavens wouldn't bring disappointment to a crowd such as there was that day.

We've got spirit—we've shown it, winning or losing—but it's up where we want it now. Keep it there, and it will win us many more games and bring much more success to ourselves—and to our dear Vermont

'27.

DEAN WASSON MEMORIAL TO TAKE GREATER FORM

Sixty-Eight Hundred Dollars Already Given Toward College Infirmary

Since the death of Dean Wasson it has been the earnest desire of many who knew and loved her to establish a memorial which might in her name be of benefit and service to University students.

The first conception of such a memorial was, as mentioned in an earlier issue of the CYNIC, an endowed bed in the Mary Fletcher Hospital, for the use of students. A committee was formed with Marion Way '23 as chairman, and a fund established.

Fine as this first idea was, a plan has recently been proposed which it is believed will appeal far more to the students of Vermont. If successful the Dean Wasson Memorial will bring about the realization of one of the greatest needs on the campus, that is, an infirmary building built and maintained solely for student use.

The idea which at first thought may seem a vast one to undertake to fulfill is not an indefinite dream. Already through the great generosity of Mr. H. A. Way, who has contributed $5,000 to the fund, and through $1,800 subscribed through other sources, the fund at present amounts to $6,800. An endowed hospital bed would require a little more than twice this amount; an infirmary building would cost $50,000 or more. The difference in the cost when compared with the relative value of the two memorials to the University seems almost negligible.

Since this is a project which concerns the student body, it seems that the student body should assume much of the responsibility. Campus organizations may vote donations to the fund, individuals subscribe in however small amounts. Aiding in this way the efforts of the committee we shall be able to realize the fulfillment of the plan in a comparatively short time.

The need for a University infirmary is apparent. Maintained by a small student tax it would be of service throughout the college year in innumerable cases. The student body should take pride in having a part in the creation of this memorial fund, taking action as soon as possible that there may be no delay in carrying out the plans.

With the Fraternities

Kappa Alpha Theta

Dorothy Howlon '25 was in town for the Vermont-Middlebury game.

Delta Delta Delta

Marjorie King and Marion Witters '24 spent the week-end in town and attended the Vermont-Middlebury game.

Rebecca Briggs ex-'26 has returned to Brandon after spending a few days with friends here.

A supper and entertainment were held last week at the home of Gladys Ford in honor of Mrs. Edmund H Stevens, Province deputy.

Dorothy Thayer and Rebecca Carpenter '25 were week-end visitors in town.

Pi Beta Phi

Miss Vida Peene of Toronto, Can president of Alpha Province, was here over the week-end. Miss Penne was entertained at a luncheon at the Golden Pheasant tearoom Saturday and at a tea following the Vermont-Middlebury game, to which the Middlebury chapter was invited.

Alpha Xi Delta

A dinner was held Saturday night in honor of the Middlebury chapter, about thirty from that chapter being present.

Alpha Xi Delta will hold its first informal dance of the year tonight at the chapter rooms.

Alpha Chi Omega

Alma Cowles '25 was in town for the week-end. Mrs. D. B. Carroll has been made a patroness of the fraternity.

DRAMATIC SOCIETIES HAVE NEW PLAYS UNDER WAY

Rehearsals for the first college play, "The Goose Hangs High," commenced Tuesday afternoon at the Vermonters Club House. Mrs. C. Ives Taggart, who has coached such successes as "Dulcy," "Tweedles" and "Her Husband's Wife," which were presented by the University dramatic societies, is directing the cast, which consists mostly of students who have not yet appeared in a college production. "The Goose Hangs High" is to be presented at The Strong during the second week in December.

The cast for the second college play, "The First Year," which will be presented in the Edmunds High School auditorium December 20 by Wig and Buskin and Masque and Sandal has been announced.

"The First Year," a comedy-drama by Samuel French, will be coached by Prof. John Metcalf and managed by C. H. Blackall '27. The members of the cast are eligible for Masque and Sandal and Wig and Buskin.

DRAMATIC CLUB MEETING

The regular monthly meeting of the Dramatic Club was held Thursday evening at the Kappa Alpha Theta House. After the business meeting, the remainder of the evening was taken up with an entertaining program on the life and works of Michael Arlen.

C. B. C. PLEDGES THREE

The first meeting of the year of C. B. C. was held at Grassmount, Sunday evening, November 15. Two members from out of town were present, Lillian Bryan ex-'27 and Rebecca Briggs ex-'28, in addition to the active chapter.

C. B. C. announces the pledging of Arline Cushing '27, Eunice Cook '27, and Juanita Witters '28.

The Catty Co-ed Says

And so—
Middlebury passed on
And out'
Such a game
Never again
The best team—

Or—eat too much!

W. A. A.

There will be a bacon bat today at Oak Ledge. Marion Parker '27 is chairman of the committee in charge of the arrangements.

Next week the final soccer games will be played off.

Indoor gymnasium work begins Monday, November 30.

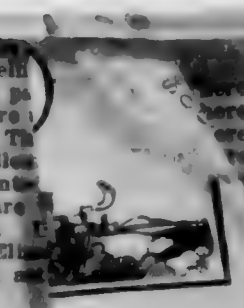
The class managers of basketball are busy mapping out the schedule. This will be released in the near future.

Rifle is proving extremely popular this year. There will be a large number from which to select the team. The following list of those who will continue to report has been posted: From the class of 1926: A. Anderson, A. Wright, M. Bigelow, E. Fassett, M. Hunter, A. Crowe, T. Matthewson. From 1927: A. Ward, M. Preston, I. Avery, D. Sprague, M. Parker, R. Bean, F. Westover, E. Howe, D. Baker. From 1928: C. Hyde, E. White, Muriel Cleveland, L. Prevost, D. Hart, K. Wright, E. Goodwin, P. Lynch, R. Skinner, M. Richardson, E. Taft, A. Batten, D. Dearing, D. Crandall. From 1929: M. Everest, F. Tracy, M. Bacchus, E. Lamphere, L. Tomlinson, K. Hubbard, M. Roberts, E. Perleman, L. Fiske, E. Fiske, M. Freeman, L. Tompkins, D. Peterson, D. McKenzie, M. Hill, L. Bracken and D. Little.

THE AUTUMN ELF

The autumn elf has entered.
And painted the world in gold;
He has brought, in his wake, bluest skies
And October crisp and cold

If one watches now, one may see him
With his palette and brush in hand
Robed in his little suit of orange
And painting all over the land



He has touched the maples with yellow,
And with strokes of scarlet, too.
While the elms, the oaks and the birch trees
He has gowned in a brilliant hue

He has painted the pumpkins golden
And the ripening autumn fruit
Ah, what a busy artist is he
The elf in the orange suit!

Campus Comment

To the Women's Editor of the Cynic:

The story of the three bones might well be applied to those persons eating in college dormitories. The "jawbones" are continually complaining about the food. If it's not the kind of food it's the quality or service that annoys them.

Secondly, there are the wishbones who are always dreaming of, and hoping for, certain delicacies. They don't realize that it would cost, at least, a thousand dollars a year instead of two hundred and twenty-five to suit their fancies.

Thirdly, there are the backbones. They eat the food served to them, making the most of what they like, and either overlooking or correcting the rest.

How much pleasanter the conversation at a table would be if there were no "jawbones" or "wishbones"! Let us increase the number of "backbones" to the limit!

'28.

To the Women's Editor of the Cynic:

Concerning the article about the food at Robinson Hall and Grassmount the situation expressed is almost too ridiculous to deserve comment. The food was called "unedible." In the name of all reason why that? We have not suffered any bad effects from the food nor have we heard of any one else that has. While it is perfectly true that individual likes and dislikes cannot be catered to in an institution, it is equally true that the food is wholesome and good, and what is tremendously important, very plentiful. Let us play the game fair, and stop this fussing about what we eat. If we must find fault with something, let us try to find some more worthy subject.

To the Women's Editor of the Cynic:

In the last number of the Cynic, a suggestion was made that Christmas recess begin at 7.30 Sunday morning, December 20, thus enabling students to leave on the Saturday trains.

This has caused considerable talk among a group of students asked, and all seem strong in favor of it. Can this suggestion be worked out? Let the University Council say.

We've had our "say"—but a correspondent thinks necessary in the present attitude thinks the University will regard our wishes? Of course it won't comply with all our requests, but we must admit they do occasionally. We wanted Armistice Day. Perhaps it was purely sentimental, but then again perhaps not. Anyway the Council gave us the benefit of the doubt and declared no classes would be held on the 11th. Many instances of this can be cited, and when we consider this question seriously, with all other issues—we come to the conclusion, "What are we here for, to study—or see how many days of vacation we can get?"

The faculty is behind us—so let's give this question some more thought. It's a fine idea—better for everybody to be able to be home on Sunday—and we'll cheerfully come back to school a day ahead of the date called for—and renew our work with true New Year resolutions.

So—talk it up—and if we want it, the faculty will do their utmost to bring this about.

'27.

To the Women's Editor of the Cynic:

Spirit—Spirit—we've had that word howled at us since our first day at Vermont—in fact we were just about to reach the stage when we'd shriek if anyone said the word again.

But it was worth it—wasn't it? Congratulations on the spirit displayed at the Vermont-Middlebury game. It was a hard-earned victory—and the team, fighting down there on the gridiron, knew that they were fighting—and fighting hard. But they went on—not because Vermont must capture the state championship—but the cheering, the vim, the pep. Every person on the bleachers was fighting with the same strength and spirit as our loyal representatives on the field.

It was a good game, wonderful spirit—everything blended to make it a never to be forgotten day. The impending storm hovered above—yet held off. Even the heavens wouldn't bring disappointment to a crowd such as there was that day.

We've got spirit—we've shown it, winning or losing—but it's up where we want it now. Keep it there, and it will win us many more games—and bring much more success to ourselves—and to our dear Vermont.

'27.

DEAN WASSON MEMORIAL TO TAKE GREATER FORM

Sixty-Eight Hundred Dollars Already Given Toward College Infirmary

Since the death of Dean Wasson it has been the earnest desire of many who knew and loved her to establish a memorial which might in her name be of benefit and service to University students.

The first conception of such a memorial was, as mentioned in an earlier issue of the Cynic, an endowed bed in the Mary Fletcher Hospital, for the use of students. A committee was formed with Marion Way '23 as chairman, and a fund established.

Fine as this first idea was, a plan has recently been proposed which it is believed will appeal far more to the students of Vermont. If successful the Dean Wasson Memorial will bring about the realization of one of the greatest needs on the campus, that is, an infirmary building built and maintained solely for student use.

The idea which at first thought may seem a vast one to undertake to fulfill is not an indefinite dream. Already through the great generosity of Mr. H. A. Way, who has contributed $5,000 to the fund, and through $1,800 subscribed through other sources, the fund at present amounts to $6,800. An endowed hospital bed would require a little more than twice this amount; an infirmary building would cost $50,000 or more. The difference in the cost when compared with the relative value of the two memorials to the University seems almost negligible.

Since this is a project which concerns the student body, it seems that the student body should assume much of the responsibility. Campus organizations may vote donations to the fund, individuals subscribe in however small amounts. Aiding in this way the efforts of the committee we shall be able to realize the fulfillment of the plan in a comparatively short time.

The need for a University infirmary is apparent. Maintained by a small student tax it would be of service throughout the college year in innumerable cases. The student body should take pride in having a part in the creation of this memorial fund, taking action as soon as possible that there may be no delay in carrying out the plans.

With the Fraternities

Kappa Alpha Theta

Dorothy Heflion '25 was in town for the Vermont-Middlebury game.

Delta Delta Delta

Marjorie King and Marion Witters '24 spent the week-end in town and attended the Vermont-Middlebury game.

Rebecca Briggs ex-'28 has returned to Brandon after spending a few days with friends here.

A supper and entertainment were held last week at the home of Gladys Ford in honor of Mrs. Edmund H. Stevens, Province deputy.

Dorothy Thayer and Rebecca Carpenter '25 were week-end visitors in town.

Pi Beta Phi

Miss Vida Peene of Toronto, Can., president of Alpha Province, was here over the week-end. Miss Penne was entertained at a luncheon at the Golden Pheasant tearoom Saturday and at a tea following the Vermont Middlebury game, to which the Middlebury chapter was invited.

Alpha Xi Delta

A dinner was held Saturday night in honor of the Middlebury chapter, about thirty from that chapter being present.

Alpha Xi Delta will hold its first informal dance of the year tonight at the chapter rooms.

Alpha Chi Omega

Alma Cowles '25 was in town for the week-end. Mrs. D. B. Carroll has been made a patroness of the fraternity.

DRAMATIC SOCIETIES HAVE NEW PLAYS UNDER WAY

Rehearsals for the first college play, "The Goose Hangs High," commenced Tuesday afternoon at the Vermonters Club House. Mrs. C. Ives Taggart, who has coached such successes as "Dulcy," "Tweedles" and "Her Husband's Wife," which were presented by the University dramatic societies, is directing the cast, which consists mostly of students who have not yet appeared in a college production. "The Goose Hangs High" is to be presented at The Strong during the second week in December.

The cast for the second college play, "The First Year," which will be presented in the Edmunds High School auditorium December 20 by Wig and Buskin and Masque and Sandal has been announced.

"The First Year," a comedy-drama by Samuel French, will be coached by Prof. John Metcalf and managed by C. H. Blackall '27. The members of the cast are eligible for Masque and Sandal and Wig and Buskin.

DRAMATIC CLUB MEETING

The regular monthly meeting of the Dramatic Club was held Thursday evening at the Kappa Alpha Theta House. After the business meeting, the remainder of the evening was taken up with an entertaining program on the life and works of Michael Arlen.

C. B. C. PLEDGES THREE

The first meeting of the year of C. B. C. was held at Grassmount, Sunday evening, November 15. Two members from out of town were present, Lillian Bryan ex-'27 and Rebecca Briggs ex-'28, in addition to the active chapter.

C. B. C. announces the pledging of Arline Cushing '27, Eunice Cook '27, and Juanita Witters '28.

The Catty Co-ed Says

And so
Middlebury passed on
And out!
Such a game
Never again
The best team
Ever
The panther's claws
Dug in the Witches back
While Thompson
Yelled—Check-man!
When he saw Clark
Go Leary eyed.
We missed the others
Yes, oh yes!
But the coach
Called in the Smith
From On the Hill.
Who said—
Come-a way
It Can be-done
And such a Dinning!
Every one yelled
Holy Kats!

• • • •

Ain't it grand
To have our profs
Work up
Our appetites for
Thanks-giving
With their little notes
Of twelve—or more
Inquiring questions
As to the state
And even rate
We've been going
It will have to be
A case of
X-it.

• • • •

Cheer up!
Mother and the
Turkey will be
Waiting for you!
Don't let it get cold
Or—eat too much!

W. A. A.

There will be a bacon bat today at Oak Ledge. Marion Parker '27 is chairman of the committee in charge of the arrangements.

Next week the final soccer games will be played off.

Indoor gymnasium work begins Monday, November 30.

The class manage... of basketball are busy mapping out the schedule. This will be released in the near future.

Rifle is proving extremely popular this year. There will be a large number from which to select the team. The following list of those who will continue to report has been posted: From the class of 1926: A. Anderson, A. Wright, M. Bigelow, E. Fassett, M. Hunter, A. Crowe, T. Matthewson. From 1927: A. The Vermont Cynic

Campus Comment

CHORUS

VERMONT, Vermont forever
Hail Green and Gold Alma Mater
Vermont, Vermont your colors wave
Here's three cheers for Vermont
For Gallant and old
Hail gains before we start
For the Green and Gold

To the Editor of the Cynic

Now that our fighting football team has brought the championship back where it belongs, what are we going to give the team in remembrance?

A lot of them are seniors and nothing is more pleasing to have than a gold football dangling from one's watch chain.

Let's start a movement to get the team gold footballs. They have earned them, and deserve them.

CHAMPION

To the Editor of the Cynic

We are all mighty glad that Vermont won over Middlebury. It was a great game from every angle. But the celebration after the game was not so good. As a member of the University it was bitterly disappointing to hear that a number of men sought to enjoy the sweetness of victory through the use of liquor. And the most disgusting, as well as dangerous part of it were the efforts of a few apparently somewhat successful in regimenting the freshmen of Converse Hall into accepting this method of celebrating.

There have been numerous expressions in these columns to the effect that we want a better and truer Vermont. It is said we want a loyal Vermont spirit. We will never get the highest type of college loyalty the way some Vermont men, even though they are in the minority, showed it Saturday night.

Daily Dribble

Whose meeting to be delivered [illegible] do not peep at it [illegible] your knees.

Not until some foles are fools [illegible] do they learn to keep [illegible] up.

No man every prayed heartily without learning something.

It is never too late to learn. I [illegible] find it all that settles it.

Many a man that has an exalted opinion about himself is a poor judge of human nature.

Dependability is one mark of success.

The Delta Psi Fraternity held a pledge dance at the chapter house last evening. The chaperones were Dr. and Mrs. O. K. French. Ryder's orchestra furnished music.

"BILL" MORSE
Left End, Weight 171

To the Editor of the Cynic

In the past when the song, "Hail Green and Gold" has been sung, there has been an astonishing lack of knowledge of the words on the part of the upperclassmen as well as the freshmen. This song is one of the best we have and although it is printed in the Freshmen "Bibles" it may well be reprinted for the benefit of those who do not know the verses:

The years may come and years may go,
Old Vermont lives forever
We love the hill and the Old Mill
For the pleasant memories there.
Old Gold we never yield
But sing this fresh to thee
With lusty cheers to quell all fears
Our song of Victory

[illegible] students playing the game to the finish. Vermont defeated Norwich [illegible] Middlebury and won the state championship.

We are proud of the fighting little team that did the work. We are just as proud of the fighting little college that stood behind the team to the last.

This issue of the Cynic is a tribute to that team and to the Vermont Spirit stronger now than at any time since 1926 entered the University of Vermont.

These few paragraphs are a feeble attempt to express what is today in the mind and heart of every good Vermonter. They can be but an attempt but they are our best.

Yes, these are hectic days.

UNIVERSITY GYMNASIUM

We ... a formal recognition of ... which already exists. ... safeguard seems necessary ... membership in the ... not members of the league. However this very safeguard may at some time be used as a bulwark against the progressive development of the institution in which we are seeking membership, for other states may demand privileges exactly the same as those for which we are asking and, if individual states may veto changes, progress is likely to be retarded. It would seem, however, that we as a nation have nothing to lose and much to gain by accepting this reservation as a condition of our entrance into the world court.

The reservation dealing with advisory opinions of the court is of peculiar interest. It would free us from all obligation to carry into effect the provisions of any advisory opinion, if we had not voluntarily submitted the case to the court. In the first place, it must be pointed out that, under the present organization, whether in the covenant of the league, the statute of the court, or the rules of procedure of the court, advisory opinions are not rendered by the court on cases submitted to it by individual states. Such opinions are rendered only in cases submitted to the court by the Council or Assembly of the League of Nations. These decisions would certainly set up a moral obligation among the states affected, but there is certainly no organization set up which assumes the right to enforce these advisory opinions among states which are not members of the league. The declaration on our part that we are not to be bound by these advisory opinions will hardly relieve us of the moral responsibility attached thereto, but it clearly will free us from any legal obligation to enforce these decisions.

The advisory opinions of the court are intended as preventive measures. It is felt by those who urge the use of this phase of the court's work that it is better to get the decision of the court before the crisis between particular states has actually arisen than it is to wait for the presentation of the facts to the court after the crisis has developed, if peace among nations is to be preserved. They point out that it is oftentimes very difficult to prevent war between states after a crisis has arisen. Of course it is true that states that are not members of the League of Nations have no voice in determining what cases shall be presented to the court for an advisory opinion and it is doubtless largely for this reason that we are proposing this reservation.

There is much to be said in favor of the desirability of accomplishing the things outlined in the additional reservations which the Y. M. C. A. and Y. W. C. A. are advocating. Much of this program will require years for its accomplishment and the procedure is at least questionable, if not faulty. The ideal is one which the nations may ultimately attain, but it will require years and perhaps centuries. It would seem best to get back of the national administration with the reservations which it is supporting and not to embarrass our representatives in Washington with those additional reservations. It may be well in passing, however, to point out that the League of Nations now has a committee of jurists, of which former Attorney General Wickersham is a member, working on the problem of codifying international law.

Professor Manley O. Hudson of the Harvard Law School has well described the present position of the court in his book, "The Permanent Court of International Justice," page 256, as follows:

"Meanwhile the court has gone ahead with its work. It has already vindicated the practically universal acclaim with which its establishment was hailed by the lawyers of the world, including the lawyers of the United States.

"Gradually but surely, therefore, a change is going on which is extending the field of law in international relations. A world court is no longer a dream, it is a dream come true. The United States is not asked to assist in establishing a court. It is merely asked to join in maintaining an established court.

"Whether the United States takes any action in support of the Permanent Court of International Justice or not, it should be clear that that court is going on, that it will continue its work, and that Judge John Bassett Moore and his colleagues will continue to render valuable service to the world. The United States may go before the court, whether it joins in support of it or not. The situation will not be greatly changed one way or another. What is important is that the United States should not lose an opportunity to vindicate the hope of the men who fought the war for a governed world."

"HOW TO STUDY"

The Students' Hand-Book of Practical Hints on the Technique of Effective Study
by
WILLIAM ALLAN BROOKS

A GUIDE containing hundreds of practical hints and short cuts in the technique of learning to assist students in securing MAXIMUM SCHOLASTIC RESULTS at a minimum cost of time, energy, and fatigue.
ESPECIALLY RECOMMENDED for overworked students and athletes engaged in extra curricular activities and for average and poor students who are working for high scholastic achievement.

Some of the Topics covered

Scientific Shortcuts in Effective Study.
Preparing for Examinations.
Writing Good Examinations.
Brain and Digestion in Relation to Study.
How to Take Lecture and Reading Notes.
Advantages and Disadvantages of Cramming.
The Athlete and His Studies.
Diet During Athletic Training.
How to Study Modern Languages.
How to Study Science, Literature, etc.
Why Go to College?
After College, What?
Developing Concentration and Efficiency.
etc., etc., etc., etc., etc., etc., etc.

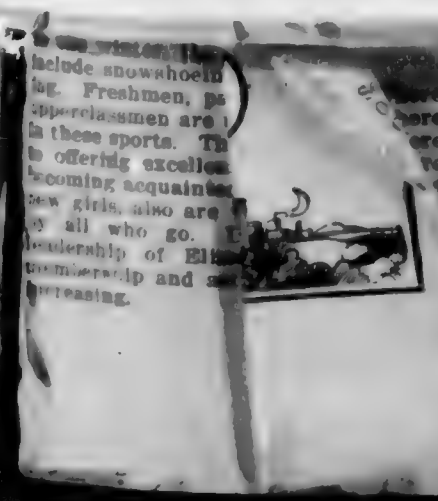
Why You Need This Guide

"It is safe to say that failure to grade and direct study is the weak point in the whole educational machine." Prof. G. M. Whipple, U. of Michigan.

"The successful men in college do not seem to be very happy. Most of them, especially the athletes are overworked." Prof. H. S. Canby, Yale.

"Misdirected labor, though honest and well intentioned may lead to naught. Among the most important things for the student to learn is how to study. Without knowledge of this his labor may be largely in vain." Prof. G. F. Swain, M. I. T.

"To students who have never learnt 'How to Study,' work is very often a chastisement, a flagellation, and an insupportable obstacle to contentment." Prof. A. Inglis, Harvard.



"HOW TO STUDY" will show you how to avoid all misdirected effort. Get a good start and make this year a highly successful one by sending for this hand-book and guide NOW.

SPORTING NEWS

GRID SEASON ENDS IN ST. LOUIS GAME

Boys From Missouri Outweigh Green and Gold 10 Pounds

RECORD DOES NOT SHOW HEAVY SCORING OUTFIT

After "coming through" with the [illegible] to wallop Middlebury and bring the State Championship back to Vermont, the squad had [illegible] release from practice until [illegible] when Coach McAvoy again [illegible] the drill preparatory to departure on Monday night for the [illegible] day game with St. [illegible].

The team leaves on the 6 02 train [illegible] and will return at noon [illegible]. Only a pair of broken [illegible] be sufficient to keep the [illegible] supporters away from the [illegible], when the train pulls out bearing the team. Those with pull [illegible] there on crutches to [illegible] the Old Vermont."

[illegible] has a far heavier team than Vermont's, but their scores of the season indicate no powerful offense [illegible]. They bowed before the Army 19[illegible], and also lost to Detroit. The result of their game with Carnegie Tech this afternoon will give more [illegible] as to the probable outcome of the battle on the 28th.

Coach Savage has a large squad from which to choose, with an average weight of 180, whereas there is but one man wearing the Green and Gold who tips the beam at that mark.

[illegible] captain and fullback, Frank [illegible], will bear a lot of watching when they have the ball. He is a [illegible] ground gainer, and did great work against Detroit and Centenary last year.

The [illegible] will show the game [illegible] as it is in progress next Thursday afternoon, so the team may [illegible] they are receiving support [illegible] it may not be audible on the [illegible].

Vermont will probably use the same [illegible] which worked so well against the Black Panther, and will do their best to bring back the bacon. Jack Smith's punts will help to keep St. [illegible] out of dangerous territory [illegible] probable line-up follows:

"BOB" BUTTLES ILL

Vermont students are all very [illegible] to hear of the protracted illness of [illegible]. He was forced to go to the hospital during the early part of October with a severe case of [illegible] and his recovery has been [illegible] slow. Everything possible is being done for his welfare, yet such a long siege has been nervous affair at his age.

[illegible] athletic ability has been proved this fall on the gridiron, for he was developing into a fast and [illegible] halfback. With the approach of the basketball season, we will be [illegible] aware of the lack, for he [illegible] could keep that sphere through the [illegible].

His room at Mary Fletcher is No 10, on the third floor at the east end, and he is now able to enjoy the visits of friends.

Diamond, Field and Track

[illegible] personal [illegible] places in sport minds, opinions on the good and bad points of the game are freely offered.

—V—

Recently George Owen, himself a former Harvard grid star, made statements to the effect that football players enjoy the game. Further substantiation of these statements is offered by Dr. Morton Prince, Boston physician and psychologist, in the *Harvard Alumni Bulletin*.

—V—

Dr Prince believes that the only pleasure which the average football players gets out of the game is the memory of successful seasons. He likens this memory to recollections of shipwreck and any narrow escape, situations unpleasant at the time of occurence, but pleasant to relate when the pains are forgotten.

—V—

He argues that if students were in love with the game, teams could be organized without the elaborate system of coaching and training now necessary but would play among themselves as in tennis, golf and other games. He compares football to cock-fighting, where it makes no difference whether the birds enjoy the sport as long as the crowd of spectators has a good time.

—V—

Hugh Fullerton in "Liberty" looks at it from another point of view, saying that football men learn to play the game when they are young, and keep it up when they get into the business and professions of afterlife.

—V—

He scores the general impression created by jokesmiths and the ignorant "that college athletes, especially football players, are a set of physically endowed lunkheads." This impression, he believes, is due to the fact that no one has taken the trouble to look up the records of grid heroes of former years. He says that those who will start with the assumption that the players are boneheads, ignore "the fact that unless a student is at least ten per cent better than the average of his class in studies he is not permitted to play at all—in well conducted schools."

—V—

In afterlife, football is one of their biggest assets, according to the testimony of the majority of one-time players. Football players are far ahead of others of the same age, because owing to their aggressiveness and self-control more reliance is placed in them at first.

J. B. P.

Jack Smith Buries Midd. Assisted by Jack Conway

(Continued from page 1)

blocked and recovered by Rice of Middlebury.

Hinman was thrown for a two-yard loss. Middlebury penalized five yards for off-side. Whittemore punted and Conway fumbled, but recovered and was tackled on the 40-yard line. Thompson made five yards, Smith made six more for first down. Thompson made two yards. A pass, Conway to Thompson, was good for 11 yards and first down. Thompson made four yards. A pass failed, but the ball went over the goal line and Middlebury took the ball on the 20-yard line.

Hinman failed to gain. He again took the ball for eight yards. Whittemore punted, but Vermont was off-side and Middlebury made first down. Gruggell was tackled for a seven-yard loss by Katz. Hinman made three yards. A pass, Whittemore to Rice, failed, and Middlebury punted to Conway, who fumbled and Brosowsky recovered on the 38-yard line. Here the [illegible] ended.

Middlebury Scores

Leary tackled Rice for a six-yard loss. A forward, Whittemore to Rice, was good for 10 yards. Another pass, Hinman to Potter, was good for another 10 yards and first down. Hinman added seven more, Gruggell made one yard. Rice added two more, and first down. Gruggell failed to gain. Hinman made one yard.

In the next play Rice leaped over the goal line, only to be thrown back, but the line had been crossed and Middlebury had drawn first blood.

Vermont's fighting spirit reached its highest pitch, and the Green and Gold linesmen broke through and hurried Capt. Potter's placement, which failed to cross the bars, and Middlebury had lost the state championship.

Elbert kicked off to Denning on the 10-yard line, Denning running the ball back 10 yards. Candon failed to gain. Smith made one yard. Smith punted to Whittemore on the 32-yard line.

Whittemore punted back to Conway. Thompson made two yards, Conway failed to gain. Thompson no gain. Smith punted to Whittemore, who was downed in his tracks by Schechtman. Hinman made 40 yards around right end before he was stopped by Candon.

It looked like another touchdown for Middlebury, but here Vermont [illegible] and held for three downs. Capt. Potter tried a field goal from placement, which failed and Vermont took the ball on the 20-yard line.

Thompson failed to gain, Smith also failed. Smith punted to Whittemore on the 45-yard line. Gruggell made five yards, but Middlebury was off-side and was penalized five yards. A pass, Hinman to Rice, was good for 20 yards. Hinman failed to gain. Here Wiley substituted for Brosowsky. Two passes failed, and Capt. Potter tried another field goal, which failed.

Smith ripped off nine yards off tackle, but Vermont was off-side and Smith punted to Whittemore. A pass, Whittemore to Potter, was grounded by Smith. On the next play Thompson intercepted a pass on Vermont's 30-yard line. Thompson made three yards. Smith no gain. A pass failed. Smith kicked.

Rice failed to gain. A pass, Rice to Jones, ended the half with Middlebury in possession of the ball at mid-field.

Second Half

Elbert kicked off to Thompson on the 10-yard line, who ran the ball back 30 yards. Here successive gains by Thompson and Smith gave Vermont first down. Candon made a yard, Conway failed to gain. A forward, Conway to Leary, failed, and Smith punted to Whittemore on the 23-yard line.

Middlebury was penalized five yards for delaying the game. On the next play Hinman fumbled, and Schechtman recovered.

Vermont Scores

This was the first break of the game which came Vermont's way, and they took advantage of it. Thompson made nine yards. Smith added six more, and on the next play made first down. Smith made three yards, carrying the ball for the fourth consecutive time, went over for Vermont's only touchdown. Conway kicked the goal.

From here on Middlebury opened up a triple pass, Hinman to Rice to Potter, which seemed to baffle Vermont for a while, but with three minutes left to play and Middlebury in possession of the ball on the 12-yard line, Winchenbach intercepted a Middlebury pass and started on what looked like another touchdown for the Green and Gold until he was tackled in mid-field by Hinman.

In the final period Smith showed the fans what a real punt is like when he punted from the 50-yard line into the east stands.

SOPHS WIN 20-0 FROM HELPLESS FROSH TEAM

Mainini and Williams Star for Winners in Interclass Contest

The sophomores crashed through the freshmen for a 20-0 victory in the interclass game Wednesday.

The Frosh seemed powerless before the onslaught of the heavy sophomores. Mainini and his mates ripping through the yearling line almost at will. Although they finally tried an aerial attack, the passes were never completed.

Two touchdowns were scored by the Sophs in the second period and the other in the fourth. Their own goal line was threatened several times but the Frosh lacked the necessary punch to put the ball across. Mainini and Williams starred for the class of [illegible].

IN THE ARMY

Across the campus every morn
The Frosh boys wend their way;
At seven-thirty every morn
They start their busy day.

Chorus

Squad right, squad halt, and
right about.
Our officer will say;
Squad right, squad halt and
right about.
One hour every day.

The co-ed simply lies in bed—
At least I think she may.
For if I had no M. T. course
The officers could say:

Chorus

I wouldn't even look about
Till after half past seven.
I'd simply grin at old M. T.—
That's my idea of heaven.

Chorus

The grid-graph has been set up in the gymnasium and will be in operation on Thanksgiving Day when Vermont plays at St. Louis. The game will be shown, beginning at about 2:15 P. M. Admission will be 25 cents and the ticket sale will be in charge of the Key and Serpent Society.

The Alpha Tau Omega and Sigma Phi fraternities will hold informal dances at their respective chapter houses this evening.

MEDIC SMOKER A GREAT SUCCESS AS PEP-RAISER

Many Popular Entertainers and Speakers Present to Stir Up Spirit

By far the best smoker of the season and, in fact one of the best in many seasons, was put on by the Medics the night before the Middlebury game. If by any chance a Middlebury man was there he certainly learned a lot about real Vermont spirit and the pastimes of the sexton brotherhood.

After selections by the band, Chairman "Red" Smith presented some of the Checker Girl Company, who entertained with various sketches, but the real fireworks did not start until "Micky" McMahon let loose with a peppy talk to the students, asking for a real "fighting spirit" with which to back the team, and the response he received would have created a rush on all the city's undertaking establishments had any of Midd's cohorts put in appearance at the time.

The next speaker was "Doug" McSweeney, a former manager of football on the hill, who asked the student body not to forget the members of the team as soon as the season was finished and the last cheers had died out, but to stay behind them all the time and help them to make the grade at mid-years, because next year's team depends upon how many there are left from this year's squad, when first practice is held next season.

After a brief interval, in which smokes were handed out and the band rendered a few numbers, Dr. T. S. Brown, the first man to ring the Old Mill bell after the victory over Dartmouth, spoke upon college spirit, and praised the team for their good work during the past season. Following this, Wilbur Judd M.'27, the "Hippodrome Cartoonist" and widely known advertiser of a certain brand of funeral, entertained with clever examples of the cartoonist's art.

Dr. Aldinger, the new director of physical education, spoke of the manner in which the various alumni organizations were backing the team.

A telegram from the secretary of the New York Alumni to Capt. Joe Tarpey asking for a victory and giving assurance of their support was read.

Coach McAvoy, thanked the student body for their support of the team and paid tribute to the squad's gameness, past record, and loyalty to Vermont. He stressed the fact that football was not a dumb-bell's game, and that in order to do their best a team must use brains as well as brawn.

Coach Dresser was the last speaker of the evening and his words surely put a lot of pep into his audience. He praised the Medics and commented on the fact that so many were able to play on the team and still do their "stuff" on the other side, citing the case of "Speed" Denning who, in spite of carrying a heavy schedule, came out to practice regularly, after attending classes until five o'clock, and played a great game at tackle. He also added that Vermont's team was the students' team and not an aggregation of "ringers."

The Interfraternity Council met at the Lambda Iota House Tuesday night November 17. Fraternities charged with breaches in the rushing rules presented their witnesses and evidence to the council, and were acquitted of charges against them. The matter of second semester rushing was continued on the table. It was voted not to send a representative to the annual fraternity conference in New York City.

The Student Senate held its regular meeting at 10 p m Saturday morning, November 14, in the Gymnasium. An invitation to participate in a National Collegiate World Court Conference to be held at Princeton, N. J., December 11 and 12 was discussed and the matter of representation was laid over one week. The matter of conducting a Red Cross roll call and communications regarding it were referred to the Women's Student Union. In response to correspondence concerning a Near East Relief Drive it was deemed inadvisable to hold another drive at this time.

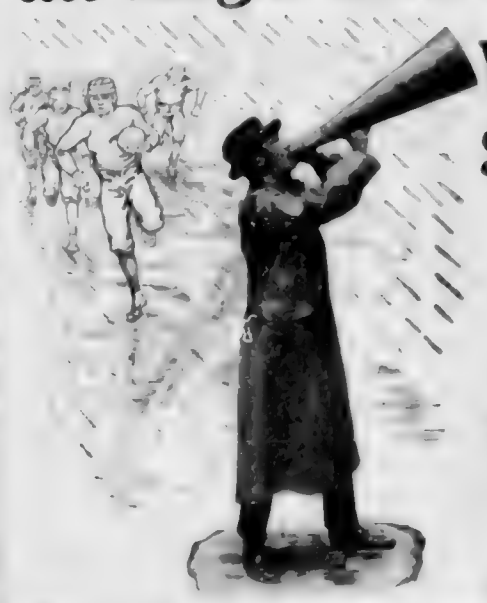
PHYSICAL EDUCATION UNDER DR. ALDINGER

Examination to Determine Potential Ability of Each Freshman in Near Future

Classes in Physical Education are now scheduled for freshmen from 1 to [illegible] o'clock for the last four periods in the week, and Dr. Aldinger is still trying to arrange the programs of some men.

As soon as the classes are fully arranged, physical examinations will begin for the freshmen as ordered by Dr. Aldinger hopes to ascertain the potential ability of each man. No work will be done with the Sophomore class until all details have been seen to with regards to the freshmen.

The work is greatly handicapped for lack of place in which to work, general lack of equipment, and because practically all available time has already been taken up by academic work and various campus activities.



Dr. Aldinger's policy is to teach the fundamentals of all sports in season and to develop potential ability thereby greatly aiding the coaches of the various sports. Men will be allowed election of the particular fields in which they wish to specialize. Dr. Aldinger plans to further intramural sports to the utmost.

The Boulder Dance will be held in the Gymnasium, Friday, November 27. Prof. and Mrs. F. D. Carpenter and Prof. and Mrs. D. B. Carroll will be chaperones. Music will be furnished by the Green and Gold orchestra. The tickets, costing $1.10, may be secured from any member of Boulder Society.

INFIELD AND SLABMEN NEEDED FOR SPRING

Nine Hard Hit by Graduation and Ineligibility—Needs Pitchers and Infielders

[illegible] Last season was a short season of baseball starting late [illegible] the season was [illegible] Middlebury who was [illegible] the season has transferred to the Middlebury College last year of [illegible] Coach Peggy is the only coaching [illegible] Manager Rooks and Tony Foti are [illegible]

The outlook for next year [illegible] Manager Rooks remarked "A majority of the last Skippers will be missed in the batting next spring. It was the consistent slugging of the men that won baseball victories for Vermont last year. Chevalier and Capron who both especially active in securing the ball lively last year have taken departure.

Manager Rooks is completing the schedule, which will have the usual spring trip for a week-end and the Alumni game at Commencement time. Lee O'Connell is manager for the season.

Football and the Psychology of Success

The Middlebury *Campus* in an article [illegible] by us yesterday raises the question why Vermont college football should stand near if not at the top in the country at the very outset of the season when they are subject to be pounded and mauled to defeat. With every season the season will weaker [illegible] and work up to the close.

As we understand the situation the success of Coach Lee [illegible] to do with the [illegible] of our Vermont football teams. At Harvard, Yale and Cornell for example the material from the freshman squads [illegible] to [illegible] material [illegible] of the varsity squads as a rule. These institutions in effect use the smaller college teams for practice or punching bags and develop their coaching machinery until they are prepared to enter the struggle for leadership among the big three or other [illegible] charmed circles of football supremacy.

The football teams of the smaller colleges cannot depend on [illegible] to finance themselves and they are [illegible] obliged to go to the larger centers where they can secure [illegible] and get a percentage of the gate receipts. For the reasons explained they must be early in the season.

There is an [illegible]

[illegible] Captain
[illegible] Weight 161

Mose Katz
[illegible] Weight 161

to the position which has received little attention in Vermont and this is one of the causes of our Vermont coaches go through the first half of the football season training the psychology of defeat.

To the development of the psychology of [illegible] success in a man is one of the benefits of football then the [illegible] of playing larger universities in the first half of the season is simply to be deplored. We are thus brought face to face with the whole question of college athletics and their [illegible] and disadvantages as well as their benefits.

One of the chief goals of our higher learning institutions is the development of manly men as well as [illegible] women. Another is to promote self-dependability the psychology of achievement and success. Still another is to teach the student how to use the faculties with which we are endowed, how to think and how to [illegible] problems. The man who thinks a college education is intended chiefly to cultivate the memory and to promote memorization of events is short-sighted and wasting valuable time. Even history must be made comparative the ancient with the modern if we are to get the most practical results of its study. We should know ancient cities solved many of our present municipal problems.

It follows that the well rounded student, man or woman is the product, not [illegible] of the recitation room, the [illegible] hall, and the laboratory, but also and fully one-half of the gymnasium of the athletic field, of the social activities, of the religious influences of the camaraderie [illegible] and otherwise afforded by the university.

No one college influence tends more to make a manly man out of a boy than the broadening effect of intercollegiate athletics, debates and other contests. The human tendency of the untrained boy is to rejoice in the accident to a visiting team which gives the home team the victory. If the university radiates the right influence and the wholesome spirit in all its sporting and other intercollegiate activities he soon learns that it is more wholesome for him to lose on his merits than to win by a fluke and least of all by a mean trick. He soon learns to cheer a fine play by the visitors and to become in every sense a broad-minded sport, a manly man.

This thought could be amplified for boys men and women in various other lines, but we desire to emphasize especially this morning the tremendous importance of the psychology of achievement and success as developed in manly college sports.

The public in general loses sight of a tremendous factor, which is set forth by Sir Henry Thornton thus: "The big benefits that come from hard [illegible]

PROSPECTS FOR SPRING TRACK LOOK PROMISING

All of Last Year's State Championship Team Again Eligible

The state track championship, which was wrested from the hold of the [illegible] Black Panther last spring, will very likely be held again by the Vermont team next year.

During the fall training period, which closed last week, Coach Latty discovered several good men in the Freshman class. Some promising sprinters and distance men have reported who may strengthen Vermont's hopes in the track.

Middlebury's strength has been largely in track events. Last year an unexpected win in a sprint clinched the title for Vermont by a narrow margin. Coach Latty is desirous of decisively beating the feline rivals on the cinders.

Norwich has offered no real opposition for years.

Latty will have all the men, who won points last season. Olney Hill, last year's captain, Carl Simpson, this year's captain, Prentice, and Whitten will perform on the field; all have had experience last year and collected points for the Green and Gold at the state meet. Crouter, Davies, Post, Wood, Tudhope and Suitor have all seen service on the track and are developing. The Frosh have several promising men who will add strength to the team.

There will be no track practice this winter. The Athletic Council has decided not to support an indoor relay team.

Manager Herron will make out the schedule, which is to include the Eastern Intercollegiates at Springfield, Mass., and the state meet.

"That's a clean, neat, intelligent piece of work"

THE professor continues, "Perhaps other papers were equally intelligent, but their merit was obscured by illegible penmanship. If everybody would learn to use a portable typewriter, it would save your time and mine and relieve me from the drudgery of reading longhand."

Neat, legible, typewritten manuscript keeps the "profs" in perfect "reading humor." And perfect "reading humor" tends to mean better marks. Then too, a writing machine for your personal use is helpful in compiling your notes, and in writing those letters home.

The New Remington Portable is preferred by students because it is the lightest, smallest, and most compact of all standard keyboard portables.

We will gladly show you this machine and explain our easy payment plan.

Price, complete with case, $60

Football and the Psychology of Success

(Continued from page 8)

looks, the job grows bigger and bigger and he grows smaller. The upshot is that he does not tackle the job. The big thing that a fellow finds out in football, or in any other hard game is that men are just men—that if you are afraid, the other fellow is undoubtedly just as much afraid; thus you learn in competitive sports that, no matter how scared you are, you must never show it. Competition in any game teaches a boy one big lesson, and hard competition in any team game teaches an additional lesson I can find out more about a man by playing a round of golf with him than by working a week with him."

Thornton might have added that football teaches a man to think quick and be sure he is right. His win psychology should help Vermont with Holy Cross tomorrow.

An outstanding feature in this connection stated by Sir Henry follows: "When everything is breaking badly—when all the hard luck seems to be coming at once, I have learned that is exactly the time not to quit. For one of two things will happen: either the supply of hard luck will run out, and good luck will take its place; or you will be in the position of the under dog, and new friends will turn up from all directions to root for you. No one but you, yourself, can put you down and out."—John L. Southwick in *Free Press*.

JACK SMITH
Fullback. Weight 165

Owing to a failure to find any cut of "Jack" Smith, his picture has had to be omitted from the Cynic. We are mighty sorry not to have one, when "Jack" has done so much to make the work of the team a success. Anyone who watched him plow through Middlebury for twenty yards in three plays, for a touchdown, will not soon forget him.

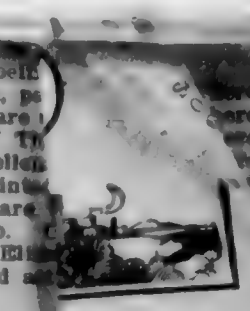
When it's Thanksgiving—and the teams are drawn up for battle on the gridiron—when the first touchdown goes over and the grandstands rock with frenzy
—have a Camel!

Into the making of this one cigarette goes all of the ability of the world's largest organization of expert tobacco men. Nothing is too good for Camels. The choicest Turkish and domestic tobaccos. The most skilful blenders. The most scientific package. No other cigarette made is like Camels. No finer cigarette can be made. Camels are the overwhelming choice of experienced smokers.

WHEN the rival bands are playing to make your blood tingle. And the cheers and answering songs sweep back and forth between the opposing thousands of rooters. When, following that tense hush, a swift player darts out from the flashing formations on the gridiron and races across the goal for the first touchdown—oh, man, or superman, when the taste of joy is too keen to endure—*have a Camel!*

For Camel is the boon companion of your joys. Roam as far as you will from the prosaic things of every day, Camel will be the truest smoke friend you ever had. Not a tired taste, not a cigaretty after-taste, not a regret in a million Camels! Just full and fragrant smoke contentment, just added zest in living.

So when your own college's team tears through for its first smashing goal this Thanksgiving Day—when life seems fullest of the frenzy of happiness—joyfully apply the fire and taste the smoke that's loved by millions.



Have a Camel!

Our highest wish, if you do not yet know Camel quality, is that you try them. We invite you to compare Camels with any cigarette made at any price.

BURLINGTON, VT., NOVEMBER 28, 1925 — NUMBER 10

"CHAMPLAIN" BROADCAST FROM WALDORF-ASTORIA

Alma Mater Played in Honor of Mrs. Coolidge '02, Heard All Over Country

The University of Vermont received [illegible] recognition at a recent [illegible] of the New York Chamber of [illegible] held last week at the Waldorf-Astoria hotel, at which President Calvin Coolidge was a speaker. As the large assemblage arose to [illegible] a toast to Mrs. Coolidge, the [illegible] played the noble strains of "Champlain," the "first lady of the [illegible]" Alma Mater song.

Through arrangements with a radio [illegible] the banquet program was broadcasted. The beautiful song, as it touches the hearts of all Vermonters, was undoubtedly heard by thousands of radio fans throughout the country.

Attorney George W. Stone of Vergennes, a Middlebury graduate, reports hearing "Champlain" coming over the radio and in a letter to President Guy W. Bailey says:

"It seems to me that public men [illegible] ought to be made of that feature, as a bit of advertising for the state and for your institution. I love that song, even though I am a Middlebury man."

SOPHOMORE HOP COMMITTEE IS ANNOUNCED

The Sophomore Hop committee has been announced as follows: C. H. [illegible] of Winooski, chairman; R. [illegible] of Burlington, A. E. Ashcraft, Jr., of St. Johnsbury; R. R. Barber of Montpelier; G. V. Goodwin of Montpelier; L. G. Leary, Jr., of Pelham Manor, N. Y.; J. M. Leavens of Maplewood, N. J.; F. A. Winchenbach of Framingham, Mass.; Marion Cleveland of Coventry; Dorothy Dearing of South Royalton; Eileen Goodwin of Burlington; Ola Keith of Sheldon; Elizabeth Mildon of Burlington; Mildred Roberts of Troy, N. Y.; Catherine Smith of Burlington.

SIGMA PHI WILL HOLD NATIONAL MEETING HERE

The national convention of the Sigma Phi society, one of the oldest social fraternities in existence, will be held here at the Alpha of Vermont chapter of the fraternity about Commencement time next June.

Early plans discussed call for the gathering either in conjunction with the Commencement activities, or directly following the close of college. It is probable, from advance information received, that the latter course will be followed as with the large number of delegates expected to be present, accommodations would be easier to find.

The Sigma Phi society was founded at Union College on March 4, 1827, and today has ten active chapters in existence. These are at Union, Hobart, Hamilton, Williams, Vermont, Amherst, Lehigh, Michigan, Wisconsin and California.

The last national gathering of the fraternity held in Burlington was in 1904. The centennial birthday of the society will be observed at the mother chapter, Union, in 1927.

PRIZE ESSAYS

The Government department calls the attention of students to the following prizes of one hundred dollars each:

The Philo Sherman Bennett prize offered for the best essay discussing the principles of free government.

The Robert D. Benedict prize offered to the Senior presenting the best essay on "International Arbitration."

Both prizes will be awarded as the results of examinations.

Ballot

WORLD COURT STUDENT POLL

(Conducted by the Cynic, with the Vermont Christian Association Cooperating)

TO VOTE FOR ANY OF THE FOUR PROPOSALS, PLACE A CROSS (X) AFTER THAT PROPOSAL. VOTE FOR ONE ONLY.

1. For U. S. entry into the World Court under the Harding-Hughes-Coolidge reservations
   (The U. S. not to be connected with the League of Nations or to assume any obligations under the League Covenant; to pay its share of expenses as determined by Congress; to have equal share in selection of judges; no amendment to Statute of Court not accepted by U. S.; not to be bound by advisory opinions of court.)
2. For U. S. entry under the Harmony Plan.
   (Including Harding-Hughes-Coolidge reservations, and provision that we withdraw after five years if international law not codified in that time and agreement adopted outlawing war.)
3. For U. S. entry under the Borah Plan.
   (Not to join until international law has been codified and war declared outlawed, and the Court given obligatory jurisdiction; U. S. not to be connected with the League of Nations.)
4. Against U. S. participation in the Court on any terms.

Class of ..... Sex..... Political Preference.....

.....

Clip this Ballot, fill out, and drop into Cynic Box or leave in Y. M. C. A. or Y. W. C. A. rooms not later than December 1. Ballots will be counted December 2.

See Editorial on page 4. Do not sign ballot.

WHEELER AND BARNES GOING TO NEW YORK

E. A. Wheeler '26 of Barkhamsted, Conn., and R. P. Barnes '26 of Brownsville, respectively chairman and secretary-treasurer of the local student branch of the American Society of Mechanical Engineers, have been designated delegates to the annual conference of the student branches, which will be held in New York City.

Two delegates from each student club at engineering colleges throughout the country will assemble at the New York Fraternity Clubs building for the opening luncheon on December 2. During the afternoon of the same day, the annual conference will be held in the Engineering Societies building.

The local organization was re-established this fall and has been holding meetings every three weeks. It has a membership of fifteen, comprising all the senior and junior mechanical engineers. Prof. Vollie Yates of the engineering faculty, an honorary member of the society, will also attend the meeting.

President Bailey Being Urged to Become Candidate for Governorship

While it is the rule in politics that the man seeks the office, every now and then in Vermont the rule is broken by enthusiastic friends of President Guy W. Bailey, who spend some little time and energy in endeavors to persuade him to become a candidate for United States senator or governor.

Such a movement has been under way in Vermont for the past little while, and while it is extremely improbable that President Bailey will decide to heed the call and run for the republican nomination for governor next year, the spontaneity of the call and the almost universal favor with which it meets are pleasing to the University, as to all friends of our President.

"Not for the first time President Guy W. Bailey of the University of Vermont has been suggested for the office of governor," says Editor Harry Whitehill in the *Waterbury Record*.

"Not the first time the gentleman, he is every inch a gentleman, has declined, at first, to make a comment concerning his wishes in the matter. Good thing for Mr. Bailey, good thing for the University of Vermont to let the matter sizzle along for a while. We can see no particular need of haste on Mr. Bailey's part in saying he will or will not be a candidate for governor. Non-action, at present, on Mr. Bailey's part will have a good effect in not getting the state all cluttered up with gubernatorial candidates.

"This paper, the writer, has great admiration for Mr. Bailey. We consider him one of Vermont's first citizens, a man who no doubt, no question about it, would make a good governor, excellent congressman and a statesman in the United States Senate. We have hoped, advocated, that Mr. Bailey enter politics again, but we must confess that we have observed little encouragement that he would sever his connection with the University of Vermont to accept any political office.

"There are two men in Vermont we have placed in the same category, so far as entering politics, that is, for the present, Hon. Fred A. Howland of Montpelier and Hon. Guy W. Bailey. Circumstances and conditions may, later on, hope so, bring about a change."

The first candidate to announce himself for the race was Hon. John Weeks of Middlebury, commissioner of charities, and while his candidacy was far from a surprise, it has not met with the favorable reception certain elements in state politics had hoped. One objection raised by the *Enosburg Standard* is, that Mr. Weeks is past the age when he could give of his best to the state.

"If the *Standard* is correct in the contention that the question of age in connection with the governorship is fundamental," says that paper, "we know of no better course to pursue than in advocating the election of Hon. Guy W. Bailey, president of the University of Vermont. He has all the essential qualifications to do great service to the state. We can call to mind no one on the west side of the state at least so well equipped to discharge the duties of this office satisfactorily as Mr. Bailey."

Milo Reynolds, editor of the *Burlington Clipper* and allied papers, is what might safely be designated an editorial pepperbox, with little care who is made to sneeze. As an ardent hard roads advocate, Reynolds might well be expected to fall in line behind Fuller C. Smith of St. Albans, who is

(Continued on page 5)

ST. LOUIS WINS MUDDY GAME, 7-0

Lone Touchdown Comes When Blocked Punt Is Recovered on 7-yard Line

O'REILLY AND THOMPSON BEST GROUND-GAINERS

Playing in a sea of mud, the Green and Gold lost its Thanksgiving Day game to St. Louis 7 to 0, when St. Louis blocked Smith's punt on the Vermont seven-yard line and Ripstein, Feld and O'Reilly carried the ball over in four attempts, O'Reilly scoring the touchdown and kicking his own goal.

On such a day and on such a field anything might have happened, and what did happen was that one of the numerous fumbles made by both sides came when Vermont was in the shadow of its own goal posts. So St. Louis won.

Not a forward pass was completed by either team throughout the game. The only one attempted resulted in a ten-yard loss when Conway was tackled before he could throw the ball.

St. Louis had an advantage in first downs, making six to half that number for Vermont, but Jack Smith easily outpunted O'Reilly on almost every exchange. St. Louis made 80 yards through and around the line, while Vermont made 55.

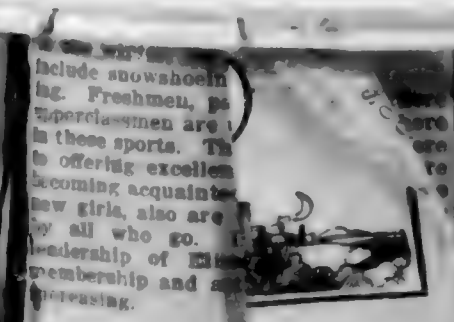
The game was far from one-sided. O'Reilly was easily the star, making 49 yards on end runs and through center, and punting well. Bob Thompson made 30 yards, and several times made good run-backs when he received O'Reilly's punts.

For the most part, the ball went back and forth from one side of the field to the other without much advantage. A series of tries at center or at end would be followed by a punt, and then the operation would be repeated by the other team.

Fumbles were frequent on both sides, and off-side penalties accounted for

(Continued on page 2)

HEATH '26 SELECTED TO ATTEND CONFERENCE



S. Burton Heath '26 was selected by Student Senate last Saturday to represent the University at the Student Conference on the World Court which will be held at Princeton December 11 and 12, an account of which appears on another page.

The matter of a change in the dates for Christmas vacation was discussed but no action was taken because of the feeling that any action of the Senate would be useless in view of the arguments advanced by the administration against moving the dates ahead as suggested.

JUNIOR ACADEMS AND MEDICS; SOPH TEACHER TRAINEES

It is imperative that all individual photographs for the grind section of the *Ariel* be in at once. All who have made no arrangements should notify Philip Daniels not later than December first. White's Studio will send a photographer to Burlington for this purpose prior to December 10, and the schedules must be previously arranged.

Those having the work at studios in town should turn in their proofs. The same applies to the informal snapshots, of which there must be one of each individual. Academic men's fraternities should submit their grinds to Howard Aplin at the Phi Mu Delta House not later than December first.

With the Fraternities

Kappa Alpha Theta

A tea dance was held at the chapter house Saturday, November 21, from 3 to 7, followed by a supper at the Golden Pheasant Tea Room.

Delta Delta Delta

The anniversary of the founding of the fraternity was celebrated Thanksgiving Eve.

The Mothers' Club held a most successful fair Monday afternoon and evening at the Athena Club.

A tea dance will be held this afternoon at the Masonic Temple, with supper served at the chapter rooms. Dr. and Mrs. Read and Mr. and Mrs. John Patrick will act as chaperones.

Pi Beta Phi

The fall tea dance of Pi Beta Phi will take place at the Klifa Club this afternoon with Prof. and Mrs. Carroll and Prof. and Mrs. Squires as chaperones.

Alpha Xi Delta

An informal dance was held at the chapter rooms last Saturday evening. The chaperones were Prof. and Mrs. Carroll and Mr. and Mrs. Miller. Eva Menotti and Katherine Abel of the Middlebury chapter were present for the dance.

Marion Lawrence underwent an operation for appendicitis at the Mary Fletcher Hospital on Monday morning. She is making a satisfactory recovery.

Alpha Chi Omega

The initiation of Catherine Armstrong '27 and Claire Currier '27 took place last Saturday evening.

Sigma Gamma

An informal dance will be held at the rooms tonight with Prof. and Mrs. Swift and Prof. and Mrs. Wallace acting as chaperones. Paul Rider's orchestra will furnish music. Among those from out of town who are expected to attend are Bernice Davis and Inez Bernor of Vergennes, Doris Hall of Essex Center, Bertha Little of Johnson, Dora Chamberlain of Springfield, Kathryn Recor of Stowe and Nellie Chase of Monkton.

Phi Delta Zeta

Miss Blitch, national representative of Kappa Delta, visited the chapter last week.

THANKSGIVING DAY IS COMING

O, Thanksgiving Day is coming!
What a time of joy and cheer,
When we bow our heads in thankfulness
For blessings of the year;
When the festive board is merry and
Piled with goodies high
From grandpa's turkey gobbler to
Grandma's pumpkin pie;
When the snow is lightly falling and
There's warmth and peace within;
When we gather round the cheery blaze
With all our folks and kin;
When our elders talk of the golden past,
Of the happy olden days;
When we laugh and think of the future,
Filled with rosy, sunny rays;
When happiness is everywhere and
There's many a thankful heart;
O, how wise indeed were the Pilgrims
To have set this day apart!

M. D. '29.

CROWDED OUT

"An Anniversary" and "Thanksgiving Day Is Coming" were written for last week's issue but were crowded out together with much other material. Because they present well sentiments worthy of perpetuation, they are printed this week.—EDITOR.

TRIBUTE TO MEMORY OF MRS. ELLEN RICHARDS

December 3 is recognized by Home Economics students as the day on which they pay tribute to the memory of the founder of Home Economics, Mrs. Ellen H. Richards.

Mrs. Richards was one of the pioneers in applying the principles of science to the needs of the home. Her creed, typifying the ideals for which she stood, is a standard for all Home Economics students today, namely:

"The ideal home life of today unhampered by traditions of the past.

"The utilization of all resources of modern science to improve the home life.

"The freedom of the home from the dominance of things and their due subordination to ideals.

"The simplicity of material surroundings which will most free the spirit for the more important and permanent interests of home and society."

WOMEN'S S. U. HEARS CONFERENCE REPORTS

At the Student Union meeting Saturday, November 21, Helen French, president, and Belle Randall, vice-president, reported on the Student Government Conference which they attended at Wellesley College over Armistice Day. They brought back many valuable ideas obtained from the student governments of other colleges.

Naomi Thorne '27 and Della Martin '28 were chosen as directors of the big Vermonters' Club party which will be held some time in December.

Frederika Northrup is to be in charge of the Red Cross campaign on the Hill. Everyone is urged to cooperate and make the campaign a success.

W. A. A. NOTES

Indoor gymnasium work starts Monday, soccer and hiking having ended this week. Everyone is requested to wear correct gymnasium costume.

The W. A. A. bacon bat has been indefinitely postponed.

The physical efficiency tests for the sophomore and freshman classes were completed this week.

The juniors take the honors again. Monday afternoon the juniors played the seniors for the soccer championship and secured the victory. The line-ups are as follows:

SENIORS	JUNIORS
H. French, c. f.	c. f., Teachout
A. Crowe, r. i.	r. i., Margie
Berthoff, l. i.	l. i., Eayres
Elwell, r. w.	r. w., Ward
Fassett, c. l.	l. w., Smith
Mathewson, l. w.	c. l., Cushing
Northrup, r. h.	r. h., Parker
Weaver, l. h.	l. h., Metcalf
Palmer, r. f.	r. f., Wright
Hapgood, l. f.	l. f., Sprague
Leach, g.	g., Thorne

Prof. and Mrs. H. F. Perkins were at home Monday afternoon to members of Delta Psi and Kappa Alpha Theta. An informal tea dance took place from 4:30 to 6 o'clock.

Professor Clarence R. Williams is Professor of History, not Associate Professor of History as printed in the directory for 1925-26. The Registrar's office would appreciate advice concerning other errors that may have occurred in the directory.

For hours after
All due to the
Fate of the turkey
Poor old chickie!

• • • •

And some—
Didn't get enough
The tea hounds
I mean
At least they show
Signs of hunger
The way
They're stepping out
This week

• • • •

Gosh!
That nice fat
Juicy
Mouse was good!
Thanks
Some one

• • • •

Oh!
I'm so full

AN ANNIVERSARY

The eleventh of November 1925, marked the seventh anniversary of the ending of the Great War. Seven years have elapsed since that wonderful, never-to-be-forgotten time, a time of smiles and tears, when the chimes of peace were heard in every city and hamlet of the civilized world.

Not like the thirtieth of May or the Fourth of July, which are observed only in our own country, November 11 is celebrated throughout the world. The poet has sung "All nations have their hour." America has her Independence Day, France her Bastile Day. But the eleventh of November is the World's Day—a time of mutual celebration both north and south, east and west.

In how many different countries was this eleventh of November celebrated? It was observed in the crowded thoroughfares of London, Paris and New York, in the peaceful little English villages; in the rebuilt hamlets of France; in the quaint, picturesque towns of Belgium; in the beautiful districts of Italy; and throughout our own country. In the other kingdoms and republics of Europe and elsewhere, the day did not pass unheeded.

Never, so long as the world shall stand, can the eleventh of November be forgotten! The day which marked the ending of the Great War, the day when the right emerged victorious from its conflict with the wrong, has merited a distinguished place in history. Thus it results that

"Some sudden day that nameless was before,
Shines in the calendar with celestial ray
And takes on fame,
Henceforth to be a name
Among Time's nameless days for evermore."

A FRESHMAN WHO HAS NOT FORGOTTEN.

THE WORLD COURT VOTE.

Now that the results of the Cynic poll on the World Court question are known, it is interesting to note that the vote of the student body is almost exactly the same as that of the country at large. Of course the Cynic poll was not a scientific one, but it was taken with sufficient care to be fairly accurate. The vote of the country at large was 76 per cent in favor of the Court, and 24 per cent against. The vote of the student body was 75 per cent in favor of the Court, and 25 per cent against. Thus the student body is almost exactly representative of the country at large.

Of course, the vote of the student body is not representative of the voting population in the country at large, because the majority of the voters in the country at large are not students. But the vote of the student body is representative of the educated voters in the country at large, and it is the educated voters who are most likely to be well informed on the issues involved in the election.

Now that the Cynic poll has shown that the student body is in favor of the World Court, it is to be hoped that the Senate will ratify the Court treaty when it comes up for consideration in January. The Senate has been holding up the treaty for a long time, and it is time that it was ratified.

Ratification of the treaty will not mean that the United States will enter the League of Nations, or that it will be involved in any foreign entanglements. It will merely mean that the United States will have a chance to help in the settlement of international disputes by peaceful means, instead of by war.

The Cynic poll has shown that the student body is in favor of the World Court. Now let's see what we can do to help get the Court treaty ratified.

... group of men at once adopted ... Latin and Greek, and the ... wearing the symbols familiar ... wearers of the key. But it ... these five who are remem... as the founders of Phi Beta ..., for the entire number of fifty ... who became members of the ... during the first four years ... existence at William and Mary. ... did the lives of these fifty ...emplify the ideals of the frater... that they set a pattern standard ... ...ceeding generations of Phi Beta ...

... ...ecent call to the colors drew ... a third of them into military ... either with the Continental ... or the Virginia Militia. By 1781 ... member was elected to the Vir... House of Deputies; by the end ... century a third of their number ... seats in that body, some being ... to the Senate and others ... Governor's Council.

The fraternity's representation from Virginia in the Convention of 1788 was large enough to determine the issue for ratification, and John Marshall, leader of the ratification forces in opposition to the eloquent Patrick Henry, was a Phi Beta Kappa man. Two of the original fifty became members of the Continental Congress one going on from that body into the First Congress of the United States, to which John Heath also was later elected.

Two of the fifty founders became United States Senators, one representing Virginia and the other Kentucky. Two served as judges of the higher courts of Virginia, one having the unique honor, as presidential elector, of voting twice for Jefferson, twice for Madison, twice for Monroe, and once for John Quincy Adams, who was the first Phi Beta Kappa man to become President of the United States.

William Short, second president of Phi Beta Kappa, accompanied Jefferson to Paris as secretary, and when Jefferson returned to America to become Secretary of State under President Washington, Short remained in Paris as charge d'affairs, his commission being the first to be signed by George Washington as President. Later William Short represented the United States at The Hague and in Spain.

(Continued next week)

THOSE LITTLE QUAKERS DOWN IN QUAKERTOWN!

Philadelphia.—Bryn Mawr College has abrogated an old rule against students smoking and set aside one room in each dormitory for the use of those girls who desire to indulge in the practice.

This action was taken at the request of the Self Government Association in response to a petition presented to President Marion Edwards Parks last week.

"This does not mean that all students are smokers," said Miss Frances Jay of New York, president of the Self Government Association, in a statement. "A questionnaire sent out showed that many supporters of the change were not themselves smokers, and that, in fact, less than half of the student body smoked."

Miss Jay in her statement said that the association has felt that the wholehearted support of the students was not behind the old rule, which forbade smoking in any college building, and as the successful operation of the Self Government Association depends upon its support by public opinion, the board asked President Parks to consent to a change in the rule and to allow smoking under restrictions.

The Boulder dance was held in the gymnasium last evening, with very good attendance. The chaperones were Prof. and Mrs. F. D. Carpenter and Prof. and Mrs. D. B. Carroll. Music was furnished by the Green and Gold Orchestra.

President Bailey Being Urged for Governorship

(Continued from page 1)

being advanced by some as the logical "hard-roads candidate."

The *Clipper*, however, has not made the jump yet, which may perhaps be due to a suggestion of antipathy to the political camp of former Governor Redfield Proctor.

"A monkey wrench was thrown in to the Weeks-Proctor camp last week," says the *Clipper*, "with an announcement from Montpelier that Washington county Republicans were going to draft Guy W. Bailey of Burlington Mr Bailey stands pretty strong with the voters and should he enter the race there would be a big falling off in the Weeks' strength.

"In view of the possibility of Mr. Bailey becoming a candidate for governor, Republicans in general will be slow to line up with the Weeks-Proctor combination.

"Just at present the game will be at a standstill until it is known if Mr Bailey will consent to run."

Down in Northfield Frank T. Parsons, editor of the *News*, is not only an able and respected member of the Fourth Estate but something of a spokesman for the ideas of the so-called "Old Guard," which many have felt would back Judge Weeks wholeheartedly.

There is no way of telling whether Mr. Parsons speaks for his political cronies or only for himself from time to time, but however that may be, he believes that President Bailey would be a certain winner if he entered the race.

"Those who have followed him for many years, both in his state work and as president of the University of Vermont," says Mr. Parsons, "know all about him. He is a stickler for detail in whatever he undertakes. If he finally concludes to enter the field he would sweep the board in the opinion of many. This is no reflection on any other candidate already in or who may enter the race. The governorship is an honor, and Mr. Bailey would certainly give the state an administration that would mean something. He is built that way."

The present editor of the *Springfield Reporter* is apparently a newcomer to Vermont politics, for in an editorial reprinted in the *Free Press* he is quoted concerning "President Burton E. Bailey of the University of Vermont."

Mr. Burton E. Bailey, it happens, is a Montpelier attorney and former [illegible] democrat.

Assuming, however, that [illegible] President Guy W. Bailey, as the Springfield editor believes, he is quoted as saying that "President Bailey has not committed himself, but even so his name seems to be getting popular support in the Queen City. The Montpelier correspondent of the *Boston Times* claims a quiet survey in the capitol city, in which he carefully avoided the opinion of state officials and that there seems to be widespread sentiment in favor of President Bailey in that section, and predicts a strong following for him in Washington county."

Kappa Sigma announces the pledging of C. J. Douglas of Malone, N. Y. and H. Nilsen of Staten Island, N. Y., both of the class of '29.

Going Up

R. W. Owens

EVERY time you go up in a modern building having high-speed elevators (the Chicago Athletic Club, for instance) you are lifted by the ingenuity of at least one Westinghouse engineer who is barely ten years off the campus.

Until three years ago, high-speed elevators invariably required direct electric current. There was no practical method of using alternating current, and since many districts are supplied only with alternating current, a serious handicap existed.

It was possible to employ a motor generator to convert alternating current into direct current, but when that was done no practical system of control was available if the elevators were to be operated at high speed. The suggestion was made that the control be accomplished by varying the voltage of the generator, and (among others) to a young man of thirty-three—R. W. Owens, Illinois '14, now head of the direct-current section of the motor engineering department—came the special problem of designing an electric generator that would perform as one had never performed before.

The question is sometimes asked: Where do young men get when they enter a large industrial organization? Have they opportunity to exercise creative talents? Or are they forced into narrow grooves?

This series of advertisements throws light on these questions. Each advertisement takes up the record of a college man who came with the Westinghouse Company within the last ten years, immediately after graduation from his university.

Many were associated in the undertaking, for it involved pioneering in control apparatus as well as in generator design, but eventually all difficulties were overcome, and there emerged the "Variable Voltage Control System for Electric Elevators", now standard throughout the building industry.

Here you have the type of problem that confronts the design engineer in an organization like Westinghouse. Not all are as large as this, or lead to such sweeping results. The design engineer works for the customer. He starts with an analysis of the customer's needs and develops apparatus to meet those needs.

His responsibilities are varied and heavy. The jobs of the direct-current section of the motor engineering department range from motors for driving ventilating fans to those for dumping whole cars of ore at the docks. A force of 1,000 men is constantly occupied building the motors designed by this section.

FRATERNITY DANCES

Delta Phi gave a college dance in their house last Friday evening, at which Rider's Orchestra played. Dr. and Mrs. Paul K. Prosser were the chaperones.

Alpha Phi held a dance at their house last Friday evening. The Grand and Grand Orchestra furnished music. Prof. and Mrs. H. G. Merriam were the chaperones.

A college dance was held in the Alpha Phi Omega House last Saturday. The chaperones were Mrs. Kenneth Leonard, suggested and Rider Orchestra furnished music.

The [illegible] held an informal house party Saturday night. Rider's Orchestra played.

Theta Delta gave a house dance Friday evening. Rider's Orchestra furnished the music, while the punch was served by [illegible] and Mrs. J. B. Fuller and [illegible] and Mrs. A. G. Gilbert.

Many Capable Rivals for Vacant Positions

(Continued from page 7)

[illegible] A. Mathews, who played center in the Freshman-Frosh game, which ended in a 0-0 tie, is showing up well in the practice sessions. Lee and Mathews are fighting hard for the pivot position. Both Stillwell and Lee are good defensive players.

At guard will be left to last year's veterans, Capt. Tarpey and Hall. Tarpey is a fighting player and a [illegible] at that.

Substitutes such as Smith, Mathews and Hall should be developed to fill efficient places in Manager Kinsler's [illegible] at once.

Interclass basketball will be arranged at a later date.

FOOTBALL HOP COMMITTEE ANNOUNCED

[illegible] of the Football Hop committee has been announced as follows:

[illegible] of Windsor, [illegible] Mass., E M [illegible] Lexington; K W [illegible], W D Lindsay of Montpelier, M V Taylor of Richford, Irene M Bates of Spring field, Dorothy M Hall of Burling [illegible] Mary of North Hero [illegible] Lynch of [illegible] A Merritt of [illegible] L Tucker of [illegible].

[illegible] hop will be held in the gymnasium December 4. The committee is faced this year with the task of finding a substitute for the customary fraternity booths, with their various colored tissue paper trimming, which are barred by the recent ruling against inflammable decorations.

PRINCETON CONFERENCE TRULY REPRESENTATIVE

Princeton, N. J.—Fifty-seven colleges and universities from 19 states have accepted invitations to attend the national collegiate world court conference at Princeton, December 11 to 13, it was announced by the Princeton committee here. Commendatory messages have come to President [illegible] Hibben all the week. Elihu Root and Charles Evans Hughes [illegible] the prominent men who have endorsed the move. It is hoped that in addition to forming a permanent student body to discuss questions of national importance [illegible] to establish inter-[illegible] Lewis Fox, national chairman, received [illegible] from Newton D Baker and [illegible] commending this [illegible] of the conference.

The names of Herbert Houston, member of the American committee of the International Chamber of Commerce and President Mary Woolley of Mount Holyoke College were added to the list of discussion group leaders for the Saturday morning round tables.

The institutions which have accepted are as follows:

[illegible] Hamilton College, Williams College, Yale University, Tufts College, Amherst College, Connecticut College, Harvard University, Mount Holyoke College, Norwich University, Rhode Island State College, Wellesley College.

Westminster College, New Wilmington, Pa.; St. John's College, Brooklyn; Polytechnic Institute, Brooklyn; Temple University, Philadelphia, St Stephen's College, Annandale-on-Hudson, New York; Vassar College, Pennsylvania University; Adelphi College, Brooklyn; Barnard College, Columbia, Bryn Mawr University; Colgate University; Cornell University, Dartmouth College; Drexel Institute, Philadelphia; Elmira College, New York, Hamilton College; Keuka College, Keuka Park, New York; Lafayette College, Lincoln University, Pa., Moravian Seminary and College for Women, Bethlehem, Pa., Mount St. Vincent College, New York, New York University; Princeton University; Russell Sage College, [illegible] University, Washington College, Baltimore, Goucher College, Baltimore, Guilford College, N. IRISH FREE STATE IN HARD CIRCUMSTANCES

Thomas Wood '29 of Drumdoo, Ireland, Is Pessimistic About Outlook

The Cynic has discovered among the Class of '29 an expert on Irish questions in Thomas Wood, whose home is in Mohill, County Leitrim, Ireland. Although he has suffered much in connection with the political disturbances of his native land, he still has the regulation Irish smile and happy disposition and a readiness to discuss [illegible] the problems existing at home.

According to Mr. Wood, conditions in Ireland have not improved very much since the recognition by Great Britain of the two separate states, Ulster in the North and the Irish Free State in the central and southern parts, the future of the latter being especially black.

Under the treaty by which the Irish Free State was created by the mutual consent, it agreed to take over eleven per cent of Great Britain's war debt, amounting to billions of dollars, on which it has not yet been able to even pay the interest.

It must also support a governor-general, representing the King, and his staff, with all the regal splendor attendant upon that office. The post office department has not been put on a paying basis, and runs behind several millions of dollars annually.

There is, besides, a dole system in practice, which gives a weekly allowance to the eighty thousand or so unemployed. In order to meet these expenses an unbearable tax would have to be levied.

Each of the two states has its own government, all the officials of which, from the president down to school teachers, must take an oath of allegiance to the British king. This provision is particularly objectionable to De Valera and his following, which contains nearly half of the deputies to the Dublin parliament. Without that party the legislature is only a farce and the whole government seems to tend toward bankruptcy.

Conditions are different in Ulster, since that section has always been on good terms with England. Great Britain not only shouldered none of her war debt onto Ulster, but she also agreed to make good any deficit in the budget.

Mr. Wood is pessimistic about the outlook for the Free State. Although there is little danger of another uprising, he sees but one course leading to its salvation, and that is complete independence. Great Britain gives herself a good government, but she has never created prosperity in a subject country, he says, and the Free State is nothing more than that, despite its name.

After completing the work of the public schools, Wood spent two years at Albert College, Dublin, before coming to this country. As a result of his experiences in colleges on both sides of the ocean, he was able to remark with a smile that students are much the same everywhere, though educational systems are different: they don't study any more than they can help.

About sixty students paraded to the station Monday afternoon to give the football team a send-off for its St. Louis trip.

State Championship is Crown of Hard Season

(Continued from page 6)

[illegible] at guard all season, was [illegible] out in the last few minutes of the game with a badly fractured arm.

The entire backfield did fine work on the defense as well as on the offensive, and the hard tackling of Winchenbach and Thompson was another feature of the game.

Rensselaer succeeded in defeating Vermont, at Troy, by a 20-7 tally on November 8. The absence of Arm[illegible] from the game weakened the line and the Vermont backs were confused by the presence of additional lines on the field which had been used in the morning for a soccer game. Carr[illegible] smashed through tackle for Vermont's only score, after the punt of Herr[illegible] had been blocked on the five-yard [illegible].

In one of the best games ever played on Centennial Field, Vermont won the state title by defeating Middlebury 7-6. Middlebury's line outweighed that of Vermont but this advantage was of no avail against the powerful charging of Vermont. Rain of the Blue and White scored their touchdown, but Potter failed on the placement. "Jack" Smith carried the ball five times in succession in the third quarter, smashing and tearing his way through for a touchdown, after which Conway dropped the oval squarely between the posts for the point that won the game. Smith was booting the oval regularly for 50 and 60 yards, and the whole team was playing unbeatable, fighting football. Thompson carried the ball for many good gains, and Winchenbach featured with his tackling as well as his sensational 40-yard run after intercepting a Middlebury pass. Every man on the team made, at some time a play which saved the day for Vermont.

So with the St. Louis game on Thanksgiving Day, Coach McAvoy's charges wind up a gridiron season which by all means can be called successful. We have taken some mean lickings, true enough, but there is no disgrace in defeat at the hands of a team like Dartmouth so long as the boys give their best and play clean hard football, and there has always been just that. We have the state championship back where it belongs when there was a lot of doubt about getting it, and it meant two of the toughest and most evenly matched gridiron battles ever fought among the Vermont colleges.

Therefore "congratulations." We extend them most heartily to all who are responsible for the success of the season: to the coaches, to Manager Kinsler and his assistants and scrubs, to Capt. Tarpey and Acting Capt. Hall and to That Fighting Team.

VOL. XLV. No. 40 BURLINGTON, VT., DECEMBER 5, 1925 NUMBER 11

J. B. WILBUR MADE UNIVERSITY TRUSTEE

Benefactor of U. V. M. Appointed by Governor Billings Vice Judge Powers

James Benjamin Wilbur of Manchester, donor of the Ira Allen chapel and the statue of Ira Allen, was appointed a trustee of the institution by Governor Billings, Wednesday. Mr. Wilbur's appointment to the board fills a vacancy, caused by the resignation of George M. Powers from the state board. Justice Powers was made a life member of the board at the last Commencement.

News of the appointment of Mr. Wilbur was received with pleasure on the "Hill." His interest in the University was manifested in 1920 when he made the gift of the statue, which now stands at the head of College Street in the College Park. In 1924 the gift of the chapel, which is now under construction, was announced.

Mr. Wilbur lives in a fine estate in Manchester, known as Wilburton Hall. He is deeply interested in history and particularly in the early history of Vermont. He is an enthusiastic collector of old manuscripts and books relating to the early history of Vermont and without doubt has the finest collection of these in existence.

When the degree of doctor of laws was conferred on him at the last Commencement it was with the following tribute: "James Benjamin Wilbur of Manchester, esteemed member of state historical societies and Congressional library committees, true lover of Vermont land and life and lore, rich in projects for the bettering of our present and in contributions to the knowledge of our past; blending in his early of the founder of our state and university, the patience of scholarship and the ardor of hero-worship, seeking in lofty ways to perpetuate on our college ground the hallowing influence of Ira Allen's spirit."

MT. HOLYOKE FRESHMEN COACHED IN ETIQUETTE

"Community Examination" Furnishes Much Amusement for Upperclassmen

South Hadley, Mass.—"Cousins from Amherst" appear to be a real problem in the life of the Mount Holyoke freshman, judging by the results of the freshman examination which the newest class has just survived. Neither the administration nor the faculty had anything to do with this particular examination, nor with the Amherst cousin either, except to frown on him darkly.

The test was given by the community government, written on the time-honored blue books, with seniors serving as proctors. Under the virtuous pretence of getting the freshmen acquainted with the fine points of college etiquette, especially with reference to nearby men's colleges and fraternity houses, it was utilized to the full by the upperclassmen as a substitute for hazing.

The preliminary week of coddling and instruction which this freshman class received prated on the older students when they returned to campus, and when the administration banned the traditional week of initiations as out of place in a serious institution and curbing the only way remaining to introduce each freshman to her proper environment was the community exam. One of the first questions propounded was "If your cousin from Amherst comes on Sunday afternoon to see you unexpectedly, what will you do?" Answers ranged wildly from "I'd not talk to him" and "I'd go anyway" to one literally-minded girl who answered "I have no cousin at Amherst."

Seniors were made helpless with

(Continued on page 5)

G. N. BUTTERFIELD '29 TO ATTEND ANNAPOLIS

Word has just been received from Washington that George N. Butterfield '29 of Burlington has been nominated to the United States Naval Academy at Annapolis by Congressman-elect Elbert W. Brigham.

Butterfield is the younger son of Professor and Mrs. Arthur D. Butterfield of 31 South Prospect Street. He is a member of the freshman class and belongs to Phi Delta Theta.

Butterfield passed his examinations last year when he was an alternate. He plans to continue with his studies here until Commencement time next June.

23 EDUCATIONAL COURSES OFFERED AT VERMONT

The University of Vermont and the University of Maine have the distinction of being the only two New England colleges that have teacher training courses. Maine University has two full-time instructors for its School of Education, and figures for other parts of the country range from this number to 18 in Nebraska. Vermont University has 16 teachers in this department, of whom eight give most of their time.

Vermont had 23 courses last year and Maine 28, while courses in other parts of the country ranged from 14 in Colorado and Montana to 125 in Washington. In Vermont there were two courses exclusively open to graduates, while in Maine there were none. In Missouri there were 20 of these courses.

The per cent. of semester hours in education required for graduation was second highest in Vermont of any institution in the country, being 25 per cent. Texas, which was the highest, required 30 per cent.

Debate Tryouts

Tryouts for varsity and frosh man-sophomore debates will be held in Room 3, North College Tuesday, December 8, at 4 p. m. Four men will be chosen for each of the two class teams, and eight or ten for the varsity. Good material on either of the class teams will be given a chance for intercollegiate work.

Candidates will present a three-minute speech on the subject, "Resolved, That the Eighteenth Amendment to the Constitution of the United States should be resubmitted to the States. (Constitutionality waived.)"

JUDD MADE HEAD OF AGRICULTURAL SCHOOL

Stanley Gaines Judd has been appointed by the State Board of Education to be principal of the Vermont Agricultural School at Randolph, Vt.

Since 1914 Mr. Judd has been an influential figure in the agricultural activities of the State, and for the last four years he has been connected with the University as Exposition Specialist under the Agricultural Extension Service.

Mr. Judd has many friends in the student and administrative bodies of the University to congratulate him and wish him success in his new appointment.

The post of Exposition Specialist will be filled upon Mr. Judd's removal by E. H. Loveland, County Agent, formerly of Orange, and for the past few years of Chittenden County.

No Uniform Cut System Can Be Found in Academic Colleges

Matter of Unexcused Absences and Make-up Methods Is Left to Department Heads or to Individual Instructors

A survey of the cut systems used in the various colleges and departments of the University was made by the Cynic during the past week. Heads of most departments were asked to state how many unexcused absences they allowed from their classes. It was found that no uniform system is prevalent.

Absences from classes are covered in the "Regulations of the University of Vermont," a small green booklet which is issued to all students at the opening of college.

Under a section entitled "Attendance," the college rules are given which require regular attendance upon all classes and which makes the student responsible to the dean of his college for his attendance. There is no mention of unexcused absences. It is implied that cuts come within the province of department heads or individual instructors.

Only two regular systems were reported by the professors interviewed. One is used by the Economics Department. It was promulgated by Prof. George G. Groat and has been in effect for two years. Students are allowed three unexcused absences a semester under this system. Three tardy marks count as a cut. The Military Department gives three cuts a semester, but this year all absences over three acquired before November 13 may be made up at infantry drill at certain specified hours.

Many professors allow unexcused absences to a "reasonable" amount. The number of cuts allowed depends on the ability, work and conduct of the individual student. One professor allows at least one unexcused cut a semester and as many more as he thinks the student should take. It may may be said in this connection that most department heads did not wish their names to be divulged.

Two professors declared that they did not allow "cuts." A zero is given as a mark for the day on which the cut was taken or two points or so for each cut were taken from the student's final grade.

Some professors insisted on presenting arguments against a uniform cut system, although the Cynic representatives asked only for information relative to their department's cut system. There seems to be an almost unanimous feeling against a uniform cut system among the heads of departments.

FRENCH UNIVERSITIES NEED NO CUT SYSTEM

Students Attend Classes When They Want, and Take Own Responsibility

Mrs. M. H. Buckham gave an informal talk at the meeting of the University of Vermont Alumnae Club Monday evening at the home of Miss Marion Way. Mrs. Buckham told about her experiences in Europe during her recent visit.

A great share of Mrs. Buckham's talk concerned Grenoble and the University of Grenoble. There is a population of 80,000 in the town and she mentioned the great dignity and the aristocracy of the professors, also remarking that their lectures are delightful but their contents slight with little new material.

At the university there are students of every nationality with the exception of the Germans, and the students are on their own responsibility, the professors not being concerned whether they attend classes or not. According to Mrs. Buckham it is

(Continued on page 8)

"Shall Co-eds Smoke?"—Radicals, Forgetting Old Customs, Say "No"

Are Those Who Forget Customs of 1825, or Those Who Break Away from Customs of 1915, the Radicals?— Why All the Fuss?

Shall co-eds smoke? If not, why not?

Seldom has so great a wave of interest over a purely academic question shaken college students as since it was announced that a smoking room would be provided at Bryn Mawr for those women who had become addicts to the noxious weed.

So far as Vermont is concerned, the question is of course purely academic. For if co-eds were to be given permission to smoke in certain places, the places would have to be off the campus, inasmuch as the increasing demand for classrooms has long since taken the last masculine stronghold, the Trophy Room.

Moreover, the question is academic for another reason: those co-eds who really want to smoke do so anyway, and permission or prohibition does not bother those who cannot inhale a fag without coughing—unless it is to make them risk a cough for the sake of doing the forbidden.

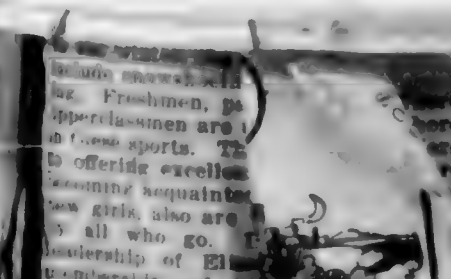
Out at Coe College, which, (for the benefit of those who, unlike the writer, have had no opportunity to consult the World Almanac) is out in Cedar Rapids, the home of furniture, in the state where the tall corn grows, there was a terrible hullabaloo when Mrs. Aline Kilmer, widow of Joyce Kilmer, announced that it was hard for her to speak without having quieted her nerves w th a cigarette.

Mrs. Kilmer smoked several, of a brand which is not mentioned by name because of the censorship of the advertising department, but which was described as popular. It was decided, however, that probably the dean of women sized up the situation well enough to realize that "I don't think anyone needs to worry about the influence on the co-eds, because they were all so shocked!"

The *New Student*, mentioning the episode, noted in a footnote that Amy Lowell, sister of President A. Lawrence Lowell of Harvard and herself a pioneer writer of free verse, used to smoke large, black cigars.

But that is getting away from the original subject.

At M I T "all collegiate precedents in New England have been broken by the announcement that girls will be permitted to smoke at dances and other social events in the Walker Memorial building, where undergraduate festivities are held. The rules will apply also to women guests of the men students at dances."



Smoking anywhere, at any time, is forbidden to the women at Wellesley and at Radcliffe, and to the co-eds at Boston University, where expulsion follows a violation of the rule.

A resolution to permit smoking at Wellesley was recently defeated by the senate of the college government association. The vote was five to three. The five faculty members voted "nay" and the three student members "aye."

At Vassar, where nearly half the girls have admitted smoking, the matter is left up to individual consciences; while the rules disapprove of it as injurious to the health, the students have voted against outright prohibition.

Barnard has never forbidden smoking by the girls, and at Mount Holyoke the girls recently voted for smokes 448 to 442. Action at Smith College has been deferred until spring..

SAY RAINBOW INSURES VICTORY ON GRIDIRON

University of Hawaii Players Place Great Faith in This Sign

[illegible] are co-ed January exercises.

[illegible] fact that fair sex cling to a certain duration when denied smoke, said to be put out especially for female devotees of the pastime, we [illegible]

[illegible] of the Navy Hawaii game broke with a cloudless sky the navy made three straight touchdowns. Within [illegible] of the end the navy was leading 19 to 0. Up in Manoa valley thunderbirds gathered and a rainbow appeared. The university then proceeded to make two touchdowns. The score was tied just as the game ended.

The [illegible] seemed spotted auspicious as were a rainbow. The university defeated the Hawaiian national guard 86 to 0. Whether the rainbow will prove potent enough to down the Colorado Aggies who come here December 12 and Washington State scheduled for Christmas week remains to be seen.

Members of the university squad wear miniature rainbows on the arms of their jerseys.

Shall Co-eds Smoke?— Radicals Say "No"

(Continued from page 1)

Out where the West ends. Where the warm waves of the Pacific are the shores of California, Washington and Oregon, where men are shorts and women are movie actresses, smoking is a matter of individual taste—so [illegible] as women do not smoke.

[illegible] of the University of California the dean of women is quoted as saying that the problem was settled years ago in the co-eds and has never recurred.

At Stanford the sentiment against smoking is so strong that the girls have rallied against it. At the University of Oregon women's organizations have framed and enforced strong prohibitions.

At the University of Idaho those girls who like a drag upon occasion are frowned upon by their sisters who strongly disapprove and at the convocation who forbid the practice known as the president of Willamette University at Salem, Oregon, admits that the University would gladly part with any co-ed who smoked at the campus or anywhere else.

It isn't only the coed who comes in for notice. So at Springfield the Y.M.C.A. society held a discussion which resulted in upholding the principle that while boys may smoke in his room, he mustn't indulge on the campus or in any public place. The ruling was upheld for three reasons.

First a person without the glowing cigarette with a certain distinction is [illegible] and objected to other colleges. Second understanding students are not influenced by those who do smoke. Third the Springfield College student in his work with boys should not publicly smoke because of the example afforded.

One participant in the discussion suggested that since so many women at law schools smoking is becoming offensive so he had about decided to "go a bottle and chew gum."

Probably the attitude is borne out by figures from Portland where the Portland administration that the sale of cigarettes has increased from 3 to 10 per cent while women acquired the habit. The result [illegible] of the shorter sex. Perhaps the Portland writer had forgotten

[illegible] are co-ed January exercises.

[illegible] fact that fair sex cling to a certain duration when denied smoke, said to be put out especially for female devotees of the pastime, we [illegible]

[illegible] requirement for securing a diploma. [illegible] attained 2.62 and the average for all smokers was 3.44, while nonsmokers averaged 3.51.

Scholastic standards at Antioch [illegible] for it is reported that [illegible] per cent of students found to [illegible] requirements for [illegible] per cent of light [illegible] and 4.5 per cent of heavy [illegible] found not much room. The [illegible] was upheld was found to be [illegible] on the average than [illegible]

[illegible] Key met Tuesday evening at [illegible]

The annual meeting of the Vermont [illegible] Association will be held at the Gymnasium January 12, 13 and 14.

The Glee Club is rapidly making progress according to Manager Gates, and should be in fine form for its approaching trip to Montreal. There is still a place however for tenor voices and such men as now wish to try out for these places should report to Ray Gates at once.

FORMAL WEAR

Dress shirts with plain stiff bosom, or the latest vogue, with miniature pleats. Suspenders, or if you must be correct "braces" in all tints. Dress bows, the kind you tie yourself or those already made.

In the past few weeks some new [illegible] material has come into [illegible] hands of the Women's Editor, [illegible] which is decidedly different [illegible] the necessary but rather [illegible]monous round of news items. A [illegible] poems and brief sketches and [illegible] communications, the earnest- [illegible] of which is undoubted, have [illegible]gled with news of fraternities, [illegible] A. A. and the others.

[illegible] some time past the "Catty Co- [illegible] has been the only break in a [illegible]ther stiff and formal page. It [illegible]ems to the editor that the women's [illegible] of the CYNIC should mean more [illegible] Vermont women than a warmed- [illegible] account of news which is usually [illegible] news at all. What do others feel [illegible]? Do they enjoy the "extras" [illegible]h can make our share of the [illegible] a little more alive, a little more [illegible]?

[illegible] our English professors and [illegible] well qualified to know what he is [illegible]king about, stressed the other day [illegible] great need of the CYNIC for more [illegible]terial of this sort. If we are to [illegible] it, the others must cooperate. [illegible] only the try-outs, but any others [illegible] would be willing to contribute [illegible] invited to. Don't wait for the lit- [illegible] issue of the CYNIC but "do it [illegible]."

[illegible]nd opinions on questions which [illegible]ern us all—shouldn't the CYNIC [illegible] a medium for their exchange?

We are hoping that the material [illegible]ready published will lead to more—[illegible]ch more.

The Catty Co-ed
Says

Everybody
Turned out
To see the
Foot-ball-hop.
It hopped so high
We won't
Stop talking
About it until—
Next 4th of July!
And the hops
Got into the punch
Hence—
The hop
Came in from
Harvard.
And they all
Hopped.
It sure was
A hopping affair.

* * * *

And now—
It's the
Morning after.
Ho-hum!
Oh Prof.,
Where is
Thy sympathy?

* * * *

Cheer up!
Mid-years
Only five
More weeks away.
Then
You'll have
Your chance to shine
Little frosh.
Be good
And maybe Santa
Will drop
An extra piece
Of gray matter
In your
Little sock.
(Be sure
To mend it!)

* * * *

Of course
You don't need it.
It will
Just be a case
Of an extra
Supply
To offer
Your uppers.

* * * *

Don't worry,
They'll never
Ask you for it.

"Extra Special"

With a sense of implicit relief, I hedged my way through the maddening throngs of tired, cross, shivering mortals into a far corner of the suburban train.

For the moment I was overcome with the realization that poking through downtown offices on a squally, blustering, rainy November afternoon is a man's job; and that blazing logs and coffee and the *Evening Journal* are far more suitable for an old fellow of my age and temperament.

"Extra-a-a-a special-l-l!" The shrill voice of a newsboy rang through the waiting train. How I pitied him, as he bravely swung the huge bundle of papers and handed out change from his chapped little hands.

"Extra-a-a special! Latest campaign news! Election-n Eve special-l-l!" I marvelled at the magnetic power of "election-n." Such twisting and writhing of sensible men! Presto! The newsie's threadbare pockets were bursting with pennies.

"Extra-a-a special-l-l! Army 7; Navy 0!" Several young collegians, or such I supposed them to be, delved into the pockets of their coonskins. Every paper was gone but one!

The newsie stopped before me. "Extra-a special-l! New Outbreak in China!" Now, how that little fellow knew my partiality toward subjects of this kind is a mystery. I looked, I beckoned, I dug into my pockets, as a Cæsar might have said. And the newsboy went his way rejoicing.

"I would like to read the psychology those little fellows could write!"

The voice at my elbow did three things. It made me conscious of the presence of a seatmate; it brought me back to the realization that the train was moving; it made me forget about China.

The speaker was a stately, white-haired old gentleman with those features that make a man, a man among men. I was interested.

"Those words, 'extra special,'" continued my neighbor, "bring many reminiscences to me. That is a name which I christened a little newsboy fifteen years ago this very month.

(Continued on page 5)

LILLIAN TOMLINSON WOMEN'S SONG LEADER

The main feature of the Student Union meeting last Saturday morning was the song-leading contest, which aroused a great deal of interest.

A number of girls tried out and all of them showed plenty of pep and ability.

Lillian Tomlinson '29, however, seemed to receive the favor of the majority and was elected. The contest was supported by a good attendance.

W. A. A. NOTES

Indoor gym work began December 1. Basketball for all classes also began early in the week, with a large number of girls signing up for the sport. Over sixty freshmen alone will take part. For this reason it has been necessary to set periods for practice both afternoon and evening, Tuesdays and Thursdays.

A large class has enrolled for the Girl Scout course, which began Wednesday, December 2.

Girls keeping health cards during the month of December are required to keep them through vacation, with the exception of Christmas Day and New Year's Day, if they wish to receive credit for them. It was decided that if the girls are enough interested in keeping them and earning W. A. A. points, they should be willing to keep them during vacation. The primary purpose of a health card is to form lasting good health habits.

"HOW TO STUDY"
The Students' Hand-Book of Practical Hints on the Technique of Effective Study
by
WILLIAM ALLAN BROOKS
A GUIDE containing hundreds of practical hints and short cuts in the economy of learning, to assist students in securing MAXIMUM SCHOLASTIC RESULTS at a minimum cost of time, energy, and fatigue.
ESPECIALLY RECOMMENDED for overworked students and athletes engaged in extra curriculum activities and for average and honor students who are working for high scholastic achievement.

Some of the Topics covered

Scientific Shortcuts in Effective Study.
Preparing for Examinations.
Writing Good Examinations.
Brain and Digestion in Relation to Study.
How to Take Lecture and Reading Notes.
Advantages and Disadvantages of Cramming.
The Athlete and His Studies.
Diet During Athletic Training.
How to Study Modern Languages.
How to Study Science, Literature, etc.
Why Go to College?
After College, What?
Developing Concentration and Efficiency.
etc., etc., etc., etc., etc., etc., etc.

Why You Need This Guide

"It is safe to say that failure to guide and direct study is the weak point in the whole educational machine." Prof. G. M. Whipple, U. of Michigan.
"The successful men in college do not seem to be very happy. Most of them, especially the athletes are overworked." Prof. H. S. Canby, Yale.
"Misdirected labor, though honest and well intentioned may lead to naught. Among the most important things for the student to learn is how to study. Without knowledge of this his labor may be largely in vain" Prof. G. F. Swain, M. I. T.
"To students who have never learnt 'How to Study,' work is very often a chastisement, a flagellation, and an insuperable obstacle to contentment." Prof. A. Inglis, Harvard.
"HOW TO STUDY" will show you how to avoid all misdirected effort.

The Vermont Cynic

THE OFFICIAL STUDENT NEWSPAPER OF THE UNIVERSITY OF VERMONT

[boilerplate]

Vol. 44 December [illegible] No. 11

[boilerplate]

THIEVERY

The Cynic is in fact forced to call attention to another in a series of more or less petty thievery which is going on at this campus. The Cynic is proud of the University of Vermont and of most of its men and women, but it appears beyond reasonable venture that there are those on the campus who are intentionally and somewhat loudly dishonest.

So far as we are informed the campaign may be said to have started with the theft of a portable typewriter from the Cynic office a year ago last fall. There were reports, too, of the theft of money from clothing in the gym.

Somebody with more acquisitive nose than sense of values took the control board of the grid graph, a thing so far as can be discovered of no earthly use to anybody but the operator of a grid graph and therefore about the last thing in the world one would naturally expect to be stolen.

It was last year too that football blankets such as those given to the senior letter men were stolen from a booth at the football hop and those have never been returned indicating that perhaps somebody was not above exhibiting a token of athletic ability beyond his ability to earn.

This fall so far we have been informed of the theft of two watches and from a member of the faculty and one from a student. The typewriter from the Y. M. C. A. office was stolen during Thanksgiving recess or perhaps borrowed and not yet returned.

As though to cap the climax four football blankets and two jackets given out on the field this fall have not been turned in and no trace has been found when this was written although considerable investigation had been made.

It is supposed in this case, however that the matter was not altogether dishonesty or carelessness, and the possession by them of this property is holding up the award of the "V" to eighteen men who have done as much for Vermont as this year's football letter men, it is time that the sentiment of the college be crystallized against those men, and the others who are walking off with valuable property belonging to others. It is time that we take stock and find out where we stand, and let those guilty of thievery know where we stand.

The Cynic kept silent when some kiddish person, in a moment of exuberance, robbed the Cynic box of eight of the most important news stories one week, and delayed the issue. The Cynic's cynicism at the queer turns of human nature was not decreased, however.

We made no fuss when a letter written by a campus leader on a controversial subject was taken last spring from the Cynic box, and never turned up. A certain amount of childishness must probably be expected.

We do believe that now the thing has been carried too far, and that for the good name of our University, and in justice to eighteen members of the 1925 football squad, it is time the men of Vermont got busy and saw that this equipment is returned—and if possible put an end to the constant thefts which are a disgrace to the institution.

[illegible] Cynic

[illegible] Christmas recess [illegible] a day at the beginning and a day at the end so as to have it start Friday, December 20 in place of Tuesday, December 22 and end at 7.30 A. M. Monday January 4, in place of Tuesday, January 5.

Was it not so that Student Union passed a petition last winter to have Thanksgiving recess shortened by one day and Christmas recess lengthened by one day? It seems to me that the University Council granted the petition, at any rate, Thanksgiving recess has been shortened by one day.

But what became of that day after it was removed from the November vacation? It certainly must have been overlooked when it came to adding it to the Christmas recess. Last year Christmas recess began at 7.30 A. M. on Saturday, December 20 and ended at a similar hour on Saturday, January 3, just fourteen days in all. This year the recess is scheduled to begin at 7.30 A. M., Tuesday, December 22 and end at 7.30 A. M., January 5, just fourteen days as last year.

Evidently, then, the thing to do is not to have the vacation shifted a day at the beginning and end. What seems proper to do, would be to petition the council to apply the day which was taken, from Thanksgiving recess to the beginning of the Christmas recess, so that the vacation would begin at 7.30 A. M. Monday, December 21. Such an arrangement would straighten out the difference of the day due to the shortening of Thanksgiving recess and would also make it possible for most students to go home on Saturday.

C. J. '28.

Daily Dribble

There are too many cranks in the world and not enough self-starters.

Better to remain silent and be thought a fool than to speak and remove all doubt.

It's what you can with what you have where you are today.

The less you have, the more there is to get.

Noah was six hundred years old before he knew how to build the ark—don't lose your grip!

Power, responsibility, gravitate to him who is ready.

Y. M. C. A. NOTES

A supper will be served at the Y. M. C. A. building on Wednesday evening, December 9, from 5.30 to 7. All freshmen who have been interested in Hi-Y activities or who are interested in the leadership of boys are cordially urged to be present. Dr. Adams of the First Church and Mr. Ross of the City Y. M. C. A. will give short addresses.

Campus discussion groups are now entering their thought on the subject of campus popularity—what is it, its justification, and other aspects of the problem.

A meeting of Alpha Zeta, honorary Aggie society, was held last Thursday evening.

There will be a meeting of the Vermont Independents at 4.00 P. M. next Monday in Room 3, South College, for the purpose of electing a president and vice-president. All non-fraternity men who are interested are invited to attend.

ARCHIE POST CHOSEN BASKETBALL LEADER

Star Forward Will Captain Green and Gold Quintet This Winter

[illegible] was elected captain of the quintet, at a meeting Thursday afternoon. [illegible] years Post has been a member of the squad, and last year his scoring had much to do with the success of the team. He is also a track performer of high ability and won his letter in that sport last spring and in cross-country last fall by finishing second in the meet held with Middlebury.

FIRST PRESENTATION OF PLAY NEXT WEEK

"The Goose Hangs High" at Rutland, Tuesday, and at Strong, Thursday Night

Final dates have been arranged for presentation of the fall play of Wig and Buskin and Masque and Sandal, "The Goose Hangs High," the first performance being in the Playhouse at Rutland, Tuesday, December 8, and the second at The Strong Theater on Thursday the 10th.

The reason for the success which the play is enjoying in the advance sale lies in the play itself. "The Goose Hangs High" could not be presented at any time better than the present. It is a play filled with the spirit of Christmas, Christmas doings, and the true Christmas spirit, and is well suited to a college cast.

The twins of the family who are away at college and come home for the Christmas holidays are the central figures from the time they appear. The time is the present. The action and the lines are natural to a college cast.

The story of the play is briefly as follows: Bernard Ingals, a city official in a mid-western town of a hundred thousand, and his wife, a descendant of one of the "first" families of the city, have lavished all their love and all their earnings on their three children. Hugh, the oldest son, is through school, and in business. The twins, Bradley and Lois, are away at college. The play opens with the family just before the Christmas holidays making ready for the homecoming of the young people. It is brought out that they have suffered financial reverses which they have kept from the children, and have been living in comparative poverty while the boy and girl want for nothing at college. The children's "goose hangs high" as the grandmother, thoroughly disgusted with this state of affairs, says it.

Mr. Ingals has come under the power of unscrupulous politicians in the city council, headed by Kimberley, a shrewd political boss. Day, a contemptible but thoroughly impossible moral character, holds the deciding ballot. Ingals is at last forced to capitulation by the insults of Kimberley and resigns. With all source of income gone it seems that the fond

PHI BETA KAPPA CELEBRATES ANNIVERSARY

(Concluded from Last Week)

Besides John Marshall, who had so successfully espoused the cause of ratification of the Constitution, been a member of the first Congress, represented the United States on a special mission to the Court of St. James and served for a time as Secretary of State in the cabinet of John Adams, another Phi Beta Kappa man, Bushrod Washington, became a justice of the United States Supreme Court.

Others of the fifty founders added to the high repute of the fraternity in just as worthy, though lowlier callings. Two of them became clergymen and it was to one of these two, Elisha Parmele, that the perpetuation of Phi Beta Kappa was due.

The fraternity continued at William and Mary College, in early times, for only four years. When, early in 1781, the Revolution brought the British Army to Virginia, and then to Williamsburg, the college was forced to close its doors for a time. Before leaving the town the six members of Phi Beta Kappa who still remained there sealed up the records and left them in the hands of the college steward, to be safeguarded by him "until the desirable event of the Society's resurrection."

But before this date—in 1779—Elisha Parmele, a Connecticut Yankee who had become one of the fifty original members—returned to the North taking with him a charter for Harvard, voted on the third anniversary of the founding of the Society, and another for Yale, granted five days later. Thus two new branches were founded before the dissolution of the original one and Phi Beta Kappa consequently has had an unbroken existence of 149 years.

The fourth chapter, at Dartmouth, was granted a charter in August, 1787, and another was not organized for thirty years, until, in 1817, Union College was granted a charter. Then followed the Alpha of Maine at Bowdoin, established in 1825, and, five years later, the Alpha of Rhode Island at Brown. The charter of the local chapter was granted in 1849.

The organization of new chapters proceeded steadily until today there are more than one hundred in the principal universities and colleges of the United States. In 1875 the membership was broadened to include women and of the present chapters only twenty-four are in institutions exclusively for men.

Mt. Holyoke Freshmen Coached in Etiquette

(Continued from page 1)

laughter when one freshman answered that she would seek parental permission if invited to a Massachusetts Agricultural college dance. Mount Holyoke requires such permission only for sports like swimming, "involving a possible loss of life."

Altogether the upperclassmen felt that undisputably etiquette should be taught annually to freshmen.

Extra Special

(Continued from page 3)

"I met him one morning on L— Street, shrieking at the top of his voice: 'Extra-a-a special-l, Mister?' Something in the big, black, pleading eyes made me stop. That same indefinable something caused me to purchase my morning paper on L— Street, several blocks out of my way, for seven years.

"Then one morning, little 'Extra Special' told me of his promotion to the press room. I was happy in his good fortune and pleased also to find him a frequent visitor at my office.

"On a certain day in April, 1917, he came to tell me that he was going 'over there.' Then came November 11. Above the hubbub of sirens and bells, the shrill cries of thousands of little newsies rang out, 'Extra-a-a special-l, Armistice!'

"A few days later in his own journal was the account of the death under fire of Sergeant ——. But the name matters not. He was always for me just little 'Extra Special.'"

* * * * *

It was a ghastly night, a squally, blustering, rainy November night. The flames crackled joyously, and I sank into my arm chair, glad, indeed, of this respite from men and tem[illegible] past.

The *Evening Journal* lay untouched beside me. I could not see the airy castles which so many vision in the reddish-amber light of the blaze. For me, the flames held only a faraway grave in Flanders, and upon my lips was a prayer for the sleeping newsie, little "Extra Special."

The season [illegible] Norwich [illegible] and Middlebury are at hand with a few [illegible] Those two [illegible] Middlebury [illegible] Lightner [illegible] and Heath at Norwich [illegible] Following the Blue Platoon [illegible] N. H. State at Montpelier [illegible] on February 9 [illegible] the [illegible] Green Mountain State to play Vermont on the Gym floor [illegible] Norwich [illegible] the South [illegible] taking a week at Maine on February 5 coming to Burlington on the following day

The Cynic Hoopla Springfield on January 9 and entertain the Y on the home court February 12 as do we on the 16th. Many Aggie [illegible] on the schedules of [illegible] and both Norwich and Vermont play the [illegible] Aggies

St. Michael's have a couple of dates with each member of the Trio and only Vermont does not face Williston. Norwich, [illegible] Fordham, Dartmouth, Lowell Textile and Holy Cross and experts to land a fourth straight [illegible] Last but [illegible] Tufts and White meet Amherst, R. I. and Tufts and Manager Gaddis has a [illegible] with N. Y. U. on our list.

The Vermonters are "at home" to Middlebury on February 8 and go [illegible] on the twenty-sixth while we [illegible] Norwich on February 11 [illegible] the season by a [illegible] up [illegible] the goals in the first of March.

Keeping track of these battles and [illegible] the last hope is going to [illegible] Ye All Wise Prophet of the Middlebury Campus eating his words [illegible] the football season, if that is possible. Or did he [illegible] that [illegible] the race after Norwich did not beat Vermont 13-3 and the Old Mill boys passed out a "0 result"?

RIFLE TEAM SHOOTS MATCH WITH MAINE

The first match in which the men [illegible] was against the University of Maine. Ten Ver[illegible] shot [illegible] for record yesterday [illegible] the highest five scores were [illegible] Results of the match are [illegible] and the schedule for the remainder of the year [illegible]

Captain Rattan of the R. O. T. C. [illegible] is coaching the Green and Gold [illegible] The complete [illegible] for the season will soon be announced by Manager Morton.

There was a meeting of the Radio [illegible] last evening at 7:30.

Diamond, Field and Track

[illegible] a responsible [illegible] should be [illegible] an outcropping [illegible] of the chief joys of life is to [illegible] over our [illegible] and [illegible] the many [illegible] moments are [illegible] [illegible] and [illegible] a prominent football player is [illegible] of his exploits [illegible]

V

[illegible] I am no exception to this rule. I have my own ideas [illegible] and [illegible] the opportunity to [illegible] them upon my readers [illegible] pleasure in [illegible]

V

All-American Eleven

[illegible] I selected Tarry of Dartmouth and Oosterbaan of Michigan [illegible] Lee of Yale and Kentzler of Cornell. For guards I [illegible] Lewis of Colgate and Levy of Dartmouth.

[illegible] is unquestionably one of centers and probably [illegible] any question [illegible] and competitors for all American backfield positions. There are three, however, who stand [illegible] Without them a team would be no team.

[illegible] must be a Yale man and I would put the Illinois phenom at [illegible] Stebbins of Dartmouth, and the Colgate star Eddie [illegible] would make a splendid pair of halfbacks. We come into the home [illegible] and pick a fullback to choose.

Most [illegible] who have between them seen most of the stars of the [illegible] season, cannot seem to agree upon a fullback, but I who have [illegible] have no hesitancy in giving the call to Nevers of Stanford [illegible]

V

A great difficulty with this team is that never having seen most of these men [illegible] based upon newspaper reports and the all-American selections [illegible] In fact to be candid it is an attempted consensus of all-American [illegible] and no choice of my own at all.

V

All-Vermont Team

At the risk of life and limb and after taking full cognizance of the [illegible] consequences involved and particularly in view of the fact that the [illegible] may [illegible] be [illegible] not later than February anyway, I give vent [illegible] the Cynic's selection of an All-Vermont team.

I do not [illegible] that nobody will agree with the complete list, and [illegible] a few will [illegible] part of it. I simply announce that the teams, first [illegible] and the work of no one man but a compromise which meets [illegible] with the approval of all who happened to be in the Cynic office when the [illegible] were made.

Here it is: take it or leave it.

V

FIRST TEAM

[illegible] (M.) and Hourie (N.) ends, Denning (V.) and Katz (V.), tackles, [illegible] (M.) and Winchenbach (V.) guards, Crowley (N.), center; Whittemore (M.) quarterback, Hinman (M.) and Conway (V.), halfbacks; Smith (V.), fullback.

V

SECOND TEAM

After choosing the first team, there were so many men left over who [illegible] out to the figurative toss of a coin, that it was decided, on a secret ballot, to choose a second team and include the rest of the players. Some of these in the second team are undoubtedly better than some of the first [illegible] but such is life. Read 'em and weep.

Lewis (V.) and Schechtman (V.) ends, Brosowsky (M.) and Mullen (M.) tackles, Fisher (N.) and Wiley (M.) guards; Clark (V.), center; Kane (N.), quarterback, Thompson (V.) and Andrews (N.), halfbacks; Rice (N.), fullback.

V

We should be pleased to receive knocks or boosts. Please label the former plainly, so that they may be destroyed unread. We have troubles enough already. Christmas is coming. We don't want to be disturbed.

TENNIS PRACTICE

All men interested in tennis should report to Coach Carpenter in the cage Monday afternoon. Practice is to start at once and will continue through the winter on Monday, Wednesday, and Friday afternoons.

It is imperative that a good squad turn out for Manager Russell has arranged a stiff schedule to play next spring, such teams as Dartmouth being included on the card.

Captain Freddie Guild will play his fourth straight year, supported by "Ozzie" Nye, "Dutch" Hoag, Emory Mower and George Baldwin, all veterans of one or two years on the court. These men, with the expected new material, should round into shape for a successful season.

[illegible] Hill has wound up [illegible] as a regular guard, [illegible] is also losing "Mike" [illegible] "Charlie" Schecht[illegible] Joe O'Connell, and "Chappie" [illegible]man

[illegible] backfield, someone will have [illegible] to take the place of "Bob" [illegible]pson at left half. "Art" Harms [illegible] Rusty" Yarnall are two more [illegible] of former years who are leav[illegible]

[illegible]bury is also going to be handi[illegible] in next year's race for state [illegible] when they cast about for mate[illegible] to fill the shoes of Capt. Potter, [illegible] L. Rice, Browsowski, Ehlert, [illegible]Laughlin, Mullen, and Gruggel.

First Presentation of Play Next Week

(Continued from page 5)

[illegible]es of the parents must be blasted, [illegible] Granny and the children, themselves take the helm, and the play ends with everything to the satisfaction of all concerned and the goose hanging very high for the whole family.

It is difficult to say what are the leading rôles of this play, but the characters of Bernard Ingals and his wife are the central figures throughout. Henry Conlin '26 of Winooski plays Bernard Ingals. The rôle of Eunice Ingals is played by Eleanor Chapman '27 of Springfield.

Hugh Ingals, older son of the family, is played by Robert Costine '27 of North Adams, Mass. Dagmar Carroll, the fiancee, is played by Janet Twitchell '28 of Burlington, both new to college drama.

Next to the parts of Bernard and Eunice Ingals, the most prominent characters in the play are the twins, Liz and Bradley, played by Eunice [illegible] '27 of Belmont, Mass., and Roger [illegible]bee '28 of Springfield. It is the twins with their overflowing pep and vivaciousness that make the action of the play brisk and full of the sudden changes that it is.

Catharine Bassett '29 of Burlington has the only part in the entire cast that can be called a character study, the rôle of Granny, the mother of Mrs. Ingals. Granny's old-fashioned ideas come into sharp conflict more than once with the college-made ideas of the twins, and her caustic comments add to the humor of the lines.

Elliott Kimberley, the political boss, and Leo Day, the social climber, are portrayed by Ovid Parody '27 of Peekskill, N. Y., and Evo Lucchina '28 of Barre. Parody is another old friend of the college play audiences.

Nora Derby, a friend of Bernard Ingals, is played by Whitney Safford '29 of Burlington. Ann Perkins '28 of Burlington takes the part of Julia Murdoch, a friend of Mrs. Ingals, and Benham Phelps '27 of Milton appears as Ronald Murdoch, her son. Dorothy Cottrell '29 of Brookline, Mass., plays the part of Rhoda, the family servant.

Vote

While there has been very good response in the poll conducted by the CYNIC, in collaboration with the two Christian Associations, on the World Court, the result is not sufficiently representative to prove anything except that there are differences of opinion.

The dead-line for voting is extended to four o'clock Monday afternoon, at which time the ballots will be counted.

Blank ballots for those who did not clip that in last week's CYNIC, may be found in the "Y" rooms and on the CYNIC box in North College hall.

Vote now. The time is short. Let's see what Vermont students really think on world questions and how much.

VOTE

There was a meeting of Key and Serpent Society at the Lambda Iota House last Tuesday evening.

The many students who enthused last year over Paul Whiteman and his orchestra will have a chance to repeat that experience at the Gymn this evening.

The Key and Serpent Society will hold its second dance of the season on Friday evening, December 18. Music will be furnished by a popular college orchestra which will be announced later.

The regular Student Senate meeting was held Saturday morning in the Gymnasium. A report was heard from F. E. Barlett, chairman of the committee to look into the advisability of giving a football team a banquet. The setting of a suitable date and other arrangements, were left in the hands of the committee.

156-158 COLLEGE STREET

All the brawn of all the workers of the world would fail to supply the power needed for our construction and production requirements. Modern civilization is based on cheap power readily applied to tasks of all kinds.

Machinery *works*: Man *thinks*

According to college tests, man develops one-eighth horsepower for short periods and one-twentieth in steady work. As a craftsman—a worker who uses brains—he is well worth his daily wage. But as a common laborer, matching brawn against motorized power, he is an expensive luxury.

With a fifty-horsepower motor, for instance, one man can do the work of 400 common laborers. He is paid far more for his *brains* than his *brawn*.

The great need of this and future generations is for men who can plan and direct. There is ample motorized machinery for all requirements of production and construction. But motorized machinery, no matter how ingenious, can never plan for itself.

And that is precisely where the college man comes in. Highly trained brains are needed more and more to think, plan, and direct tasks for the never-ending application of brawn-saving electricity.

In most long-established industries the General Electric Company has brought about important changes making for better products with minimum human labor and expense. And in many new industries the G-E engineers have played a prominent part from the very beginning.

A new series of G-E advertisements showing what electricity is doing in many fields will be sent on request. Ask for Booklet GEK-1.

Number 61 of a Series

U. V. M. REPRESENTED BY 13 IN "WHO'S WHO"

Directory of Nation's Famous Men Lists Many Members of Vermont Faculty

[illegible]

The College of Agriculture [illegible] J. L. Hills, who was dean of the College of Agriculture [illegible] and M. P. Cummings professor of Horticulture, has become famous as a specialist in pomology.

J. W. Votey of the College of Engineering began as instructor in 1884 and was appointed to the faculty in 1901.

C. H. Jenkins of the College of Arts and Sciences is now in his 55th year at the University, a record thought to stand unbroken. He came to Vermont after graduating from Yale as professor of natural science in 1870. Jenkins had also served as vice-president in 1894 and was acting president from 1917 to 1919.

The College of Arts and Sciences is also represented by Frederick Tupper, professor of English, now [illegible] G. G. Great, professor of Commerce and Economics, A. B. Myrick, professor of Romance Languages, H. F. Perkins, head of the Zoology department, and C. R. Williams of the History department.

H. S. Tinkham, professor of clinical surgery and dean of the College of Medicine, F. W. Sears, Neurology, and W. W. Townsend genito-urinary diseases, represent the College of Medicine. All three of these men are well-known specialists.

In addition to the thirteen already mentioned, the names of M. B. Ogle, professor of Latin up to this year and S. G. Barnes, professor emeritus of Internal Literature, were listed.

Judging by *Who's Who*, Vermont ranks well in comparison with other colleges, Middlebury having six and Norwich two, while Dartmouth has forty-four.

It is also interesting to find that Mr. Peta Kappa claims eight of these fifteen men, while all have doctors degrees.

ATTENTION, JUNIORS!!

Grinds for the *Ariel* are past due. If you have not already written your assignment please do so at once. The more grinds that are written by those who know the different fellows best, the better the grinds section will be, and it can become an outstanding success only if every Junior cooperates in the matter. Drop contribution in the Ariel box in the Old Mill, or hand them to Howard Aplin at the Phi Mu Delta House not later than December 10.

Dean Tinkham, who was stricken seriously ill on the Tuesday before Thanksgiving, is showing signs of improvement.

It has recently been announced that Dr. Lund, who left several smaller bequests at the time of his death about a year ago, has left $100,000 to the Home for Friendless Women of this city. Dr. Lund was a graduate of the University of Vermont in the class of '61, and after studying medicine at Michigan, he was for some years an instructor at the Medical College here.

Vermont's crack R. O. T. C. band is now located in permanent quarters in the basement of South Converse Hall. A room has been fitted up in which the band will hold their practice under leader Joseph Lechnyr. The property of the organization has also been moved from the gymnasium to the new quarters.

[illegible] H. E. [illegible] has arranged for a number of symposia of [illegible] dairy plant operation, including [illegible] cream, butter and cheese [illegible] and demonstrations by [illegible]

[illegible] will open with the [illegible] on Monday morning [illegible] Vermont. This will be followed by a [illegible] of the refrigeration [illegible] and storage of cream, [illegible] Then will come the competitive [illegible] of butter and cheese, [illegible] and storage statistics, [illegible] methods of testing quality [illegible] the milking machine problem and many other questions of great importance to the dairy industry. Programs will be mailed upon request.

U. V. M. SCHOLARSHIPS FOR DEBATING TEAMS

About thirty preparatory schools in Vermont have joined the Vermont [illegible] Debating league and will compete for the championship of the state this year. The University of Vermont has offered to each member of the winning team including the alternate, a scholarship for one year valued at $225 and each member of the team which loses in the final debate a scholarship valued at $112.50. These scholarships are good for one year.

The subject to be debated is a timely one, "Resolved, That the Federal Government Should Own and Operate the Coal Mines of the United States and Should Control the Distribution of Coal." Either boys or girls may make up the teams, each team consisting of three members and an alternate.

VERMONT SUGAR MAKERS' CONVENTION AT GYM

The Vermont Sugar Makers' Association will hold their thirty-third annual meeting and convention at the University of Vermont Gymnasium on January 12 and 13, 1926, cooperating with the Vermont Dairymen's Association which will be in session at the same time and place for its fifty-sixth annual meeting.

Speakers and other details regarding the convention of the Sugar Makers' Association will be announced later.

C. F. Moran of Jericho is president of the Maple Sugar Makers' Association and M. J. Corliss of Berlin is the secretary.

Robert N. E. Cass '26 has recently received the commission of first lieutenant in Company K of the Vermont National Guard.

The Football Banquet was held last Thursday evening at the Hotel Vermont. At that time gold footballs were presented to the players, and a captain for 1926 was elected.

1925 FOOTBALL HOP SCORES USUAL SUCCESS

Balloons and Bunting Take Place of Crepe Paper Decorations

The Football Hop was held Friday, December 4, with a large attendance. The [illegible] and Gold orchestra with [illegible] and two pianos furnished [illegible] and refreshments were served.

The committee of this year was under considerable handicap owing to [illegible] decorating decorations, but balloons and bunting made the [illegible] very attractive. The fraternities could not have their customary banners because of the new [illegible].

Favors were in the form of [illegible] colored dark brown and [illegible] with gold tassels and lettering. New and startling ideas were made use of in these programs to make them truly emblematic of the football season.

The chaperones were Coach and Mrs. W. J. McAvoy, Professor and Mrs. P. C. Squires, and Lieutenant and Mrs. [illegible] D. Fredericks.

French Universities Need No Cut System

(Continued from page 1)

the exchanges and the living in the French home from which the greatest [illegible] in learning the language is derived. The exchanges are foreign students who will give an hour of French to the student who will give them in return an hour of English.

The points Mrs. Buckham named as a contrast to American universities included little social life, the fact that the professors do not pay attention to those who do not study, and that they do not hurry the students. Examinations are held three times a year, and the student can take them at which ever time he prefers and at the time he thinks himself best prepared.

The many changes since her last trip in 1910 were also noted by Mrs. Buckham, the most striking of which was the number of war memorials found even in the smallest towns. In all the cities she said Rome had probably met the greatest change, being much larger, more bustling and [illegible] less than before the war. Pictures of scenes in Italy and France were passed around, several of which gave an idea about Grenoble. Mrs. Buckham also displayed several samples of Italian handiwork.

Refreshments were served under the direction of Mrs. Rae V. Patten.

PROF. J. E. DONAHUE IS EXPOSITION PRESIDENT

Prof. James E. Donahue of the University of Vermont was elected president of the Champlain Valley Exposition, Inc., by the board of directors following the annual meeting held at the headquarters office of the organization at Essex Junction, Wednesday. Professor Donahue succeeds A. J. Manning of this city, who has served as president during the four years since the organization was first perfected and who asked to be relieved of the duties of the office.

NEW MUSIC COURSES

If enough students are interested the Music Department will offer instruction in piano and possibly in voice and in violin during the college year 1926-1927.

It is important that all students who would be interested should communicate with Professor Bennett at the Music House, 85 South Prospect Street, either before or immediately after the Christmas recess.

THE LATE DEAN H. C. TINKHAM

Christmas Recess Begins Saturday

The dates for Christmas vacation have been changed so that it will begin Saturday, December 19, at 11.20 a. m. and will close Monday, January 4, at 7.30 a. m.

Classes for Saturday, December 19, will start at 7.30 a. m. and will be continuous without the usual intermission after the second period.

No excuses will be granted for anyone failing to attend his first class after the recess.

Forty-three "Honor Students" at Wesleyan May Cut As They Wish

Cynic Presents First of a Series of Articles on the Methods by Which Cutting Is Regulated at Other New England Institutions

In an effort to consider the matter of "cuts" from every angle the Cynic has written to most of the New England colleges and universities asking for details of the systems in force there. Several replies have been received, and others are coming in from time to time.

The results of these inquiries will be given from week to week whether or not they support the editorial stand of the Cynic in the matter. When all have been printed, a summary will be made to show what is general practice and, so far as can be ascertained, how it is working out.

Connecticut Wesleyan

The inquiry addressed to Connecticut Wesleyan has not been answered, and the material presented below is taken from a news story and an editorial in the *Argus* of that college. The news story which follows seems to make quite clear how the system works.

"On the basis of their records at the close of the year students who completed at least one semester of the year 1924-25 have been divided into seven scholarship groups.

"The first three groups include all 'honor' students. The next three groups include those who had 'pass' grades. The seventh group includes students whose work was unsatisfactory. These men are not doing the grade of work required for graduation or for promotion from class to class. New students cannot, of course, be assigned to a group.

"By vote of the faculty, seniors and juniors who rank in the first three scholarship groups, and sophomores who rank in the first two groups will not be subject to the ordinary requirements governing absence from classes. A student may enjoy this privilege so long as there is clear evidence that he is using his time to advantage."

An editorial in the November 19 issue of the *Argus* offers some additional information as to the new system at Wesleyan, and how it is working in its initial stages. This editorial is here reprinted almost *in toto*, and is well worth reading:

"Undergraduates in general have for years been raising a hue and cry against strict faculty supervision of class attendance and clamoring for more individual responsibility.

"It has been argued time and time again that if a student should be allowed to regulate his own time to study according to his own schedule and inclinations and initiative, without definitely regulated and compelled hours for this and that study, and if he should also be permitted to take a greater number of class cuts than was permitted by the cut system, he would not only attend to his college labors, but would even considerably improve his work and gain greater values from college, a more or less obviously desirable thing.

(Continued on page 2)

DANCING, NOVELTIES AT Y. W. C. A. BAZAAR

This afternoon and evening, the gymnasium is the scene of the annual Y W C A bazaar. The fact that the bazaar is an annual event does not mean that its several features are the same from year to year. The present committee has perfected the best of the ideas used previously, and to these has added its attempts to make the bazaar appeal to both the men and women of the University, as well as to faculty members and townspeople.

The list of attractions includes Ryder's orchestra for dancing, a short Masque and Sandal play, an entertainment booth, waffles and maple syrup, oriental articles, bridge booths, bake-shoppe, Christmas gift novelties and a unique grab-bag idea.

There is still opportunity for sophomores who want to scrub for the *Ariel*. Those desiring to work on the editorial end should report to P B Daniels, Alpha Tau Omega House, and scrubs for manager to C. G. Simpson, Phi Mu Delta House.

Professor Gave Facts, But Would He Sponsor Outcome?—Cut System

The CYNIC has often commented upon the reluctance of the average undergraduate to think. It appears, however, that when a subject of sufficient interest is under consideration, a considerable amount of gray matter may be employed in perfecting acceptable ideas.

For instance, an underclassman, believing that we should have a cut system which will not only allow cuts, but encourage them, too, has written to the editor how he believes the matter should be settled.

Since his letter is of much more interest than value, it is published.

"Since the CYNIC has been giving considerable space to a discussion of cut systems, I would like to propose one sure to eliminate any dissatisfaction among students.

"A well-known professor recently told his class, in connection with Armistice Day, that the granting of that holiday by the Council was equivalent to fining each student fifty cents for every class he missed. This figure was based on the number of classes in a year and on the tuition rate. Now the only obvious and just course for the Council to pursue in such cases is to credit each individual with the amount he loses.

"To develop the point further, why not apply this scheme to all cuts? Whenever a man misses a class, credit him with fifty cents. Thus he would lose only what he might have learned, but not his money. Instructors would not be troubled by students answering for absentees, as those present would probably fail to answer even for themselves.

"The cost of a college education could be materially reduced and the poor student would be aided, because, whenever he was short for cash, he could cut classes for a day, and receive two dollars or so from the University cashier.

"There are other advantages in the method, since it would obviate the necessity of attending early morning classes, and would allow ample time for the enjoyment of college life. But the main point that I wish to make is, that it is the only just cut system."

CHANGED ATTITUDE OF COLLEGE TOWARD CITY

Dean Hills Tells Lions of Better Relations Now Between "Town and Gown"

The changed relations between University folks and townspeople were discussed by Dean J. L. Hills of the Agricultural college in a talk before the Lions Club at its weekly luncheon Monday noon.

In olden times, according to Dean Hills, the townspeople and college students and faculty were very antagonistic. This was due more to the attitude of the college authorities than anything else. At that time very little useful studies for the common business man were taught. One graduating class of a few years ago consisted of 25 lawyers, 18 clergymen, 14 teachers, two engineers, two business men and two miscellaneous. Greek, Hebrew, Latin, mathematics and some science were the usual studies taught. In fact one of the older colleges had over its lintel, "Nothing useful taught here."

In late years this has all changed. Colleges are now related very closely with the every day life of the city. The old-type professors with long flowing beards are now gone and in their place are men and women who associate themselves with the better things of the city life and take an active part in bettering the conditions about them. The colleges now realize that they have something more to do than train doctors, lawyers, etc.

A Vermonter was the one who brought about this change. In 1862 Justin Morrill succeeded in getting a bill through Congress establishing Land Grant colleges. These colleges are now in every state in the union and in every outside possession of the

With the Fraternities

Kappa Alpha Theta

Members of the active chapter were entertained at supper last Sunday night at the homes of Dr. Paul K. French, Mr. and Mrs. Benjamin B. Lane, and Miss Mildred Chapin.

Delta Delta Delta

The marriage of Margaret Kennedy ex-'27 and Gerald Sweet of Champlain, N. Y., took place Thursday afternoon, December 10, at the bride's home in Champlain. Iola Bagley, Harriette Metcalf, Loretta Jennings and Margaret Tudhope attended the ceremony.

Pi Beta Phi

The seniors held a party at the rooms last Sunday evening.

Monday of next week a Christmas party will be held at the chapter rooms.

Alpha Chi Omega

A dinner party was given the active chapter by the patronesses of the fraternity Wednesday evening at the home of Mrs. Charles Whitney.

Ina Westover and Mildred Gutterson, both of the class of '25, were in town for the week-end.

PAGING DUMB BELLS!

The freshman who thought that Grassmount sounded like a cemetery

The junior who tried to fly high on the *Ariel*.

The man who said he had a funny sense of humor.

The sophomore who thought Calculus was a slide rule- and slid!

The girl who thought a rifle-barrel was where they kept the guns

The senior who wouldn't take his degree because he was engaged.

The other freshman who flunked his movie course because he couldn't find out when to take the exam

The writer of this foolishness

W. A. A. NOTES

Twenty-nine girls are still on the rifle team and are reporting regularly for practice. The final team will be composed of twenty members.

There seems to be some misunderstanding concerning the requirements necessary for winning numerals. Although included in the 400 required points must be membership on some first team, there is also an award for those who gain 400 points but have not made a first team. In such cases the numerals are inclosed in a circle. All girls, including Teacher Training students, are eligible for this provided they win 400 points.

The Catty Co-ed Says

Holy smoke!
And
Cursed smokers,
Or rather
Smokeresses!
What a time
The radicals
Are having over
You!
Whatcha going to do?
Let 'em
Get gray-haired
And deaf.
Listening for that
Tell-tale cough.
From
The forbidden fag
That went down
The wrong aisle?
Don't let them
Condemn
Us innocents
Who have
But the cough
Of a T. B.-ite.

* * * *

Dear me!
That
Daily Dribblet
Copies
All my morals
And publishes
Them.
No privacy
In this world!

* * * *

What do you
Think
Of a dramatic
Society
What would go
To Rutland
And leave
The goose hanging high
So no one,
Not even
The starving
Belgiums
Could reach it.
But—
Both the
Goose and the cast
Hang high
In our
Estimation.
Weren't
Them twins
Cunning?

AT CHRISTMAS

[illegible] Christmas on our street! The light [illegible] all [illegible] green wreaths hung
Marking each house the same
That passers-by may see and know
'Tis Christmas on our street

'Tis Christmas on our street, and we
Have gaily trimmed the Christmas tree
And hung some holly by the door,
And we are very happy for
'Tis Christmas on our street

'Tis Christmas on our street. But one
Small house across the way has none
Of Christmas trees and holly red
They only know that one is dead
At Christmas, on our street

And when we, laughing, opened all
Our lovely gifts, there hung a pall
Of sadness over that small home
'Tis sad that death must choose to come
On Christmas to our street

I think tonight I'll steal away
To those who mourn, and try to say
My thoughts are with them, that I know
Their dear one must be glad to go
At Christmas from our street

For all the windows blaze with light,
And carols float across the night
And peace has paused and rested here
And God seems kind and very near
At Christmas -to our street.

The Vermont Cynic

Dean Tinkham

"ONE CAN'T MOST ALWAYS SOMETIMES TELL"

WHAT HAVE WE NOW

IS CUTTING EVER JUSTIFIED?

Campus Comment

The World Court

To the Editor of the Cynic

The World Court is a poison pill to drug the U[nited States] And one of the diseases and some of diseases which af[flict] from Europe, to inveigle the States into Europe's broils.

For several reasons the [writer] unable to attend the meeting Mr Sayre spoke. From what I heard the speaker was [right] what he said. I have an [in]respect for a man who [fights] he says even though his [views] not the same as mine. The city was honored in having powerful and convincing [and] easily convincing judging by result of the vote.

However, Mr Sayre's [address] enthusiasm are no reason [why] United States should enter [any] political agreement no matter [how] small, with Europe.

The United States seems to be getting along alright; then why [form] group or association to do or [help] do certain things? We may [be] sured that there are [strings] which will be imposed on [the nation] who enters the World Court.

If Europe is so anxious to [have] World Court to settle its disputes let it go right ahead and have one. The United States has contributed a great deal to the happiness and well-being of the world and it does not seem possible that she can do any more by tying herself to any World Court.

Let the rest of the world [prepare] war, and they will find the United States ready and willing to do the same. This is not a warring nation. History in the public schools has taught us that the United States is not ambitious for new territory. If any ambition one will find in Europe in the breasts of some individuals who aspire to personal glory at the expense of a gullible people.

The safety valves in the [Harding] plans are very pleasing, but the danger signals are not pointed out strongly. Here are a few of them. Settle the boundary disputes between Czecho-Slovakia and Italy, France and Germany, France and Italy. It would appear from the exemptions in the three plans that there isn't much for the United States to do but look on. Well, the United States can look on without participating in the World Court.

I do not see anywhere in the [plans] where the United States can withdraw when she feels like it. Why? She can after five years if international law is not codified. Ridiculous condition to make. Europe would see that the codified law would come into existence within five years.

The World Court for the United States is an infecting poison which will lead to an incurable disease.

I am for the fourth proposal. The Cynic has made it evident that it is for the World Court, but that does not prevent it from remaining the students' organ, through which they may express their opinions.

J. P. D.

Court under the Harding-Hughes reservations, although a majority do favor this. It shows how many students have stood upon their own feet and refused to be swept away by the campaign for the Court while the Cynic differs with them it respects them for voting as they believe. The poll shows more than anything else that an honest, free expression of opinion cannot be secured at a convocation.

Dean Henry C. Tinkham

...given few men to shine in so
...different fields as were adorned
...the helpful life and distinguished
...of Dr. Henry Crain Tinkham,
...the College of Medicine of the
...of Vermont. In a land of
...democracy, where the only nobility is
...of character, he was a veritable
...among men.

This is true whether you think of Dr. Tinkham in his profession or in his citizenship, or in his many-sided activities as a man. As an eminent surgeon as a skilled physician, as an efficient and popular educator, as a successful administrator, as a man of broad and generous impulses who gave without stint of his time and money to every worthy cause, as a loyal and devoted supporter of church activities, as champion and exemplar of outdoor life and lover of nature, as an enthusiastic son of the Green Mountain State glorying in its leadership to which he helped so signally to contribute, he stood in the van, and was respected and loved accordingly.

Dean Tinkham was one of the most delightful of men to meet. His boundless fund of good humor and his generous spirit were proverbial. His admirable qualities made him as popular with the general public as with his patients and students in the lecture room. He radiated good will among men, and his spirit of buoyant, healthful wholesome optimism made itself felt in all directions.

One of the consuming passions of Dean Tinkham was his faith in Vermont and its manifold opportunities. His whole life and all of his activities exemplified that belief in the state of his nativity. Having received his early education in the schools of his native town of Brownington and the Derby Academy, he believed in our common schools. A graduate of the College of Medicine of the University of Vermont in the class of 1883, he was always loyal to Alma Mater, and zealous in promoting her welfare in every possible way. His pride was in keeping every educational activity with which he was connected in "the distinguished class."

When an attempt was made by national organizations to abolish the smaller medical colleges to promote a single large medical center for New England and so on in other parts of the country, his zeal and activity contributed in no small degree to the retention of Vermont's College of Medicine.

Dean Tinkham believed in the potential development of Vermont's soil along profitable lines of specialization and diversified cultivation. He was an enthusiastic champion of the apple for Vermont cultivation and those who drive on Shelburne road are invariably forced to admire the large young orchard he developed associated with G. L. Pease. He was also a thorough believer in fine gardening.

Like Senator Carroll S. Page of whose varied activities in public life and individual service we spoke yesterday, Dean Tinkham furnished a splendid example for Vermont youth by demonstrating the opportunities for business and professional success here amid our green hills and beautiful lakes and our glorious sunsets. Indeed Dean Tinkham himself was an unfailing source of sunshine, even when his own health was impaired. We shall prefer to think of him still as the magnetic personality that was always bowered amid the blossoms of brotherly kindness and helpful service.—*Free Press.*

WHICH is the real *you?* Where lies your fundamental aptitude? What work will call forth your ability and enthusiasm?

The individual is often too close to himself to get the answers to these questions. He will do well to secure the opinion of some impartial critic who can view the problem in perspective.

The industrial representatives who visit your college can give such a judgment. They have had broad experience in helping men to find themselves.

In particular can the representatives of the communication industry fit the man to the work because of the wide diversity of work in that industry. Whether your ability is in scientific research, in purchasing, in manufacturing, in finance or in selling, you can find here your opportunity to help carry this great art to greater heights.

Do College Students Insure Their Lives?
The Answer Seems to be "Yes"

Do You Know

That in a test recently made with upper-class students of both sexes in fourteen representative colleges, 140 out of 351 said they carried life Insurance policies?

It is significant that 40% of undergraduates have insurance on their lives—a notable advance over what prevailed twenty, or even ten, years ago. This shows that college students and their parents think life insurance is of considerable use in connection with the educational program.

Parents believe in it because they have something invested for the benefit of their children. Students realize that their lives have an economic value.

The John Hancock is particularly interested in insuring college men and women and in obtaining college graduates for the personnel of the field staff.

New Talent Shows Up Well in College Play

(Continued from page 1)

who cause some trouble, then go to work and save the family, have prominent parts, although the parents, Mr. and Mrs. Ingals, carry most of the burden of the piece.

Henry Conlin and Eleanor Chapman as Mr and Mrs. Ingals portrayed these middle-aged characters in realistic and natural manner. The twins, played by Eunice Cook and Roger Allbee, were two of the most outstanding characters in the play. Harriet Elliott did some good impersonation work as the grandmother. Ovid Pardy and Evo Lucchina, as two politicians, had little actual time on the stage, but their presentation of these rather difficult parts were excellent. Anna Perkins, as Mrs. Murdock, a family friend, and Benham Phelps, as her son, made the most of their rather short time on the stage. Both were admirably fitted for their parts.

Whitney Safford as Noel Derby, and Dorothy Cottrell as Rhoda, the family servant, had little opportunity for a display of dramatic ability, but they added materially to the effect of the play.

Robert Costine as Hugh, and Janet Twitchell as Dagmar Carroll, his fiance, were well cast. Costine had a part that was at times very difficult, and he, no less than the twins, was of vital importance to the story of the play.

The Burlington appearance took place following a presentation at Rutland, Tuesday evening, at which there was a good attendance.

... orchestra ... last Saturday ... enthusiastically received by a large audience of students and townspeople. The type of popular music rendered by this orchestra is far above the ordinary conception of contemporary jazz, and the progress made by Mr. White ... was a pleasant surprise. His avowed purpose is the revolutionizing and uplifting of the modern popular music, and this concert showed that he has gone far toward such an achievement. Among the best selections were the "Circus Day Suite" and "Mississippi," which was composed by Mr. White man's leading arranger, Grofe.

Let me explain—
"Bernie"
TEL. 98

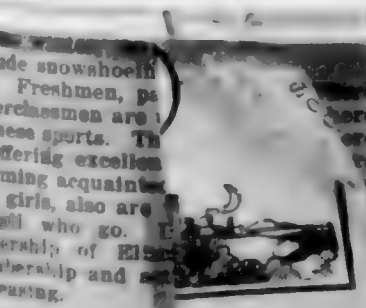
When the orchestra stops its surge of music—and the applauding couples begin to leave the floor—when you join the good fellows for jolly talk and friendship
—have a Camel!

Camels contain the very choicest tobaccos grown in all the world. Camels are blended by the world's most expert blenders. Nothing is too good for Camels. In the making of this one brand we concentrate the tobacco knowledge and skill of the largest organization of tobacco experts in the world. No other cigarette made is like Camels. They are the overwhelming choice of experienced smokers.

WHEN the orchestra gives you encore after encore, but finally stops. And the couples glowing with happiness reluctantly leave the floor. When you join the men for jovial talk until the next dance begins—*have a Camel!*

For no friend so enhances the joys of life as Camel. Camel makes every happy occasion happier, adds its own charm to every festive day, every blithesome evening. Camels contain the very choicest tobaccos grown in all the world. They never tire your taste, no matter how freely you smoke them. They're so skilfully blended they never leave a cigaretty after-taste. Rolled into Camels is every good feature you have ever wished for in a cigarette.

So, when you're waiting happily and confidently for your time to rejoin the dance—taste the smoke that's known and loved by the world's experienced smokers. No doubt about it, you'll never know how good a cigarette can be until you—



Have a Camel!

Our highest wish, if you do not yet know Camel quality, is that you try them. We invite you to compare Camels with any cigarette made at any price.

The Frost Year will be presented by college talent at the gymnasium Assembly evening December 16. It is a comic tragedy of married life and is being coached by Prof. I. T. Metcalf. Charles Blackall '27 is the assistant. The object of giving the second play so soon after the other one is to stimulate interest and enthusiasm in dramatics among the students.

The second annual short course conference of Vermont dairymen was held Tuesday, Wednesday and Thursday in Morrill Hall and was in charge of Prof. H. B. Ellenberger. About 30 men attended and discussed refrigeration storage and the manufacture of ice cream. A conference on the quality of ice cream was held in the New Sherwood Hotel Tuesday afternoon.

[illegible] will be published in the New Student and will be [illegible] to the entire college. [illegible] of the question [illegible] which will be published [illegible] issue.

VOLUME [illegible] BURLINGTON, VT., DECEMBER 19, 1925 NUMBER 1[illegible]

EIGHT SOCIETIES HOLD CHRISTMAS DANCES

Evening Before Holiday Is the Time of Formal Dances Among Majority of Fraternities

[illegible] held Christmas [illegible] and one fraternity [illegible] this evening.

[illegible] held its dance at [illegible] Club. Music was [illegible]'s Orchestra. The [illegible] Professor and Mrs. [illegible] and Mrs. L. W. Dean, and [illegible] E. Garrity.

[illegible] house was the scene [illegible] dance, which was chap[illegible] Professor and Mrs. R. R. [illegible] and Mrs. R. E. Holway [illegible].

[illegible] Sigma dance was held [illegible] house, with music by [illegible]'s Orchestra. Dr. and Mrs. [illegible] and Mr. and Mrs. F. Prisley [illegible] chaperones.

[illegible]'s Orchestra of Barre played [illegible] Phi Delta Theta dance at the [illegible] house. The chaperones were [illegible] and Mrs. H. A. Mayforth.

[illegible] Sigma Alpha Chi dance was [illegible] at the Chapter house. Professor [illegible] Mrs. A. B. Myrick acted as chap[illegible] and Kenyon's Orchestra was in [illegible].

[illegible] Green and Gold Players fur[illegible] music at the Sigma Nu Lodge. [illegible] chaperones were Capt. and Mrs. [illegible] B. Lammons, and Mr. and Mrs. [illegible] Howe.

[illegible] Delta held a dance with [illegible] Rider's Collegians. The [illegible] were Mr. and Mrs. V. R. [illegible] and Mr. and Mrs. L. E. Samson.

[illegible] Zeta Chi dance will be held this [illegible]. Professor and Mrs. D. B. [illegible], and Prof. and Mrs. B. C. [illegible]glas will chaperone. Lechnyr's [illegible] Orchestra will furnish music.

"FIRST YEAR" GIVEN BEFORE GOOD AUDIENCE

The Wig and Buskin and Masque [illegible] Sandal societies presented their [illegible] play of the season, "The First [illegible]" Wednesday evening in the Gym[illegible]sium. This play, which was en[illegible]thusiastically received by a good [illegible] audience, had a cast of characters en[illegible]tirely new to college drama, among [illegible] are a number who give much [illegible]promise for future presentations.

[illegible] play is a comic tragedy built [illegible] about the adventures of a young mar[illegible]ried couple, Dick Loring and Grace [illegible]ngston, the parts being played [illegible] Francis Jones '28 and Dorothy [illegible]ng '29, who left no doubt as to [illegible] ability to play these central [illegible]. H. E. Southworth '27 and [illegible]' Perelman '29 filled the parts [illegible] young wife's parents in a man[illegible]ner true to life.

[illegible] Withrow '26, in the part of Dr. [illegible]erson, Ralph Stevens '28, in the [illegible] Thomas Tucker; William Lock[illegible]ard '27 and Rosalie White '29 as Mr. [illegible] Mrs. Barstow; and Mathilde Uchim [illegible] as Hattie, completed the cast and [illegible] their parts most creditably.

[illegible] credit for the success of the [illegible] is due to the efforts of Professor [illegible], who acted as coach.

PROMOTIONS RECEIVED BY R. O. T. C. SENIORS

[illegible] following promotions have been [illegible] by the University of Vermont [illegible] T. C. Battalion:

[illegible] Captains: 1st Lieutenants [illegible]. R. R. Valley, M. Katz, [illegible]. C. M. Wallis, D. R. [illegible] L. Tracey.

[illegible] Lieutenants: E. C. Abbott, [illegible] J. H. Lewis and W. J. [illegible].

[illegible] class meeting will be [illegible] first week after va[illegible].

W. J. HERRON '26 TO LEAD DEBATING TEAM

At the varsity debating tryouts Wednesday, W. J. Herron '26 was chosen as leader. The team will be filled out by two others, to be chosen by a trial debate, from F. W. Guild '26, E. C. Mower '27, J. J. O'Connell, Jr. '26 and C. H. Wedell '27. S. B Heath '26 will serve as alternate.

RIFLEMEN WIN FROM UNIVERSITY OF MAINE

The Men's Rifle Team won its first match with the University of Maine recently by a score of 490 to 478. The result was officially announced late last week. The first match was fired from the prone position.

Johns Hopkins' crack rifle squad defeated the team in its second match last week. The match was fired from four positions, prone, standing, kneeling and sitting. The Baltimore college scored 1865 to Vermont's 1808.

C. C. N. Y. emerged at the long end of a 1924-1808 score, also a four position match.

A. R. Hill '27 of Winooski is acting captain of the men's team during the absence of Capt. Allen, who is ineligible.

THINK YOU'RE FUNNY? PROVE IT FOR $500!

The December issue of *Vanity Fair* announces a College Humor contest which is to be held under the auspices of that magazine. "There are, doubtless, in our colleges hundreds of young men who have something amusing to say about their environment, young men with literary ambitions who might be glad to write for *Vanity Fair*. We want to find them. We are not looking for solemnly serious treatises which might be submitted for a Ph. D. thesis, but for articles which will evoke laughter from our readers whether undergraduate or alumn

The first award is $500, the second $300, and the third prize, $200.

It is suggested, though not demanded, that contestants select as their subject some phase of that life with which they are actually in contact at the time of writing, rather than a topic which is unrelated to collegiate atmosphere. With the exception of prohibition and drinking, there is no limit put upon the subject matter. *Vanity Fair* admits being fed up with articles on these subjects.

A summary of the rules of this contest follows:

Each entrant must be a member, in good standing, of an American college or university. No special students or students of post-graduate departments are eligible. Each entrant may submit one, or not more than two, essays or articles, preferably related to some phase of undergraduate life, such as athletics, living expenses, social activities, proms, professors, clubs, students, and studies. Articles will be judged by the following standards. (a) humor, (b) style, (c) taste Articles must be between 1,000 and 2,000 words in length, 1,700 words would be considered ideal. Articles must be typewritten, on one side of the paper only and double spaced. Each article must be signed with the entrant's name, address, college and class year. Articles must be in prose No verse or illustrations will be considered. All articles must be received by the editors not later than noon, February 1, 1926. Manuscripts will not be returned. All articles must be the original work of the competitor and must be hitherto unpublished.

The editors reserve the right to purchase, at their regular rates, such manuscripts as they may think particularly suitable, even though they have not been awarded prizes.

Special Student Train Saturday

Arrangements have been made for a special train to leave Burlington at 12 o'clock Saturday noon for the benefit of students only.

This train will go over the Central Vermont line to White River Junction making but one stop, at Montpelier Junction. At White River Junction connections can be made for Massachusetts, Connecticut, New Hampshire, Rhode Island, and Eastern Vermont.

It is requested that those desiring to take this train leave their names in the Book Store, in order that those in charge may know how many must be accommodated.

A Junior class meeting was held Friday, December 18, at which several matters pertaining to the *Ariel*, were brought up.

Student Conference on World Court Results in Permanent Organization

Representatives of 245 Institutions Endorse World Court—Racial Issue Enters—Darrow, Lenroot, and Other Good Speakers

The most representative gathering of students ever held in the United States met at Princeton last week to consider the question of American participation in the World Court and the formation of a permanent national student organization. Representatives of 245 colleges and universities from Maine to California and from Florida to Colorado took part

The Conference went on record overwhelmingly as favoring the adherence of this country to the World Court, under the Harding-Hughes-Coolidge reservations. Only four colleges were against adherence on any terms, but many favored the Harmony Peace Plan, while a few proposed that there be no reservations at all

The constitution for a permanent organization was adopted, and officers chosen. The action of the delegates in this, however, did not bind their institutions to adherence to the organization

LENROOT VS. DARROW

The opening session was most notable for the "debate" between Senator Irvine L. Lenroot of Wisconsin, a member of the foreign relations committee, and Clarence Darrow, defender of Loeb and Leopold and counsel for the defense in the famous Scopes trial

Lenroot gave an interesting and scholarly analysis of the World Court and met the arguments of opponents Darrow devoted an hour to witty sayings and to sarcastic references to the uselessness of all the "fuss." Darrow gave his alibi in advance, admitting that he knew little about the Court, and lived up to the alibi by failing to make the most of those arguments which may validly be advanced against the World Court, attempting to sway his audience by his wit

President John Grier Hibben of Princeton and Lewis Fox '26, chairman and originator of the idea of the conference both spoke briefly. President Hibben welcomed the delegates and expressed his support of the conference, denying that it was in any way intended as propaganda, while Fox, speaking on a high ideal plane, expressed his belief that the gathering was a signal that American youth is insurgent and demanding a change declaring that youth would no longer be subservient to party leaders.

ROUND TABLE DISCUSSIONS

The Saturday morning session took the form of round table discussions of various phases of the World Court problem and of matters pertaining to the promotion of world peace, under the leadership of statesmen, educators, and men of prominence in similar fields.

In the afternoon a lively session was held for about two hours and a half, culminating in instructed and personal votes on the World Court and on the several plans for reservations.

On the first ballot, the delegates voting according to instructions from their colleges, 140 favored the Harding-Hughes-Coolidge reservations, 16 favored entrance without reservations, 16 entrance under the Harmony plan, and four were opposed under any conditions.

Expressing personal preference on a later ballot, 193 favored entrance under the Harding-Hughes-Coolidge reservations, 12 entrance without reservations, ten were opposed to entrance under any plan, and nine favored the Harmony plan.

Owing to weak chairmanship, the afternoon session and most of that of the evening wasted much time in bickering over small points, and in votes in which the points at issue were

(Continued on page 5)

Middlebury Has Strict System of Regulating Absences and Tardiness

Three absences per course each semester are allowed at Middlebury College, with three cuts per semester from Sunday chapel and ten from week-day chapel. In addition to these allowed cuts, for which no excuses need be presented, excuses for absences are granted only for the following reasons:

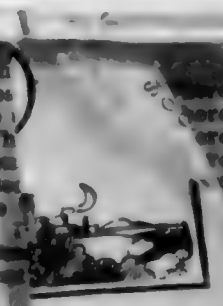
Work, when scholarship will warrant and when permission is secured in advance.

Illness, if the medical director attends and the student furnishes a satisfactory certificate.

Participation in athletics, or in dramatic or musical programs given by recognized student organizations, provided permission is obtained in advance by the student or by the manager of the activity.

Illness, at home, or similar emergency, provided permission is given in advance by the dean.

Tardiness, which counts as half a cut, if caused by necessary outside work.



If any student exceeds his allowance of unexcused absences in any course, the passing grade will be raised to 70 per cent. for the first succeeding unexcused absence and to 80 per cent. for the second. When the passing grade has been raised twice in any course, or once in two courses in a semester, the student will be suspended unless the dean recommends his continuance, and if the offender holds a scholarship, it will be forfeited for the semester.

In case the student's physical condition is responsible for his being unable to do the required work, he will be asked to withdraw from college. Charts are posted each week showing each student's standing as to absences during the week, and a limited time is given for adjustments to be made.

A student leaving a recitation or lab before half the period is over will be debited with a cut, or if the period is more than half over, with half a cut.

In this system the only attention paid to the scholarship of the student is what may be given in modifying penalties and in making exceptions to the rule for suspension.

[illegible] include snowshoeing. Freshmen, [illegible] upperclassmen are [illegible] in these sports. ... and socks for Dad,
... pen for Brother Bill,
... Sister, some new fad,
... for Aunt Hannah,
... for Uncle Tim,
... ren or a teddy-bear
... Cousin Tim.
... my list is all complete,
... something for each friend—
... in my purse, I find, alas!
... cents to spend.

THESE GIRLS READ THROUGH THEIR SKIN

... times there had come to the ... of Jean Labadie, noted ... scientist, the cases of men and ... who claimed the uncanny abil... seeing while blindfolded; and ... case the claimant had proved ... fraud. So it was with two ... of salt that he read, a few ... ago, the report of a young ... of Paris who demonstrated the ... power which scientists call ... vision."

... case, however, a group of ... in the Paris hospital had tes... that the young woman actually ... able to read through the skin of ... with her eyes covered. If ... a fraud, she must be clever, ... decided, so he got permission ... her himself.

... took the utmost precautions to ... eyes. Then he went into a ... room and with his hands inside ... tore off at random a sheet ... calendar pad. Without seeing this ... for he wanted to do away ... possibility of unconscious ... he showed it to the young ...

"... do you see?" he asked.

"... sheet of a calendar," she ... "It is the 29th of July."

... looked at the paper. To his ... she was right.

... he took a small wooden box ... the lower half of one ... the lid he attached an elec... so that it illumined a play... and that on the bottom of this box before the ... so that her bandaged ... on a level with the bottom ... Any light rays from the ... not possibly reach her eyes ... time.

"... anything now?" Labadie ...

... playing card—the three ...

... was right. Seeming... explanation was that she ... card through the skin of ...

... deedly interested. La... similar tests to three ... 13 and 14 years old, ... southern France, who ... to have even more re... ...ers. He found they ... ...ges of books opened at random, thread needles, and detect colors of cloth without using their eyes.

How was it done? Labadie does not pretend to know, says *Popular Science* monthly. He does not believe, however, that there is necessarily a special organ of paroptic vision in the skin. It is merely some peculiar sensitiveness of the skin nerves, which receive impressions of light and convey them to the brain in the form of definite images.

The modern co-ed can't hope to win her boy friend by just saying "Good night" when they part, says Professor Luebke, head of the University of Denver English department.

Nor is "Um-m baby!" sufficient repartee for the college man on romance bent. "Each must have a command of English so as to express his thoughts and sentiments." Professor Luebke's unique and subtle advertising seems to be effective. His English classes are crowded.

Horseback riding classes are given at the University of Oregon. More than thirty-five girls are enrolled this term.

Of All the Noive

Y. W. C. A. BAZAAR IS A POPULAR SUCCESS

The bazaar held last Saturday afternoon and evening at the Gym for the benefit of the Y. W. C. A. was very well attended and declared a financial success by those in charge.

Attractive booths for food, fancy work, candy and Chinese and Indian brass were well patronized, as was the ever-popular Santa Claus Grab Bag.

Waffles and syrup served in the tea room proved a great attraction.

Entertainment in the afternoon consisted of a clog dance, a violin selection and a Spanish dance in costume. In the evening a fashion show was presented. Later Paul Rider's Orchestra furnished music for dancing, which lasted until midnight.

BLUE STOCKINGS PARTY WELCOMES NEW MEMBERS

A Christmas Party was held at Redstone, Tuesday evening, December 15th by the members of Blue Stockings. Entertainment was furnished and refreshments served. The following new members were welcomed: Lillian Avery, Irene Bates, Eunice Cook, Virginia Margie, Catherine Courtney and Florence Smith all of the class of '27.

TABLE TALK

"I simply don't know what to buy for Jean; she has *everything*."

"I haven't a cent, not even a blank check. If Dad doesn't send my carfare, special delivery—"

"And I told him I couldn't possibly make up all that work before vacation. Doesn't he think I have any other work to do?"

"Could you possibly lend me forty cents for a haircut?"

"Well I had promised to go to the dance with him and to the one Monday night with Bob and now they're both coming Friday night. I don't know what to do."

"I don't have any Saturday classes. I can go home Friday night! Some one's always taking the joy out of life!"

Frosh Attention!

The order is issued from the class of '28 for the Freshmen to discontinue wearing the green bands. Of course we realize that the percentage of Freshmen who have been wearing the band is very low, and it is to these Freshmen that the order goes. As for the majority of the class, there is nothing to be said. We appreciate the spirit of sportsmanship shown by the minority.

With the Fraternities

Delta Delta Delta

Delta Delta Delta announces the initiation of Vera Doyle and Edith Gale, both of the class of '28. Following the initiation, Wednesday evening, a Christmas party took place at the home of Beatrice Herberg '26.

Pi Beta Phi

A Christmas party was enjoyed by the active chapter at the rooms, Monday night.

Alpha Chi Omega

Monday night a Christmas party was held at the rooms. The alumni presented the active chapter with a set of silver spoons. The alumni present were Doris Cidwell, Olive Eddy and Martha Leighton.

Phi Delta Zeta

Phi Delta Zeta announces the initiation of Marion Thrall '28 following a Christmas party, Thursday evening.

Monte Carlo—Rouging the fingers around the extreme edges of the nails is a fashion borrowed from the East that is gaining women's favor here. On a beautifully manicured hand this touch of color is most effective. It has been resorted to by a great many players in the Casino, whose hands are always within view of the other devotees at the table. The fingers must be touched up rather frequently or they become streaked and take on a washed-out appearance.

Paris—Because his proposal that mixed bathing be allowed in the municipal swimming pools has been rejected, Councillor Rene Fiquet is denouncing Parisians as both "too prudish and too old-fashioned." The first shock of the councillor's suggestion is wearing off and in some quarters he is getting quite a little support. With his project he is now linking up the problem of France's falling birth and marriage rate, advocating mixed bathing with careful supervision as a means of making young people acquainted. "This would be better than having them meet in low dance halls," is his contention.

WOMEN'S STUDENT UNION DISCUSSES STUDENT RULES

At the last meeting of Women's Student Union before Christmas vacation, which was held Saturday [illegible] other innovations [illegible] to the present rules were brought up for discussion. There has been considerable misunderstanding of some of the rules, and dissatisfaction with others, which make a change seem necessary.

The question of what is meant by special privileges after two o'clock, the time when students should be in after evening social functions and the question of eating downtown after ten o'clock, were discussed. At the next meeting action will be taken and the rules changed if the majority seem to desire it.

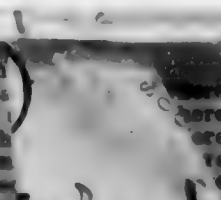
Milwaukee, Wis.—American women are losing their beauty and intelligence will be next to go as beauty and intelligence go together, Albert E. Wiggam, biologist and author of New York told the Wisconsin Teachers' Association recently.

The expression, "beautiful but dumb," as applied to women, is nonsense he said. A thousand beautiful women have more intelligence than a thousand homely women, he declared, adding that there are exceptions "both ways."

"The more intelligent beautiful women are allowing the less intelligent and less beautiful to have nearly all the children. If it keeps up the next generation will be both homely and dumb," Mr. Wiggam said.

Paris—Permanent swirls are now to the fore. The permanent wave has been discarded and all fashionable hairdressers are advertising the swirl.

This new style in curliness is especially in demand among women with square heads and phrenological humps which do not lend themselves to the lines of beauty which artists and modistes are always striving for.



Skillful hairdressers can place the hair permanently in upward curves and conceal neck and headlines which do not harmonize with prevailing modes and is regarded by many fashion experts as the first step back to long hair.

DAY LABORING FOR EDUCATION

The description of the cut system at Middlebury was not chosen for this week with any particular object in view, but it offers excellent illustration of the sort of system which appears to be in vogue, lacking out of accord with the purposes and functions of the education system.

It points out with perfect clarity the emphasis upon education that of the instructor who teaches "by the hour" or "by the day." It says, in essence, that education is handed out in packages and that he who is not on hand to receive his package on a particular day has lost permanently a portion of what he is in college to acquire.

It is the viewpoint of the instructor who looks in the uttermost mind that nothing in the field of his subject or course shall be so trivial or of so much importance as the lecture he is presenting at that particular period or the response to the questions he wishes to ask.

It is the viewpoint of the instructor who takes for granted that every man and woman enrolled has come to college to get away with as much as possible and that such education as is acquired by the student must be hammered home like a thrust by force or with the threat of force pricking him at every effort.

It is a viewpoint which takes no account of anything but the fact that a particular subject is offered three or four times a week for approximately thirty weeks a year with certain questions asked and perhaps answered and certain lectures delivered.

It is the viewpoint to reproduce a prescribed paragraph with a number of platitudes as children to be learned by rote, parrots and dummies, and

Now the Court is attempting to ... the possibilities of a repetition ... shameful events of 1914-1918. ... Court is trying to create peace ... good will amongst men, it is to ... welfare: it is our moral obligation ... and help the Court carry out ... purpose.

This matter of obligations has led ... to quote again from this same ... He says, "We may rest assured ... there are obligations which will ... imposed on each nation which ... the World Court." I most ... agree with him. Are we, the ... nation on earth, afraid of ... obligations to which England, ... Italy and many others have ... submitted themselves?

... our moral obligation, now, to ... maintain peace and to make this earth a place fit for man to inhabit and, "we may rest assured that," after we join the Court, our obligation will still be to help create peace and friendship amongst nations. I do not feel that we should shrink from such obligations.

The writer does not seem to realize that improved methods of transportation are changing this earth from several communities into one single community. Whether nations will it or not, they are being drawn closer and closer to each other.

To maintain peace and order in this community we must—like any community—have law and a court to interpret that law. The World Court is functioning in this capacity. This Court is not a novelty; I even believe that its experimental stage is passed, and that now as never before it is an absolute necessity for the peace of the world; for the progress of civilization; for the uplift of mankind.

L. R. P. '29

The Irish Ballot

To the Editor of the CYNIC:

In order that one may be able to understand clearly the meaning of my subject, it is necessary to repeat a certain paragraph "in toto" which appeared in the December 12 issue of the CYNIC, regarding the college vote in the matter of the United States entering the World Court

"Probably the hardest ballot to classify was that in which a member of the 'Sein Fein' Party, whose sex was given as 'Irish,' voted against the Court. The ballot clerks were undecided whether pugnacity or feminine pulchritude was the distinguishing feature of the Irish, but finally decided upon the former and listed the vote with the non-partisan view, although there was a question as to whether an Irishman would ever be non-partisan with an argument going on."

As a disinterested party regarding the World Court problem, but as a *very* interested party regarding "*the Irish*," I deem it my duty to briefly criticize this very crude bit of "humor"—perhaps 'twas mentioned to create a slight titter or even a boisterous laugh to relieve the monotony of these trying days before vacation, or then again, perhaps that writer has an undefinable gift of wit which he wishes to be "appreciated." Whatever the reason, it is of a class to be found in some cheap comic magazine and not in a university weekly.

Those "undecided ballot clerks," who no doubt were "College Freshmen," could easily have reached a decision by placing Irishmen as Progressives!

W. J. M., M. '29

Sidelights on the Conference

More than one delegate to the Princeton conference was much disappointed with Clarence Darrow. An undeniably bright man, he rather overemphasized the personal appeal and the satirical attack upon those who ventured to disagree with him, and it was generally agreed that he failed in an hour's talk to advance one argument against the proposition he was supposed to be opposing.

Princeton University and its clubs, which are its substitutes for fraternities, extended a splendid welcome to the delegates, and did everything possible to make them comfortable.

It is very probable that with stronger chairmanship the conference could have avoided the bickering which featured both sessions Saturday. The mistake was made of importing a chairman for the afternoon session from Union Theological Seminary, who lost control of the meeting early and did not seem able to reassume control—perhaps because he tried to handle a meeting of nearly 300 delegates without parliamentary rules. In the evening Fox again erred in allowing the chairman of the constitutional committee, who did not appear to know parliamentary practice or to have any experience in conducting a meeting, to start off the meeting and to continue his chairmanship until the damage was irreparable.

The report in the news columns does not attempt to do more than give a very bare outline, for space permits no more.

It appears that, the conference as a whole having agreed to adopt the constitution presented, it is assumed that all the delegates decided to accept the organization.

I do not feel, however, that the University of Vermont should affiliate at this time. While the aim of the movement is worthy, and I open myself to attack as a reactionary "moss-back" who is not willing to give the movement a chance, etc., etc., it seems to me that the graduation of President Fox will mean the end of the organization as a national movement, and that if it survives more than one or two years, it will be to all purposes an organization of a few such institutions as Princeton, Harvard, Yale, Dartmouth, etc., in the East, and Ohio, Michigan and Pennsylvania in the Middle West, with a little fringe of other institutions hanging on through inertia or desire for publicity.

One feature to which I take exception is the amendment passed without discussion and almost unanimously that the student bodies shall have the final voice in the selection of delegates to future conferences. This arose from the refusal of the President and faculty of C. C. N. Y. to allow Editor Cohen of the college paper to represent the student body, after he had shown the utmost disrespect to the President and the administration. Cohen appeared at the conference and was given a seat, and the amendment was adopted to govern future cases of the sort.

No such conference as this can undertake to disregard entirely the administrations of the institutions which are to be represented. The ideal of student independence is inviting, but the details of the particular instance do not encourage confidence in this application of the principles.

There will be withdrawals of southern institutions which will take offense at the high-handed "Get to H—— out" offered to the Louisiana representative; there will be withdrawals of northern institutions offended by the necessity of compromise with racial prejudice; there will be withdrawals of various institutions who feel, as I do, that the organization threatens to deteriorate into an organ of student radicals and pacifists. Many institutions made a special effort to send representatives hundreds or thousands of miles for the gathering but the interest which prompted this will not last. And so I feel that some few of the larger, wealthier institutions will gain entire control of the organization very soon and that all but a fringe of satellites will drop out.

This recommendation, that the University of Vermont should not join the organization, I shall make at the next meeting of the Student Senate. I shall be pleased to give any further information desired, and any who feel that the University should join should offer their arguments to any member of the Senate or to that body at its next meeting.

S. BURTON HEATH, *Delegate*

Conference on World Court Results in Permanent Organization

(Continued from page 1)

... understood or were not sharply ... divided to allow of intelligent ...

RACIAL ISSUE ENTERS

The racial question nearly broke up the conference at its final session Saturday evening, after a woman delegate from Howard University (negro) had defeated a white delegate from Louisiana State University for representative of the South on the Executive Committee.

The meeting, after many words and over three hours in session, was nearly over and most of the delegates were half asleep, slouching in their chairs wishing for adjournment, when the delegate from Louisiana arose and announced the withdrawal of his institution as a result of the election. His resignation was accepted without discussion or thought. Chairman Fox evidently feeling that such an amendment was the vital question of the moment.

Later, however, the question was brought up again, and after heated debate and several threats of withdrawal if this or another course of action was followed, was solved temporarily by the decision to have two representatives of each section on the executive committee, with the understanding that one from the South should be white and one colored.

Herbert S. Houston, member of the American Committee of the International Chamber of Commerce, and Dr. George E. Vincent, president of the Rockefeller Foundation, gave unusually fine addresses before the evening session.

OFFICERS CHOSEN

Lewis Fox of Princeton, through whose efforts the conference was made a reality, was chosen president of the permanent organization, and P. S. Green of the University of Georgia, vice-president. Other officers elected were Miss Margueretta Fleming of Ohio State, secretary; John Elliott of University of Michigan, treasurer, Miss Eleanor Mason of Wellesley and Fred Field of Harvard, New England representatives on the executive committee.

The executive committee met Sunday afternoon and passed several resolutions which had not been presented to the conference, reported in an Associated Press dispatch to include one urging that "artificial social standards, as evidenced both in over-emphasized fraternity life and in discrimination between individuals on bases other than individual worth," should be done away with in educational institutions, urging greater exchange of students between eastern and western universities on visiting scholarships; and advocating that the present arrangement of exchanging students with European institutions be amplified. The committee also urged a campaign to oppose the idea that the athletic stadium is more vital than the classroom which it said was widespread in American institutions.

The University of Michigan was chosen as the scene of the next conference, to be held next fall.

MC GILL BASKETEERS APPEAR HERE JAN. 5

University Quintet to Play N. Y. U. at New York, Union College at Schenectady

After a [illegible] rest Coach Mac's [illegible] and Gold basketeers entertain [illegible] in the home court for the first [illegible] following the Christmas vacation.

All followers of this sport look forward each year to the McGill game, which is one of the cleanest and hardest fought games of the schedule. The visitors are always a clean bunch of athletes that display a fast, clever type of basketball. Their appearance is looked forward to this year with no little amount of interest.

Reports from Montreal are that the invading quintet are quite up to the standard of those of past seasons, and possibly a bit better. Vermont had little trouble with them last season, defeating them by a safe score, and should repeat this year.

With "Doc" Marvin back in the lineup at center moving "Bunny" Prentice back into a forward position as a running mate for Captain Post, the team should be balanced up at its best and at full strength following its rest.

"Mike" Katz and "Kicky" Price will ably handle the back court and the McGill players will have to extend themselves to score upon this pair of stellar guards. Prentice, Post and Marvin should constitute the necessary scoring combination to chalk up another victory for Vermont.

McGill has not played any noteworthy games as yet so that the comparative strength of their team is little known, yet we can safely anticipate one of the most interesting games of the season when the team goes up against this aggregation.

After playing the fast McGill outfit here on the 4th of January, the team leaves for York State on the first trip of the season, meeting New York University in the metropolis, January 5, then journeying up to Schenectady, where it is entertained by the Union College five the following night.

N. Y. U. has been one of the strongest opponents that Vermont has faced during the past few seasons, with the winning honors about evenly divided. All past games have been won or lost by narrow margins.

Vermont came through with a basket in the last minute of play two years ago, coping the game. Last season the meeting of these teams provided the N. Y. U. fans with one of the most thrilling games of the season. The completion of forty minutes of play found the score tied, necessitating an extra period of play. N. Y. U. set on avenging the defeat of the previous season came back with a dazzling brand of ball that netted them three goals and took the game for 1924.

Their five is coached by Caun who was a member of the 1919-20 national championship quintet. He has a wealth of material from which to mould a team, having eight veterans of last season's campaign reporting regularly, [illegible] four are letter men. His probable selections to start against Vermont are Kelly and Woerner, forwards; Trupin, center; and Handler and Hillenbach, guards.

Little is known of the Union team, which is a newcomer on our schedule. Local fans will have an opportunity of seeing this five in action later in the season, as they appear on the home court February 9.

Coach McAvoy will undoubtedly start the same lineup against them as will oppose N. Y. U. the previous night. He has in Post and Prentice a fast pair of forwards that can be relied upon, in Marvin a sterling pivot man, and is developing in Price and Katz a pair of aggressive defensive players that are close followers of the ball. This combination should have little trouble in providing an interesting evening for Union or any other team on the schedule.

HEAVY SCHEDULE FOR COMING TENNIS SEASON

Regular hours for tennis [illegible] have now been arranged [illegible] wishing to try out for the [illegible] report in the cage between [illegible] five any Monday, Wednesday [illegible] day afternoon.

Gould Nye, Baldwin and [illegible] from last winter's squad are [illegible] out regularly, as well as Hyland Shedd, both '29. Captain [illegible] given up basketball and will [illegible] his spare time to tennis this [illegible]

A match with Boston University [illegible] been arranged by Manager Russell [illegible] two matches with Tufts. The [illegible] tracts with Dartmouth and Springfield [illegible] are also drawn up.

Matches are pending with [illegible] and St Stevens, but Manager Russell [illegible] has not received the contracts [illegible] As soon as the schedule is complete [illegible] it will be published, but already Vermont is sure of three or four more matches than last year.

Alpha of Vermont of Sigma [illegible] its annual initiation Saturday night, December 12. The following men of the class of '29 were admitted to membership: Woodhull S. Hall of Bennington; Paul B. Hopson of Brooklyn, N. Y.; Stanley A. Holmes of West Haven, Conn.; and George M. Watson, Jr. of Brookline, Mass. Out-of-town members present were J. D. Benedict of Montclair, N. J.; E. C. Mellick of Newark, N. J.; and C. M. Huse, R. W. Huse and H. R. Pierce of Montpelier.

The Gold Key Society will hold its annual dance Friday evening, January 8. The price of admission will be one dollar and ten cents. Music will be furnished by an orchestra to be announced later.

"See that guy up there?"

"Yeh."

"Well I won't say he's egotistical, but if he wasn't so large he'd have a whole lot less to think about."

TOBACCO A MENACE TO WOMANLY BEAUTY

...man has a tend... daintiness, ac... Webb-Johnson, ... known speciali... in his new ...ty." Health ... hand declares ... warning is ... and drinkers, ... it is difficult for ... and the men as ... within what ... moderation. ... have his allotted daily ration of so many pipes, cigars or cigarettes, but a woman is more unstable and less capable of self-control than a man," the author contends. As a rule, he believes a woman smoker does not appear to know what maderation means, any more than a woman drinker.

Concerning the effect of excessive cigarette smoking upon a woman's beauty the doctor says: "Observe a girl who smokes excessively, and you will notice that she also looks undernourished, with staring eyes and a yellowish skin. To make matters worse the smoke-dried throat experiences a keen thirst and thus more liquid than is necessary is consumed and an alcohol habit set up. The cocktail and the cigarette always go together."

Alcohol generally, Dr. Webb-Johnson maintains, spells beauty in woman because it makes superfluous fat.

Lab Lightning

Douglas F. Miner

SOME of the men at Clark University mentioned it first. "Doug surely lives in the Lab," they remarked. Later, too, at Worcester Polytechnic Institute, instructors made the same comment. And Douglas F. Miner, himself, agrees that he did—and does. That makes it unanimous.

"Big league lab work" was his aim as he turned to Westinghouse after graduation in 1917. But not until his return from overseas service two years later could he settle down to the lab. Now—at thirty-three—he's in charge of experiments at our Engineering, High Power, and High Voltage Laboratories, with a staff of twenty-five to direct.

He can unleash artificial lightning of 5,000,000 horsepower in 5/1000 of a second. At his bidding the world's largest single-unit transformer will step current up to a million and a quarter volts.

He has demonstrated the greatest artificial arc on record—fifty-five feet in length. To further his experiments a single generating plant, capable of producing on short circuit a million horsepower, has been erected.

There is a practical reason for these super-tests—for this equipment in advance of what the world uses now in its daily work. This, for instance, is frequently the attitude of a Central Station customer: "Of course your apparatus meets our needs today—takes every test to which we can put it now. But what of 1950? Will this insulation stand the load we will use then? And how many volts will these arresters bear?"

They come to Miner for the answer. He gets it from the laboratories. He produces under a roof the same conditions which nature, or time, may be holding in store for Westinghouse equipment.

Such is the pioneering of Westinghouse Laboratory Engineers. They are "experimenting in the tomorrow"—the step between research and application. They are finding growth, reward, congenial work, while following a bent for trying things out.

The question is sometimes asked: Where do young men get when they enter a large industrial organization? Have they opportunity to exercise creative talents, or are they forced into narrow grooves?

This series of advertisements throws light on these questions. Each advertisement takes up the record of a college man who came with the Westinghouse Company within the past ten years, after graduation.

Union 39, Vermont 29

In a game marked by poor playing, Union College defeated the Green and Gold by a 39-29 score at Schenectady, last night. Both teams handled the ball clumsily and failed repeatedly to make good tries for goals.

The second period opened poorly but within a few minutes both teams stiffened materially and from then on until the finish the game became fast.

Merry Christmas

and a

Happy New Year

When the second act has come to an end—and the curtain is rung down amidst whirling applause—when you mingle outside with the excited throngs in the lobby

—have a Camel!

In the making of this one cigarette goes all of the ability of the world's largest organization of expert tobacco men. Nothing is too good for Camels. The choicest Turkish and domestic tobaccos. The most skilful blenders. The most scientific package. No other cigarette made is like Camels. No finer cigarette can be made. Camels are the overwhelming choice of experienced smokers.

WHEN the thrilling second act has come to an end. And you join the crowds outside just as pleased and thrilled as yourself—*have a Camel!*

For no other friend is so cheerful, so resting between acts as Camel. Camel adds its own romantic glamour to the brightness of memorable occasions. No other cigarette ever made — and *kept*—so many friends. Camels never tire your taste, no matter how liberally you smoke them. Camels never leave a cigaretty after-taste.

So when you leave the theatre pleased and inspired for greater things —taste the mellowest smoke that ever came from a cigarette.

Have a Camel!

Our highest wish, if you do not yet know Camel quality, is that you try them. We invite you to compare Camels with any cigarette made at any price.

Where motorised power is virtually unknown, men toil yet accomplish little. The United States has over one-quarter electrical horsepower installed per capita. Japan, leading country of the Orient, has but 04 horsepower. Electric shovel and storage battery locomotive are shown at a completely electrified open-pit coal mine, at Colstrip, Montana.

G-E Motorised Power—an ideal combination of electric motor and control properly fitted to the individual task—is at work the world-over, relieving workers more and more for better and more profitable pursuits.

A new series of G-E advertisements showing what electricity is doing in many fields will be sent on request.
Ask for Booklet GEK-1.

Work without Toil

Ten or twelve hours a day toils the coolie. If he carries all he can, he moves *one* ton *one* mile in *one* day. For that he receives twenty cents.

Cheap labor! Yet compared with our American worker, receiving at least twenty-five times as much for an eight-hour day, the coolie is expensive labor. In America we move *one* ton *one* mile for less than *one* cent. The coolie, working by hand, accomplishes little; while the American, with electricity's aid, accomplishes much.

Plenty of electricity and cheap electricity —these are two great advantages which America enjoys over the rest of the world. While our present generating capacity is 20,600,000 kilowatts, new developments call for 3,000,000 kilowatts more per year.

To college men and women—potential leaders—will fall the duty of finding more and still more work for electricity, with less and still less toil for our workers. For the task is but begun!

An Editorial

A SMALL boy was riding a bicycle. It was years and years ago, before every boy had a cut-down Ford or some other car. It was also before there were hard-surfaced roads in Vermont.

The bicycle was old, but new to this particular boy. It was years and years ago, before every boy who had a bicycle had a new one, with a coaster brake. This bicycle had no coaster brake.

The road wasn't even gravel it was dirt. And since it was spring, there were ruts from two to four or five inches deep all over the road. Some were made by automobiles, but most by wagons, for automobiles were less frequent than now.

The road, like many other roads, wasn't very certain in its own mind just where it was going. It meandered more or less, and finally divided, one branch going to Bigtown and one to Smalltown.

Most travelers on the road went to Bigtown, but the boy wanted to go to Smalltown. Most of the ruts went right past the Smalltown fork. So did the rut the Small Boy was riding.

Now, of course, Bigtown was much the better place to go. Else why did most people go there? Yet there must have been something at Smalltown, for some folks did go there. And Small Boy wanted to go to Smalltown. If we all wanted the same thing New York would be the United States and we should all starve and freeze.

But Small Boy was in a rut, like lots of other people, and the rut was so deep that, being young and not very skillful at riding his new bicycle—new, that is, to him—he couldn't get out of the rut, and it looked as though Small Boy would go to Bigtown or nowhere.

Small boys get pretty set in their ways, however, and Small Boy wanted to go to Smalltown. The nearer he came to the fork in the road the harder he tried to get out of the rut.

Finally he succeeded, but in doing so, he had turned so sharply and so suddenly that the bicycle, boy and all, went down over a two-foot bank at the side of the road and landed in a heap in the muddy ditch. Small Boy wasn't much hurt, but he was considerably "muddied."

He got up, however, and started out again—this time in a rut that went to Smalltown

Of course, if everybody had wanted to go to Bigtown, this wouldn't have happened. But then Smalltown wouldn't have existed, and neither would Bigtown, for Smalltown provided much of the food for Bigtown. And so *somebody* had to go to Smalltown, and to get there he had to get out of the rut that led to Bigtown

• • •

OUR ESTEEMED contemporaries, the national magazines, always present one, two, or three editorials by writers of national note—or notoriety—each week. Seldom does the "editor" express his views in his own person.

For variety, if for no other reason, the Editor of the CYNIC *prefers to present his own opinions here, and, for what is said, Frank Crane, Bruce Barton, Walt Mason, Arthur Brisbane or Howard Hindley is not in the least responsible.*

As a short story this isn't so much. It merely tells us that all of us can't go the same way, and that he who would go the unusual way is liable to get hurt—or at least "muddied."

With "our splendid system of state roads" it isn't hard to leave the main road now and go to Smalltown. Many of the ruts are gone, to make travel by road easy.

The ruts in our educational system aren't gone, however, although in some places they are getting smoothed out. The student whose destination is different than that of the crowd is pretty liable to get hurt, or at least "muddied," if he tries to follow his course. He will get on very well so long as he follows the crowd and keeps in the rut that follows the beaten path.

Discontent with rutty roads makes it possible for the small boy on his bicycle to turn off toward his particular destination. Discontent with educational ruts will some day make it possible for the student to leave the beaten path and seek *his* particular scholastic destination.

The discontent that is making roads better had to be solidified and translated into action by men with energy and initiative.

The discontent that is to make our educational system better must likewise be solidified and translated into action.

Should we "let well enough alone"?

All right, but if, some day, *you* happen to be the one who wants to turn aside, and you can't get out of the rut or, getting out, crack your shin, scratch your face and get all covered with mud, it's your own fault.

The easy way is to follow the crowd, but who ever heard of the flock that follows the bell wether? What do they do but trample the grass and gorge themselves?

Blindness

By Elizabeth E. Warner '27

He came tapping along the gravel walk, slowly, gropingly, as if his sightless eyes were searching for something lost along the path. People turned to look at the tall, strong, young figure, and the handsome face with the features of youth but the look of a man who had suffered the tortures of Hell; and they sighed and spoke to one another in pitying whispers.

Elton Graham could not hear the whispers, they were all soft, but he could feel the glances of sympathy and knew only too well what they were saying:

"Yes, that's the one. Bert Graham's only son. He was wounded in France; shell shock, you know, and finally paralysis of the optic nerve. It has been gradual, and he's totally dark since a year ago. Tragic, isn't it?"

There was a dark flush on his cheeks, knowing this.

He had come out this morning in a heroic effort to face things as they were. Some time, he knew he must meet people again. Now, at this quiet resort, where he had been once with his father before the war, was as good a time as any. For a whole year he had hidden himself away from all but his closest friends. Now he must be a man.

But oh, the torture of it! The consciousness of the pitying looks and subdued whispers. The agony of feeling the sea breeze, salt and cool, against his hot face, and being unable to look out over the blue ocean whence it came. The utter hopelessness of it all, dark—dark—dark.

There were some benches along the bluff here, he knew. He remembered having seen them, years ago. Gropingly he wandered on, found a bench at last, spoke in a low, uncertain tone:

"Is this seat occupied?"

There was just the faintest pause, enough to make him believe that he was alone, and then someone answered in a voice that was very soft and musical:

"Only half of it, and you are welcome to the other half," said the voice.

Graham sank down with murmured thanks, angry to find himself so weary. That was what a year of physical inactivity could do to a fellow, make him as weak as an old man, and he had once played quarterback for Yale!

But he had not wasted that year, dreadful though it had been.

While the darkness had shut down, deeper, denser, he had had to occupy himself to keep from going quite mad.

He had found that he could write, and he had written a book, a novel. He had not let his mind dwell on anything else.

Heart and soul he had given to his work, and the book was full of pictures, word-pictures of all the beautiful things that each day was shutting away from him, wrapping in a thick veil of midnight.

To his great surprise the novel had sold. It had not been a great sensation, but it had sold. The critics had been kind to it, this novel by "J. Foster." It could easily have been a sensation if its true authorship had been published, and the world had known that "J. Foster" was in reality Elton Graham, son of Bertram Graham, the financier, a war hero, blinded in battle. But Graham, his heart sensitive and sore, had not wanted the book to be bought for its author's sake, and few people knew.

It was over now, the writing, the preparation, the publishing. A thousand ideas for its successor lay dormant in Graham's mind, waiting to be called to life, but each day he postponed its beginning. Financially, he did not need to write. Personally he was in the grip of a great despair. What incentive had he for achievement? He, Elton Graham, could never see again.

He took off his straw hat as he rested on the bench atop the bluff, and let the wind ruffle his bronze-brown hair. A couple passed, a few yards away, and their talk reached his ears.

"I don't care, Hal, where we live. Why I'd—I'd go to China if we had to. It's worth it."

"I know, dear. And it will be only for a few years and then—"

Ay, there was the rub! There could never be that, for him. No girl could look at him with anything but pity. He must be alone in his darkness. He—

"Didn't they sound happy?" said the voice beside him, wistfully. Gentle as it was, it startled Graham. He had forgotten that anyone was there.

"Very happy," he answered bitterly. "It must be great to be in love like that—willing even to go to China, if necessary!" he added, more to make conversation than from any liking for the topic.

He liked the voice. It sounded young, and sweet, and there was no pitying note in it. Usually he fled from strangers as speedily as politeness would allow, but somehow he did not feel like fleeing from the velvet voice.

He was hungry for companionship, not sympathy, and he wanted to talk about something besides his own misfortune.

"Don't you love it here on the bluff?" asked the other, after a moment.

"I haven't been here since five years ago," Graham replied. "I used always to like to sit here and look out over the sea—"

The words choked him; he could not go on. But if the girl beside him noticed, she gave no sign.

"There's nothing to equal it!" she said, quickly. "To think of the ships out there going to far-away countries. To China even!" and she laughed, a little, lovely, rippling laugh, sweeter than her voice if that were possible.

"And the great, gray gulls," she continued musingly, "and the long, white beach down there, and the bathers—I love it all!"

Graham's heart went out to her in gratitude. Why, she was talking as if he could see! She was picturing the scene before them for him without apparently intending to.

In all the years of his darkness no one had spoken like that. Sometimes they said "Look here," or "See!" and always stammered in miserable confusion: "Oh—I forgot that you—forgive me!"

If only someone would say "Look here!" or "See!" as if they forgot his blindness, and then go on without that inevitable tragic pause.

But this girl—he was sure that the voice belonged to someone as young as she was understanding—this girl was playing the game. Well, he, too, would play

"It's a picture to keep forever," he said soberly. "I like it best of all at sunset, don't you? The sun throws a red path right across the sea, and even the beach looks crimson."

He heard her catch her breath sharply. Would she fail him now? Would she say "But you cannot see!" as the others did? His heart bounded at her answer in tones that quivered a little even as they tried to laugh.

"It is beautiful! You describe it like an artist!"

After that he did not know how long they talked, for it was the first time in all these weary months that the hours had flown.

She was Althea Trent of Boston, she told him. He gathered from her conversation that she was twenty or thereabouts, an orphan; that she taught music in the winters and spent the summers here at The Bluffs, at her aunt's cottage.

All this he learned little by little, for she seemed reluctant to talk about herself. He was glad that she had never heard of Elton Graham before, glad that when he spoke of being in France she did not cry out, "And you lost your sight in the war?"

They rather avoided the topic of self that morning, talking rather of books and paintings and of music, which they both loved. Later their talk turned to their childhood ambitions, a delicate subject for Graham, who had aspired to the diplomatic service, but touched upon so lightly that he felt no hurt.

"I wanted to be a prima donna," the girl confided, "tall and dark and distinguished. I might have succeeded if fate hadn't put music into my fingers instead of my throat, and hadn't made me small and blonde!" She laughed again, at herself.

Would any other girl, Graham wondered, have told him

[illegible] to [illegible] what she looked like so she might [illegible] a stranger.

[illegible] [illegible] [illegible] [

Men

By Pauline Sullivan

[illegible] who reads this will realize, of course, that [illegible] remarkable fellow and doesn't deserve to [illegible] the blanket indictment. And so he can take [illegible] in reading of the failings of his fraternity [illegible] other men, secure in his own excellence.

WHAT TERRIBLE CREATURES they are! I am not speaking generically, either. I mean the male of the species.

It is a great wonder to me that every woman who ever knew a man for more than two weeks is not in a cell in Waterbury, or some similar place.

You meet a man whose whole bearing radiates precision to the nth degree. You leave a dozen things unfinished, and hurry not to keep him waiting. Then you sit and hold your hands for twenty minutes. He arrives, precise as ever, precisely twenty minutes late—without even an apology for being late. Tardiness is part of his make-up.

Finally you become accustomed to his make-up. But if you do not marry him, or even if you do, you are apt to meet another man some day.

He may let his hair get mussed sometimes, may even say "ain't," once in a while, so you finish that novel before dressing for the dance. Just as you have reached for the kimono and slipper, vanishing cream stage, he arrives, right on time.

What can you offer as an excuse? You can't very well tell him that your first husband was always twenty minutes late.

And if you try to comply with his desires, your cell is already being padded.

He meets you in the morning, and tells how "the furnace at the fraternity house is broken, and it's colder than blazes down there. They aren't going to get it fixed till tomorrow night, either."

So you forego the afternoon at the pictures, and get your studying done, and some fudge made. Then you telephone him a demure invitation to come up and help eat the fudge.

He is terribly sorry, but he has to go to an inter-fraternity meeting!

He asks you three weeks ahead of time to go to a Key and Snake dance. When the night comes you have a headache and a cold, but you haven't the heart to back out at the last minute. So you "buck up" and go. During the last waltz he asks you if you'd "mind leaving now"? His "game knee" has been bothering him a lot lately.

A few days later he asks you if you'd "really care to go to the Sophomore Hop?" Of course you'd really care to go, but out of consideration for the game knee you say you're "not so keen on it." Then, the day after the Hop, your friends ask you why you wouldn't go to the dance with him, instead of sending him up there stag to cut in on all his friends.

You are going to climb the mountain together, and you ask him what he would like for lunch. He replies heartily that he likes everything.

He eats his share of the tongue sandwiches, does his duty by the cheese-olive ones (throws most of them away while you're pouring the coffee) and refuses point-blank to eat the deviled eggs.

A few hours later he deposits you at your door, and hurries away, his whole frame proclaiming that his next stop is the Park Café.

And so you blunder along until graduation, or death, or another girl removes him. Then you start all over again with another.

Oh, Henry!

By Alice Bellmore '29

Of course, the football season is over, and, of course, no Vermont co-ed ever spent a game this way, but after deciding to use "Men" it seemed only right to be impartial and give an antidote.

OH, HELLO, HENRY! Oh say! I had the most dreadful time going through that crowd. But I just hope our team wins! There are such nice fellows on it. Now take for instance—

"Oh, they're playing already! Aren't they working splendidly! What's that? They aren't playing? Warming up, did you say? Oh, you mean practicing. Oh yes!

"Say, but I feel sorry for that fellow who's always throwing the ball back. Yes, the center. I should think that he must be dizzy from always bending over like that. You know the blood does rush to your head and your face gets as red as a rose. I suppose that's why they call him Rosy.

"Well, I'm glad they're playing. What did you say? A beauty?' I should think you would look at the game and not at—

"Oh! I beg your pardon. I didn't know you were referring to that play. I thought you were talking about that girl in the white sweater, Henry. You know, Henry, I have a sweater just like that, but it's at the cleaner's now.

"Say, Henry, don't you think that our quartermaster ought not to call our signals out loud like that? Why, the other team hears everything he says.

"What did you say that halfback did? Made a hole in the line? You mean he dug a hole in that white line? No? Oh! Look at that!

"Say, Henry, why do those players insist on running before their own man who is carrying the ball? Interference? Why what a shame! I should think that the other team interferes enough without having your own men do it, too.

"Now look at that! I think those fellows with the sticks are just mean! Why, every time our team brings the ball up to them, they just move away some more and our poor fellows must do it all over again.

"Say, why don't they sit down in front?

"Why is that man in white trousers carrying the ball back? Our team is penalized for holding, did you say? Why the very idea! Why, not three seconds ago you told me that the other team was holding our men on the two-yard line, and they weren't penalized! I should think you fellows would protest!

"Why, what are you laughing at?

"Oh! Look! That fellow's hurt. I hope it isn't the one in the bright helmet! He's so cute! Why don't they call a doctor? Henry! It isn't the one in the bright helmet. It's that funny fellow. I don't like him.

"Say, what's the idea of holding up the game? I should think that he wouldn't play if he can't stand being knocked out.

"Look, Henry! Yoo! hoo! That's Mabel over there. What did you say Henry? The game's over? Oh, pshaw! So soon.

"What was the score? 12 to 0? Yes, but who won? Our eleven? I'm so glad they did.

"But say, Henry, how many men are on our eleven?

"So long, Henry!"

[illegible] including the University of [illegible], College, Massachusetts [illegible] College, and Middlebury [illegible] the dates of which will be [illegible] later. The question will be [illegible] that the Federal Govern[illegible] and operate the coal mines [illegible] United States."

The colleges are placing their blessing on the ... and their birthright of ... for popularity and buildings." How? There are the germs of many ideas in this article. If no real ... from them.

"Nothing is constant except constant change." ... is inevitable. Progress or retrogression ... is no middle ground of constancy. Governments, institutions, in fact, all units ... are ever being moulded by a changing ...

A hundred years ago our American colleges were in ... were not yet founded. Few, if ... at one stroke. Rather, ... the best life work of many men, who ... in the mission of the college and were ... this belief to their last resource.

... then had a different standing than they enjoy ... people were ready to accept them as an ... part of our democracy. They were not for ... in a sense.

... the "style" to follow one's education to ... a degree. Besides, it was no "soft snap," this ... The colleges were poor and the students, for ... poorer. It was work from beginning to end.

... the training offered was much more limited. ... to the Liberal Arts courses as most important. ... the engineering department, the army of ... and the budding Steinmetzs of today? ... were yet to eclipse the "glory which ... in the arts.

... was the college struggling to maintain itself, ... wider recognition, but there was facing it ... students a difficult situation in all national life.

... were the times that tried men's souls," and college ... were not found wanting.

Education in terms of human effort meant a world of ... but with it came a corresponding amount of ... development. I think that in this stage of their ... their beginning and early struggles, they ... their greatest power and worth. They were ... their metal. The original glow of the idea was there. ... lived and grew from their own merit, not by ... of a great reputation and a glorified social standing.

Today our ... have been invaded by the commercial class, the men who are at the top of the heap economically speaking. They have usurped the presidents' chairs and sought out the chief seats in the trustees' ... chamber. They have built dormitories, athletic fields, ... stadia, and halls of learning by the thousand.

Millions and more millions for education. They have built fraternity houses of marble, velvet and ivory, palaces with soft divans and waxed floors and sun parlors.

Yes, the colleges are indeed prosperous. They are even in the limelight. The football elevens provide excitement for big business, their alumni reunions an excuse for the returner to get gloriously drunk. They are a part of the social fabric, stepping stones to the aristocracy.

But what, may we ask, has the college paid for this prosperity? Talk with the classical department of any college for a while, and hear the story. This is nothing. Look at the engineering school, the business department.

Ah! There's where one must go to get educated.

But even that change is not supremely tragic. Think for a moment of the college seventy-five years ago. Students, faculty and administration alike, all were dissatisfied with conditions. They were struggling for improvement, as thinking men do, and all the more so since they were the under dog, and improvement would help them as well as all society.

There must have been lots of radicalism in student life then, and why not? The student saw life from a working level and not from a reclining position on a cushioned divan, bending over "The Plastic Age," or in a Packard or even a stripped Ford, skimming or jolting over the roads.

Does the power behind the throne of colleges today want things changed? Do the students themselves want things to change? Are they dissatisfied with the present system of things? Yes, now and then one, but the majority?

"No," says the business man behind the administration. "Let's not change things. Why, we are satisfied! We're on top!"

"No! No!" says the conservative on the faculty. Our own faculty held their breaths in horror, not so long since, when a student organization proposed bringing a pacifist to the campus to speak.

Is it dangerous to have students think? Can they not be trusted? Or must their toddling and wandering footsteps, so inexperienced in the ways of the big outside world, be directed by the thinking faculty?

So the colleges are placing their blessing on the "status quo."

They have sold their birthright of liberalism for popularity and buildings.

From their position of strength over the youth of today, they have become the tools of conservatism, to preserve our present most glorious social order, and our altogether most perfect of worlds.

Our Library Problem

By L. R. Rowe '26

A (CO-ED) college without ample "mating ground" is indeed most inadequately housed. For, if there isn't any provision for that need, the versatile socializers proceed to look out for themselves where there is even the least opportunity for action. They press into use every possible nook and knot hole in all our buildings, in a most impromptu fashion.

There's something so spontaneous and innocent about it that will not be denied. In almost every case they find some sort of isolation, either because of their infatuation, forgetful of the rest of the world, or because the common horde hesitates to tread on "holy" ground.

Our window seats have been usurped in lieu of a bench in the park. The old chapel is fast becoming a reception room while the alcoves in the library are fought over, and as much prized as the secluded corners in the girls' dormitory parlors.

From the students' point of view, the first two cases are not at all alarming. As for the faculty, it is somewhat different. They can only rush through the halls with their heads down, or turned to one side, with a most artificial pretense at dignity. Few blush. Some look steadfastly to the foreground, apparently lost in thought. They are oftentimes, none the less, painfully conscious of a feeling of out-of-placeness.

In the library, the conditions are even more distressing. With an air of a scholarly abstraction, supposedly conscious of nothing save his own thoughts, a professor strolls down the alcoves in search of a place to study, or of some reference books. A continuous row of faces on either side not only show he is not wanted, but indicate that apologies are in order for the intrusion.

If he is particularly hard-boiled he will ignore this as best he can and continue. He enters an alcove in search of a book, feeling about as unnecessary as a pup at a cat dinner. The couple are too immersed in their own marvelousness to discontinue their ceaseless purring. Perhaps he finds what he's after, and perhaps he doesn't. At any rate, his composure and peace of mind are totally wrecked.

If luckily, he may find an unoccupied alcove of which he takes possession in triumph. His elation is short-lived, however, for college is a social institution. An incessant

Steel Spurs

By C. E. STAFFORD '28

POTENCIANO walked quietly into the pit.

Outwardly he was calm, as he gazed up and around at that mass of brown faces, strangely silent for the moment! for was not this to be the main cock-fight of the season of the year? Did not this promise to be the greatest cock fight ever known in the country? Was not more money at stake, in speculation than ever before?

Yes, outwardly he was calm, but had anyone noticed the hand that stroked the glistening feathers of his rooster, he would have detected, perhaps, the slightest quiver.

Potenciano knew life. He had seen some thirty years of it. He had been through the insurrection; he had seen the Americanos and the Spaniards fight; he had been wounded in the battle of San Fernando, but that was years ago, when he did not quite understand his friends, the Americanos. And yet, here he was.

Fate had piled circumstance upon circumstance until now, well, the future of his whole life's creation, of his family, and of his son depended upon the life of Agno, his cock.

He had to get money, somehow, to save his son from the sentence of death. They had arrested him on a false accusation. He knew who was guilty—Bernandino, the meanest man in the provinces. And today they were to meet in the cock pits!

Across the smooth, hard, dirt arena was Tomas, his feathers gleaming as Bernandino gently stroked them. They were waiting for the signal from the judges to "bare spurs."

Through the unnatural quiet boomed that order in a guttural monotone. Quickly the strings were untied and the sheaths slipped off with a jerk, lest the sharp blade cut. The roosters were held at arms' length.

Potenciano approached, pulled back the head of Agno, and let Tomas take a mean peck at that tender spot right under the jowls. Agno jerked his freed head back, and his eyes shone red as he retaliated in like manner, the feathers on his neck bristling like a brush.

He was mad. Once, twice, thrice, and his master swayed him toward his enemy, just out of reach, and then set him down. Bernandino did the same. Stiff-legged, the two looked at each other. Up above, in the gallery—down below—all around—that crowd of brown faces watched. Not a word. Not a whisper. Hardly a breath.

The cocks started to circle, heads slightly bent forward, eyes watching, always watching. They stopped. Down went the necks, those fine feathers quivering. Up, then down again. Slowly they started to circle—very slowly—their toes feeling the ground carefully.

Suddenly they pivoted, and again fenced, their heads bobbing up and down. Neither was giving ground. Neither was to be caught off-guard. The crowd gasped. Someone sneezed, a nervous half-repressed sneeze. There in the corners stood Bernandino and Potenciano, eyes glued on the two gladiators. The referee stepped back a little. Would they attack?

Yes, they—no, Tomas had tried to outwit his opponent and had thought better of it, completing his attack in mid-air, and landing on the ground in a flurry. Again they circled each other, this time more slowly than ever before. Each knew that the other was an experienced fighter. Everybody knew that Tomas was the champion.

It all started before anyone could know what it was all about. A cloud of feathers, glint of flashing steel, flapping of wings, and two feathered creatures met in mid-air, breasts touching, feet forward and slicing. They landed together, neck and neck, even, and sprang apart. A roar from the crowd. Never before had they ever seen the like. Usually one would be underneath and—well!

The two stood, necks stretched forward, tails down, legs crouched. Once they fenced, twice they fenced, then sprang, straight up. Agno jerked sideways and dug his spur in a circular sweep. Tomas sliced down. They both landed, Agno a little off balance. Tomas continued his rush, and for a fraction of a second was on top, his spur digging, slicing. The other slipped to one side and rushed in.

A whirl of feathers, and—what was that spurting in a tiny stream from Agno's leg? The crowd howled; Potenciano paled a trifle, and Bernandino leered from across the pit. The referee was watching closely, for Agno had seemed to limp just a little.

Tomas knew that he had drawn first blood, knew that he had wounded the other's leg, and started another attack. To him, all was easy from now on. Up he rose, his legs in front of him. Agno dodged, pivoted and leaped. A flashing mass of feathers: first one, then the other on top, again and again.

Charge on charge the two rushed at each other, while here and there a ray of sun glowed, shiny red, on a spur. Whose was it? No one knew, no one could tell. At last they separated, and what was that? Both of Agno's legs red? What? And Tomas not bleeding?

The crowd went wild, and Bernandino's sneer of triumph was certain. Potenciano might have noticed it; he might not have. He was watching not his own rooster, but Tomas. What was that? Was it not a sag? Did not Tomas shiver then, just a trifle?

And there, there, between the legs, on the breast, was that not a drop of blood?

Slowly, Tomas sank down. Perhaps he was crouching for another spring, perhaps not. Agno wobbled a bit on his bloody legs, and made a half-hearted leap into the air. *And Tomas did not meet it!* One of Agno's stabs had gone home, deep. Inside, he was a torn mass of bleeding flesh.

Tomas tried to straighten against the attack. Agno struck out sluggishly, convulsively, once, twice, on that glistening back, and toppled over, on his side. Tomas lay there motionless on his breast, his eyes half open, a drop of blood welling up on his beak.

The referee bent over, and picked the two up. Not a sound in that arena, not a breath. Carefully he set them down—and let go. Tomas flopped lifelessly to the ground. Agno staggered, gagged, and with a shudder, fell.

He had died to save the life of his master's son—and he had won!

Our Library Problem

(Continued from preceding page)

buzzing and chattering, coming from the rest of the alcoves, combine to make a din reminiscent of the weekly meeting of the "Sewing Circle." He can only make the best of an impossible situation, and give vent to his wrath by cursing sweetly to himself.

The occasional undergraduate who comes to the library *to study* runs into the same difficulties, and since he is much less disposed to study than the professor and much more inclined to visit, the situation is not improved.

A library was never meant for a "bull session" center, nor for a lovers' retreat. Since we have no adequate place for such activities, on the campus, and since the library is least able to resist it is over run for this purpose. The availability of a good library, and a chance to use it, is even more important to a college than classrooms.

Anyone will admit the library is too noisy. The blame cannot be laid to any particular group of persons. It is everybody's. The cooperation of everybody is necessary to remove this evil.

This sort of thing cannot be handled satisfactorily by an iron-handed librarian. Who wants the task of affronting people all the time for being noisy? Although one might be justified in expelling some from the library, this isn't the right spirit. It is a task for college spirit and opinion to handle and enforce. Not a committee, or a society, but every individual should be a part of the movement to give us a civil library.

As for the use of the alcoves, if the problem of silence is met, it will handle this one at the same time. There's certainly no objection to a couple studying together, if they will be reasonably silent, and somewhat civil to those who intrude in search of books; and so long as they recognize that that particular alcove is for everyone's use.

The trouble is that silence and study are quite impossible for some couples. They aren't content to smile at each other across the table occasionally; but must needs express themselves more audibly.

Let such seek amusement elsewhere. There are three theaters in town, besides numerous ice cream parlors, etc.

Our library must be kept for the use of the student and the reader. Let's cooperate.

The Confessions of a Degenerate

By X Sapio More

comments that "the disease does not seem very prevalent." Neither is leprosy, but physicians are trying to

I AM A GRIND. A dozen years, a dozen gilded [illegible] ago I would have been proud of the appellation. And what is more, I would unhesitatingly [illegible] to the profession of which I now deservedly [illegible] a member. Yet during considerable [illegible] of the present [illegible], I believe all that I cherish [illegible] I believe that with much [illegible] of the [illegible]

[illegible] of you who do naught but study [illegible] of whom I used to sympathize, who would [illegible] of subjects with any kind of contact [illegible] around here from it athletic con- [illegible] would have [illegible] you away. I [illegible] the enjoyment upon which I [illegible] as a grind.

It is possible, [illegible] that I am less than ten [illegible] of life [illegible] one. In no less than ten [illegible] necessity I have come to crave rather [illegible] the instructor and I one fellow [illegible] I know well enough to call by his [illegible] Such [illegible] have all kind about through [illegible] and unwavering devotion to higher [illegible] [illegible] we ever find [illegible] place in [illegible]

My [illegible] are very broad. In fact I have only lately made a special study covering the life of rana pipiens [illegible] from the egg through the tadpole [illegible] into the great beautiful and extremely interesting [illegible] that we sometimes see majestically seated [illegible] and A broad range of interest you see; and [illegible] covering so many minute [illegible]

Beauty is a subject dear to my heart and it grieves me [illegible] to see the way in which many men insist on abusing it.

How absurd to admire woman, a mere chemical creation when there is at hand beauty such as rests in learning the beauty of as yet unexplored depths in scientific research, the all sufficient beauty of so controlling oneself as to benefit not study, study, study!

As [illegible] activities are a curse, yea verily; for in them one becomes contented with worldly joy such as comes from other things than learning. Think of the time that is consumed in the following of parasitic activities, eating upon the effort, time and just endeavors of men.

In the time that one man sometimes spends on CYNIC work while in college he might well learn at least the [illegible] of Einstein's great theory of relativity and thereby add to his life that which were infinitely more valuable than the experience in writing the business practice and the opportunity of meeting men which the CYNIC work would afford.

It must be remembered that, as a grind, I cannot possibly be deprived of all one interested in activities being at the same time interested in great intellectual feats, and in the higher mental processes open to mankind. An activity man has no sensible ideas in his head; playing athletic sports and managing college enterprises are no tests of worth or capability.

To put it simply such a man as we have just been considering is not commonly bright. Absolutely. Then, too, [illegible] activities are such childish indulgences, and so [illegible] of the effort of men. The handling of six thou- [illegible] and the accompanying work and re- [illegible] that go with the managership of the *Ariel*, as [illegible] in a year's college work is indeed insignificant.

Every one knows that football is child's play. Perhaps the very worst of all the charges to be brought against these disgusting activities is that they smack of the world. There is a spirit of achievement, and of business endeavor about them, a savor of enjoyment other than intellectual—that is highly displeasing.

Health is a big item in this transitory life we will all agree. And it is amazing how beneficial my life as a grind is to the health. To sit all day long when not at classes, [illegible] in my room, to spend the evenings beneath my eyeshade and to burn the proverbial midnight oil with [illegible] regularity.

Ah, how these do unite to keep the bloom of youth [illegible] parent, to harden my muscles, and to make me generally [illegible] rugged, and strong, and happy, and healthy! I feel positive that if people in general would but follow my health rules the coming generations would be much better [illegible] physically and without doubt some of the intellectual [illegible] would eventually become inherent to the race.

Needless to say, I do not have time to spend in [illegible] contemplate a way as newspaper reading, but why [illegible] that bother one? It is very easy to know what is going on from chance remarks dropped in street cars and [illegible] places.

For instance, the other day I overheard a few words about some kind of a "world court," and I thoroughly approve of the idea. It is high time that it be decided who started the "World War" that we heard so much about a few years ago. I understand that was quite a fight.

Yesterday I heard some campus news, too, to the effect that some alumnus by the name of "Wilcox," or something like that, is going to build a chapel here. I did not find out when the work would begin. But you can see, I do get a pretty accurate idea of what is going on, both here and in other countries.

Probably I will contract "T. B." in the not distant future, for such is often the noble fate of true intellectuals; but if college days should ever be mentioned to me, I feel sure that my sickly smile will reflect my years of toil so wisely spent.

By paraphrase I would surely agree with Milton that "They also serve who only sit and study." Truly, truly I do long to be an educated fool, and that is the grave for which I am now headed. Ye heathen gods, come to my aid!

It would be enjoyable to continue this consideration of the merits of my life scheme, but Study must not be neglected. My lord, my god, ay, even Study calls me.

And so I go to study—study—study.

Futility

(An old elm speaks)

By Madeline V. Kelley '27

Would you know Life in all its bitterness—
In all the horror of long useless years?
Become as one whose home my boughs o'ershade?

But there be barriers no force may break
Save only God, or that grim power of War.
For you have eyes to see, and hands to do,
Feet that will bear you where you may desire;
But he has none of these—and scarcely speech—
For when he was but come to twenty-five
A monster came upon the land he loved,
And pulled the young men down, and drank their blood
While others died he was more fortunate—or otherwise
And, barely living, yet was left alive.

So he came home, and now he sits by day
Where he can feel the sunshine on his head,
And dreams his boyhood's dreams again,
And bows his head for shame of tears.

His sweetheart, loving him, would still have wed.
But ancient pride forbade such joy to him.
"'Tis but a little while," he said and smiled.
But even as he spoke he knew he lied:
The life-blood in his veins was warm and red,
His brain was clear—they promised many years—
Long years of sitting, useless, in the sun;
Hearing a thousand people pass, and seeing none;
Dreaming a thousand dreams from dark to dawn;
Knowing at daybreak that all power was gone.

So his life runs from hour to weary hour,
He learns each day new lessons in futility,
Until, at last, he slips from darkness into light
And hears the whispered words, "It was well done."

wish you all

Happy New Year

The Traditional Campus Romance

(Vaguely flavored with Maurice Hewlett and Grimm's Fairy Tales)

By Laura Bliss '28

Now in the long ago and far-off days when Calvin the Silent ruled in the land, there prevailed a curious custom among the peasantry. For as soon as their offsprings' years had numbered eighteen or thereabouts, instead of setting the youths to plowing and the maids to churning they did send them to an apprenticeship in the duchy of Burlington. There all day long they served in the halls of the castle which some called "our great institution of learning" and others with tongue in cheek, I wot, "that dam' Mill." And it came about that the Lord High Mayor did occasionally cause a fête to be held in the castle hall and there were jigs and reels to the melody of the mellow saxophone.

And it came to pass that as one of these festivals was in progress, a youth yclept "Joe the Collegiate (because, forsooth, he had never worn a hat and owned a prancing steed by the name of "Limping Lena"), espied a maiden passing fair. And therewith "Joe the Collegiate" was smitten with that sweet madness the poets call love. And to his comrades he spake thus:

That there's a keen woman. Watch me give her the old rush."

Then did he form himself, rash youth, into a stag-line of one and essayed to cut in. And in so doing did he forsake the customs of his college, for in those high and far-off days this was considered a very doughty deed and was attempted only by the few.

The maiden passing fair whose name was "Isalde the Unattainable" (because you had to date her three months in advance), lifted her eyes to his and gave him a melting glance. And Joe's heart missed several beats and he said:

"Where have you been all my life?"

And it came about that when the feast was ended Joe the Collegiate lifted Isalde the Unattainable to the back of his one-lunged steed Limping Lena and off they rode. Now the legend tells not whither they rode, nor how long but certain it is that it was a pleasant ride. And at length as Joe stood beneath the portcullis of his castle and looked at the ancient Greek letters over his head he said to himself in his own original way:

"Keen! A beautiful moron. B. V. D."

(And the poets tell us that the cryptic word B. V. D. meant in those far-off days, "Beautiful, Very Dumb.")

Now about the third month it fell out that Joe's comrades-in-arms (the ancient sooth-sayers call them "fraternity brothers," a word of strange origin and one that we no longer understand) decided to celebrate the feast day of the blessed Saint Patrick. To make the fête a joyous one each gallant youth conveyed a maiden to the feast. And Joe above all other swains was priviledged to "tote" Isalde the Undatable. And the fun waxed fast and furious and the flowing boul circulated, albeit surreptitiously.

Now there was at the feast a young squire whom men called "Jim the Smooth Guy" and ladies, "Jim darling." (And this they called him because, forsooth, his raiment came from Brooks Brothers, and his line from the Yale *Record*.) And while King Misrule held sway Isalde and this handsome squire did dance together. And him that was yclept the Smooth Guy did whisper sweet nothings to her that was unattainable. Now Joe seeing this he thought him of an excellent plan to foil his rival and establish his own superiority. With his right hand he smote Jim lightly on the shoulder.

"Cut in," he said and saw in fancy the cringing Jim watch in amazement as he bore the damsel off.

But Isalde drew herself up and withered him with one glance.

Oh, hang it up," she said, "I've promised all this dance to 'Jim darling.' And the next one too," she added as an after thought.

With these cruel words did Isalde shatter love's young dream. Ended was everything; ended the campus romance famed by Scott Fitzgerald and Percy Marks. One asks the ancient lords:

"And did Joe cast himself into the moat, or go on a crusade?"

"Not he," they reply wisely nodding their sage old heads, "he cut in on Isalde's sister 'Isewt the Hot Stuff' and had a very pleasant evening."

So it was in those long ago and far-off days when Calvin the Silent ruled in the land, and youths and maidens went to college

Vengeance

By B. W. Chapman '26

A POWDERY sprinkling of snow whitened the sidewalk and gleamed and glistened under the arc of a street light. Scattered flakes were slowly falling and tumbled upon the somber felt hat and heavy overcoat of Kaymour Kruge as he walked, alone.

At the intersection of a street and the avenue he hesitated a moment, and peered up at the signboard on the corner post.

It was the street! On it stood the house for which he sought. Seventeen dreary years had he waited for this night.

Seventeen years is an eternity when one's waking hours are filled with a fierce and bitter rage, a rage that had gradually softened under the mollifying influence of time to an inexorable, steeled determination to himself handle the reins of a mislead justice. For Kruge had been sent to prison for a crime he had never committed.

Faces had dimmed in his memory, until they were blurred like those seen through running water, outlines dim and indistinct. Two faces, those of the woman he had loved and who had made a horrible mockery of his trust and affection, by treacherously betraying it, and of the other man, who had been the actual perpetrator of the crime.

Love, honor, pride were to Kruge but mocking gestures, inanities of conscience. Thus he deliberated as he walked along, not slowly, but with the step of one laden with a heavy burden.

Death, either instantaneous or after a few hours of suffering for the real criminal, Mortimer, was inadequate vengeance, an ineffectual atonement for his long years of agony.

To be cut off from the joys of the world and its beauties—sunshine and light-hearted, carefree laughter—freedom—when one has scarce reached maturity, is a dire catastrophe. Things unappreciated until a man is bottled in a Hell of four grim, gray walls, and bars of steel, circumscribed by another parapeted wall completely isolating from contact with the outside world.

Tonight he would even the balance.

He pulled the soft brim of his hat over sunken eyes and hardened features, and instinctively patted the heavy lump that bulged the pocket of his great coat, smiling grimly.

The pair were married and had fled from the scene of their crime to this distant city. Through the mysterious, underground system of communication of the prison he had kept constantly in touch with their activities. They would not be looking for him yet, for his sentence had been shortened three years for good behavior.

Two-thirds of the way down the street he turned his coat collar up around his throat, masking his features, and cautiously stopped in front of a stucco bungalow. Through the lighted windows he saw those for whom he sought, the man, older, and gray about the temples, smoking by a fireplace, and the woman reading as she sat close by on a divan—a woman so changed that he scarcely recognized her, hair streaked with silver, and fat, sagging chin.

Turning away, he returned quietly down the street. A policeman was ringing in at his box on the corner.

Kruge hurriedly retraced his steps and pushed the bell. As the woman opened the door, a look of stark terror came into her eyes and she shrank back with a muffled cry. Without a word he stepped by her into the living room.

Mortimer had anticipated him, and white-faced, yanked open the drawer of a desk. Kruge's hand dropped to his pocket.

Mortimer whipped out an automatic. Twice it belched flame with a deafening roar. Kruge lurched back against

Are Vermont Students Overworked?

By I. R Rowe '26

... independent scholars, as well as students in college, our curriculum ... use to which the extra time might be put.

College was supposed for men and not man for college ... by its ability to bring the best out of an individual ... and only that far, it justifies its existence.

... offers courses of study. These ... required of a student, and sometimes it seems that administrations consider it all there is to college.

Such studies, in theory at least, are intended to give one a knowledge of subject matter—a fund of information, training in the application of one's mental faculties—ability to concentrate and to make the mind obey the will, a certain increase in mental strength, as one gains huge biceps by exercising with dumb-bells; an interest in learning so much so that we may desire to go on and add more to the world's supply of knowledge.

... one would say, a most commendable aim.

... could have been obtained in a medi... [illegible] ... is only one side of the question. Students coming to college are very real people, and like nearly all groups, very human in interest, thought and emotions.

First of all, one must be a social being. A recluse is not the product desired.

One comes to college to prepare for life, and by that I mean life in the world among other individuals, whose aim is to get a living and live as happily as possible.

... a very real, "common, everyday" sort of workable ... For it is happiness in life and usefulness in the world we are working for, and not a degree, except as that is a means to this end.

So, I believe, that school, in a sense, should mean "leisure," but a leisure spent in the most profitable way in terms of life. College courses, books, and our social situation in college, all that makes up the machinery of a university, are but raw materials and in no way are they an end in themselves.

At the same time one is in college, he should be quite as much a citizen as he intends to be when he has been graduated. He should have time, and take time, to have his share in campus activities, and also to be an intelligent, informed and thinking citizen of the United States. Such a habit should be established at college.

There should be leisure, too, for social life, even more than is offered in the outside world. Time to make friends, to learn to know and understand people, and to learn to get along with them. Thus campus life, fraternity life, and the social life of dances, parties, and shows, in varying proportions for different individuals, are as much a part of college as mathematics and chemistry—in fact, more so.

Leisure to give ourselves the bodies of healthy men and women, for games and athletics. Only normal individuals can enjoy life. A student has a right to a strong arm, a deep chest, and good health as much as the proverbial woodsman. He needs them just as much for life.

As important as anything is leisure for thinking. By this I do not mean the thinking of English or economics, nor that of planning parties or running an expense account.

The student has thrown at him in the classroom all the time ideas and theories from the minds of other men.

Perhaps they are new to him; perhaps they are like his, or they may be undermining all his former thinking, tearing his treasured philosophy of life into shreds, and leaving everything a wreck. These he must do something with, if they are ever to mean anything more than the contents of a movie.

This is one of the hardest tasks in college. A thing that calls for friends who will talk and talk on everything of interest at the moment. Time with one's self is necessary, too, to become acquainted with one's nature.

Time should be given a student to plan. Time to choose one's job and build for the future; time to lean back in one's chair with feet on the table, and just dream; time to erect huge air castles, high up among the clouds, huge blocks of ambition, and hope, and desire, which make the battlements just about pierce the sky; time to sit and gaze into a fireplace, and build up in imagination the world of the future. We are all dreamers, more or less. We must be, if we are ever to be doers.

Time to live is as much the student's right as that of anyone else; time to read favorite books, to ride one's hobby.

In a sense one has no time for loafing. It's a crime to absolutely loaf, do nothing, and sit with one's hands folded and mind vacant. But there's little danger of this in college. It's rather a matter of what one will do, how one shall divide his time.

College life, I believe, should include the above as some of its aims.

Is our curriculum over-emphasized here at Vermont at the expense of other elements in our training?

At the start, it must be admitted that some degrees are easier to obtain than others; that some courses are much harder than others, representing twice or three times the work of other courses. Also, that no two students have the same ability. It is not surprising that a good ratio of studies to leisure is hard to find.

Fifteen hours of work a week ought not to be too much for anyone in college. Those who find it too little can arrange for more. Some cold-hearted professors would advise those who find it too much to take the alternative and leave college.

It is safe to say that we are all lazy, some more and some less, as circumstances will allow us to be. We not only hate to study sometimes, but what is much worse we don't study hard enough when we are studying. That is what we need to learn, to work hard, work all over, lose ourselves at it. This takes effort, and most of us would not learn to do it unless we were pressed.

Two hours of preparation for an hour in the class is enough for anyone, as an average for all his classes. This makes only thirty to forty hours of studying out of one hundred and forty-four in six working days. I don't think ten per cent of the students study that much.

Such studies should not, however, come to be our only interest, in that we think that there our reading, thinking and work shall stop. We are apt to feel so elated, free and virtuous when we have "hit our stuff," as to think that it is not expected of us to have another serious thought in the world, and spend the rest of the time at that pastime which promises us the greatest number of thrills.

I believe that a college man should be busy at something all the time. Now busy studying, now intensely occupied at football, now busy just relaxing all over, perhaps playing the piano or victrola. Listless activity breaks down one's energetic nature, his ability to do anything. It is something we should avoid as we avoid X's and F's.

One can't study every day. The let down must come. Then why not accept the fact, and let ourselves have a day off or a night at the movies when we really do let down. This time is not wasted, unless one does it to excess. It is necessary.

A day off spent reading fiction, hiking or at any other positive pastime is no sin. I think we ought to plan definitely for such. It's up to us not to let our studies run us, but run them instead.

Every man's schedule is his to make. I don't suppose it would be a bad idea to make one's self a weekly schedule, although I never have had the initiative to try it. There's a surprising amount of inefficiency in the way I use every twenty-four hours. Time just thrown away.

Some other colleges have a lighter schedule as to required hours than do we. But are not their courses harder, calling for more time spent in preparation? Then, too, taking Harvard as an example, aren't the students for the most part better prepared than we so that, even though they don't have many classroom hours, they spend much time in independent study?

I don't think our faculty trust us to do any intellectual work outside of the bare requirements of our courses. If they did, then they would be justified in lightening the demands.

I don't think we are overworked at Vermont, as a whole. Some are trying to do too much outside of studying, so that they are overworked. Some are trying to take too many hours or too hard courses.

If I did all the reading in the library and elsewhere that

wish you all

a

Merry Christmas

and a

Happy New Year

... to I would be unable to do my work. How- ... taking an extra course. Surely I can't blame ... for that.

... is expected of us to be, in a sense, independent ... as well as students in college, our courses ought ... lightened.

Vengeance

(*Continued from page 11*)

... and fumbling desperately with the pocket of his ... pulled forth a small black volume, and stood ... eyes glazed, jaw sagging, a deathly pallor on ... face.

... ging open the fly-leaf with fumbling fingers, he ... to speak, then slumped to the floor, the book ... clutched in one hand. He threw his other arm out ... convulsively, shuddered and lay still.

Mortimer stood in a stupor even bulging as he gazed at the inert figure, arm still grasping the revolver and hanging limply at his side. Excited voices a pounding on the door. He recovered himself and hastily replaced the gun in the drawer of the desk.

The officer burst into the room nightstick in hand fol lowed a moment later by a police sergeant.

"Keep 'em covered," he ordered crisply and bent over the lifeless body.

"Dead, all right—shot through the heart" he exclaimed straightening up, "—and unarmed! What's this" He removed the open Bible from the dead man's clutch and looked at it.

"Kaymour Kruge, Sing Sing 1905. Deuteronomy 32 35" he read. Curiously he opened to the passage. "Vengeance is mine, and recompense, at the time their foot shall slide: for the day of their calamity is at hand. And the things that are to come upon them shall make haste."

VERMONT DEFEATS NEW YORK TEACHERS 39-14

... former Burlington high ... star, led the Green and Gold ... quintet to a 39-14 victory over New ... Teachers College in the gymna- ... December 17. Besides being a ... whirlwind on the defense, Price piled ... 13 points the first half, and eight ... during the last session.

For Teachers College Nephew was easily the star both offensively and defensively. Carr, at forward, also played a good game.

The Prentice to Katz combination worked to perfection several times during the game. During the first half, Captain Post had to be contented with watching Price score, but during the last half he broke loose several times himself.

VERMONT WINS FROM McGILL FIVE, 32-18

Playing the first game following a ... weeks vacation the University of Vermont basketball team took the McGill five into camp on the local floor Monday night by a score of 32 to 18. The work of the Green and Gold players was not up to standard, a lack of practice being evident by the manner in which the ball was passed aimlessly around the floor at times.

Coach McAvoy used ten players during the course of the contest, Marvin being used at center for the first time this season. Thompson, Whitcomb and Moodie were also in the game for a short time as substitutes.

Prentice led the Vermont attack against the Canadian team by scoring five baskets for a total of ten points. Price likewise made ten points with four baskets from the floor to his credit and two fouls. For the visitors Quackenbush, playing left forward, was the star with eight points to his credit.

Referee, Swaffield. Time, 2 20's.

R. B. Maxted, University Y. M. C. A. secretary, addressed last week a men's meeting of the Burlington Y. M. C. A. on the subject, "The Truth Shall Make You Free."

The University of Vermont has added materially this year to the equipment of the Fletcher Hospital, having purchased for it a stethophone and given $2,672.74 toward the X-ray, making a total gift of $5,000.

Sophie Kerr, who took a post-graduate course at Vermont when Mrs. Grace Coolidge was here, disserted the other day on marriage. Successful marriages, says she, must be based upon mutual interest. You cannot make a pattern, of course, for marriages any more than you can make a pattern for individuals . . . the romantic glamour must fade sooner or later, and then some women make the mistake of neglecting to be pleasant!

East of Eden

Most novels which attempt exposition of anything more than romance have the disadvantage that because of the differences in tastes and interests of readers such novels appeal to only a limited audience. A few contemporary novels have had almost universal appeal and East of Eden by Louis Mastersons story of the struggle of farmers in the north states against soil and depression and all the evils the farmers meets and elsewhere decay promises to be in this class

To the palate into romance by the writer it offers a view of rural courtship, marriage etc which while we cannot commend it as at all truthful across the farmers of the West and their families are more sodden than their Vermont prototypes is interesting in its portrayal.

East of Eden is notable chiefly however for Fred Iverring a farmer of Finnish parentage who suddenly becomes much interested in the movement for cooperative marketing. His failure to understand the fundamental issues and difficulties involved if partials exaggerated at least suggests the difficulties with which farmers' cooperative movements everywhere are faced. His constant rivalry with Nicholson which comes to a sudden startling climax in the last pages, is the meeting of two breeds of man kind the spirit of the serf with that of the natural master

EVOLUTION OF FLAPPER ADDED TO CURRICULUM

"The Evolution of the Flapper" is the name of a course that has just been organized for girls of the Stanley McCormick school at Burnsville, N. C. The title has been unanimously adopted by the girls who make up the first class, and is the name by which the course will always be known about the campus. Even the faculty agrees that a more fitting name could not have been chosen, for the course deals with the long series of historical development which have combined to make the flapper what she is today

Dr Frederick H. Devere, of Providence, R. I., was recently initiated into the local chapter of Phi Chi. Dr. Devere was graduated from the medical college in the class of '98

A number of professors and departmental heads took advantage of the Christmas recess to attend annual meetings of the various scientific and educational societies with which they are affiliated

Professors Bassett, Kamblin, Prindle and Whitehead attended the meetings of the American Philological Association and the Archeological Institute of America, held at Cornell University, December 29-31. Professor Burns has just returned from Kansas City, Mo., meeting place of the Botanical Society of America. Professor Swift was present at the meeting of the American Mathematical Society, in New York, and Professor Perkins at that of the American Society of Zoology, held at New Haven, Conn. Professor E. C. Mower, Professor Carpenter, Dr. Aldinger, and H. A. Mayforth were others who undertook journeys of a similar nature

[illegible] of Arizona will send [illegible] April 9, to debate the [illegible] question.

TENNIS TEAM PREPARES FOR STIFF SCHEDULE

[illegible] Vermont has almost [illegible] tennis matches as last [illegible] effort is being put [illegible] a winning team.

[illegible] has been suspended [illegible] Farmymen's Convention [illegible] will not be possible [illegible] examinations. Im[illegible]ward, however, there [illegible] another general call for candi[illegible]s for the team.

Cynic Elections

Elections of Editors and Managers of the Cynic and of new members of the Board will be held Thursday afternoon, February 4, in Room 3 North College, at 4 o'clock. All members are requested to attend.

COLLEGE OF MEDICINE BENEFITS BY WILL

The College of Medicine will be materially benefited under the terms of the will of the late Dean Henry C. Tinkham, which was probated Tuesday. The will provides for personal legacies of $10,500, the use of the remainder being given to Mrs. Tinkham for life. At her death, the estate will be divided, relatives receiving small bequests, the Delta Mu Fraternity, $1,000, and the College of Medicine the balance.

One or more scholarships will be established with this fund, and the remainder used in any way the College desires. The College also received Dr. Tinkham's medical library.

President Guy W. Bailey is executor of the will.

Scholarship is the Important Thing, Think These Colleges

Cuts Allowable at Dartmouth, Harvard, Williams, Maine and Bowdoin Depend Upon Standing of Students in Their Courses

HARVARD SENIORS GET UNUSUAL PRIVILEGES

Cambridge, Mass., January 11.—Harvard seniors in good standing may henceforth omit all the lectures and classes they wish. The faculty announced this action today, with the stated proviso that vacation periods may not be extended. The change will take effect at the beginning of the second half year, next month.

Heretofore the only students allowed unlimited "cuts" were those who had won a place on the so-called dean's list, made up from the first three groups of the rank list. A provision that absences must not interfere with the conduct of classes applies both to the dean's list men and seniors.

The new action is frankly an experiment, the announcement said, and is in the direction of greater reliance upon individual initiative.

Four New England colleges report cut systems quite similar, which are along the lines the Cynic would like to see put into operation at the University of Vermont. At the University of Maine, at Dartmouth, Williams and Bowdoin, certain students maintaining a specified grade are allowed practically unlimited cuts so long as they maintain this grade.

For instance, at Maine "any student obtaining an average grade of B or better is eligible for what is here known as the 'Dean's list.' Scholastic standing is the only requisite for this list, which is changed every time grades are given out, or four times a year.

"As long as a student is on this list, he is allowed to cut any class any number of times except 'time' courses, such as laboratory classes and drawing classes, where all the work is done in class, there being no outside preparation.

"Students not on this list are allowed a certain small number of cuts in each course, such as two cuts per semester in a three-hour course and three cuts per semester in a five-hour course.

"Students over-cutting have one-fifth of an hour added to their graduation requirements for each over-cut. All over-cuts for a semester can, however, be excused if the student has no over-cuts the next semester."[1]

At Williams "freshmen are permitted to be absent from three exercises in each regular course in the first semester.

"Seniors, Juniors and Sophomores --and Freshmen in the second semester are allowed absences in each regular course . . . based on the record attained in the course or courses (taken generally in the preceding semester) that bear the closest relationship to the course in question—based on E one absence, on D two absences, on C three absences, on B and A five absences.

"Phi Beta Kappa Seniors are not limited in the number of absences allowed in their regular college subjects, so long as their work is satisfactory."[2]

Provision is made, however, that consecutive absences from the same course, unless excused by the dean, are not allowed; pre- and post-holiday rules are the same as here; special examination is required after prolonged absence, unless when the total absences in a course exceed fifty per cent of the exercises of the semester, when credit for the course may be allowed only by special vote of the Faculty.

The Dartmouth rules[1] are even more liberal than those quoted, and absences are regulated by the following system.

"Students of the three upper classes who have obtained a standing of at least 3.2"—an A and 4 B's or better—"for the work of the preceding semester are relieved from discipline for classroom absences during the following semester, except under the conditions stated in Article 7 of the 'Regulations,'" which provides that "students absent for any reason more than five exercises per semester-hour for any course, shall receive no credit for such course."

"Members of the freshman class having a standing of 3.2 for the first semester: Twice as many times as the course is scheduled for exercises per week.

"Students having a standing for the preceding semester between 2.4 and 3.2"—a B and 4 C's or better—"twice

Lose Three Out of Five But Outscore Opponents

Empire Staters Too Much for Green and Gold, Who Take Revenge on Canadians, More Than Evening Scores

Although the Green and Gold quintet has lost three out of its last five games, the season's score still shows Vermont far in the lead in both games and points.

Defeating both Montreal and McGill on their home floors, McAvoy's charges may now claim the championship of Canada. The New Yorkers, however, have consistently defeated the Green and Gold.

N. Y. U. Wins 28-19

Although weakened by the absence of Capt. Frank Kelley, the New York University quintet scored a hard-earned victory over the Green and Gold on the heights floor by a 28-19 score.

Herman Hillenbach proved an able leader and in the second half took away the hope of Vermont of bringing home the bacon.

The first half was nip and tuck all the way, with the half ending in a 13-13 deadlock. Vermont started off well in the second half, but was not able to keep the pace of the experienced N. Y. U. quintet.

For the Green and Gold there were no special stars, Prentice and Marvin sharing the scoring honors with six points each.

Union 39, Vermont 29

In a game marked by poor playing, Union College defeated the Green and Gold by a 39-29 score at Schenectady, January 6. Flashes of real basketball occurred from time to time throughout the game, both sides showing good form for a good part of the second period.

The outstanding player of the game was Makofski of Union, who ran up a total of 18 points. Prentice was the star on the Vermont offense, making three field goals and three fouls.

Throughout practically all of the first period both teams handled the ball clumsily and failed repeatedly to make good tries for goals.

The second period opened poorly but within a few minutes both teams stiffened materially and from then on until the finish the game became fast.

Tie a tin to trouble

A TIDY red tin of Prince Albert, to be exact. There's the greatest little trouble-chaser in the known world. Smoke P. A. and pipe-grouches choose the nearest exit.

Yes, *Sir,* P. A. is right there with the Polly-anna stuff. Sunshine, gladness, the light heart, the bright smile. Because Prince Albert is the cheeriest, chummiest tobacco that ever tumbled into a briar or corncob.

Smoke P. A.—and *smile.* Cool, comfortable P. A. Fragrant, friendly P. A. Not a tongue-bite or throat-parch in a ton of it. The Prince Albert process hung the "No Admittance" sign on Bite and Parch the day the factory opened.

Get a tidy red tin of P. A. today and give pipe-worries the gate.

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

WOMEN'S GLEE CLUB CONCERT IN THE GYM

The Women's Glee Club concert, given under the direction of Prof. H. G. Bennett, head of the Department of Music, took place last evening in the gymnasium.

The main chorus of thirty-five voices was assisted by Margaret Corbin '29, accompanist, Eleanor Chapman '27, violinist, and the Glee Club sextette. A large audience attended the concert and the success of Professor Bennett's efforts was apparent in the fine program given.

An informal dance, a "leap year" affair, followed the concert. The program given by the Glee Club was as follows:

Three Swedish Folk Songs, harmonized by Saar.
Spring Breezes.
Vermeland.
Judge's Dance.
The Glee Club.

Three Old English Madrigals
What Saith My Dainty Darling *Morley-West*
The Silver Swan .....*Gibbons-West*
The Nightingale .....*Weelkes-Leslie*

The Glee Club.

BACKFIRE

The gloom that hangs over a college directly after vacation is a fearsome thing. Like the true London fog, it is thick enough to cut with a knife. The only glimmer of merriment is an occasional reminiscent smile or a subdued and private chuckle over the memory of how perfectly ridiculous Joe looked in that paper hat on New Year's eve. The password at this time is "Didja hava good vacation?" and the accepted and stereotyped reply, "Gosh, yes; but I sure need sleep!"

It is perhaps beneficent of the authorities to schedule our mid-years so soon after vacation. At least they give us something to think about, and to a certain extent blot out the too vivid recollection of that heart-rending moment when Bill went back to Yale or Bettina returned to Smith. A rather drastic cure, but effective.

WITH USUAL APOLOGIES

Mid-years are too much with us, late and soon
Studying and cramming we lay waste our hours;
Little we see in books that may be ours
The coffee that is made by light of moon,
The grill that will be working at all hours
Producing stimuli to aid our powers,
By this, by everything we are put in tune
And it avails us naught. Great Scott!
I'd rather be a waitress in a dress much worn,
So might I viewing co-eds from my tea
Have glimpses that would make me less forlorn,
See students flunking, and would then agree
I'd rather be a waitress, than a student born.

E. C.

With the Fraternities

Kappa Alpha Theta

Dorothy Harvey, returned from her studies abroad, will take several courses at the University after mid-years.

Mary Jean Simpson '13 has been appointed to the office of Journal Clerk in the United States Senate. She is the first woman to hold this office.

Delta Delta Delta

Nan Waldron Horton '25, who was married December 23, was a recent visitor in town.

A supper party was held at the chapter rooms on Wednesday evening.

Pi Beta Phi

Mrs. Gebhardt entertained the chapter at a tea at her home on College Street, Tuesday afternoon.

Alpha Chi Omega

Edith Ladd Armstrong '24, Hazel Stanhope '24, and Grace Everest of Tau chapter were visitors at last week's meeting.

The name of Fern Westover '27 has been engraved on the chapter scholarship cup.

Sigma Gamma

Consuelo Northrup '21 has returned from Montpelier where she was sworn in as attorney-at-law, January 5 before the Vermont Supreme Court. She is the first University of Vermont graduate to be admitted to the Vermont bar.

Y. W. C. A. NOTES

Mrs. Beatrice S. Ketchum, traveling student secretary, spent the week-end with the local association.

Doris Harbour has been elected secretary to fill the vacancy caused by the resignation of Betty Chutter.

Dancing has been added to the curriculum of Bates College, "down in Maine," and the first of a series of dancing classes was recently held. The class is made up of 22 sophomore women, each of whom is privileged to invite a guest from the men's side of the campus. The lessons will cover the principal modern steps.

"America is a terrible place," declared Mrs. Catherine Smith, 70, upon her arrival in Liverpool after a visit of several months in this country, where she had intended making her home until she found what she was getting into.

"The sins and wickedness of the Americans make it impossible for me to live there," she said. "It is work, pleasure and sin from morning to night. There is no home life and no Sunday schools."

Peking.—Marriages between co-eds of the various government colleges and universities without the consent of parents has been prohibited.

Governor General Li Ching-lin, of Chihli province, asserted that the social custom of the West has penetrated China to such an extent that many young men and women contract marriage without parental approval. As the general viewed free marriages as detrimental to the ancient doctrines all professors and students will be dismissed and punished without mercy if they persist in the practice.

"I am pledged to Stoicism."
"Oh, really? Did you see any of the other fraternities before you decided?"

SPECIAL PERMISSION RULES ARE CHANGED

At last Saturday's meeting it was voted that no special permission be required for theater parties and college dances lasting after 10 o'clock. For other social functions lasting until 11, permission may be obtained from the House President, Town Girls President or President of Student Union, according to one's residence. Attendance at private parties lasting after 11 must receive permission from the Dean of Women.

The question of eating downtown after 10 o'clock was brought up for discussion but no vote was taken.

ADVICE TO THE LOVE-LORN?

The great number of newly engaged couples on the campus brings forth the necessity of an "Advice to the Lovelorn" column. Think of the advantages of such a department!

All the little worries of the girls (or even the men!) could be frankly discussed and practical solutions found. The unengaged, desiring to become engaged, could be shown ways to attract and ensnare the unwary males of their desires. Halfour might give the CYNIC a reasonable commission on all the pins ordered through the influence of this department.

One could go on naming advantages indefinitely. What sort of cases would be discussed? Poor Francesca the brunette, realizing that her beloved hero is becoming seriously interested in a beautiful blonde, could be advised to bleach her hair, use different rouge and a different scent of perfume. And presto! Back would run the once faithless man, offering her the coveted pin or ring. Or Marianna, in love with the Campus Sheik and fearing that her love is unrequitted since he takes another girl to all the dances where he Charlestons and Harvard Hops, might be persuaded to learn the new steps and practice them until perfection rewarded her. Then, practicing her skill before the object of her love, she would show him that she, too, did the latest steps. Whereupon said C. S. would discover that dancing was the only thing about Marianna that formerly did not interest him, and nothing would prevent their engagement.

Oh, there are so many instances of this sort one could fancy! Why not have a few real ones from the campus?

(EDITOR'S NOTE: Volunteers for conducting such a column will now be considered. The line forms outside the Old Mill on Monday morning.)

Junior: "I get XYZ on my radio every Friday night. That's Paris you know."

Frosh: "That's nothing. I get ROTC every Thursday. That's Hell."

WHY WORRY OVER EXAMS?

Campus Comment

To the Editor of the Cynic

The varsity "V" has ... highest honor that any ... most might win. It has ... in the past to a group of ... whom add college credit ... The privilege of wearing ... sung, extended to include ... sports and great leaders ... seems to me to be hitting ... nose breaking when it ... to those connected with the ... department.

Would not the "V" better ... purpose of designating the ... ment if it were to be awarded ... ers on the campus who have ... athletics or not? There ... many students here who ... keen ability but who have ... long given of their best for the ... lure of Vermont and of the ... body in general. They have ... strated the same spirit in ... positions that others have ... the field although it is less ... vious to the onlooker.

Men who have directed ... of the most important student ... ties, such as the Senate, the Kake Walk, etc. have ... proven themselves worthy ... est award that can be given. They have used time ... needed for their own interest ... charge the duties which these ... have demanded of them.

To fulfill this need, "V" ... be divided into two classes ... consist of athletes and the other ... holders of the offices mentioned above, to include also managers ... cheer leaders. A distinctive ... the "V" would be designed for ... latter class, to serve as a ... faithful service to Old Vermont.

Iowa University is trying out a system whereby exceptional students may be graduated in less than four years without carrying extra work. Special classes are provided for those who show unusual ability.

Scholarship the Important Thing, Think These Colleges

(Continued from page 1)

as many times as the course is scheduled for exercises per week.

"Students having a standing for the preceding semester between 2.0-2.5 (C's) and 2.6: As many times as the course is scheduled for exercises per week.

"Students attending there last semester at Dartmouth and those having a standing for the preceding semester of less than 2.0: Two absences from a course meeting three or more times per week, and one absence from a course meeting less than three times per week.

For each three unexcused absences in excess of those allowed, or major fraction thereof, "one hour and one point credit will be deducted from the record for the semester."

The system at Bowdoin, too, is very definite, and takes account of scholarship.

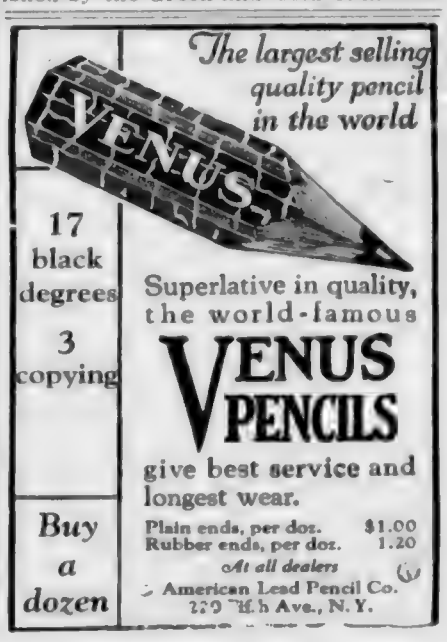
"Freshmen are regularly permitted three cuts in each class during the course of each semester. . . . All upperclassmen are permitted four cuts in each class. . . . Over-cutting is penalized by placing the student upon probation, which forbids his cutting any class . . . during a specified period.

"In addition to these provisions, all Sophomores who secure ranks of half A's and half B's, are permitted six cuts instead of four. All Juniors and Seniors attaining straight B's are permitted six cuts, and those ranking half A's and half B's are permitted unlimited cuts. These privileges can be revoked at the discretion of the Dean if they are abused."

In all of these systems there are at least two points in common: Every student knows definitely just how many cuts he may take in any course, and what is the penalty if he exceeds the allowed cuts.

Just as important, each of these systems takes account of scholarship. In every instance the student who can "hit his stuff" is given special privileges so long as he does not drop below a certain standard. In every case certain seniors with high scholarship enjoy unlimited cuts; in some instances—at Maine and Dartmouth—this applies to the upper three classes.

In this investigation, the CYNIC wrote letters of inquiry to every college of standing in New England, and no attempt was made to choose those with systems of the sort the CYNIC advocates.



That there is a preponderance in favor of such a system in actual operation is indicated by a cross-section dictated only by the replies received.

In the first issue after mid-years, the CYNIC will outline the plan which it suggests for the University of Vermont, which will be based in general upon those outlined in this issue.

Omitted portions refer to chapel cuts.

SPORTING NEWS

RECORD SQUAD AND NEW ENTHUSIASM IN TRACK

Coach Prophesies Record Season New Plans to Be Discussed After Mid-Years

Football Coaches Want to Eliminate Professionalism

YES, WE'VE THE MEN: WHERE'S THE RINK?

Hockey Enthusiasts Can't Find a Place to Play the Games Offered

With other inter sport hockey has been enjoying precarious existence years. This year is no spite of the inability of the Council to finance that ment in favor of it from the student body, and it is that Vermont may put a team on the ice this winter.

A meeting was held Saturday 9, under the direction Russell, '26, for discussion upon. It was well attended interested in the sport as the seven players who are the team of two years ago as only two players have from that team by graduation that there is a large amount material available it was census of opinion that such a unity, with its prospects of a lent team, should not be allowed pass.

Not only would there be ficulty in building up a team would probably be little difficulty securing opponents for comes from a reliable source that Middlebury and St. Michael's intimated their willingness to play. Besides this, a telegram has been received from the Union College offering to play a game here on Walk time.

The great obstacle just now seems to be the lack of a rink. Athletic Council already overdrawn financially, cannot afford the expense of building one this year. City authorities have been approached with reference to land under municipal control with completely negative results. The matter was finally discussed with President Bailey, who now has under advisement.

If the President is unable to do anything, only two expedients are left. It may be possible to secure the use of a distant lot which is already laid out as a rink, provided those interested will furnish all the necessary labor for flooding it. Or Centennial Field may be used; but it would require a tremendous amount of work to put the track in shape to make it ready.

INTERCLASS SNOWSHOE AND SKI MEET COMING

An interclass snowshoe and ski meet to be held February 5 or 6, immediately after mid-years, was considered at a meeting of the Outing Club Monday afternoon. If such a meet is arranged and shows the presence of any talent it is thought that the University will be able to participate in intercollegiate meets later in the season.

Lose Three Out of Five But Outscore Opponents

(Continued from page 1)

Manhattan Wins 36-26

Beat Montreal 46-27

Monday Captain Post and his comrades traveled to Montreal and took the M A A A into camp with a score of 46-27.

The Green and Gold lagged at the start, but soon got down into their familiar form and the Canadians never had a chance. The Vermonters' defense was working well and in addition the Montreal team lost most of the passes at the basket.

The score at the end of the first half was 17-7 for Vermont and the same team showed under for the remainder of the contest. The last whistle cut off a rally by the Canadians and they never spurted.

Post and Prentice were deadly with 16 and 12 points respectively. The Montrealers have not improved their scrapping since they visited Burlington but if they ever do they will have a team that will be hard to beat.

Marvin, center, starred for the Vermonters.

Beat McGill 44-22

The Green and Gold again beat McGill Tuesday night at Montreal by a score of 44-22.

The Vermont basketeers got away to a speedy start, and maintained it throughout, although the Montreal aggregation attempted strenuously to stop the visitors onrush.

The first half ended with a count of 26-17.

For Vermont Prentice was high scorer with a total of 17 points, while Price and Marvin netted 11 and 10 points respectively. Amaron was a leader of strength for the opposition, being high scorer for them.

BIOLOGIST DISCOVERS WHY THEY DON'T MARRY

Professor Shull of the Zoology Department has made a great discovery. He has long puzzled over the fact that college men and women do not marry as often as other people. At last he has found the reason: "Women in general choose to marry men who are their superiors; but for college women there are no such men; hence they rarely marry. The case for men is almost the same, for men as a class choose to marry women who are somewhat inferior to themselves; but as college men can find no such women, they do not often marry." And with this cryptic solution, which really kicks twice, Professor Shull leaves the problem.—*The Michigan Alumnus.*

SOPH P. T. FOLLOWS COMPREHENSIVE PLAN

Will Be Resumed Right After Mid-Years on Entirely New System

Dr A K Aldinger

Who Directs an Investigation Into Various Problems

A comprehensive program is being planned to provide the basic principles of all sports. A course of study will be mapped out which will be experimented with and revised from time to time as four years probably being required before a final plan is adopted.

Dr Aldinger expects to find in his research much valuable material for coaching teams. Vermont has never produced a great athlete which she can point to, her own. They were all developed before they came here to the new campus however it will be possible to uncover whatever talent undoubtedly exists in the college.

The director mentioned cases where freshmen who had never played basketball before two months ago were better now than many men with three years experience.

Many of the college athletes know their own sport well and often are excellent judges of other sports. Their own coaching and that they cannot see themselves as others see them. Through psychological tests we can have a whole new system of coaching which will be one step further in the development of athletics.

Arrangements to be made in the gymnasium, providing for locker and shower rooms together with the construction of the stage at the west end, will give the department more convenient quarters for both.

At the meeting of the Argus Club tonight Chief Kahin Zeta commissioner for the Canadian Province of Quebec will speak on the subject of Canadian Sports. Mr Zeta is a graduate of the University of Montreal and has been prominent in athletics and boxing in the province of Quebec. He is also a member of the Montreal Athletic Commission and has been instrumental in bringing many of the world's champions to Montreal. The Canadian Province of Vermont should be complimented by the presence of this prominent coach on the campus.

The debate between W F Burns and W H Sykes and R V Allen concerned the decision to the Japanese Army and the affirmative side of the question.

Following the debate Prof G F Haines spoke on the work that the University of Vermont is doing in the matter of honor scholarships.

GLEE CLUB NEEDS A GOOD ACCOMPANIST

GAME WITH WILLIAMS ARRANGED FOR FEB. 20

Ariel Material Needed At Once

All individual snapshots and formal photographs for the 1927 *Ariel* must be in the hands of the editor by the 20th of the month at the latest. The plans for the Grand section call for the usual formal picture and with this will be an informal snapshot which makes it necessary to have the two pictures of each member of the class before this section can be sent to press. In case the snapshot is not in by the set date it will be necessary to use some view of the campus to fill its space, will of course detract from the appearance of the book and reflect upon the class spirit of the person concerned. A liberal discount is allowed the Board if this material is in the hands of the printers by the middle of the week and this makes it essential that all who have neglected this matter should attend to it at once. It will certainly be appreciated.

All contributions for the joke section should be handed to the Editor as soon as possible. Anyone who has any ability along this line should make an effort to contribute as much as possible in order that a good section may be obtained. Contributions may be in the form of original jokes, humorous articles, parodies, take-offs, cartoons etc. These should preferably bear some relation to college life at Vermont and contributions are solicited from all classes. Do not copy material from other humor magazines be original as possible. Remember the new *Life* slogan "All the jokes that is fit to print," the "fit" part applies to the *Ariel* as well.

Any pictures which relate to the college in any way taken since the publication of the 1926 *Ariel*, which would be available for use in the sport or dramatic sections are also solicited. These should be left in the *Ariel* box at the Old Mill or handed to Phi Delta, A T O house, or to George Gault at the Zeta Psi house.

All formal and informal pictures, prosthetaires and grinds should be given to Daniels or left in the *Ariel* box.

A meeting of Alpha Zeta was held Wednesday evening January 12, at the Phi Mu Delta House.

KAKE WALK IS NEXT EVENT ON CALENDAR

Stunts of Poor Quality Will Be Eliminated to Improve Standard of Event

The annual presents the Kake Walk for the second time next on February 3 and 4. The Walk is usually held on Washingtons birthday but owing to it falling on Monday this year some adherence to tradition would be observed.

It is expected that this year's performance will surpass the best of past events. An element of more intense competition has been introduced in the stunts put on by the various fraternities.

Only eight fraternities will be eligible to compete as has been the practice for several years. Fraternities will be ordered to present a complete list of their stunt two weeks before the presentation. A representative of a fraternity entering a stunt must appear before the stunt committee to explain the stunt. It is assumed that if a stunt is so poor that it has no chance to win the cake or to make a creditable showing, it may be refused a place in the program, but another may be written and presented to the committee.

On February 18 dress rehearsals of all stunts will take place in the gymnasium before a group of judges. The latter are empowered to recommend the removal of any stunt which does not measure up to the standard, in order to secure and retain the interest of the public. The plan was adopted last spring by the old Student Union, and details have been worked out by the directors, Edward I Drury and Francis K. Lillie.

EDS AREN'T ALWAYS SO DUMB AS THEY APPEAR

Early in the evening, at a dance held by two Boston University organizations, a College of Business Administration boy had approached Mary, a Practical Arts and Letters girl, and slipped a note into her hand. It read, "I'm deaf and dumb and therefore cannot talk, but I can dance." She gave him that dance, and another, and another. She wondered what he would say to her if he could speak. She reflected for a minute and decided that his silence was better than the talk of many other men she knew. Her thoughts were interrupted. The music started up and her partner silently suggested that they dance.

When the music had ceased, she looked into his soft blue eyes and thrilled as he returned her gaze. But her ecstasy was turned to surprise when he moved his lips and she heard these words, "Hadn't we better sit the next one out?"

Mary was revived by a bottle of smelling salts. And the moral to this is: A man may not be as dumb as you think he is.—*Boston University News.*

NOTICE TO SENIORS

The Cynic reprints the following notice to Seniors:

At a meeting of the Faculty this year the following was adopted as a matter of policy in the case of Seniors:

That any Senior carrying one subject at June examinations be granted one conditional examination prior to Commencement.

Any Senior conditioned in subjects in June will be permitted to take conditional examinations prior to Commencement.

That a Senior receiving a "D" in a subject should not be permitted to remove this grade by examination prior to Commencement.

The attention of all Seniors is furthermore called to the rule printed in the regulations:

No student will be allowed to enroll in the courses of the graduating half year of the Senior year who has outstanding conditions in any subjects taken prior to the Senior year. Subjects being repeated in class are not considered outstanding conditions. All conditions incurred during the first semester of the Senior year must be removed by the end of the spring recess. Seniors failing to meet these requirements will not be considered as candidates for a degree and will not be permitted to participate in the exercises connected with graduation.

(Signed) ELIJAH SWIFT.

The Vermont rifle team will shoot its only match between Christmas vacation and mid-years, against the R. O. T. C. unit of Mass. Institute of Technology this afternoon. Another match was scheduled during this period, but had to be cancelled.

LYON AND LOCKWOOD WILL HANDLE CYNIC

New Officers Will Take Charge Commencing with Next Issue of Cynic

[illegible] Lyon '27 of St. Albans [illegible] editor-in-chief of the [illegible] afternoon, and Wil[illegible] '27 of Burlington [illegible] manager for the [illegible] In addition to these, [illegible] the CYNIC might be car[illegible] more efficiently in both de[illegible] than one man in each [illegible] with the present de[illegible] time and energy, two [illegible] elected who will [illegible] subordinate capac[illegible] on, however, separate

[illegible] Phelps '27 of Milton was [illegible] editor, a new posi[illegible] and the other new office, that of [illegible] manager, will be filled by [illegible] Martin '27 of Bethlehem,

[illegible] Crandall '28 of Burlington, [illegible] Lucchino '28 of Barre and J. O. [illegible] '28 of Milton were elected news [illegible], H. V. Greene '27 of Bethel [illegible] serve as sporting editor, and [illegible] R. Perry '28 of Springfield is [illegible] new intercollegiate editor.

[illegible] assistant business managers [illegible] Holden '28 of Bennington, C. H. [illegible] '28 of Winooski and A. C. [illegible]sworth '28 of Burlington were [illegible]

Most of the men chosen to execu[illegible] positions have been prominent in [illegible]class and university affairs. [illegible] was a news editor of both the [illegible] and Press Club during the past [illegible] and photographic editor of the [illegible] and active in other lines. He [illegible] a member of Key and Serpent, Pi [illegible] Rho and Lambda Iota.

J. B. Phelps has been a news editor of the CYNIC, feature editor of the [illegible] has participated in oratorical [illegible], class debating and in the [illegible] of a college play, and has served [illegible] several committees. He is a mem[illegible] of Gold Key, Key and Serpent, [illegible] Delta Rho and Sigma Alpha Chi [illegible]ternity.

Lockwood was president of his class [illegible] first year, has served on several [illegible]committees, and is an assistant direc[illegible] of the 1926 Kake Walk. He was [illegible] member of the football squad the [illegible] season. He is a member of Gold Key, Key and Serpent, Pi Delta Rho and Phi Delta Theta fraternity.

Martin has also participated in va[illegible]s class activities, and is a mem[illegible] of Pi Delta Rho and the Sigma [illegible] fraternity. Both Lockwood and Martin were assistant business mana[illegible] of the CYNIC last year.

[illegible] R. Mattison '29 of Bennington, [illegible] Overly '29 of Burlington, Wil[illegible]d Parker '29 of Bethel, L. A. San[illegible]ders '29 of Burlington and R. L. Tracy [illegible] of Rutland were elected to the [illegible] board as reporters. A second [illegible] will be run during the second [illegible] to choose three or four more [illegible]

Interfraternity Relays

The Interfraternity Relays will [illegible] held in the gymnasium Monday afternoon, February 8th; Wednesday afternoon, February 10th; Friday afternoon, February 12th and Saturday afternoon, February 13th.

Applications for registration must be filed immediately and forwarded to this office not later than Saturday noon, February 6th, and must be accompanied by two dollars [illegible] expenses.

Schedule of places for relays will be drawn by the committee and posted on the Athletic Bulletin Board before Saturday noon, February 6th.

No man will be allowed to compete for any fraternity who has not practiced the week previous to the meet under Coach Latty.

1926 DEBATE SCHEDULE INCLUDES SIX EVENTS

Final tryouts for the debating team will be held this afternoon, when three men will be chosen from the following candidates: W. J. Herron '26, manager; F. W. Guild '26; J. J. O'Connell '26; E. C. Mower '27; C. H. Wedell '27.

Middlebury will send a team here Thursday, February 25, to debate the question, "Resolved, that the Federal Government own and operate the coal mines of the United States."

The following tentative schedule has been released by Manager W. J. Herron of the debating team:

February	25—St. Michael's.	There.
	26—Middlebury.	Here.
March	4—M. A. C.	Here.
	17—Colby.	There.
	18—Maine.	There.
April	9—Arizona.	Here.

The debate with Arizona will be on the prohibition question, and the others on Federal ownership of coal mines.

FOOTBALL BIGGEST ITEM ON BUDGET

Graduate Manager Releases '25-'26 Budget for Athletic Department

In a letter to the Sporting Editor, Graduate Manager Mayforth gives the 1925-26 athletic budget in the belief that the method of expenditure of the $58,025 in this year's budget will be of interest to the student body. The letter follows:

"To the writer's knowledge there has never been published for the information of undergraduates, faculty or alumni a copy of an athletic budget, and with the feeling that this information is of considerable interest to them, the 1925-1926 Athletic Association budget is being sent to the CYNIC and *The Alumni Weekly* for publication.

INCOME

Membership Fees:	
Faculty, Alumni, Public	$ 1,000
Students:	
Men	13,700
Women	3,500
Kake Walk	1,500
Concessions	300
Lockers	275

(Continued on page 7)

CLASSES TRANSACT ASSORTED BUSINESS

The junior class has held two meetings recently. On January 15 L. H. Averill of Malone, N. Y. was elected chairman of the Junior Week committee, an individual [illegible] tax of five dollars was voted, and the matter of an appropriation for skating was discussed but not favored. On February 3, R. H. Blodgett of Bristol was elected manager of class basketball.

The sophomore class held a meeting on February 1. W. N. Cogswell of Warner, N. H., was elected treasurer pro tem, and C. H. Stevens of Winooski was elected manager of class basketball. Fifty dollars was voted for hockey and $25 for gold footballs for the varsity.

The freshman class held a meeting on February 1 and voted $50 for hockey.

The senior class held a meeting Friday, February 5.

GYMNASIUM, SCENE OF SOPHOMORE HOP

Music Furnished by the Domino Club Orchestra of Troy, N. Y.

The Sophomore Hop was held in the gymnasium from 9 to 1 o'clock last evening. About 125 couples attended.

Music was furnished by the Domino Club Orchestra of Troy, N. Y., under the leadership of Irving W. Gordon, which was considered worthy of the high recommendations with which it came. There were seven pieces.

The committee in charge overcame the rule against decorations by using non-inflammable crepe paper. Green and gold streamers were attached on all walls of the gymnasium and brought together in the center just above a giant spot light in the form of a canopy.

Refreshments of ice cream, wafers and punch were served in the armory and checking was done in the cage.

The chaperones were President and Mrs. Bailey, Professor and Mrs. Millington and Lieutenant and Mrs. Fredericks.

The committee to whose efforts the success of the Sophomore Hop is indebted was as follows: C. H. Stevens, chairman; Mildred E. Roberts,

(Continued on page 2)

30 GAMES ON 1926 DIAMOND SCHEDULE

Green and Gold Will Play Most of Leading Teams of the East

Syracuse, Dartmouth, Holy Cross, Brown and Williams are among the drawing cards on the 30-game schedule approved Wednesday afternoon by the Athletic Council for the Green and Gold nine. During the season the team will play most of its best teams in the East, and Manager D. R. Casey '26 hopes to add at least two more contests to the list of home games during June.

Ten of the games were on the Southern trip schedule already published, and the other twenty include contests with 14 teams from New England and New York State.

The entire schedule is as follows:

SOUTHERN TRIP

April	3	Catholic University at Washington
	5	Marines at Quantico
	6	Marines at Quantico
	7	Navy and Annapolis
	8	Villanova
	9	Drexel
	10	Princeton
	12	Fordham
	13	C. C. N. Y.
	14	Army

REGULAR SCHEDULE

April	23	Springfield at Springfield
	24	Holy Cross at Worcester
May	1	Manhattan, here.
	6	Clarkson Tech., here.
	7	Norwich at Northfield.
	8	St. Michael's, here.
	10	Norwich, here.
	12	Williams, here.
	13	Middlebury at Middlebury.
	15	Tufts, here.
	17	Syracuse, here.
	21	Marines, here.
	25	Dartmouth at Hanover.
	28	Springfield, here.
	29	M. A. C., here.
	31	Dartmouth, here.
June	2	Middlebury, here.
	5	Pending.
	12	Pending.
	16	Brown at Providence.
	17	Williams at Williamstown.
	19	Alumni, here.

STUDENT SENATE

The last meeting of the Student Senate before mid-years was held January 16.

Manager Kinsler of the 1925 football team reported on the purchase of gold footballs and on the cost of the same. It was voted to make up a shortage of $3.91 in funds raised for purchase of the footballs from the treasury.

Thompson reported for the committee appointed to consider the matter of getting a mascot. On his motion it was voted that a poll be conducted in the CYNIC to get the opinion of the student body in the matter.

Sinclair was appointed to succeed Heath, resigned, as chairman of the committee appointed to investigate and revise the point system.

The discussion of a profit-sharing plan for editors and managers of the CYNIC was started by Ottley. It was voted to authorize the president to appoint a committee, to include the editor and manager of the CYNIC to look into the matter.

SENIORS

The Senior Class Meeting called for yesterday afternoon was postponed, and will be held next Friday afternoon at 4 o'clock in the Lecture Hall in Williams Science Hall, for the purpose of choosing a chairman of Senior Week. D. D. Butterfield and F. F. Atwood have been nominated. Nominations from the floor will be in order at the meeting, if desired.

Hockey Schedule Approved and First Game May Come Wednesday

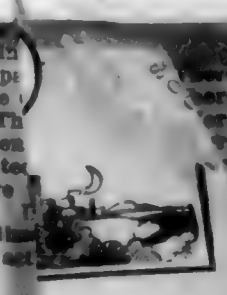
New Minor Sport, With hVt As Award, Finally Secured Through Efforts of Manager Russell—Need $50 More to Cover Expenses

Hockey is about to be resumed as a minor sport at Vermont after two years of hibernation, with HVT as an award. The University has contributed $150, and the classes of 1926, 1928 and 1929, $50 each, so that only $50 is lacking of the $350 necessary to begin operations.

Prospective members of the team are now in training, although nothing can be done until the total sum is raised. Six veterans of the 1924 team are out—"Speed" Denning M '29, "Red" Mitiguy M '28, "Sam" Hebert M '26, "Jerry" Gervais M '27, "Bill" McCarron '27, and "Don" Kimball '26. Additional material is available in Winchenbach, O'Connell, F. A. McClaughlin, G. E. Baldwin, A. W. Shaw, W. Shaw, Fitch, Wood, and Williamson.

A good coach has been secured and practices are being held daily from 4 to 6.

Kirby's rink on the Winooski River, at the foot of Chase Street, has been obtained for games and practice. It was proved inadvisable to build a rink at Centennial Field due to the nature of the ground. No admission will be charged, but spectators will be required to preserve some semblance of order. Lack of this at times in the past has made it difficult to secure a rink.



A trip will be arranged for next week, if possible, meeting Union at Schenectady, February 10, and Rensselaer at Troy, February 11. In addition, the following games have been arranged:

February	15	Middlebury, here.
	17	St. Michael's, here.
	20	Union, here.
	23	Middlebury, there.

Any juniors desiring the position of assistant manager and sophomores wanting to scrub for the position for next year should get in touch with Manager C. B. Russell.

The management is very desirous of getting the backing of the student body, since Vermont has fine opportunities for this and other winter sports.

[illegible] include snowshoeing, [illegible]. Freshmen, [illegible] upperclassmen are [illegible] in these sports. Th[illegible] offering excellen[illegible] becoming acquainte[illegible] new girls, also are [illegible] by all who go. [illegible] leadership of Elli[illegible] membership and act[illegible] increasing.

Scutakes brothers in the backfield are likely prospects.

Columbia is treated elsewhere in this issue and as to forecasts on the game there are none worth considering. Our line will hold or it will not. The backfield is good and Coach McAvoy is using some sound plays, practically all from unbalanced formation. The lack

LAMENT OF THE ZOOLOGY STUDENT

Before I begin to study this stuff
I do want oysters in sight
And in my Zoo lab I have oysters
enough!
They seem meant to be things of
might

Because I used to adore
Wearing shrewd Russian peasants
had made
But now that fancy I abhor
For I have met that cavalier's
shade

Zoo has that stood high on my list
Of Thou Zoo lab I found there's
no fear
Of the wily and fierce trichocyst
Since then the young piglets I
steer

For at least Zoo does not taste up
bad!
It have ate meals at all
I've evolved a most excellent plan
Where in class I shall turn ann
bat

"GO-TO-CHURCH SUNDAY" OBSERVED TOMORROW

Tomorrow will be known as "Go-to-
Church Sunday."
This is the result of a national
movement in the interest to attain
more support from a greater number
of people in the opportunities and
value connected with the Church. Col
leges throughout the country are join
ing in the movement.
The churches of this city are co
operating in a very fine spirit and
special preparation is being made by
the various pastors for this day.

HUMPHREY'S
The Blue Store

This giant hydro-electric unit weighs 750 tons and consists of a vertical shaft hydraulic turbine attached to an electric generator delivering 52,000 kilowatts at 12,000 volts.

Bigger Generators— *Cheaper* Electricity

A 70,000 horsepower hydro-electric unit recently installed at Niagara Falls utilizes the same amount of water as seven former 5,000-horsepower units, yet does the work of fourteen such units. And it saves 700,000 tons of coal yearly for the nation.

As more and still more uses are found for electricity, larger and more economical generators are installed. At the power plant, as well as at the consumer's end, important changes and startling developments have steadily reduced the cost of electricity for light, power, and heat.

And wherever electricity has blazed its trail—in towns, cities, industrial centers, and rural communities—comfort and progress have come to stay.

Generating and distributing electricity concern the technical student. But electricity's application in the betterment of industry, the professions, and home life concerns every educated person. Cheap electricity means many startling achievements *today*, but countless and unbelievable possibilities *tomorrow*.

The General Electric Company, as of December 3, 1924, had 37,716 stockholders, of whom 45 per cent were women. The average number of common shares held by stockholders was 55. In ownership, policies, past and present activities, G-E is unselfishly dedicated to the cause of electrical progress.

A new series of G-E advertisements showing what electricity is doing in many fields will be sent on request. Ask for booklet GEK-1.

JUNIOR CO-ED.

... Women's Editor of the CYNIC:

... your class spirit? Why ... we have the lowest aver... freshman class in years?

PARTY POSTPONED AGAIN

The Vermonters' Club party is coming—soon. Again it was deemed best to postpone it so that it would not conflict with rushing.

Our chairmen, Della Martin and Naomi Thorne, are hard at work and it promises to be the best ever.

So—a few more weeks of waiting, and then—everybody out for the big party of the year.

These and other things are against the class of '29—yet no one has tried to improve matters.

Now that a new term has started, why not turn over a new leaf? Try to work up those poor marks to better ones. We can't all be Phi Betas, but we can at least raise the standard of the class as a whole.

Did you know we have the reputation for not being able to take suggestions? Surely we are old enough to turn them to our advantage. Let us take this advice of our professors and begin by putting in a little more time on our subjects.

Not that the class of '29 should become a group of "course crabbers"—far from it. But our old marks won't count against us now—we have a new semester ahead. We can all try for just a little better than before, so that we will prove the class of '29 is able, at least, to be placed in the same class as the freshmen of former years.

Our athletic standard is good—can't we pull our scholastic standard up to it?

'29.

To the Women's Editor of the CYNIC:

New resolutions after mid-years seem quite *à propos*. They are easy enough to make, but how about keeping them? Another story, yes. Have we the self-control and the will to carry them out?

We have enough push and vim to have things done which we earnestly want. If we really want to keep our new resolutions, we can. It is up to each individual herself. Two or three well kept are worth a hundred on paper.

If each of us should make just two and keep them, what an improvement we would all be to our college. Do you not think so?

"A HITTER OR MISSER."

To the Women's Editor of the CYNIC:

The culture center of Vermont is the Billings Library. To be sure, it is commonly regarded as a convenient meeting place, a haven "between-classes," and, if you will, an ideal situation for "alcoving."

Though it admirably serves these purposes, the largest collection of books in Vermont, housed in such an architecturally beautiful edifice, must have a more noble rôle.

The best things in life are often passed unnoticed, and the opportunities presented by the college library share the fate.

Personally, the times when I approach an adequate appreciation of the library are unfortunately in times of hurried necessity, usually the day before a test, when I try to digest *in toto* several reference books.

The feeling is a mingling of the thrill of enjoyment in the books (unexpected in most cases) and of the disappointment attending a partially lost opportunity.

Sociologists make elaborate presentations of the part of experience in the life of man but unfortunately, sociologists can't promise we will profit by all experiences.

If they could, the Billings Library would wield its rightful influence.

The Norwich University dormitory, destroyed by fire last year, has recovered from its flame attack, and has recently been reopened.

WOMEN'S RIFLE TEAM HAS WON 2 MATCHES

The schedule of matches for the rifle team is as follows:

January	9	Washington State College.
	16	Michigan Agricultural College
February	6	Keene Normal School.
	6	Connecticut Agricultural College.
	13	Utah Agricultural College.
	13	University of Nebraska
	20	Syracuse University
	20	Oregon Agricultural College.
	20	University of Oregon
	27	University of Missouri.
	27	University of Nevada.
	27	Cornell University.
	27	University of Kansas.
	27	University of Michigan.
March	6	University of Maine.
	6	George Washington University.
	6	University of West Virginia
	6	University of Illinois
	13	University of South Dakota.
	13	University of Montana.
	13	Drexel Institute.
	20	University of Cincinnati
	20	De Pauw University.
	27	University of Maryland.

The first two matches have been shot, Vermont winning both. The scores were: Washington State 378, Vermont 489; Michigan Agricultural College 586, Vermont 590.

The team is composed of the following members: Evelyn Anderson '28, Charlotte Bean '27, Alice Crowe '26, Marion Everest '29, Julia Fassett '26, Eileen Goodwin '28, Doris Hart '28, Marjorie Hill '29, Pauline Lynch '28, Thelma Mathewson '26, Doris McKenzie '29, Eleanor Taft '28, Lois Tompkins '29, Frieda Tracy '29, Constance Weaver '29, Alice Wright '26, Arlie Wright '26.

Y. W. C. A. NOTE

The "Y. M." and "Y. W." cabinets enjoyed a dinner at the Golden Pheasant last night. A secretary of the Student Volunteer Movement was the speaker.

Prohibition and Law Enforcement

[illegible] intended for a [illegible] entertainment [illegible]. Rather it is [illegible] will depend the [illegible] strength and national [illegible] United States.

[illegible] ourselves. This issue must be faced. Who can deny that the prohibition law is being violated on every hand? No one can. By whom? That is not the question. The fact remains that it is being done. The act was grafted into the greatest instrument of law in the world, but it is being treated as a dead letter.

What is the use I ask of having a government if it cannot or will not enforce obedience? The welfare of the nation is more than that of certain individuals who would suffer if the law were enforced.

The states through the representatives of the people created the law. Therefore, it must be obeyed. The national fiber must be preserved and not shaken or destroyed by [illegible] outlaws. If the people do not want [illegible] such, at least, as proper methods, have intoxicants. But so [illegible] law protects the drinking or possessing of intoxicants than the said people shall do as the law says.

Many are a mind that the 18th amendment cannot be enforced. Look at the same time we are saying that the Constitution is worthless. If the government is spending millions to maintain this law I say let it appropriate half of its income if necessary to stamp this hideous evil of indifference to law out of the land.

The penalties should be imposed to the letter. High and low, man or woman, [illegible] rich or poor, should all be prosecuted to the full extent of the law until they are made to see that the law must be obeyed. It must be impressed on these law violators that the government of the United States is a government not a theory.

Europe and the rest of the world is pointing the finger of scorn at us. To other nations prohibition is an experiment. It is a test of the national spirit of the American people and they shall not be found wanting.

Jary

The question is sometimes asked: Where do young men get when they enter a large industrial organization? Have they opportunity to exercise creative talents? Or are they forced into narrow grooves?

This series of advertisements throws light on these questions. Each advertisement takes up the record of a college man who came with the Westinghouse Company within the past ten years, after graduation.

One Man's Summer Vacation

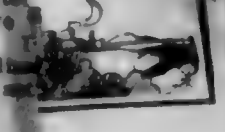
W. C. Goodwin

HAVE you ever seen a man dash out from a crowd along a busy street, stop a runaway team, and save many from danger? That wins newspaper headlines.

But it is only two horses—and it happens once in a blue moon. Every hour in industry horsepower up into the millions is tamed to man's control. Runaway apparatus is instantly checked. Electric controllers protect operators and the public. They safeguard motor and machine.

Thereby hangs a story of control development, involving W. C. Goodwin, Penn State 1915. Goodwin spent his summer vacations tinkering with rotating apparatus—testing motors and the like. He came to Westinghouse. Control Engineering was a magnet for Goodwin, even during his training period. When the separate Control Engineering Department was formed in 1917 Goodwin was in it. Next he was made engineer in charge of the section to design and develop new control equipment. Now he has nine assistants.

The Control Engineer may be called upon, as Goodwin was, to meet such an emergency as this: The war was on. Battleships were to be propelled by electricity. Upon the starting, reversing or stopping of the main propulsion motors without the loss of a second, the fate of the ship might depend. Goodwin designed control to do that.



Or in industrial application, the Control Engineer may add to human safety, as Goodwin did. In rubber mills, hands of operators sometimes are caught between powerful rollers. A fraction of a second may mean an arm—or a life. Goodwin's new combination control apparatus has greatly reduced the time in stopping the motor.

Control Engineers must know the industry with which they are dealing—steel, rubber, textile, railroad—and then literally "fit the control to each order." In seeing the job through the customer's eyes—Control Engineers find themselves most at home with Westinghouse.

INTERCLASS MEET AT FORT ETHAN ALLEN

Seniors Will Try for Third Leg on Cup Already Won Two Years

The annual interclass winter sports meet will be held at the Post, Saturday, February 13, in the afternoon. Anyone wishing to enter any event may do so by filling out the blanks on the bulletin board in the gymnasium. It is important that all entries be in by next Wednesday.

The class of '26 at present has two legs on the cup which is offered as a prize to the winning class. If the seniors win again this year, they will possess the cup permanently.

For this reason, the seniors will probably make a strong bid for first honors this year. Likewise, the other three classes will probably offer stiff competition to the present cup holders.

There is also a list of open events with prizes offered for both men and women. The list of events:

10:00 a. m.—Ski-joring with rider. Open to enlisted men of the Regular Army, National Guard, Organized Reserves or R. O. T. C.

10:15 a. m.—Ski-joring with rider. Open to officers of the Regular Army, National Guard or Organized Reserve.

10:30 a. m.—Ski-joring without rider. Open to members of the Regular Army, National Guard, Organized Reserve or R. O. T. C.

10:45 a. m.—Ski-joring (doubles) for enlisted men. Open to any enlisted man of the Regular Army, National Guard, Organized Reserve or R. O. T. C., and partner (man or woman). Couple must hold hands throughout race. Dropping of hands disqualifies.

11:00 a. m.—Ski-joring (doubles) for officers. Open to any officer of the Regular Army, National Guard or Organized Reserve and partner (woman). Conditions of race same as in preceding.

11:15 a. m.—Broad jump on skates. Open to enlisted men of the Regular Army, National Guard or Organized Reserve.

11:45 a. m.—Ski race for children. Open to any boy or girl under 17 years of age.

1:30 p. m.—Potato race on skiis. Open to all.

1:45 p. m.—Potato race on skates for children. Open to any boy or girl under 13 years of age.

2:00 p. m.—Obstacle race on snowshoes. Open to all.

2:30 p. m.—Ski dash. Interclass event open to students of the University of Vermont only.

2:40 p. m.—Snowshoe dash. Open to all.

2:50 p. m.—Ski obstacle race. Interclass event open to students of the University of Vermont only.

3:00 p. m.—Snowshoe cross-country race. Interclass event open to students of the University of Vermont only.

3:10 p. m.—Ski-joring for ladies. Open to all.

3:25 p. m.—Snowshoe dash. Interclass event open to students of the University of Vermont only.

3:30 p. m.—Ski-joring with [illegible]. Open to all.

3:35 p. m.—Ski cross-country. Interclass event open to students of the University of Vermont only.

3:40 p. m.—Snowshoe dash for ladies. Open to all.

4:00 p. m.—Obstacle race on snowshoes. Interclass event open to students of the University of Vermont only.

TO GIVE 13 BLANKETS DURING UNION GAME

Football Letter Men Graduating in June Will Be Given Awards Tuesday Night

The Green and Gold five is again [illegible] action on the court with [illegible] New Hampshire State journeyed up from Durham on Thursday to get their strength against ours, and tonight the Black Panther is scheduled to receive another crimp in his [illegible].

On Tuesday night of this coming week Vermont will try to avenge [illegible] defeat at the hands of Union [illegible]. The Schenectady quintet is fast and aggressive but the Vermonters know their strength fully, and equipped with this knowledge and their usual "fight," the tables may be turned.

Between the halves of the Union game football blankets will be presented by Key and Serpent through [illegible] Arlington to all senior men who have received their "V" on the gridiron. This list numbers eleven, including Capt. "Art" Harms and "Rusty" Yarnall, who have been ineligible to play this year, but gave their best in previous seasons.

The other recipients will be Capt. "Joe" Tarpey, "Onie" Hill; "P. D." Clark and "Charlie" Schechtman, the medic pair; Manager "Hinky" Kinsler, "Mike" Katz, "Bob" Thompson, "Joe" O'Connell, "Chapple" Chapman, "Russ" Gray and George Tuxbury. Everybody is asked to be present and give the boys a hand when the blankets are handed out! They are a worthwhile award, of heavy, dark green material with a gold "V" in the center and a gold border.

Following the Union game on Tuesday night, the "Kaydets" come from up in the woods to strut the court stuff on Thursday evening. Their squad is made up principally of freshman material, but is very promising, and a good scrap will probably result. Their prospects look bright for future years, with so many yearlings.

Then on Saturday night, the 13th, Vermont takes on the Springfield gymnasts for the last home game before Kake Walk and the trip into southern New England, when they meet the Connecticut Aggies, M. A. C., Williams, and Springfield in a return game.

What Mascot Do You Want?

The Student Senate [illegible] time been considering [illegible] of a mascot for Vermont [illegible] been said on the subject [illegible] but the Senate has [illegible] determine the sentiment [illegible] dent body, though the [illegible] Wildcat seem to be the [illegible] choices.

Owing to their interest [illegible] public opinion the Senate [illegible] the Cynic to publish [illegible] necessary that everyone [illegible] representative opinion [illegible].

Ballots are to be placed [illegible] box in the Old Mill and [illegible] by Saturday, February [illegible].

VOTE FOR ONE

This ballot is prepared [illegible] Cynic at the request of [illegible] dent Senate. Please cooperate [illegible] gaining a representative [illegible] opinion.

As Mascot of the University [illegible] Vermont my preference [illegible]

The Lynx
The Wildcat
I would suggest [illegible]
None

Signed [illegible]

Ballots must be placed [illegible] Cynic box in the Old Mill [illegible] urday, February 13, 1926.

The fiscal year of the Athletic Association is from July 1 to June 30. At each July meeting of the Athletic Council it is the duty of the chair to appoint a financial Committee, which committee consists of one alumnus, one member of the faculty, one undergraduate and the Graduate Manager. The Finance Committee, after conference with the chairmen of the advisory committees of the various sports, prepares a budget of authorized expenditures and contemplated receipts for the various sports and for all other purposes covering a period of one year.

"In passing, it may be of interest to know that the above budget for the current year exceeds the budget of the previous year by about two thousand dollars."

Speaking on the athletic situation in its relation to scholarship, President Paul Moody of Middlebury College asserted that when scholarship is put rigorously in its place without a too pedantic conception of what scholarship is, athletics will be found to be an asset rather than a liability. Athletics properly handled, he said, improve not only the standing of the student body, but where due emphasis is placed upon scholarship, train men in wise and economical use of their time. On the other hand, athletics placed first, destroy scholarship standards and become a serious detriment to the institution.

At the semi-annual business meeting of the Athena Club held January 26 at the Hotel Vermont, it was voted to support the Dean Wasson Memorial Fund by individual pledges for five years. The object of the fund is to build an infirmary for women students at the University of Vermont

---

On January 8, Sigma Delta held its formal Christmas dance. The chaperones were President and Mrs. Buffer and Professor and Mrs. Dean, with Paul Rider's Collegians in attendance.

At the annual meeting of the Vermont Botanical Club held at Morrill Hall, January 29-30, Professor George Burns dicussed "Data on Water Requirements for Forest Trees." Among the others who spoke was A. Gershoy of the Botanical Department, who gave a paper entitled "Studies in Violets."

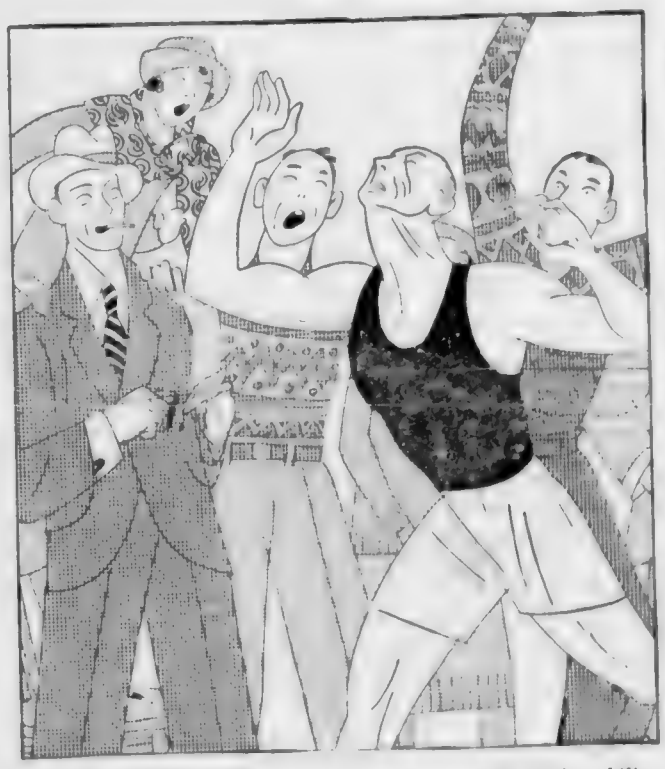
YOUNG'S HATS



YOU HAVE AN OBJECT IN LIFE.

It can be achieved only by hard work. If you are *not willing* to work, no one is going to help you. If you meet with a "tough break" and are *unable* to work, the New York Life can and will help you.

"Bernie"

When the runners are bunched on the track—and suddenly Chuck, your own superman half-miler, spurts ahead on the finish and wins

—have a Camel!

Into the making of this one cigarette goes all of the ability of the world's largest organization of expert tobacco men. Nothing is too good for Camels. The choicest Turkish and domestic tobaccos. The most skilful blending. The most scientific package. No other cigarette made is like Camels. No better cigarette can be made. Camels are the overwhelming choice of experienced smokers.

WHEN the lithe half-milers are fighting for the lead. And your own dauntless champion suddenly soars ahead and wins—*have a Camel!*

For you'll never find another friend so attuned to your triumphs as Camel. Camels are made of the choicest tobaccos grown — they never disappoint your taste. Camels annihilated cigaretty after-taste. Regardless of price, you'll never buy better tobaccos, or blending, or flavor than you get in Camels.

So this year when the old school's men go through for victory after victory — taste then the smoke that's choice of the world's victorious.

Have a Camel!

Our highest wish, if you do not yet know Camel quality, is that you try them. We invite you to compare Camels with any cigarette made at any price.

Here and There

With the steel framework completed work on the masonry of the new University Club in Boston has been started. The building is located on Stuart Street, in the rear of the Copley Plaza and Westminster Hotels.

A donation of $35,000 has recently been received by the Yale University library. The gift is remarkable, not only for its size, but also for the fact that it may be administered in any manner the librarian wishes.

Recent debating results among the New England colleges are as follows: Bates 74, California 61; Boston College 3, Dartmouth 0; Harvard 2, Wesleyan 1; Dartmouth 2, Williams 1. Williams 2, Princeton 1.

A co-ed debating team at New Hampshire recently defeated Radcliffe College on the question, "Resolved, that the segregation of sexes in American colleges and universities is better than co-education." New Hampshire upheld the negative.

New Hampshire State has instituted the "Time Unit Plan" whereby each student will be obliged to do fifty hours work each week in order to pass the regular four-year course. The plan will go into effect with the incoming freshman class.

Anton Lang, Jr., son of the Christus of the Oberammergau Passion Play, will enroll next fall as a student of Holy Cross College. After his graduation, two years hence, he intends to teach English at the University of Munich. He is 21 years of age.

Boston University will engage in three intercollegiate debates during the current month. The Terriers, undefeated last year, will meet Oklahoma on the 11th, Fordham on the 12th, and will journey to St. Louis to meet Washington University on the 27th.

Kansas University has an interesting organization known as the "Quack Club." By amendment to their constitution the Club will allow those who have passed tests in strokes but not in the dives to become pledges. The "Quack Club" is expecting to take up water polo this year.

Prof. Bliss Perry of Harvard was recently appointed to the Francis Lee Higginson chair of English Literature there. Professor Perry is well known through his long connection with the university. He is the author of "A Study of Poetry" and "A Study of Prode Fiction" as well as of numerous essays and texts.

Bates College expects to have its new athletic building, made possible by the gift of $150,000 by William Bingham, 2nd, of Bethel, Maine, completed by May 1. The brick walls are now nearly completed, and most of the steel is on hand for the roof. The structure will be 160 feet square, and more than 50 feet high.

The Yale Art School has announced plans for a new two and one-half million dollar museum, the construction of which will be begun within the year. It will be in accord with the general scheme of architecture begun in Harkness Memorial, although the strict Gothic lines of the latter will be modified in the new building by the introduction of an Italian note.

"Undergraduates are not to attend the moving pictures." Such was the verdict after a debate at McGill University which was held at a meeting of Le Cercle Francais. Among the chief points of the winning side were those of economy, danger in over wrought imagination, and the evil influence exercised both on morals and in the line of anti-national feeling, which, it was thought, the moving pictures foster.

The Harvard Yard will shortly become the scene of moving picture acts if the authorities are willing. The Yard will be used as the background for a screen revival of the old play "Brown of Harvard." The editor of the Harvard *Crimson* has demanded of the film company that they present a true version of college life in their production.

Smith College has increased its enrollment from 14 students in 1875 to 2,023 in 1925 stated President Neilson in a recent report on the college's progress through 50 years. During this same period the number of buildings was increased from three to 17 and the instructors from nine to 225. The total number of graduates was last year placed at 10,433 an increase of 6,000 in fifteen years.

The Tufts College student council has voted to have the student body "rate members of the faculty at the end of the academic year." Blank forms will be distributed on which the students will register their estimate of the professor's ability in the following details: Knowledge of subject, ability to teach the subject; general intelligence, reliability of character, personal force and personality. The students, it is claimed, are taking the proposition seriously, and with full realization of the importance of the "marking" process.

The average college man's year has been visualized by the Columbia *Jester* as follows: "Decides to be an engineer. Hears of hard life and struggles of engineers. Decides to become a lawyer. Observes work of law students on huge law books. Decides to become an architect; it is nothing but drawing, he reasons. Sees students working hours and hours on drafting. Decides to become a doctor. Sees eight years of work ahead of him before he can become a licensed physician. Decides to become a business man. Observes students poring over statistics and charts for hours at a time. Decides to become a newspaper man. Hears tales of all night work on morning papers. Decides not to specialize. Graduates and starts in office as office boy."

An increase of seven per cent in the enrollment of students in American colleges for the year 1925-26 over the past scholastic year has been reported in a recent number of *School and Society*.

In numerical rank California stands first with 16,294, and Columbia second with 11,727. The total enrollment of these universities, including part-time and summer school students is: Columbia 29,701 and California 24,628.

Minnesota, Illinois and New York University all boast of enrollments of over 15,000. Chicago, Wisconsin, Ohio State, Pitt, Harvard, Washington, Nebraska, Cornell, Southern California, Cincinnati, Texas, Iowa, Syracuse, Oklahoma and Colorado all top the 5,000 mark.

The five exclusively women's colleges are Smith, Wellesley, Vassar, Goucher and Mount Holyoke in the order named.

"The education which a man receives in any college or university is a product alike of the influences which emanate from the faculty and the curriculum and the influences which exist within the community life of the student body," said Dartmouth's president in a recent Boston address.

Hereby grows the importance of the quality of men making up the student community, not simply as subjects for the influence of a program of studies, but likewise as vital factors through the educational influence of one man upon another. Given the capacity for acceptance and the appreciation of interests pertaining to the mind, we should have not on our colleges of diverse types varied personalities representative of different social groups and of different geographical zones. The selective process is an attempt to winnow out from the applicants seeking admission those men of intelligence and mental power who have greatest promise of living usefully and helpfully among their fellows in the society of their time.

The often criticized college student was defended by President Hopkins of Dartmouth before the annual meeting of the Association of American Colleges held recently in New York as having "more desire to be of worth in the world than the student of any other generation."

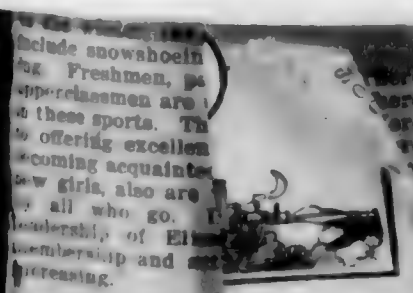
College life, he said, "must necessarily be a reflection of the common life in the country and the tendencies both good or bad which are prevalent in the test of the world today will be found in a similar measure in the institutions of learning."

An opposite view was voiced by a member of the Dartmouth faculty. He advocated the formation of courses of studies to stimulate an intellectual awakening in the social order of the nation. He said it was his observation that the recent increase of the number of students entering colleges seemed to be of "intellectual minority."

An overestimation of the importance of business, talking of minor and trivial subjects and a contempt for intellectual activity exists today, he asserted. Such an attitude stands in the way of creating intellectual enthusiasm which is vitally necessary.

Yale's new $6,000,000 library will be completed within two years according to a recent announcement. Alumni as well as students are looking forward to its completion, in honor of John W. Sterling and in memory of the fact that the university itself grew out of a library.

The original library, out of which Yale grew, will be housed in one of the rooms of the new building in exactly the same condition and position as it was in 1743, the year when the first catalogue was issued.



The building will be entered through a beautiful Gothic archway, on more pretentious lines than that of Phelps. This archway will be echoed, or rather shadowed by the monstrous "book tower" in the center of the group which will rise through 22 stories to a height of 192 feet. It will be 85 feet square and will dominate the new group which Yale plans to build.

There will be reading and reference rooms in the main building, while among the stacks, housed in the tower, will be individual cubicles for graduate and visiting students.

Work will be begun after Commencement when the gymnasium and 20 other buildings in the same block will be torn down for its construction.

CLASSES WILL COMPETE FOR COURT CHAMPIONSHIP

Senior Expected to Offer Strong Bid for the Title—Their's in '23 and '25

[illegible] will be played the championship [illegible] Basketball [illegible] Director [illegible] Board in gymnasium [illegible] be played preliminary to [illegible] games beginning at [illegible] as follows:

[illegible] 4	1929 vs. 1928.
[illegible] 6	1928 vs. 1927.
[illegible] 9	1929 vs. 1927.
[illegible] 11	1928 vs. 1926.
[illegible] 13	1927 vs. 1926.
[illegible] 14	1929 vs. 1928.

JUNIOR AND SENIOR HONOR LISTS NOW DUE

Junior and Senior [illegible] hand in their honor lists for the term this week. This is absolutely the last call. Lists can be found on the bulletin board in the south corridor of the Old Mill. Lists not received this week will have to be omitted.

Most of the grind section has gone to the printing company already, as well as the athletic section and nearly all the engravings have been completed.

News Briefs

Sigma Phi held a dinner dance on [illegible]. Dr. and Mrs. McMahon and Mr. and Mrs. Boardman acted as chaperones.

Sigma Nu held an informal dance on Friday, January 29 in Brown's Orchestra furnished music. The chaperones were [illegible] and Mrs. McMahon.

A dance was held last Saturday evening by Phi Mu Delta. Rider's Collegians were in attendance and Mr. and Mrs. Willis Yates acted as chaperones.

Theta Chi Fraternity held an informal dance Friday, January 29. The Green UM Orchestra furnished the music and Mr. House Mother acted as chaperone.

Sigma Phi Fraternity held a formal dance on Friday, January 29. Capt. and Mrs. Jamieson and Mr. and Mrs. Rainey [illegible] acted as chaperones. Music was furnished by The Green and Gold Orchestra.

An informal dance was held last Friday in the Sigma Alpha Chi fraternity. Professor and Mrs. Reed and Mr. and Mrs. A. C. Lane [illegible] were the chaperones and Brown's Orchestra played for the dancers.

The Glee Club has arranged to sing in Morrisville, March 5. Ordinarily the trip will extend for three days and include Jeffersonville. All members are asked to attend rehearsals whose

Kake Walk Plans Are Progressing Rapidly; Stunts to Be Chosen Feb. 18

[illegible] open [illegible] Kake Walk [illegible] the air now and all signs point to the finest presentation in years. Rep[illegible] before the stunt committee today to [illegible] eliminate any impossible ideas. [illegible] day, February 18 and any stunts considered [illegible] Tickets and Kake Walk [illegible] Application blanks for seat reservations [illegible] mail. In order to reserve seats the blanks must be properly filled out and returned immediately. No money should accompany these applications. On the afternoon of Saturday, February 13, from 1 to 6 and Monday, February 15, from 2 to 6, all tickets which have been reserved by these applications may be called for at the gymnasium.

Tickets need not be called for in person, but they must be paid for by the person receiving them. Reservations on all tickets not called for and paid for by 6 o'clock on Monday will be cancelled at that hour, and all remaining tickets will go on public sale on Tuesday, the 16th.

Under this plan, priority in filing applications will be the sole basis of choice of seats. There is no other way for students to make reservations.

UNIVERSITY FURNISHES INFORMATION TO FARMERS

A [illegible] that should prove of [illegible] importance to Vermont farmers is to be issued [illegible] the Extension Service of [illegible] of Vermont and State [illegible] appearing this [illegible] time. The feature, which is to be edited by H. P. Young, farm management demonstrator, will be known as Vermont Farm Business.

The object of this business news [illegible] to give timely information on agricultural conditions of the [illegible] as they apply to Vermont, the outlook for the future in Vermont agriculture, and general principles of farm business management of interest to farmers and those affiliated with the agricultural industry.

Some of the features of this service will be price levels of Vermont farm products, and analysis of what information there is on general business conditions affecting farmers, prices of farm products, and a summary of crop conditions. There will also be a special feature each month dealing with some phase of farm activity.

It will be in mimeographed form, three or four pages in length and will be sent monthly to all within the State who are sufficiently interested to request that their names be put on the mailing list.

are Tuesday, Thursday and Friday, at 7 o'clock.

The Gold Key Society met Tuesday evening and elected new officers for the remainder of the year. A. W. Shaw is president and C. W. Price is vice-president. It was voted to give a sum of money for the support of the hockey team.

The annual conference of the extension agents of the state was held last week at the Morrill Hall. Several members of the extension staff gave talks on various phases of agricultural work, among them being Dean Hills, Professor E. L. Ingalls, Miss Mabel Goodwin and Miss Marjorie Lace.

The second Key and Serpent dance of the year was held in the gymnasium **Friday evening, January 29.** Music was furnished by Paul Rider's orchestra. Dr. and Mrs. A. K. Aldinger and Mr. and Mrs. H. A. Mayforth served as chaperones.

Shortly before his death, B. L. T., the originator of the Chicago *Tribune*'s column "A Line O' Type or Two" answered the question, "Of what use is a college education?" thusly: "I think I have discovered it. It is much like possessing a dress suit. Being attired in one does not amount to much except that it keeps you from hanging around the livery stable."

OFFICERS CHOSEN BY COUNTY ALUMNI CLUB

Henry T. Way of Burlington was elected president of the Chittenden County Alumni Club at a reorganization meeting held February 1 on the Hotel Vermont roof. Other officers elected were: Vice-President, Hollis Gray; secretary-treasurer, David Howe; executive committee, H. A. Mayforth, Dr. Peter Lawlor, Charles F. Black.

Dr. A. K. Aldinger was the principal speaker of the evening. He spoke of the new physical training policy at the University. The gymnasium is being improved and renovated. Several other prominent alumni spoke on the athletic situation at Vermont.

College Humor

The modern college, with its strict system of required courses, reminds us curiously of a chipping machine in a sawmill. The small, insignificant logs go through unscathed. While the occasional oversized log is clipped down to the mediocre size of the rest.

ANNUAL INTERSCHOLASTIC TOURNEY, MARCH 12-13

Close Competition Prophesied Among Large Number of Outstanding Teams

The dates of the [illegible] scholastic basketball [illegible] announced from Grad[illegible] Mayforth's office will be [illegible] Saturday, March 12 and [illegible] nasium. The tourney this [illegible] forth promises of being [illegible] battle ever seen on the [illegible] least ten teams in the state [illegible] ly matched. Black River, [illegible] Ludlow, Proctor and Fair [illegible] seem to be the leaders in [illegible] part of the state with [illegible] Spaulding, Cathedral and [illegible] seeking the honors from [illegible] and Orleans, Barton and S[illegible] leading the race in the [illegible]

The two teams chosen [illegible] southern part of the state [illegible] taken from the winners [illegible] up of the Rutland Rotary [illegible] held at Rutland the week [illegible] the U. V. M. tourney but [illegible] discordant note struck this [illegible] that Springfield, one of the [illegible] title contenders from the [illegible] team which has already humbled Montpelier and Spaulding refuses to take part in the southern tourney [illegible] that the grilling of two [illegible] weekly tourneys is too much for a team. The invitation and application blanks have already been mailed to Manager Mayforth's office. The following rules will govern the tourney:

1. The Athletic Council will have control of the games.
2. Rules of the National Collegiate Athletic Association will govern.
3. The winner of the tournament will be decided by elimination.
4. The games will consist of four eight minute quarters.
5. No school will be allowed to compete more than eight men.
6. Regulation uniforms will be worn and each player numbered.
7. The officials will be furnished by the Athletic Council.
8. Any protest relative to the playing of any game will be settled by the chief official.
9. Basketballs, towels and first aid will be furnished by the Athletic Council.
10. The Athletic Council will not be responsible for any injury to the players or effects of persons or any player or spectator.

The Glee Club picture will be taken at 2:30 this afternoon at Bailey's Studio.

Men interested in literary work should report to J. B. Phelps.

Those interested in the business side will report to W. M. Lockwood Monday at 1:30 in the Cynic office.

SPRINGFIELD RECORD PREDICTS HARD FIGHT

When Vermont meets Springfield tonight she will be up against the toughest proposition on the schedule. **Although the Granite Staters defeated the Red and White by a small margin of a 22-26 score, Springfield's playing was rather off form, and her defeat may be laid more to inaccuracy in finding the goal than to lack of passing and teamwork. However, the Mann coached team swamped the hitherto undefeated Amherst club by a 37-10 tally. The Lord Jeffs were completely outclassed, and the work of Bob Berry was a feature of the game. Capt. Crawley made some sensational long distance shots which added to Amherst's defeat. Springfield used a fast offensive game that took Amherst completely off her guard. Wagner and James were the next highest scorers for the Mannmen, following close behind Berry in this respect. A week ago tonight Springfield defeated Harvard 39-31.**

COMMITTEES FOR JUNIOR WEEK ARE CHOSEN

The following committees for Junior Week have been announced by Lawrence Averill chairman.

Robert Costine is chairman of the Junior Prom Committee.

The committee on programs and favors is as follows: Ellis Moodie chairman, George Leary, Emery Mower, Helen Stoddard and Doris Griffith.

The Publicity Committee consists of Benham Phelps, chairman, Raymond Lyons, Stoddard Martin.

The Decorations Committee is composed of Loretta Jennings chairman, Donald Rockwell, George Gould, William Lockwood, Hjalmar Aronson, Ruth Eayres, Anna Ward, and Winifred Teachout.

The Junior Prom Refreshment Committee consists of Floyd James, chairman, Whitney Doane, George Sloan, Lillian Stillwell, and Lois Burbank.

The Peerade Committee is as follows: Archie Post, chairman, George Allfred, Frank Flagg, Belle Randall.

McAvoy's Charges Capture Vermont State Championship

Prentice Stars, With 19 Points Against Cadets—Plumley, Diminutive Forward, Gets High Score for the Cavalrymen

FOURTH STRAIGHT WIN IN QUADRANGULAR SERIES

At 8:00 Thursday night the contest started which gave Vermont the championship of the State and the fourth consecutive victory in the state series.

Before play had been going on one minute Bedell of Norwich at left forward had made a field basket from beyond the foul line and given the Cadets the first lead. But it was a short one and to be their last, for Prentice a moment succeeded in caging the ball from the foul line and Marvin scored on a stop-shot after a pass from Prentice. Prentice made another basket on formation and Norwich called time out.

Norwich was caught up several times by Referee Swaffield for running with the ball. As soon as play was resumed Prentice tossed the tip-off to Marvin attempted a pass which bounced off Arnd recovered and made the basket. Captain Beddell made another remarkable long shot from outside the Vermont defense. Norwich scored again. Immediately after the next tip-off Marvin scored in turn counter with a stop-shot.

The play during this time was a succession of very short scrimmages followed by scores with only occasionally a minute to play.

Post made a spectacular 30 ft. side shot, after taking the tip-off from out.

Price backed Plumley who scored on both tries. Prentice Marvin and Post scored in quick succession. O'Donnell substituted for Plumley after which the game ended.

Prentice made a point on a free throw after being fouled by Molter. Norwich took time out again.

Molter fouled again. Price making both free throws. After a stop-shot by Beddell the half closed with the score 21 to 11 the Green and Gold being on the long end.

(Continued on page 3)

PROMOTIONS OF CADET OFFICERS ANNOUNCED

The recent promotions of the cadet officers in the R. O. T. C. Battalion have been announced as follows:

From Captain to Major R. L. Thompson '26 and R. R. Valles '26.

From First Lieutenant to Captain Nathan Dorchy '26, F. E. Bartlett '26, W. J. Herron '26 and R. B. Roscoe '26.

From second to First Lieutenant F. J. O'Brien '26, R. A. Gray '26, and W. M. Wilbur '26.

The Cadet Officers have been given the following assignments:

Major R. L. Thompson Commanding Cadet Battalion. Major R. R. Valles Executive Officer. Capt. N. Dorchy Adjutant.

To Company A the officers are:

Capt. D. R. Casey, Commanding. Capt. C. M. Wallis 2nd in Command. First Lieut. E. C. Abbott, 1st Platoon. Second Lieut. R. W. Sikora 2nd Platoon.

To Company B the officers are:

Capt. B. N. Johnson Commanding. Capt. W. J. Herron 2nd in Command. First Lieut. J. H. Lewis 1st Platoon. Second Lieut. G. F. Ward, 2nd Platoon.

The officers assigned to Company C are:

Capt. M. Katz Commanding. Capt. F. F. Bartlett 2nd in Command. First Lieut. F. J. O'Brien, 1st Platoon.

(Continued on page 2)

Kake Walk Preparations Promise Exceptional Performance This Year

On the evenings of Friday and Saturday, February 19 and 20, the 29th Annual Kake Walk will be held in the gymnasium. Preparations for the occasion are gathering momentum as each day brings it nearer.

Applications for reserved seats have been sent out to all students and tickets will go on sale for the public at Roddy's Clothing Store beginning Tuesday, February 16.

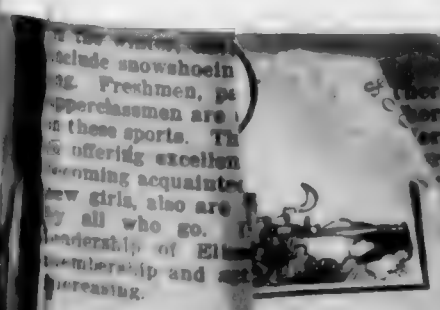
Next Thursday night a dress rehearsal will be held by each fraternity that is presenting a stunt. Two stunts which are below the quality of the others will be eliminated by judges appointed by the Kake Walk Directors. It is expected that this procedure will do much to improve the calibre of the performance.

Friday will be known as Sub-Freshman Day. About three hundred Seniors from Vermont high schools all over the state will be entertained by the University. A banquet will be tendered them at the Van Ness Hotel that evening, when they will be addressed by prominent representatives of the college government, faculty and undergraduate body. After the banquet they will be given tickets to the Kake Walk. The various fraternity houses and dormitories wil be opened to the visitors for their stay.

The Kake Walk program will contain nearly the same events as heretofore. **The R. O. T. C. Band will play the opening selections. Following this the** Grand Peerade will take place. In which will be entered features from every fraternity. The six stunts which form the main part of the program will then be put on.

Each competing fraternity is allowed fifteen minutes in which to carry out its stunt. There will be an intermission between the third and fourth stunts, when some novel feature will be displayed. Following the presentation of the stunts twelve couples will exhibit in turn their ability at the difficult art of Kake Walking. On Saturday night while the judges are out the popular Alumni Quartette will render selections.

The cups offered for the best feature in the Peerade and the best stunt, as well as the cakes to be awarded to the best couple in 'Walkin' to do Kake' will be exhibited in Roddy's window.



The Kake Walk Director are especially fortunate this year in having secured a list of judges which includes some of the biggest names in Vermont public affairs. Every judge is a man of state wide note.

The first evening the stunts and kake walking will be judged by Robert C. Clark of Brattleboro, a banker in his home town and Commissioner of Banking and Insurance since 1923. Judge Charles H. Darling of Burlington a prominent attorney who served under President Roosevelt as Assistant Secretary of the Navy, and who has been also Collector of Customs of the Vermont district for two terms and is president of the American Fidelity Company of Montpelier. Judge Frank L. Fish of Vergennes, chief of the Superior Judges of the state and for many years prominent in state activities having served in the Legislature and as national bank examiner. Prof. A. R. Gifford head of the department of Philosophy at the University and prominent in social work in the state. Edward H. Jones of Waitsfield, who gives his occupation as farmer and who is now serving the state as Secretary of Agriculture. Emery A. Melendy of Londonderry, a farmer, undertaker and banker, and one of the most prominent members of the 1915 House and the 1923 and 1925 Senate and is at present a member of the State Highway Board, and George E. Whitney of Burlington, vice-president of the Burlington Trust Company and agent of the American Woolen Company at Winooski.

On Saturday evening the list of judges will be headed by Governor Franklin S. Billings of Woodstock who previous to becoming chief executive of the state was a member of the House in 1910 and 1912 and Speaker in 1921-22, lieutenant-governor during the next two years and at one time a member of the State Board of Education.

The other judges on the last eve-

After the dance . . . a pipe and P. A.

WHEN you've kicked off the pumps and tossed the collar on the table, while the music is still singing in your brain and memories of one dancing deb in particular crowd your thoughts, fill your pipe with Prince Albert and light up. Make it a night of nights.

P. A. is so genuinely friendly. It hits your smoke-spot in deep center right off the bat. Doesn't bite your tongue or parch your throat, because the Prince Albert process said "nix on the rough stuff" at the very beginning. Just cool contentment in every perfect puff.

Don't put off till tomorrow what you can smoke today. Get a tidy red tin of P. A. now. Snap back the hinged lid and release that wonderful fragrance. Tamp a load into the bowl of your jimmy-pipe and light up. Now you've got it . . . that taste. Say—isn't that the goods now?

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

PRINCE ALBERT
—no other tobacco is like it!

Helen Durick of Alpha Pi Chapter at Middlebury spent the week-end in the city.

ened in the attempt to plow through the ocean of mud covering South Campus. Why are they not as much entitled to comfort and neatness as those who have better approaches to classes?

This walk is not even graveled. It is an absolute blot on the Campus nearly the whole year thru, with its mud and the deep pool marks all around it which are made by those trying to evade its slimy depths.

It is not only a great inconvenience for those having to use it, but it is the one black mark on an otherwise beautiful and practical campus.

May we have a cement walk across South Campus?

To the Women's Editor of the CYNIC:

What do girls think about the length of the rushing period? Would it not be just as effective if shorter? After girls have been in college a half-year, they certainly do form some opinion as to what fraternity or fraternities interest them. In two weeks coufd they not make a final decision as well as in four?

Besides during the four weeks of rushing the studies of both fraternity girls and rushers have a fine chance to slump. More than one instructor has given similar views on the subject. Fraternity rushing is also a strain on everyone concerned. How can it help being? If we had a shorter rushing period, would this not improve matters, and make it easier for us all? How do you feel about this matter?

'28.

To the Women's Editor of the CYNIC:

According to the laws of polite society, it is very bad taste to ignore a person whom one has once met. Why should this rule be forgotten or neglected on the Vermont Campus? All this is merely to lead up to a situation which is often observed here—namely, the neglect of professors whom one meets, at least three times a week to greet one, or to acknowledge a well-intentioned nod. This lack of recognition implies a lack of interest in the professor for the student and tends to widen the distance between a student and his professor. It seems to me that a better feeling would prevail if the professors would make a little more effort to place the student on the same social standing.

WINTER CARNIVAL WILL BE HELD TODAY

The women's annual winter carnival will be held this afternoon from 2:30 to 4 o'clock at Redstone. All members of the faculty are invited. Many ambitious competitors from the various dormitories have entered the sports. A five-pound box of marshmallows will be awarded to the dormitory having the most representatives. The program follows:

1. 25-yd. snowshoe, free for ...
2. Snowshoe obstacle race.
3. Snowshoe, umbrella, and suitcase.
4. Amateur snowshoe.
5. Interclass snowshoe.
6. Interclass ski dash.
7. 25-yd. ski, free for all.
8. Ski obstacle.
9. Progressive Relay, 100 yards.
10. Human ski-joring.
11. Tug-of-war.
12. Snake dance.
13. Prizes awarded.

UNIVERSITY SELECTED FOR EXPERIMENT BY Y. W. C. A.

The University of Vermont has been selected by the National Board of Y. W. C. A. to participate in a study of community adaptation. Four institutions, widely distributed over the United States, are cooperating in this attempt to discover how a teacher in a small community may best make outside contacts. A small community has been defined as one having not over three thousand inhabitants. Each institution has chosen fifty girls who have been graduated within three years. These girls are to keep diaries of all their outside contacts over a period of months. During this time, they are kept in touch with each other and the board in charge through Miss Gladys Taylor, who is supervising the study. It is hoped that conclusions and recommendations may be reached which can anticipate some of the problems both of the teacher and the community.

...ation of play, a ...ssed the first ... Prentice, who ... from Norwich's ...ided him nicely, ...p-shot. Prentice ...ows in succession. ...e a spectacular ...s basket, having ...ed from Price out- ...ide in a free throw, ...another step-shot, and Katz succeeded in one out of two free throws, after having been fouled by Molter.

Hoarin substituted for Harpin.

Marvin held Aimi, who failed to try for point. Captain Biddell made one of his spectacular runs down the floor, but was crowded by Katz and failed the shot. Hoarin held Prentice, who succeeded in his free throw, and Price made a neat shot from the foul line. Hoarin tossed in a lovely field basket, after which a technical foul on Katz netted Norwich one point and another pretty field goal was netted by Plumley. Beddell fouled Prentice who made the try and followed soon after with a stepshot. Price and Biddell both dropped the ball into the basket only to have it counted no again. At this time it looked as though Katz and Harpin would have a large assortment of their own but nothing came of it and Hoarin closed the first half.

Score end Score Vermont 18 Norwich 18

Play was resumed and Beddell turned the entire Vermont defense over to one side of the floor with a field shot and scored a stepshot from the other side after a pass by the captain. Price shortly later Norwich took time out again and Thompson went in for Post. Estes for Price. Wyeomb for Murray.

Harpin replaced Hoarin.

South after gave selected Beddell dropped another long shot into the basket only to have it bounce out. Nothing more happened and the game ended as it was with the score 24-20 in favor of the Green and Gold.

Vermont has now won one game from both Norwich and Middlebury and has yet to St. Michael's to win the event goes from every defended

(Continued on page 8.)

The question is sometimes asked: Where do young men get when they enter a large industrial organization? Have they opportunity to exercise creative talents, or are they forced into narrow grooves?

This series of advertisements throws light on these questions. Each advertisement takes up the record of a college man who came with the Westinghouse Company after graduation and within the past ten years.

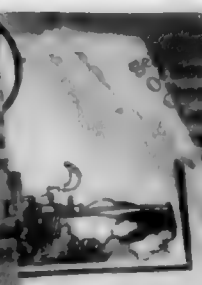
Engineer! Arrest that Bolt

JOSEPH SLEPIAN

THE Sales Department was talking in emphatic and easily understood language. It was saying, "We want action."

At Westinghouse, action in many cases is another word for research. And research works toward selected goals. In this case the goal was for new apparatus to make unchained lightning more respectful of power plants, lines and equipment.

Today, as a consequence, the electrical industry is the beneficiary of the "Autovalve Lightning Arrester", perfected to a degree of efficiency, long service and universal utility never dreamed of before. Behind that picture you find Joseph Slepian. With two degrees from Harvard, he started training in our East Pittsburgh Shops in 1916. A year later he entered the Research Department.



This was the lightning arrester situation which Slepian took into the research camp: There were two different types of apparatus. One, called the multi-gap, was used chiefly on poles of distribution circuits. When lightning struck, it frequently caused transformer troubles and damaged equipment. For high-voltage application there was the cumbersome electrolytic arrester. Its performance was good enough. But it required constant attention; was costly of upkeep; and could not be used on poles.

When Slepian perfected the Autovalve Arrester, the demand was so great that orders could not be filled. It was entirely new. One type of apparatus solved the whole problem—no more costly care. It stands up indefinitely, whether used on poles or on the ground—sufficient reasons for yearly sales exceeding $2,000,000.

Such results may depend as much on a phase of an engineer's past training as on his immediate research. Take the radio horn which gives the natural tone to Radiola sets. It was Slepian's mastery of mathematics, in which he specialized at Harvard, which contributed toward that big advance in the early days of loud-speaker popularity.

The man with "hidden reserves" is constantly finding them called upon to "climb peaks and cross mountains" in institutions like Westinghouse.

SPORTING NEWS

MIDDLEBURY DEFEATED IN OVERTIME PERIOD

The score was tied at 28 all with [illegible] Prentice shot [illegible] Vermont in the lead with a single point margin. A moment later Prentice sank a twin pointer, a beautiful shot from the side court, this gave Vermont a safe 3 point lead. Middlebury closed in on the stalling Vermonters and for a moment left Capt Post unguarded. A bullet like pass from Marvin and Post sank an easy step shot as the final [illegible] with Vermont on the [illegible] end of a 31 to 28 score.

The summary:

Vermont	Gls	Fls	Pts
Post, r. f.	3	1	7
Prentice, l. f.	6	1	13
[illegible]	2	0	4
[illegible]	1	0	2

TRIANGULAR MEET ON 1926 TRACK SCHEDULE

The 1926 Track Schedule has been definitely arranged and promises several interesting meets including a triangular meet with Middlebury and Norwich at the close of the season. The schedule is as follows:

May 1. Interfraternity Meet
May 7 Eastern Intercollegiates at Worcester
May 15 St. Lawrence here.
May 22. Interscholastics here.
May 29 Triangular Meet. Norwich and Middlebury here.

Spotlight

[illegible] Last week, reported the Boston Ware [illegible] Of course, on the basketball court. The Green and Gold has not visited for several years [illegible] but then seems to be an excellent time for reminding the world at large that Vermont has won, by right, her representative major sport contests from her rival Middlebury.

Next week U. V. M. meets two new [illegible] M. A. C. and Connecticut Aggies. The Sagacity of prognosticating is paramount but the temptation is too strong so here goes.

The Massachusetts aggregation defeated New Hampshire State 20-13 while New Hampshire was in fine form. Yet Vermont beat the Granite-staters 25-14 a short time later. This [illegible] is an opinion on but the comparison certainly does not favor M. A. C. particularly.

[illegible] concerning the Connecticut game is as follows: "Aggies drop [illegible] game to Union Five. Score [illegible] Last week the Green and Gold [illegible] 28-25, exactly the same [illegible] but up to January [illegible] the Aggies had played only [illegible] and had lost two of them. [illegible] must meet Coach Dole's [illegible] this year, and that [illegible] so that Vermont students will be enable to witness what will undoubtedly be about the best battle of the year.

The University of Vermont deserves to be congratulated on keeping in step with the overwhelming tendency of the times to emphasize winter sports. "Onie" Hill's influence in the Outing Club has already brought a winter carnival and Manager Russell, almost [illegible] has given the University a [illegible] team with a more than respectable schedule. With her excellent advantages Vermont should be able to carry on the work of achieving superiority in winter sports with considerable success.

Holy Cross started cage practice last week in preparation for the coming baseball season. Jack Barry is at the helm again and although without the services of Gatreau and Car-

(Continued on page 8)

"SPEED" DENNING NEW CAPTAIN OF HOCKEY

The Hockey squad has been holding practices every afternoon in the past week at Kirby's rink, in preparation for three games to be played next week. Saturday afternoon there will be a practice game with Winooski A. C., composed of former Canadian players.

Speed Denning was elected captain last week. The line-up for Monday's game will be:

Denning, r. d.
Wood, l. d.
Mitiguy, g.
Kimball, l. w.
Gervais, r. w.

Other men showing up well in last week's practice are: Winchenbach, McLaughlin, Sherman, Perry Fitch, and Smith.

The first scheduled game to be played here is next Monday, with Middlebury, at 4 P. M., Wednesday, February 17, at 4 P. M. St. Michael's will play here and Saturday, February 20 at 2:30, Union will play.

Contrary to a previous notice, admission will be charged, but students will be admitted on their season tickets. It is desired that a large crowd attend these contests as it will determine whether Vermont will have a Hockey Team in the future, or whether Vermont will not be represented in that field of sport as last year.

JUNIORS LEAD IN INTERCLASS SERIES

The Interclass basketball series are now being played off under the auspices of the athletic department. At present the Juniors seem to be in the lead.

The Freshmen won the first game of the series from the Seniors by a score of 19-4, before the Varsity game with New Hampshire State. The upperclassmen appeared to be hopelessly outclassed. The line-up was as follows:

Freshmen		Seniors
Pike, r. f.		r. f., Guild
Mackay, l. f.		l. f., A. Guild
Morgan, c.		c., Gray
Palmer, r. g.		r. g., Lamson
Estabrook, l. g.		l. g., Wilbur

The second game was won by the Juniors from the Sophomores by a score of 24-18, in a contest played before the Middlebury game Saturday evening.

Tuesday night before the game with Union, in one of the fastest basketball games seen on the Hill for some time, the Juniors defeated the Freshmen 13-12. The first half ended 7-6 in favor of the Frosh. For the Juniors, Randall was easily the star scoring 5 of the 13 points. McGaughan also put up a good game. Estabrook and Morgan played a fine game for the Frosh. The line up follows:

Juniors

	Gls.	Fls.	Pts.
Randall, r. f.	2	1	5
Cerasoli, l. f.	0	0	0
Wendt, l. f.	0	0	0
Rowe, l. f.	0	0	0
McGaughan, c.	1	2	4
Woodard, r. g.	2	0	4
McGinley, l. g.	0	0	0
	5	3	13

Freshmen

	Gls.	Fls.	Pts.
Mackay, r. f.	1	1	3
Price, r. f.	1	0	2
Pike, l. f.	0	1	1
Morse, l. f.	0	0	0
Morgan, c.	1	0	2
Estabrook, r. g.	0	2	2
Palmer, l. g.	0	2	2
	3	6	12

GEORGE R. PERRY '28, [illegible]

FRATERNITY SYSTEM OPEN TO QUESTION

[illegible] modern status of [illegible] as yet a settled [illegible] we have certain [illegible] for the fraternity, [illegible] who are untiring [illegible] it. The following [illegible] the editors of *The* [illegible] seems to present a [illegible] solution:

"[illegible] system does not at [illegible] unqualified approval [illegible] the very great majority [illegible] men in Amherst today. [illegible] serious defects, more [illegible] important than the obvi[illegible] they offer to group [illegible] snobbishness. For [illegible] tend to standardize [illegible] tastes to discourage the [illegible] whose peculiar interests [illegible] might, if given free [illegible] achievements of which [illegible] as well as the fraternity [illegible] some day be proud. [illegible] fraternities establish [illegible] as regards a code of [illegible] in minor matters, for, in [illegible] all small groups and [illegible] they are intolerant of [illegible] the ordinary even when [illegible] enforce some local standard [illegible] own which can well be [illegible] noxious. These things are [illegible] thinking about.

"[illegible] those who justly enough [illegible] college men and college life [illegible] their criticism on fraternities as one concrete object which [illegible] be attacked and carried that [illegible] to unexpected limits, if there [illegible] fraternities, if the system [illegible] away with, would the col[illegible] any better off than formerly? [illegible] only too glad to answer [illegible] In the place of fraternities [illegible] other organizations which, [illegible] under another name, would [illegible] the same defects. And these [illegible] are, after all, for the most [illegible] reflections of that which is [illegible] with college men and the world [illegible]. If the fraternities disap[illegible] that which is wrong would [illegible] wrong and find expression [illegible] other channels than frater[illegible]. It is not likely that abolish[illegible] fraternities which have supposed [illegible] of fellowship would improve the [illegible] in the least.

"[illegible] other hand fraternities can, [illegible] ing action themselves, avoid the [illegible] criticism which in their pres[illegible] degenerate state they appear to [illegible]. They can do more than avoid [illegible]ism. They can completely justify [illegible] existence by endeavoring to [illegible] the atmosphere of studied pur[illegible]ssness, the inertia which per[illegible] the undergraduate bodies of the [illegible]can colleges, Amherst included [illegible] in particular. Acting as units [illegible] effectiveness is obvious in that [illegible]ready existing they dominate col[illegible]ife, fraternities might well [illegible] an interest in something beside [illegible] own insignificant ritual and [illegible] politics. Just for a beginning— [illegible] some house decided as a [illegible] to learn something of Greek [illegible] in Athens, fifth century B. C., [illegible] invited the professor or professors [illegible] specialty that was to spend an [illegible] of two or three in informal ses[illegible] it isn't possible of course, that [illegible] a thing should happen, but if it [illegible]

I smell the lovely smell of [illegible] upon the lovely zephyr.
That ain't the smell of spring [illegible] that's only yonder hephyr.
—*State Froth.*

Co-ed: Why so angry?
Co-ed: You told me that [illegible] a gentleman!
Co-ed: And he wasn't?
Co-ed: He was.—*Vanderbilt* [illegible]

Dr. Julian Taylor, professor of [illegible] language and literature at [illegible] since his graduation there in [illegible] retired from active teaching [illegible] age of 80. Doubly unusual is [illegible] that Dr. Taylor has spent his [illegible] career, since first matriculating [illegible] a freshman, at the Waterville, [illegible] college.

Odd Items from Everywhere

Nothing can daunt the creative genius of the college student.

When Baylor University passed the commandment—"There shall be no nocturnal automobile joy-riding," gloom gathered over the campus.

But not for long. The authorities had neglected to ban other means of locomotion. Within a week there were dozens of horse-drawn vehicles carrying co-eds and their Rudolphs along the highways and byways.

The new system, it is pointed out, has its advantages. There is not as much danger of wreck. Flat tires (speaking of the buggies, not dates) are an unknown quantity. And if Old Dobbin is gentle and knows the route, Rudolph can forget about the reins and devote all of his attention to friend co-ed, without parking.

Every graduate of the University of Kansas must be able to swim at least 100 feet before he is given his degree. Other colleges making swimming a requisite for graduation are Cornell, Iowa State, Rochford, Radcliffe, Syracuse, Cincinnati, Wisconsin, Wells, Western Reserve and Wooster.

The University of Dubuque has discontinued intercollegiate athletic activities because they proved more of a liability than an asset. Students are permitted to compete only among themselves.

The University of Rochester mourns the loss of eleven men and three women by the mid-year toll. The students congratulate themselves that the number has been reduced from twenty-seven of the previous year. Here is a fine opportunity for transfers.

A vote is to conducted at the University of Rochester for the purpose of changing the college color. It is heretofore been yellow, but alumni, students and faculty, desire a change from the universal signal of cowardice.

It has been suggested at the College of William and Mary that the co-eds should pay half of the expenses of every date.

The University of Iowa is building a new field house which will include nine tennis courts, a basketball floor, an indoor golf links, regulation size gridiron, 5,000 lockers, fifty showers and a baseball diamond.

All the "extras" in the motion picture, "The Freshman," were students at the University of Southern California.

The University of Vermont was represented at the winter sports carnival, held at Rutland on February 6, 1926, by "Dick" Bragg, '29 who placed third in the obstacle race.

Matthew Marsh of Berkeley, who at the age of four, was declared by a noted educator to be "the brightest boy in California," entered the University of California at the age of 14. Marsh is small for his age, and so is debarred from the R. O. T. C., but otherwise is taking part in all freshman activities. In celebration of his matriculation, he donned his first long trousers.

Rutgers University is contemplating a new system for announcing term grades. One method suggested was that of posting the marks on the class room door 24 hours after the examination in that subject.

According to the "Hour Glass" of St. Mary's College, St. Mary's, Kansas: "The game of life is the same as it was a thousand years ago, but the cards are different. It's diamonds now, instead of clubs."

AND THEN THE FUN BEGAN

Angry parent striding into dimly lighted room: Young man, I'll teach you to make love to my daughter!

Daring Dan: Wish you would, old boy, I'm not making much headway.
—*Grinnell Malteaser*

The necessary elements of a successful kiss are these: Contact, content and continuity.

Some men like smoking after dinner; other men like dancing. Wise men omit the dinner.

When a woman objects to knee length dresses, she should not protest if we draw our own conclusions.
—*Exchange*

At Dartmouth the Editorial Board Candidates are just beginning an eight-week period of intensive "heeling" as scrubbing is called. The work for these men will consist of writing news articles, interviews, and office work. In February elections to the Board will be announced.

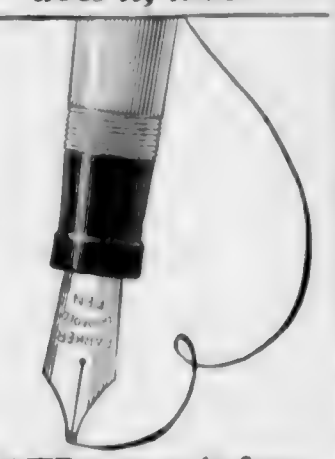
New York—What's become of the [illegible]? This is a question that is puzzling the theatrical producers. [illegible] part in "The Dove" was an [illegible] feature of fur-trimmed damasia for the [illegible] and now the blondes are fair [illegible] in the majority. In fact there [illegible] chance to get around. A booby [illegible] tried to answer the question by [illegible] that most girls have [illegible] of changing their hair and have a run [illegible] the peroxide process so popular [illegible] few years ago. Maybe he's right [illegible] that doesn't help the producers. They want more brains.

[illegible] colleges only should make [illegible] students.

Why?

Because they've had so much experience coming home.—*N. Y. Medley.*

He left the dance at twelve to get her home at one.
How far away does she live?
Two blocks over.
Oh! [illegible] Lantern.



A man has to use his head to figure how

SPORTING NEWS

MIDDLEBURY DEFEATED IN OVERTIME PERIOD

Spotlight

JUNIORS LEAD IN INTERCLASS SERIES

The interclass basketball series are now being played off under the auspices of the athletic department. At present the Juniors seem to be in the lead.

The Freshmen won the first game of the series from the Seniors by a score of 13 to 5 before the Varsity game with New Hampshire State. The [illegible] appeared to be hope[illegible] impressed. The line-up was as follows:

Freshmen		Seniors
[illegible]	f	[illegible] Guild
[illegible]	f	A. Guild
[illegible]	c	C. Gray
[illegible]	g	g. Lamson
[illegible]	g	g. Wilbur

The second game was won by the Juniors from the Sophomores by a score of 24 18 in a contest played before the Middlebury game Saturday evening.

Tuesday night before the game with Union in one of the fastest basketball games seen on the Hill for some time, the Juniors defeated the Freshmen 13 12. The first half ended 7 6 in favor of the Frosh. For the Juniors, Randall was easily the star scoring 5 of his 13 points. McGaughan also put up a good game. Estabrook and Morgan played a fine game for the Frosh. The line-up follows:

Juniors

	Gls	Fls.	Pts.
Randall r f	2	1	5
Cerasoli l f	0	0	0
Wendt l f	0	0	0
Rowe l f	0	0	0
McGaughan, c	1	2	4
Woodard r g	2	0	4
McGinley l g	0	0	0
	5	3	13

Freshmen

	Gls	Fls.	Pts.
Mackay r f	1	1	3
Price r f	1	0	2
Pike l f	0	1	1
Morse l f	0	0	0
Morgan, c	1	0	2
Estabrook, r g	0	2	2
Palmer, l g	0	2	2
	3	6	12

(Continued on page 8)

VERMONT DEFEATED BY UNION; SCORE 24-16

Makofski, Reputed One of Best Tossers in East Easily Star of Game

In one of the fastest games [illegible] year Vermont went down [illegible] the hands of Union College [illegible] score. The Black and Red [illegible] which faced Vermont Tuesday [illegible] considered to have one [illegible] basketball teams in the East [illegible] a credit rather than a disgrace [illegible] such a quintet to a low score [illegible] pile up 16 points.

Makofski, Union's left [illegible] up to his reputation of being [illegible] the best basketball tossers [illegible] During the second half he [illegible] best exhibition of ball handling [illegible] at the Vermont gym in some [illegible]

Vermont started the scoring [illegible] foul by Price. Gilligan of Union followed with a twin counter. [illegible] scored a step shot putting Vermont [illegible] the lead. After this Union [illegible] almost at will and at the end of [illegible] first half Union stood on the long end of a 17 6 score.

During the second half Vermont seemed to take on a new lease [illegible] and scored 10 points to Union's [illegible] Price started the scoring in the second half with a beautiful step shot [illegible] followed by a twin counter by Gilligan. This burst of speed kept [illegible] Union called time out with 10 minutes to go and the score standing 24 to 14 in favor of the visitors. At this point of the game Makofski started stalling and put on an exasperating exhibition of dribbling in back court which lasted the rest of the game's time except for short interludes during which the Green and Gold quintet seemed afraid to break up.

For Vermont there were no scoring stars, each man caging at least one basket, while Katz was high man with two baskets and one foul being called on the defense.

For Union Makofski starred on [illegible]

"SPEED" DENNING NEW CAPTAIN OF HOCKEY

The Hockey squad has been holding practices every afternoon in the past week at Kurby's rink in preparation for three games to be played next week. Saturday afternoon there will be a practice game with Winooski A. C. composed of former Canadian players.

Speed Denning was elected captain last week. The line-up for Monday's game will be:

Denning r d
Wood l d
Mulgay g
Kimball l w
Gervais r w

Other men showing up well in last weeks practice are Winchenbach, McLaughlin, Sherman, Perry, Fitch, and Smith.

The first scheduled game to be played here is next Monday with Middlebury at 4 P. M. Wednesday February 17 at 4 P. M. St. Michael's will play here and Saturday February 20 at 2.30 Union will play.

Contrary to a previous notice, admission will be charged but students will be admitted on their season tickets. It is desired that a large crowd attend these contests as it will determine whether Vermont will have a Hockey Team in the future or whether Vermont will not be represented in that field of sport as last year.

TRIANGULAR MEET ON 1926 TRACK SCHEDULE

The 1926 Track Schedule has been definitely arranged and promises several interesting meets including a triangular meet with Middlebury and Norwich at the close of the season. The schedule is as follows:

May 1 Intrafraternity Meet
May 8 Eastern Intercollegiates at Worcester
May 15 St. Lawrence here
May 22 Interscholastics here
May 29 Triangular Meet Norwich and Middlebury here

TENTATIVE JUNIOR WEEK PROGRAM IS ANNOUNCED

May 26 to 29 Dates Set for Annual Festivities of the Junior Class

[illegible] tentative schedule of [illegible] been announced by [illegible] chairman

[illegible] May 26—Peerade 4 p. m., [illegible] 30 p. m

[illegible] 27 Tennis, Vermont [illegible] 4 p. m., College play

[illegible] May 28—Tennis, Vermont [illegible] 4 p. m., Baseball, Ver[illegible] Springfield 4 p. m., Junior [illegible]

[illegible] May 29—Fraternity [illegible] will be announced in [illegible]

EGAN ELECTED HEAD OF ELIGIBILITY DEPT.

The Eligibility elections were held [illegible] week. J. N. Egan '27 was elected Manager and H. H. Fogg '28, A. D. [illegible] and M. C. Robbins '28 were elected Assistant Managers.

SENIORS RETAIN CUP IN WINTER SPORTS

The U. V. M. Interclass Meet held in connection with the Post Carnival on February 13 was won by the Seniors [illegible] points the Freshmen being second with 16 points, while the Sophomores brought up the rear with [illegible] points. The Juniors did not compete. By virtue of this victory, the Class of '26 retains permanent possession of the cup which it had won two previous years.

There were more entries in the meet than in any previous years and the competition was keen. Bragg '29 and Stone '26, were tied for individual honors, each man garnering 10 points. The events follow:

1. Ski obstacle race: 1st, Bragg 2nd, Saunders '28; 3rd, Sears '26.
2. Ski dash: 1st, Hill '26; 2nd, [illegible] '29; 3rd, Saunders '28.
3. Snowshoe cross-country: 1st, Stone '26; 2nd, Mitchell '28.
4. Ski cross-country: 1st, Bragg 2nd, Cole '29; 3rd, Hill '26.
5. Snowshoe obstacle: 1st, Mitch[illegible], 2nd, Hill '26.
6. Snowshoe dash: 1st, Stone '26; [illegible] Hill '26; 3rd, Mitchell '28.

VERMONT SEXTET TO MEET PANTHER AGAIN

Tomorrow the Green and Gold sextet travels to Middlebury for the second game of the state championship series. The Blue and White won the contest here by reason of superior scoring power, but Vermont with the added experience gained from two games and considerable practice should give their hosts an even better battle than was staged on Gutterson's rink a week ago.

Wednesday, the team plays St. Michael's on the St.'s rink and Saturday the Winooski six's home court. The Purple and Gold has played no games as yet but practice has been [illegible] all year, and many of the freshmen stars of two years ago will be in their line-up in these two championship games.

Correction

The Cynic wishes to correct an error in the account of last issue, which stated that Vermont's winning the [illegible] championship in basketball. The [illegible] state series will not [illegible] before the next game [illegible]

Delta Psi Wins Briggs Cup in 29th Annual Kake Walk

Platt and Remick of Sigma Phi Again Best Couple in "Walkin' fo' de Kake"—Lanou First in Peerade

UNIVERSITY BAND IS HIGHLY PRAISED

The Delta Psi fraternity with its stunt "As It Happened" won the Briggs Cup and the large cake awarded for the best one of the eight stunts presented at the Twenty-ninth Annual Kake Walk. Their winning stunt pictured the Three Fates spinning out history from death of Samson down to the controversy over the new City Hall.

The Southwick Cup and small cake for the second best stunt went to Kappa Sigma for their presentation entitled "Vermonters All" This stunt shows a Vermont Quartette in Florida singing old songs to illustrate which tableaux from the history of our country and University are presented.

The large "Kake" and the individual Boulder Cups for the best couple in the "Walkin' for' de Kake" went to M. G. Platt and H. M. Remick of Sigma Phi for the second consecutive year, they being the winning couple last year also. Honorable mention was given to the Leary brothers of Kappa Sigma.

Frank Lanou of Kappa Sigma as "The Last Pedestrian" won the Wright Cup and the small cake presented for the best feature of the Peerade. He was the fully motorized individual of 1930, with pneumatic tires on his feet, and the rest of his body encased in a cab equipped with stop signals, headlights, horn, and all the other paraphernalia of the modern automobile. Honorable mention went to Phi Delta Theta, for their "Race to Nome," which was equipped with sled, bull terrier pups as sledge dogs, and all other trappings necessary for Arctic Travel.

Before announcing the decisions of the judges, Fred A. Howland of Montpelier, expressed his regret that there was no award for the R. O. T. C. Band which he said was one of the best that he had ever heard in all his travels back and forth across the continent.

The judges for Friday night were Robert C. Clark of Brattleboro, Judge Charles H. Darling of Burlington Judge Frank L. Fish of Vergennes Professor A. R. Gifford of the University, Edward H. Jones of Waitsfield, Emery A. Melendy of Londonderry, and George E. Whitney of Burlington.

On Saturday evening the performance was judged by Governor Franklin S. Billings of Woodstock, Edward L. Bates of Bennington, Stoddard B. Bates of Derby, Thomas Bradlee of Burlington, Fred A. Howland of Montpelier, Judge Leighton P. Slack of St. Johnsury, and Colonel A. A. Starbird of Fort Ethan Allen.

The judges for the peerade were J. Walter Wardlaw of St. Albans, Charles P. Moat of the University, and Leo Wilson of St. Albans.

KAKE WALK DIRECTORS

F. J. Lillie

E. I. Drury

The Events

The R. O. T. C. Band gave opening concerts on both evenings. They also furnished music for the Grand Peerade, the "Walkin' fo' de Kake," and during the intermissions.

The Peerade consisted of over thirty entries and was so long, that on the second evening it was divided into two parts each of which paraded twice around the hall. The number of large floats was unusually great this season, in fact some of them had difficulty getting through the doors.

Stunts of fifteen minutes duration each, were presented by eight fraternities, with an intermission between the fourth and fifth. It had been planned to eliminate two at the dress

(Continued on page 5)

1927 WINS INTERCLASS BASKETBALL TOURNEY

The last two games of the interclass series were played off Saturday resulting in a win for the Juniors over the Seniors 23-21 and a victory for the Freshmen over the Sophomores 9-8. These games completed the series and the summary is as follows:

	Won	Lost	Per Cent
Juniors	3	0	1.000
Freshmen	2	1	.666
Sophomores	1	2	.333
Seniors	0	3	.000

INTERCLASS RELAYS TO BEGIN TUESDAY

The interclass relays are scheduled to be run off starting next Tuesday On this date the Frosh will run against the Sophs and the Juniors compete with the Seniors On Wednesday the two winning teams will run for the class championship. The losers of Tuesday's competition will also run to decide the best team between them.

The class champions are then to run against the crack Delta Psi team, the winners of the interfraternity relays, run last week

U. V. M. BRINGS CITY $1,000,000 OF BUSINESS

Dean Votey Addresses Exchange Club on Value of College to City

Dean J. W. Votey, speaking before the Exchange Club Monday noon, said that the University is bringing about a million dollars of business to Burlington every year. He called attention to the fact that many families are moving to Burlington because of the educational advantages provided here. The feeling between the people of the city and those on the hill is continually improving, their interests being brought closer together by the 200 or 300 Burlington students in the University

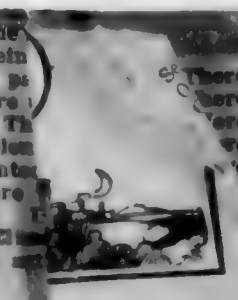
The city also derives benefit from the proximity of speakers on any subject whatever, as well trained men who have helped to solve many civic problems

The physical equipment of the University brings many conventions here, and provides space for meetings and fairs of all kinds. In connection with the new chapel, Dean Votey said many lectures and concerts of interest to the people of the city would be given there

The program was under the direction of F. W. Kehoe and Harold A. Mayforth and included selections by the Alumni quartet, consisting of Messrs. Durfee, Bell, Dow and Gallup

HIGH SCHOOL DEBATERS WORK FOR SCHOLARSHIPS

Scholarships to U. V. M. are the prizes for which public speakers in high schools all over Vermont are striving The decisions as to the winners are to be arrived at by a series of interscholastic debates. Schedules for this purpose have been arranged by Principal Bartoo of Essex Junction High School and Principal Karl Lee of Hardwick Academy, who are the leaders in the enterprise. In arranging this schedule Vermont has been divided into six districts. At present People's Academy of Morrisville is leading in the first district, Spaulding High of Barre in the second district, Vergennes High in the third, Essex Junction in the fourth, Woodstock in the fifth and Bradford in the sixth districts



The winners in these districts will debate with each other until all are eliminated but two. These two will hold the final debate at the University in the spring and the winning team will receive $225 scholarships, while the losers will receive $100 scholarships

U. V. M. GRADUATE HELPS SAVE LIFE

Ronald McSweeney, a nephew of Dr. P. E. McSweeney of Burlington, who graduated from the Medical College last June and is now an interne at St. Joseph's Hospital, Paterson, N. J., recently assisted in a unique operation, which saved the life of a man, who had taken poison by mistake The man's throat muscles and jaws were paralyzed and he was unable to breathe. His heart had already stopped functioning, when Dr. McSweeney and Dr. Boucher another interne made an incision in the windpipe and by artificial respiration succeeded in reviving him

The new editor of the *Yale Daily News*, exponent of student opinion on the New Haven campus, has announced in his policy for the new year, a move for the privilege of unlimited cuts for Juniors and Seniors He has also taken his stand against any further acquisition of fraternities by the university.

PHI DELTA THETA INITIATES SIXTEEN

COURSE CRABBING

At Williams it is reported that Chapel goers not only match pennies for bets on the length of the sermon or prayer but also amuse themselves by coughing. From authoritative sources *The Boston Transcript* reports on this new chapel amusement.

It is a mixture of the cigarette cough and the bronchial cough, and breaks out at strategic moments because of extended sermons or Scripture readings. Numerous Freshmen have written home during their first days at the college that they are well but that everyone else seems to be suffering from bronchial colds. One professor, when conducting the service, is said in danger of being drowned out during stops until quiet is restored, while another is reputed to squelch any over the lesson reading that ever. The Westinghouse amplifiers installed in the chapel this year have diminished the former custom of sleeping in the rear pews during the Sunday sermon. Some industrious students now bring a book to read while an occasional magazine is found hid in a pew.

The practice of reading newspapers and letters in morning chapel has recently fallen off. A visiting newspaper correspondent used to eagerly search for his articles during the service until President Garfield, conducting the service, remarked. Gentlemen contrary to the apparent belief the lesson is not in *Springfield Republican* and in the second book of the Acts.

When it's the night of the season's most festive dance— and Mimi, herself, has consented to go—when in a last moment before starting you thank your good fortune
—have a Camel!

WHEN the night of the famous prom has come —and you contemplate your luck and your greatness — *have a Camel!*

For Camel adds of its own romance to every memorable event. Camels never tire the taste, never leave a cigaretty after-taste. When you light a Camel, you may know you are smoking the world's mellowest cigarette.

So this night, as you fare boldly forth to society's smartest and gayest affair—learn then how sympathetic, how really fine and friendly a cigarette can be.

Have a Camel!

Into the making of this one cigarette goes all of the ability of the world's largest organization of expert tobacco men. Nothing is too good for Camels. The choicest Turkish and Domestic tobaccos. The most skilful blending. The most scientific package. No other cigarette made is like Camels. No better cigarette can be made. Camels are the overwhelming choice of experienced smokers.

Our highest wish, if you do not yet know Camel quality, is that you try them. We invite you to compare Camels with any cigarette made at any price.

Spring is coming!

Everyone at the dormitory says so but they say it thus: "Sprig is coming. Lend be a hadkerchief?"

That's only one of the signs. There are others.

The first new spring hat has appeared in our midst—green, with flowers on it.

Everyone who hears the cheery song of the blithesome sparrow rushes to the window: "A robin! A robin!"

There are exactly forty-one days left before Easter vacation; every day we cross off another day on the calendar and announce the tally in class next morning at breakfast.

One enthusiast has brought out her tennis shoes.

So it goes. Soon we'll be paddling to classes through running riverlets and writing further communications to the CYNIC *about* the south walk on the campus—which won't do any good but will ease our minds—and penning odes to bubbling bluebirds and singing streams or is it the other way around?

Anyway, spring is coming!

Communications

To the Women's Editor of the CYNIC:

The much-discussed matter of co-eds smoking is to my mind, one of choice. A girl, born and bred in the hills of Vermont will not partake, simply because it has been a closed subject to her from her birth. To even think that the majority of these girls would smoke, would be sacrilegious.

If we must have smoking here at Vermont—and we might as well now as later—we could have a modified rule, such as no smoking in dance halls, hotel dining rooms, or dormitory, or in any public place so as to show the public's displeasure, but be at liberty to smoke to her heart's content while in the great out-of-doors. Then if a girl wants to smoke, she will but at the same time if a girl has never touched a cigarette, she won't as smoking is an art that requires much practice in order that it became enjoyable to the fair smoker.

Great Presidents

It is a singular fact that three of the most outstanding names in American history should be associated with the month of February. February 3, 1930 is the second anniversary of the death of Woodrow Wilson. February 12 commemorates the birth of Abraham Lincoln while February 22 has long been celebrated by the American people in commemoration of the birthday of George Washington.

Washington—"Father of Our Country!" What a wonderful epithet to be applied to the name of any man! As soldier, Commander-in-Chief of the Continental Troops, and later as President, the name of Washington stands out foremost among those of his contemporaries, and it has been transmitted to each succeeding generation, unsullied and undimmed by the years. It is difficult to add anything to all that has been said concerning this glorious character of American history. For over a century anecdotes of his life and tales of his bravery and noble traits of character have furnished themes for countless numbers of writers. But Lincoln perhaps delivered the most simple and sincere tribute when he said, "Washington's is the mightiest name on earth—long since mightiest in the cause of civil liberty; still mightiest in moral reformation. On that name no eulogy is expected. It cannot be. To add brightness to the sun or glory to the name of Washington is alike impossible. Let none attempt it. In solemn awe pronounce the name, and in its naked, deathless splendor leave it shining on!"

Abraham Lincoln—the Emancipator. What great service did he not render to America. And to civilization itself! It was Lincoln who saved the Union and who freed the slaves! He did not live to see his name ranked among immortals; he did not live to know that his remarkable rise from the log cabin to the White House was to become a familiar tale to every school child in America. The romantic story of his career from rail splitter and country lawyer to President of the United States, together with the strength of his character has served as inspiration to the youth of every land.

Woodrow Wilson, War President! Yes, and what a skillful pilot he was, keeping the great boat "America" steady and unshattered in the fiercest storms which ever disturbed the world. Then when his task was lightened, when a successor appeared to relieve him at his post, he retired, deserted by his mates, his health impaired by constant exposure to the tempests, and sad at heart because he had not succeeded in anchoring his boat along with those of the rest of the world in the beautiful harbor of Peace.

WASSON MEMORIAL IS BEING PLANNED

Women's Student Union last Saturday took up the discussion of plans for the Dean Wasson Memorial Fund. Several suggestions for raising money have been made, including that of individual pledges, pledges by classes, and pledges by organizations.

Student Union should be of course the moving spirit of whatever action is taken but the aid of every organization on the campus will be greatly needed and the presidents of several of these organizations expressed their readiness to cooperate.

It has been thought by some that the matter should be dealt with by the classes to avoid any possible overlapping of individual taxation. The objection however is not as valid as it may seem at first. Individuals who are members of campus organizations pay their dues to each and would probably not be asked for further contribution. Such organizations as W. A. A. and Vermonters' Club are able and ready to contribute from their treasuries. The classes, on the other hand, are constantly under heavy expenses and could hardly afford to contribue substantially.

A committee has been appointed to consider plans and report to Student Union.

With the Fraternities

Rushing parties are being held during this and the coming week, in the following order:

Kappa Alpha Theta, Monday, February 15.

Alpha Xi Delta, Tuesday, February 16.

Delta Delta Delta, Wednesday, February 17.

Phi Delta Zeta, Thursday, February 18.

Pi Beta Phi, Monday, February 22.

Sigma Gamma, Tuesday, February 25.

Alpha Chi Omega, Wednesday February 24.

Bids will go out on Friday, February 26 and pledging will take place on Saturday the 27th. Neutral period will extend from Wednesday night until Saturday noon.

MASQUE AND SANDAL ELECTS NINE MEMBERS

LOIS BURBANK TAKES FIRST PLACE IN CARNIVAL

The Winter Carnival, sponsored by the Women's Athletic Association was held at Redstone on Saturday afternoon, February 13 and proved to be the most successful in years. Redstone is an ideal location for such an affair, affording not only the necessary space for the events scheduled but a picturesque background as well, this combined with clear skies and moderate temperature, a large and enthusiastic gathering of participants and onlookers made the afternoon a memorable one in the annals of W. A. A.

The program carried out resulted in Lois Burbank '27 being awarded first honors of the carnival with Allene Berthoff '26 second. The events and their winners were as follows:

1. 25-yd snowshoe free for all, Lois Burbank '27.
2. Snowshoe obstacle race, Lois Burbank' 27.
3. Snowshoe umbrella and suit case, Mary Killelea '26.
4. Amateur snowshoe, Marion Bachus '29.
5. Interclass snowshoe Juniors.
6. Interclass ski dash Sophomores.
7. 25-yd ski free for all, Juanita Witters '28.
8. Ski obstacle Allene Berthoff.
9. Progressive Relay 100 yards Evelyn Andersen.
10. Human ski-joring Ruth Eayres '27 Arline Cushing '27.
11. Tug of war, Freshmen.
12. Snake dance.
13. Prizes awarded.

Robinson Hall was awarded the five pound box of marshmallows given to the dormitory having the most representatives.

The next important event on the W. A. A. calendar is a rally planned to take place sometime in March. Arline Cushing '27 has been appointed chairman of the committee in charge of arrangements.

RIFLE TEAM WINS SEVERAL MATCHES

The Women's Rifle Team shot three matches last week, defeating Oklahoma by a score of 496-485 and Utah by default. The results of the third match with Nebraska have not yet been learned.

The Vermont Cynic

[illegible] No 15

EDITORIAL

[illegible] Winter Carnival has come, covered itself with glory and snow again, leaving in its wake boards and boxes and paints and scraps of crepe; feelings, also, of a nature difficult to analyze.

Mingled with the aftermath of pleasure and excitement, there is the sense of coming down to earth with a distinct thud; a decided conviction of the drab reality of earthly existence. One remembers those classes one missed (it was absolutely necessary) and one performs mathematical calculations disdainfully, on ones fingers. One carefully analyzes the character and temperament of this and that instructor; discussing ways and means.

Those who have put a lot of time into Kake Walk wonder just now with the fat lady in "Professor," "What's it all for?" Five or so solid weeks of classes before Easter! Tough luck!

Now is the time to settle the question of a mascot for Vermont. The Cynic two weeks ago offered a ballot to the student body in order to determine its views on the subject. Out of 1,600 students only 22 have so far responded. Student Senate we imagine will want more definite expression of opinion than that before taking action on the matter.

Most of the votes so far turned in favored the adoption of the Wildcat. If that opinion is general, it will be necessary to act quickly, if we don't want the University of New Hampshire to step in ahead of us.

Our congratulations to the managers of Kake Walk and the participants in it would almost be superfluous. The performance this year showed exceptional merit, both in the quality and the arrangement of the program, showed the result of extra time and effort on the part of the [illegible] much ability on the part of the management. A standard has been set in the last few years which future Kake Walk people will be hard put to it to excel.

Daily Dribble

Fame is but the echo of man's de[illegible]

Keep your temper—nobody else wants it.

Many men have the eyesight of a hawk, but the vision of a clam.

Be a live wire and you won't be stepped on.

Why state the obvious?

A friend is one who sees us perfect [illegible] we must become so.

Y. M. C. A. NOTES

W. H. Shank, Jr. '28 and M. G. Pierce '27 attended the conference on "The Christian Way of Living" at Northfield last week-end. The theme of the conference was "Why be a Christian." The principal speaker was Reinhold Niebhur of Detroit. About one hundred delegates from New England universities were present.

George Bond '29 is attending a conference on the same theme at Springfield this week-end.

Plans are being made for the coming of Stitt Wilson the 24th and 25th of March.

N. D. Rowe '27 and J. F. McColl '27 attended a conference of young people at Richmond last week-end.

News Briefs

The concert given by the R. O. T. C. Band of the University of Vermont, before the Kake Walk Friday night was broadcast by Station WCAX.

E. A. Vincent '27 has opened a barber shop at Commons Hall.

The American Society of Mechanical Engineers held a meeting Tuesday, February 9. R. Smith Gates spoke on "A Job in a Machine Shop and Foundry," tracing the job from the bottom upward. M. J. Robertson also spoke on "The Production of Automobiles in the United States," and "The Gas and Electric Bus."

Sigma Delta announces the pledging of John C. Medlar '29 of Burlington.

There will be a meeting of the Pi Delta Epsilon Society at Sigma Phi Place Tuesday evening at 7:30. David W. Howe of the *Burlington Free Press* will address the meeting, after which there will be a Forum.

A change has been made in the hours of the Billings Library. Hereafter the library will be open every evening until nine o'clock, excepting Saturday and Sunday. Sunday hours will be the same and the library will close at six o'clock on Saturdays.

Campus Comment

To the Editor of the Cynic:

I hope there may be a few students who will have heard the term "Winter Sports at U. V. M." mentioned in the course of their college career. One would expect to find much enthusiasm in a school which has the opportunities for winter sports that we have here. There does seem to be some interest among the co-eds, but there seems to be something missing on the men's side of the campus. Their chief sport appears to be more of an indoor type, namely, wrestling for a seat in one of the movie houses.

At the carnival at Fort Ethan Allen last Saturday there was a representation of less than ten men from U. V. M. Ten out of seven hundred is a pretty small percentage. What is the trouble with the men? Didn't they know about it or what was the reason? I think one chief reason lies in the fact that all the sports take place so far away. If they had been staged near by, say on the athletic field, there is no doubt but what there would have been many more out. Why should we have to go over to the Fort for our winter sports? Haven't we just as good snow and other necessary utilities as they have over there? Why not get busy, organize an outing club and get out for winter sports with a spirit that will show that we mean business.

Other schools have real winter carnivals where they have no snow at all, but have to import it all. If they have enough pep in those places to do that, why can't we get enough push back of us to make use of the snow which is deposited here for our use?

Of course it is too late to do much now, for the winter is nearly over. However, I would like to see a start made next year toward preparing for winter sports before the season is upon us. Why not have a good hockey rink, a ski jump, and other things that go to make a good winter carnival? Just such things have been done here at Vermont before and they can be again. Let's keep it in mind and get busy next winter. Why not place Vermont on the map in "winter" as well as in other sports.

Vermont is not the only New England college which has a hectic week in mid-February. During the week preceding this last, have been held three winter carnivals at Vermont and New Hampshire Colleges. Probably the largest and best known was the Dartmouth carnival, which claims its fifteenth year of existence, and which is famous all over the country. This festive annual included a great variety of intercollegiate outdoor contests, many fraternity dances, a comic opera and the big carnival ball.

The Week's Wetness

Our Freshman says that [illegible] came to college, he th[illegible] nity grip had something [illegible] handshaking, but now [illegible] the clinking bag [illegible] gentlemen bring into the house under cover of darkness.

He also states that he thinks fraternity spirit must have some[illegible] with hearts of oak, or at least something woody.

We notice the travel literature is arriving again. It is well [illegible] ber that the Rue de la Paix was very appropriately named. Pay is right.

Speaking of paying, a S[illegible] Freshman told us that it might pay to be virtuous, but not much.

The bird who said, "Absence makes the heart grow fonder," never sparred with any college faculty.

The co-eds think all cut-in (or almost said cut-up) dances [illegible] would make things peppier. Brass knuckles would be suitable favors we suppose.

Speaking of co-eds, we do [illegible] they would be more careful about their grammar. It was embarassing for a poor Frosh Cynic scrub the other day. One (co-ed) with a package under her arm went in the Cynic office, peered around and ventured, "I want to change my 'ddress."

"Woman," says the Frosh, "This is the Cynic office, not a ladies dressing room."

Diogenes Jr.

"Are you a messinger boy?" asked a near-sighted man of a boy in the street.

"No, sir," was the indignant reply, "it's my sore toe that makes me walk so slowly."

Delta Psi Wins Briggs Cup in 29th Annual Kake Walk

(Continued from page 1)

...Thursday evening but ... found so much in... that the judges felt ... them out.

... walked for the Kake ... Cotton Babes." ... were out the Alum... ...ered several selec... ...they were repeatedly ...

... the audience stood ... played "Champlain."

PEERADE

... the beginning of the ... Kake Walk, developed more or ... story of current events. ... of the stunts were ... anything else. The coal ... gained the most prominence. ... Kappa Sigma float gave an idea ... difficulty of saving coal from ... winter. The Sigma ... in Keeping Cool with ... The Delta Psi float, "Old ... Coal)" depicted the posi... ... coal over all classes of ... with Coal riding on a throne ... fiddlers entertaining him, ... Miner, and Operator.

... Epsilon Phi float showed ... happen if such expres... as "He Gave the Bride Away," ... Bells," were taken literally. ... the Zeta Chis do not believe ... smoking, for their float, ... Goods Smoke," argued strongly against it. The Sigma Deltas, in ... "The First Wash-Day," ... Adam and Eve dressed in barrels, ... line between which ... the historic fig-leaves. The ... second float, "Our Li... ... proof of the fact that they probably use the library to stage ... parties.

The A. T. O.'s, with their float, "Florida Real Estate," certainly introduced some novel ideas as to how land should be sold, especially when it is under twenty-five feet of water. The Phi Delta Theta fraternity, in their "Kake-Walk Special," gave the audience a glimpse of some of the trains which arrived in Burlington Friday and Saturday. Their other float showed the "Race to Nome." The Sigma Nu float, "The Exclusion of Countess Cathcart," showed the wrangle between the Government authorities and the Women's National League as to the fate of the Countess. "The Rum-runners," by the Phi Mu Deltas, was a rum-running vessel with some revenue officers chasing it. The Sigma Alpha Chi fraternity translated the expression, "Following the Ponies," in a new and unexpected manner.

The float of the Lambda Iota Fraternity "Henry Ford—What Price Glory" was a satire on Henry Ford's unique projects and the publicity they have gained him.

Besides the floats, each fraternity had at least one individual stunt.

THE STUNTS

House lights! A mad scrambling, much scuffling of feet and the palace of Cleopatra comes slowly into view; setting for "Scrambled History," by Phi Mu Delta. Cleo, reading in the paper of the approaching Kake Walk, persuades Anthony to take her. She calls up Cæsar, Portia, Shylock and others. The scene changes. Venice; and Jack Falstaff, Hamlet and others held up by revenue officers. These journey to Essex Junction, where they meet Anthony Cæsar and party and proceed to Burlington by way of trolley, talking of prohibition, coal strike, etc. Upon reaching the gymnasium, they find an immense cake, and, cutting it open, are surprised to see two Kake Walkers jump out and dance.

"As It Happened" by Delta Psi, depicts the Three Fates, spinning and unreeling of the endless monotony of things, and the drabness of actual events, stripped of their romantic glamor. As they talk, the conjure up various events of history. Samson tied to his pillars; the death of Cæsar; Sir Walter and the Queen, Walter being loath to lay down his new coat in the dirty puddle; and finally the unfortunate matter of the new Burlington City Hall.

As four Vermont alumni in Florida finish singing old songs (so goes the Kappa Sigma stunt) one of their number suggests the importance of singing in connection with the growth of the country. Tableaux and songs verify his statement. The infant republic is represented by the Spirit of '76, the period after the Revolutionary War by an old couple singing "Silver Threads Among the Gold," Lincoln, and the strains of "John Brown's Body," etc. The final scene includes the Spirit of '76, the statue of Ira Allen, and the Spirit of the Great War.

"A Par-a-dise" by Zeta Chi, followed, showing itself to be a performance after the style of the old Koon Kut-up. Two negroes appear on the stage, and wild repartee ensues, interrupted occasionally by wise coons passing by. "Marquita" is sung, and a Charleston is danced in the dark, the dancer being of the skeleton variety, aided by luminous paint. The scene ends with the first coon winning most of the other's clothes, the latter being forced to retire in a rather scantily clad condition.

The Tau Epsilon Phis in "Tradition" represent U. V. M. as having just defeated Middlebury. A son and his father are talking over the University as a place for the son to go, the latter objecting to the idea on the ground that the activities of Vermont are confined wholly to sports. The father tells of his experiences, which are acted out as he talks. The hazing of a Freshman on Church Street, the fountain fight, the Cane Rush, are shown, ending up with the origin of Kake Walk; a negro mammy offering her sons a cake for the best dance. The father and son, as they talk, hear the Old Mill bell ringing, and the son is at last persuaded to come to Vermont.

A fulcrum for every modern Archimedes

"GIVE me a fulcrum—and I will move the earth" said Archimedes. Too bad that he lived twenty-two hundred years too soon.

For you modern followers of Archimedes, you men who apply his well known principles in the study of mechanical engineering, the fulcrum is ready. If a part in helping the earth to move appeals to you, look for your fulcrum in the communication art.

A world of possibilities opens up here for the man whose bent is mechanical. Distances shrink because mechanical engineers have found how to draw well-nigh every bit of air out of a repeater tube. A million telephones are made—and the millionth is like the first because mechanical ingenuity has shown the way. Quantity production in a great telephone plant calls for constant improvement in mechanical technique.

Every day is a day of new facts, new things, new achievements by mechanical and electrical engineers. Nothing stands still. Here the world *does* move.

SPORTING NEWS

VERMONT DEFEATED BY SMALL MARGIN

Springfield Victorious in Rough Contest—James, Prentice and Price Star

The Spotlight

[illegible] is certainly a good one and another instance of [illegible] which the athletic department has adopted [illegible] on the scene of action, of an extensive program of intramural contests athletics in U V M cannot but be improved with [illegible] contests are sure to discover and develop

V

It seems unfortunate that the Green and Gold quintet should have been compelled in all but home games at least by more or less slack refereeing. It has been perfectly apparent at the beginning of every contest on the gym floor that the boys are used to playing a fast, clean game with a minimum of body contact. Then very soon they find it impossible to [illegible] such a style and are forced into the old fashioned rough and tumble contest and are at a great disadvantage. Strict refereeing would eliminate this [illegible] feature and we hope the athletic department will remedy the defect next year.

V

Although Vermont may not as yet have absolutely clinched the state championship the possibility of losing it is practically nil. The only possible way in which the Green and Gold can lose the title is by losing the second game to Norwich. If the University team drops the second game to Medd but wins from Norwich then the Blue and White must win twice from St. Michaels to tie up with Vermont within the state and at the time the Purple and Gold has been improving the down stater's task with the Watermans is no sinecure. Even in the event of such a tie up we feel that Vermont could claim the championship with every right because of her markedly better record outside the state. Since these things are so any [illegible] individual who wishes to place any bets against Vermont for the state championship can get satisfaction by calling at the Cynic office.

V

We print in our columns this week an All-Time Vermont football selection made by men who have graduated during the last thirty years. After reading the lists it is impossible not to think that perhaps some of the choices were determined rather by the year in which the player represented the University than by his relative ability. We realize that possibly we are prejudiced but when one sees men like Beck on the second team one feels that a scrimmage between the two teams when all the members of both were in the prime would possibly reveal a disparity between opinion and actuality.

This one thing is certain, such a scrimmage would be an epic battle and we doubt whether many colleges could stage a better one.

[illegible] defeated by a 29 [illegible] Springfield penalty [illegible] Green and Gold quintet by a 32 to 29 score. Sunday's game was [illegible] the visitors [illegible] The game was [illegible] with Springfield getting [illegible] and then there [illegible] to a [illegible] in the evening after [illegible] would start by the [illegible] The [illegible] machine [illegible] the Green [illegible] [illegible] getting [illegible] Springfield's defense [illegible] [illegible] for twin [illegible] [illegible] free throw [illegible] [illegible] Hen Katz sank [illegible] free throw and Vermont held [illegible] Berry and James [illegible] for twin [illegible] [illegible] and the first half White was [illegible] 6 to 5. Post sank a one-hand [illegible] [illegible] followed by Prentice [illegible] dropped in a long one as Vermont [illegible] [illegible] James scored on [illegible] and Prentice came back [illegible] and Vermont was in the [illegible] 7 to 6. Wegner scored a [illegible] James sank a beauty and [illegible] Berry added a brace [illegible] giving the visitors a [illegible] [illegible] Post and Capt. Crowley each [illegible] a free throw. Price got a four [illegible] Post sank a one as the half [illegible] 16 to 11 in favor of the visitors.

Price scored the opening shot of the second half taking the ball from the [illegible] for a neat follow up shot. James [illegible] another of his specialties a [illegible] and Berry scored a free [illegible]. A moment later he made a [illegible] taking the ball on a long pass from James. Price countered [illegible] a basket and the score stood 19 to 11 in favor of the visitors. James made a step shot and was fouled he made both of the fouls making the score 21 to 11. Marvin added a free throw and Katz sank a long shot. Price dashed the length of the floor and looked the ball over to Prentice who made the basket. The score then stood 23 to 20. Burt made a step shot for Vermont. Post added a free throw. James and Berry each a basket. Prentice scored from the floor and a free throw. James sank a circus shot which put the game on ice for the visitors. Prentice made a foul quickly followed by James. Price shooting [illegible] in the final seconds of play sank one from behind the center as the game ended with the visitors on the long end of a 32 to 29 score.

For Springfield James was easily the star piling up 17 points besides being a whirlwind on the defense. Berry the visitors right guard also

VERMONT DEFEATS WINOOSKI ALL STARS

A week ago Saturday at Kirby's [illegible] Vermont defeated the Winooski Hockey Club 2-0. The ice was in very poor condition and resulted in a slow game. Sam Hebert at center made both tallies for the Green and Gold in the first period after which the Winooski goal was unreachable.

Line-up:

Vermont		Winooski
Winchenbach, Hebert, Baldwin	c	
Samson, Gervais	r w	
Finch, Kimball	l w	
Capt. Denning	r d	
Wood, Williamson	l d	
Mittiguy, McLaughlin	g	
		McCarthy, Provost
		Beaupre, Rousseau
		Perrotte, Stoddard

MIDDLEBURY WINS IN CLOSE HOCKEY CONTEST

Blue and White Have Advantage in Experience and Condition —Wood Stars

Monday the Blue and White sextet took U V M aggregation into camp, 3-2, in a close, hard-fought game.

Hebert scored within a minute after the game started and no other tallies were made during the period. "Sam" repeated in the second period and Kelly, Middlebury, center came back with two counters, tieing the score. In the last period Kelly scored again and Vermont was unable to come through and win.

Middlebury has beaten Hamilton 3-2 in two overtime periods and M. A. C. 3-2. Amherst beat the downstaters 2-1 and the Army 3-1 so the visiting team had a great advantage over the locals in experience as well as being in better condition.

Wood played an exceptionally good game at defense for Vermont. "Nellie" seems to have a marvelously good eye for the puck.

Line-up:

Vermont		Middlebury
Hebert, c.		c., Kelly
Kimball, l. w.		l. w., Gruggell
Williamson, l. w.		l. w., Simmons
Gervais, r. w.		r. w., Bassert, Jason
Denning, r. d.		r. d., McLaughlin
Wood, l. d.		l. d. Twitchell
Winchenbach, l. d.		
Mittiguy, g.		g., Conley

MIDDLEBURY BASEBALL SCHEDULE FOR 1926 OUT

Middlebury College's 1926 baseball schedule, as announced February 16, will consist of nineteen games, as follows:

April	22	Springfield at Springfield.
April	23	Wesleyan at Middletown.
April	24	Amherst at Amherst.
May	3	Manhattan at Middlebury.
May	7	Clarkson at Middlebury.
May	8	Williams at Middlebury.
May	13	Vermont at Middlebury.
May	14	Tufts at Middlebury.
May	15	St. Michael's at Winooski.
May	18	Dartmouth at Hanover.
May	20	Boston College at Boston.
May	21	Providence at Providence.
May	22	New Hampshire at Durham.
May	28	M. A. C. at Middlebury.
May	29	Springfield at Middlebury.
May	31	Norwich at Northfield.
June	1	Vermont at Burlington.
June	12	Norwich at Middlebury.
June	14	St. Michael's at Middlebury

SPACING

When he first came to see her,
He showed a timid heart,
And when the lights were low,
They——sat——this——far——apart
But when their love grew warmer
And learned the joy of a kiss
They knocked out all the spaces
Andsatupcloselikethis.

VARSITY PLAYS TWO GAMES COMING WEEK

Basketball Team in Springfield Monday—Meets Middlebury There on Friday

Springfield has already [illegible] Green and Gold's measure [illegible] season but only by a three [illegible] gin after a hard-fought [illegible] was anybody's game until [illegible] minutes of play when the [illegible] White quintet spurted to a [illegible] victory. At the rate Vermont [illegible] improving during the last [illegible] the Vermont team will [illegible] on Springfield.

James the Red and White [illegible] forward showed some great [illegible] the Vermont gym, being the [illegible] main scoring power and [illegible] Mike Katz plenty of trouble [illegible] Springfield court. Berry Springfield star guard lived up to his [illegible] at the Vermont gym and will [illegible] ably do much at Springfield to keep the Vermont score as low as possible.

Captain Post got his eyes back in the last game and will certainly keep the Red and White guard busy throughout the entire game besides breaking up the smooth passwork of the opponents.

Prentice can always be depended on to score and will give Berry chance to reduce a couple of pounds by having to keep track of him.

Price and Marvin at guard and center respectively can also be depended on to give Springfield plenty of excitement next Monday night.

On the 26th of this month the Green and Gold quintet will take on Middlebury, this game will be the deciding contest of the state series, should Vermont come out on top she will have the championship of the state one more, if she should drop this contest to the Blue and White the championship will be a tie up between Vermont and Middlebury.

Two weeks ago the Middlebury quintet gave Vermont one the closest games of the season when Vermont

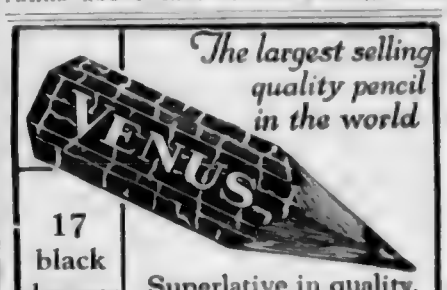
This society is often ... by many prominent psychol- ... and at a recent meeting re- ... of the American Psychological ... were given, showing some ... and beneficial psycho- ... logical methods that are now being used.

At the University of Kansas, failure in forty per cent. of one's hours at mid-years, may involve dismissal, although much consideration is shown in regard to reinstatements.

With the present interest regarding intelligence tests and their valuing in determining mental standards, comes a change in the United States Civil Service exams. Heretofore these tests have been of the three R type, presupposing an average education, but now they are to demand for the most part simply our native educational abilities. At their first appearance, intelligence tests were inadequate and full of errors. During the war they were given so hurriedly that little attention could be given to their development. Time, however, has brought standardization, reliability, and popularity to the intelligence tests. Their worth as a measure of attainment or ability is becoming recognized more and more each day. Uncle Sam's realization of their worth, and an adoption of them for testing his employees may be regarded as a favorable sign. People in the civil service should possess a mentality which ranks above that of the average citi- ... zen. A knowledge of the three R's may be essential in this intelligence but other factors should also enter in to this examination.

A course in pistol and revolver shooting has been added to the curriculum of the school of Pharmacy at the University of Kansas. The only requirements of this course are that the applicant be a student in this department of the college, that he have access to a revolver, and that he be immune from gunshyness.



J. M. Mecklin, the well-known professor of Sociology at Dartmouth, has sent a letter to the president of the Senate of the State of Mississippi, counseling him against the bill about to be voted on, which shall prohibit the teaching of evolution in the schools of that state. Prof. Mecklin is a native of Mississippi and says that he does not want Mississippi made the laughing stock of the civilized world.

Before becoming offended a Freshman at Penn State College must give up his pleasant associations with coeds except at stated periods he must be seen on the campus with his hands in his pockets and his coat unbuttoned, keeping off the grass and abstaining from wearing garishly colored socks. A Freshman found guilty of breaking any of these rules is publicly barbered and then adorned in woman's regalia for two weeks and in the spring of the year given a molasses bath.

At Williams the slogan "Athletics for All" is reaping ample success, as shown in the recent action of the Williams Athletic Council in awarding athletic insignia for participation in fall sports to 143 men, or 20 per cent of the college body.

ALL TIME VERMONT FOOTBALL TEAM

Two Teams and Reserves Chosen by Alumni Who Have Knowledge of Football

In a choice of an All Time Vermont Football Team recently conducted by *The Vermont Alumni Weekly*, two teams and several substitutes were selected.

FIRST TEAM

[illegible] '26, l. e.
Arthur Harma '26, l. t.
[illegible] '14, l. g.
[illegible] Thomas '10, c.
Dr. Frank C. Buckmiller '14, r. g.
George M. Cassidy '10, r. t.
Dr. Roy S. Morse '01, r. e.
Carroll F. Gooch '25, q. b.
Fenwick H. Watkins '09, l. h. b.
Dr. Jos. K. Slavin '02, r. h. b.
[illegible] H. Stuart '03, f. b.

SECOND TEAM

[illegible] Sefton '16, l. e.
[illegible] Little '17, l. t.
Wm. E. Whalen '14, l. g.
Dr. Clifton Gale, c.
Wilbur F. Welch '11, r. t.
A. M. Margolski '25, r. g.
Clifton C. Dailey '13, r. e.
[illegible] J. O'Brien, q. b.
Carl F. Beck '26, l. h. b.
Arthur C. Woodward '07, r. h. b.
Oscar Johnson '23, f. b.

RESERVES

Reed '19, Stankard '15, Eastburn '26, Perrin '08, Strong '99, Patterson '05, Garrity '23, Robbins '98, Austin '99, Margolski '25, Wardell '03, Hubbard '99 Hill '26, McKellow '01, Tupper '01, Flinn '14, Walker '13, Bingham '09, Stewart '93, Gerrish '06, Driscoll '25, Pierce '11, Vizner '17, Bowman '20, Lyman Allen '99, Smith '09.

These men were chosen by thirty alumni who were picked because of their knowledge of the football teams of Vermont. Among these electors were such men as: Dr. Aldinger, Lyman Allen, Claire Cayward, Garrity, Harold Mayforth, Roy Patrick, Dr. Pike and Henry Somanski.

1926 WILL ELECT SPEAKERS FRIDAY

The Senior Class will meet on Friday, February 26 at 4 p. m., in the Williams Science Lecture Hall to elect speakers for Founder's Day and Commencement. The following have been nominated and further nominations may be made from the floor:

Founder's Day: F. W. Guild, M. G. Platt and W. J. Herron.

Address to Ira Allen: E. L. Tracey and W. M. Wilbur.

Address to Lafayette: J. J. O'Connell and F. E. Bartlett.

Pipe Oration: A. G. Beach, Jr. and E. I. Drury.

Campus Oration: E. C. Abbott and S. B. Heath.

Address to Undergraduates: O. W. Hill and W. W. Yarnall.

After the University of Oklahoma forbade the bringing of automobiles to the campus, one enterprising student came to school in an aeroplane.

Delta Psi Captures Briggs Cup; Kappa Sigma Is Second

(Continued from page 5)

Sigma Alpha Chi's production, "Little Brown Berry" traced interesting facts connected with the origin and history of coffee. Three students, studying for an examination, prepare some coffee for themselves, and their talk turns to the history connected with it, each thought being carried into effect by a tableau. The scenes included a London Coffee House in the days of Addison and Steele, an English Coffee House in 1775, with Burke and Pitt, and a Boston Coffee House in 1770, with Ira Allen planning to build a college at Burlington.

The scene of the Alpha Tau Omega stunt "Now I'll Tell One" was laid at the gate of Hell. The two biggest liars in the world stand in front of it, talking with the Devil, who offers a crown to the one who can tell the best story. A number of unbelievable stories follow, so that the Devil is quite undecided to whom to give the crown. At this juncture, a newcomer breaks in, tells the biggest one of all, and gets the crown.

Advertisements are taken literally in "Life in Adland," by Sigma Nu. Mother pours boiling water on the living room table, sonny comes in dressed in B. V. D's, with a garter around his neck. Daughter, with "that school girl complexion" weeps bitterly at having ordered chicken salad for the third consecutive time, and an orchestra composed of "learn to play in 20 days" musicians performs for the delectation of the family.

FACULTY NOTES

Mr. [illegible] spoke on "[illegible]" at the [illegible] Club house on [illegible].

[illegible] Thomas gave a talk on "[illegible] Great Britain" before the Men's Faculty Club on February 13.

Professor John T. Metcalf of the psychology department was in Barre on Monday to give a lecture to the [illegible] Association.

Miss Elizabeth Colburne spoke on "Principles of Art in the Home" on a recent evening at the Athena Club.

Professor E. L. Inzalls has gone to Springfield, Mass., on a business trip.

The engagement of Mr. E. R. Latty, instructor in the Romance Languages department and Miss Ruth Bacon '26 was announced Tuesday.

An article, "The Church of Cosma and Damian" by Professor P. B. Whitehead is in the current volume of the Rendiconti of the Pontifical Academy of Rome.

Professor H. F. Perkins was a speaker at a recent meeting of the Exchange Club. Dr. Perkins spoke on the defectives found in Vermont.

Among the members in the cast of characters of the "Dover Road," a comedy recently presented by the local Theatre Club, were Professor John T. Metcalf, Professor H. W. Slocum, and Professor A. B. Myrick.

BUTTERFIELD SENIOR WEEK CHAIRMAN

Dexter D. Butterfield was elected chairman of Senior Week at a meeting of the Senior class Friday, February 12. Elections of committees was postponed to a later meeting.

Butterfield has been unusually prominent in college activities, having been president of his class in Freshman year president of Student Senate and president of Wig and Buskin. He is a member of Sigma Nu, and of Boulder, Key and Serpent and Gold Key Societies.

Varsity Plays Two Games Coming Week

(Continued from page 6)

[illegible] out on top of a 28 to 33 score in an overtime period.

Last week Middlebury gave the Mass Aggies a close rub, the score at the end of the game being 14 to 16 in favor of the Aggies. Any team that can hold the Aggies to such a low score is dangerous at all times.

In Sorenson, Middlebury has a hard working center, he has a wonderful eye for the basket and is a fast floor man. The Rice brothers are playing a fine game at forward and guard.

Since playing Middlebury, Vermont has faced several stiff opponents namely Union and Springfield and although Vermont suffered defeat at the hands of both of these opponents she showed improvement both in teamwork and in shooting over their previous work.

Captain Post has found his old eye for the basket and is sure to give the Middlebury quintet trouble. Mike Katz at guard is always to be depended upon and will furnish the Blue and White with plenty of excitement.

Marvin Post and Prentice are all back in old time form and are sure to be a stumbling block to Middlebury's hopes of a tie up for the state championship.

SUB-FRESHMEN GIVEN BANQUET AT VAN NESS

Thursday evening and all day Friday, the sub-Freshmen came to the University from all parts of the state.

All the sub-Frosh were given a banquet at 5:30 Friday evening at the Van Ness House, President Guy W. Bailey was the toastmaster. The other speakers were Mr. Kehoe, Dr. A. K. Aldinger, S. Burton Heath '26 and Claire Cayward '29.

Rider's College Orchestra played during the banquet.

Immediately after the banquet, the sub-Freshmen went to the gym and enjoyed the first performance of the Kake Walk.

DELTA PSI ESTABLISHES NEW RECORD IN RELAYS

On Saturday the Delta Psi's defeated the Phi Mu Delt's in the finals of the interfraternity relays. The Delt men made the twelve laps in 2.49⅘, bettering their time of 2.52 in the semi-finals against the Sigs on Friday. In the semi-finals, the Phi Mu Delta's won from the Phi Delta Theta's. The Delta Psi's received the cup which was won by the A. T. O.'s last year, and broke the former record of 2.53.

Vermont Defeated by Small Margin

(Continued from page 6)

put up a nice game in the back besides adding 5 baskets and a foul to the visitors score. For Vermont, Prentice and Price were the stars while Capt. Post played a fine game at forward.

The summary:

PRACTICE FOR SPRING SPORTS STARTS IN CAGE

Schedule of Hours to Be Arranged for Diamond and Track Men

After Kake Walk the cage [illegible] turned over to the use of [illegible] part of the time each afternoon, allowing plenty of practice time for [illegible] the running high jump, the [illegible] broad jump, pole vault, shot [illegible] and the other track activities [illegible] ing such an extensive field. [illegible] tance runners will use the running track upstairs in the gym as [illegible].

All of last year's men are [illegible] year, and as far as is known [illegible] all eligible. There are also [illegible] very good new men to add to the squad.

Negotiations are now under way pending a meet with Colby [illegible] as a leader in New England [illegible].

Baseball practice will also start Monday afternoon and the hours for each squad will be arranged so as to avoid conflicts as far as possible.

DEBATERS TO APPEAR AT ST. MICHAEL'S NEXT WEEK

The debating team goes to St. Michael's Monday evening, March 1, to uphold the affirmative side of the question, "Resolved, that the Federal Government should own and control the coal mines of the United States."

St. Michael's will be represented by F. L. Quinlan '26, captain, A. F. Ray '27 and S. Fortin '29; Vermont by W. J. Herron '26, captain, F. W. Guild '26 and J. J. O'Connell '26.

COLLEGE ORATORS TO COMPETE IN CONTEST

The National Intercollegiate Oratorical Contests for the purpose of increasing interest, and respect for the Constitution of the United States, will be held this spring, with seven awards ranging between $300 and $2,000.

The orations, to be given within ten minutes' time, must be original, and on the following subjects: The Constitution; Washington and the Constitution; Hamilton and the Constitution; Jefferson and the Constitution; Marshall and the Constitution; Franklin and the Constitution; Madison and the Constitution; Webster and the Constitution; Lincoln and the Constitution.

Each college is allowed one contestant to go to the Regional Contests, and the winners of each of the seven Regional Contests will go to Los Angeles.

Further information may be obtained from R. A. Hall of the English Department.

OFFICIAL RECORDS OF KAKE WALK AWARDS

Sigma Nu and Kappa Sigma Tied for First Awards—Phi Delts Close Seconds

Kake Walk is over, but the talk concerning it has not died down. The various competitors are comparing records. To avoid hard words and fisticuffs, the CYNIC releases the official records.

Phi Delta Theta won first place for stunts to the total of six times. Delta Psi took first place four times, while Alpha Tau Omega has thrice partaken of the large cake. Lambda Iota, Delta Mu, Kappa Sigma and Sigma Nu were successful twice apiece. Commons Club and Alpha Zeta were winners once apiece. In 1900 Delta Psi and Sigma Phi put on a stunt together and won the Briggs Cup.

Sigma Phi leads in Kake Walking with seven victories. Kappa Sigma follows with four. Sigma Nu and Delta Psi won thrice apiece. Lambda Iota has stepped to victory twice. Alpha Zeta, Phi Delta Theta, the Non-Fraternity men, the Medics are listed together with Delta Sigma for one win each. There have been two draws, the first between Kappa Sigma and the Non-Fraternity men, the second between Lambda Iota and Delta Sigma.

Sigma Nu won the Peerade cake five times. Kappa Sigma is a close second with four, followed by Phi Delta Theta with two. The A. T. O.'s, Phi Mu Delta, Lambda Iota, Alpha Zeta, Sigma Phi and the Non-Fraternity men have each won once.

DAVID W. HOWE MEETS PI DELTA RHO SOCIETY

Members of Pi Delta Rho, the literary society at Vermont, met at the Sigma Phi House, Tuesday evening. David W. Howe of the Burlington *Free Press* was present and conducted a forum, in which he answered questions concerning the different fields of newspaper work, both in the world at large and on the campus.

According to Mr. Howe, the best-paid men are those who can write themselves and not those who tell others what to write, meaning the desk men who give out assignments. He said that the majority of men who aspired to editorships did not deem it necessary to be good reporters and in fact considered reporting beneath their dignity; but that the men who did reach the editorships were always the ones with reportorial ability.

The complete newspaper, he said, had to run various types of news some of which were a great deal more read than others, in order to cater to the different classes that read it. Analysis of the reader's wants as made in the recent questionnaire of the *Free*

(Continued on page 4)

CYNIC MEN NEEDED

There is room for more Freshmen on the Cynic Board. Several more assistant editors will be elected to the board in the spring. Anyone interested should report to the editor or managing editor as soon as possible.

RIFLEMEN WIN TWO AND TIE ONE MATCH

Last week Vermont won two and tied one match. The tie was with Nebraska and is the second match with the League teams.

The scores were U. V. M. 1899, Nebraska 1899. The other matches were U. V. M. 1899, Rhode Island 1842; and U. V. M. 1844, Amherst 1742.

Reynolds '27 at present is high man on the team with an almost record score of 382 out of a possible 400.

PROF. MYRICK PRAISES MUSSOLINI'S REGIME

Instructor Recently Returned from Italy Ascribes Country's Improvement to Dictator

Mussolini, the Italian dictator, has been the subject of much praise and criticism. Able business men have lauded his accomplishments; in Congress he was held up as an enemy of liberty. In a speech before the Athena Club last Tuesday, Professor Arthur B. Myrick, who spent his sabbatical year 1924-1925 in Italy, had nothing but praise for the administration of "Il Duce."

Professor Myrick pointed out that the meetings of the Italian Parliament were a model of efficiency. Speeches are short and to the point; voting is conducted with celerity. This is in contrast with the bickering and disorderliness before the Mussolini regime. Mr. Myrick spoke of the Dictator's silence and his oratory.

In pointing out the results of the Mussolini administration, Professor Myrick showed the reform which had swept over Italy since he visited that country twenty years ago. Beggars have been eliminated; the crippled soldiers are well supported by governmental institutions. The cities are much cleaner and better policed than some American cities. Criminal procedure is conducted with celerity.

"Italy is a government of men, not puppets, ready to do their duty as they see it," concluded Professor Myrick.

EXTENSION NOTES

Mr. J. E. Carrigan of the Extension Service, assistant county agent leader, has been in Orange County closing up the work of E. K. Leavitt, county agent, who has tendered his resignation, effective March 1, in order to take up farming in the State of Iowa.

Later in the week he was at Middlebury supervising the program of W. R. Blakely, Addison County agent.

E. H. Loveland, Extension specialist in dairying, was in Springfield, Mass., Wednesday, to attend a meeting of the New England branch of the College Feed Conference Board. Friday and Saturday he was in New York City to attend a general meeting of the same board.

Dr. Ernest Van Alstine, Associate Professor of Agronomy, and Harris Soule, Windsor County agent, will return next week from a month's trip to Florida.

GLEE CLUB TRIP

Final preparations are being made for a trip to Morrisville, March 5. The regular program will be presented with Mr. Harlie Wilson acting as accompanist. Marshall Mower will give a flute solo.

DR. JENNE ACTING DEAN OF MEDICAL COLLEGE

Veteran Professor Succeeds the Late H. C. Tinkham Pending Trustees' Action in June

James N. Jenne, M. S., M. D. was elected unanimously at a recent meeting of the faculty of the College of Medicine to be acting dean of the college. The election was held at the request of President Guy W. Bailey that the medical faculty appoint one of their number to represent the college pending election of a new dean. Dr. Jenne fills the position long held by the late Dr. H. C. Tinkham. The selection of the dean of medicine will be made at the meeting of the University trustees next June.

In electing Dr. Jenne to the position the medical faculty honored one who has long been connected with the institution. Dr. Jenne came from Berkshire, where he was born in 1859 and entered the class of 1881 of the College of Medicine. After taking post-graduate courses in internal medicine at New York and Paris, he was for some years a practicing physician in St. Albans and later in Burlington. In 1891 Dr. Jenne was made adjunct professor of materia medica and therapeutics at Vermont. He was elected head of his department and served in that capacity from 1893 to 1911, since the latter year serving as professor of clinical medicine and therapeutics. At one time the acting dean was a trustee of the University.

Besides being connected with the University, Dr. Jenne has served in various other capacities. From 1895 to 1898 he was surgeon general of the Vermont militia. During the Spanish-American War he was chief surgeon of the army with the commission of major. The new dean has been president of the Vermont State Medical Society and surgical director of the Central Vermont Railroad. Dr. Jenne is one of the charter members of the Delta Mu Fraternity, the oldest medical society at the University of Vermont.

PROPOSED TO MAKE CYNIC BI-WEEKLY

The possibility of the CYNIC becoming a bi-weekly next fall has been discussed for some time among the board members. It has been found that such an undertaking is practicable, both financially and from the news-getting point of view. A very reasonable increase in the subscription price and a slightly more intensive advertising program will take care of the financial side. A larger board and fuller utilization of available news on the campus will take care of the editorial side.

The matter has been discussed with men, who have had much experience in newspaper work. Mr. Crockett and Mr. Dean have both given the proposal their sanction and have been very helpful with their suggestions as to means of making it possible. Mr. David W. Howe of the *Free Press*, when asked his opinion, said, "By all means a bi-weekly now and sometime a tri-weekly." As to cost one downtown printer's estimate has been obtained already, the reasonableness of which makes the possibility of supporting a bi-weekly doubly certain.

Present plans would have the paper published on Wednesday and Saturday. Each edition would contain four pages, that is one double sheet instead of two as at present. The page would be five columns in width and sixteen inches in height. It is now only four columns in width and fourteen inches in height. There will be proportionately more space for news than at present, due to change in the advertising schedule and more room on the page.

COMPULSORY DRILL NOT POPULAR WITH COE MEN

[illegible] of last minute attempts to [illegible] the [illegible] College has [illegible] themselves in favor of vol[illegible] military training by a vote of [illegible] to 159

The vote was taken at a mass meet[illegible] February 4 Before expressing [illegible] preference the men listened to a debate between Vernon McIlraith '29 in favor of compulsory drill and George Simpson '29 against

As soon as the meeting was called to order the cadets attempted to block the vote A member of Scabbard and Blade military fraternity arose the floor and made a motion that the convocation be not held An amendment was quickly appended by the opposing forces to the effect that the vote be taken. Followed a standing vote which revealed only thirty cadet officers and a few students desirous of putting off the vote

Two days before the referendum efforts were made to head off an expression of student opinion. A cadet officer member of the Student Council moved that the referendum be dropped An only nine members were present the motion carried five to four On the following day the Council called a special session and voted to go on with the project by a five to seven vote. Most of the cadet officers appeared in chapel in their uniforms On the ground before the military department sought to have the college band attend the meeting to play but failed

---

Students at the University of Missouri are given permission to work on the new stadium that is being erected according to a report made recently by the athletic department This work is serving for many of the students as a means of financing their education

Several criticism of the War Department found expression in resolutions adopted by a state convention of the Church of Christ at Des Moines, February 6 They declared that the War Department's program tends to develop a "war psychology" One resolution registered emphatic "disapproval of any activity on the part of the War Department in the extension of military training into any school or college in the nation."

The association further petitioned Senators Albert B. Commins and Smith W Brookhart to "use their influence in the National Congress to gain enactment of such legislation as will carry out the spirit of these resolutions"

Following the action of the ministers of the Disciples Church, prominent women connected with the State Parent Teachers Association took steps to make a state-wide issue against military training in any institution of learning in Iowa

Immediately the women of the State American Legion Auxiliary went on record as opposing "peace-at-any price" pacifism

SOCIETY NOTES

[illegible] Wednesday visited the college [illegible] and decided to attend The [illegible] and co-eds. [illegible] were [illegible] cast and the co-eds. [illegible] were [illegible] just babies. John, [illegible] [illegible] and I said before to [illegible] the [illegible] of exciting.

[illegible] his [illegible] I mean his [illegible], John has made quite a [illegible] He has stepped out [illegible] and [illegible] or rather [illegible] it a broad way at the entertainments given by others of his ilk He has [illegible] to classes every [illegible] and has given there entertainments enjoyed by others Socially John has made a great and outstanding success We wonder what he can do when Gold Key lets up on [illegible]

I'm not sure whether or not John has joined a frat If it is John Y. Wentworth I am talking about, he has. If it is John W. he has not. This is a matter of little consequence. If he joined it was to wear a badge home, if he hasn't it is because he isn't [illegible] enough

John's life is above board. He has never degenerated by studying. He is an expert at bluffing and a shark at parlor polo. It is understood from [illegible] reports received from the near-empty Converse Hall, that his belonging to a fraternity or his not belonging to one, his manner of life, [illegible] put him on a higher level than the rest of us. But will his social standing be impaired by speaking in the street?

The University rules released yearly by the faculties of the various colleges, prescribe that students connected with the said seat of learning shall attend upon the exercises of the University, unless incapacitated by physical ailment and other exceptions. In other words students should not cut classes

Recently I attempted to obey the dictates of the faculty, but try as hard as I could I was unable to obey my peers (in law). This is how it happened. I go to class at the last possible minute—this is no news. I ran out of the house late Wednesday morning and attempted to fulfill an

Communications

To the Women's Editor of the CYNIC:

Do we appreciate our rifle team? Week after week the record of its fine work has been set forth in the CYNIC. Do we realize that it is winning recognition far around the borders of New England?

It is a fine thing for Vermont to be represented by such a skillful team. Indeed, rifle teams are a comparatively new thing in colleges and we should be proud to be among the first.

Junior Co-ed.

To the Women's Editor of the CYNIC:

When we get rich there is one present we are going to make to this University. It is a gift sorely needed and long sought. We intend to present a pair of stilts to every ed and co-ed living south of College Street. The reason for this arbitrary division will appear.

Now nobody likes to wear rubbers. They are a bother. Overshoes are that much worse. Consequently on all days of even moderately fair, with sidewalks passable the feminine contingent sets out with nothing between the new suede shoes with silver trimmings and the ground. As for the male population, it never wears rubbers under any circumstances so we will be excluded from the discussion at present. But doom is in store for those new suede shoes, and every lady in college knows where the dire disaster awaits.

Be it rainy or fair, be it the culmination of an unprecedented draught or of an unparalleled wet spell, the South Walk on the campus remains "in status quo," namely the thick, chocolate fudge state. Therefore the stilts.

We might arrange to have check rooms at each end of the walk and undoubtedly the privilege of running the check room would be the financial equivalent of one of the better scholarships.

Of course we can hear the objections coming in already: "Well if people would be sensible and wear rubbers," "You do have the most ridiculous ideas!" and the rest of the anvil chorus. But wait—

Some of our most esteemed and respected fellow-classmates always wear their rubbers. They do not even stick at overshoes. In fact a few of them really carry the thing too far, we think, and show up at class adorned with rubber boots, or with a pair of water wings attached to each heel, Mercury fashion. But all these safe-guards are in vain. There is a "something" a quality of pertinacity about the mud of the South Walk, that is sufficient to lure any little rubber away from home and mother.

How often in the chilly dusk have we passed that way and seen the countless little rubbers fast in the tempter's grip, weeping silently over the first but fatal misstep.

Undoubtedly the South Walk needs our stilts. They will be donated as soon as we have made our first million.

Sigma Gamma announces the initiation of Elizabeth Pingree '28 of White River Junction.

Kathryn Recor, Bernice Davis and Nellie Chase attended Kake Walk.

Pledging will be held by all women's fraternities this afternoon.

W. I. A. S. G. ORGANIZES EXTENSION DEPARTMENT

The Women's Intercollegiate Association of Student Government and the Southern Intercollegiate Association of Student Government have recently created a distinct department for the extension of student participation in government in secondary schools. For several years the two Associations did this kind of work independently. In the Southern Association a Graduate Adviser directed the colleges in carrying on this work, and in the eastern Association a committee of college students did it. Then as the amount of work increased, the two Associations realized that college students could not do this extension work efficiently on account of their many other conflicting duties. They, therefore, voted to employ a secretary whose whole time was to be devoted to extension work for both Associations. Such a secretary was secured and her work began in the fall of 1925.

Everyone always asks how the colleges happen to be doing such work for high schools. It came about in this way. College student government officials visualized how much Freshman training would be simplified if the Freshmen had experienced the advantages of student government in the high schools and preparatory schools from which they came. They felt that their efforts would be repaid, if by helping secondary schools to develop such government, they would better prepare the oncoming college students for the responsibilities of self-government there. It was not long, however, before the Intercollegiate Associations broadened their purpose in the extension work and saw the fine chance of helping secondary school students develop their sense of honor and good citizenship whether or not they ever attended a college.

Since the territory in which the extension secretary was to work necessarily had to be limited in some way, it has been restricted to the states in which there is at least one college that is a member of the W. I. A. S. G. or the S. I. A. S. G. This makes in all, twenty-three states in which the work is carried on. It reaches over 3,000 secondary schools.

The work of the department consists in gathering up information about student participation in government and relaying it on to secondary schools. It tries always to gain the cooperation of state educational officials before approaching the schools. It attempts through correspondence to interest principals, faculty and students, and where specific help is needed, to give it. The department is not originating plans or proposing new schemes of government; it is rather making it possible for the high schools that have worked out successful methods of government, to share their knowledge gained through experience, with thousands of other schools.

Vermont women have an active membership in W. I. A. S. G. Recently delegates attended the convention of the Association and brought back to us a most interesting report of what took place there. The creation of this newly organized department concerns us as members and we are aiding it by our financial support as well as our interest.

Syracuse school teacher says that geometry is used in football. So's French, to judge from the remarks heard during the game.—*Ex*

Number 61 of a Series

The Vermont Cynic

Vol. 44 February 7, 1928 No. 19

EDITORIAL

[illegible] beginning with this issue a series of humorous critical sketches of outstanding members of the University faculty and administration. It comes as the result of a growing conviction on our part that the student body knows astoundingly little about the officers and instructors with whom it comes into daily contact, that the information which these writings promise to give will be interesting entertaining, and conducive to a better relationship between students and faculty.

One more vote for a weekly has been dropped into the Cynic box. We have also an interesting communication on the subject, which communication is unsigned and therefore useless.

We have spoken before in these columns about the matter of having a bi-weekly Cynic in place of the present one. The word "bi-weekly" we considered very fine, compact and expressive; in short the ideal means of expressing to the public at large that we were considering the proposition of putting out two Cynics a week instead of one. Before adopting this word the Board exhaustively considered all conceivable possibilities—semi-weekly, two times-a-weekly, di-weekly, bi-weekly et cetera, and [illegible] to the unanimous conclusion that bi-weekly from all angles, is by far the most snappy epithet in the group.

Now there comes to us a certain individual, a medic, ostensibly of great erudition in the matter of word meanings and shadings, who gleefully brings to our attention the fact that in Webster's Unabridged Collegiate Dictionary, the word "bi-weekly Cynic" is said to mean "A Cynic published [illegible]

[illegible] himself a hero to make.
[illegible] we must admit that it's only fit [illegible] the Bake Walker takes the [illegible]

Romance

[illegible] slow of romance is fad[illegible] from a world made cold and hard [illegible] realism. Little by little, modern [illegible] are exposing the delicate charm [illegible] their sex to the chilling breezes of [illegible]. Romance is fading, for [illegible] Rumor hath whispered deep and [illegible] that in certain academic circles, [illegible] and well-bred girls are breaking the traditional college rule prohibiting smoking.

What is the world coming to? In [illegible] days feminine daring [illegible] as boundless as the sky. Can [illegible] girls erred on by an emancipa[illegible], be forgetting that their [illegible] is in the home, not in the smoking car? Do they realize that men [illegible] wives who can make good [illegible] epigrams?

There is reason to be suspicious of [illegible] Rumor. The old lady has [illegible] a venomous tongue lately. She [illegible] brew!—yes, hinted that [illegible] girls occasionally forget [illegible] a kiss ends nothing and begins [illegible]. She has also hinted slyly [illegible] girls refer to things no real [illegible] would mention—indelicate things such as "necking" and the double or triple standard.

Yet if Dame Rumor is telling truth smoking is the last straw. How can romance survive without half-tones of inequality between the sexes, without an atmosphere of modesty and mystery? When a girl holds smoke in her mouth in the belief she is inhaling, when she undergoes a violent coughing spell after a panick puff she has already stepped from her pedestal and become common clay. And if a girl shows some dexterity in wielding a cigarette, if she does it as if to the manner born, how can a man worship one who has stooped to excel at his own pet vice?

The temple of Romance is crumbling to dust and ashes. The altar of the Goddess, where formerly much incense was burned and much creative work inspired, is deserted. The Goddess has listened to the verbal pyrotechnics of a few parlor anarchists who claimed that a flaunting puff of a cigarette was worth more than reverance of a civilization. The Goddess of Woman has strayed away, but she was once there, and perhaps some day she may return.—*The Amherst Student.*

"I think the Charleston is awful."
"I can't learn it either."—*Brown Jug.*

The University of California Glee Club has quit. This body of over one hundred men has become world famous, having charmed audiences from Tokio to Stockholm. But the University officials protested that the jazz program with which they entertained was not representative of the University. Hereafter, they hoped, only classical music would be given. They also hinted that the men had misconducted themselves when on trips. The director was asked to resign. Consequently, the men, loyal to their leader of thirty years, each in turn resigned.

SPORTING NEWS

VERMONT DEFEATED IN OVERTIME PERIOD

Ice Men Show Great Improvement but Are Forced to Give Union Narrow Margin

The Spotlight

We have received numerous and varied remarks about our comments regarding the outcome of the basketball season. Of course the matter is purely one of opinion, but we feel that basketball is basketball and should be played as a clean sport rather than brute force. We regret that our comma got in the wrong place and were misunderstood. We intended to say that at most of the home games the refereeing was poor. We wanted to say that at most of the home games the refereeing was poor, but not the outstanding ones at least [illegible]. We think personally that Wall [illegible] is perfectly correct and accurate [illegible] in interpreting the rules of the game. We just feel he interpreted them a little differently.

V

Should a set Varsity team composed of real stars of recent years will meet the undergraduate quintet in the combination Cayward 25 Semansky [illegible] Carbee 26 will be there in force and with whomever the man [illegible] is assigned Smith will be sure to put on a great show. All the arrangements have not been completed but we will have all the dope soon.

V

Baseball practice started off Wednesday in the usual anemic fashion. All the veterans are out except Captain Bradley several of last year's second team and many freshmen are lingering around the latter particularly won [illegible] ahead of in the second. The pitchers are the only ones who have actually started work. Any guy of them how the Indian Club team is shaping up. All [illegible] guide to-morrow it looks as though "Ray" is going to show the squad [illegible] their proper speed of before and if it doesn't do them plenty [illegible] we miss our guess.

V

Coaches Corbin and Latta are going to have a tough time keeping their [illegible] together in the [illegible]. We wait with considerable anxiety [illegible] for a report that one of the high jumpers has been beaned by a [illegible] as if the [illegible] has been seriously damaged by a 12 lb. shot. Indoor [illegible] are going to be left out in the cold we fear.

V

An unofficial schedule for all-star teams has come to our attention. Mac [illegible] left on Saturday.

First team: Right forward, Randall '27; left forward, Hoag '28; center, Mallett '27; right guard, Estabrook '29; left guard, Smith '28.

Second team: Right forward, Pike '29; left forward, Roark '28; center, McCrachan '27; right guard, Palmer '29; left guard, Wilbur '26.

V

We lament Vermont's hard luck during the last two weeks. The Green and Gold dropped two games that were enough to make anyone chew nails and spit rust. Katz went out in the first eight minutes at Springfield and Prentice was put out at Storrs. Oh for a seven man team! Then such breaks would not turn the tide.

VARSITY QUINTET GIVES SPRINGFIELD HARD FIGHT

Vermont dropped a [illegible] game of basketball to [illegible] ege at Springfield Mass [illegible] the score at the close of [illegible] six reading Springfield [illegible]. The game which was [illegible] capacity crowd of [illegible] fans, was a thriller [illegible] fastest witnessed in [illegible] some time. The Green [illegible] opened up with a rush [illegible] pace, the score at half time [illegible] mont 21 Springfield 12. [illegible] held five came back with a [illegible] in the second half and [illegible] mont five before it was [illegible] snappy passes followed by [illegible] cated shots. Janes, Berry and [illegible] were the main cogs in the [illegible] the second half and three [illegible] of a brilliant order. Vermont [illegible] were shattered when Wood [illegible] forced to leave the court [illegible] of a sprained ankle. Do [illegible] a fine floor game and last [illegible] soon felt although Thompson [illegible] a plucky exhibition.

Prentice gathered in [illegible] shots and five from the [illegible] total of thirteen points. [illegible] individual scoring accomplishment. Price with nine points was [illegible] in the limelight, while Janes [illegible] and Berry starred for Springfield.

The summary:

MIDDLEBURY WINS IN RETURN CONTEST

The Middlebury hockey team defeated the Green and Gold sextet last Tuesday at Middlebury by a 3 to 0 score. The Vermont sextet was a [illegible] of color while the Blue and White displayed perfect teamwork throughout and played one of her best games of the year.

Kelley started the scoring when he got the puck home in the first five minutes of play after a fine demonstration of passing. After that the Middlebury team managed to keep the puck well into Vermont territory for the rest of the period but were unable to put the puck into the net. The second period was scoreless but several times the Green and Gold sextet broke through the Middlebury defence and only the sensational work of Conley saved the Blue and White from defeat. Middlebury came back strong in the second period when after a series of passes Kelley scored from midrink. Vermont was unable to penetrate the Middlebury defence to any avail and in the last two minutes of play Bossert scored on a difficult shot from the side.

The line-up:

VERMONT	MIDDLEBURY
Hebert, c.	c., Kelley
Woods, Fitch, l. w.	l. w., Simmons, Jason
Gervais, Kimball, r. w.	r. w., Bossert, Burrows
Winchenback, l. d.	l. d., Twichell
[illegible] r. d.	r. d., McLaughlin
Mattigus g.	g., Conley

An Oxford professor says that one way to achieve long life is to talk to pretty girls. He believes that it is not necessary to sacrifice those things which seem to make life worth living in order to make it last longer.

MIDDLEBURY ADDED TO TENNIS SCHEDULE

Since the last edition of the Cynic a match with Middlebury at Middlebury has been added to the tennis schedule by Manager Russell. The schedule now includes ten matches, four of which are at home.

With the approach of the baseball season the men has been given over to Coach Corbin for his men. It is expected though that Coach Carpenter will conduct practice working out the squad consisting of about ten men in the gym after basketball practice. The cage may also be used for tennis practice during the forenoon. Probably not much real progress will be made until the outdoor courts are available.

At California Tech they have an autumn Charter Day. Only the freshmen were found to wear them.

VERMONT BURIES PURPLE AND GOLD

The Vermont hockey team defeated the St. Michael's sextet in a slow and uninteresting game at Kirby's rink Wednesday afternoon by the overwhelming score of 12 to 0. Hebert at center for Vermont was easily the star of the game, scoring 8 of the 12 goals while Wood and Fitch, the Freshman wings, also put up a good game each adding two goals to the total. The Green and Gold sextet played by far the best game it has shown this year, the team work being of a high order. The wings and center combination was very effective with Hebert doing the shooting. The contest was easily Vermont's all the way through, the Green and Gold sextet having possession of the puck the best part of the time with St. Michael's always on the defence. For St. Michael's, Bugbee was easily the star, being the only man that could carry the puck for the Purple and Gold.

Today two of St. Michael's best men will be back in the line-up and the

VOCABULARY OF COLLEGE MAN SHOWS INCREASE

[illegible] of tests, Professor [illegible] of Princeton has [illegible] average vocabulary [illegible] on the increase [illegible] ved at by giving [illegible] and Seniors en- [illegible] speaking courses [illegible] for the past ten [illegible] average student [illegible] enough to use, 86 out [illegible] words. This winter [illegible] 93 out of the 100 [illegible] the greatest increase [illegible] number that has [illegible]

[illegible] correct assumption, [illegible]ington in speaking [illegible] the tests, an increase [illegible] has occurred in the [illegible]'s vocabulary. This [illegible] words more than the [illegible] sum of 18,000 words [illegible] of an educated [illegible]

[illegible] are not startling, but [illegible] indicative of an im- [illegible]. We cannot think without [illegible] and good workman- [illegible]. A rich and varied [illegible] invaluable to the man [illegible] who speaks and who [illegible]

[illegible] explanation of the increase in [illegible] has done an increased [illegible] of reading, particularly of [illegible]. The *New York Herald* [illegible], however, and gives [illegible] to the cross-word puzzle [illegible]

[illegible] many questions as to the [illegible] affair, those asked by the *Bos-* [illegible] being the most perti- [illegible]. That paper asks first what kind [illegible] test was given the men during [illegible] ten years, and how were the [illegible] graded. Its most important [illegible] is to whether this "vocabul- [illegible]" consisted of words merely "recog- [illegible]" by the student, or those used [illegible] conversation. Is it merely [illegible] number of words he knows the [illegible] of when he sees them in [illegible], is it the number he uses in [illegible] of a year's conversation or [illegible]?

"After all," says the *Transcript* [illegible], "it is not so important how [illegible] words a man knows; the thing [illegible] counts is the use he makes of [illegible]. Newspaper men, especially [illegible] who have to read what other [illegible] write or have to listen to what [illegible] people say, are in frequent con- [illegible] with men whose vocabularies are [illegible] large and small. And it is by [illegible] means true that the man with the [illegible] vocabulary may be counted on [illegible] say the same thing better than his [illegible] fortunate fellow says them. At [illegible] indeed, a large vocabulary may [illegible] be a positive handicap. This is [illegible]arly true when the person [illegible] using it pays more attention to [illegible] choice of words and the arrange- [illegible]ment of them than he does to the [illegible] he is trying to express."

Society Notes

(Continued from page 2)

[illegible] engagement with a wearer [illegible] Phi Beta Kappa key.

And I being a Frosh usually go [illegible] Old Mill by the back door, [illegible] which is next to the CYNIC, which I [illegible] means waiting room. It [illegible] that there was a frictionless [illegible] in front of the door—that is, [illegible] was a sheet of ice. I went up [illegible] door and slid down into the [illegible] on my back. I picked myself up, [illegible] up to the door and slid down [illegible] was just left by Gold Key. I [illegible] again and just as I was slid- [illegible] again on the aching member, [illegible] final bell rang. I could not see [illegible] as he does not want [illegible] out of fashion and therefore [illegible]. Now was it my fault that I cut, [illegible]?

Odd Items from Everywhere

A professor of psychology at the University of Denver states that nine out of ten women go to college to find a husband.

Ten students at the University of Illinois were recently fined $10 for hooking their sleds onto the backs of automobiles. Eternal youth!

If a man goes in swimming and has his clothes stolen, he has to go home in a barrel. A woman in the same predicament just sets a new style.

A course in elementary Japanese is being offered at the University of Washington to meet the demand for more work in oriental languages.

Amherst College has produced 32 college professors and a larger percentage of its graduates are on the "Who's Who in America" than any other college.

Fraternities at Oklahoma A. and M. College are not permitted to initiate new men if the scholastic standing of the active chapter is below the average of the student body.

At dances in the University of Kansas only ten stags are allowed to the first one hundred couples arriving by 9.30 and then twenty more if another hundred couples come by 10 o'clock.

An English instructor in the University of California recently won a Charleston endurance contests by dancing 45 minutes, or 5 minutes longer than his nearest opponent. Is there a possibility of intercollegiate rivalry?

After having appeared on the campus of the University of Colorado with 30-inch "Oxford Bags," a student there was found shortly afterwards in an unconscious condition, and his "bags" were seen decorating a nearby tree branch.

They've got a new style in Greece. The law has ordered the women to wear long dresses; so they have fixed up the skirts with elastic. Whenever the women see the cops, the dresses are long. Other times the dresses are short.—*Daily Texan.*

Twenty-five students of Iowa Wesleyan pledged themselves not to shave until the football team won a game. By mutual consent they have now agreed to mow off the "curtains," which now approach their waist lines, inasmuch as next year's football season is still way off.

The committee on scholarships at the University of Iowa ruled that every four hours of "A" earned by a student should automatically receive an extra hour of "A" toward graduation credit. Thus a student who maintains an unusually high average may graduate in three years.

Dartmouth's new library will be located on the square immediately north of the campus. It will have three facades, one on the campus, one toward Tuck Drive and the third facing the east. The site having been chosen, work is expected to be begun within a short time.

Among the requirements that the women have laid down for a perfect husband are that he clean his finger nails and have clean teeth. Willy suggests that the men require the women to keep that unadulterated school girl complexion and know the difference between baking powder and face powder.

College Sages

The reason there are so many failures among marriages is because there are so many marriages among failures.

A canoe is like a small boy—both behave better when paddled in the rear.

Geology is the dirtiest subject on the curriculum.

A thing of beauty keeps you broke forever.

William I. Nichols, former editor of the *Harvard Crimson*, and a Rhodes scholar at Oxford next year recently addressed the Sophomore class at the institution from which he graduates this June. He threw a bombshell into the assembly when he stated that "five per cent. genuine aristocratic loftiness and 95 per cent. laziness and plain bad manners" were the ingredients of Harvard indifference.

He further said that no college is more disliked than Harvard, and that no school is more misunderstood. He summed up Harvard's three outstanding features as indifference, godlessness and snobbishness.

He charged lack of courtesy to visiting preparatory school teams and to newspaper reporters and suggested remedies.

The *Harvard Lampoon*, father of *Life*, *College Humor* and other descendants of a similar type, has observed its 50th birthday. The monster banquet and reunion which marked the observance was held in Lampy's bizzarre home, and many of the leading humorists of the nation were present to laugh.

The *Lampoon* was said to have started when Ralph Curtis snapped a note to John Tyler Wheelwright '76, during class, urging him to come over to his room that night for the purpose of starting a *College Punch*, similar to the English publication.

YALE NEWS BOARD ASKS EDUCATIONAL REFORM

With the power of the college press on the increase the advent of a new editorial board is viewed in many quarters with huge interest. Hard handed business men of the class of '98, deans fearful of university misrepresentation abroad, students before fraternity fireplaces scan the first editorials for intimation of the paper policy. Or in a few of the older college newspapers they turn to an inside page for the traditional platform of the incoming staff.

A lengthy document in the *Yale News* of February 11 outlines the attitude of the new staff towards undergraduate, faculty and university affairs. The *News* will continue its campaign for the abolition of compulsory chapel. It will also support (in principle) the *Harvard Crimson's* proposals to take football out of the hands of the public, the yelping alumni. Curriculum changes will be advocated, using the Dartmouth changes, and the Harvard system, not as substitutes for the present system but as "criterion" of the quality of the Yale requirements. Also a segregation of "pass" and "distinction" men whereby the latter would appreciate the full benefit of an Intoria or honor system.

Dr. Howard Edwards, President of Rhode Island State College, holds that higher education should not be limited to young people "who have made brilliant previous records." He holds further that the so-called intelligence tests to determine the capacity of applicants for admission to colleges and universities are a "delusion, and do not permit an accurate measurement of ability."

Selection of properly qualified students for college is substantially an unsolved problem, but the existence of the problem and the need of a solution are beyond question. The need of selection has been receiving considerable attention from educators since the larger institutions have been overrun since the war with young people who have shown an utter inability to keep up with the requirements of higher education.

The line must be drawn somewhere between those who are fit and those who are not. A young person's educational record previous to his entrance to college should not be taken into full consideration. It is not enough that his record has been "brilliant" merely in books. Genuine knowledge and genuine education mean more than good grades or an acquaintance with printed pages.

(Continued on page 2)

Literary Issue

The issue of the CYNIC for March 20 will be a literary issue. All contributions should be signed and in the hands of the editors by Saturday, March 13. The material may be in the form of short stories, poetry, drama, and humor. The success of the issue depends on the support which the students give it with their pens.

POPULAR SPEAKER TO RETURN TO CAMPUS

J. Stitt Wilson, formerly mayor of Berkeley, California, will be here on the campus, March 24 and 25. Mr. Wilson is one of the most popular speakers among students at the present time. He was here four years ago and is perhaps the best remembered of the speakers who have been here within the last four years.

The tentative program (for these two days) is as follows:

March 24—Student luncheon at noon. Student convocation at 4:00 P. M. Meeting at 7:30.

March 25—Faculty lunch at noon. Evening mass meeting for students and townspeople at the First Congregational Church.

On the second day interviews may be had with Mr. Wilson by arrangement with Philip B. Hodgdon.

FRATERNITIES HOLD ANNUAL INITIATIONS

The Delta Psi fraternity held its 76th annual initiation and banquet in the Goodrich Memorial Home, Saturday night. The initiates were: Gordon Batchelder of Bethel, Wallace M. Greene of Burlington, Harlan E. Karr of North Hartland, Wells S. Isham of Burlington, Richard Martin of Essex Junction, Bertel W. Gustafson of Proctor, Loren F. Palmer of Burlington, Lee C. Morgan of Burlington, and Carl C. Macomber of Fairfax. After the initiation a banquet was served in the dining hall under the direction of Mrs. Jennie Stiles. J. E. Colburn '96 acted as toastmaster. The speakers included J. H. Macomber '90, Dr. H. F. Perkins '98, Max L. Powell '89, C. P. Smith, Jr., R. L. Soule '09, and J. L. Hall '89, of Burlington, Robert W. Hulburd '82, of Hyde Park, and Maurice Kelly '17, of Montpelier. Other alumni present were: Dr. S. E. Bassett, A. G. Whittemore '11, E. S. Isham '89, Dr. P. K. French '20, Robert Roberts '69, E. L. Ingalls '96, Harley Leland '20, Harry Blodgett '22, C. S. Brownell '04, and A. B. Soule, Jr., '25, of Burlington, H. K. Drury '18 of Essex Junction, Capt. C. S. Ferrin '08 of Fort Ethan Allen, Ray W. Collins '09 of Milton, and K. H. Isham ex-'27 of Proctor.

Alpha Lambda of Kappa Sigma held their formal initiation in the fraternity house Monday night. The initiates were: Albert M. Church of Woodstock, Clarence J. Douglas of Malone, N. Y., Hans Nilsen of Staten Island, N. Y., Franklin J. Otto of Maplewood, N. J., and Watson Rodgers of Vergennes, all of the class of '29. The annual initiation banquet is to be held Saturday evening, March 6.

The Tau Epsilon Phi Fraternity held its annual initiation banquet at the Hotel Vermont roof garden February 26. Among the guests were Dr. F. E. Clark of this city, T. J. Bower of the University of Michigan, grand consul. There were also eight members present from Omicron Chapter of Tau Epsilon Phi of McGill University, Montreal. C. T. Schectman was toastmaster. The initiates were: M. J. Antell of Bridgeport, Conn.; A. D. Poverman of Hartford, Conn.; Jack Poust of Revere, Mass.; M. Goldman of New York City; and Daniel Tatelman of Manchester, New Hampshire.

The Sigma Delta fraternity held their formal initiation Monday night following a banquet at the Hotel Ver-

(Continued on page 2)

WOMEN'S CYNIC MARCH 13

The annual women's issue of the CYNIC will be published next week. All the space will be devoted to news of interest to the coed containing especially the results of the elections which will be known by that time.

INTERFRATERNITY INDOOR TRACK MEET TO BE HELD

The Interfraternity Indoor Track Meet will be held Saturday, March 20, at 2:30 P. M. It is understood that each man will be limited to two events, and that the first four places will count. The events are as follows:

IN THE CAGE

25-yard dash.
25-yard low hurdles.
30-yard high hurdles.
High jump.
Broad jump.
Pole vault.
16-lb. shot put.
35-lb. hammer throw.

ON THE TRACK

440 yard dash.
880-yard run.
Mile run.
2-mile run.

(In these four events four men will be chosen by time trials to compete in the finals.)

INTERSCHOLASTIC MEET FRIDAY AND SATURDAY

The Fifth Annual Interscholastic Basketball Tournament to decide the championship of the state of Vermont will be held under the direction of the University of Vermont Athletic Council in the University gymnasium on Friday and Saturday, March 12 and 13.

The preliminary games will begin Friday night at 7 o'clock. Semi-finals will be played off Saturday afternoon and the final game will come off at 8 o'clock that night.

All schools in the state playing the season under the eligibility rules of the Headmasters' Club of Vermont are eligible to compete for this championship and the competing teams will be chosen by a committee consisting of Dr. A. K. Aldinger, professor of physical education and director of athletics at the University; Prin. John E. Selden of Bristol, Prin. Karl D. Lee of Hardwick, Prin. Robert N. Millett of Springfield, and Mr. Harold I. O'Brien of Rutland.

The eight teams which contend will be entertained at the Hotels Sherwood and Vermont by the Athletic Council.

The winner of the tournament will receive the University of Vermont Interscholastic Basketball Cup given by the Athletic Council, and each individual of the winning team will receive an inscribed gold basketball.

The advance dope on the probable contenders is not particularly definite and the teams will not be picked until Sunday, but from all reports the contestants will come from pretty well all over the state except the extreme north.

In the Northern Vermont League, Burlington, Spalding, and Montpelier are likely choices, while Peoples Academy of Morrisville is the only possibility from farther north. Cathedral has a good chance as well as Springfield in the south. Two teams will be picked from those competing in the Rutland tournament and these will probably be Proctor and Black River Academy, although Fair Haven seems to have a good chance.

The University end of the tournament will be handled by the Basketball Department in conjunction with Key and Serpent and Gold Key.

Press Club

Any freshmen wishing to try out for the Press Club should report to S. R. Bryan at the Delta Psi House.

BASEBALL SEASON OPENS APRIL 3, AT WASHINGTON

Fogg and Moriarity Promising Hurlers—Thompson and Aronson Compete for Plate

The baseball rules are not in force. Every afternoon in the cage from three till half past four a small army of veterans and hopefuls may be seen cavorting about trying to demonstrate their superior ability to Coaches Collins and Collopy.

"Jim" Collopy is working out the sluggers in the north alley and "Ray" Collins is instructing the hurlers in the south alley.

Moriarity and "Noisy" Fogg are there with bells and Noisy's arm is already limbered up enough so "Joe" Tarpey swears his fast ball hops a foot in front of the plate. Schopps, Talcott, Smith and Roark of last year's pitching squad are out as well as Sherwin, a Junior, who has a good outside record as a slabman. Some other box candidates are practicing but, as yet, have shown no stuff. Capt Bradley and "Bill" Morse in the outfield, Conway at shortstop and Thompson behind the bat seems to be pretty sure of their positions. However Thompson will have to mind his laurels because "Roly" Aronson of last year's second team is no mean backstop and Young and Chadwick, both Freshmen, are looking good. As to the rest of the infield positions, Gray, Parody, Prentice, Winchenbach and Randall are trying out for first base with Randall apparently having the edge. For second base McAvoy of last year's second team and "Burt" Morse from last year's B. H. S. aggregation are competing with probably some other men who have not come into the limelight yet. At third base Taylor and Foster, both of whom played on the '25 second team, are candidates and "Healey" Randall may be switched to the hot corner. "Joe" Tarpey, "Bill" Wilbur and "Art" Guild the strong candidates for the unoccupied right garden berth and there is much promising Freshman material which has not shown its quality as yet.

Coach Collins will make his first cut this week and Monday the survivors will start digging in earnest. The first game comes April 3 with Catholic University at Washington and nine more games follow in the next eleven days so it is quite evident that less than a month is left to get a team into shape for a mighty stiff schedule. It is expected that about thirty men will be left on the squad next week and the sessions from then on will be worth watching.

Scabbard and Blade held a luncheon at the Hotel Vermont on Friday, February 26. Captain Lammons attended.

NEW PRIZE OFFERED FOR AGRICULTURAL STUDENTS

Dr. George H. Walker of Charles River, Mass., one of the founders of the Walker-Gordon Laboratory Company, has recently donated a permanent fund of $2,000, the annual income of which will be given as a prize in the College of Agriculture. It is awarded annually by faculty vote to a member of the graduating class of the College of Agriculture who has taken the animal husbandry course exhibiting conspicuous merit in the studies pertaining to dairy husbandry, especially milk production and marketing, and who furthermore exhibits high and noble traits of character. In event of no award being made by the faculty in any given year the income of the fund is to be spent for apparatus to be used for instructional purposes in milk marketing of distribution, or for books dealing with animal or dairy husbandry.

[illegible] winter, the [illegible] include snowshoeing [illegible]ng. Freshmen, [illegible] upperclassmen are [illegible] in these sports. Th[illegible] offering excellen[illegible] becoming acquainte[illegible] new girls, also are [illegible] by all who go. [illegible] leadership of Elm[illegible] membership and [illegible] increasing.

Simpson at end, and Connell and the Scntakes brothers in the backfield are likely prospects.

Columbia is treated elsewhere in this issue and as to forecasts on the game there are none worth considering. Our line will hold or it will not. The backfield is good and Coach McAvoy is using some sound plays, practically all from unbalanced formation. The lack

Point System for Activities Revised

(Continued from page 1)

[illegible] Board, Ariel Board, Debating [illegible] Chairman of Junior Prom Committee, Chairman of Sophomore Hop Committee, Chairman of Football Hop Committee, Chairman of Basketball Hop Committee, Kake Walk Committee, Chairman of Junior Week Committee, Chairman of Senior Week Committee, Chairman of Subject Week Committee, Script Managers of Cynic

1 Point

Assistant Cheer Leaders, Managers of Class Sports, Glee Club, Junior Week Committees, Senior Week Committees, Rifle Team, Faculty Student Council, Press Club, Sophomore Hop Committee, Junior Prom Committee, Football Hop Committee, Basketball Hop Committee, Outing Club Council, Leaders for Cynic and Ariel, President and Secretary-Treasurer of Inter-Fraternity Council, Members of Band and Glee Club.

Limitations

1. No individual shall carry more than one of the 4 and 5 point activities in the Cynic.

2. A Senior shall carry no more than 10 points unless his grade is 80 per cent or over for the preceding semester, then he may carry two more 4-point activities.

3. Juniors may carry 10 points and sophomores 7 points.

4. Points are charged only during period of service in the activity.

The University has recently wired the Chemistry Laboratories to permit of more convenient use in them of direct current from a battery of storage cells.

The Department of Electrical Engineering contributed the switchboard that has been installed and painted the wiring. The chemists are also indebted to the Mechanical Engineering men of '26 who made the switchboard leads.

DEBATE LOST TO ST. MICHAEL'S

The U V M debaters lost to the [illegible] team at the gym in St Michael's [illegible] evening by a 2-1 decision. The Vermonters W J Horton '26 captain F W Lord '26 and F J Dwyer '27 upheld the affirmative of the question. Resolved that the Federal government should add [illegible] the non-navy of the United States. St Michael's was represented by F L [illegible] captain [illegible] A F Ryan '26 and S Dwyer '26.

Professor E R Rupprecht '25 of the Newman Society acted as chairman. The judges were J. A. McNamara, W T Russell and R W McCuen all of Burlington. The St Michael's orchestra furnished music before and after the debate.

Friday evening March 5, in the [illegible] Vermont debated a veteran team from Middlebury. This team has already defeated Syracuse Middlebury's team: L S Jackson '26 W T Grady '26 D S Hawthorne and F L Vercelotta '26 alternate. For Vermont the team that met St Michaels upheld the affirmative of the same question.

She was just a Sailor's Sweetheart but she loved her Sailor's still

MEETINGS

Pi Delta Rho will hold a meeting at Sigma Nu Lodge Tuesday at 7.30 P M.

An election of officers of the Outing Club for the ensuing year will be held in the chapel Tuesday, March 9 at 4 00 P M. All those interested are requested to attend.

A very important meeting of the Interfraternity Council will be held at the Phi Delta Theta house on Wednesday March 10 at 7 00 P M. Rushing rules will be the most important subject to be considered at this meeting.

V S M F met at the home of Prof V R Yates last Wednesday evening E A Vincent '27 spoke on 'Subterranean Power' and F A Wheeler '26 talked about 'Steam Logging.' A discussion followed these reports, after which supper was served.

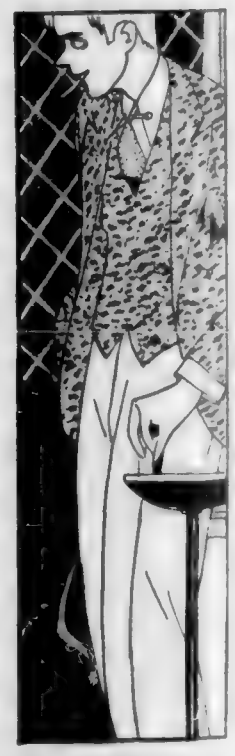
HUMPHREY'S
The Blue Store

When it's a rainy night—and with three crafty bridge players your luck is running wild
—have a Camel!



WHEN the dark skies are pouring rain outside. And fickle fate deals you hands at bridge that you play with consummate skill—*have a Camel!*

For Camel is the silent partner that helps every deserving player win his game. Camels never hurt or tire the taste, never leave a trace of cigaretty after-taste. Regardless of the gold you spend, you'll never get choicer tobaccos than those rolled into Camels.

So this evening as you ply your unerring skill, evoke then the mellowest fragrance that ever came from a cigarette.

Have a Camel!

Our highest wish, if you do not yet know Camel quality, is that you try them. We invite you to compare Camels with any cigarette made at any price.

R. J. Reynolds Tobacco Company

Camels represent the utmost in cigarette quality. The choicest of Turkish and Domestic tobaccos are blended into Camels by master blenders and the finest of French cigarette paper is made especially for them. Into this one brand is concentrated all of the knowledge, all of the skill of the world's largest organization of expert tobacco men.

S[illegible] UNION

[illegible]tudent elections, it [illegible]r thoughts to the [illegible]t of which we are [illegible]ly we are proud of [illegible]oman if questioned [illegible]v declare herself in [illegible]

[illegible]are self-governing! [illegible]anization!"

Perhaps one-third of [illegible]ents are intimately [illegible] the various branches [illegible]nment here. Perhaps [illegible] Student Union meet[illegible] two-thirds in some[illegible]on regard the organ[illegible]ooth-running machine [illegible]ed their help, and [illegible] Union meetings when [illegible] to go to the Library. [illegible]osition to the present [illegible]t Government at Ver[illegible]ent, but there is an [illegible]ence

[illegible]hould arise to threaten [illegible]independence we should [illegible] ready to go to any [illegible] than to lose it. And [illegible]ons of vital importance [illegible] up, the many listen.

[illegible] situation which is im[illegible]ately serious. But it is a situa[illegible] which calls for awakened inter[illegible] participation and some[illegible]g more tangible than impersonal [illegible]

Y W. C. A.

Y W C A is to remain on the [illegible]s for another year—on trial. It [illegible]s a pity that an organiza[illegible] of the world-wide importance of Y W should be "on trial"" in our [illegible]l or that it should be necessary [illegible] stimulate interest in its fate. Prob[illegible] the majority of us do not give [illegible] thought to the organization [illegible]ess we are connected with it—but [illegible] would undoubtedly feel the lack of [illegible]g were to go.

[illegible]ring this next "trial" year it is [illegible] to Vermont women to decide [illegible]ether Y W." shall go or stay. As [illegible] most campus problems this is up [illegible]to us. What are we going to [illegible]t it?

Communications

[illegible] the Women's Editor of the CYNIC:

[illegible]ast week's editorial so concisely [illegible]titled "High-hats" was not amiss. [illegible]e sweeping of our campus by "High-[illegible]sm" is imminent, if it has not [illegible]ready done so.

Since the beginning the one distinc[illegible]ve outstanding, quality attributed to [illegible]ermont has been its spirit of democ[illegible]acy. This attribute of friendliness [illegible]s been the pride of every student [illegible]d every alumnus. It has been some[illegible]ime prized by them as a unique [illegible]uality in a college. This democracy, [illegible]is friendliness, this "Vermont spirit," [illegible]whatever you will, is what has made Vermont beloved by everyone who has [illegible]me in contact with it. Can we [illegible]tand passively aside and see Vermont [illegible]se its "precious heritage" and de[illegible]ome into a college that sanctions [illegible]class distinctions" and "cliques?" [illegible]Freshmen who have been steeped in [illegible]e tradition of the friendliness and [illegible]quality on Vermont's campus can [illegible]understand the gravity of the situa[illegible]tion. Contact others coming perhaps [illegible]as merely a one-year sojourn [illegible]will respect this tradition enough [illegible]uphold it even while not appreciat[illegible]ing it.

[illegible]High-hatism" has crept upon us [illegible]gradually, making our pledge a mean[illegible]ingless group of words. It is a ques[illegible]tion that involves everybody. Can [illegible]we not make a real effort to restore [illegible]democracy and friendliness upon our [illegible]campus? Let us not attempt to put [illegible]Vermont through a process which [illegible]will take from it its individuality leav[illegible]ing it as many others. We should [illegible]not imitate, we should strive [illegible]to keep Vermont true to everything [illegible]that is good for.

[illegible]Greeting with a cheery Hello for [illegible]you,

'27.

With the Fraternities

Kappa Alpha Theta

Lambda Chapter announces the pledging of: Class of '28, Annette E Burns, Burlington; class of '29, Catherine B. Bassett, Burlington; Margaret B. Corbin, Burlington; Dorothy Cottrell, Brookline, Mass.; V. Faith Edmunds, Morrisville; Annette F Middleton, Burlington; Margaret E. Miller, Burlington; Dorothy H. Strong Hyde Park

Laura Buckham '24 and Selma Strong '25 were in town last Saturday. Luncheon was served at the house and pledging was followed by supper at the Hotel Vermont

Delta Delta Delta

Eta Chapter announces the pledging of: Class of '29, Mildred M. Dwyer, Proctor; Florence B. Esty, Richford; Genevieve P. Hood, Burlington. Mildred McLeod, Hatfield, Mass.. Bertha H. Metcalf, Burlington; Helen E. Prentiss, St. Albans; Elizabeth M Ready, Burlington.

Following pledging a luncheon was held at the Hotel Vermont

Pi Beta Phi

Vermont Beta announces the pledging of : Class of '26, Gladys M. Read, Burlington; class of '28, Ruth Lovell, Springfield; class of '29, Marion W. Backus, Hartford, Conn.; Charlotte E. Cleveland, Oakland, Calif.; Ruth Dillingham, Montpelier; Miriam Idleman, New York City; Dorothy M. Small, Brooklyn, N. Y.; Eleanor F. Smith, Port Jefferson, L. I.; Mary Spargo, Bennington; Lois U. Tomkins, Salem, Mass.; Dorothy E. Wheatley, Brooklyn, N. Y.

Luncheon at the Hotel Vermont roof gardent followed pledging

Alpha Xi Delta

Elzada Fiske, Lancaster, N. H.; Elizabeth B. Hagar, Clinton, Mass.; Bertha A. Hazen, East Berlin, Conn.; Constance M. Holden, Burlington; Helen E. Kelly, Lebanon, N. H.; Jacqueline M. Lanou, Burlington; Alma E. Linder, Champlain, N. Y.; Ruth P. More, Barre; Ruth E. Robinson, Brandon; Florence A. Scott, Barre; Earlyan D Simonds, Brandon; Dorothy M. Weller, Brandon.

Alumni in town last Saturday were Martha O'Neil '15, Gladys Brooks '15, Madeline Taylor '17, Mary Barry '18, Blanche Miller '21, Alida Fairbanks '13, Anna Smith '19, Merle Bristol '25, Valda Lyons '25, Constance Canning '23, Annis Barney '19, Naomi Lanou '25. Helen Durick '26 and Ramona Brown '27 were guests from the chapter in Middlebury.

Alpha Chi Omega

Alpha Iota Chapter announces the pledging of Lenore Aldinger, Burlington; Marion Baldwin, Barton; Laura M. Bingham, Middlebury; Lucille A Brunelle, St. Johnsbury; Lois E. Fiske, Vergennes; Velesta L. Holmes, Plymouth, Mass.; E. Ruth Jones, Burlington; Lucy Morgan, Burlington; Edith E. Thomas, Bradford, all of the class of '29.

Alumni present at pledging were Hazel Stanhope '24 and Olive Eddy '24.

Sigma Gamma

Announcement of pledging: Class of '29, Lois Brown, Thetford; Elizabeth Brown, Burlington; Lucene Little, Burlington; Helen Deane, North Ferrisburg.

Consuelo Northrop and Marion Little were present at the luncheon at the Hotel Vermont and for pledging in the evening

Phi Delta Zeta

Announcement of pledging of the class of '28, Helen Lynch, St Albans; of the class of '29, Neva Amadon, Hyde Park; Mae Brock, Newbury; Hope Grant, St Johnsbury, Mabel Pierce, Montpelier, Edna Shaw, Amherst, Mass., Freda Tracy, Enosburg Falls. Luncheon was followed by pledging in the afternoon

Permission to smoke has been regranted to students at Vassar. Agitation for the privilege became so marked during the past year of compulsory abstinence that the college authorities at last gave in to the student will

Y. W. C. A. TO REMAIN

As a result of a question raised during Student Union of the advisability of the future existence of Y W C A on the campus a meeting was held in the chapel Monday afternoon It was well attended and the organization well supported It was decided to keep the organization on the campus on trial for a year and give a final verdict at that time Y W will endeavor to reach the girls on the campus who are especially interested in its work and make some change in its policy

Olive Eddy and Catherine Armstrong will attend the Connecticut Valley Intercollegiate Missionary Union at Massachusetts Agricultural College this week-end.

RIFLE TEAM HAS VERY GOOD RECORD

The Women's Rifle team has come into the home stretch with fourteen matches completed and ten remaining to be fired Of those already fired Vermont has won ten, lost two and two have yet to be heard from Four matches are being fired this week against University of Maine, George Washington Illinois and West Virginia

Season's scores:

Michigan Ag	586	Vt	590
Washington State	378	Vt	489
Keene Normal	369	Vt	490
Utah	Forfeited		
Oklahoma	485	Vt	496
Syracuse	482	Vt	484
Oregon Ag	467	Vt	496
Nebraska	491	Vt	482
Oregon Univ	466	Vt	496
Cornell	482	Vt	487
Missouri	498	Vt	497
Michigan	482	Vt	488

The freshmen on the squad are doing exceptionally well three of them, Tompkins, Everest and Tracy placing in the high five.

The Vermont Cynic

Campus Comment

[illegible] were only 25 [illegible] of the whole Freshman [illegible] Sunday [illegible] Kake Walk platforms in [illegible] spirit to show? Those [illegible] nothing for [illegible] Kake Walk Decorations and the Kake Walk [illegible] and [illegible] the Kake Walks across and [illegible] you feel above them, too [illegible] Come down a peg and be one of us.

How can the Freshmen expect to [illegible] the Freshmen to [illegible] when they are Sophomores [illegible] when they know [illegible] the ways. It is [illegible] Now have to start [illegible] before you can be the boss.

Remember we cannot have Real [illegible] spirit until all of us work and cooperate with each other to get that spirit.

O. W. Hill

To the Editor of the Cynic:

There seems to have been some criticism about having the winter sports meet at Fort Ethan Allen instead of on the campus. The reason we held it at Fort Ethan Allen was to help the Military Authorities out in making the carnival a success. Also it was thought that since there were some open events up there, some students would be more interested in attending the meet and consequently we would have a large delegation out. True enough only about ten turned out. But why? Most of the men out for the winter sports are interested in track or basketball and consequently no one practiced.

The reason I think, why more fellows do not turn out is because they [illegible] rather lie around on divans and [illegible] like where it is warm, instead of getting a little ozone into their lungs and increase their pep.

I realize that winter sports were not pushed hard enough this year. The Outing Club had but one officer, and it is a mystery how he came to hold that office. It happened that he was altogether too busy with other campus activities to put the required time to such a position. It comes down to the same old story, "Let George do it," and consequently only a few men have to take a lot of responsibility and work every minute on campus activities just because the rest of the fellows are too lazy and shed that responsibility.

I would suggest that all those interested in winter sports would attend meetings of the so-called Outing Club when they are held. Notices are posted in due time so that anyone interested can attend the meetings. Two meetings were called before any meets were held. Six attended one and one attended the other. Whose fault is that? No one's but the student body.

Should another meeting of the Outing Club be called for the election of officers for next year, will all those interested attend? If the officers elected, were men who had the time to really carry out their duties, they could organize hikes and trials for meets, plan meets and raise pep among the students. Then we can have winter sports a success here at Vermont and not before.

O. W. Hill

February 28, 1926.

To the Editor of the Cynic:

Now that a radical change is seriously considered in the *Official Student Newspaper of the University of Vermont*, why not seize such a wonderful opportunity to rid ourselves of the sinister word *Cynic*? We who have been in college some time probably seldom pause to consider what the word itself means, we are so accustomed to seeing it. Why should the official organ of our Alma Mater be a *Cynic*, when everything the word expresses and implies is alien to it, to the "old Vermont spirit?"

Just what does the word "cynic" mean? Before he defines the noun *cynic* in his unabridged dictionary, Webster goes on to explain that the Cynic School of Philosophy originated with high purposes but later degenerated into a "coarse protestantism" against the existing order. Listen to what we call our paper in the words of Noah Webster!

Cynic, n. 1—Hence the [illegible] symbolized, in the popular [illegible] moroseness and contempt [illegible] views of others.

2—One who holds views [illegible] those of the Cynics: a misanthrope; particularly a person [illegible] believes that human [illegible] directed, either consciously [illegible] sciously, wholly by self-[illegible] self-indulgence.

Webster then directs us [illegible] with his definition of the *cynic*, and we find there:

Cynic, a. 1—Having the [illegible] of a surly dog; snarling, captious. (Rare.)

2—Pertaining to the Dog [illegible]

3 [illegible] of or pertaining [illegible] Cynics.

4—Given to sneering at [illegible] and the conduct of life by principles; Synonyms: Cynical, misanthropic, Pessimistic. Cynical [illegible] a sneering disbelief in [illegible] rectitude. Misanthropic [illegible] dislike of men and aversion to [illegible] society.

And every week the University of Vermont sends out all over the state and country a *Cynic* as an expression of its own thought! Under what name we express ourselves? It is proposed to do this twice. The time is certainly ripe for a change.

Daily Dribble

Tactfulness—that art [illegible] folks 'round you think [illegible] to something.

That man alone has [illegible] a great tomorrow who [illegible] him a multitude of great [illegible]

When trouble meets you [illegible] hop over it and keep going.

Better not to know so many [illegible] know' so menny things that [illegible]

Kindness—a language [illegible] dumb can speak, and the [illegible] understand.

Many persons might have [illegible] to wisdom had they not [illegible] they already possessed it.

[illegible] March [illegible] No. 20

[illegible] are to preside over the [illegible] next week, when the annual [illegible] is to appear. Good luck [illegible] while we hop.'

The hockey season, which closed [illegible] a 4-2 victory over St. Michael's [illegible] attested the ability of certain [illegible] to make the best of a bad [illegible] and to overcome almost in [illegible] difficulties. Manager [illegible] and his squad are to be congratulated for having done a good [illegible] for Vermont and done it well.

ON HATS

Why is it that Boulder men, and Key and Serpent and Gold Key men [illegible] wear their hats on the campus? Membership in these societies is a mark of especial honor, of which the hat is the outward and visible symbol. Hats are not designed to be hung up as trophies in one's room at the frat house or pasted in one's memory book, or used as floor mops for one's clothes press. They are to be worn, and especially those particular Green and Gold hats which mean more than a head covering for the head; which stand for Vermont, and a peculiar honor and a noble tradition.

Of the 60 men representing the class societies at Vermont, we would venture to say that not more than ten wear their hats regularly, and that as many more do not wear them at all. Why is it? These men are not ashamed of their distinction. Perhaps the condition arises from false sense of modesty or reticence, a desire to avoid ostentation. If such be the case, we sympathize with their attitude but we cannot condone it indirectly.

Belonging to an honor society involves duties as well as honor. Each individual class society is pledged to the service of its class and of the University. In the conducting of this service the hat, as a means of identification is a very valuable adjunct. Many times on the campus, we have been approached by men or women with the query, "Is there a Boulder man around?" or "Where shall I find a Key and Serpent man?" When as a matter of fact they were surrounded by the desired individuals incognito, so to speak. Modesty, carried to the point of interfering with duty, is decidedly not a virtue.

Perhaps some of the individuals who prefer not to wear their Vermont hats are deterred by the notion that their heads, when encased in those Green and Gold creations, do not appear at their best. We have never considered vanity a virtue under any conditions.

Boulder hats, Key and Serpent hats, Gold Key hats are to be worn. It is expected by the student body. It is a duty. It is in keeping with the spirit of Vermont.

STUDENT SENATE

At the meeting of the Student Senate held last Saturday a committee was appointed with B. J. Humphrey as chairman to confer with Dr. Aldinger in regard to Interfraternity basketball. Dr. Aldinger decided some time ago that it would not be advisable to continue the custom this year, but the fraternities are desirous of having the games as usual. A letter was read which President Bailey received from a national organization requesting that a society be formed on this campus for the enforcement of prohibition. The matter was laid on the table. The committee appointed to revise the point system presented their report which appears in this paper.

A retired business man 76 years old has entered the University of Boston as a Freshman.

RIFLE TEAM

The score for the Rifle Team's matches of last week is as follows:

Vermont 1842, Williams 1677. At present the rivalry for first place honors is very keen. Reynolds '27 at present holds this position but Follett '28 and Brown '28 give good competition.

The Irish are going to take a census. Probably want to see if they have enough men to start another revolution. *Hobart Herald.*

One of the power amplifier stages of the world's first super-power transmitter

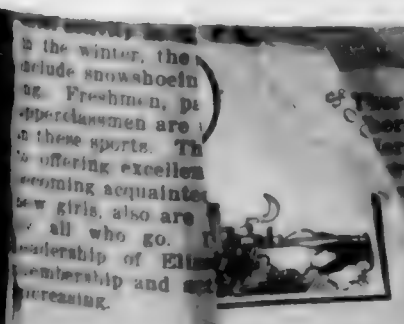
Antenna of super-power transmitter

The World's Loudest Voice

On the rolling plains of South Schenectady, in several scattered buildings, is a vast laboratory for studying radio broadcasting problems. Gathered here are many kinds and sizes of transmitters, from the short-wave and low-power sets to the giant super-power unit with a 50- to 250-kilowatt voice.

Super-power and simultaneous broadcasting on several wave lengths from the same station are among the startling later-day developments in radio. And even with hundreds of broadcasting stations daily on the air throughout the land, these latest developments stand for still better service to millions of listeners.

Only five years old, yet radio broadcasting has developed from a laboratory experiment into a mighty industry. And alert, keen young men have reaped the rewards.



But history repeats itself. Other electrical developments will continue to appear. And it will be the college man, with broad vision and trained mind, who will be ready to serve and succeed.

From the studio of WGY in Schenectady, six miles from the developmental station, there may be controlled a great number of transmitters, one of which is the first super-power transmitter in the world. WGY, together with its associates, KOA of Denver and KGO of Oakland, is the General Electric Company's assurance to the American public that radio broadcasting shall be maintained upon the highest standards.

A new series of G-E advertisements showing what electricity is doing in many fields will be sent on request. Ask for booklet GEK-1.

MIDDLEBURY DEFEATED IN CLOSE CONTEST

State Title Is Cinched by Varsity Quintet in Another Close Contest

[illegible] the Green and Gold Vermont's [illegible] Middlebury at Middlebury by the score of [illegible] in one of the fastest games seen on the Blue and White floor this year. The game clinched the State title for Vermont.

The score at half time was 17 to 9 in favor of the Green and Gold, but the fourth, during which each team was permitted five substitutes, Middlebury was at no time in the lead she constantly threatened and with the score [illegible] and only five minutes to play the game was anybody's game.

Dunn and Bingham started for Vermont while the Rice brothers and Kenyon were the outstanding players for the Blue and White.

The line-ups:

VERMONT	Gls	Fls	Pts
Dunn, l. f.	3	0	6
Bingham, r. f.	4	4	12
Mayville, c.	0	1	1
Dana, r. g.	3	2	8
Kelly, l. g.	1	1	3
Totals	11	8	30

MIDDLEBURY	Gls	Fls	Pts
Edwards, l. f.	2	0	4
Wright, r. f.	1	3	5
[illegible], c.	2	0	4
[illegible], l. g.	2	0	4
Rice, r. g.	3	1	7
[illegible], r. g.	0	0	0
Totals	10	4	24

VERMONT DEFEATED— HOLDS STATE TITLE

On Tuesday the 2nd the Green and Gold quintet journeyed to Northfield where the Norwich quintet took them into camp by a 24 to 20 score after a hard fought contest. The Cadets had previously lost to Vermont at the Vermont gym by a large score and the results make it appear that the Vermont team went to Northfield with a feeling of over confidence.

At half time the soldiers were on the long end of a 16 to 8 score. Vermont threatened seriously during the last part of the second half to turn the tables but this spurt was short lived and the Cadets were never in danger after this.

Although Vermont lost this game they still retain the State Championship by virtue of their two victories over Middlebury and St. Michael's.

The line-ups:

VERMONT	Gls	Fls	Pts
Dunn, l. f.	0	2	2
Bingham, r. f.	4	5	9
Mayville, c.	1	0	2
Dana, r. g.	1	2	4
Kelly, l. g.	1	1	3
Totals	7	10	20

NORWICH	Gls	Fls	Pts
Bedell, l. f.	4	1	9
Hopper, r. f.	1	0	2
Hewins, c.	0	3	3
Harris, r. g.	1	1	3
O'Hearn, l. g.	2	0	4
Abbe, r. g.	0	1	1
Totals	8	6	24

President Hopkins of Dartmouth said recently in a Boston address: The education which a man receives in and outside of university is a great deal alike of the influences which emanate from the faculty and the curriculum and the influences which exist within the community life of the student body."

Speaking of Sports

Tonight the University Five meets the Green and Gold aggregation in the gymnasium and Taylor and Cayley play the forward positions. Semansky and Cayward guards and Taylor center. How's that for a combination? If anybody craves to see a real team in action we recommend a trip to the gym about eight o'clock tonight and if he doesn't get that craving satisfied we miss a lot.

—V—

Believe it or not. The other day Russ Gray, the leading exponent of sport down at the Phi Mu Delta House was letting down in the cage and socked one so hard that the ball tore right through the net and stuck in the wooden ceiling. If you don't believe this go down in the cage and get Jim Collopy to show it to you.

V

The boys won for us at Middlebury and that is the important thing as we for an hour Sheep very excessively about the Norwich game. It was unfortunate but who worry about it. We have the State Championship and that is what matters.

V

Hear there's the interfraternity track meet (indoor) and Coach Latty tells us that there aren't enough men out for the middle distances to even fill the four places which count. There are some men out for everything but there is plenty of chance for any enterprising society to get out there and drag in points in several events.

The announcement of the meet is printed elsewhere in this issue or may be found posted just to the left of the Athletic Bulletin Board in the gym.

V

Hockey is all over now, at least for another year. Gone but not forgotten. Vermont's re-entry into the ice game was nothing if not auspicious. Especially so, considering the circumstances. Manager Russell started out with no appropriation, no coach, no organization, no anything but determination and the remnants of the team of two years ago and carved out a team and a schedule to be proud of. Next year the college will have a basis for a winning team to compete with other schools in this the rapidly growing winter sport.

—V—

Well well! We're going to have our interfraternity basketball scuffle after all. Great! now our mighty fraternity athletes will get their chance to show their stuff.

But all joking aside, it would have been a shame to have deprived us of this series. Intra-mural athletics are what we need and while the class series brought some few men into active participation in sports, the fraternity series interests three times as many.

—V—

The Nineteenth Annual Interscholastic Track Meet has been announced and will be held at Centennial Field, Saturday, May 22.

—V—

The new "V" books are out. The Athletic Council has revised the athletic manual but we were greatly elated to see that we can still get an "V" for fencing. The books are going fast and if you want one you'd better hurry up.

FORMER VERMONT STARS TO BE SEEN IN ACTION

Coach Mac Avoy's men will run up against stiff opposition tonight when they close their season by playing a quintet composed of stars from former Vermont teams. All the alumni are men who have helped to put Vermont at the top of the list of New England colleges in basketball for the past several years. Their presence has been sadly missed this year.

Satomi Semansky, prominent in athletics and scholarship during his four years here and captain of the '24 quintet will be on hand at his old guard position. His running mate will be Vin Carney whose prowess on the floor is still fresh in the minds of Vermonters. The center position will be held by Red Taylor who was another familiar figure on the floor two years ago as well as on the diamond. Cayward and Yarnall, who are still on the campus with us, will hold down the forward positions. They need no introduction and it is an assured fact that the varsity will have to watch close to keep them from tallying.

Track Dope

If one could tell from [illegible] a frog how far it was [illegible] one might extend the [illegible] year's track team, in which [illegible] initiated observer would [illegible] state that the said team, [illegible] jump high and far, higher [illegible] in fact than it has ever [illegible] knowledge. Let us consider [illegible] year's track team did exceedingly [illegible] considering the fact that [illegible] scarcer than the proverbial [illegible] *finage* tactics. With [illegible] year's point winners last [illegible] to expect greater things [illegible] ent team. But when it [illegible] dicting success, that is a [illegible] ter. Success is, after all [illegible] tive—we measure our [illegible] terms of what our competitors [illegible] So it may well be that [illegible] promises to be a better team [illegible] will turn out to be less [illegible] after all. Yes, we shall have [illegible] team, but perhaps so will [illegible] Springfield, Northeastern [illegible] necticut Aggies.

As to the relative merits [illegible] team: with the addition of [illegible] new men and with the natural [illegible] pected improvement of the [illegible] we are in a fair way to approach [illegible] standard of track athletics [illegible] hope to see maintained at [illegible]. It is true that I have been [illegible] disappointed in the Freshmen [illegible] I had been hoping for another Freshman class like last year's. The [illegible] of what few Freshmen are out [illegible] good, but there are only [illegible]. In past years track men [illegible] opportunity to practice until [illegible] cleared away in the spring [illegible] always late enough in Vermont. In fact, last year we had about [illegible] of practice before we went to Springfield. This year, thanks to Director [illegible]'s far-sighted policy, a track [illegible] stands some ghost of a show compared with other athletes, as is evidenced by the fact that the [illegible] used by the track men every afternoon after 4:30. This ought [illegible]

COMPULSORY CHAPEL UNPOPULAR AT YALE

The thunderers of the college press are hurling their heaviest thunderbolts at compulsory chapel at Yale. At a recent poll conducted by the *Yale Daily News*, the undergraduates by a vote of 1,564 to 218 decided against the system of college chapel as it now exists. As yet the Yale authorities have not acted upon the expression of college opinion

"It may be altruism or impertinence for the *Daily Crimson* at Harvard to publish an article condemning the Yale Corporation by way of reinforcing the Yale crusade," says the *New York Herald-Tribune*, "but it is an interesting display of undergraduate sympathy that Harvard students, relieved of an irksome requirement, should join the drive for a like emancipation at Yale."

The New York daily continues: "It is evident that the general reaction to obligatory chapel is a feeling of irritation which increases the more the matter is debated. Daily chapel used to be accepted as a mild boredom, but the spirit of rebellion is now rife.

"Most of those who have had experience of compulsory chapel in college will say that the religious value of the exercise is practically nil. The frame of mind of the unwilling rotaries is anything but worshipful. Any sort of distraction is grasped. A thesis of some sociological value might be written on chapel diversions. The ingenuity of college boys being inexhaustible, they are never at a loss to find occupation quite extraneous to the purpose of the chapel session."

"Other college authorities," says the *Daily Dartmouth* in speaking of the fact that thirteen students comprised the total of a recent chapel session, "when confronted with this same problem of student resistance to compulsory religion, have hesitated, but in the end have generally accepted the change as inevitable, and what is far more significant, as desirable. Most undergraduates, if they are to be judged by outward manifestations, have little interest in religious affairs."

Putting forward a contrary opinion is one Dr. Newton, a minister interested primarily in colleges and universities, who says that "students are profoundly interested in religion.... when the great war ended there was wide-spread disillusionment in the United States because of the failure of our war time ideals to come to realization....But now that feeling of cynicism and disillusionment has receded. There can be no doubt of the reality of the change in attitude that now can be noticed. College students are deeply interested in religion. But they are not interested in the fundamentalist-modernist controversy. They regret it. They regard all that as completely beside the mark."

"The man making such a statement cannot be close to the heart of the American campus," concludes the *Dartmouth*, "at least so far as such institutions as Dartmouth are concerned. The wave of cynicism, far from receding, grows in proportion."

Princeton's attitude on the subject was so expressed in their editorial policy, announced by the incoming board: (1) it does not consider compulsory chapel a hardship, but demands that the speakers be interesting and conversant with the real position of college men in religion; (2) it decries the fact that many lecturers simply repeat material from text books, feeling that lecturers should be interpretive rather than mouthers of mere statements of fact.

Senior: How do you like my room, as a whole?

Freshman: As a hole it's fine, as a room—not so good.—*Vassar Vagabond.*

Someone in the dark: I think you're terrible.

Someone else in the dark: Let me try again. I'll do better next time.—*Minn. Ski-U-Mah.*

J. A. Sikora 188 Bank St.

Dean George H. Perkins

[This is the second of a series of biographical sketches of faculty members published weekly in the Cynic.]

George Henry Perkins was born in Cambridge, Massachusetts, September 25, 1844, the son of Rev. Frederick F. Perkins, a Congregational minister. He attended Knox College in Ohio for two years and then transferred to Yale, receiving the A. B. degree and graduating with honor in 1867. He spent the next two years at the latter institution working for his Ph. D.

In the fall of 1869 he began his long career at the University of Vermont as Professor of Animal and Vegetable Physiology, corresponding to the present departments of Botany and Zoology, and in 1881 was appointed Howard Professor of Natural History.

In 1898 he was elected to the newly created position of Dean of the Department of Natural Science and to the Vice-Presidency of the University. On the retirement of Professor Goodrich, head of the Department of Arts, in 1907, the two positions were combined under him as Dean of the College of Arts and Sciences, a position which he still holds.

He has been Curator of the Museum since 1872 and was acting President from Dr. Benton's resignation in 1917 to the election of Guy W. Bailey in 1919.

Dr. Perkins' principal achievements have been in the field of Geology. He served as State Geologist from 1898 and also was state entomologist from 1880 to 1895, issuing the official reports of these positions. He has contributed articles to the Encyclopedia Britannica and other encyclopedias and about one hundred titles to scientific periodicals.

He is a member of the American Academy for the Advancement of Science of which he was for a time president. Fellow of the Geological Society of America, and member of the American Anthropological Association and the American Ethnological Society.

He has visited the mining districts of the West many times and in 1905 went to Hawaii to study the volcanoes there. He went around the world in 1910, visiting the countries of Asia and Southern Europe.

One of the outstanding features of Dean Perkin's career is the fact that he has the longest record of continuous service in one institution of any man in an American college, being now in his fifty-seventh year at Vermont. At the 1919 Commencement exercises, a portrait of him, painted by a famous artist, was presented to the University by Darwin P. Kingsley and now hangs in the library.

For many years he has been deacon of the College Street Church, and was for a while president of the Vermont State Y. M. C. A. He received the honorary degree of LL. D. from Vermont in 1911, and the degree of Litt. D. from Knox College in 1912.

He is a member of Beta Theta Pi at Knox College, Phi Beta Kappa at Yale, and of the local Delta Psi Fraternity.

BENNINGTON COLLEGE FOR WOMEN OPENS IN 1929

Old Bennington College for Women the plans for which its trustees have been developing for the past few years, will, it is hoped, be ready to open with accommodations for 250 students in September, 1929. A charter has been secured from the Vermont State Legislature, and a campaign is now being conducted for an endowment of $2,500,000 which the trustees expect to raise by next fall, in order that they may start building operations then.

The trustees, who intend to install some unusual and quite modern systems of education are paying the expenses of a member of the faculty of Byrn Mawr to tour the principal colleges and universities of Europe and the United States in an effort to find the most suitable curriculum for the Bennington institution. One of the plans which they propose to initiate is that of doing away with all recitation rooms and holding classes in the instructors' houses. By this means they hope to increase the personal association between faculty and students, and do away with the formality of the classroom. The science courses however, will be conducted in quite adequate laboratories and lecture rooms.

Mr. James C. Colgate has set aside a tract of land about a half mile in area, to be used as a campus. Other local people interested in the college include Mrs. H. P. McCullough of North Bennington, Congressman M. D. Hull of Bennington and Chicago, Ill., and Dr. V. R. Booth of Old Bennington.—*Williams Record*

The Vermont Cynic

VOL. XL BURLINGTON, VT., MARCH 13, 1928 NUMBER 21

COMMITTEES FOR SENIOR WEEK ARE ANNOUNCED

Names of Many Members of Graduating Class Appear in List

[illegible] chairman of [illegible] the appointing committees:

[illegible] D. D. Butterfield, [illegible] Russell, E. I. Drury, [illegible]

[illegible] B. Russell, chairman; [illegible] E. A. Wheeler, Conductor; [illegible] Doris Dodds and [illegible]

[illegible] O. W. Hill, chairman; [illegible] Beatrice Herberg, and [illegible]

[illegible] V. M. Wilbur, chairman; and [illegible] R. Casey.

Planning Statues—F. F. Atwood, chairman; G. F. Wood, Alice Crowe, and Grace Norton.

Senior Prom—E. I. Drury, chairman, R. S. Gates, H. C. Conlin, Ruth [illegible] Marjorie Fifield and Gertrude [illegible]

Boat Ride—F. E. Bartlett, chairman; W. B. Gannon, J. N. Follett, [illegible] Berditt, Jane Howe and [illegible] Northrop.

Banner—A. G. Beach, chairman; [illegible] Cormia, Allene Bertholf, and [illegible] Killelea

Invitations—A. G. Gates, chairman; [illegible] Bradley, Ruth Bacon and Kathryn [illegible]

Alumni questionnaire—S. B. Heath, chairman; W. E. Morton, M. E. Mower, [illegible] Armstrong, Lois Robinson and [illegible] Lewis

Senior Luncheon—R. I. Lamson.

NOTICE

Any bills outstanding against [illegible] Walk must be turned in to [illegible] J. Lillie not later than March [illegible] in order to be recognized.

TOURNAMENT FINALS COME OFF TODAY

The preliminary games of the Inter-[illegible] Tournament were played off [illegible]ch. This afternoon the semi-[illegible] and tonight the finals.

The eight teams which were picked [illegible] were Montpelier, Spaulding, [illegible] Cathedral, Rutland, Brattleboro, Springfield and Orleans. All [illegible] except Rutland and Brattleboro were picked from their records [illegible] were, of course, uniformly good. [illegible] of Rutland and Brattleboro [illegible] not all exceptional and their [illegible] in the Rutland tournament [illegible] a surprise.

Springfield has a really remarkable [illegible] She has not lost a game this [illegible] and has beaten Montpelier, [illegible] and Springfield Technical [illegible] Springfield, Mass., each by one [illegible] the Springfield floor. Against [illegible] Technical School in the last second [illegible] Springfield shot three-quarters [illegible] of the floor to come from [illegible] win by her one point.

Shoaf, Capt. White at forward, Bessie, 200-pound center, and Watching. From the Capital [illegible] Sheridan, forward, and Capt. [illegible] guard are good. Rutland's [illegible] is her captain, a beau-[illegible] player. The rest of the teams [illegible] better balanced and it [illegible] hard to tout individual [illegible] in the tournament.

Professor Aiken spoke recently at [illegible] Club.

Mr. Bradley, director of the Agricultural Extension Service, H. P. [illegible] Morgan and H. A. Leg[illegible] attended a conference of extension [illegible] in Washington, D. C., [illegible] where they all took an [illegible] part.

BASEBALL SQUAD GETS FIRST CUT OF SEASON

30 Men Still Out Including Eight Veterans—Next Cut Will Come Soon

The baseball squad has received its first cut of eighteen men leaving thirty candidates still in the field. Coach Collins says there is no lack of material but it is mostly in the rough and will take considerable smoothing off.

Outside of the five positions which will be covered by veterans no accurate predictions can be made. "Bob" Thompson behind the bat, with "Roly" Aronson as alternate, "Noisy" Fogg, Moriarty, and possibly "Mickey" Roark, in the box, Jack Conway at short, and "Bill" Morse and Capt. "Jimmie" Bradley in left and center field seem to be fairly surely determined. However, for the sacks and the right garden, a lively scrap is scheduled. Prentice seems to be leading the bunch for the initial bag now that "Healey" Randall is ineligible, while "Burt" Morse, '29, of last year's Burlington High team is looking good to cover the keystone sack. An attempt is being made to whip "Jack" Smith, a former hurler, into infield material and if successful may solve

(Continued on page 6)

LITERARY ISSUE

The Literary issue of the Cynic appears next week. Signed contributions of short stories, humor drama, or poetry will be welcomed by the editors, today.

WOMEN'S CYNIC DELAYED

Because of delayed elections it was impossible to publish the women's issue of the Cynic this week as planned. This issue is now scheduled to appear on March 27, the Literary issue on March 20.

RIFLE TEAM RANKS THIRD IN N. E. LIST

In the last reports from its matches, the rifle team won one and lost one match.

The scores:

U. V. M..... 3709	U. V. M... 1879
Western Md. 3451	Boston U. 1944

Brown '28 has come forward to first place on the team with the season's record of 387 out of a possible 400. Vermont ranks third among the New England rifle teams.

Professor Harry Perkins gave an illustrated lecture to the Men's Brotherhood of Windsor last Monday.

VARSITY DEBATERS LOSE TO MIDDLEBURY

Herron, Guild and O'Connell Defend Government Owning of Coal Mines

Vermont lost its first home debate of the season to Middlebury in the chapel on the evening of Friday, March 5. The question was, "Resolved: That the anthracite coal mines of the United States should be owned and operated by the Federal Government."

Professor D. B. Carroll of the government department presided. The judges, the Rev. Mark Kelley, F. D. Abernethy and E. V. Hoyt rendered a unanimous decision in favor of the visiting team.

Middlebury, took the negative side and was represented by J. S. Jackson, W. T. Hade and D. S. Hawthorne, captain. They argued that anthracite is being replaced to a great extent by oil, electricity and other fuels, that government ownership is not necessary. They also questioned the practicability of government operation, because of red tape and inefficiency.

The Vermont team, consisting of W. J. Herron, Jr. '26, F. W. Guild '26 and J. J. O'Connell '26, emphasized the difficulties caused by the recent coal strike, and pointed out the government's success in the post office department. The fact was brought out that the system now in use was contrary to the principles of democratic government.

The Oxford system of debating was followed. In this system, introduced into eastern colleges last year, each speaker has fifteen minutes to divide between constructive argument and rebuttal as he sees fit, with the exception of the first affirmative speaker, who both opens and closes the debate.

Tuesday, March 16, the Vermont debaters leave for a trip to Maine, meeting Colby at Waterville on Wednesday evening and the University of Maine at Orono on Thursday evening. They will uphold the affirmative of the same question.

TWO NATIONAL SOCIETIES HOLD ANNUAL BANQUETS

Sigma Phi Celebrates 99th Year —Dean Hills, Kappa Sigma Speaker

The ninety-ninth anniversary of the founding of Sigma Phi Fraternity at Union College in 1827 was celebrated by the Alpha of Vermont chapter with a banquet at their house Saturday evening, March 6. Alumni present were Dr. J. B. Wheeler '70, Dr. Lyman Allen '93, R. L. Bingham '09, David W. Howe '14, Urban A. Woodbury '16, Louis F. Dow '15, Arthur W. Dow '10, P. D. Clark '23, Donald Clark '23, Claire G. Cayward '25, Edward G. Howe '24, and F. W. Shepardson '12, all of Burlington. Speakers from the active chapter were Herbert M. Remick '26 and W. M. Hall '29. C. F. Black '02 served as toastmaster.

Alpha Lambda of Kappa Sigma held its annual initiation banquet at the Hotel Vermont roof garden Saturday evening, March 6. H. G. May '17 of Burlington acted as toastmaster and speeches were given by the following: Dean J. L. Hills '81, Captain H. M. Turner '17, S. M. French '18, F. A. Prisley '23, R. H. Holdstock '22, W. I. Davis '23 and E. M. Beebe '25, all of Burlington; J. W. Kinley '26 of the Brown University Beta Alpha chapter, M. P. Robbins, U. V. M. '25, M. I. T. Gamma Pi chapter; and from the active chapter, H. R. Norton '26, G. A. Mason '26, L. G. Leary, Jr. '28 and F. R. Otto '29. Other alumni present were W. C. Arms, P. F. McDonnell '23, B. M. Way '22, T. E. Hopkins '95, S. M. Provost '18, A. G. Stevens '22, C. F. Lamb '23, W. F. Abell '16 of Burlington and J. B. Sanford '15 of New York City. Before the banquet J. F. Chadwick '29 of Bethel was formally initiated at the fraternity house.

INTERFRATERNITY COUNCIL

The Interfraternity Council will meet Wednesday evening, March 17, at 7:00 P. M. at the Sigma Alpha Chi House. The business of the meeting will be to discuss the date of rushing, and regulations governing it. The representatives of each fraternity should be present and ready to present the opinions of their respective groups on later rushing.

VARSITY ADMINISTERS SETBACK TO ALUMNI

Undergraduate Team Closes Season With a 35-30 Win Over Former Stars

Last Saturday night the Green and Gold quintet closed the season by turning in a victory over the old timers, sending them back to the showers on the short end of a 35 to 30 score. The Varsity played the same brand of basketball which set back Middlebury and New Hampshire. The Varsity got the jump on the old timers and held it throughout the game, the score at the half being 17 to 11. The second half was fast and a little inclined to be rough and for a few minutes it looked like Vermont was going to snow the University Five under. With only five minutes left to go the Green and Gold quintet held a 32 to 20 lead but here the former Vermont stars showed the stuff that won many basketball games for U. V. M. and threatened to overcome the lead held by the Varsity, but the whistle cut

(Continued on page 6)

MRS. TAGGART TO COACH THE JUNIOR WEEK PLAY

Mrs. C. I. Taggart of Burlington was the unanimous choice of the combined dramatic societies to be coach of the Junior Week play. The decision was announced after a meeting of the Masque and Sandal and the Wig and Buskin societies held last Tuesday evening at the Delta Psi House.

Mrs. Taggart is the director of most of the recent dramatic successes presented at the University. Besides the "Goose Hangs High," which was acclaimed the best play ever presented by Vermont undergraduates, Mrs. Taggart has coached "Dulcy," "Tweedles," "Milestones" and "Her Husband's Wife." With Mrs. Taggart, as director, the Junior Week play will be kept up to the levels of recent successes.

The play, which will be presented, has not been chosen yet. The committee chosen to select the play consisted of B. Jane Howe '26, Ann K. Perkins '28, Eunice E. Cook '27, H. C. Conlin '26, D. D. Butterfield '26 and R. A. Costine '27. Announcement of tryouts for Junior Week play will be made in the near future.

O. F. PARODY TO SPEAK AT FOUNDER'S DAY EXERCISES

At a Junior Class meeting, held Wednesday afternoon, March 10, in the chapel, O. F. Parody was elected to speak at the Founder's Day exercises, May 1. Parody is a member of Sigma Nu Fraternity, Gold Key Society and Wig and Buskin. He has taken a prominent part in dramatics being recently elected president of Wig and Buskin.

It was also voted to purchase silver basketballs for the members of the men's and women's basketball teams. The women have held the class championship for three years and the men recently won the interclass series, which was played off in conjunction with the Varsity games.

L. H. Averill asked an appropriation of fifteen dollars towards defraying the expenses of the basketball hop, which was granted.

B. J. Humphrey, treasurer, reported the conditions of class finances.

PHI BETA KAPPA HOLDS INITIATION BANQUET

The initiation and annual banquet of Phi Beta Kappa was held at the Hotel Vermont Friday, March 5, with 45 members attending. The initiates were Miss Beatrice Herberg '26, David Hall '26 and Laurel E. Samson, M. '28, all of Burlington. The speaker was Professor W. S. Burrage, president of the Middlebury chapter of Phi Beta Kappa. Professor W. E. Aiken was the toastmaster.

[illegible] in the winter, the [illegible] include snowshoeing [illegible]ng. Freshmen, p[illegible] upperclassmen are [illegible] in these sports. Th[illegible] offering excellen[illegible] coming acquainte[illegible] new girls, also are [illegible] all who go. [illegible] leadership of Eli[illegible] membership and act[illegible] increasing.

[illegible] at guard, Nilsen at tackle, Sonny Simpson at end, and Cornell and the Scutakes brothers in the backfield are likely prospects.

Columbia is treated elsewhere in this issue and as to forecasts on the game there are none worth considering. Our line will hold or it will not. The backfield is good and Coach McAvoy is using some sound plays, practically all from unbalanced formation. The lack

Number 41 of a Series

BOWDOIN SENIORS CALL FOR RADICAL CHANGES

[illegible] undergraduate opinion [illegible] the undersigned made a survey [illegible] to ascertain the preferences would be known to interest of the student [illegible] who personally drew up a list [illegible] important topics on which [illegible] opinion of undergraduates [illegible] for the betterment of the [illegible] institution, should be [illegible] for.

[illegible] questions as contained in the [illegible] showed the trend of student [illegible] toward the fundamentals and [illegible] thereafter of more particular [illegible] in the curriculum. [illegible] was then the plan of action of the [illegible] the wide choice which [illegible] a most pleasant part in the [illegible].

[illegible] committee composed of eleven [illegible] at Bowdoin expressed the [illegible] view that the benefits of a [illegible] liberal education would [illegible] be known to [illegible] many college men [illegible] graduate and that instead [illegible] and that it should attract not [illegible] prospective but live men of [illegible] type of attractive personality, who have proven their ability to lead.

[illegible] men endorsed the present system [illegible] of [illegible] at the [illegible] and recommended a continuance of the policy of the faculty coach.

A [illegible] expression was that the existing policy of admitting applicants for matriculation on the certificate basis they should hereafter be required to pass the standard college entrance exam. This would undoubtedly limit the size of the college [illegible] per cent.

It was advocated that Freshmen be given [illegible] courses in order [illegible] the committee also recommend [illegible] a liberal attitude.

[illegible] of the purely [illegible] suggestions of improvement was the all-but-unanimous vote to favor of [illegible] fraternities, and it was generally agreed that no further charters be granted.

Wilfred B Shaw alumni secretary of the University of Michigan, has made public the results of a questionnaire recently sent to 1 000 graduates of the university and has determined that a college education may be valued in terms of an average annual income of $8 497 98.

Mr Shaw admits that the tabulations is not final or complete, but insists that, since the persons questioned were chosen at random since they include possessors of small as well as of large incomes, and since the questions were answered with perfect frankness, no signatures being required, a fair picture of the college graduate's place in the world has been obtained.

For purposes of study the returns were divided into three age groups those between twenty and thirty years old were found to average $[illegible] those between thirty and forty $8 206 98, and those more than forty years old $12 738 62.

The occupations, listed in numerical order were engineers, lawyers, physicians, merchants, manufacturers, teachers, bankers, dentists, chemists, journalists and architects.

The "average graduate" as revealed by the survey, is a chap thirty-nine years of age, married and statistically, if not biologically, the father of 1.54 children. He is the owner of his own home, derives an income of $2,933.67 from his investments and carries approximately $19,784 24 in life insurance.

Of those answering the question relating to hobby or form of recreation [illegible] voted for golf. Tennis, cards, fishing, radio, hunting, music, sports, gardening, books and literature, follow in the order named. By which it may be seen that the scholarly habits and love of reading generally acquired during college years, play a relatively small part in after college life.

The magazine survey however, shows that the average graduate seeks relatively little recreation in so-called light reading. According to reports he seems to prefer to spend his time with serious, informative publications written in terse and pointed style for busy readers.

As to be expected, *The Saturday Evening Post* led with 179 acknowledged readers. The *Literary Digest* was close behind with 159, then followed the *American Magazine*, *National Geographic*, *Atlantic Monthly*, *World's Work*, *Collier's*, *Time*, *Harper's*, *Century*, *Cosmopolitan*, *Scribner's*, *Review of Reviews*, *Outlook* and *The American Mercury*.

Professor Gilbert Murray, world [illegible] classicist and man of letters will be the first to hold the Charles Eliot Norton chair of poetry, established at Harvard last year. He will [illegible] to this country next September. The chair is the only one of its kind in America, inasmuch as it provides for the appointment from year to year of new incumbents.

The University of Arizona debating team, scheduled to appear in New England this April will meet six N. E. teams while entour. They will debate Boston University, University of New Hampshire, Tufts, University of Vermont, Mt. Holyoke and Boston College on successive days.

Master of Icebergs
—a new kind of college degree

MASTER all the intellectual icebergs you sight at college, and your degree will mean something.

The cold facts you learn, like $a^2=b^2+c^2$, are but the visible tops of these icebergs. Underneath, as with floating ice, lie the other eight-ninths.

Facts are of little importance till you see them in relation to their great underlying principles. The facts of mathematics strike deep into the other sciences. The facts of history strike deep into sociology, ethnology, geography.

That is why an engineer who learned Ohm's Law can develop a great telephone exchange and control its fascinating forces.

Viewed thus, the endless array of dry facts and dull figures that seem to crowd the years brighten and beckon with a challenge—to look deeper, ever deeper.

MISS JEAN DICKINSON TO SPEAK HERE SUNDAY

Teacher at Peking University Has Had Many Thrilling Experiences

A [illegible] embodiment of the theory [illegible] should be a cracker-[illegible] and jack of all trades, [illegible] example of adaptability [illegible] to be at Vermont this [illegible] in the form of Jean Dickin- [illegible] '20, who is to return [illegible] weeks to Peking Univer- [illegible] Miss Dickinson's main duties [illegible] of Sociology professor [illegible] incidentals are varied and [illegible] She accompanied Mary Mc- [illegible] in a bandit encounter which re- [illegible] in the purchase of a whole vil- [illegible] from the bandit chief; she col- [illegible] material for, and translated [illegible] Chinese, a course "beginning with [illegible] hypothesis and ending [illegible] the events following the World [illegible] She has experimented with native food, forgetting that the chop [illegible] may have been wiped on the [illegible] or the cups wiped with the family towel ("adaptability," *n'est-ce-pas?*)

The center of the Chinese Student Movement is at Peking University, an [illegible]denominational, co-educational in- [illegible]tution which gives B. A. and B. S. degrees under a New York charter. The first Home Economics and Social [illegible]ning courses in China were given [illegible]. Consequently, Miss Dickinson is peculiarly able to describe the most [illegible]ressive phases of present-day problems in China.

She will speak at the Y. W. C. A. Vesper Service at Robinson Hall, Sunday afternoon and at the First Congregational Church, Sunday evening. Anyone wishing to talk with her should see Lois Robinson or Harley Armstrong.

EDITORIAL

It is well, as a rule, to let bygones be bygones.

University women however were [illegible]ly incensed during the past week [illegible] an article which appeared in a [illegible] paper regarding the re-elections. It is true that these re-elections were held under unfortunate circumstances and a caustic article which presented the worst side of the matter to the [illegible]ment of the world at large was neither fair nor in good taste.

The main cause of re-elections was confusion in the checking-up system. The system of elections as a whole was new this year and the manner of [illegible] was evidently not perfectly clear to every one. Many did not understand that they could not vote in the W. A. A. elections unless they were members and too many votes were cast. This was due largely to misunderstanding. In the W. A. A. election there was again confusion. Some, as usual, spread wild stories [illegible] the campus. To avoid further [illegible]sion and misunderstanding it was [illegible] to have all officers voted for [illegible] under circumstances which would make suspicion impossible.

Someone, however, apparently cherishing a grudge against Vermont co-[illegible] or perhaps against women's [illegible] in general, saw fit to seize [illegible] the rumors that had arisen and to publish them. For the possible [illegible] of an unforunate few, wom- [illegible] elections at the University, and the [illegible] of all concerned were pre- [illegible] to the public in a false light. It is to be regretted that this happened but to believe that the public will have insight enough to look beneath the surface and discover the facts before forming hasty judgments.

W. A. A. NOTES

The spring rally has been postponed from March 11 to March 18. The girls are all urged to attend. There will be eats followed by stunts put on by each class. Awarding of emblems and installation of officers will be the chief features of the rally.

Several girls enjoyed a shack party out on the lake last Saturday. Arrangements were made with Mr Chiott for a shack about a mile and a half out on the lake. The girls hiked out and hot dogs, rolls and coffee were served. Plans will soon be made for another similar hike.

Y. W. C. A. NOTES

Miss Jean Dickinson, for five years a Sociology Professor at Peking University (as described in another column) will speak at the Vesper Service at Robinson Hall, Sunday afternoon at four o'clock.

FASCINATING RHYTHM

Fascinating? It must be for we all indulge very frequently. Rhythm? Surely. And that is the deplorable part of it. For we do it when we study, when we play basketball and, often, when we are at dances or at the movies, or just down town shopping. Nor is this fascinating rhythm inaudible. Just try and study in the same room with a person who is doing it! Ladylike? Gentlemanly? From the standpoint of Emily Post, no, but from the standpoint of custom and universality, yes. In fact it is so popular that its practice has made fortunes for its inventors; it is the means of making big fortunes; it is the excuse for conducting business on a large scale. Is it indispensable? Well, we wonder! Oh, what is it, do you ask? Why question. Chewing gum, of course.

The Co-ed's Choice

He met her on the campus.
He doffed his small green hat
She smiled so very sweetly
He took good cheer at that.

And when he was a Sophomore
And wore that bright gold key
She couldn't help but realize
How popular he'd be.

And then the Key and Serpent,
A really coming man,
She couldn't be mistaken
With the evidence at hand.

Then, at last, the Boulder.
It took four years to win
But they are truly happy
And now she wears his pin.

With the Fraternities

Kappa Alpha Theta

Lambda announces the pledging of Miriam Lawrence and Edith Vernon, both of the class of '28. Pledging was followed by a supper at the house.

Delta Delta Delta

A pledge dance will be held this evening at the Masonic rooms. Captain and Mrs. Lammons and Mr. and Mrs. Wheelock will act as chaperones.

Pi Beta Phi

A pledge dance will be held this evening at the Vermont roof garden. Dr. and Mrs. Reed will be chaperones.

Alpha Xi Delta

Upsilon announces the initiation of Beatrice Sturtevant '28 on Wednesday, March 10.

The pledges entertained the pledges of all the other fraternities on Wednesday evening, March 10.

Alpha Chi Omega

The names of two pledges were omitted from the list in last week's CYNIC: Dorothy Roberts and Selma Price, both of the class of '29. Also the names of two alumnæ were omitted: Doris Sidwell and Martha Leighton attended the pledging and banquet.

On March 4 the chapter went on a snowshoe hike, returning to the rooms for refreshments.

Alpha Iota announces the initiation of Margaret J. Clark '28.

FRATERNITY SCHOLASTIC STANDINGS ANNOUNCED

Alpha Chi Omega has won the Mabel Nelson Jacobs Cup for the highest scholastic standing of a sorority during the past semester. The standing of all fraternities and sororities is as follows:

Alpha Chi Omega
Pi Beta Phi
Delta Delta Delta
Kappa Alpha Theta
Phi Delta Zeta
Alpha Xi Delta
Sigma Delta
Sigma Alpha Chi
Phi Mu Delta
Sigma Gamma
Alpha Tau Omega
Delta Psi
Lambda Iota
Phi Delta Theta
Sigma Nu
Sigma Phi
Kappa Sigma
Zeta Chi

The Vermont Cynic

Vol. 54 March 13, 1930 No. 21

Now that the women's issue seems to contain unforeseen developments, a large part of the news which our Women's Editor had hoped to print was not forthcoming this week owing to these unfortunate developments. It will be necessary to post pone the women's issue to March 27, since our literary issue is scheduled for next week. Rather inconvenient these developments.

The word "Cynic" as the name for our publication has again been brought before the tribunal of public opinion. And as the writer of last week's letter suggests, now is the time to consider and settle that particular matter so that if any change is to be made it may come next year with the others which we have proposed. Last, however, the student body should get a one-sided opinion on the matter we think that a few words in defense of our "Cynic" would not be amiss. The name is of 40 years standing and has a certain fabric of tradition woven about it. We should rather hate to see it go.

In considering what might be said in defense of our appellation, we were reminded of an editorial which appeared in the very first Cynic back in 1891, when this same question was brought up for discussion. Having dug it out from the other archives, brushed the dust and cobwebs from it and pressed it, we came to the conclusion that it was far above our poor power to put in as forceful a light as it is interesting for its antiquity as well as for its argument.

"Criticism has been passed upon the name distinguishing our paper. Cynic has been translated dog, and from some remarks one might infer that the Cynic was the assemblage of all the qualities that were bad and bad. But the founder of the Cynic School was Antisthenes, a follower of Soc

MARION A. TAYLOR '30

Robert M. Tracy '30

One of the things which conflicts with the interests we represent and those of every one else as well, is the rough habit someone has gotten into of scribbling nonsense material all over the bulletin boards in the Old Mill, the gym and elsewhere. Things have come to the point where no notice is safe from the pencils of those would-be "wise crackers." A good many notices are so changed or mutilated that their whole utility is destroyed.

Such a situation is not only disgusting, it leads to serious inconveniences on the part of students and faculty. What we think of the individuals who practice such stunts may not be entered in these columns, but we would hereby conjure the vituperative pen of a Mencken to rain its crowbar "oafs" and "asses" upon them.

We can now look at the basketball season in retrospect, and although there are those who, mindful of last year's phenomenal record have something in the nature of criticism to offer, none can deny that the passing season has been a very respectable one, not that the finger of pride may now be pointed toward the coterie which has represented Vermont this year on the polished surface.

Some ambitious ones complain that a team composed so largely of last year's veterans might have made a better showing. This man was not up to his usual form; that man was too erratic; not enough teamwork was evidenced and so on. Such complaints seem to us to have little significance.

The squad started the season with three star basketeers of last year's quintet, Hayward, Carney and Yarnall among the missing. There were vacant places to fill, and although as time went on some new material was whipped into shape, it became evident that there was weakness in that direction. It strikes us that the Vermont team's lack of reserve strength was one of the most serious handicaps under which it labored. Davies, Moody, Thompson and others did excellent work, but they were to have been depended upon in any case. The reason why Vermont did not have a phenomenal record this season is that no phenomenal new material sprang up to take the place of these exceptional veterans who were lost.

Disappointments there have been, but we have had our share of the satisfaction of conquest: those whose brains are full of New England Title ideas have magnified the former out of all proportion to their actual signifi-

Letters About Sports

HOCKEY

The hockey season is over and the writer hopes that the senators from the various communities are glad that they have come to bring forth [illegible] found by the students who played our [illegible] those who did [illegible] satisfied and interested in the game.

With a week and a half of practice Vermont met a seasoned opponent, Middlebury, a team who had defeated nearly every team they had met, and the outcome was a defeat for Vermont by a 7 to 2 score. The same week we met Colby, and were defeated 5 to 4 in two overtime periods. The defeat of St. Michael's 12 to 0 shows that there are possibilities of having a strong team in the future. The season was concluded with a win over the Wednesday Outing Club, 2 to 0, and a loss 2 to 0 at the hands of Middlebury. The winning of only two out of five games may not sound very remarkable but when you consider the short practice we had before playing strong teams and that the sport was not carried over from last season, the results seem to be as good as could be expected.

It is practically sure that Vermont will have a team next year. The popularity of the sport has been noticeable; offers have already been received from M. A. C., Union, Clarkson, University of Montreal and several others for games on our next year's schedule. There will be a good nucleus for the sextet since six out of the eight letter men this year will be eligible to play, in addition to several men who have been ineligible this year but who hope to be able to participate next.

In conclusion, the writer wishes to thank the three classes, the Student Senate and Gold Key and President Bailey for the contributions made by them to make it possible to run hockey this year. Without their cooperation there would have been none. Let's back hockey next year and produce a winner. We can do it!

—C. B. R.

TENNIS

In about six weeks Vermont will be meeting its first opponent, Dartmouth, at Hanover. Our prospects for a team to be up to par with last year's team seems quite doubtful unless there is more interest shown by the racqueteers.

Last fall there were about 25 fairly good prospects entered in the tournament and only about eight of them have practiced throughout the winter in the cage in an effort to win a position on the team this year. [illegible] good players who have not [illegible] at all yet and they ought [illegible] boosting the sport. We have [illegible] est schedule in years and w[illegible] tice and cooperation from [illegible] men from now on we will [illegible] doubt produce a good team. [illegible] Carpenter has spent a great [illegible] time in drilling the squad [illegible] strokes and foot work but [illegible] just as well have and would [illegible] more pleased to have had [illegible] at least twenty men throughout the winter. Our coach knows [illegible] a "tee" and wants to have a team [illegible] year that will be a credit to [illegible] In Capt. Freddie Guild we have [illegible] of the best players in the [illegible] we need others to support [illegible] schedule of practices has been [illegible] and anyone who would like to [illegible] squad report when the practice [illegible] and go through the paces with [illegible] of them so that when we are able to get outside on our courts, we will be able to stage the competition for places on the team without wasting any time learning the elements of the game. Let's develop a team to [illegible] some of these larger colleges!

—C. B. R.

cance. Within the state our men easily "cleaned up" in accordance with the Cynic's rather hasty prediction of earlier date; outside the state, if we may judge by the actual showing of our men rather than by the number of scalps gathered in, we have held our own.

Daily Dribble

There are two kinds of [illegible] this world: those who [illegible] book and those who put it.

Religion is the best [illegible] have, but the worst cloak.

Wise people sometimes [illegible] minds—fools never do.

Never let a difficulty [illegible] Chances are that it's only [illegible] on your track to prevent [illegible] ding.

Who is coming?

When you kill time [illegible] has no resurrection.

STUDENT SENATE

The Student Senate held its regular meeting Saturday morning at 10 a. m. in the gymnasium. The plan of having a semi-weekly CYNIC was taken up and inasmuch as it involves a raise in the subscription price, it was voted to leave the matter to the vote of the students. During the first week in May a ballot will be taken on the following question: whether or not we shall have a semi-weekly CYNIC, whether or not the Student Senate shall continue to serve, and the choice of the student body for a mascot. This ballot will be taken at a mass meeting of the student body after the questions have been thoroughly discussed pro and con.

Future meetings of the Senate will take place at the usual hour in Room 1, South College, instead of in the gymnasium which is used at this hour for athletics.

SPORTING NEWS

MARDEN V. TAYLOR '26, Sporting Editor

INTERFRATERNITY BASKETBALL BEGINS

Sigma Delts Nose Out Zetes—Phi Delts Defeat Owls—Independents Play

On Monday night Sigma Delta took [illegible] a fast contested game. Farmer represented the scoring of the points for the winning side making four baskets while Wood made eight points for the losers. A. Rondeau referred the game.

The second A. T. O. game was [illegible] off Tuesday afternoon.

With the exception of interfraternity games will enter any the Independents have organized a team and have been admitted to the tournament.

On Tuesday afternoon the Owls and [illegible] met and the latter came out on top by a 25 to 5 score. The game was much more interesting than the score indicates the Owls putting up a great fight till the final whistle, and only losing their defeat to their inability to find the basket. Estabrook was high point man for the winners with five baskets, while Fitch [illegible] For the Owls Sherman and Tarbox starred.

Track Dope

E. R. L.

A few days ago I ran across the *Kaleidoscope* of last year. Supposed to turn to the section containing the members of last year's [illegible] and glancing over the [illegible] I noticed that a number of the men had included [illegible] the words "Track Squad." Thereupon a suspicion flashed through my mind and *animo comprobando*, I began to count the men in the Senior class: Total 72. Then I reviewed the list, picking out those who, in course of their four years had been out for track: Total 24 and a per cent! Need I say more? Shall I investigate further to find the cause of Middlebury's success in track for the last decade? Here we are, [illegible] numbering over 700 men [illegible] know what numerical male [illegible] Middlebury has, but I would [illegible] 400. And yet we have [illegible] them trample all over us for near- [illegible] years in track. (I may also [illegible] in some other sports.) Are Vermonters physically alive, are they [illegible] are they poorer trainers, [illegible] "don't give a darn." It's pretty difficult to lay one's finger on the exact cause, but I am of the opinion that it's a case of "spirit." It's the [illegible] and shows a good example of which I recollect from my own undergraduate days. The neighboring state university contained about 1,100 men [illegible] and the state championship [illegible] last 5 years has rested with the former. Imagine if we had [illegible] of our men out for track! Even one-tenth would be highly satisfactory.

But, after all Rome was not built in a day. Track is coming into its own here at Vermont, just as it has during the last 10 years entered very emphatically in nearly all colleges. The [illegible] breaking of all records during that time throughout the [illegible] illustrates and proves [illegible] Iowa in its modern pro- [illegible] is something new, and Mid- [illegible] and the Massachusetts col- [illegible] got the jump on us.

We are beginning to get the spirit. There are more than twenty men now out for track. When we get outdoors I know that the number will be greatly increased. We had a good deal of spirit last year. It is continuing this year; I hope it increases next year. But even [illegible] spirit is good compared with former years. There are many good track men, sure letter men, who either are not coming out for track at all, or are waiting for the outdoor season. It is well known by track men that a runner cannot begin to do his best with merely one month's training. This is the time to start training for the May track meets.

The most discouraging factor in the track situation now is the lack of second string men to push the Varsity. I am watching with anxiety the coming interfraternity meet to see if we can get the turnout. If Vermont had 50 men out for track, working hard all winter, we would stand high in track circles.

Where are the Freshmen? They are the ones who should be out in greatest numbers, yet there are only 5 or 6 of them out. Remember that there are 3 or 4 places and that seconds and thirds will come in handy in the dual meet with the Sophomores this spring. There is not a Freshman out for high jump, broad jump, high hurdles or middle distances. Here's a good chance for a numeral.

Speaking of Sports

The Interscholastic Tournament semi-finals are to be run off this afternoon and the finals tonight. Undoubtedly some fine basketball will be exhibited. It's worth your time and trouble to take it in.

—V—

Net men are hard at work in the gym. More power to them. Good tennis is attracting more attention all the time.

—V—

It's a fine thing to cut down expenses but why do it at the expense of perfectly honest candidates for baseball which is what the new system of making a man sign up for each baseball issued amounts to. Either a man must waste half his already short practice time watching his ball or he will [illegible] it and be liable for it to the athletic department.

—V—

Track is also a fine thing but this is the crucial period for the diamond prospects of the Green and Gold for the coming season and track season doesn't open till May. The baseball squad has a pretty short time for its practice in the cage each afternoon. There must be some better arrangement possible.

—V—

What did we tell you about the basketball game last Saturday night?

—V—

The athletes wish to inquire when the equipment room is going to open [illegible] month.

—V—

The Norwich quintet may prove a Tartar to others next year. All seven men on the squad are to be back next year.

—V—

We've been looking over exchanges and the only one of our opponents we could find out anything about is Williams and they have about fifty men out for cage practice.

—V—

Coach "Jim" Collopy has a genius for picturesque description. A certain twirler was making a desperate effort to nab a grounder when "Jim" suddenly inquired of the world in general, if the aforesaid twirler didn't look like he was trying to catch a big fat hen that had gotten loose. We also heard him refer to one diminutive infielder as "Captain of the Peanut League."

—V—

The next logical step in the expansion of the track department is a board straightaway out-of-doors on which all the indoor dashes could be run. With this our facilities for indoor track would be quite complete.

—V—

Apropos the baseball write-up in last Wednesday's *Free Press*, we never saw such an appalling mass of misinformation. We wish to warn all readers to beware of it.

Varsity Administers Setback to Alumni

(Continued from page 1)

this spurt off and the score stood 35 to [illegible] in favor of the Varsity.

For the old timers Yarnall was the whole works, scoring 18 points out of 30. Captain Post and Marvin were easily the stars for Vermont.

The line-up:

VERMONT

Baseball Squad Gets First Cut of Season

(Continued from page 1)

the problem of the hot corner. "Joe" Tarpey, "Bill" Wilbur, and "Art" Guild are fighting hard for the open field postion and it looks like a toss up unless some dark horse shows up in the next two weeks. "Kiki" Price, Winchenbach, McAvoy, Taylor, "Hinkey" Kinsler, and "Nellie" Wood are trying for infield places and by the next cut which will come about Tuesday the dope will be more certain on them.

Next week it is hoped that the squad will be able to work out a little longer every afternoon and regular infield practice will be held.

He: Something seems to be wrong with this engine, it—

INDOOR TRACK MEET WILL BEGIN TODAY

This afternoon, the [illegible] two mile run, in the [illegible] Indoor Track Meet will [illegible] Next week Monday, Tuesday, Wednesday, trials in the 40 [illegible] yard and the mile respectively [illegible] take place. In the distance events [illegible] plenty of opportunity for [illegible] only about seven are out [illegible] whereas there is a chance for [illegible] to place. The finals in the [illegible] hurdles and other fleet events [illegible] take place next Saturday afternoon at 2:30 P. M.

In regard to Varsity events, [illegible] men are wanted in the hammer [illegible] and the pole vault, as both of Vermont's letter men in these events [illegible] graduate in June. This will [illegible] big gap in the field events and there is more than a chance for [illegible] earn his letter in this sport.

EIGHT RACQUETEERS PRACTICE IN CAGE

Tennis practice is being [illegible] in the gym. The squad [illegible] Capt. Guild, '26, Baldwin, [illegible] Chaffee, Taylor, Perry, [illegible] Shaw and Shedd, '29.

Coach Carpenter is drilling [illegible] didates in the body follow [illegible] backhand centrifugal throw.

Part of the practice hour [illegible] from two to three every afternoon is given over to actual court practice for which the gym floor, with a net strung across, is utilized. The rest of the time the aspirants [illegible] strokes off the wall.

FRATERNITY BASKETBALL

The Kappa Sigs won [illegible] Sigma Phis and Tau Epsilon [illegible] vanquished the Sigma Alpha [illegible] the interfraternity basketball tournament on Wednesday afternoon.

The Kappa Sigma game was [illegible] away for the same with the final score standing 38 to 10. Hoag was easily the star of the contest with seven baskets. Kyle did the most for the losers.

The Tau Epsilon Phi and [illegible] Alpha Chi was a cinch for the [illegible] who ran up an 18 to 6 score over their opponents. For the [illegible] Waterman and Kinsler were [illegible] while Mackay put up a good [illegible] the losers.

At Boston College, *The Heights* student newspaper, publishes an honor roll weekly. Men so distinguished in the paper receive a diploma stating that they have shown exceptional ability in extra-curriculum activities other than on the field of sports.

Dean Josiah W. Votey

[*This is the third of a series of biographical sketches of faculty members published weekly in the* Cynic.]

Among the foremost graduates of the Univeristy of Vermont, who have joined the faculty of their Alma Mater, is Josiah William Votey. A New Yorker by birth, Dean Votey has spent most of his life in Vermont. Although a teacher by profession, he has not only reached the highest position in the College of Engineering, but has also been successful in practical engineering. The efficient drainage and water systems of the City of Burlington have benefited largely by his engineering ability.

Coming from Ovid, New York, where he was born July 23, 1860, son of Charles Augustus and Fanny Graves Votey, he went to Vermont Academy at Saxtons River and graduated in 1881. Entering the fall of 1881 with the class of 1884 at the University of Vermont, he took up the curriculum of civil engineering and completed it with honor. In 1911, the honorary degree of Doctor of Science was conferred on the veteran instructor.

Upon graduation he commenced a long period of service for the University, beginning as instructor in civil engineering, which post he held to 1889. During this period he was married to Miss Emma Luella Lane of Burlington, an alumnae of the University and a member of Kappa Alpha Theta Fraternity. After becoming assistant professor of civil engineering in 1889, he was promoted to the position of associate professor the following year. In 1893 came promotion to the post of Flint professor of civil engineering, which, together with the professorship of sanitary engineering he now holds. Election to be the head of the College of Engineering faculty came in 1901.

Dean Votey has long been connected in various engineering capacities with public projects and works. Among the positions which he has held in the city of Burlington are: consulting civil and sanitary engineer and city engineer in 1887. During this term of office, the present sanitary and water systems were built from Professor Votey's specifications. Other city offices which he has held are: member of the Board of Street Commissioners 1908-1909, and at present, member of the advisory board on the city hall. Professor Votey also served as member of the Vermont Highway Commission from 1892 to 1896 and is now sanitary engineer of the State Board of Health.

The Phi Beta Kappa and Kappa Mu Epsilon honorary fraternities have received Dean Votey to membership. He is also a member of the following national societies: American Association for the Advancement of Science, Society for the Promotion of Engineering Education, National Geographic Society, American Public Health Association, American Railway Engineering Association, Vermont Society of Engineers (President 1920), and the Land Grant College Engineers' Association.

Here and There

A moustache contest is in progress at the University of Arkansas. A year's subscription to *The Arkansas Traveller*, the university paper, will be given to the student who grows the longest moustache within a month.

Frieda Hempel, Prima Donna, and world-famous operatic star, says that a career as an opera singer goes up in smoke, if you blow your own rings, and that a voice and a cigarette are the deadliest of enemies. She warns all prospective singers that their vocal chords are by no means lubricated to advantage by inhaling the weed.

Students of the University of Rochester have been warned by the Dean of Clinical Dentistry against promiscuous petting and kissing. He says that it aids the spread of the disease called "trench mouth," named from its frequency during the war, especially in the trenches. This is communicated when the mucous lining of the mouth becomes involved in an exchange of kisses. He says that pyorrhea also, allied with "trench mouth," is caused by "promiscuous spooning and frequenting eating houses."

Second Semester Rushing has just been initiated at Syracuse University to go into effect next year, and will begin at noon of the first Monday following mid-years. The penalty for violation of the rules will be abridgement of all social privileges for the remainder of the year and such publicity as the Council designates.

We quote *The New Student*: "Prof. Percy Marks, with his one novel, 'The Plastic Age,' has spurred on more boys to seek college careers than Red Grange and President Eliot combined."

Women at the University of Indiana have been requested by the dean of women to attend only one dance in an evening. This action was taken to break up the practice prevalent in some quarters, of students attending dances to which they were not invited.

Drinking at the University of Missouri—which has already cost the school a plunging backfield man in the person of captain-elect of football—has been officially abolished, with the fraternity men acting as vigilants. Fraternity presidents in conference with school officials adopted a resolution prohibiting drinking at dances, school fnuctions and serenades. One member of each organization is to see that prohibition is enforced throughout the school.

Co-eds of certain institutions may be gold diggers but not so with those of the University of Nebraska. A principle embodying striking loyalty as well as consideration for the men of that college was when they declared that they would go on no more dates with men who rented cars.

The reasons back of this resolution were economic, as a majority of the fraternities on the campus had declared that they would rent no more cars until there was a substantial reduction made in the exorbitant rates charged by the renting companies.

Incidentally the four sororities who organized the movement in support of the men students were Kappa Kappa Gamma, Delta Delta Delta, Alpha Phi and Delta Zeta. The remainder of the Nebraska chapters are expected to line up with this courageous quartet.

Girl students who claim they are physically unable to participate in gym classes at Bradley College will hereafter be sent to bed right in the gym. Beds were installed in the gym on advice of the physicians that the relaxation in beds of those girls too delicate for gym work was just as beneficial to them as the exercise to the healthy.

The director of physical education at Boston University has instituted a course in posture from which remarkable results have already been obtained. Each one of the 30 students enrolled in this course has gained from 5-8 of an inch to 1 1-2 inches. This course has only been going for six months, and the director predicts that before the end of the school year these figures will be raised at least another half inch.

A new magazine, *The Intercollegiate World* has entered into the lists. The first issue of the publication, which purports "to hold the mirror to our contemporary college life" appeared from Baltimore. Among this month's features is an article by the President of Princeton, as well as numerous other original articles. There are various reprints of prose, fiction and poetry, as well as general intercollegiate news and humor of one sort or another.

Dire predictions as to the destructive effects of the Charleston on floors were realized at Alabama State College for Women. Five hundred co-eds were practicing the step in unison when the floor collapsed. The students have no intention of abandoning the dance, however, and are taking steps to have the new floor built more substantially.

Vassar College recently refused a bequest of $2,500, since the donor required that the interest from this fund should be used in scholarships to aid students who neither attend the theatre nor play cards. The trustees of the college held that such scholarships would place restrictions on personal behavior which the college has no right to impose.

"FASHION PARK" SUITS MADE TO YOUR MEASURE

On March 8th, 9th and 10th, a special representative from the "Fashion Park Custom Service Department" will be here at our store to show you the most elaborate line of fine Clothing made. Whether or not you make a selection, do not fail to inspect this rare display of fabrics.

TWOFOLD INCREASE IN USE OF LIBRARY BOOKS

Billings Library Accommodates Students Using Reserve Shelf With Longer Hours

[illegible] to the extra demands made by the students [illegible] Billings Library [illegible] according to the librarian, Miss [illegible] the number of books used [illegible] has more than doubled [illegible] 2,000 to [illegible] The greatest number of books are reserved for the departments of Education, Music and Economics with the Department of Psychology a close second.

In order that the library may be of the most service to the students in this matter it now opens two more evenings a week. It is open every evening except Saturday and Sunday until nine o'clock. Saturday it closes as usual at six o'clock and on Sundays is open from two until five in the afternoon.

This is the first time in several years that the library has found it necessary to increase the number of hours in which it is open.

FELLOWSHIPS FOR 1926-28 ANNOUNCED

The University authorities have announced seven fellowships for the years 1926-28, with a value of $700 the first year and $800 the second year. These will be awarded to graduates of colleges of recognized standing who have shown superior ability in the department in which they wish to work. Preference will be given to applicants from other colleges. There are also ten scholarships of $225 each for graduate workers, five of which are reserved for Vermont students.

Applications should be filed with Professor G. P. Burns not later than April 15, 1926. The awards will be announced early in May.

News Briefs

The Chi Psi held a formal dinner dance at the Hotel Sherwood Saturday evening, March 6, with music by Madelein [illegible] Orchestra. The chaperones were Dr. and Mrs. F. R. Clark and Dr. and Mrs. J. D. Tanner.

Alden Lansdale of Kappa Sigma announces the pledging of Francis J. O'Neill '29 of St. Albans and Nelson C. Wood '29 of Lyndonville.

A Pyramidic Circle '29 of circular gave several saxophone solos at the meeting of the Burlington Choral Union Monday evening, March 8.

[illegible] meeting in memory of Dr. [illegible] Hall.

The sons and daughters of Charles W. [illegible] have presented Alma Mater with a check for one million dollars. One-half of this will be used for the completion of a new dormitory, the remainder will [illegible] along with the rest of the money in the same fund.

At the New England intercollegiate Glee Club contest held in Boston on February 13, in which were entered nine New England colleges, Dartmouth romped off with a well-earned victory with Brown a close second. The other contestants came with Middlebury, Clark, Brown, M. I. T., Boston College, Boston University, and Holy Cross. This meet was rather of a new venture and has consequently "raised the standard of inter-collegiate glee club singing."

FIRST OUT-OF-TOWN CONCERT A SUCCESS

[illegible] Glee Club [illegible] of [illegible] Vermont [illegible] Burlington [illegible] Middlebury [illegible] was held in the town hall. Miss [illegible] was [illegible] Dr. [illegible] All of the [illegible] were [illegible] [illegible] was [illegible] [illegible] [illegible]

The Women's Athletic Association officers for the coming year are: President, Naomi Thorne '27; vice-president, Della Martin '28; corresponding secretary, Lois Wright '27; recording secretary, Elizabeth Burke '28; treasurer, Doris Griffith '27, publicity manager, Dorothy Cottrell '29; senior executive, Arline Cushing '27; senior executive, Marian Parker '27; junior executive, Mildred Whitney '28; sophomore executive, Marian Everest '29; outing club president, Elizabeth Pingree '27.

Outdoor sports occupied a prominent part in activities at the beginning of the year. Hockey, volley ball and tennis season culminated in the Fall Field Day, which was most successfully staged at Grassmount. A fine spirit was evidenced in the way the classes turned out, each having their own bonfire and singing songs. Speeches were made by Miss Patterson, Miss Cummings, Miss Blanchard and by several former presidents of
(Continued on page 3)

Bluestockings, for the coming year, will have Ruth M. Flint '27 for its president; Eleanor S. Barrell '27, vice-president; Florence B. Smith '27, secretary-treasurer; and Eunice E. Cook '27 as chairman Program Committee.

The Literary Club has always endeavored to strengthen interest in literature, and now it is going to add an entirely new and different note to the custom of previous years. Wavering between a policy of "inaction" and "in action," it has firmly and irrevocably decided upon the latter plan. Action and accomplishment are to be the keynotes of the newly reorganized club. Education and instruction are to be combined with enjoyment and pleasure in such a way as to develop a strong society with only active members.

A committee has planned a program of more journalistic nature, and at each meeting a paper will be required from all members. From the material thus received, half will be submitted

When silvery moonlight falls on town and field—and the long, joyous tour home is ready to begin

—have a Camel!

WHEN moonlight washes woodland and hills with platinum light. And the tour home is ready to begin—*have a Camel!*

For Camel makes every smooth tour smoother, adds of its own contentment to every delightful journey. Camels never tire your taste or leave a cigaretty after-taste. Pay what you will, you'll never get choicer tobaccos than those in Camels.

So this night as the forest-topped hills race by in moonlit processional. As the magic road curves through the colonnades of birches—have then the finest made, regardless of price.

Have a Camel!

Camels contain the very choicest tobaccos grown in all the world. Camels are blended by the world's most expert blenders. Nothing is too good for Camels. In the making of this one brand we concentrate the tobacco knowledge and skill of the largest organization of tobacco experts in the world. No other cigarette made is like Camels. They are the overwhelming choice of experienced smokers.

Our highest wish, if you do not yet know Camel quality, is that you try them. We invite you to compare Camels with any cigarette made at any price.

A Tale of the Jungle

By Bertrand W Chapman '26

A man named Stanton loses his heart in Yucatan and has much ado to get it back

"My God, what a fate!—a white woman—you say—lost and alone in the depths of the jungle, miles from civilization. Incredible! Why, I'd scoff at [illegible] from anyone but you. Put him down as a [illegible]." Carrington shook his head incredulously. "You aren't mistaken?"

Stanton made a gesture of futility. "Possibly I'm losing my mind. I don't know. You'll probably think so when you've heard my crazy yarn." He wearily crossed his long legs and ran his hand nervously through his crisp curly hair streaked with threads of grey. And settling back into the soft cushions he regarded his friend gloomily. His bronzed countenance creased with lines of care.

"You just remarked that I've aged, years, since we last met here at the club. Over a year ago, wasn't it?" He remained silent for an interval, as though considering the circumstance. "Yes, I guess I have grown old. I'm practically obsessed with this foolish belief that there really is a woman in this unexplored jungle of Yucatan. It was on my first trip into the wilds—three years ago.

"After I had been discharged from the army, from the aviation service, following the return of the unit from France, I was instilled with restlessness. I didn't want to settle back into the humdrum rut of life. Opportunity coming my way, I joined the Yale archeological expedition which had been organized to explore into the interior of Yucatan for undiscovered ruins of the ancient Maya civilization. In the jungle I had separated from the main party and with a *chiclero* was exploring in the region west of Chichen Itza in search of an obelisk that other *chicleros* had reported to have found. We lost our way and wandered far into the night, hacking our way through the tangled undergrowth, before we finally set up camp. In the morning fever began to creep over me, and my condition grew worse during the day. To make matters worse I had no quinine; either I had lost the packet from my kit or I had neglected to bring it with me. By spells I suffered from cold chills, then seemed to be burning up. I saw things as through a thin veil. On and on we fought our way through the undergrowth, through the oppressive heat and humidity. How much we circled in our effort to strike a trail, or in some way find our way back to the main camp, I have never been able to judge. As the afternoon waned and night was swallowing us in its blackness I had grown so weak that my guide was forced to support me.

Then, unexpectedly, we found ourselves on the bank of a small river. Thinking that it might lead us out of the jungle, my *chiclero* chopped down three corkwood trees and lashed them together with wiry vines to form a raft. Meanwhile, too weak to move, I lay on the ground on my blanket in a sort of trance. It was late in the evening when he had finished; and the yellow light of a rising moon illuminated the tree tops on the opposite shore. Placing me aboard the raft, my *chiclero* cut a long pole and pushed out into the current. As we swirled along, the moon full and golden, climbed higher and lighted the water as bright as day. I was growing delirious; at times black shadows obscured my sight. We were swept along past a long, low cliff which gleamed ghastly under the moon's flood and rose gradually to a height about thirty feet. Suddenly above the tumult of the racing river I heard a cry—a human cry—and raising startedly on my elbows, I saw in the moonlight on a shelf of rock a young woman with golden hair flowing over shoulders, clothed in white—a white woman, Carrington! Her arms stretched downward imploringly and she cried out again. Almost at the same instant we shot around a bend in the stream that shut her from sight.

"My fever increased, I felt that I was being consumed by fire. The river was narrowing and the water raced along faster and faster; at times our fragile craft threatened to fall to pieces. With a yell of alarm my companion shouted 'Cenote.' Before us loomed a black wall, covered with vines, under which the river flowed with a hollow roar. The stream went under ground! Somehow we got to the bank and safety. From then on I remembered nothing.

"When I recovered consciousness I was lying in a hospital in Merida. While I was convalescing, a week later, my guide came to pay me a visit. It seems that by climbing a tall mahogany on the ridge under which the river had disappeared he had caught a glimpse of the temple that stands on the summit of a hill at Chichen Itza. After two agonizing days of travel he had carried me out of the jungle and had come across a party of chicle hunters.

"I asked him if he had seen the woman on the cliff. He replied negatively. And he said that there were no white settlers within miles of that section."

The clock on the mantel of the fireplace in front of them softly chimed midnight. The club was nearly deserted and the lounge was only lighted by the soft glow of shaded wall lamps while in front of them the flames licked upwards casting phantasmagoric shadows on the faces of the two men. Stanton relighted his cigar which had gone out, while Carrington smoked thoughtfully.

"Yes that's mighty queer, a mighty queer story," he said solemnly, staring into the fire. "Have you ever found any clue—heard anything—to convince you that this is more than an obsession?"

Stanton nodded, and shifted his position to lean on one elbow. "Yes—when I was at Uxmal I ran across an old *chiclero* who had plied his trade throughout the entire district for a score of years. From him I learned that some years ago an archeologist—a Professor Untermeyer—had started out on an expedition into the interior for the International Geographical Society. There had been a young girl with him—scarcely more than a child—his daughter no doubt. One day they left the chicle camp that was their base—and none of the party ever returned. They were swallowed up in the maw of the jungle. Although searching parties were organized and searched for weeks, no trace of them was ever found. Whether they were killed by some savage tribe or became lost and perished in the tangled forest, is an unsolved mystery. There is a possibility—remote I admit—that this girl is actually alive and it was she whom I saw. On the other hand it is more than likely that I am suffering the after-effects of a hallucination. Whatever may be the case the uncertainty of the whole business has got under my hide."

Here he paused and a vacant faraway expression came over his face, as if he were repicturing the whole scene.

"I have come to hate the tropics, Carrington, hate it with my whole heart and soul," he resumed, as for a time they smoked in silence. "I return home each time vowing never to return again. For a month or so I am normal—then a strange restlessness engulfs me, I am nervous and troubled—this uncanny feeling becomes almost unbearable. It's sort of a compelling urge that nearly drives me to distraction until I return to the tropical country. Often in the night while at home I have awakened with a start—as though someone had called to me. A horrible sensation, Carrington. I can sleep no more. Time and again this has recurred. I'm tortured almost beyond the point of endurance. At times I feel I am going crazy.

"My father died, as you know, while I was away on my last trip to Yucatan. I have inherited his vast estate. But I can't remain peacefully at home among my friends. I am returning a week from today," he ended tragically. "And I'm going to make every effort to run this to earth."

II.

Coming out of the Estacion Central de Merida, Stanton walked slowly along past the two-storied *estancos* on the narrow street leading from the station to the business section. Dump carts with gigantic wheels, filled with sisel and other tropical products, and drawn by absurdly small donkeys rattled along adding their noise to the confused din of city sounds that beat harshly on Stanton's raw, taut nerves. Reaching the corner where the side

Strapping a pack of provisions and canteen of water ... the rear seat, he gave the plane a final cursory inspection, then fastened on an automatic and climbed back into the pilot's seat. A minute later and he was skimming high above the panorama of verdant jungle. About an hour later he saw below him the gray ruins of Chichen Itza, half hidden by jungle vegetation. From here he headed directly west, then tacked back and forth in a zig-zag course.

The sun had reached the zenith when he detected to the southwest a silver thread in the sea of green. It was the river for which he was searching. Arriving above it he followed its course until he saw ahead of him a plateau on which was spread out the gray walls and massive stone buildings of a Maya settlement.

But unlike most Maya cities desolate and deserted, the haunts of the jaguar and other wild animals, the place was inhabited. For as he lowered his elevation, he saw dark-skinned people running about excitedly and pointing up to the machine. He was amazed at his discovery in spite of the fact that he had had a suspicion that he would run across something of the sort. Here apparently, was a remnant of the ancient Maya civilization, the people living probably at the same stage of culture and development as had been reached by other communities of the race hundreds of years previously before the inhabitants had mysteriously disappeared and their habitats been forgotten. He circled over the plateau until he had located a suitable landing place then voloplaned to a field separated from the cluster of buildings by a deep ravine.

As the machine came to a stop on the side of the field nearest the village he climbed out and took a survey of his surroundings. To prepare himself for any emergency he prudently loosened his automatic in its holster at his side. There was no telling what kind of a reception the people would tender him. The ground was parched and dry while to his right was a field of maize, the stalks and leaves withered and brown. Following a beaten path across a corner of the field toward the settlement he noticed that on the palms that fringed the ravine on either side the leaves were wilted. The abyss was spanned by a long hanging bridge suspended by two thick cables of vines twisted together with a corduroy walk of short-length limbs. It swayed alarmingly as he crossed over.

Before him was a flight of stone steps that led ... bank covered with bushes and palm trees. ... reached the top step directly in front of him ... low, stone buildings of the town, arranged ... paved square at the head of which on a ... imposing limestone structure to which ascended ... wide flight of stairs at either side of which ran a ... the form of an enormous serpent, carved of ... open-jawed head at the foot. In the center of the ... was an enormous statue of some past ruler ... dently.

All these details Stanton took in at a glance, for ... attention was immediately centered on the people ... were watching for him and prostrated themselves ... cry as he came into view. As he hesitated through ... ranks came a tall, dignified-looking Maya clad in a beautiful variegated robe of feathers wearing a ... made of the body of the *quetzel bird* with long ... flowing behind. The *quetzel bird* was the national ... of the Mayas, and thus Stanton knew him to be ... chieftain. As the ruler slowly, cautiously ... raised his hand in a token of peace and smiled. Coming ... in front of him the chieftain bowed low ... him in a strange, guttural tongue, clipping off ... An escort of natives with bronze-headed spears and swords of the same metal at their sides clad in peculiar ... jackets of heavily-stuffed cloth stood at attention ... him. The ruler at the conclusion of his discourse pointed towards the building on the knoll and made a sign to Stanton to follow. The guards ranged on either side of them and the procession moved through the still ... throng down the square to the palace.

On the wide platform of smooth, square stones that extended the front of the edifice was a throne of ... pink limestone covered with curious inscriptions and figures of gold and silver inlay. Conducting Stanton through one of the wide doorways, of which there were two, one at either side of the throne, he lead him through a passageway to a large hall the floor of which was covered with the soft skins of animals. In front of a wide ... was a huge, square slab of polished black stone with four square carven blocks supporting it at the ... to form a table. This had on it a number of curiously wrought gold and silver dishes containing various kinds of food, including honey, a mixture of beans and red peppers and flat cakes of corn greatly resembling the tortillas of modern Mexico. The chieftain indicated that Stanton should eat and himself took one of the corn cakes. The guards had lined up unobtrusively at one side of the hall.

During the meal Stanton became impatient to find out whether or not there was really a white woman in the village. He was almost certain that he would find the girl whom he had seen on the cliff. But although he had scanned the crowd carefully while being escorted to the palace he had discovered no white features. Scarcely had they finished eating than from the square came a curious rhythmical chant accompanied by the beat of drums and the shrill wailing of flutes.

Indicating that Stanton follow, the chieftain went out of the palace and through the square again and up to the stairs from which he had first appeared. A straight paved terrace led to a small building perhaps two hundred feet away, similar in design to the palace except that it had two wings jutting out on either end. In front of the building, which Stanton judged to be some sort of temple, the terrace ended in a broad court. At the foot of a short flight of steps that led to a throne closely resembling the one at the palace, only more richly ornamented, two of the guards placed cushions in front of them on which to kneel. The people of the village had followed behind at a respectable distance and filed into the court where they bent on their knees. A period of silence followed.

The sun, a blazing yellow disc was poised in the west just ready to plunge below the palm-fringed ridge that skirted the outer edge of the plateau, and glorified with its golden beams the facade of the temple. The lofty and impressive silence was almost awesome. Stanton himself was moved by the majesty and beauty of the scene. Then from the doorway on the right of the throne came slowly a group of priests, and at the same time from the one on the left appeared—the girl for whom he sought!

Stanton gasped in astonishment and stared at her breathlessly. A rare, exotic beauty was in the mould of her features, in the soft contour of her neck and shoulders. She wore a magnificent robe of gold and scarlet-hued feathers while over the folds about her throat tumbled waves of golden hair that scintillated in the rays of the dying sun. But her delicate face was set in lines of sadness, of hopelessness, as she took her place on the throne. In back of her the priests formed a semi-circle.

Alice Attempts the Higher Learning

(With a condescending nod in the direction of Lewis Carroll)

By Laura Bliss '28

... that our childhood friend, Alice, is still ... and finding as much to wonder about ...

The Red Queen was getting very dull thought Alice; perhaps she'd fall asleep in a minute. If she only would, Alice could go and hear the rest of the mock- ... she'd been simply pining to listen to it ever ... heard the first verse. There! Her Majesty was ... her snores resounded all through the wood ... away.

... girl was trudging happily through the forest ... she saw a most remarkable man coming toward her. ... nces in Wanderland Alice had never met ... looking creature. He wore a long, shiny, ... flappy, black things on his feet which ... he walked, and an infinitesimal green cap. ... carried a football, in the other an excellent ... Greek capital letters. Strapped on his back ... enormous number of packages which have the ... French," "Math," "English," "Economics," "Zo- ... and others that Alice did not understand, including ... Around his neck he wore an alarm clock ... ear, where he could just glimpse it from ... of his eye, was a pen. He would glance first ... then with a worried eye at the Greek letters ... to have trouble in balancing all the bundles on ... and at the same time carry the football and keep ... on the pen. His face had a very worried expres- ... as Alice came up to him.

"Who in the world are you?" she demanded with, it must ... her mouth hanging open.

The youth glanced at her and said wearily, "Oh! I'm ... of these college fellers."

"But why do you carry all those things with you?" ... had heard of college fellers as a carefree lot.

"... have to," he explained. "You see, these bundles on ... back are all the courses I have to carry (it's a heavy ... too) and of course I have football on the side ... and on the other hand my fraternity. Besides that ... an eye on a writing job for the *Idealist*; got ... the corner of my eye, as it were." He pointed to the ... over his ear.

"I see" said Alice, who didn't see at all. "But where ... live and who makes you mork so hard?"

"I go to college," he said with a touch of impatience, "naturally I have to go out for Activities. It's the thing. ... didn't, I'd never attain to my dearest ambition."

"What's that?"

"To be a Big Man!" he replied, bowing deeply as he ... Alice curtseyed also since it seemed the thing to do. "Would you like to see a Big Man" he continued. "I'm going to class now and you can come along if you like."

"Oh, I would! Is he very big?"

"Biggest on the campus," replied the youth. "Come on; we're late."

"Class," had already begun as Alice and her friend appeared, but that didn't seem to trouble him in the slightest. The room was large and dusty and furnished with ascending rows of seats like a theatre. On a desk at the front of the room was a small phonograph which remarked as they entered,

"Gentlemen, the lecture this afternoon will be on the probability of establishing a connection between the Arthropoda and the Radius Vector. I will first give you a little quiz. Please sign your names to your papers; your names—not your signatures!"

At this joke Alice laughed heartily, but no one else showed the slightest change of expression and she felt a disapproving stare directed at her from all corners of the room. Much abashed she sank lower in her seat and began to look about her. The phonograph continued to drone on, but no one paid any attention to it.

Most of the men were dressed like her friend but with several variations in their luggage; "Activities" they were called, she remembered. Some had fewer courses to carry but were instead weighed down with enormous footballs and basketballs. One or two, she noticed, had large assortments of Greek letters in their hands and even a few more up their sleeves which they, sometimes unsuccessfully tried to conceal.

"Say," said Alice, nudging her companion, "where's the big man; I mean Big Man?"

"Down there, see, the one with all the footballs, and with keys and snakes pinned all over him. He is in more Activities than you ever saw. How he does it, I don't know."

Alice looked, and midway of a row of the sleeping gentlemen (for everyone was sleeping peacefully) she saw a large heap of "stuff." There were baseballs and megaphones, fountain pens and books, a golden snake, a pair of sandals and a wig, a sword and a small piece of granite boulder, a key made of gold, a basketball, a football and a perfect heap of Greek letters to top it off. But of the Big Man himself she could see nothing at all. He was completely hidden under a mass of Activities. Alice almost cried with disappointment.

"Yes," said the youth, seeing her face, "it's often that way. You see they have so much to carry around that you sort of lose sight of them, themselves. Still it's a wonderful thing to be a Big Man! It's my dearest ambition."

Thoughts on a Pen

By Margaret A. Durick '29

Miss Durick is of the opinion that there are things in the world less romantic than pens.

"A PEN is essentially a tool of office, desk and schoolroom, a rather commonplace instrument which discharges an important function in the routine of the business world. But as for romance—a shrug of the shoulders indicates the practical attitude of men toward the suggestion.

Fie upon such dull thoughts! As for romance in a pen there is a living, burning romance for him who wishes to rise above the level of platitudinous thinking to the heights wherein lies the happy kingdom of imagination.

In those high areas, let us lift the curtain and peep into a land called Yesterday. The setting may be stately Athens or Rome, as you will. A bearded Grecian poet or a togo-clad philosopher is writing down his reflections. The pillars, which enhance these cities, one by one will yield to time. But the calamus as it hurries to do its master's will is perhaps making a thing that will live forever. Is there not a flame of romance kindled here!

The centuries skim by. In the holy sweetness of the scriptorium, a black-robed monk is transcribing the Word of God; and a quill is forming for posterity a golden treasure.

The scene changes. We see a courtly throng of lords in doublet and hose; we hear the rustle of their ladies' silks, and the stirs and murmurs and curtsies which greet His Majesty. A quill is placed in the sovereign's hand. In the hush, a document or treaty bears the royal name. Perhaps thus a war is ended, a noble exiled to a foreign shore, a death penalty revoked. A quill is making history and, above it all, hovers the mysterious breath of romance.

Let us look still further. Mayhap this time we see a lonely tower room where a blind poet is piteously struggling to set free the thoughts burning in his soul. Mayhap it is an attic or meadow or manor house where a genius is writing down immortal melodies. Oh, there is romance, glittering, burning romance in a pen!

How it delights in tickling the emotions of us mortals! How it flies across the manuscript which will make us laugh or weep, lead us to war and violent deeds and back again to peace. It has influenced our actions and sometimes changed our lives. It has given to us the most beautiful thoughts of the gifted. He who thinks of the pen as a commonplace, practical instrument, it is he, who is prosaic and a thinker of commonplace thoughts, one who never knows the delight that "the mind's internal heaven" can offer to those who seek it out.

The Women's Athletic Association officers for the coming year are: President, Naomi Thorne '27; vice-president, Della Martin '28; corresponding secretary, Lois Wright '27; recording secretary, Elizabeth Burke '28; treasurer, Doris Griffith '27; publicity manager, Dorothy Cottrell '29; senior executive, Arline Cushing '27; senior executive, Marian Parker '27; junior executive, Mildred Whitney '28; sophomore executive, Marian Everest '29; outing club president, Elizabeth Pingree '27.

Outdoor sports occupied a prominent part in activities at the beginning of the year. Hockey, volley ball and tennis season culminated in the Fall Field Day, which was most successfully staged at Grassmount. A fine spirit was evidenced in the way the classes turned out, each having their own bonfire and singing songs. Speeches were made by Miss Patterson, Miss Cummings, Miss Blanchard and by several former presidents of
(Continued on page 3)

Bluestockings, for the coming year, will have Ruth M. Flint '27 for its president; Eleanor S. Barrell '27, vice-president; Florence B. Smith '27, secretary-treasurer; and Eunice E. Cook '27 as chairman Program Committee.

The Literary Club has always endeavored to strengthen interest in literature, and now it is going to add an entirely new and different note to the custom of previous years. Wavering between a policy of "inaction" and "in action," it has firmly and irrevocably decided upon the latter plan. Action and accomplishment are to be the keynotes of the newly reorganized club. Education and instruction are to be combined with enjoyment and pleasure in such a way as to develop a strong society with only active members.

A committee has planned a program of more journalistic nature and at each meeting a paper will be required from all members. From the material thus received, half will be submitted

Miss Gallagher's Story

By PAULINE SULLIVAN '27

The summer people at Rock Point said Miss Gallagher was a character. And what constitutes a character they did not say but they knew and seem to mention she had a large coterie of followers whom the young people termed "Miss Gallagher's crowd." She sat at the head of "Miss Gallagher's table," a dainty little monarch surveying all she surveyed. Her only relative was a [illegible] mongrel Pete. She was apt to confide to her [illegible] such seriousness that some of them considered, to disprove their knowledge of dog-lore) that Pete was [illegible] and [illegible].

Miss Gallagher breakfasted in bed, not because she was [illegible] but because arthritis made it impossible for her to get up and dress early. She suffered much, but always in private and it was only when her limp was especially bad, or her smile a bit twisted that people realized what a martyr she really was.

About ten she and Pete would descend the club stairs and enthrone themselves on the broad veranda. They were never alone, for some of Miss Gallagher's crowd was always bustling around asking how she had slept, and if she were comfortable. Her answers to these questions were apted to be sarcasm incarnate, but well veiled. The broad women and narrow men that basked in the warmth of Miss Gallagher's popularity were never keen enough to understand. They only smiled and whispered "Dear Miss Gallagher, she is a character; yes, indeed she is."

No one passed Miss Gallagher's corner without stopping for a word or two. Her kiss seemed to heal little hurt fingers better than any other; from her vantage point she could usually spy the elusive bit of pink romper-clad babyhood that nurse was frantically hunting for; almost always she knew where the lost baseball lay hidden in the tall grass; tired business men and women liked her cheerful smile; bored society girls thought her amusing; college boys found her a good listener; bashful people found her a good talker. In short everyone in Rock Point knew Miss Gallagher, and all who knew her loved her.

After lunch almost everyone in Rock Point slept. But not Miss Gallagher. Book in hand, she and Pete would wander down across the lawn to the pine grove overlooking the lake—to the bench that was "Miss Gallagher's bench." That is where she was when our story began; dressed in white flannel, the gentle breeze tossing wisps of snow-white hair across a cheek, that in spite of suffering had still retained its youthful pink. An old, worn copy of Milton lay open at L'Allegro in her lap, but she was not reading. Pete was asleep, but not his mistress. She was gazing dreamily off across the lake, and what she saw there was for her eyes alone.

Suddenly she brushed away a tear, and came back to the present as she watched a youth and a maiden picking their way down the stony shore.

"It's Bob Merrill and Phoebe Craig and they're in love," she announced to the sleeping Pete. Pete grunted.

They were still far down the shore and she drifted off into another reverie. She remembered when Bobby Merrill had first come to Rock Point, six months old and the most lovable baby in the world. In quick succession she recalled the summers that had sped by since then. Bobby walking and talking; Bobby riding his rocking horse on the lawn and lassoing the hydrant with a bit of clothesline; Bobby with a toothless space where once had been the pearliest of baby teeth; Bobby in wading; Bobby playing baseball; and suddenly Bob in long trousers dancing and golfing; then there was a gap of three summers after Bob's father's death when he had been too busy to come to Rock Point. This year he had come back a man—tall, straight, dark hair, clear sane grey eyes.

In a burst of confidence he had told Miss Gallagher of the struggle he had been having those last years to save his father's business.

"I'm as poor as Job's turkey now" he had grinned "but I won't always be."

Then he had asked her, blushingly, earnestly what she thought of Phoebe. By his manner none but the blind could help seeing that he was gloriously, exultantly in love with Phoebe Craig.

Miss Gallagher liked Phoebe and told him so, and he had gone off whistling.

She wished she knew Phoebe as well as she did Bob. This was Phoebe's first summer at Rock Point. She had come as the guest of Hilda Cameron, Bob's married sister. Still Miss Gallagher liked Phoebe, liked her with a liking that was out of all proportion to the length of their acquaintance.

"Pete, you don't suppose I'm getting to be a sentimental old fool just over a name, do you?" questioned [illegible] mistress anxiously.

Pete thumped his wornout old tail and went back to [illegible] dog dreams.

Bob and Phoebe were directly beneath her now and [illegible] cheery call was checked on her lips by the expression she saw on their good-looking young faces. They did not see her, and she could not help hearing their [illegible] voices.

"It's all over between us Phoebe?" Bob was saying in a voice that was not Bob's at all.

"I'm sorry, Bob, really I am, but we'll get over it you know. There may have been love in our grandfathers' days, but it's only a myth now."

"Don't say that Phoebe! If you loved me ..."

"Please don't make it any harder Bob. I do love you now. But it wouldn't last with either of us. I love singing too. I'd never make you happy."

"I'd be happy, just to be with you."

"I want to sing, to be great, Bob!"

"And I'd be a handicap because I'm poor ..."

"Don't say that Bob! If I thought I could make you really happy I wouldn't hesitate a minute. But ..."

"Let's not go into all that again," Bob's voice was [illegible] harsh. "I'll clear out on the sleeper tonight. I can sell the business—I have an offer for it—I'll be gone by the time you get home."

"Bob! You mustn't."

"I must."

"But you can't sell the business. You've worked so hard to save it."

"Might just as well sell it. It isn't doing me much good."

"You mustn't sell ..."

They saw Miss Gallagher, both at the same time, and each flushed guiltily, groping blindly for some casual topic. But if Miss Gallagher had heard she gave no sign. She was quite a match-maker in her own way and her way consisted mostly in looking innocent. Slowly she raised her eyes from her book, reluctantly, as if anxious to get back to it. Then a wholly suprised smile of recognition lighted her beautiful old face.

"Good afternoon, children. How is it you're not in bathing or playing tennis?" Without waiting for them to answer she rambled on.

"But of course you're on the way to meet the train. I forgot you were expecting your father Phoebe." She pretended not to notice the startled glance at their watches, a look that screeched they too had forgotten it.

Miss Gallagher's mind had been racing far ahead of her tongue and now she suggested her hastily conceived idea.

"It's too hot for you to walk to the station Phoebe. Bob will run along over and you stay here with a lonesome old maid."

"I'm afraid Bob wouldn't care to go" broke in Phoebe.

"I'd be delighted to go" returned Bob, coldly courteous.

"We'll meet you at the club," called Miss Gallagher, and Bob wondered if she really had winked at him.

Out of the corner of her right eye Miss Gallagher studied the girl beside her, and mused that she was glad that neither of her eyes was glass. It would be so inconvenient when you wanted to study people without their knowing it.

A pretty picture Phoebe Craig made, even with her eyes moodily studying the horizon and her mouth a hard straight little line. The bright sunlight peeking through the pine branches played with loving fingers on her golden hair.

"She's too pretty to be true" Miss Gallagher told herself and aloud she asked whether Phoebe liked Milton.

Phoebe replied almost rudely that she did not, and then repentantly added,

"Daddy does though. I often read to him."

"Phoebe, supposing I told you that Bob Merrill was drowning out there by the Bluffs."

The startled jump on the bench beside her, the startled frightened look on Phoebe's face seemed to satisfy the capricious Miss Gallagher and she added,

"He isn't of course. I was just wondering..."

Phoebe's sigh of relief was audible. After a pause Miss Gallagher again broke the silence.

"Phoebe, I'm a worthless old maid, I ..."

"Miss Gallagher!" objected Phoebe, "you a worthless old

Time Will Tell

By ELIZABETH E. WARNER '27

My youngest granddaughter came to see me this morning, to bring me some fruit and wish me a happy birthday.

"Though I don't see," she admitted frankly, "how an eighty birthday can be very happy."

"My dear Nancy," I told her, "that is because you have never been eighty. I am very happy indeed."

She sat back in a comfortable arm chair to argue the point, lighting one of those little white-and-gold pipes which the co-eds have taken to smoking of late. At sixteen she is a very modern young person.

"Now Grammy," she said, "you don't mean to tell me that you'd as soon be eighty with only a few years to live as sixteen with your whole life ahead of you."

"It's really much more amusing," I replied. "When one is sixteen one has no granddaughters. I had nothing at sixteen quite so entertaining as you. And besides, my dear Nancy, I have at least fourteen more years to live. I positively refuse to die until I have seen the year two thousand usher in a new century. I shall be ninety-four then, and probably a great-grandmother."

Nancy admitted the truth of this.

"What are you looking at, Grammy?" she demanded, coming up to inspect more closely the thick volume which lay in my lap.

"My college mem-book," I answered, and seeing the blank look on her face hastened to explain. "A mem-book when I went to college was made for one to paste souvenirs of all kinds in, and where one's friends wrote their autographs and happy thoughts, if any. We didn't have the cute moving-picture cameras that you girls photograph every event with now."

She pounced upon the book with delight.

"A real antique!" she cried, drawing her chair up close to mine. "What in the world is this, Grammy?"

I smiled indulgently.

"That is a dance program, my dear. When I was in college the man who took a girl to a dance arranged her dances in advance and gave away as many or as few as he chose, depending upon how much he wanted to dance with her himself."

"How perfectly unique! Do you mean a girl stayed all evening with one man? And look—" she hurried on. "A newspaper clipping. 'Jan. 2nd, 1926. Millions of radio listeners hear program re-broadcast from London through Station WJZ.'"

"I'll never forget how thrilled I was," I said. "Of course it was very imperfect but we distinctly heard the announcer say that they were 'broadcasting to America.' Then the orchestra played 'When You and I Were Seventeen.'"

"Oh I've heard of that!" she exclaimed. "The orchestra that we heard from Algiers the other night was playing 'dance music of other generations.' They wore old fashioned costumes too, tuxedos I think they were called."

I reflected how little I had thought, that long ago New Year's night how soon we would see the broadcasting performers as well as hear them. To Nancy it was no marvel—a bit old-fashioned in fact.

She sprang up suddenly.

"Oh Grammy, I can't stay. I'm going to Paris for the week-end on a house-party and the 'plane leaves in an hour. But I'll drop in some night soon and you must tell me all about everything in here."

When she had gone I went on looking at the quaint old volume with a little amusement, a little sadness, wondering whether after all the memories of eighty were worth the anticipations of sixteen.

I have been a bit lonely today. Perhaps I shall fly over to Vienna, myself, for the week-end. They say the dirigible show there is attracting great crowds and even at eighty one must keep abreast of the times.

On the Subject of Wanting More

By MARGARET DURICK '29

"Quo plura habemus, eo cupimus ampliora."

ALACK and alas and the more's the pity! The Roman sage was right. For it is true indeed that "the more we get, the more we want." The earth has been spinning around King Sol for no one knows how long; and the Latin adage, written maybe two thousand revolutions ago, still holds true for this proud, old human race of ours.

Not content with what today brings, we are ever and anon bewailing the lack of this or that thing. It may be health or fortune or possibly fine weather. This so-called "*cupimus ampliora*" has diffused itself completely into the veins of most men. It assails some with great ferocity; others with less.

We have all heard Housewife A conversing with Housewife B over the garden fence on a cheerless, smoky autumn day. The subject of conversation is of course, the weather with wee bits and snatches of village news mixed in.

"Bright sunshiny days five times this week! To think that today should spoil the record!" laments Housewife A and her neighbor mournfully acquiesces.

Financier A may have all the power of Midas, with his gold stacks, and yet be wretched with the gout. If man has wealth, man wants health to match it.

Or Farmer X may have the strength of a mighty Hercules, and still bewail the destiny which the fates have spun him.

Here and there, in the midst of complaining, grumbling mortals, an all-wise Providence has scattered precious gems to illuminate by their own radiance the selfishness and ingratitude of the world. These gems are the noblest of human souls. In scenes of wealth and poverty they may be found. Surely, the little blind girl who lives in the alley is one; and Grandmother Clark who is always making people happy and "sunshiny," just like herself.

As I write, I recall an incident indelibly stamped in my mind. I can see him now, that little golden-haired boy of eleven, as the sweet, patient face broke into a smile and a tiny hand was stretched out from the wheel chair in welcome. Laddy, an invalid since babyhood, had been brought by his doting parents to a beautiful mountain home, in fulfillment of a wish on the boy's part "to see the big hills." I don't know just why but I think it was the rapturous look in his wide starry eyes that made me read him Dr. Van Dyke's "Who Owns the Mountains." When I finished, he said simply:

"God didn't give me health but he gave me the mountains, didn't He? And that's enough."

Humble, patient souls such as this are the ones which man in his greed and egotism should pause to consider.

"Cupimus ampliora," so-called, is an enemy well worth conquering. The results will reward the effort. For history proves and experience teaches that the man who wants less is the man who gets more, in the long run.

A Young Man's Fancy

By Lewis G. Leary, Jr., '28

[illegible] everything takes place [illegible] seen very much strenuous [illegible] Joe W[illegible] I have met and studied. Joe W[illegible] At first I was afraid it was just another case illustrating the [illegible] retarding influence of college life, but I'm [illegible] interesting and pleasant to look at it in an [illegible] light.

Joe ought to be described in order that we may do full [illegible] to him. As I first knew him the fall of his Freshman year, he was typical. He still is typical, but some [illegible] of his career has gone through a complete metamorphosis [illegible] different type. You must be familiar with the classical caricature of the freshman: tall, raw-boned and awkward, unconsciously giving the impression that if he were examined closely, stray bits of straw might be discovered hidden away behind those prominent commanding ears. That was Joe. To see him walking on the campus used to cause real worry to some of us. How he could manipulate that body, all hands and feet, is still an unsolved puzzle. But he did, and strolled his way right into one of the best fraternities as we all surmised was well started on his quest for higher [illegible].

Sunday is normally a day of rest for most of the boys at the Delta Theta house. About the only early risers are the five Irish members who must get to nine o'clock [illegible], and Tiny Olson who must be up at seven to put a few more shovels of coke into the steam boiler. So I was naturally surprised one Sunday morning to find Joe in his room busily rifling his roommates' chiffonier in search of a clean shirt.

He started and blushed guiltily on seeing me.

"Don't worry, Joe," I hastened to assure him. "It's quite a custom here that the first up gets the pick of the wardrobe. Regard my morning's raiment! The only thing I wear of my own are my ties, and that's only a matter of taste."

"Yes, sir," answered Joe. I believe the kid was actually impressed.

"Why the early bird act this morning?" My curiosity had the best of me. "Got a heavy date?"

"No, sir," from Joe, he always called me "sir" those days. "I'm, I'm going to church."

"W-w-what?"

"I'm going to church."

Easter was many months away, but for some reason I went downtown with the kid that morning—and here's the catch, went to church—and liked it. Though I was careful not to believe everything I heard, I was interested in what old Doctor Stevens had to say about the challenge of youth. It seems that some one back in the old times said something about suffering little children to come unto to him, and the point old Doc was trying to get across was that some of the older people weren't giving the youngsters a chance.

On the way home, for the first time in my life I really heard Joe talk.

"Don't you think," he said, "that it isn't so much we haven't a chance, but that most of the fellows don't really want one? I think a fellow should go to church every Sunday."

"Try and do it," I said, for I hate to get into religious arguments.

"Yes," a pause—"But I do try to do it sir. There's something mighty peaceful like about a church. It kinda gets a fellow."

If I remember rightly, here I threw in some kind of a wise quip about sheep. But Joe wouldn't be stopped. However, if playing the peeping Tom to another fellow's ideals is as distasteful to you as it is to me, I know you will forgive me if I fail to record all he told me.

Somehow the next Sunday morning found us both in church again—and the next—and the next. When winter set in I began to think I knew what Doctor Stevens did mean by "suffering to come to him." It was mighty cold and unpleasant getting up some morni gs. Besides, Tiny Olson had joined the ranks of the late sleepers and so the house was always as cold as a barn. Once or twice we slept over, but not often, or if we did miss the early service at Doctor Stevens' Church there was always the later one at Saint Paul's which could be attended with no inconvenience. We managed to attend regularly all winter and invariably on our way homeward fell to discussing some subject or other with all the sagacity and sureness of the undergraduate. Once it was evolution; more than once prohibition, but most of all it was Joe's ideals. He certainly did have them. He was fairly overflowing. It always gave me a guilty kind of a feeling to hear him air them, a sort of embarrassed, sneaky feeling as if I were trespassing where I had no right. But I am a good listener.

Spring came—spring always does, and with it some overpowering influence which absolutely got the best of my friend. For the life of me I couldn't get him up morning to go to church. Cards, something he absolutely disbelieved in, became a regular practice. Nor were his regular trips to Montreal and points north without results. His books, never too intimate, became strangers to him, and in general the balmy, lazy atmosphere which characterizes the re-birth of so many fine things proved his undoing. He had his moral holiday. I am no prude, but I can't see yet why he had to go to such extremes in his having as he did.

Joe was no longer the innocent frosh he used to be. Balloon trousers and cubist hose had come to him to stay. Worldly wise upperclassmen shook their heads in cynical despair. College had got the best of Joe—just the case of another fellow snowed under by the overwhelming influences of the modern collegiate world. Our friend went back to the farm in June a different, but who will contest, a wiser boy.

The next fall I was surprised and a little bit upset, though pleased, to find that he had returned again to his old status. Church, lessons and morals were conscientiously tended to. His ideals and tragic seriousness of all matters pertaining to religion was the same, though somewhat broadened. He confided sheepishly to me on

(Continued on next page)

The Freshman's Lament

(Apologies to a Half-forgotten Cowboy Ballad)

By Jack Robinson '29

"Oh bury me not on the campus ground."
These words fell mixed with a pain profound
From the lips of a dying Freshman brave,
As his comrades gathered to dig his grave.

"Oh bury me not on the campus ground
Where the upperclass members will tramp around
Where the Gold Key Soph'mores are always found
Oh bury me not on the campus ground."

"Oh bury me not in my pea green hat
On the campus ground where I now am at."
In a falt'ring voice he made his prayer
To the Freshmen gathered around him there.

"Oh bury me not on this campus hill
With my socks of black on my cold feet still,
For my girl back home with shame will weep
If she knows in a Freshman's grave I sleep."

"Oh bury me not," and his voice it broke,
"With matches ready for a Soph'more's smoke;
For my mother would sob to her latest breath
If she knew that I died a Freshman's death.

"Oh bury me not on this campus wide,
With placard and bransack at my side;
For my sister would weep with sorrowing shame
If she knew that I died with a Freshman's name."

"Oh bury me not with my water pail,"
And his weak voice rose to a feeble wail.
"For 'twould shame my people to think that I
Should as a lowly Freshman die."

"Oh bury me not," and his voice failed there.
They paid no heed to his dying prayer.
In their pea green hats they stood that day
And lowered him into the campus clay.

They buried him there on the campus ground
Where the Gold Key Sophs tramp all around;
And the stone which marks the Freshman's fall
Says: "Here lies a Frosh," and that is all

Hades

By Pauline Sullivan '27

... must step down below with Professor ... and so, you'll meet a number of old friends.

And then Aeneas took me by the hand, and we entered the cave, no it wasn't a cave, it was like the Cage ... behind the Gym, and I don't know whether it was Aeneas or Professor Prindle. Still, I guess it was Aeneas. Professor Prindle wouldn't have taken me by the hand. Whichever he was, he talked continually:

"You remember the sixth book my old biographer wrote ... the things we saw down here. Well, I'm going to show them to you. All your life you had no respect for the underworld. Now you may see for yourself. Here comes Charon. Be nice to him and maybe he won't stop and argue with us."

So I tried to be nice.

"Good afternoon Mr. Tully—Charon, I mean. That's a nice boat you have there," pointing to his Sponsor canoe that had Elliott printed at both ends.

But he ignored me. Wrathfully he turned to Aeneas.

"Don't you know by now that you can't smoke in the halls of Hades? Take that nasty cigarette out of your mouth. What are you back here for anyway? Didn't we graduate you once?"

Still trying to be nice, I broke in: "Dear Aeneas is going to show me Hades, Charon. Won't you please take us across this miserable little puddle?"

"No I won't," he flung back as he paddled the spirit-laden tub away.

Aeneas was wringing his hands. It distressed me to see him thus. A happy thought came to me.

"Why Aeneas, we can jump across there."

"But the banks are muddy," objected Aeneas.

"They're dry compared to the South Walk," I told him, and before he had time to object again I had pulled the flowing skirts of my robe—(I was surprised to find myself clad in cap and gown)—up to my knees and executed a broad jump across the River Styx. It took quite a lot of urging and coaxing to persuade Professor Prindle—Aeneas, I mean—to follow my example. He did attempt it after a while and got all covered with mud; but it is pretty warm in Hades, and he was soon dry and happy again.

"There's Cerberus coming down the road," he exclaimed. I looked up toward Converse Hall and there sure enough was Cerberus bounding across the back campus.

"I've seen something like that before," I ventured, trembling.

"Possibly, possibly," returned Aeneas. "Cerberus was reincarnated for a few years in the form of a German Police dog. He belonged to a Freshman at U. V. M. in 1926."

No wonder the brute looked familiar. I used to peek around every corner and go through the Old Mill on tip-toe, carefully closing each door behind me, during Cerberus' reign on earth.

"Here Cerberus, old boy," called Aeneas, as he tossed him a couple of Smith Brothers' cough drops. In a minute Cerberus was drugged to perfection.

We went on unmolested and soon came to the abode of suicides and unhappy lovers. Aeneas patiently explained that since 1925 there hadn't been any unhappy lovers.

"But the suicides have increased rapidly," he added, "you'll find several of your friends there."

And sure enough, there was Professor Ogle, tearing his hair, and expressing in violent language his opinion of college students. Beside him sat Mr. Householder, calmly working a problem in Calculus, while Professor Donahue walked distractedly up and down devouring piece after piece of milk-white chalk.

Professor Dole they said was out on parole searching the Elysian Fields for spectacles. Professor Perkins too was having the afternoon off drinking the latest coffee for horseshoe crabs. Professor Williams was delivering a lecture on the "Rise and Fall of the United States" and Professor De-Forest was absent-mindedly tracing verbs in the sand.

Professor Carpenter was causing a great stir, hunting for his pipe, and incidentally treading on Professor Metcalf's toes, for of course Professor Metcalf was gliding up and down, twirling his pencil.

"But why are they all here?" I queried.

"The answer is obvious. They all committed suicide, said Aeneas, "it was the easiest way out of their troubles. But we must hurry on to the shades of the fallen heroes."

"Ah, now I shall see Hector and Achilles and all those old codgers," I told myself. But again I was mistaken, for the abode of fallen heroes was filled with athletes from Middlebury, Dartmouth, New York University, Springfield, Norwich, McGill, Notre Dame, well, in fact, every college that ever opposed Vermont. Their wardens were huge disembodied spirits wrapped in ethereal green blankets with V's of spun gold. I had time to recognize only a few before Aeneas dragged me off. Cayward, Archie Post, Howard Prentice, Semansky, and hosts of other Vermont men were superintending the prisoners' endless exercise which consisted in vain attempts at touchdowns, baskets and home runs.

We went along a little further, and came to Rhadamanthus' judgment seat. At least Aeneas said it was Rhadamanthus, but he looked just like Dean Swift to me. At any rate he was conducting a trial after the well-known University Senate method. Just when we arrived Rhadamanthus had retired to the anti-room to consult with President Bailey on the advisability of prolonging the school year by abolishing all vacations before and after mid-years. I wanted to wait for their decision, but my guide hurried me on.

We came to a long, narrow building from which issued bright-light, jazz and laughter. Aeneas said it was Pluto's mansion. Maybe it was, but Pluto was having a Junior Prom. Paul Rider and his college orchestra furnished music. Admission was free to all those who had flunked out of college. Others paid the earthly six dollars, except Phi Betes who were compelled to serve the refreshments of nectar and honey, and Coon's Ice Cream.

Aeneas hurried me away, much against my will to the Elysian Fields. At the entrance we met Professor Dole, his brow furrowed with deep thought, in his hand a single, weird-looking dandelion. He stopped when he saw Aeneas and whispered something about having seen Dido a minute ago.

Beads of perspiration froze on Aeneas' brow, and hastily he changed our course.

"I must show you the new addition to Hades," he muttered, and led me off to the left. Suddenly we came upon a classroom, 1 North College for all the world, and there sat my classmates in English 116, writing their thirty pages. Only it seems that their thirty pages were never finished. As soon as they finished one set they must start in on another. Still there was something familiar about that situation.

Professor Lindsay looked up from his voluminous heap of manuscript. "Glad to see you, Miss Sullivan. Sit right down. Let's see, you have 71, 654 28 pages due. All back work must be in by tomorrow noon." "Oh," I groaned, "I thought I was dead!"

"You are," he replied, "but you didn't suppose that excused you from your thirty pages, did you?"

A Young Man's Fancy

(Continued from preceding page)

day that he had decided to be a missionary. Joe would make a good missionary. But spring and Joe's decline again came hand in hand. This year his escapades were more delicate and less noisy than they had been before—but there they were. Again he was not the boy he had been.

* * * * *

Now Joe's third year is well on its way. Just last Sunday as we trudged up the hill through the snow he said to me:

"I think a fellow should go to church every Sunday."

I drew him on. I was interested.

"There's something quiet and restful about the atmosphere of a church that 'gets' me."

Then followed another of Joe's expositions of his way of seeing things, and of his rules, without which, he said, no man's life can be complete.

Another spring is coming soon. However, physicists tell us that no matter how far the pendulum is displaced from its original position it will, unless some very strong force acts against it, finally return to its starting point. And after all, especially in this part of the country, spring is one of the shortest seasons of the year.

The Women's Athletic Association officers for the coming year are: President, Naomi Thorne '27; vice-president, Della Martin '28; corresponding secretary, Lois Wright '27; recording secretary, Elizabeth Burke '28; treasurer, Doris Griffith '27; publicity manager, Dorothy Cottrell '29; senior executive, Arline Cushing '27; senior executive, Marian Parker '27; junior executive, Mildred Whitney '28; sophomore executive, Marian Everest '29; outing club president, Elizabeth Pingree '27.

Outdoor sports occupied a prominent part in activities at the beginning of the year. Hockey, volley ball and tennis season culminated in the Fall Field Day, which was most successfully staged at Grassmount. A fine spirit was evidenced in the way the classes turned out, each having their own bonfire and singing songs. Speeches were made by Miss Patterson, Miss Cummings, Miss Blanchard and by several former presidents of

Blue stockings, for the coming year, will have Ruth M. Flint '27 for its president; Eleanor S. Barrell '27, vice-president; Florence B. Smith '27, secretary-treasurer; and Eunice E. Cook '27 as chairman Program Committee.

The Literary Club has always endeavored to strengthen interest in literature, and now it is going to add an entirely new and different note to the custom of previous years. Wavering between a policy of "inaction" and "in action," it has firmly and irrevocably decided upon the latter plan. Action and accomplishment are to be the keynotes of the newly reorganized club. Education and instruction are to be combined with enjoyment and pleasure in such a way as to develop a strong society with only active members.

A committee has planned a program of more journalistic nature and at each meeting a paper will be required from all members. From the material thus received, half will be submitted

(Continued on page 5)

Y. W. C. A. NOTES

The Installation Service for the new officers of Y. W. C. A. will be held at Ifedstone Sunday at four. Laura Buckham '24 and a former president of our association will be the speaker.

Miss Gallagher's Story

(Continued from p. 9)

maid, why your life is full. Everyone is crazy about you. Why Miss Gallagher's crowd . . ."

She checked herself, realizing her blunder, but Miss Gallagher insisted for her.

"Are all failures, like Miss Gallagher?"

"Miss Gallagher a failure? Why you're the greatest success I know."

Phoebe, I'm going to tell you something I never told any one before. I think it's because of your name I'm doing it. My own name is Phoebe and Craig is the name of the man I love." She stopped a minute, herself surprised by her use of the present tense and then hurried on. "My father gave me, my daughter's name if I hadn't been a fool when I was your age. I thought I could write poetry. I could a little and somehow some of it got published. When Spencer Craig asked me to marry him"—she checked with a gesture Phoebe's attempt to speak—"I convinced myself that it was out of the question. I pictured married life to myself as unpoetic drudgery. I couldn't see anything wonderful about a nursery full of babies. If ever I married, I told myself, it must be a rich man, a very rich man who could support me and my inspiration in royal manner. I went away, and worked hard, trying to make myself famous and trying to forget Spencer Craig and I failed miserably both ways. Inspiration didn't seem to come. I was too unhappy. Finally I came to my senses enough to realize I had taken the wrong path. I packed my things and started for home, determined to eat the dust, confess on my knees, do anything to show Spencer that I was sorry. That trip home was the happiest day of my life. I was as excited as a little child, picturing our first meeting, planning what I'd say and what I'd wear and all that sort of thing. I was even seeing into the future a way. But when I got home they told me that Spen had left two years before. Someone heard that he had married. That was all I cared to hear. I went to Europe and studied and studied. I grew old rapidly and ten years ago arthritis began to make me miserable. I was back in this country then and didn't need much more to make a conventional old maid. It wouldn't be so bad, being a conventional old maid, if I weren't so alone, stranded. Pete is the only relative I have left, and I can't treat him as I would a grandchild. Pretty soon Pete and I will both be leaving for good, I guess he deserves a greater reward than I do. My doctor warned me before I left the city, but I hate to die. It's not right for anyone to die and leave a life like mine. It's all so empty."

She broke off suddenly, choked by her emotion.

Phoebe sat silent for a long minute. She was a clever girl but things had been transpiring almost too swiftly for her to grasp them. Her first thought was "I was wrong about not marrying Bob," but she tore her thoughts from herself. Trying hard to keep the excitement she felt out of her voice she said quietly, almost incoherently, "My mother's name was Phoebe. She died when I was born. Daddy married her for her name. Spencer Craig is my father."

With understanding came tears to Miss Gallagher. She kissed the young face at her side.

"You're the little girl I might have had."

"And you're the mother I might have had."

Hands tightly clasped they sat there, each busy with her own thoughts, thoughts of what might have been.

Familiar voices nearby startled them.

"Here they are, right where I left them. I'll leave you now, sir. I have some packing to do."

"Daddy," cried Phoebe, springing to meet him.

"How's my little girl?" demanded Phoebe's big white-haired father, "and what has she been doing to make Miss Merrill so glum?"

But Phoebe vouchsafed no reply. Taking her father by the hand she led him to Miss Gallagher's bench. Half crying, half laughing, but wholly pleased she said:

"Daddy, this is my namesake, Miss Phoebe Gallagher."

Miss Gallagher was sitting very straight her face rather pale, her crippled little hands trembling a little but the smile she flashed in greeting was as sweet as any girl's.

Phoebe left them then, hastening after the retreating Bob, but she was only a step on her way when she heard her father's unbelieving, happy gasp.

"Phoebe! after all these years!" and Miss Gallagher equally happy "Yes Spen, after all these years."

• • • • •

Late that night Bob and Phoebe, hand in hand stole out on the terrace. Both were silent, lost in contemplation of what they had that night witnessed.

When Phoebe had gone to Miss Gallagher's room just before dinner, she had found Miss Gallagher, a dainty little figure in white silk, lying apparently lifeless on the floor. Phoebe rushed from the room and called to Bob and her father in the lobby below. A hurriedly summoned doctor had bustled in, examined the unconscious patient and frowningly sounded her death knell.

"There's nothing we can do. She probably won't live through the night."

The two men and the girl waited breathless through the hours that followed. About nine the still hands on the bed fluttered like feeble little wings, the eyes opened, and Miss Gallagher's own smile lighted her face for the last time.

"Is she going to marry you, Bob?" she had gasped with difficulty.

"She is," answered boy and girl in unison.

Miss Gallagher's eyes shifted to the anxious face of Spencer Craig. She reached for his hand, held it in both of her's.

"Don't grieve for me Spen. I'll be waiting . . . tell Pete I've gone ahead."

And then, perhaps because the excitement of the day had been too much for her, perhaps because by reconciling Phoebe and Bob, she had made her own empty life less vain, Miss Gallagher died.

A Tale of the Jungle

(Continued from p. 4)

They were garbed in scarlet robes and bareheaded, with the exception of one in the center who wore a jaguar's head with bared teeth. He stood on a square block of throne directly to the rear of the dais. Stanton noted the fierce, hostile expression on his face as he turned cold eyes upon the former. Probably the high priest.

As the girl's sad eyes swept the throng of worshippers and rested on Stanton they widened startledly and her hand went involuntarily to her heart. Quickly she masked her emotions, but with a sudden thrill of exultance Stanton noted that her face lighted with hope.

Now commenced again the weird, intonating chant and the music of the drums and flutes. Just as the sun vanished below the trees the high priest, carrying a knobbed stick, stepped before an instrument, beside the throne, that Stanton took to be a form of marimba. Deep pulsating notes, mellow in tone beat upon the still air, rising gradually to an intense volume of sound, then stopped abruptly. The ceremonial in honor of the setting sun was over; in stately procession the royal party returned to the palace.

An attendant with a lighted torch ushered him to a chamber a short time later and placing the light in a niche in the wall quietly retired. On the floor was a bed of rushes covered with a heavy woolen blanket much like the Navajo blankets of the United States. Extinguishing the torch Stanton lit his pipe and seating himself on the ledge of his open window smoked thoughtfully. While he was busily evolving a plan for meeting the priestess he heard a slight rustling beneath him and peering down, in the gloom he saw the shadowy outline of a native woman. She beckoned to him. Puzzled, he dropped lightly to the ground and was about to speak when she lifted her finger to her lips for silence and motioned him to follow her. They passed stealthily down a side street of the sleeping town to a low side door at one wing of the temple. The woman disappeared into its black depths. A moment later he heard a light sound and the girl of his quest appeared.

"You have come in search of me—to rescue me?" she questioned breathlessly. He assented. "Oh—" She began to cry softly then checked her tears. In childish phrases, in halting broken English, she told him her story. Seven long years she had been in the village. Since she was fourteen. She and her father had become lost in the jungle and he had been stricken with fever. The *chicleros* guides had deserted them and a party of Mayas from the village had come upon her beside her father's dead body a few days later and brought her there. She had been heartbroken and longed to return home to Massachusetts but had given up hope of ever getting out of the jungle. Every night when there was a moon she had watched from the roof of the temple which gave a view of the river in hope that sometime a rescuer would appear. Every night since she had seen him floating down the river she had prayed for his return to take her home.

The natives had worshipped her for a daughter of the

The Weekly Wetness

In which the poets, firm believers in the old adage, "It's not so much what you say as how you say it," crack questionable nuts euphoniously.

Testimonial From a Grateful Patient

ALTHOUGH the fame of aspirin is known in every land as a cure for almost any sort of ill, still there's one thing that's a neater, a completer and a sweeter cure than the famous little pill. Yea, when blues hold sway in the only head you've got and your luck is left somewhere on a bat; then I ask your kind attention to this panacea I mention, which is this—go and buy yourself a hat! It will work, because I've tried it when my symptoms (want to hear 'em?) were as sad as those that Fleischmann raves about. I had Charley-horse and mumps, I was blue and in the dumps, though I tried em all from pills to sauerkraut. Then my best friend came and told me, in defiance of the "ads," dear, I know just what you have endured. My advice to you is flat: go and buy the cutest hat you can find!" I did. *I'm now completely cured.*

The Dean Sings

I'll show you the way to go home
You're tired and you need a little rest;
You had a little test about a week ago,
And you didn't do your best.
Your X's all have shown
Your head is largely bone
Oh, you'll often hear me singing this song
I'll show you the way to go home!

Drinking Song

(*As it was written*)

Here's to Prohibition
Drink 'er down,
Here's to this damn condition
Drink 'er down,
Here's to those who suspicion
That we're headed for perdition
But we can't shtop t' lishen
Drink 'er down!

(*As it left the censor*)

Hurrah for Prohibition
Drink your tea,
Saved from "ruination"
You and me.
We're the country's salvation
We're the hope of the nation
But we've missed an education
(*Disgustedly*) *Let us drink our tea.*

Two Sides to the Question

Wrote Isadora Duncan to the famous G. B. S
"In your head a great intelligence has God seen fit to nest;
"Whereas I with perfect beauty, am equally possessed
"Now it strikes me, darling Bernard, that it really would be best
"If you and I alliance formed, and with offspring were blest
"They'd have your bean, my form supreme. They'd stand the acid test!"

To Isadora Duncan, G. B. S. at once replied
"Your suggestion has its points, madame, it cannot be denied—
"Yet here's a possibility. We'd both be mortified
"If they should get their looks from me, their brains, from mother's side!"

A Rushing Song

Sing a song of rushing
Morning, noon and night
Everywhere are frat girls
Heads together, tight!

Perched on every window-ledge
In the Old Mill halls
While a dozen more are
Jammed against the walls.

Go into the Sci Hall.
There you'll see them stand,
Telling dirt in whispers
Behind a cautious hand

Even in the Lib'ry
Have they made their lair
And now every alcove knows
Just why "who" went "where."

Up comes another one
"What's the latest gore?"
"Good Lord! Don't you know it?
"We've got two Freshmen more!"

Note books full of scandal
And names arranged in rows
But what the profs are saying
No one ever knows.

Nothing seems quite natural;
Every one looks queer.
But now the profs are happy;
It's over for a year.

A la Bill Adams

"Zounds," cried the bo'sun,
"Curses," called the mate
"My Gawd," said the captain
The rest I can't relate.

sun because of her golden hair. But the high priest hated her for her influence over the people and had come to realize that she was only a mortal. He had awaited the opportunity to turn the people against her, and now because of the drouth he had convinced their simple minds that she was not a daughter of the sun but an evil spirit and that the sun god had sent the drought upon them because he was angry at them for worshipping her. Afraid of the powers she might conjure up they were to remain passive until the morning of the Festival of the Sun, two days later. At this time she was to be suddenly seized and taken over the Sacred Way that lead to the *Cenote*, a deep chasm with a pool of water at the bottom. Her heart was to be torn out to appease the Sun God and her body was to be thrown into the well. This she had learned from her faithful servant.

Stanton decided that they must escape just before dawn, before the village awakened. Through the long hours they walked and talked together in a low tone, and Stanton was filled with a queer joy. He would give his life for the girl, if necessary. With the lightening of the sky they stole around the temple and started down a path screened with bushes that led to the bridge. Suddenly there was a wild yell and savages surrounded them. The high-priest had anticipated their plan. Stanton caught the leader under the chin with his fist and pulled his automatic

(Continued on page 3)

Bluestockings, for the coming year, will have Ruth M. Flint '27 for its president; Eleanor S. Barrell '27, vice-president; Florence B. Smith '27, secretary-treasurer; and Eunice E. Cook '27 as chairman Program Committee.

The Literary Club has always endeavored to strengthen interest in literature, and now it is going to add an entirely new and different note to the custom of previous years. Wavering between a policy of "inaction" and "in action," it has firmly and irrevocably decided upon the latter plan. Action and accomplishment are to be the keynotes of the newly reorganized club. Education and instruction are to be combined with enjoyment and pleasure in such a way as to develop a strong society with only active members.

A committee has planned a program of more journalistic nature and at each meeting a paper will be required from all members. From the material thus received, half will be submitted

Miss Gallagher's Story

(Continued from p.)

maid, why your life is full. Everyone is crazy about you. Why Miss Gallagher's crowd.."

She checked herself, realizing her blunder, but Miss Gallagher finished for her.

"Are all failures, like Miss Gallagher?"

"... a failure! Why you're the greatest success I ..."

Phoebe, I'm going to tell you something I never told any one before. I think it's because of your name I'm doing it. My own name is Phoebe and Craig is the name of the man I love." She stopped a minute, herself surprised by her use of the present tense and then hurried on. "It might have been my daughter's name if I hadn't been a fool when I was your age. I thought I could write poetry. I could, a little and somehow some of it got published. When Spencer Craig asked me to marry him" —she checked with a gesture Phoebe's attempt to speak— "I convinced myself that it was out of the question. I pictured married life to myself as unpoetic drudgery. I couldn't see anything wonderful about a nursery full of babies. If ever I married, I told myself, it must be a rich man, a very rich man who could support me and my inspiration in royal manner. I went away, and worked hard, trying to make myself famous and trying to forget Spencer Craig and I failed miserably both ways. Inspiration didn't seem to come. I was too unhappy. Finally I came to my senses enough to realize I had taken the wrong path. I packed my things and started for home, determined to eat the dust, confess on my knees, do anything to show Spencer that I was sorry. That trip home was the happiest day of my life. I was as excited as a little child, picturing our first meeting, planning what I'd say and what I'd wear and all that sort of thing. I was even seeing into the future a way. But when I got home they told me that Spen had left two years before. Someone heard that he had married. That was all I cared to hear. I went to Europe and studied and studied. I grew old rapidly and ten years ago arthritis began to make me miserable. I was back in this country then and didn't need much more to make a conventional old maid. It wouldn't be so bad, being a conventional old maid, if I weren't so alone, stranded. Pete is the only relative I have left, and I can't treat him as I would a grandchild. Pretty soon Pete and I will both be leaving for good, I guess he deserves a greater reward than I do. My doctor warned me before I left the city, but I hate to die. It's not right for anyone to die and leave a life like mine. It's all so empty."

She broke off suddenly, choked by her emotion.

Phoebe sat silent for a long minute. She was a clever girl but things had been transpiring almost too swiftly for her to grasp them. Her first thought was "I was wrong about not marrying Bob," but she tore her thoughts from herself. Trying hard to keep the excitement she felt out of her voice she said quietly, almost incoherently. "My mother's name was Phoebe. She died when I was born. Daddy married her for her name. Spencer Craig is my father."

With understanding came tears to Miss Gallagher. She kissed the young face at her side.

"You're the little girl I might have had."

"And you're the mother I might have had."

Hands tightly clasped they sat there, each busy with her own thoughts, thoughts of what might have been.

Familiar voices nearby startled them.

"Here they are, right where I left them. I'll leave you now, sir. I have some packing to do."

"Daddy," cried Phoebe, springing to meet him.

"How's my little girl?" demanded Phoebe's big white-haired father, "and what has she been doing to make Ben Merrill so glum?"

But Phoebe vouchsafed no reply. Taking her father by the hand she led him to Miss Gallagher's bench. Half crying, half laughing, but wholly pleased she said,

"Daddy, this is my namesake, Miss Phoebe Gallagher."

Miss Gallagher was sitting very straight her face rather pale, her crippled little hands trembling a little, but the smile she flashed in greeting was as sweet as any girl's.

Phoebe left them then, hastening after the retreating Bob, but she was only a step on her way when she heard her father's unbelieving, happy gasp,

"Phoebe! after all these years!" and Miss Gallagher's equally happy "Yes Spen, after all these years."

• • • • •

Late that night Bob and Phoebe, hand in hand stole out on the terrace. Both were silent, lost in contemplation of what they had that night witnessed.

When Phoebe had gone to Miss Gallagher's room just before dinner, she had found Miss Gallagher, a dainty little figure in white silk, lying apparently lifeless on the floor. Phoebe rushed from the room and called to Bob and her father in the lobby below. A hurriedly summoned doctor had bustled in, examined the unconscious patient and frowningly sounded her death knell.

"There's nothing we can do. She probably won't live through the night."

The two men and the girl waited breathless through the hours that followed. About nine the still hands on the bed fluttered like feeble little wings, the eyes opened and Miss Gallagher's own smile lighted her face for the last time.

"Is she going to marry you, Bob?" she had gasped with difficulty.

"She is," answered boy and girl in unison.

Miss Gallagher's eyes shifted to the anxious face of Spencer Craig. She reached for his hand, held it in both of her's.

"Don't grieve for me Spen. I'll be waiting . . . tell Pete I've gone ahead."

And then, perhaps because the excitement of the day had been too much for her, perhaps because by reconciling Phoebe and Bob, she had made her own empty life less vain, Miss Gallagher died.

A Tale of the Jungle

(Continued from p. 4)

They were garbed in scarlet robes and bareheaded, with the exception of one in the center who wore a jaguar's head with bared teeth. He stood on a square block of throne directly to the rear of the dais. Stanton noted the fierce, hostile expression on his face as he turned cold eyes upon the former. Probably the high priest.

As the girl's sad eyes swept the throng of worshippers and rested on Stanton they widened startledly and her hand went involuntarily to her heart. Quickly she masked her emotions, but with a sudden thrill of exultance Stanton noted that her face lighted with hope.

Now commenced again the weird, intonating chant and the music of the drums and flutes. Just as the sun vanished below the trees the high priest, carrying a knobbed stick, stepped before an instrument, beside the throne, that Stanton took to be a form of marimba. Deep pulsating notes, mellow in tone beat upon the still air, rising gradually to an intense volume of sound, then stopped abruptly. The ceremonial in honor of the setting sun was over; in stately procession the royal party returned to the palace.

An attendant with a lighted torch ushered him to a chamber a short time later and placing the light in a niche in the wall quietly retired. On the floor was a bed of rushes covered with a heavy woolen blanket much like the Navajo blankets of the United States. Extinguishing the torch Stanton lit his pipe and seating himself on the ledge of his open window smoked thoughtfully. While he was busily evolving a plan for meeting the priestess he heard a slight rustling beneath him and peering down, in the gloom he saw the shadowy outline of a native woman. She beckoned to him. Puzzled, he dropped lightly to the ground and was about to speak when she lifted her finger to her lips for silence and motioned him to follow her. They passed stealthily down a side street of the sleeping town to a low side door at one wing of the temple. The woman disappeared into its black depths. A moment later he heard a light sound and the girl of his quest appeared.

"You have come in search of me—to rescue me?" she questioned breathlessly. He assented. "Oh—" She began to cry softly then checked her tears. In childish phrases, in halting broken English, she told him her story. Seven long years she had been in the village. Since she was fourteen. She and her father had become lost in the jungle and he had been stricken with fever. The *chicleros* guides had deserted them and a party of Mayas from the village had come upon her beside her father's dead body a few days later and brought her there. She had been heartbroken and longed to return home to Massachusetts, but had given up hope of ever getting out of the jungle. Every night when there was a moon she had watched from the roof of the temple which gave a view of the river in hope that sometime a rescuer would appear. Every night since she had seen him floating down the river she had prayed for his return to take her home.

The natives had worshipped her for a daughter of the

Testimonial From a Grateful Patient

ALTHOUGH the fame of aspirin is known in every land as a cure for almost any sort of ill, still there's one thing that's a neater, a completer and a sweeter panacea than the famous little pill. Yes, when blues hold a convention in the only head you've got and your luck has gone off somewhere on a bat; then I ask your kind attention to this panacea I mention, which is this—go out and buy yourself a hat! It will work, because I've tried it when my symptoms (want to hear 'em?) were as blue as those that Fleischmann raves about. I had Charley-horse and mumps, I was blue and in the dumps, though I'd tried 'em all from pills to sauerkraut. Then my best friend came and told me, in defiance of the "ads," "My dear, I know just what you have endured. My advice to you is flat; go and buy the cutest hat you can find!" I did. *I'm now completely cured.*

The Dean Sings

I'll show you the way to go home
You're tired and you need a little rest;
You had a little test about a week ago,
And you didn't do your best.
Your X's all have shown
Your head is largely bone
Oh, you'll often hear me singing this song
I'll show you the way to go home!

Drinking Song

(*As it was written*)

Here's to Prohibition
Drink 'er down,
Here's to this damn condition
Drink 'er down,
Here's to those who suspicion
That we're headed for perdition
But we can't shtop t' lishen
Drink 'er down!

(*As it left the censor*)

Hurrah for Prohibition
Drink your tea,
Saved from "ruination"
You and me.
We're the country's salvation
We're the hope of the nation
But we've missed an education
(*Disgustedly*) *Let us drink our tea.*

Two Sides to the Question

Wrote Isadora Duncan to the famous G. B. S.:
"In your head a great intelligence has God seen fit to nest;
"Whereas I with perfect beauty, am equally possessed
"Now it strikes me, darling Bernard, that it really would be best
"If you and I alliance formed, and with offspring were blest,
"They'd have your bean, my form supreme. They'd stand the acid test!"

To Isadora Duncan, G. B. S. at once replied
"Your suggestion has its points, madame, it cannot be denied—
"Yet here's a possibility. We'd both be mortified
"If they should get their looks from me, their brains, from mother's side!"

A Rushing Song

Sing a song of rushing
Morning, noon and night
Everywhere are frat girls
Heads together, tight!

Perched on every window-ledge
In the Old Mill halls
While a dozen more are
Jammed against the walls.

Go into the Sci Hall.
There you'll see them stand,
Telling dirt in whispers
Behind a cautious hand.

Even in the Lib'ry
Have they made their lair
And now every alcove knows
Just why "who" went "where."

Up comes another one
"What's the latest gore?"
"Good Lord! Don't you know it?
"We've got two Freshmen more!"

Note books full of scandal
And names arranged in rows.
But what the profs are saying
No one ever knows.

Nothing seems quite natural;
Every one looks queer.
But now the profs are happy;
It's over for a year.

A la Bill Adams

"Zounds," cried the bo'sun,
"Curses," called the mate
"My Gawd," said the captain—
The rest I can't relate.

---

sun because of her golden hair. But the high priest hated her for her influence over the people and had come to realize that she was only a mortal. He had awaited the opportunity to turn the people against her, and now because of the drouth he had convinced their simple minds that she was not a daughter of the sun but an evil spirit and that the sun god had sent the drought upon them because he was angry at them for worshipping her. Afraid of the powers she might conjure up they were to remain passive until the morning of the Festival of the Sun, two days later. At this time she was to be suddenly seized and taken over the Sacred Way that lead to the *Cenote*, a deep chasm with a pool of water at the bottom. Her heart was to be torn out to appease the Sun God and her body was to be thrown into the well. This she had learned from her faithful servant.

Stanton decided that they must escape just before dawn, before the village awakened. Through the long hours they walked and talked together in a low tone, and Stanton was filled with a queer joy. He would give his life for the girl, if necessary. With the lightening of the sky they stole around the temple and started down a path screened with bushes that led to the bridge. Suddenly there was a wild yell and savages surrounded them. The high-priest had anticipated their plan. Stanton caught the leader under the chin with his fist and pulled his automatic

It's not right for anyone to die and leave a life like mine. It's all so empty."

She broke off suddenly, choked by her emotion.

Phoebe sat silent for a long minute. She was a clever girl but things had been transpiring almost too swiftly for her to grasp them. Her first thought was "I was wrong about not marrying Bob," but she tore her thoughts from herself. Trying hard to keep the excitement she felt out of her voice she said quietly, almost incoherently, "My mother's name was Phoebe. She died when I was born. Daddy married her for her name. Spencer Craig is my father."

With understanding came tears to Miss Gallagher. She kissed the young face at her side.

"You're the little girl I might have had."

"And you're the mother I might have had."

Hands tightly clasped they sat there, each busy with her own thoughts, thoughts of what might have been.

Familiar voices nearby startled them.

"Here they are, right where I left them. I'll leave you now, sir. I have some packing to do."

"Daddy," cried Phoebe, springing to meet him.

"How's my little girl?" demanded Phoebe's big white-haired father, "and what has she been doing to make Bob Merrill so glum?"

But Phoebe vouchsafed no reply. Taking her father by the hand she led him to Miss Gallagher's bench. Half crying, half laughing, but wholly pleased she said:

"Daddy, this is my namesake, Miss Phoebe Gallagher."

Miss Gallagher was sitting very straight her face rather pale, her crippled little hands trembling a little, but the smile she flashed in greeting was as sweet as any girl's.

Phoebe left them then, hastening after the retreating Bob, but she was only a step on her way when she heard her father's unbelieving, happy gasp.

"Phoebe! after all these years!" and Miss Gallagher's equally happy "Yes Spen, after all these years."

• • • • •

Late that night Bob and Phoebe, hand in hand stood out on the terrace. Both were silent, lost in contemplation of what they had that night witnessed.

When Phoebe had gone to Miss Gallagher's room just before dinner, she had found Miss Gallagher, a dainty little figure in white silk, lying apparently lifeless on the floor. Phoebe rushed from the room and called to Bob and her father in the lobby below. A hurriedly summoned doctor had bustled in, examined the unconscious patient and frowningly sounded her death knell.

"There's nothing we can do. She probably won't live through the night."

The two men and the girl waited breathless through the hours that followed. About nine the still hands on the bed fluttered like feeble little wings, the eyes opened and Miss Gallagher's own smile lighted her face for the last time.

"Is she going to marry you, Bob?" she had gasped with difficulty.

"She is," answered boy and girl in unison.

Miss Gallagher's eyes shifted to the anxious face of Spencer Craig. She reached for his hand, held it in both of her's.

"Don't grieve for me Spen. I'll be waiting . . . tell Pete I've gone ahead."

And then, perhaps because the excitement of the day had been too much for her, perhaps because by reconciling Phoebe and Bob, she had made her own empty life less vain, Miss Gallagher died.

A Tale of the Jungle

(Continued from p. 5)

They were garbed in scarlet robes and bareheaded, with the exception of one in the center who wore a jaguar's head with bared teeth. He stood on a square block of throne directly to the rear of the dais. Stanton noted the fierce, hostile expression on his face as he turned cold eyes upon the former. Probably the high priest.

As the girl's sad eyes swept the throng of worshippers and rested on Stanton they widened startledly and her hand went involuntarily to her heart. Quickly she masked her emotions, but with a sudden thrill of exultance Stanton noted that her face lighted with hope.

Now commenced again the weird, intonating chant and the music of the drums and flutes. Just as the sun vanished below the trees the high priest, carrying a knobbed stick, stepped before an instrument, beside the throne, that Stanton took to be a form of marimba. Deep pulsating notes, mellow in tone beat upon the still air, rising gradually to an intense volume of sound, then stopped abruptly. The ceremonial in honor of the setting sun was over; in stately procession the royal party returned to the palace.

An attendant with a lighted torch ushered him to a chamber a short time later and placing the light in a niche in the wall quietly retired. On the floor was a bed of rushes covered with a heavy woolen blanket much like the Navajo blankets of the United States. Extinguishing the torch Stanton lit his pipe and seating himself on the ledge of his open window smoked thoughtfully. While he was busily evolving a plan for meeting the priestess he heard a slight rustling beneath him and peering down, in the gloom he saw the shadowy outline of a native woman. She beckoned to him. Puzzled, he dropped lightly to the ground and was about to speak when she lifted her finger to her lips for silence and motioned him to follow her. They passed stealthily down a side street of the sleeping town to a low side door at one wing of the temple. The woman disappeared into its black depths. A moment later he heard a light sound and the girl of his quest appeared.

"You have come in search of me—to rescue me?" she questioned breathlessly. He assented. "Oh—" She began to cry softly then checked her tears. In childish phrases, in halting broken English, she told him her story. Seven long years she had been in the village. Since she was fourteen. She and her father had become lost in the jungle and he had been stricken with fever. The *chicleros* guides had deserted them and a party of Mayas from the village had come upon her beside her father's dead body a few days later and brought her there. She had been heartbroken and longed to return home to Massachusetts, but had given up hope of ever getting out of the jungle. Every night when there was a moon she had watched from the roof of the temple which gave a view of the river in hope that sometime a rescuer would appear. Every night since she had seen him floating down the river she had prayed for his return to take her home.

The natives had worshipped her for a daughter of the

The Weekly Wetness

In which the poets, firm believers in the old adage, "It's not so much what you say as how you say it," crack questionable nuts euphoniously.

Testimonial From a Grateful Patient

ALTHOUGH the fame of aspirin is known in every land as a cure for almost any sort of ill, still there's one thing that's a neater, a completer and a sweeter [illegible] than the famous little pill. Yea, when blues hold a convention in the only head you've got and your luck has gone off somewhere on a bat; then I ask your kind attention to this panacea I mention, which is this—go out and buy yourself a hat! It will work, because I've used it when my symptoms (want to hear 'em?) were as bad as those that Fleischmann raves about. I had Charley-horse and mumps, I was blue and in the dumps, though I cured 'em all from pills to sauerkraut. Then my best friend came and told me, in defiance of the "ads," My dear, I know just what you have endured. My advice to you is flat; go and buy the cutest hat you can find!" I did. *I'm now completely cured.*

The Dean Sings

I'll show you the way to go home
You're tired and you need a little rest;
You had a little test about a week ago,
And you didn't do your best.
Your X's all have shown
Your head is largely bone
Oh, you'll often hear me singing this song
I'll show you the way to go home!

Drinking Song

(*As it was written*)

Here's to Prohibition
Drink 'er down,
Here's to this damn condition
Drink 'er down,
Here's to those who suspicion
That we're headed for perdition
But we can't shtop t' lishen
Drink 'er down!

(*As it left the censor*)

Hurrah for Prohibition
Drink your tea,
Saved from "ruination"
You and me.
We're the country's salvation
We're the hope of the nation
But we've missed an education
(*Disgustedly*) *Let us drink our tea.*

Two Sides to the Question

Wrote Isadora Duncan to the famous G. B. S.:
"In your head a great intelligence has God seen fit to nest;
"Whereas I with perfect beauty, am equally possessed
"Now it strikes me, darling Bernard, that it really would be best
"If you and I alliance formed, and with offspring were blest,
"They'd have your brain, my form supreme. They'd stand the acid test!"

To Isadora Duncan, G. B. S. at once replied
"Your suggestion has its points, madame, it cannot be denied—
"Yet here's a possibility. We'd both be mortified
"If they should get their looks from me, their brains, from mother's side!"

A Rushing Song

Sing a song of rushing
Morning, noon and night
Everywhere are frat girls
Heads together, tight!

Perched on every window-ledge
In the Old Mill halls
While a dozen more are
Jammed against the walls.

Go into the Sci Hall.
There you'll see them stand,
Telling dirt in whispers
Behind a cautious hand.

Even in the Lib'ry
Have they made their lair
And now every alcove knows
Just why "who" went "whore."

Up comes another one
"What's the latest gore?"
"Good Lord! Don't you know it?
"We've got two Freshmen more!"

Note books full of scandal
And names arranged in rows
But what the profs are saying
No one ever knows.

Nothing seems quite natural;
Every one looks queer.
But now the profs are happy;
It's over for a year.

A la Bill Adams

"Zounds," cried the bo'sun,
"Curses," called the mate
"My Gawd," said the captain—
The rest I can't relate.

sun because of her golden hair. But the high priest hated her for her influence over the people and had come to realize that she was only a mortal. He had awaited the opportunity to turn the people against her, and now because of the drouth he had convinced their simple minds that she was not a daughter of the sun but an evil spirit and that the sun god had sent the drought upon them because he was angry at them for worshipping her. Afraid of the powers she might conjure up they were to remain passive until the morning of the Festival of the Sun, two days later. At this time she was to be suddenly seized and taken over the Sacred Way that lead to the *Cenote*, a deep chasm with a pool of water at the bottom. Her heart was to be torn out to appease the Sun God and her body was to be thrown into the well. This she had learned from her faithful servant.

Stanton decided that they must escape just before dawn, before the village awakened. Through the long hours they walked and talked together in a low tone, and Stanton was filled with a queer joy. He would give his life for the girl, if necessary. With the lightening of the sky they stole around the temple and started down a path screened with bushes that led to the bridge. Suddenly there was a wild yell and savages surrounded them. The high-priest had anticipated their plan. Stanton caught the leader under the chin with his fist and pulled his automatic

[illegible]Congress.

The Women's Athletic Association officers for the coming year are: President, Naomi Thorne '27; vice-president, Della Martin '28; corresponding secretary, Lois Wright '27; recording secretary, Elizabeth Burke '28; treasurer, Doris Griffith '27; publicity manager, Dorothy Cottrell '29; senior executive, Arline Cushing '27; senior executive, Marian Parker '27; junior executive, Mildred Whitney '28; sophomore executive, Marian Everest '29; outing club president, Elizabeth Pingree '27.

Outdoor sports occupied a prominent part in activities at the beginning of the year. Hockey, volley ball and tennis season culminated in the Fall Field Day, which was most successfully staged at Grassmount. A fine spirit was evidenced in the way the classes turned out, each having their own bonfire and singing songs. Speeches were made by Miss Patterson, Miss Cummings, Miss Blanchard and by several former presidents of
(Continued on page 3)

Bluestockings, for the coming year, will have Ruth M. Flint '27 for its president; Eleanor S. Barrell '27, vice-president; Florence B. Smith '27, secretary-treasurer; and Eunice E. Cook '27 as chairman Program Committee.

The Literary Club has always endeavored to strengthen interest in literature, and now it is going to add an entirely new and different note to the custom of previous years. Wavering between a policy of "inaction" and "in action," it has firmly and irrevocably decided upon the latter [illegible]. Action and accomplishment are to be the keynotes of the newly reorganized club. Education and instruction are to be combined with enjoyment and pleasure in such a way as to develop a strong society with only active members.

A committee has planned a program of more journalistic nature, and at each meeting a paper will be required from all members. From the material thus received, half will be submitted
